SALES MANAGERS MEET CHICAGO
January 18 and 19

The Sales Managers Division, under the leadership of Buryl Lotteridge (KFAB-KOIL, Omaha) will meet in Chicago at the Sherman Hotel January 18 and 19. Chairman Lotteridge has given a lot of time and effort to this meeting and the schedule promises an excellent opportunity to exchange viewpoints on some extremely important sales problems.

DUFFY COPYRIGHT BILL

Senator Duffy of Wisconsin has reintroduced his copyright bill of the last session of Congress. Copies of the bill were not available as NAB Reports went to press but the Senator stated that the new bill contains some “minor” changes in the text as approved by the Senate last session.

NEW STATIONS GRANTED

The Federal Communications Commission this week granted a construction permit for the erection of a new broadcast station at Superior, Wis., to use 1200 kilocycles, 100 watts power and unlimited time on the air.

A construction permit for a new broadcast station at Visalia, Calif., was also granted to use 1190 kilocycles, 250 watts power and daytime operation.

A third construction permit for a new broadcast station was also granted for Bridgeport, N. J., to use 1210 kilocycles, 100 watts power and daytime operation.

ANNUAL COMMUNICATIONS COMMISSION REPORT

The second annual report of the Federal Communications Commission for the fiscal year ending June 30, 1936, was made to Congress on Tuesday of this week.

The Commission made no recommendations for legislation. If any legislative recommendations are to be made this year they will be forwarded to Congress by another method.

The report is divided up into different sections including the office of the secretary; the examining department; law department; engineering department; and accounting, statistical and tariff department. The purpose of the report is to put into historical form the activities of the Commission during the past fiscal year.

LICENSE RENEWAL FOR WHBC RECOMMENDED

Nolan S. Walker applied to the Federal Communications Commission for a construction permit for the erection of a new station at Canton, Ohio, to use 1200 kilocycles, 100 watts and 250 watts LS and unlimited time on the air. Also station WHBC, at Canton, operating on the same frequency and with the same power asked for a license renewal; an application for consent to voluntary assignment of the station license and of the construction permit from Edward P. Graham to the Ohio Broadcasting Company; an application for modification of the construction permit, including an extension of time for completion; and an application of Nolan S. Walker to acquire the facilities heretofore granted to Edward P. Graham, licensee of WHBC.

Examiner Melvin H. Dalberg in Report No. 1-332 recommended that the application of Nolan S. Walker for a construction permit for a new station be denied; that the application of license renewal for station WHBC be granted; that the application of Edward P. Graham for consent to voluntary assignment of license and construction permit to the Ohio Broadcasting Company be granted; and that the modification of construction permit for additional time for the erection of the station be granted.

ACTORS BILL REINTRODUCED

Representative Dickstein of New York has reintroduced his bill (HR 330) "to protect the artistic and earning opportunities in the United States for American actors, vocal musicians, operatic singers, solo dancers, solo instrumentalists and orchestral conductors and for other purposes." The bill which has been referred to the House Committee on Immigration and Naturalization is identical with the bill which passed the House at the last session of Congress but was not taken up by the Senate. The bill will be found on page 1857 of this issue.

NEW TEXAS STATION RECOMMENDED

The Sweetwater Broadcasting Company applied to the Federal Communications Commission to grant it a construction permit for the erection of a new station at Sweetwater, Texas, to use 1310 kilocycles, 100 watts power, daytime operation.

Examiner R. H. Hyde, in Report No. 1-331 recommended that the application be granted. He found that there is no local broadcast station or primary service from any station available in the applicant's area, and it is therefore concluded that there is a need for the proposed new station. The Examiner found also in this case that "the establishment of the proposed station would provide a needed broadcast service not otherwise available, and the granting of a permit, therefore would serve public interest, convenience and necessity."

INTERNAL REVENUE CITES SOME DEPRECIATION AVERAGES FOR RADIO

In a letter dated January 5 Deputy Commissioner Russell of the Bureau of Internal Revenue gives the ranges of serviceable lines within which the cases of many broadcasting companies have been approved. The letter reads as follows:

"In response to your request over the telephone, the following is submitted in regard to depreciation on the physical assets owned by the average broadcasting company.

"Depreciation, including obsolescence, for income tax purposes is determined with consideration being given to the facts available in each particular case. It has been found that due to different operating conditions and locations, various financial policies and accounting practices, the allowance for depreciation cannot be predicted upon a general average."
“The cases of many broadcasting companies before the Internal Revenue Bureau have been approved within the following ranges of serviceable lives: the depreciation deduction including both depreciation and normal obsolescence, the latter being recognized as a substantial factor in this particular industry:

“Studio control, speech input and transmitter equipment, 8 to 10 years.

“Antenna equipment, 10 to 12 years.

“Towers, 10 to 15 years.

“Buildings, 25 to 50 years.

“Furniture and Fixtures—Office, 10 years.

“Furniture and Fixtures—Studio, 5 years.

“Pianos and other musical instruments, 10 years.”

Members will observe that allowance for depreciation cannot be predicated upon a general average. Each broadcaster should produce all the facts pertinent to his own case and press for a decision thereon without reliance upon general practices.

COPELAND REINTRODUCES FOOD BILL

Senator Copeland of New York has reintroduced his pure food bill (S. 5) which will be found, together with a statement on page 1850 of this issue.

CULKIN LIQUOR BILL

A bill has been introduced in the House (H. R. 13) which would prohibit the advertising of liquor by radio. The bill which has been referred to the House Committee on Interstate and Foreign Commerce will be found on page 1857 of this issue.

Drys Protest Broadcasting

Organized "drys" of the United States are using a "bootleg" radio station, barred from this country in the interest of public health and welfare, as a propaganda medium, is the charge made in a complaint filed with the Federal Communications Commission by C. D. Cecil, secretary of the National Institute of Manufacturers and Distributors, Inc.

The complaint specifically asks investigation of an announcement by Miss Ethel Hubler, editor and publisher of "The National Voice," of Los Angeles, Calif., of "dry" broadcasting from Del Rio, Texas, by means of Station XERA, which is located in Villa Acuna, Mexico, "and over approximately 60 other stations in 30 different states." The XERA Station is operated by Dr. John R. Brinkley, whose station, KFBB at Milford, Kans., was closed by the Federal Radio Commission about six years ago after a public hearing on charges that its broadcasts were "inimical to public health and welfare" and the nature of its programs conflicted with the law prohibiting the broadcasting of "profane, obscene, or indecent" utterances.

The complaint made by the National Institute of Manufacturers and Distributors, Inc., which is an organization of industrialists opposed to Prohibition, contends that the broadcast as announced by the "dry" publication, indicates violation of United States Law. It quotes Miss Hubler's statement that her broadcast will emanate from Del Rio, Texas, and be transmitted by Station XERA, and declares:

"This announcement would indicate violation of the Federal Communications Act of 1934" (Public Law No. 416). The radio broadcasting station named XERA, is located on foreign soil, at Villa Acuna, Mexico, and the Communications Act of 1934 specifically prohibits transmission of programs from the United States to foreign stations which can be heard in the United States.

Further, the complaint suggests that this foreign station, XERA, one of the so-called "bootleg" stations along the Rio Grande, which seriously interfere with the operation of stations in the United States licensed by your Commission, has been made an integral part of a broadcasting chain in this country which includes 60 stations in 30 states.

The complaint also cites that the action of the Federal Radio Commission in closing the station operated by Brinkley in Kansas, was upheld by the United States District Court of Appeals for the District of Columbia in a decision which quoted the Biblical injunction: "By their fruits ye shall know them."

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

No. 3021. Charging unfair competition in the sale of soap, a complaint has been filed against Allen B. Wrisley Company and Allen B. Wrisley Distributing Company, also trading as Regal Soap Company, both of 6801 West 65th Street, Chicago, and Karl Mayer, George A. Wrisley, and Wrisley B. Oleson, co-partners, trading as Karl Mayer & Co., all of Merchandise Mart Building, Chicago.

The respondents are alleged to have advertised certain soaps as olive oil soaps, when in fact the oil or fat ingredient of these products was not entirely olive oil, according to the complaint.

In genuine olive oil soap, the complaint points out, the oil ingredient is olive oil to the exclusion of all other oils and fats. Such product is in demand as a high quality soap, free from substance harmful to the skin or to delicate fabrics.

No. 3022. Unfair trade representation in the sale of radio receiving sets, radio tubes, and supplies, are alleged in a complaint issued against Sun Radio Service & Supply Corporation, 938 F. Street, N. W., Washington, D. C.

Advertising its products as "Newest R. C. A. Licensed Automatic Featuring the New Metal Tube," the respondent company, through its representations, is alleged to have deceived buyers into believing that its products were those of the Radio Corporation of America and its subsidiaries, and that its glass tubes were metal tubes in which the technical elements were sealed in a vacuum of such a nature these were not the fact.

Thirty wholesalers and distributors of sponges in interstate commerce, said to constitute a large and important part of such wholesale trade in the United States, are named respondents in a complaint alleging practices which have the effect of monopoly and unreasonably restrain trade.

Nos. 3024 and 3025. Principal respondents are The Sponge Institute, of Washington, D. C., its officers and members, including the thirteen companies, and the Florida Sponge Packers Association, of Tarpon Springs, Fla., its officers and members, including six packing firms located at Tarpon Springs, Fla.

The Commission has also issued a complaint against the Tarpon Springs Sponge Exchange, Inc., of Tarpon Springs, Fla., charging conspiracy and restraint of trade by member sponge packers and producers. They are alleged to have combined to prevent all purchases of wool sponges, in or outside the exchange, between February 15, 1935, and May 1, 1935. One effect, it is alleged, was an increase in the price of wool sponges to wholesalers, retailers and the public.

All respondents named in the complaint against The Sponge Institute are charged with entering into an agreement, combination and conspiracy to create monopoly in themselves in the sale of sponges to wholesalers and retailers throughout the United States.

The packers, comprising the Florida Sponge Packers Association, are alleged to have agreed with the institute and its members, to whom they furnished sponges for wholesale and retail distribution, that such packers would not authorize the sale or sale outside of the "burden of the distribution" by the packers.

The complaint has been issued against The Sponge Institute, alleging it has entered into an agreement, combination and conspiracy to create monopoly in itself in the sale of sponge products in interstate commerce.

F. L. Leslie & Co., Tarpon Springs, Florida, and its officers, are also charged in the complaint with entering into a conspiracy to engage in unfair competition and unfair trade practices.

The Florida Sponge Packers Association, its officers and members, are alleged to have combined to prevent all purchases of wool sponges, in or outside the exchange, between February 15, 1935, and May 1, 1935. One effect, it is alleged, was an increase in the price of wool sponges to wholesalers, retailers and the public.

All respondents named in the complaint against The Sponge Institute are charged with entering into an agreement, combination and conspiracy to create monopoly in themselves in the sale of sponges to wholesalers and retailers throughout the United States.

The packers, comprising the Florida Sponge Packers Association, are alleged to have agreed with the institute and its members, to whom they furnished sponges for wholesale and retail distribution, that such packers would not authorize the sale outside of the "burden of the distribution" by the packers.

All respondents named in the complaint against The Sponge Institute are charged with entering into an agreement, combination and conspiracy to create monopoly in itself in the sale of sponge products in interstate commerce.

F. L. Leslie & Co., Tarpon Springs, Florida, and its officers, are also charged in the complaint with entering into a conspiracy to engage in unfair competition and unfair trade practices.

The Florida Sponge Packers Association, its officers and members, are alleged to have combined to prevent all purchases of wool sponges, in or outside the exchange, between February 15, 1935, and May 1, 1935. One effect, it is alleged, was an increase in the price of wool sponges to wholesalers, retailers and the public.

All respondents named in the complaint against The Sponge Institute are charged with entering into an agreement, combination and conspiracy to create monopoly in themselves in the sale of sponges to wholesalers and retailers throughout the United States.

The packers, comprising the Florida Sponge Packers Association, are alleged to have agreed with the institute and its members, to whom they furnished sponges for wholesale and retail distribution, that such packers would not authorize the sale or sale outside of the "burden of the distribution" by the packers.

The Florida Sponge Packers Association, its officers and members, in the plan to restrict sales, causing them to confine their purchases to such cooperating packers, and according to the complaint, whenever the institute discovered that a packer had made a sale contrary to the agreement, its name was taken off the list and such packer was blacklisted and thereafter denied the business of institute members.

Stipulations and Orders

The Commission has issued the following cease and desist orders and stipulations:

No. 1883. Lancaster Cigars, Inc., Red Lion, Pa., agrees to stop using on labels attached to containers the word "Havana" to describe cigars not composed of or manufactured from Havana tobacco grown in Cuba, and to cease employing the word "Havana" in any way to imply that such cigars are made entirely from Havana tobacco. The expression "Havana Blend" will not be printed on labels, implying that the cigars so marked are composed in substantial part of Havana tobacco, when such is not a fact.

1850
No. 1864. The Harker Pottery Company, Chester, W. Va., stipulates that it will stop employing the words "china" and "chinaware" to describe articles which are not non-porous, vitreous and translucent, but that the respondent's products, as represented, does not possess these properties.

No. 1865. R. S. Bacon Veneer Co., 4702 Augusta Blvd., Cleveland, Ohio, agrees not to use in its printed matter the term "African Walnut" to describe its products, implying that they are made of wood derived from trees of the walnut or "Juglandaceae" family. The respondent company also agrees not to use the word "walnut," either alone or in connection with the word "African" or "Tiger-wood," in any other way which may have the effect of causing buyers to believe that the articles so described are made of wood derived from trees of the walnut family, when such is not a fact.

No. 1869. Union Pharmaceuic Co., Inc., 67 Irving Place, New York City, selling so-called "Economy" Band-Aid Kits, will discontinue printing on the cartons in which the kits are packed certain exaggerated or misleading assertions concerning the value of the kits or the price at which they are sold, or are intended to be sold, in the usual course of trade. The stipulation points out that these kits were marked for sale at a certain price, when in fact this was much in excess of the price at which they were actually sold, or intended to be sold.

No. 2565. The National Electrical Manufacturers Association, of New York City, and sixteen member manufacturers of power cable and wire, have been served with an order to cease and desist from certain unfair trade practices held to have been performed in an illegal agreement, combination or conspiracy. The practices prohibited included, principally, the maintenance of uniform selling prices. All material facts alleged in the amended complaint were admitted by the respondents to be true and the findings in the case are a paraphrase of the admitted allegations.

Member companies named as respondents are American Electrical Works, Philadelphia, now known as Kennecott Wire and Cable Company; American Steel and Wire Company, Worcester, Mass.; Anaconda Wire and Cable Co., New York; Bishop Wire and Cable Corporation, New York; Boston Insulated Wire and Cable Co., Boston; Crescent Insulated Wire and Cable Co., Trenton, N. J.; General Cable Corporation, New York; General Electric Co., Schenectady, N. Y.; Habishaw Cable and Wire Corporation, New York; National Electrical Products Corporation, Pittsburgh; The Okonite Co., Passaic, N. J.; Phelps-Dodge Copper Products Corporation, New York; John A. Roebling's Sons Co., Trenton, N. J.; Simplex Wire and Cable Co., Boston; Triangle Conduit and Cable Co., Brooklyn; and United States Rubber Products Co., Inc., New York.

Nos. 2939 and 2915. Cease and desist orders have been issued against two cosmetics and toilet goods companies, requiring them to cease and desist from unfair competition in violation of section 5 of the Federal Trade Commission Act. The respondent companies are Helena Rubinstein, Inc., 8 E. Fifty-Seventh St., and B. H. Krueger, Inc., 151 W. Nineteenth St.

The order against Helena Rubinstein, Inc., directs that the firm will discontinue printing on the cartons in which the kits are packed certain exaggerated or misleading assertions concerning the value of the kits or the price at which they are sold, or are intended to be sold, in the usual course of trade. The stipulation points out that these kits were marked for sale at a certain price, when in fact this was much in excess of the price at which they were actually sold, or intended to be sold.

B. H. Krueger, Inc., is ordered to stop representing that its cosmetics and toilet preparations, including perfumes, soaps, toilet water and similar articles, are of English manufacture or origin, or imported from England. The respondent company is also ordered to cease asserting that its articles are made for, or distributed by, an English company or a company with offices in England or Canada, when such is not a fact.

No. 2964. Pratt Food Co., 126 Walnut St., Philadelphia, has been ordered to discontinue certain unfair trade representations in the sale of poultry medicine.

In selling "Pratt's 'Split-Action' N-K Capsules" or any product of substantially the same composition and effect, the respondent company is directed to cease and desist representing that its preparation will destroy all worms and all parts of worms, including tapeworm heads, with which poultry may be infested.

FTC Closes Cases

No. 2379. The Federal Trade Commission has entered an order closing its case against Samson Paper Products Corpora-
NEW—Paramount Broadcasting Corp., Brooklyn, N. Y.—Renewal of license, 1400 kc., 500 watts, share WARD, WLTH & WBBC.

WVFW—Paramount Broadcasting Corp., Brooklyn, N. Y.—C. P., to make changes in equipment; 1400 kc., 500 watts, share WARD, WLTH & WBBC.

WVFW—Paramount Broadcasting Corp., Brooklyn, N. Y.—Transfer of control of corporation; 1400 kc., 500 watts, share WARD, WLTH & WBBC.

NEW—Brooklyn Daily Eagle Broadcasting Co., Inc, Brooklyn, N. Y.—C. P., 1400 kc., 500 watts, unlimited time. (Requests facilities of WBBC, WLTH, WARD & WVFW.)

WEDV—Debs Memorial Radio Fund, Inc., New York, N. Y.—Modification of license; 1400 kc., 1 KW, unlimited time. (Requests facilities of WBBC, WLTH, WARD & WVFW.)

WARD—United States Broadcasting Corp., Brooklyn, N. Y.—C. P. to move transmitter; 1400 kc., 500 watts, share WARD, WLTH & WBBC.

WARD—United States Broadcasting Corp., Brooklyn, N. Y.—Renewal of license; 1400 kc., 500 watts, share WVFW, WLTH & WBBC.

WARD—United States Broadcasting Corp., Brooklyn, N. Y.—Voluntary assignment of license to Kings Broadcasting Corp.; 1400 kc., 500 watts, share WARD, WVFW & WBBC.

WLBZ—Maine Broadcasting Co., Inc., Bangor, Me.—Granted license to cover C. P. as modified, authorizing installation of new equipment and vertical radiator; increase in power from 250 watts night, 500 watts day, to 500 watts night, 1 KW day, 500 watts, unlimited time.

WLBZ—Maine Broadcasting Co., Inc., Bangor, Me.—Granted license to cover C. P. authorizing installation of new equipment.

KXRO—KXRO, Inc, Aberdeen, Wash.—Granted C. P. approving transmitter and studio sites, installation of new equipment and vertical radiator, and increase in day power from 100 watts to 250 watts, unlimited.

KEEZ—Donald C. Treloar, Kalsispell, Mont.—Granted C. P. to install new antenna and move transmitter locally south of city limits 2½ miles.

WNZ—Earl J. Smith & Wm. Mace, d/b as Smith and Mace, Saranac Lake, N. Y.—Granted C. P. to make changes in equipment.

WHAS—The Louisville Times Co., Louisville, Ky.—Granted C. P. to move transmitter site and install new equipment and vertical radiator.

WJTN—James Broadcasting Co., Inc., Jamestown, N. Y.—Granted C. P. for new experimental station, frequency of 1060 kc., 100 watts, 12 midnight to 6 a. m., EST, for the purpose of experimenting with wireless transmission of the New York World Radio of New York City; 250 watts, unlimited.

NEW—McNary & Chambers, College Park, Md.—Granted C. P. for new experimental station, frequency of 1060 kc., 100 watts, 12 midnight to 6 a. m., EST, for the purpose of experimenting with wireless transmission of a booster broadcast station without the use of wire lines.

WLW—The Crosley Radio Corp., Cincinnati, Ohio.—Granted C. P., for changes in equipment.

WJBK—James F. Hopkins, Inc., Detroit, Mich.—Granted license to cover C. P. as modified, for installation of new equipment, extension of commencement and completion dates; 1500 kc., 100 watts night, 250 watts day, unlimited time.

WJNL—Juan Piza, San Juan, P. R.—Granted license to cover C. P. for changes in equipment, increase in night power from 500 watts to 1 KW, and day power from 500 watts to 2½ KW; 1290 kc., unlimited.

KEHE—The Evening Herald Pub. Co., Los Angeles, Cal.—Granted license to cover C. P. for move of transmitter and studio sites; installation of new equipment and vertical radiator; increase in power from 500 watts night, 1 KW day, sharing KELW to 1 KW night, 5 KW day, unlimited; 720 kc. Also granted authority to determine operating power by direct measurement of antenna input.

KFWB—Warner Bros. Broadcasting Corp., Hollywood, Cal.—Granted license to cover C. P. authorizing new transmitter site, installation of vertical radiator and new equipment; increase in day power from 2½ KW to 5 KW, unlimited. Also granted authority to determine operating power by direct measurement of antenna input.

KPLT—North Texas Broadcasting Co., Paris, Tex.—Granted license to cover C. P. for new station; 1500 kc., 100 watts, unlimited time.

KID—KID Broadcasting Co., Idaho Falls, Idaho.—Granted license to cover C. P. authorizing local move of transmitter site, installation of vertical radiator; increase in power from 250 watts night, 500 watts day, to 500 watts night, 1 KW day, unlimited.

KFXD—Frank E. Hurt, Nampa, Idaho.—Granted license to cover C. P. authorizing installation of new equipment.

WABY—The Adirondack Broadcasting Co., Inc., Albany, N. Y.—Granted license to cover C. P. authorizing changes in transmitter and studio sites, installation of new equipment, and vertical radiator.

WABI—Community Broadcasting Service, Bangor, Me.—Granted license to cover C. P. authorizing move of transmitter site, installation of new equipment and vertical radiator, increase in day power to 250 watts, 1200 kc., 100 watts night.

WLBZ—Maine Broadcasting Co., Inc., Bangor, Me.—Granted license to cover C. P. authorizing installation of new equipment.

KVOA—Arizona Broadcasting Co., Inc., Tucson, Ariz.—Granted license to cover C. P. as modified, authorizing installation of new equipment, and vertical radiator; increase in power from 500 watts to 1500 kc., 1 KW, 1350 kc., unlimited.

KSCJ—Perkins Bros. Co. (The Sioux City Journal), Sioux City, Ia.—Granted license to cover C. P. authorizing changes in equipment and increase in daytime power to 5 KW; 1330 kc., 1 KW night.

WDBO—Orlando Broadcasting Co., Inc., Orlando, Fla.—Granted license to cover C. P. authorizing local move of station, installation of new equipment and increase in power to 1 KW; 580 kc., unlimited.

KLS—S. W. Warner & E. N. Warner, d/b as Warner Bros. Oakland, Cal.—Granted license to cover C. P. authorizing installation of new equipment.

WBLK—The Exponent Co., Clarksburg, W. Va.—Granted modification of C. P. for change in equipment.

WMFR—Hart and Nelson (J. A. Hart & Wayne M. Nelson), High Point, N. C.—Granted voluntary assignment of license to radio station WMFR, Inc.; 1200 kc., 100 watts, daytime only.

WATL—J. W. Woodruff and S. A. Cisler, Jr., d/b as Atlanta B/c Co., Atlanta, Ga.—Granted voluntary assignment of C. P. to J. W. Woodruff, d/b as Atlanta B/c Co.; 1370 kc., 100 watts night, 250 watts day, unlimited.

WSPD—Toledo Broadcasting Co., Toledo, Ohio.—Granted voluntary assignment of license to the Fort Industry Co.; 1340 kc., 100 watts night, 500 watts day, unlimited.

WFTC—Jonas Wieland, Kinston, N. C.—Granted modification of C. P. to install different equipment than authorized in C. P.

WTAR—WTAR Radio Corp., Norfolk, Va.—Granted modification of C. P. to move auxiliary transmitter to same location as that authorized by C. P. for the main transmitter and use same directional antenna with that station operating with power of 1 KW for emergency operation only.

WNOX—Continental Radio Co., Knoxville, Tenn.—Granted modification of C. P. to install new equipment and extend commencement date to 60 days after grant, and completion date to 180 days thereafter.

KFWO—Voice of Longview, Longview, Tex.—Granted modification of C. P. to make changes in equipment and extend commencement date to 30 days after grant.

WMIN—Edward Hofman, St. Paul, Minn.—Granted modification of license to change name from Edw. Hofman to Edward Hofman, d/b as WMIN Broadcasting Co.
KFXJ—R. G. Howell and Chas. Howell, d/b as Western Slope Broadcasting Co., Grand Junction, Colo.—Granted authority to install automatic frequency control equipment.

WORC—Alfred P. Kleindienst, Worcester, Mass.—Granted authority to install automatic frequency control equipment.

WJTN—James Broadcasting Co., Inc., Jamestown, N. Y.—Granted license to cover C. P. authorizing changes in equipment.

WEAN—Shepard Broadcasting Service, Inc., Providence, R. I.—Granted license to cover C. P.; 780 kc., 1 KW, unlimited time employing daylight system.

KRBC—Reporter Broadcasting Co., Abilene, Tex.—Granted license to cover C. P. authorizing installation of new equipment and increase in day power from 100 watts to 250 watts; 1120 kc., 100 watts night, unlimited.

NEW—Crosley Radio Corp., Cincinnati, Ohio, Mobile.—Granted C. P. for new low relay b/c station; frequencies of 1622, 2058, 2150 and 2790 kc., 50 watts.

NEW—The WGAR Broadcasting Co., Mobile, Cleveland, Ohio.—Granted C. P. for new low relay b/c station, frequencies of 1622, 2058, 2150 and 2790 kc., 100 watts.

NEW—The WGAR Broadcasting Co., Mobile, Cleveland, Ohio.—Granted license covering above.

NEW—National Broadcasting Co., Inc., Fixed, New York City.—Granted C. P. and license for new experimental station for relay broadcasting; frequencies of 31100, 34600, 37600 and 40600 kc., 100 watts.

W4XH—WDOD Broadcasting Corp., Chattanooga, Tenn.—Granted C. P. to move transmitter locally and install antenna system on roof of Hotel Patten.

W8XK—The Crosley Radio Corp., Mobile (Cincinnati, Ohio).—Granted C. P. to increase power from 30 to 50 watts.

W8XL—The Crosley Radio Corp., Mobile (Cincinnati, Ohio).—Granted C. P. to increase power from 30 to 50 watts.

NEW—Cleveland Radio Broadcasting Corp., Mobile—Granted C. P. for new high relay experimental b/c station; frequencies of 31100, 34600, 37600 and 40600 kc., 10 watts.

Also granted license covering same.

NEW—Cleveland Radio Broadcasting Corp., Mobile—Granted C. P. for new high relay experimental b/c station; frequencies of 39800, 39100, 39300 and 39500 kc., 100 watts.

Also granted license covering same.

NEW—Rockford Broadcasters, Inc., Mobile (Rockford, Ill.).—Granted C. P. for new low relay station; frequencies of 1646, 2090, 2190 and 2330 kc., 50 watts.

NEW—Rockford Broadcasters, Inc., Mobile (Rockford, Ill.).—Granted C. P. for new experimental high relay station; frequencies of 31100, 34600, 37600 and 40600 kc., 2 watts.

W9XAK—Kansas State College of Agriculture and Applied Science, Manhattan, Kans.—Granted license to cover C. P. for new high relay experimental b/c station; frequencies of 31100, 34600, 37600 and 40600 kc., unlimited.

W9XPX—Woodmen of the World Life Ins. Assn., Mobile, Omaha, Neb.—Granted license to cover C. P. for new relay broadcast station; frequencies of 31100, 34600, 37600 and 40600 kc., 2 watts.

W4XAK—The WATR Co., Inc., Mobile (Waterbury, Conn.).—Granted license to cover C. P. for new relay broadcast station; frequencies of 31100, 34600, 37600 and 40600 kc., 10 watts.

W4XCH—Wilton E. Hall, Mobile (Anderson, S. C.).—Granted license to cover C. P. for new experimental relay broadcast station; frequencies of 31100, 34600, 37600 and 40600 kc., 0.5 watts power.

W4XCL—The Atlanta Journal Co., Mobile (Atlanta, Ga.).—Granted license to cover C. P. for new relay broadcast station; frequencies 31100, 34600, 37600 and 40600 kc., 10 watts.

KAAD—Fort Worth Broadcasters, Inc., Mobile (Fort Worth, Tex.).—Granted license to cover C. P. for new relay station; frequencies 1622, 2658, 2150, and 2790 kc., 40 watts.

APPLICATIONS DISMISSED

The following applications, heretofore set for hearing, were dismissed at request of applicants:

NEW—Eastern Broadcasting Co., Portland, Maine.—C. P., 1210 kc., 100 watts, unlimited.

WIOD—Isle of Dreams Broadcasting Corp., Miami, Fla.—C. P., 970 kc., 5 KW, unlimited.

NEW—St. Petersburg Chamber of Commerce, St. Petersburg, Fla.—C. P., 1030 kc., 5 KW, limited.

WKZO—WKZO, Inc., Kalamaoozoo, Mich.—Special experimental authority, 590 kc., 250 watts, 1 KW LS, unlimited.

APPLICATION DENIED

WQDM—E. J. Regan and F. Arthur Bostwick, d/b as Regan and Bostwick, St. Albans, Vt.—Denied special temporary authority to operate on frequency 1390 kc., with 100 watt power, at location authorized by C. P., employing Class AB or a prime modulation using 845 Tubes, in order to facilitate installation of 1-KW equipment authorized by C. P.

SET FOR HEARING

NEW—Malcolm H. Clack (Clack Radio Service), Amarillo, Tex.—Application for C. P. for new broadcast station at Amarillo, Tex., to operate on 1500 kc., 100 watts, unlimited time. Transmitter and studio sites are to be determined with Commission approval.

NEW—David J. Mercier and Geo. F. Warren, d/b as Northern Broadcasting Co., Traverse City, Mich.—Application for C. P. for new broadcast station at Traverse City, Mich., as amended 11-2-36, to operate on 890 kc., 500 watts, daytime only.

KMA—May Seed & Nursery Co., Shenandoah, Iowa.—Hearing before Broadcast Division on application for modification of license to increase night power from 1 KW to 5 KW.

WMBO—WMBO, Inc., Auburn, N. Y.—Application for Commission's consent to transfer control of WMBO, Inc., license of Station WMBO, from Roy L. Albertson to Aurora Publishing Co.

WSAU—Northern Broadcasting Co., Inc., Wausau, Wis.—Application for modification of C. P. requesting increase in time of operation from daytime to unlimited.

SPECIAL AUTHORIZATIONS

WTHT—The Hartford Times, Inc., Hartford, Conn.—Granted special temporary authority to operate from local sunset (4:45 p. m.) to 12 midnight, EST, January 6, 1937, in order to broadcast inaugural ceremonies, also opening of State Legislature.

WABL—American Airlines, Inc., Washington, D. C.—Granted extension of special temporary authority to operate a mobile relay broadcast transmitter aboard an American Airlines plane some time between January 4th and 14th, 1937, weather permitting, for transmission to NBC of program material from plane while flying over Exline, Ill.

KFRQ—Voice of Longview, Longview, Tex.—Granted special temporary authority to operate from local sunset (5:15 p. m., CST) to 9 p. m. on Sundays, January 3, 10, 17, 24, and 31, 1937, in order to broadcast services of the Kelly Memorial Methodist Church, Longview, Tex.
ACTION ON EXAMINERS' REPORTS

NEW—Ex. Rep. 1-243: Nathan N. Baure, Miami, Fla.—Application for C. P. for new broadcast station to operate on 1420 kc., 100 watts, unlimited time (site to be determined), was remanded to Dockets.

WTJS—Ex. Rep. 1-244: The Sun Publishing Co., Inc., Jackson, Tenn.—Denied C. P. to move transmitter from Hall St., Jackson, Tenn., to northwest of Jackson, Tenn.; install new equipment (directional antenna); change frequency from 1210 kc. to 1240 kc., 100 watts, unlimited time, 250 watts day, to 250 watts night, 500 watts day, unlimited time. Examiner R. L. Walker sustained. Order effective February 16, 1937.

KTFI—Ex. Rep. 1-249: Radio Broadcasting Corp., Twin Falls, Idaho.—Granted renewal of license, 1240 kc., 50 watts night, 1 K W. day, unlimited time; modification of license to change frequency from 1240 kc. to 630 kc., 500 watts night, 1 K W. day, unlimited time. Examiner Geo. H. Hill sustained in part. Order effective February 23, 1937.

NEW—Ex. Rep. 1-266: Fred A. Baxter, Superior, Wis.—Granted C. P. for new broadcast station to operate on 1500 kc., 100 watts, unlimited time (site to be determined subject to Commission's approval). Examiner M. H. Dalberg sustained. Order effective January 19, 1937.

WJBO—Ex. Rep. 1-267: Baton Rouge Broadcasting Co., Inc., Baton Rouge, La.—Granted C. P. to install new equipment; change frequency from 1210 kc. to 1150 kc.; increase power from 100 to 500 watts; change hours of operation from unlimited to specified (except from 8 to 9 p.m. Mondays and Fridays). Examiner M. H. Dalberg sustained. Order effective January 26, 1937.

ORAL ARGUMENTS GRANTED

WSBT—Ex. Rep. 1-315: The South Bend Tribune, South Bend, Ind.—Granted oral argument to be held February 11, 1937.

NEW—Ex. Rep. 1-316: Dr. F. P. Cerniglia, Monroe, La.—Granted oral argument to be held February 11, 1937.

MISCELLANEOUS

The effective date in the case of Interstate Broadcasting Corp., Ogden, Utah (Ex. Rep. 1-221), was extended to January 19, 1937.

Hildreth & Rogers Co., Lawrence, Mass.—Denied petition asking Commission to deny motion of Bay State Broadcasting Corp. to reinstate its application. The Broadcast Division on December 1, 1936, decided to reinstate and hear the application of the Bay State Broadcasting Corp. for C. P. for new station to operate on 1240 kc., 100 watts, unlimited time, no date has been set.

KVOE—The Voice of the Orange Empire, Inc., Ltd., Santa Ana, Calif.—Granted modification of C. P. authorizing change in equipment and location of station.

NEW—H. W. Wilson and Ben Farmer, Wilson, N. C.—Denied petition asking for reconsideration of decision in designating application for new radio station at Wilson, N. C., to operate on 1310 kc., 100 watts, daytime, for hearing and to grant same without a hearing. Hearing to be held as scheduled.

NEW—Radio Enterprises, Lufkin, Tex.—Denied petition asking Commission to continue hearing schedule for February 5, 1937, on application for authority to build and operate new broadcast station at Lufkin, Tex., using frequency 1310 kc., 100 watts, daytime.

KSD—Pulitzer Publishing Co., St. Louis, Mo.—Granted petition asking Commission to consolidate its application for unlimited time on 550 kc. and the application of KFDO (sharing the same frequency) to include its power and hours of operation to half time and to hear both cases at the same time.

NEW—Faith Broadcasting Co., Wichita Falls, Tex.—Granted petition for a consolidated hearing upon three pending applications for new broadcast stations in Wichita Falls, Tex., namely, Faith Broadcasting Co., to operate on 1380 kc., 1 kW, unlimited time; Wichita Broadcasting Co., to operate on 620 kc., 250 watts night, 1 kW, unlimited time; and West Texas Broadcasting Co., to operate on 1380 kc., 1 kW, unlimited time. The Broadcast Division also granted a recommendation that application involving the removal of station KFPL from Tulsa, Okla., to Wichita Falls, be heard in the same proceeding with the three applications for new stations.

WMBS—Florida Broadcasting Co., Jacksonville, Fla.—Denied petition to intervene in hearing on application for The Metropolis Company for new broadcast station at Jacksonville, Fla., to operate on 1290 kc., 250 watts, unlimited time, hearing on which is scheduled for February 9, 1937.

KTUL—Tulsa Broadcasting Co., Inc., Tulsa, Okla., and KVOO—Southwestern Sales Corp., Tulsa, Okla.—Denied petition to intervene at hearing of application of World Publishing Co., Tulsa, Okla., for C. P. to erect and operate a radio broadcasting station on 940 kc., 1 kW, night, 5 kW, day, unlimited.

WJAS—Fitzhugh Radio Supply House, Pittsburgh, Pa.—Denied petition asking Commission to continue hearing of application of WATR, Waterbury, Conn., to operate on 1290 kc., 250 watts, unlimited time, scheduled for January 18, 1937, until Commission sets a definite date to hear WJAS's application to operate with 5 kW night, on frequency 1290 kc.

NEW—Richard M. Casto, Johnson City, Tenn.—Denied motion to receive deposition in connection with his application for new station to operate on 1200 kc., 100 watts night, 250 watts day, unlimited time, and sustained opposition of W. Hanes Lancaster and J. W. Birdwell, d/b as Johnson City Broadcasting Co., respondents, to receipt of the depositions.

RATIFICATIONS

WTMV—Miss. Valley Broadcasting Co., Inc., E. St. Louis, Ill.—Granted modification of C. P. to install new equipment and extend commencement date from December 13 to 30 days after grant and completion date to 6 months thereafter.

WSAN—WSAN, Inc., Allentown, Pa.—Granted modification of C. P. approving vertical radiator and transmitter site near junction of Route 309 and W. Catasauqua Road, Allentown.

WCB—B. Bryan Musselman, Allentown, Pa.—Granted modification of C. P. approving new equipment and vertical radiator and transmitter site near junction of Route 309 and W. Catasauqua Road, Allentown.

KQCA—Capital Broadcasting, Inc., Kilgore, Tex.—Granted modification of C. P. approving transmitter and studio sites, installation of new equipment and vertical radiator.

KPLC—Calcasieu Broadcasting Co., Lake Charles, La.—Granted modification of C. P. approving transmitter site in Lake Charles.

KGFI—Eagle Broadcasting Co., Corpus Christi, Tex.—Granted renewal of license for period January 1 to July 1, 1937.

WMEX—The Northern Corp., Boston, Mass.—Granted renewal of license for period January 1 to July 1, 1937.

KUJ—KUJ, Inc., Walla Walla, Wash.—Granted renewal of license for period January 1 to July 1, 1937.

KDB—Santa Barbara Broadcasters, Ltd., Santa Barbara, Calif.—Granted renewal of license for period January 1 to July 1, 1937.

WTMJ—The Journal Co., Milwaukee, Wis.—Granted authority to transfer control of The Journal Co. (Station WTMJ) from estate of Lucius W. Nieman to The Journal Co. and Faye McBeth.

WOEG—W2XJH—General Electric Co., New York City.—Granted authority to operate as licensed on February 6 and 7, 1937, for relay broadcast program National A. A. U. Bob Sled Championships.

WIEF—Miami Broadcasting Co., Inc., Miami, Fla.—Granted authority to operate as licensed for period of 30 days December 16 to January 14, inclusive, for relay broadcast description of Miami from Bump Puritan.

WALR—WALR Broadcasting Corp., Zanesville, Ohio.—Granted extension of program test period 30 days from December 11, 1936.

WSGN—The Birmingham News Co., Birmingham, Ala.—Granted extension of program test period 30 days from December 23.

W9XP—W9XP—WDZ Broadcasting Co., Tuscola, Ill.—Granted authority to operate as licensed for period of 30 days beginning December 24 and ending January 22, inclusive, for relay broadcast from train between Villagegrove and Tuscola, Ill.

WMFS—National Broadcasting Corp., Inc., New York City.—Granted authority to operate as licensed from January 4 to 7, 1937, inclusive, for relay broadcast of program from Del Monte to Monterey, for period December 29 to January 5, 12, 19 and 26, in order to broadcast wrestling bouts.

WNEL—Juna Piza, San Juan, P. R.—Granted extension of program test period for 30 days from December 28.

WJTN—James Broadcasting Co., Inc., Jamestown, N. Y.—Granted authority to extend program test period for 30 days from December 28.

WGP—Americs Broadcasting Corp., Albany, Ga.—Granted authority to extend program test period for 30 days from December 30.

WIOD—Ise of Dreams Broadcasting Corp., Miami, Fla.—Granted authority to extend program test period for 30 days from December 30.

KFOX—Nichols & Warinner, Inc., Long Beach, Calif.—Granted extension of special temporary authority to operate a 50-watt portable test transmitter between hours of 12 midnight and 6 a.m. for period December 20 to January 18, 1937.

KFN—KFNF, Inc., Shenandoah, Iowa.—Granted extension of special temporary authority to operate simultaneously with station WILL from 8 to 11 a.m., EST, daily except Sundays, during month of January, 1937.

WCAX—Burlington Daily News, Inc., Burlington, Vt.—Granted special temporary authority to operate from 7:30 to 10:30 p.m., EST, January 5 and 12, and from 10 to 10:30 p.m., EST, January 8, 15, 22, 29, 1937.

WMBQ—Jos. Hudis, Receiver, Radio Station WMBQ, Brooklyn, N. Y.—Granted special temporary authority to remain silent for a period not to exceed 30 days, pending liquidation and sales.

KDON—Monterey Peninsula Broadcasting Co., Del Monte, Calif.—Granted special temporary authority to move main studio from Del Monte to Monterey, for period December 29 to January 27, pending receipt and action on modification of license and consolidation of business office and studio.

WINS—Hearest Radio, Inc., New York City.—Granted special temporary authority to operate from 7:15 to 7:30 p.m., EST, during month of January, 1937.

KUMA—Albert H. Schermann, Yuma, Ariz.—Granted special temporary authority to operate from 10 to 11:30 p.m., MST, January 5, 12, 19 and 26, in order to broadcast wrestling bouts.

WJEG—Hagerstown Broadcasting Co., Hagerstown, Md.—Granted extension of special temporary authority to operate with power of 50 watts from local sunset (5:15 p.m.) to 11 p.m., EST, Tuesdays, Thursdays, Saturdays and Sundays during month of January, pending compliance with Rule 131.

WSY—Philip Weiss, d/b as Philip Weiss Music Co., Rutland, Vt.—Granted special temporary authority to operate from 9 to 10 a.m., EST, January 1 to February 1, inclusive.

WR—City of Dallas, Tex.—Granted extension of special temporary authority to suspend tests on KVPX’s transmitter, used by station WRR as an auxiliary transmitter, as required by Sec. D of Rule 148, for period December 31 to
January 29, pending necessary changes to comply with Rule 132.

KGBK—E. Texas Broadcasting Co., Tyler, Tex.—Granted special temporary authority to operate from 8 to 10 p. m., CST, January 1 to February 1, 1937, or until construction is completed under C. P.

WLCC—Donald A. Millikan, Muncie, Ind.—Granted special temporary authority to operate simultaneously with WTRC from 6 to 7:30 p. m., CST, January 5, 8, 12, 13, 15, 16, 18, 20, 22, 23, 28, 29, 30, 1937, in order to broadcast basketball games.

WMFT—agliensburg Broadcasting Corp., Plattsburg, N. Y.— Granted special temporary authority to operate from 4:45 to 10:30 p. m., EST, the following Saturdays: January 9, 16, 23, and 30, and each Sunday from 4:45 to 5:30 p. m., EST, namely, January 10, 17, 24 and 31.

WHBF—Rock Island Broadcasting Co., Rock Island, Ill.— Granted extension of special temporary authority to maintain station's license of WHBF at 1630 5th Ave., Moline, instead of 102 18th St., Rock Island, for a period January 2 to 31, 1937.

KALE—KALE, Inc., Portland, Ore.—Granted extension of special temporary authority to operate unlimited time for period December 31 to January 29, pending construction of vertical radiator in compliance with Rule 131.

KGFG—Oklahoma Broadcasting Co., Inc., Oklahoma City, Okla.—Granted modification of C. P. approving transmitter site at 1800 W. Main St. and studio site at 200 Parnine Bldg., Oklahoma City, and approval of vertical radiator.

The Broadcast Division granted the petition of the Pottsville News and Radio Corporation to intervene in the hearing on the application of The Schuylkill Broadcasting Company, Pottsville, Pa., for construction permit, Docket No. 3277, and for postponement of the hearing, and directed that said hearing be postponed to January 21, 1937.

The Broadcast Division granted the petitions of the Centennial Broadcasting Corporation; KRLD Radio Corporation; Richard S. Gozzaldi, doing business as Oak Cliff-Dallas County Broadcasting Company, and Dallas Broadcasting Company to intervene in the hearing on the application of A. L. Chilton for construction permit, Docket No. 3277.

WHIO—Miami Valley Broadcasting Corp., Dayton, Ohio.—Granted renewal of license for period ending April 1, 1937. Correct description of antenna to agree with affidavit submitted under date of Dec. 8, 1935.

WPBM—Indianapolis Power & Light Co., Indianapolis, Ind.—Granted renewal of license for period ending April 1, 1937.

WBBM—Chicago Sun-Times, Inc., Chicago, Ill., and reinstated its application for construction permit, Docket No. 3370, on which an order was heretofore entered on November 17, 1936, the Broadcast Division adopted and published a statement of facts and grounds for decision.

In the matter of the applications of Harold H. Hanseth, Fresno, California, for construction permit, Docket No. 2911, and Fresno Broadcasting Company, Fresno, California, for construction permit, Docket No. 3370, on which an order was heretofore entered on November 17, 1936, the Broadcast Division adopted and published a statement of facts and grounds for decision.

The Broadcast Division granted the petition of the City of Dallas, Texas, to intervene in the hearing on the application of A. L. Chilton for construction permit, Docket No. 3277, and for postponement of the hearing, and directed that said hearing be postponed to January 21, 1937.

The Broadcast Division granted the petitions of the Centennial Broadcasting Corporation; KRLD Radio Corporation; Richard S. Gozzaldi, doing business as Oak Cliff-Dallas County Broadcasting Company, and Dallas Broadcasting Company to intervene in the hearing on the application of A. L. Chilton for construction permit, Docket No. 3277.

WHIO—Miami Valley Broadcasting Corp., Dayton, Ohio.—Granted renewal of license for period ending April 1, 1937. Correct description of antenna to agree with affidavit submitted under date of Dec. 8, 1935.

WPBM—Indianapolis Power & Light Co., Indianapolis, Ind.—Granted renewal of license for period ending April 1, 1937.

WBBM—Chicago Sun-Times, Inc., Chicago, Ill., and reinstated its application for construction permit, Docket No. 3370, on which an order was heretofore entered on November 17, 1936, the Broadcast Division adopted and published a statement of facts and grounds for decision.

Gozzaldi, doing business as Oak Cliff-Dallas County Broadcasting Company, and Dallas Broadcasting Company to intervene in the hearing on the application of A. L. Chilton for construction permit, Docket No. 3277.
IN THE HOUSE OF REPRESENTATIVES

January 5, 1937

Mr. DICKSTEIN introduced the following bill; which was referred to the Committee on Immigration and Naturalization and ordered to be printed,

A BILL

To protect the artistic and earning opportunities in the United States for American actors, vocal musicians, operatic singers, solo dancers, solo instrumentalists, and orchestral conductors, and for other purposes.

H. R. 30

IN THE HOUSE OF REPRESENTATIVES

January 5, 1937

Mr. DICKSTEIN introduced the following bill; which was referred to the Committee on Immigration and Naturalization and ordered to be printed,

A BILL

To prohibit the transportation in interstate commerce of advertisements of intoxicating liquors, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That, notwithstanding any other provision of the immigration law to the contrary, no alien actor, vocal musician, operatic singer, solo dancer, solo instrumentalist, or orchestral conductor shall hereafter be admitted to the United States, whether seeking entry for temporary stay or for permanent residence, unless prior to issuance of visa the Secretary of Labor has received an application for permission to enter for professional engagements and such permission has been granted to the alien, prior to his embarkation from foreign territory, by the Secretary of Labor pursuant to provisions hereinafter stated in this Act.

Sec. 2. The number of otherwise admissible alien actors, vocal musicians, operatic singers, solo dancers, solo instrumentalists, and orchestral conductors admissible to the United States under this Act from any foreign country during any calendar year shall hereafter be limited to the number of American actors, vocal musicians, operatic singers, solo dancers, solo instrumentalists, and orchestral conductors, of similar qualifications which the government of such foreign country has, upon application, granted permission to enter such foreign country for professional engagements during the same calendar year.

Sec. 3. Notwithstanding the limitations as prescribed by section 2 herein, the Secretary of Labor may authorize the admission for temporary stay for professional engagements during specified periods of time of any alien actor, vocal musician, operatic singer, solo dancer, solo instrumentalist, or orchestral conductor, subject to the provisions of this Act, if otherwise found admissible as a nonimmigrant under the immigration laws, upon application made and approved by the Secretary of Labor prior to the alien's departure from any foreign country upon a finding by the Secretary of Labor, after a full hearing and investigation, that an artist, having qualifications similar to those of the alien seeking admission under this section, cannot be found in the United States among unemployed citizens or lawful permanent resident aliens.

Sec. 4. Notwithstanding the limitations as prescribed by section 2 herein, the Secretary of Labor may authorize the admission for permanent residence for professional engagements or career of any alien actor, vocal musician, operatic singer, solo dancer, solo instrumentalist, or orchestral conductor, subject to the provisions of this Act, if otherwise found admissible as an immigrant under the immigration laws, upon application made and approved by the Secretary of Labor after a full hearing and investigation prior to the alien's departure from any foreign country upon a finding by the Secretary of Labor that the permanent admission of such alien artist would not immediately displace, or prevent employment of, a citizen or lawful permanent resident alien having similar professional qualifications to those possessed by the alien seeking admission under this section.

Sec. 5. The question of availability in the United States of citizens or lawful permanent resident aliens who are actors, vocal musicians, operatic singers, solo dancers, solo instrumentalists, or orchestral conductors, and who are unemployed or subject to displacement by admission of alien artists under this Act, shall be determined by the Secretary of Labor who is directed to seek the cooperation and counsel of reputable American organizations and associations of actors, vocal musicians, operatic singers, solo dancers, solo instrumentalists, or orchestral conductors before making such determination.

Sec. 6. The Commissioner of Immigration and Naturalization, with the approval of the Secretary of Labor, shall prescribe rules and regulations for the enforcement of the provisions of this Act; but all rules and regulations insofar as they relate to the administration of this Act by consular officers abroad shall be prescribed by the Secretary of Labor on the recommendation of the Secretary of Labor. This Act and rules and regulations issued pursuant thereto are in addition to and not in substitution for the existing immigration laws and shall be enforced as part of such laws, rules, and regulations.

H. R. 13

IN THE HOUSE OF REPRESENTATIVES

January 5, 1937

Mr. CULKIN introduced the following bill; which was referred to the Committee on Interstate and Foreign Commerce and ordered to be printed,

A BILL

To prohibit the transportation in interstate commerce of advertisements of intoxicating liquors, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That it shall be
unlawful for any distiller, brewer, vintner, manufacturer, wholesaler, or retailer or for the agent, broker, or factor of any of them, engaged in the sale of intoxicating liquors to cause to be transported in the mails or otherwise from any State or Territory or the District of Columbia to any other State or Territory or the District of Columbia any newspaper, periodical, news reel, photographic film, or record for mechanical reproduction advertising intoxicating liquor or containing the solicitation of an order for intoxicating liquor.

Sec. 2. It shall be unlawful for any publisher or for the agent of any publisher to cause to be transported in the mails or otherwise from any State or Territory or the District of Columbia to any other State or Territory or the District of Columbia any newspaper, periodical, news reel, photographic film, or record for mechanical reproduction advertising intoxicating liquor or containing the solicitation of an order for intoxicating liquor.

Sec. 3. It shall be unlawful for any common carrier or for any private carrier for hire to transport from any State or Territory or the District of Columbia to any other State or Territory or the District of Columbia any newspaper, periodical, news reel, photographic film, or record for mechanical reproduction advertising intoxicating liquor or containing the solicitation of an order for intoxicating liquor.

Sec. 4. It shall be unlawful to broadcast by means of any radio station for which a license is required by any law of the United States, or for any person operating any such station, to permit the broadcasting of any advertisement of intoxicating liquor or the solicitation of an order for intoxicating liquor.

Sec. 5. No letter, postal card, circular, or pamphlet of any kind containing any advertisement of intoxicating liquor or a solicitation of an order for intoxicating liquor shall be deposited in or carried by the mails of the United States, or be delivered by any postmaster or letter carrier, when it is directed to, and from any State or Territory of the United States, or the District of Columbia, at which it is by the law in force in the State or Territory or the District of Columbia at the time unlawful to advertise or solicit orders for intoxicating liquor.

Sec. 6. When applied to any advertisement or solicitation of an order, the term “intoxicating liquor”, as used in this Act, shall be construed to include all intoxicating liquor as defined by the law of the State or Territory or District of Columbia into which such advertisement or solicitation of an order may be transported. The Postmaster General is authorized and directed to make public from time to time suitable bulletins or notices giving the names of the States in which it is unlawful to advertise or solicit orders for intoxicating liquor.

Sec. 7. Any person knowingly violating any of the provisions of this Act shall be fined not more than $1,000 or imprisoned not more than six months, and in any case of a second or any subsequent offense shall be imprisoned not more than one year.

**STATEMENT ON FOOD AND DRUG BILL**

*By Senator Royal S. Copeland*

This bill has been prepared with three basic principles in mind: First, it must not weaken the existing laws; second, it must strengthen and extend that law's protection of the consumer; and, third, it must impose on honest industrial enterprise no hardship which is unnecessary or unjustified in the public interest.

This bill meets these three principles. It has been prepared after many and extensive conferences with the enforcement agencies of the Government and with representatives of various consumer groups or associations, professional groups, and the industries to be regulated.

Separate called meetings were held with representatives of the food, drug, and cosmetic industries. Letters inviting suggestions were sent to many people known to have an interest in the subject. Several volumes of suggestions have been received from persons in several called meetings with representatives of the food, drug, and cosmetic industries. Letters inviting suggestions were sent to many people known to have an interest in the subject. Several volumes of suggestions have been received from persons in the groups just mentioned. These suggestions have been carefully studied; many of them rejected; some accepted; some accepted in part or in effect. The hearings which have been held by committees of the Senate and House of Representatives on previous bills in former sessions of the Congress have been reviewed and studied to take advantage of the knowledge and discussions contained in them.

The legislative effort to secure a better law on this subject began in June 1933, with the introduction of S. 1944. Since that time there have been many bills and many revisions of bills. There have been numerous hearings by committees of the Congress. The subject has been debated on the floors of Congress, in the press, throughout the industries, and by the public. This has gone on over a period of 3½ years. In the preparation of this bill there has been an earnest, painstaking effort to take advantage of what light has been shed from these various courses.

This bill is presented with the confident assurance that, insofar as it is possible, these previous considerations have been utilized, and the bill is one which, concerning the purposes declared for it. And it is a fair bill which will enable honest business to be carried on without interference, except such as is necessary to safeguard the public health.

It must be realized that the preparation of a bill which affects so many and such varied industrial interests in intricate and technical matters which concern and appeals to so many, including consumers and others not immediately in the businesses affected, necessarily presents a task of almost indecipherable difficulty. It is only natural that many emphasize their immediate concerns without proportionate regard to the rights of others in this regard. Many advancing their particular interests without consideration for the technical and legal requirements that are presented in the preparation of a bill.

Conflict also develops in the clash of extreme positions. There are some who would give no regard whatever to the fairness of the bill's application to business. Unfortunately, there are some who give no regard, or very little, to the effectiveness of the bill for protection of the consumer. It should be said with emphasis that all business does not fall in that latter class. Business has not been unsympathetic to the effort for a better law. Strong support for a better law exists in the industries affected.

Conflict and debate on the subject are, therefore, the unavoidable controversies that honestly arise among these interests, a so-called “perfect” bill hardly can be formulated. This bill is not a thing of perfection. It simply represents an earnest effort to serve its declared purposes. It is introduced in the hope that all who desire a better law will have a bill which will be frequently examined by enforcement officials, courts, and lawyers. It was thought that it would be an advantage to have the prohibited acts and the enforcement machinery put in the forefront of the bill so that one may quickly learn those requirements, and then move deeper into the bill for details on the particular problem in which he is interested.

The bill has been made shorter and less verbose than previous bills. That has been done without deleting any effective provisions. It has been done by avoiding unnecessary repetitions which existed in previous bills, and by consolidating at a single place in a few lines what appeared in many paragraphs of previous bills. That has been done with a view to making it simpler to read, both while it is a bill and later as a law, when it will be constantly examined by enforcement officials, courts, and lawyers. It was thought that it would be an advantage to have the prohibited acts and the enforcement machinery put in the forefront of the bill so that one may quickly learn those requirements, and then move deeper into the bill for details on the particular problem in which he is interested.

it was too elastic and encompassed things far beyond the purposes of
the bill. Also, it would lend itself to unnecessary and unjustified
enforcement actions. For these reasons, the bill expanded the
powers of the Government, a job far beyond the Government's
financial and personnel capacities to enforce. The statement of the
offense in the bill defines those subjects pertaining to food, drugs,
and cosmetics which should be under Government control.

There has been controversy as to whether the Food and Drug
Administration or the Federal Trade Commission should enforce
the bill's provisions on advertising. On the premise that adver-
sisements of foods, drugs, and cosmetics are nothing more than
extensions of the labeling, this bill proposes that the control be
vested in the Food and Drug Administration which enforces the
provisions on adulteration and labeling. But, it does not have
the effect of depriving the Federal Trade Commission of its jurisdic-
tion to proceed against false advertising in such form as to
make it an unfair method of competition. The bill specifically
provides that it shall not be construed as impairing or diminishing
the powers of the Federal Trade Commission.

The bill simply provides that the district courts of the United
States shall have the power to grant temporary and permanent
injunctions against the dissemination of any advertisement which contains—

any statement, design, or device regarding a food, drug, device, or
content, or the ingredients thereof, or the subsistencies therein, or
the nutritional, dietary, curative, therapeutic, or beneficial effects
thereof, or the dosage, frequency or duration of use pertaining
thereto, which is false or misleading in any particular.

It is submitted that that is a perfectly proper power to vest in the
district courts of the United States, and that it not only is proper
under the law, but necessary, that the Food and Drug Administration which has
foods, drugs, and cosmetics under observation, shall be author-
ized to seek such injunctions at the hands of the courts. No one
can dispute that such advertisements should be enjoined. The fact
that the Federal Trade Commission may proceed against adver-
sisers using unfair methods of competition should not prevent the
grant to the Food and Drug Administration of this additional,
necessary, and very desirable power to protect the public against advertisements which bear directly on public health.

The provisions of the previous bills with respect to seizure also
have been directed to the same end. It has been attempted to take advantage of what has been learned in previous studies. This bill permits multiple seizures of any food, drug, de-
vice, or cosmetic that is adulterated. It permits multiple seizures
for misbranding when the misbranding has been the basis of a
prior judgment in favor of the Government, or when the Secretary
of Agriculture has probable cause to believe, from facts found by
him, that the misbranding renders the article dangerous to health
or is in a material respect false, grossly misleading, or fraudulent.

The only limitation is that misbranding which does not render
an article forever dangerous or is not in a material respect false,
grossly misleading, or fraudulent, shall not be handled by multiple
seizures made at the will of enforcement officers. There has been
the declared policy of the Food and Drug Administration in
enforcing the existing law. The bill therefore does no more than
write into the law what is declared to be the policy of the Admin-
istration. But it is important that that policy be written into the
bill because it is the proper policy, and because succeeding admin-
istrations should be held to that policy.

There is no comparison between this bill and the existing law as
to the extent of their respective applications and the extent of the
enforcement officers' powers under them. Where the existing law is
entirely negative in its labeling requirements, this bill is affirmative.
Where the existing law limits its attacks on misbranding on
therapeutic matters to statements which are false and fraudulent,
this bill expands them to those which are false or misleading.

Technical, innocent violations of this bill will frequently arise.
Overzealous enforcement officers could cause honest business untold
damage and annoyance. The bill, therefore, limits the enforcement
officers in the drastic power of unlimited seizure to cases of adul-
teration and those cases of misbranding where, in the public in-
terest, enforcement should be exercised. In addition, this bill increases
the criminal penalties for adulteration and misbranding over those in
the existing law, and adds injunction, temporary and permanent,
as a means of prohibiting adulteration and misbranding.

The existing law does not have such a provision.

The other change of consequence in the seizure provision is that
when seizures have been made the trial may be held in a dis-

reason why a claimant for the goods, who perhaps may reside across
the continent, should be compelled to cross the country to try the
case. There is no reason, if many seizures have been made, why
the trials should not be consolidated, so that one trial may
determine the question at issue.

A summary of the principal respects in which this bill increases
the scope of the old law and affords the public greater protection follows:

1. Prohibits false advertising of food, drugs, therapeutic devices,
and cosmetics.

2. Provides for the promulgation of standards of identity and a
reasonable standard of quality for food. (A standard of quality
is authorized by the present law for canned food only.)

3. Requires the labeling of unstandardized food to disclose the
ingredients by name.

4. Prohibits traffic in food which is dangerous to health. (The
present law permits regulation of dangerous food only in the event
that the poison is added.)

5. Prohibits addition of poison. If it cannot be avoided in pro-
duction or manufacture, when it reaches the consumer the product
must be safe for human use.

6. Eliminates the "distinctive name" proviso of the existing law
under which the sale of products, the labels of which are misleading,
are now permitted sale.

7. Requires fully informative labeling of infant and invalid food.

8. Requires label declaration of artificial colors and artificial
flavoring in food.

9. Forbids traffic in confectionery containing metallic trinkets and
other inedible substances which have been found to be a
menace to the welfare of children.

10. Authorizes emergency license control of food that might be
dangerous by reason of contamination with micro-organisms. Such
licensing is limited to operations in which the public health cannot
be protected otherwise.

11. For the first time places cosmetics under Federal supervision.
Requiring cosmetics to be truthfully sold and outlawing those in-
jurious to health.

12. Prohibits traffic in drugs and devices which are dangerous
to health under the conditions of use prescribed in the labeling or
advertising.

13. Requires habit-forming drugs to bear warning labels.

14. Requires adequate directions for use of drugs and devices
and appropriate warnings against their probable misuse through
overdosage, or by children, or in disease conditions where they
may be dangerous.

15. Sets up special protection to consumers against drugs liable
to deterioration.

16. Requires that claims of effect of drugs and devices must not
be false or misleading in any particular. (The present law makes
fraud, that is, willful intent to deceive, an element of the offense;
unwarranted therapeutic claims resulting from sheer ignorance of
the manufacturer are not actionable.)

17. Defines "nonofficial" drugs as illegal if the standard of
strength varies from the standard claimed. (The present law
prescribes only those which fall below the standard claimed. Drugs
which are too strong may quite dangerous.)

18. Requires that antiseptics possess germicidal power.

19. Requires declaration on the label of the names of active
ingredients of nonofficial drugs.

20. Prohibits the use of poisonous containers for food, drugs,
and cosmetics.

21. Requires that food, drugs, and cosmetics be prepared and
handled under conditions of reasonable cleanliness.

22. Forbids the use of uncertified and impure coal-tar colors in
food, drugs, and cosmetics.

23. Prohibits slacking and the use of deceptive containers of
foods and drugs.

24. Provides for factory inspection and the procurement of
records needed to prove Federal jurisdiction.

25. Provides increased penalties for violations.

26. Authorizes the Federal courts to enjoin violations.
The text of the Bill (S. 5) follows:

S. 5

IN THE SENATE OF THE UNITED STATES

January —, 1937

Mr. COPE LAND introduced the following bill; which was read twice and referred to the Committee on Commerce

A BILL

To prevent the adulteration, misbranding, and false advertisement of food, drugs, devices, and cosmetics in interstate, foreign, and other commerce subject to the jurisdiction of the United States, for the purposes of safeguarding the public health, preventing deceit upon the purchasing public, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

FEDERAL FOOD, DRUG, AND COSMETIC ACT

Chapter I—Title

Sec. 1.

Chapter II—Definition of Terms

Sec. 2.

Chapter III—Prohibited Acts and Penalties

Sec. 3. Prohibited acts.
Sec. 4. Injunction.
Sec. 5. Criminal.
Sec. 6. Seizure.
Sec. 7. Notice and hearing.
Sec. 8. Settlement of minor violations.
Sec. 9. Duties of United States attorney.

Chapter IV—Food

Sec. 10. Definitions and standards of identity and quality for foods.
Sec. 11. Adulterated food.
Sec. 12. Misbranded food.
Sec. 13. Emergency permit control.
Sec. 15. Tolerances for poisonous ingredients and certification of coal-tar colors.

Chapter V—Drugs and Devices

Sec. 16. Adulterated drugs.
Sec. 17. Misbranded drugs and devices.
Sec. 18. Exemptions.
Sec. 19. Certification of coal-tar colors.

Chapter VI—Cosmetics

Sec. 20. Adulterated cosmetics.
Sec. 21. Misbranded cosmetics.
Sec. 22. Exemptions.
Sec. 23. Certification of coal-tar colors.

Chapter VII—Administrative Provisions

Sec. 24. Authority to promulgate regulations.
Sec. 25. Examinations and investigations.
Sec. 26. Records of interstate shipment.
Sec. 27. Factory inspection.
Sec. 28. Publicity.

Chapter VIII—Imports and Exports

Sec. 29.

Chapter IX—Court Review of Regulations and Administrative Actions

Sec. 30.

Chapter X—Separability—Effective Date—Repeals

Sec. 31. Separability.
Sec. 32. Effective date and repeals.

CHAPTER I

Section 1. This Act may be cited as the Federal Food, Drug, and Cosmetic Act.
commerce by radio broadcast or otherwise, or by any other means, of any advertisement which represents any drug, or device to have any therapeutic effect in the treatment of Bright’s disease, cancer, tuberculosis, poliomyelitis (infantile paralysis), venereal diseases, or heart or vascular diseases, unless such advertisement, not in violation of subdivision 5 of this section, is disseminated only to members of the medical profession and/or appears only in the scientific periodicals of that profession.

(5) (a) The dissemination, by United States mails, or in interstate commerce by radio broadcast or otherwise, of any advertisement which contains any statement, design, or device regarding any food, drug, device, or cosmetic, or the ingredients thereof, or the substances therein, or the nutritional, dietary, curative, therapeutic, preventive, or beneficial effects thereof, or the dosage, frequency, or duration of use pertaining thereto, which is false or misleading in any particular.

(b) The dissemination by any means for the purpose of inducing, or indirectly, the purchase of any food, drug, device, or cosmetic, in interstate commerce, of an advertisement which contains any statement, design, or device regarding such food, drug, device, or cosmetic, or the ingredients thereof, or the substances therein, or the nutritional, dietary, curative, therapeutic, preventive, or beneficial effects thereof, or the dosage, frequency, or duration of use pertaining thereto, which is false or misleading in any particular.

(6) The introduction into interstate commerce of any food in violation of section 13.

(7) The refusal to permit access to or copying of any record as required by section 26.

(8) The refusal to permit entry or inspection as authorized by section 27.

(9) Forgery, counterfeiting, simulating, or falsely representing, or without proper authority using, any mark, stamp, tag, label, or other identification device authorized or required by regulations promulgated under the provisions of section 13.

(10) The using by any person to his own advantage, or revealing, other than to the Secretary or officers or employees of the Department, or to the courts when relevant in any judicial proceeding, or any information acquired under authority of section 13 or 27 concerning any method or process which as a trade secret is entitled to protection.

**INJUNCTION**

Sec. 4. (a) The district courts of the United States are hereby given jurisdiction to prevent or restrain by injunction, temporary or permanent, any violation of any of the provisions of subdivisions 1 to 10, inclusive, of section 3. In such injunction proceedings, discontinuance of the injunction shall not be grounds for denial of injunction.

(b) Any injunction granted pursuant to this section may be served upon the person against whom such injunction is granted anywhere in the United States, or in the Territories thereof, where he, or they, may be found, and shall be operative, and may be enforced by proceedings to punish for contempt, or otherwise, by the court by which such injunction was granted, or by any other district court, or judge thereof, in the United States, or in the Territories thereof. The said courts, or judges thereof, shall have jurisdiction to enforce said injunction, as herein provided, as fully as if the injunction had been granted by the district court in which it is sought to be enforced. The clerk of the court granting the injunction shall, when required to do so by the court before which application to enforce said injunction is made, transfer without delay to said court a certified copy of all the papers on which the said injunction was granted that are on file in his office. Such proceedings to punish for contempt, or otherwise, may be instituted by order of the court or by the tally of an information by the United States attorney; and process of the court for the arrest of the violator of any injunction, or order, granted thereunder, may be served at any place in the United States, or in the Territories thereof."

(c) No person shall be deemed to have violated an injunction, issued pursuant to this section, by reason of the dissemination, subsequent to such injunction, of an advertisement which was the basis of the injunction, if such dissemination was beyond the control of such person.

**Criminal**

Sec. 5. (a) Any person who violates any of the provisions of subdivisions (1), (2), (3), (4), (6), (7), or (8) of section 3 shall be guilty of a misdemeanor and shall on conviction thereof be subject to imprisonment for not more than one year or a fine of not more than $1,000, or both such imprisonment and fine.

(b) Notwithstanding the provision of paragraph (a) of this section, in case of a willful violation of any of the provisions of subdivisions (1), (2), (3), (4), (6), (7), or (8) of section 3 the penalty shall be imprisonment for not more than three years or a fine of not more than $10,000, or both such imprisonment and fine.

(c) Any person who violates any of the provisions of subdivisions (9) or (10) of section 3 shall be guilty of a misdemeanor and shall on conviction thereof be subject to imprisonment for not more than one year or a fine of not more than $5,000, or both such imprisonment and fine.

(d) No dealer shall be subject to the penalties of paragraph (a) of this section for having received in interstate commerce any advertising matter, or device for the purpose of disseminating, by any other district court, or judge thereof, for any purpose and may be enforced by proceedings to punish for contempt, or otherwise, by the court by which such injunction was granted, or by any other district court, or judge thereof, in the United States, or in the Territories thereof.

(e) Any person who offers delivery of it as received, if such delivery or proffer was made in good faith, unless he refuses to furnish on request of an officer or employee duly designated by the Secretary the name and address of the person from whom he purchased or received such article and copies of all documents, if any there be, pertaining to the delivery of the article to him, or if he establishes a guaranty or undertaking signed by the person residing in the United States from whom he received in good faith the article of food, drug, device, or cosmetic, as the case may be, to the effect that such article is not adulterated or misbranded.

(f) The refusal to permit entry or inspection as authorized by section 27.

(g) Any advertisement which contains any statement, design, or device regarding any therapeutic, preventive, or beneficial effects thereof or the dosage, frequency, or duration of use pertaining thereto, which is false or misleading in any particular.

(h) Any person who violates any of the provisions of subdivisions (9) or (10) of section 3 shall be guilty of a misdemeanor and shall on conviction thereof be subject to imprisonment for not more than one year or a fine of not more than $5,000, or both such imprisonment and fine.

(i) Any sovereign or government, or any person in any capacity, who shall cause, or consent to, or otherwise engage in, the dissemination, by United States mails, or in interstate commerce, of any advertisement, offered delivery of it as received, if such delivery or proffer was made in good faith, unless he refuses to furnish on request of an officer or employee duly designated by the Secretary the name and address of the person from whom he purchased or received such article and copies of all documents, if any there be, pertaining to the delivery of the article to him, or if he establishes a guaranty or undertaking signed by the person residing in the United States from whom he received in good faith the article of food, drug, device, or cosmetic, as the case may be, to the effect that such article is not adulterated or misbranded.

(j) Any person who violates any of the provisions of subdivisions (9) or (10) of section 3 shall be guilty of a misdemeanor and shall on conviction thereof be subject to imprisonment for not more than one year or a fine of not more than $5,000, or both such imprisonment and fine.

(k) Any person who violates any of the provisions of subdivisions (9) or (10) of section 3 shall be guilty of a misdemeanor and shall on conviction thereof be subject to imprisonment for not more than one year or a fine of not more than $5,000, or both such imprisonment and fine.

(l) Any person who violates any of the provisions of subdivisions (9) or (10) of section 3 shall be guilty of a misdemeanor and shall on conviction thereof be subject to imprisonment for not more than one year or a fine of not more than $5,000, or both such imprisonment and fine.

(m) Any person who violates any of the provisions of subdivisions (9) or (10) of section 3 shall be guilty of a misdemeanor and shall on conviction thereof be subject to imprisonment for not more than one year or a fine of not more than $5,000, or both such imprisonment and fine.

(n) Any person who violates any of the provisions of subdivisions (9) or (10) of section 3 shall be guilty of a misdemeanor and shall on conviction thereof be subject to imprisonment for not more than one year or a fine of not more than $5,000, or both such imprisonment and fine.

(o) Any person who violates any of the provisions of subdivisions (9) or (10) of section 3 shall be guilty of a misdemeanor and shall on conviction thereof be subject to imprisonment for not more than one year or a fine of not more than $5,000, or both such imprisonment and fine.

(p) Any person who violates any of the provisions of subdivisions (9) or (10) of section 3 shall be guilty of a misdemeanor and shall on conviction thereof be subject to imprisonment for not more than one year or a fine of not more than $5,000, or both such imprisonment and fine.

(q) Any person who violates any of the provisions of subdivisions (9) or (10) of section 3 shall be guilty of a misdemeanor and shall on conviction thereof be subject to imprisonment for not more than one year or a fine of not more than $5,000, or both such imprisonment and fine.

(r) Any person who violates any of the provisions of subdivisions (9) or (10) of section 3 shall be guilty of a misdemeanor and shall on conviction thereof be subject to imprisonment for not more than one year or a fine of not more than $5,000, or both such imprisonment and fine.

(s) Any person who violates any of the provisions of subdivisions (9) or (10) of section 3 shall be guilty of a misdemeanor and shall on conviction thereof be subject to imprisonment for not more than one year or a fine of not more than $5,000, or both such imprisonment and fine.

(t) Any person who violates any of the provisions of subdivisions (9) or (10) of section 3 shall be guilty of a misdemeanor and shall on conviction thereof be subject to imprisonment for not more than one year or a fine of not more than $5,000, or both such imprisonment and fine.

(u) Any person who violates any of the provisions of subdivisions (9) or (10) of section 3 shall be guilty of a misdemeanor and shall on conviction thereof be subject to imprisonment for not more than one year or a fine of not more than $5,000, or both such imprisonment and fine.

(v) Any person who violates any of the provisions of subdivisions (9) or (10) of section 3 shall be guilty of a misdemeanor and shall on conviction thereof be subject to imprisonment for not more than one year or a fine of not more than $5,000, or both such imprisonment and fine.

(w) Any person who violates any of the provisions of subdivisions (9) or (10) of section 3 shall be guilty of a misdemeanor and shall on conviction thereof be subject to imprisonment for not more than one year or a fine of not more than $5,000, or both such imprisonment and fine.

(x) Any person who violates any of the provisions of subdivisions (9) or (10) of section 3 shall be guilty of a misdemeanor and shall on conviction thereof be subject to imprisonment for not more than one year or a fine of not more than $5,000, or both such imprisonment and fine.

(y) Any person who violates any of the provisions of subdivisions (9) or (10) of section 3 shall be guilty of a misdemeanor and shall on conviction thereof be subject to imprisonment for not more than one year or a fine of not more than $5,000, or both such imprisonment and fine.

(z) Any person who violates any of the provisions of subdivisions (9) or (10) of section 3 shall be guilty of a misdemeanor and shall on conviction thereof be subject to imprisonment for not more than one year or a fine of not more than $5,000, or both such imprisonment and fine.

{1861}
tion or sale as the court may, in accordance with the provisions of this section, direct; and the proceeds thereof, if sold, less the legal costs and charges, shall be paid into the Treasury of the United States; but such article shall not be sold under such decree contrary to the provisions of this Act or the laws of the jurisdiction in which sold: Provided, That after entry of the decree and upon the payment of the costs of such proceedings and the execution of a good and sufficient bond conditioned that such article shall not be sold or disposed of contrary to the provisions of this Act or the laws of any State or Territory in which sold, the court may by order direct that such article be delivered to the owner thereof to be destroyed or brought into compliance with the provisions of this Act under the supervision of an officer or employee duly designated by the Secretary, and the expenses of such supervision shall be paid by the party obtaining release of the article under bond. Any article condemned by reason of its being an article which may not, under section 13, be introduced into interstate commerce, shall be disposed of by destruction.

(c) When a decree of condemnation is entered against the article, court costs and fees, and storage and other proper expenses, shall be awarded against the person, if any, intervening as claimant of the article.

NOTICE AND HEARING
Sec. 7. Before reporting any violation of this Act to any United States attorney for institution of criminal proceedings, the Secretary shall, in accordance with regulations prescribed by him, afford appropriate notice and opportunity for hearing to the person against whom the proceedings are contemplated. If after such hearing the Secretary decides to make such report, then the report shall be accompanied by findings of the appropriate officers and employees, duly authenticated under their oaths.

SETTLEMENT OF MINOR VIOLATIONS
Sec. 8. Nothing in this Act shall be construed as requiring the Secretary to report for prosecution, or for the institution of libel or injunction proceedings, minor violations of this Act whenever he believes that the purposes of the Act can be accomplished by a suitable written notice or warning.

DUTIES OF UNITED STATES ATTORNEY
Sec. 9. It shall be the duty of each United States attorney to whom the Secretary, consistently with the provisions of sections 6 and 7, reports any violation for institution of criminal, libel of information for condemnation, or other proceedings under this Act, or to whom any health, food, or drug officer of any State or Territory, or political subdivision thereof, presents evidence satisfactory to the United States attorney of any such violation and that appropriate notice and opportunity for hearing has been afforded to the person against whom the proceedings are contemplated, to cause appropriate proceedings to be instituted in the proper courts of the United States without delay. All suits instituted under this Act, except those arising under section 30 and under subdivision (10) of section 3, shall be by and in the name of the United States. Notwithstanding the provisions of section 876 of the Revised Statutes, subpoenas for witnesses who are required to attend a court of the United States, in any district, may run into any other district in any proceeding under this Act.

CHAPTER IV
Food

DEFINITIONS AND STANDARDS FOR FOOD
Sec. 10. For the effectuation of the purposes of this Act the Secretary is hereby authorized to promulgate regulations fixing and establishing for any food a definition and standard of identity, and a reasonable standard of quality and fill of container: Provided, That no standard of quality shall be established for fresh fruits or fresh vegetables and no standard of identity for fresh fruits (except fresh citrus fruits) or fresh vegetables.

ADULTERATED FOOD
Sec. 11. A food shall be deemed to be adulterated—
(a) (1) If it bears or contains any poisonous or deleterious substance which may render it dangerous to health; or (2) if it bears or contains any added poisonous or added deleterious substance which may render it injurious to health, or which is unsafe within the meaning of section 15; or (3) if any substance has been added thereto or mixed or packed therewith so as to increase its bulk or weight, or reduce its quality or strength, to make it appear better or of greater value than it is.

(b) If it contains a coal-tar color other than one from a batch that has been certified in accordance with regulations as provided by section 15.

(c) If it is confectionery it shall also be deemed to be adulterated if it bears or contains any alcohol, resins or glaze, or non-nutritive substance except harmless coloring, harmless flavoring, natural gum, and pectin: Provided, That this paragraph shall not apply to any confectionery by reason of its containing less than one-half of 1 per centum by volume of alcohol derived solely from the flavoring extracts, or to any chewing gum by reason of its containing harmless nonnutritive masticatory substances.

MISBRANDED FOOD
Sec. 12. A food shall be deemed to be misbranded—
(a) If its labeling is false or misleading in any particular.
(b) If it is offered for sale under the name of another food.
(c) If its container fails to be so labeled as to be readily understood by purchasers and users of such articles as to be mistaken for a food of another kind.
(d) If its container or label fails to bear, in type of uniform size, character and location, the words "MISBRANDED" and, immediately thereafter, the name of the food imitated.
(e) If in package form unless it bears a label containing (1) the name and place of business of the manufacturer, packer, seller, or distributor; and (2) an accurate statement of the quantity of the contents in terms of weight, measure, or numerical count: Provided, That under subdivision (2) of this paragraph reasonable variations shall be permitted, and exemptions as to small packages shall be established, by regulations prescribed by the Secretary.
(f) If any word, statement, or other information required on the label under any provision of this Act is not prominently placed thereon in such a manner as to be easily seen and in such terms as to be readily understood by purchasers and users of such articles as to be understood as purporting to or representing as another food.
(g) If it purports to be or is represented as a food for which a definition and standard of identity has been prescribed by regulations as provided by section 10, and it fails to conform to such definition and standard, or (2) its label fails to bear the name of the food purporting to be described and sold, or if so required by such regulations when such definition and standard permits optional ingredients other than spices, flavors, and coloring, the common names of such optional ingredients as are present in such food.
(h) If it purports to be or is represented as a food for which a standard of quality or fill of container has been prescribed by regulations as provided by section 10, and its quality or fill falls below such standard of quality or fill of container and its label fails to bear a statement, in such manner as the regulations specify, showing that it falls below such standard of quality or fill of container.
(i) If it is subject to the provisions of paragraph (g) of this section and its label fails to bear (1) the common or usual name of the food, if any there be, or (2) in case it is fabricated from two or more ingredients, the common or usual name of each such ingredient; except that spices, flavors, and colorings, other than those sold as such, may be designated as spices, flavors, and colorings without naming each: And provided, That, to the extent that compliance with the requirements of subdivision (2) of this paragraph is impracticable, exemptions shall be established by regulations promulgated by the Secretary.
(j) If it purports to be or is represented for special dietary uses, such as by infants or invalids or for other special nutritional requirements, and its label fails to bear, if so required by such regulations as may be prescribed by the Secretary, statements concerning the chemical composition and nutritional properties which fully inform the purchaser as to its nutritional value.
(k) If it bears or contains any artificial flavor, artificial color, or chemical preservative, which is not prohibited by section 11.
and it fails to bear a label stating that fact: Provided, That to the extent that compliance with the requirements of this paragraph is impracticable, exemptions shall be established by regulations promulgated by the Secretary.

EMERGENCY PERMIT CONTROL

Sec. 13. (a) Whenever the Secretary finds after investigation that the distribution in interstate commerce of any class of food may, by reason of contamination with micro-organisms during the manufacture, processing, or packing thereof in any locality, be injurious to health, and that such injurious nature cannot be adequately determined after such articles have entered interstate commerce, he is then, and in such case only, authorized to promulgate regulations for the issuance, to manufacturers, processors, or packers of such class of food in such locality, of permits to which shall be attached such conditions governing the manufacture, processing, or packing of such class of food, for such temporary period of time, as may be necessary to protect the public health, and after the effective date of such regulations, and during such temporary period, no person shall introduce into interstate commerce any such food manufactured, processed, or packed by any such manufacturer, processor, or packer unless such manufacturer, processor, or packer holds a permit issued by the Secretary as provided by such regulations.

(b) The Secretary is authorized to suspend immediately upon notice any permit issued under authority of this section if it is found that any of the conditions of the permit have been violated. The holder of a permit so suspended shall be privileged at any time to apply for the reinstatement of such permit, and the Secretary shall immediately after prompt hearing and in inspection of the establishment, reinstate such permit if it is found that adequate measures have been taken to comply with and maintain the conditions of the permit, as originally issued or as amended.

(c) Any officer or employee duly designated by the Secretary shall have access to any factory or establishment, the operator of which holds a permit issued by the Secretary, for the purpose of ascertaining whether or not the conditions of the permit are being complied with, and denial of access for such inspection shall be ground for suspension of the permit until such access is freely given by the operator.

EXEMPTIONS

Sec. 14. The Secretary is hereby directed to promulgate regulations exempting from any labeling requirement of this Act (1) small open containers of fresh fruits and fresh vegetables and (2) food which is, in accordance with the practice of the trade, to be processed, labeled, or repacked in substantial quantities at establishments, the products of which are branded under the provisions of this Act upon removal from such processing, labeling, or repacking establishment.

TOLERANCES FOR POISONOUS INGREDIENTS IN FOOD AND CERTIFICATION OF COAL-TAR COLORS FOR FOOD

Sec. 15. (a) Any poisonous, contaminating, or deleterious substance added to any food, except where such substance is required in the production thereof or cannot be avoided by good manufacturing practice shall be deemed to be unsafe for purposes of the application of section 11 (a); but when such substance is so required or cannot be so avoided, the Secretary is authorized to promulgate regulations limiting the quantity therein or thereon to the extent that he finds necessary for the protection of public health. In determining the quality of such added substance to be tolerated in or on different articles of food the Secretary shall take into account the extent to which the use of such substance is required or cannot be avoided in the production of each such article, and the other ways in which the consumer may be affected by the same or other poisonous or deleterious substances.

(b) The Secretary is hereby authorized to promulgate regulations exempting from the certification of coal-tar colors which are harmless and suitable for use in food.

CHAPTER V

DRUGS AND DEVICES

ADULTERATED DRUGS

Sec. 16. A drug shall be deemed to be adulterated—

(a) (1) If it consists in whole or in part of any filthy, putrid, or decomposed substance; or (2) if it has been prepared, packed, or held under insanitary conditions whereby it may have been contaminated with filth, or whereby it may have been rendered injurious to health; or (3) if its container is composed, in whole or in part, of any poisonous or deleterious substance which may render the contents injurious to health; or (4) if it contains, for purposes of coloring only, a coal-tar color other than one from a batch that has been certified in accordance with regulations as provided by section 19.

(b) If its name is recognized in an official compendium, or if it purports to be a drug the name of which is so recognized, and it differs from the standard of strength, quality, or purity as determined by the tests or methods of assay set forth therein; except that whenever tests or methods of assay as prescribed are insufficient to determine whether a drug complies with such standard, the Secretary is hereby authorized to bring such fact to the attention of the appropriate body charged with the revision of such compendium and if such body fails within a reasonable time to prescribe tests or methods of assay which are sufficient, then the Secretary may by regulations prescribe for the purposes of this Act such tests or methods of assay. No drug defined in an official compendium shall be deemed to be adulterated under this paragraph because it differs from the standard of strength, quality, or purity therefor set forth in an official compendium if its standard of strength, quality, or purity may be plainly stated on its label. Whenever a drug is recognized in both the United States Pharmacopeia and the Homeopathic Pharmacopoeia of the United States it shall be subject to the requirements of the United States Pharmacopeia unless it is labeled and offered for sale as a homeopathic drug, in which case it shall be subject to the provisions of the Homeopathic Pharmacopoeia of the United States and not to those of the United States Pharmacopeia.

(e) It is not subject to the provisions of paragraph (b) of this section and its identity or strength differs from, or its purity or quality falls below, that which it purports or is represented to possess.

MISBRANDED DRUGS AND DEVICES

Sec. 17. A drug or device shall be deemed to be misbranded—

(a) If its labeling is false or misleading in any particular.

(b) If it is dangerous to health when used in the dosage, or with the frequency or duration, prescribed or recommended in the labeling or advertisement thereof.

(c) If in package form unless it bears a label containing (1) the name and place of business of the manufacturer, packer, seller, or distributor; and (2) an accurate statement of the quantity of the contents in terms of weight, measure, or numerical count: Provided, That under subdivision (2) of this paragraph reasonable variations in quantity may be permitted, and reasonable omissions shall be established by regulations prescribed by the Secretary.

(d) If any word, statement, or other information required on the label under any provision of this Act is not prominently placed thereon in such a manner as to be easily seen and in such terms as to be readily understood by purchasers and users of such articles under customary conditions of purchase and use, due consideration being given to the size of the package.

(e) If it is for use by man and contains any quantity of Alpha eucaine, barbituric acid, beta eucaine, bromal, cannabis, carbolmal, chloral, cocoa, cocaine, codeine, heroin, marihuana, morphine, opium, paraldehyde, peyote, sulphonmethane, or any substance chemically derived therefrom or any other narcotic or hypnotic substance, which derivative or other narcotic or hypnotic substance has been designated as habit forming by regulations prescribed by the Secretary, and, except when dispensed by order of a duly licensed medical practitioner, its label fails to bear the name and quantity or proportion of such substance or derivative and in juxtaposition therewith the statement “Warning—May be habit forming.”

(f) If it is a drug and is not designated by a name recognized in any compendium, its label fails to bear (1) a prominent or usual name of the drug, if such there be; or (2), in case it is fabricated from two or more ingredients, the name of each active ingredient, including the quantity, kind, and proportion of any alcohol; and also including, whether active or not, the name and quantity or proportion of any ether, chloroform, acetanilid, acetylsalicylic acid, atropine, hynocircum, phenacetin, phenetidin, amidopyrine, antipyrine, atropine, hyoscine, hyoscyamus, morphine, arsenic, digitalis, glucosides, mercury, ouabain, strophanthin, strychnine, thyroid, or any derivative or preparation of any such substances, contained therein: Provided, That to the extent that compliance with the requirements of subdivision (2) of this para-
graph is impracticable, exemptions shall be established by regula-
tions promulgated by the Secretary.

(g) If its labeling fails to bear plainly and conspicuously (1) adequate directions for use, or (2) adequate warnings against use in those pathological conditions or by children where its use may be dangerous to health, or against unsafe dosage or methods or duration of administration or application: Provided, That where any requirement of subdivision (1) of this paragraph, as applied to any drug or device is not necessary for the protection of the public health, the Secretary shall promulgate regulations exempting such drug or device from such requirement.

(h) If its name is recognized in an official compendium, or if it purports to be a drug the name of which is so recognized, and it is not packaged and labeled as prescribed therein. Whenever a drug is recognized in both the United States Pharmacopoeia and the Homeopathic Pharmacopoeia of the United States, it shall be subject to the requirements of the United States Pharmacopoeia with respect to packaging and labeling unless it is labeled and offered for sale as a homopathic drug, in which case it shall be subject to the provisions of the Homeopathic Pharmacopoeia of the United States, and not to those of the United States Pharma-
copia.

(i) If it has been designated by regulations prescribed by the Secretary as a drug liable to deterioration, and is not packaged in such form and manner, or its label fails to bear a statement of such precautions, as such regulations for the protection of public health. No such regulation shall be established for any drug recognized in an official compendium until the Secretary shall have informed the appropriate body charged with the revision of such compendium of the need for such packaging or labeling require-
ments and such body shall have failed within a reasonable time to prescribe such requirements.

(j) (1) If its container is so made, formed, or filled as to mis-
lead the purchaser; or (2) if it is an imitation of another drug;
or (3) if it is offered for sale under the name of another drug.

EXEMPTIONS

SEC. 18. The Secretary is hereby directed to promulgate regu-
lations exempting from any labeling or packaging requirement of this Act drugs and devices which are not necessary for the protection of the public health. No such regulation shall be established, by regulations prescribed by the Secretary, for any drug or device from such requirement.

(3) If its labeling is false or misleading in any particular.

(b) In package form unless it bears a label containing (1) the name and place of business of the manufacturer, packer, seller, or distributor; and (2) an accurate statement of the quantity of the contents in terms of weight, measure, or numerical count: Pro-
vided, That such data shall not by virtue of this subdivision be dangerous to health, or against unsafe dosage or methods or duration of administration or application: Provided, That any regulation promulgated under this subdivision shall be subject to the requirements of section 17, paragraph (e) or (g), of this Act, as applied to any drug or device.

(c) If any word, statement, or other information required on the label under any provision of this Act is not prominently placed thereon in such a manner as to be easily seen and in such terms as to be readily understood by the purchasers and users of such articles under customary conditions of purchase and use, due considera-
tion being given to the size of the package.

CERTIFICATION OF COAL-TAR COLORS FOR COSMETICS

SEC. 21. A cosmetic shall be deemed to be misbran-
ded—

(a) If its labeling is false or misleading in any particular.

(b) If in package form unless it bears a label containing (1) the name and place of business of the manufacturer, packer, seller, or distributor; and (2) an accurate statement of the quantity of the contents in terms of weight, measure, or numerical count: Pro-
vided, That such data shall not by virtue of this subdivision be dangerous to health, or against unsafe dosage or methods or duration of administration or application: Provided, That any regulation promulgated under this subdivision shall be subject to the requirements of section 17, paragraph (e) or (g), of this Act, as applied to any drug or device.

(c) If any word, statement, or other information required on the label under any provision of this Act is not prominently placed thereon in such a manner as to be easily seen and in such terms as to be readily understood by the purchasers and users of such articles under customary conditions of purchase and use, due considera-
tion being given to the size of the package.

CHAPTER VII

ADMINISTRATIVE PROVISIONS

AUTHORITY TO PROMULGATE REGULATIONS

SEC. 24. (a) The authority to promulgate regulations for the efficient enforcement of this Act, except as otherwise provided in this section, is hereby vested in the Secretary.

(b) The Secretary of the Treasury and the Secretary of Agri-
culture shall jointly prescribe regulations for the efficient enforce-
ment of the provisions of section 29, except as otherwise provided therein. Such regulations shall be promulgated in such manner and at such time as the Secretary of Agriculture shall determine.

(c) Hearings authorized or required by this Act, shall be con-
ducted by the Secretary or such officer or employee as he may designate for the purpose.

(d) The definitions and standards of identity promulged by or in accordance with this Act shall be effective for the purposes of the enforcement of this Act, notwithstanding such definitions and standards as may be contained in other laws of the United States and regulations promulgated thereunder.

(e) Whenever the Secretary deems that there should be estab-
lished any regulation contemplated by section 11, paragraph (a) or (c); section 12, paragraph (g), (h), or (j); section 10; section 15, paragraph (a) or (b); section 13, paragraph (a); section 16, paragraphs (a) or (b); section 17, paragraph (e) or (i); section 19; section 20, paragraph (e); or section 23, he shall give appro-
priate notice of the proposal and of the time and place for a public hearing to be held thereon not less than thirty days after the date of such notice. After such hearing the Secretary is authorized to promulgate such regulation as he shall find to be necessary to effectuate the purposes of such provision. The regulation so promulgated shall become effective on a date fixed by the Secretary, which date shall not be less than ninety days after its promulgation, and may be amended or repealed in the same manner as is provided for its adoption; except that public hearing on regu-
lations under section 13 (a) may be held within a reasonable time after notice thereof, and the Secretary may fix the effective date of such regulations at any reasonable time after promulgation thereof.

EXAMINATIONS AND INVESTIGATIONS

SEC. 25. (a) The Secretary is authorized to conduct examinations and investigations for the purposes of this Act through officers

1864
and employees of the Department or through any health, food, or drug officer or employee of any State, Territory, or political subdivision thereof, duly commissioned by the Secretary as an officer of the Department. In the case of food packed in a Territory, the Secretary shall attempt to make inspection of such food at the first point of entry within the territorial limits of the United States when, in his opinion and with due regard to the enforcement of all the provisions of this Act, the facilities at his disposal will permit of such inspection.

(b) Where a sample of a food, drug, or cosmetic is collected for analysis under this Act, the Secretary shall, upon request, provide a part of such official sample for examination or analysis by any person named on the label of the article; except that the Secretary is authorized, by regulations, to make such reasonable exceptions from, and impose such terms and conditions relating to, the operation of this sentence as he deems necessary for the effectuation of the purposes of this Act.

(c) For purposes of enforcement of this Act, records kept by the Treasury Department in accordance with laws, and regulations thereunder, relating to alcoholic beverages and medicinal liquors, shall be open to inspection by any official of the Department of Agriculture duly authorized by the Secretary of Agriculture to make such inspection.

(d) For the purpose of enforcement of this Act records kept by the Post Office Department in accordance with laws and regulations thereunder, relating to shipment by parcel post of foods, drugs, devices, and cosmetics, shall be open to inspection by the official of the Department of Agriculture duly authorized by the Secretary of Agriculture to make such inspection.

RECORDS OF INTERSTATE SHIPMENT

Sec. 26. For the purpose of enforcing the provisions of this Act, carriers engaged in interstate commerce, and persons receiving food, drugs, devices, or cosmetics in interstate commerce, shall, upon the request of an officer or employee duly designated by the Secretary, permit such officer or employee, at reasonable times, to have access to and to copy all records showing the movement in interstate commerce of any food, drug, device, or cosmetic, and the quality, shipment in interstate commerce, the label on the article; except that the record shall be unlawful for any such carrier or person to fail to permit such access to and copying of any such record so requested when such record is accompanied by a statement in writing specifying the nature or kind of food, drug, device, or cosmetic to which such request relates: Provided, That evidence obtained under this section shall not be used in a criminal prosecution of the person from whom obtained: Provided further, That carriers shall not be subject to the other sections of this Act by reason of their receipt, carriage, or delivery of food, drugs, devices, cosmetics, or advertising matter in the usual course of business as carriers.

FACTORY INSPECTION

Sec. 27. For purposes of enforcement of this Act, officers or employees duly designated by the Secretary, after first making request and obtaining permission of the owner, operator, or custodian thereof, are authorized (1) to enter, at reasonable times, any factory, warehouse, or establishment in which food, drugs, devices, or cosmetics are manufactured, processed, packed, or held for shipment in interstate commerce or are held after such shipment, or to enter any vehicle being used to transport such food, drugs, devices, or cosmetics in interstate commerce; and (2) to inspect, at reasonable times, such factory, warehouse, establishment, or vehicle and all pertinent equipment, finished and unfinished materials, containers, labeling, or advertising matter therein.

PUBLICITY

Sec. 28. (a) The Secretary shall cause to be published from time to time reports summarizing all judgments, decrees, and court orders which have been rendered under this Act, including the nature of the charge and the disposition thereof.

(b) The Secretary may also cause to be disseminated information regarding food, drugs, devices, or cosmetics in situations involving, in the opinion of the Secretary, imminent danger to health or gross deception of the consumer. Nothing in this section shall be construed to prohibit the Secretary from collecting, reporting, and illustrating the results of the investigations of the Department.

CHAPTER VIII
IMPORTS AND EXPORTS

Sec. 29. (a) The Secretary of the Treasury shall deliver to the Secretary of Agriculture, upon his request, samples of food, drugs, devices, and cosmetics which are being imported or offered for import into the United States, giving notice thereof to the owner or consignee, who may appear before the Secretary of Agriculture and have the right to introduce testimony. If it appears from the examination of such samples or otherwise that (1) any false advertisement of such article has been disseminated in the United States by the importer or exporter thereof, or any person in privy with him, within three months prior to the date such article is offered for import, or (2) such article has been manufactured, processed, or packed under insanitary conditions, or (3) such article is forbidden or restricted in sale in the country in which it was produced or from which it was exported, or (4) such article is adulterated or misbranded, then such article shall be refused admission.

(b) The Secretary of the Treasury shall refuse delivery to the consignee and shall cause the destruction of any such article refused admission, unless such article is exported by the consignee within three months from the date of notice of such refusal, under such regulations as the Secretary of the Treasury may prescribe: Provided, That the Secretary of the Treasury may deliver to the consignee any such article pending examination and decision in the matter on execution of a bond as liquidated damages for the amount of the full value of the article, together with the duty thereon, and on refusing for any cause to return such article or any part thereof to the custody of the Secretary of the Treasury when demanded for the purpose of excluding it from the country or for any other purpose, such consignee shall forfeit the full amount of the bond as liquidated damages.

(c) All charges for storage, cartage, and labor on any article which is refused admission or delivery shall be paid by the owner or consignee and in default of such payment shall constitute a lien against any future importations made by such owner or consignee.

(d) A food, drug, device, or cosmetic intended for export shall not be deemed to be adulterated or misbranded under this Act if it (1) accords with the specifications of the foreign purchaser, (2) complies with the laws of the country to which it is intended for export, and (3) is labeled on the outside of the shipping package to show it is intended for export. But if such article is sold or offered for sale in domestic commerce, this paragraph shall not exempt it from any of the provisions of this Act.

CHAPTER IX
COURT REVIEW OF REGULATIONS AND ADMINISTRATIVE ACTIONS

Sec. 30. The district courts of the United States are hereby vested with jurisdiction, on petition by any interested person, (1) to restrain by injunction, temporary or permanent, the enforcement by any officer, representative, or employee of the Department of any regulation promulgated in accordance with section 24 if it is found as a fact or conclusion of law by the judge of such court that the regulation is unreasonable, arbitrary, or capricious, or not in accordance with law, and that the petitioner may suffer substantial damage by reason of its enforcement; and (2) to grant appropriate injunctive relief from any act or omission of any officer, representative, or employee of the Department in the administration of this Act, if it has been shown that such act or omission is unreasonable, arbitrary, or capricious, or not in accordance with law, and that the petitioner may suffer substantial damage thereby: Provided, That nothing in this section shall be deemed to abridge the right of any person against whom a criminal prosecution or suit for injunction shall have been brought under this Act, or who shall intervene as claimant in any proceeding of libel for condemnation, to plead that the whole or any portion of the libel of which is alleged as the ground for such prosecution, suit, or libel is invalid on any of the grounds set forth above.

CHAPTER X
SEPARABILITY CLAUSE

Sec. 31. If any provision of this Act is declared unconstitutional, or the applicability thereof to any person or circumstances is held invalid, the constitutionality of the remainder of the Act and the applicability thereof to other persons and circumstances shall not be affected thereby.
SEC. 32. (a) This Act shall take effect twelve months after the date of its enactment. The Federal Food and Drugs Act of June 30, 1906, as amended (U. S. C., 1934 ed., title 21, secs. 1-15), shall remain in force until such effective date, and, except as otherwise provided in this paragraph, is hereby repealed effective upon such date: Provided, That the provisions of section 24 shall become effective on the enactment of this Act, and thereafter, the Secretary is authorized hereby to (1) conduct hearings and to promulgate regulations which shall become effective on or after the effective date of this Act as the Secretary shall direct, and (2) designate prior to the effective date of this Act food having common or usual names and exempt such food from the requirements of subdivision (2) of paragraph (i) of section 12 for a reasonable time to permit the formulation, promulgation, and effective application of definitions and standards of identity therefor as provided by section 10: Provided further, That the Act of March 4, 1923 (U. S. C., 1934 ed., title 21, sec. 6; 42 Stat. 1500, ch. 268), defining butter and providing a standard therefor, and the provisions of the Act of July 24, 1919 (U. S. C., 1934 ed., title 21, sec. 10; 41 Stat. 271, ch. 26), defining wrapped meats as in package form, shall remain in force and effect and be applicable to the provisions of this Act: And provided further, That amendment to the Food and Drugs Act, section 10A, approved August 27, 1935 (U. S. C., 1934 ed., Supp. I, title 21, sec. 14a), shall remain in force and effect and be applicable to the provisions of this Act.

(b) The provisions of this Act shall not be held to modify or repeal any of the existing laws of the United States except as provided by paragraph (a) of this section.

(c) Meats and meat food products shall be exempt from the provisions of this Act to the extent of the application or the extension thereto of the Meat Inspection Act, approved March 4, 1907, as amended (U. S. C., 1934 ed., title 21, secs. 71-91; 34 Stat. 1260 et seq.).

(d) Nothing in this Act shall impair, or be construed to impair or diminish, the powers of the Federal Trade Commission under existing law.
The majority members of the House Committee on Patents includes Representatives William I. Sirovich, of New York (chairman); Fritz G. Lanham, Texas; Braswell D. Deen, Georgia; Thomas O'Malley, Wisconsin; Matthew A. Dunn, Pennsylvania; Charles Kramer, California; Graham A. Barden, North Carolina; John L. McCellan, Arkansas; Frank W. Boykin, Alabama; William B. Barry, New York; William P. Connery, Jr., Massachusetts; John McSweeney, Ohio; Edwin V. Champion, Illinois; Thomas K. Amlie, Wisconsin; and Dewey W. Johnson, Minnesota.

The minority members of the above House Committees are expected to be announced shortly.

EXAMINER RECOMMENDS GRANTING APPLICATION OF FORMER SENATOR DILL

Former Senator Clarence C. Dill applied to the Federal Communications Commission for a construction permit for a new broadcasting station at Washington, D. C., to use 1390 kilocycles, 1,000 watts power, and unlimited time on the air.

Examiner John P. Bramhall, in Report No. 1-334, recommended that the application be granted. The Examiner states that "there is need for an additional service in the area proposed to be served."

He states that the proposed site is satisfactory to the Commission; that a directional antenna will be used at the station; that the radio towers will be marked in accordance with engineering specifications and that "the granting of this application will serve public interest, convenience and necessity."

WHEELER ASKS BROADCAST INFORMATION

Senator Wheeler of Montana, chairman of the Senate Committee on Interstate Commerce, has sent two letters to Chairman Prall of the Federal Communications Commission asking for specified information in regard to the ownership or control of broadcasting stations by the NBC, CBS, Hearst Syndicate, and other chains. He also asks questions relative to the ownership of stations by newspapers of the country.

Senator Wheeler says:

"As chairman of the Committee on Interstate Commerce, I would like to be furnished with the following information:

1. How many cleared channels are today owned and controlled or operated by, or in connection with, any of the so-called chain broadcasting companies?
2. How many stations have been sold or transferred within the past three years, giving the date of such transfer, the name of the station, its location, and the price paid, and whether purchased by a newspaper or by one of the chain broadcasting companies?
3. Kindly furnish me with the number of stations owned or controlled by the National Broadcasting network.
4. Kindly furnish me with the number of stations owned or controlled by the Columbia Broadcasting System.
5. Kindly furnish me with the number of stations controlled by the Hearst Syndicate.
6. Kindly furnish me with the number of stations controlled, or in the network of any other chain system."

In his second letter Senator Wheeler said:

"Will you kindly furnish me with the following information:

1. How many newspapers in the country at the present time own radio stations?
2. How many have been acquired within the past year?
3. Kindly furnish me with the number of stations owned or controlled by newspapers for radio stations?
4. I would like to have an opinion from the Chief Counsel of the Commission on the question as to whether or not the Commission has the authority, at the present time, to deny an application of a newspaper for radio facilities, on the ground that it is against public policy.
5. Whether, if the Commission has not such authority at the present time, legislation could be passed, denying the right for newspapers to acquire them in the future, and requiring all newspapers within a reasonable time to divest themselves of the ownership and control of such radio stations?"
NEW STATION RECOMMENDED FOR MIAMI BEACH

A. Frank Katzentine applied to the Federal Communications Commission for a construction permit for the erection of a new broadcasting station at Miami Beach, Florida, to use 1500 kilocycles, 100 watts power, and unlimited time on the air.

Examiner John P. Bramhall, in Report No. 1-333, recommended that the application be granted. The Examiner states that "a need for additional service in the area proposed to be served has been definitely shown." He stated further that "the granting of this application should be conditioned upon the applicant's selection of a transmitter site, which would comply with the engineering standards of the Commission."

PAYNE SPEAKS OF RADIO AT HARVARD

George Henry Payne, Federal Communications Commissioner, delivered two lectures on Monday in Harvard University before the School of Business Administration on the work of the Communications Commission and its problems.

He said that one of the outstanding accomplishments of the Commission during the past year was the reduction of $22,000,000 in telephone tolls as a result of the Commission's investigation of the telephone industry. One of the most important problems that the Commission has taken over, he declared, was counter to not only the spirit but the letter of the Communications Act of 1934.

The main portion of his second lecture was taken up with the discussion of the problem of evolving an American policy for the control of our international communications. In elucidating this, he referred to the establishment of a radio telephonic channel with France as the beginning of our freedom from control by foreign nations in communication.

Commissioner Payne very sharply criticized the radio lobby in Washington which has been working for years to get control of the short wave broadcasting facilities which belong to the United States Government and the absorption of which, Commissioner Payne said, would be a public scandal redolent of the Teapot Dome.

In this connection, Commissioner Payne said:

"When a little over a year ago I called attention to the fact that one of the reasons for the long delay was supposed to be the clever opposition of commercial interests who had succeeded in sabotaging it. I stated then and I state now that unless constructive steps are taken by the industry itself to clean up some of the flagrant violations of public confidence and support, Congress itself will be obliged to take an active hand in the matter."

"Every other nation in the world is prepared to defend itself over the air from the attack of foreign or unfriendly agencies."

"Every other nation in the world is prepared to see that the world understands its point of view—and yet this nation, where the greatest development of broadcasting has taken place, is sitting by without control over the commercial interests within its own borders and outside of its borders is at the mercy of every propagandizing nation."

"We ought to have a station through which the President of the United States could speak to the world, particularly at this time of world unrest and strife."

"I am sorry to say this morning that my fears were fully justified, and that not only have these same interests continued to block the development of this essentially American project, but actually within the last few months a vicious attempt has been made to take over from the Government these precious five frequencies which were allocated for this service by Executive Order of the President, to take them over for commercial operation on the specious plea that since little progress had been made in the development of this project by the Government itself, it is now necessary to involve private interests to operate stations on the frequencies, in order to protect the use of these frequencies for the United States as a whole."

"It is hardly necessary for me to point out to you that the very people who are urging this are the ones who have been opposing the project all along, and who, until the present, have effectively succeeded in sabotaging it."

"I have complete documentary evidence to support all this, including the names of the persons and the organizations involved."

"I hope that it will not be necessary to wash all this dirty linen in public, and I am refraining from saying any more at this time, because I know that steps are being taken in the very highest administration circles to clear away all this barrage of interference and start immediately operation of the project."

"I mentioned it, however, to point out the dangers to our American system of Government of the sort of insidious back-door lobbying of the type which led to such scandals as Teapot Dome."

BROADCAST ADVERTISING IN NOVEMBER

Highlights of the Month

Broadcast advertising in November amounted to $11,419,143, less than a one per cent decline from the record-breaking level of $11,441,614 in November 1936. All portions of the medium increased as compared to November of last year with the exception of regional network advertising which declined 4.6%. Total broadcast advertising increased 39.1% over the corresponding month of last year.

Broadcast advertising during the first eleven months of 1936 amounted to $96,503,945, an increase of 22.4% over 1935.
the corresponding period of the preceding year. Gains with regard to various portions of the medium were as follows: national networks 18.7%, regional networks 28.9%, national non-network advertising 41.2%, and local broadcast advertising 13.1%. Total non-network advertising during November was 11.0% greater than during October and 45.0% greater than during the corresponding month of last year. Clear channel station and regional station advertising increased 18.7% and 9.1%, respectively, over October, while local station advertising declined 3.5%. All sections of the country experienced gains over October, non-network advertising in the New England-Middle Atlantic Area and in the Pacific and Mountain Area rising 23.5% and 23.9%, respectively. All sizes of stations and sections of the country registered marked gains over November 1935. Total transcription volume increased 19.9% over October. Live talent and announcement volume rose 7.6% and 10.8%, respectively, while total record volume declined 5.9%. Total retail broadcast advertising increased 8.7% over last month and 24.0% over November 1935.

Total Broadcast Advertising
Total broadcast advertising for the month of November is found in Table I.

Despite the record-breaking October level, total broadcast advertising declined less than one percent from the previous month’s gross time sales. This is a usual seasonal decline which has likewise been experienced in past years. National network volume declined 8.5% and regional network advertising dropped 20.8%. National non-network advertising experienced a marked increase, rising 19.6%, while local business rose 1.7%.

With the exception of regional network advertising, which declined only 4.6%; all portions of the medium showed increases when compared to the corresponding month of last year. National network volume rose 35.6%, national non-network advertising 73.8%, and local business 19.8%. Total broadcast advertising increased 39.1% over November 1935.

Comparison with Other Media

1 Publishers Information Bureau.
2 Estimated.

National magazine volume increased 3.2% over the October level and 21.9% over the corresponding month of last year. Farm paper advertising declined 2.7% from last month but was 26.5% ahead of the level of last November. Newspaper advertising experienced the usual November seasonal decline, dropping 3.4% as compared with the previous month. However, newspaper advertising for November was 9.4% greater than for the same month of 1935.

Non-network Advertising
Total non-network advertising increased 11.0% as against October and registered an increase of 45.0% over the level of November 1935. Clear channel and high-powered regional stations continued to show the greatest gain, rising 18.7% over the previous month. Regional station volume rose 9.1%, while local station business declined 3.5%.

All classes of stations experienced increases as compared to the corresponding month of last year. Clear channel and high-powered regional station business rose 40.3%, regional station advertising 59.2%, and local business 22.1%.

Non-network advertising by power of station is shown in Table III.

Sponsor Trends in November

With few exceptions, national network advertising by various sponsoring industries remained at approximately the same level as last month. Network confectionery and household equipment advertising increased materially and financial advertising volume rose 31.9%. The miscellaneous group declined 60.9% due mainly to the decline in sponsored political broadcasts. The principal gain in the regional network field was in the toilet goods group, which rose 42.0%. Foodstuffs and the miscellaneous group declined 39.7% and 65.5%, respectively.

Gains were general in the non-network field, principal increases being registered in the automotive, accessory, beverage, radio set and tobacco groups. In the local field, automotive advertising increased 51.6% and soap and kitchen supply volume 66.2%.

Compared to November 1935, principal increases in the national network field occurred in the automotive, household furnishings, financial and miscellaneous groups. The automobile, accessories, toilet goods, beverage and financial groups gained in the regional network field, while the drug, foodstuffs, and tobacco groups showed declines. National non-network automobile accessory, soaps and kitchen supply, radio set, department store and tobacco groups showed marked gains. In the local field, the automotive and financial groups showed the principal gains.

Broadcast advertising by type of sponsoring business is found in Table VI.

Detailed information regarding various sponsor groups during the month of November is as follows:

1a. Amusements. National non-network business 28.8% over October, while local declined 15.8%. National non-network business increased materially over November 1935, while local rose 4.1%.

1. Automotive. National network advertising 16.6% below October. National non-network and local business increased 38.6% and 51.6%, respectively, while regional network business gained materially. National network business 84.1% above last November, non-network up 35.4%, and local business up 64.4%.

2. Gasoline and accessories. Compared to last month, national network and regional network business down 3.6% and 8.2%, respectively, while national non-network and local business gained 56.1% and 11.6%, respectively. National network business 16.6% above November of last year. Regional network business increased 95.2% and national non-network business 171.5%. Local business dropped 15.6%.

3. Clothing. Compared to October, national network business rose 9.5%, national non-network volume 5.8%, and local advertising 14.3%. Regional network advertising amounted to $420. As against the corresponding month of last year, national network business rose 46.6%, national non-network business 15.6%, and local advertising 11.6%. Regional network business declined materially.

4. Drugs and pharmaceuticals. National network business 1.4% below October. Regional network business rose 14.9%, national non-network volume 20.3%, and local advertising 8.6%. National network business 9.6% below November 1935. Regional networks down 55.5% and local down 29.6%. National non-network increased 52.2% over November 1935.

5. Toilet goods. National network volume 15.9% above last month, regional 42.0%, and national non-network 29.1%. Local
down 27.4%. Compared to the corresponding month of November, national network volume rose 8.0%, national non-network 51.1%, and regional network business materially. Local advertising dropped 14.5%.

6. Foodstuffs. National network business increased 5.9% over October, national non-network 20.4%, and local 21.3%. Regional network advertising declined 39.7%. Compared to November 1935, national networks gained 35.4%, national non-network 64.7%, regional 32.3%. Regional advertising dropped 23.3%.

7. Beverages. National network and national non-network gained 2.3% and 32.6% over October, respectively, while regional network and local advertising declined 8.1% and 5.6%. Gains as compared to corresponding month of last year as follows: national networks 37.3%, regional networks 68.2%, national non-network 51.8%, and local 7.5%.

8. Confectionery. National network volume more than tripled October's level and national non-network gained 3.3%. Regional network business dropped 18.5% and local advertising 7.9%. Compared to November 1935, national network gained 2.9% and national non-network 63.1%, while regional network declined materially and local advertising 40.2%.

9. Household equipment. National network advertising five times as great as October. Regional networks increased 3.2% and national non-network business 9.2%, while local advertising dropped 3.3%. Compared to last November, national networks increased 27.3%, national non-network 53.2%, and local 14.9%. Regional network advertising declined 36.8%.

10. Soaps and kitchen supplies. National network advertising 3.3% greater than October. National non-network rose 2.9% and local 66.2%, while regional advertising dropped 23.3%. Compared to the corresponding month of last year, national networks rose 97.9% and national non-network more than tripled. Regional networks declined 23.8% and local 21.4%.

11. Insurance and financial. National network up 31.9% over October, regional network 6.5%, and local advertising 28.1%. National non-network volume declined 36.7%. National network up 93.0% over November 1935, regional network more than doubled, and local advertising up 37.0%. National non-network dropped 46.6%.

12. Radios. National network up 1.4% compared to October, national non-network up 68.5%, and local advertising down 4.5%. Compared to November of the preceding year, national network business rose 3.9%, national non-network volume more than doubled, and local advertising rose 7.6%.

13. Department and general stores. National network volume declined 19.8% and local advertising 11.1% compared to October. Regional network business amounted to $4,237 and national non-network business rose 13.9%. Compared to November 1935, national non-network advertising tripled and local business increased 49.4%.

14. Textile products. National network volume 8.8% above October, regional networks up 4.8%, and national non-network up 37.6%. Local advertising declined 18.9%. National network volume 9.3% greater than November 1935, and national non-network more than tripled. Regional network and local business dropped 37.5% and 18.7%, respectively.

15. Miscellaneous. Declines as compared to October as follows: national networks 60.9%, regional networks 65.5%, national non-network 6.4%, and local 16.4%. Compared to the corresponding month of last year, national networks up 69.9%, national non-network 74.9%, and local 39.5%. Regional network business declined 24.2%.

Retail Broadcast Advertising

Total retail broadcast advertising increased 8.7% over October. Principal gains were registered by the following groups: automobile agencies 35.0%, gasoline stations 21.1%, clothing shops 15.7%, drug stores 13.8%, beverage retailers three and one-half times as great, and hardware stores 22.6%. Grocery store advertising dropped 23.2% and confectionery store volume declined materially.

Compared to November 1935, total retail advertising increased 24.0%. Automotive advertising increased 50.8%, clothing 15.9%, beauty parlors 16.1%, household equipment dealers 63.0%, furniture stores 44.7%, hardware stores 92.6%, radio retailers 24.9%, and department stores 29.5%. Grocery store advertising declined 31.6% and drug store advertising 27.9%.

Broadcast advertising by retail establishments during November is found in Table VII.

### FEDERAL TRADE COMMISSION ACTION

#### Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

**No. 3019.** Ten card clothing manufacturers, and their trade association, are charged, in a complaint, with suppressing competition by the members of their industry and with maintaining uniform prices and terms of sale for their product. The respondents' practices are alleged to be in violation of Section 5 of the Federal Trade Commission Act.

Redman is not a member of the association, but allegedly has cooperated with it and its members.

**No. 3026.** False and misleading representations concerning the results to be obtained through use of “Koatsal,” sold as a motor lubricant, are alleged in a complaint issued against Kidder Oil Company, 818 South Third St., LaCrosse, Wis.

The respondent corporation allegedly advertises that “Koatsal” perfects lubrication and is more efficient than any other method because it is scientifically correct; that it reduces vibration in airplane motors to a remarkable degree; penetrates and adheres to all metal surfaces; reaches, reduces friction as much as 80 per cent, and provides perfect protection against burned-out bearings, and that an automobile conditioned with the product and having no oil in the crank-case can run an amazing distance without damage to any part of the car.

The respondent corporation is located at 2032, Florin Motiplaing Method, Inc., 252 South Broad St., Philadelphia, is charged in a complaint with unfair methods of competition in connection with the sale of “Flori,” a liquid preparation for use on garments, rugs, furniture and other articles as a protection against moths, carpet beetles, and insects.

In advertising matter, the respondent corporation allegedly
represents, among other things, that “Flori” makes a fabric inedible to moth larvae and carpet beetles, and that the “Flori” moth-proofing method gives permanent protection and is “a guaranteed service and is backed with a five-year policy of a reputable insurance company guaranteeing against moth damage.”

According to the complaint, such representations are false in that the product does not kill moths and other insects, and does not render articles impregnated with “Flori” permanently immune to damage or injury.

No. 3028. A complaint has been issued charging Julius Goodman & Son, Inc., 43 South Main St., Memphis, Tenn., with use of unfair methods of competition in the sale of silver tableware.

The respondent corporation allegedly purchases old, second-hand silver tableware, renovates it, and represents in advertising matter that it is new and unused. According to the complaint, the hand-crafted appearance of the respondent’s products affords the impression that the fact that they had been previously used and then renovated.

No. 3029. Unfair disparagement of the goods of competitors is alleged in a complaint issued against Johnson & Johnson, New Brunswick, N. J., engaged in manufacturing and selling absorbent cotton, gauze, bandages, and other first-aid and surgical dressing products.

Certain advertisements of the respondent corporation allegedly are misleading and deceptive in that they represent, directly or by innuendo, that users of first-aid and surgical dressing products of unknown make, or which are manufactured by other than well-known or well-established organizations, run greater risk of infecting wounds or cuts upon which such dressings are used.

Such representations, the complaint charges, constitute an unwarranted disparagement of the merchandise of those competitors who, although they do not advertise extensively and may not be as well known, manufacture first-aid and surgical dressing products that are equal in antiseptic properties to, and are as safe and in as sanitary condition when opened for use, as the products of the respondent corporation.

In advertisements and radio broadcasts, the respondent company is alleged to have represented that its product is an effective cure and remedy for arthritis, asthma, brain disease, Bright’s disease, and other ailments, and starts one on the road to health, building up a resistance to combat the cause of a majority of all diseases.

These representations are alleged to have been untrue.

The respondent company is given twenty days in which to file answer to the charges of violation of Section 5 of the Federal Trade Commission Act.

Stipulations and Orders

The Commission has issued the following cease and desist orders and stipulations:

No. 1871. Henry I. Scott, 1716 Pennsylvania Ave., N. W., trading as Gordon’s Radio Shop, in his stipulation, agrees to stop using as a trade name or brand for his products, the word “Majestic,” either alone or in connection with “International” or other words so as to imply that these articles are made by Majestic Radio and Television Corporation of Illinois, successor to Grigsby-Grunow Co., of Chicago, original manufacturer of “Majestic” sets.

Scott also agrees not to use the word “Victor” alone or in conjunction with “International” so as to imply that the products so designated are made by RCA Victor Co., Victor Division of the RCA Manufacturing Co., when such is not a fact.

No. 1872. McKinley-Roosevelt University, 4240 Clarendon Ave., Chicago, agrees to stop using the word “university” as part of its corporate name or as part of any trade name or brand for its products, the word “Majestic,” either alone or in connection with “Victor,” or any other words so as to imply that these articles are made by RCA Victor Co., Victor Division of the RCA Manufacturing Co., when such is not a fact.

No. 1873. Barnett Cass, Samuel Cummings and Isador Shapiro, trading as Industrial Silk Mills, New York City, engaged in the sale of silk goods, agreed to stop using the word “Mills” as part of or in connection with the trade name under which they sell their products in interstate commerce. According to the stipulation, they will stop employing the words “Mills” and “Manufacturers,” alone or in connection with other words, so as to imply that they manufacture the articles they sell, or own and operate the mill in which such products are made, when such is not a fact.

No. 1875. Metropolitan Radio Co., Inc., 940 F St., N. W., will also cease a similar use of the designations “Majestic” and “General Electric,” and also of the word “Sparta,” or any other colorable imitation of the word “Spartan,” alone or in conjunction with “Junior Universal,” or with other words, so as to imply that such sets so branded are made by The Sparks-Withington Co. of Ohio, when this is not a fact.

The sets so designated by each dealer were not the products of the well-known companies named, according to the stipulation.

The Metropolitan Radio Co., Inc., will also cease use in advertising of the word “metal” to describe radio tubes so as to imply that they are those products which have become known to the trade and purchasing public as “metal” tubes in which the technical elements are sealed in a vacuum in steel and in which the metal functions instead of glass, when such is not a fact.

No. 1879. Belmont Hosley Mills, Inc., Belmont, N. C., will stop marking, branding or labeling its products with any representation that they contain two threads of silk for each thread of rayon, or that they are those products which have become known to the trade and purchasing public as “metal” tubes in which the technical elements are sealed in a vacuum in steel and in which the metal functions instead of glass, when such is not a fact.

No. 1884. Oxford Institute, 4750 Sheridan Road, Chicago, selling courses and textbooks in commercial branches, will cease asserting, through its salesmen or by means of advertising, that its courses and textbooks are suitable for leading students in their communities; that the opportunity to become a subscriber is limited to one or to a small number in each community; that the Oxford Institute is a college institution; that students passing examinations given by Oxford Institute are in a position to pass a university entrance examination, and other similar representations.

The respondent corporation also agrees to stop publishing and distributing the lecture by Dr. Russell H. Convell, entitled “Acres of Diamonds,” so dressed as to make it appear that this lecture was delivered especially for the benefit of Oxford Institute pupils, and, without so doing, to make a similar lecture.

No. 2400. Arrow Distilleries, Inc., 401 South Washington St., Peoria, Ill., has been ordered to cease and desist from representing that it is a distiller of whiskey, gin and other spirituous beverages, when such is not a fact.

Under the order, the respondent corporation, is prohibited from using as a trade name or brand for its products, the words “Army” and “Navy” as a part of or in connection with the trade names “Majestic” and “Manufacturers,” alone or in connection with other words, so as to imply that they are those products which have become known to the trade and purchasing public as “metal” tubes in which the technical elements are sealed in a vacuum in steel and in which the metal functions instead of glass, when such is not a fact.

Under the order, the respondent corporation is prohibited from using as a trade name or brand for its products, the word “Majestic,” alone or in connection with other words, so as to imply that these articles are made by RCA Victor Co., Victor Division of the RCA Manufacturing Co., when such is not a fact.

No. 2756. Use of the words “Army” and “Navy” as a part of or in connection with the trade names in connection with the sale of merchandise in interstate commerce, is prohibited under an order to cease and desist entered against Sternheimer Bros., Inc., 4708 Lester St., Richmond, Va. The respondent corporation, trading as Army & Navy Supply Co., and Army Goods Store, is said to operate a chain of retail stores.

The respondent corporation agreed to discontinue advertising in newspapers, catalogues or otherwise, the words “Army” and “Navy” as descriptive of or in connection with any merchandise sold, unless such merchandise actually has been procured from the Army or Navy Departments of the United States.

The respondent corporation, was also enjoined from distributing advertising matter entered into prior to issuance and service of the order.

No. 2757. The Retail Furniture Dealers Association of St. Louis, its officers, and thirty-six merchant members, all of St. Louis and East St. Louis, Ill., have been ordered to cease and

NEW—Central States Broadcasting Co., Council Bluffs, Iowa.— C. P., 1500 kc., 100 watts, unlimited time.

NEW—The Trenton Times, Trenton, N.J.—C. P., 1570 kc., 250 watts, unlimited time.

NEW—The Trenton Times, Trenton, N.J.—C. P., 1570 kc., 250 watts, unlimited time.

NEW—The Journal Co. (The Milwaukee Journal), Milwaukee, Wis.—C. P., 1570 kc., 1 kw, unlimited time.

NEW—Loyal K. King, d/b as Radio & Television Research Co., Dallas, Texas.—C. P., 1500 kc., 100 watts, daytime.

NEW—A. L. Chilton, Dallas, Texas.—C. P., 990 kc., 1 kw, daytime.

APPLICATIONS GRANTED

WMC—Memphis Commercial Appeal, Inc., Memphis, Tenn.— Granted C. P. to move auxiliary transmitter to location of main transmitter and use antenna system of main transmitter.

WACO—KRTA Broadcasting Co., Waco, Texas.—Granted license to cover C. P. authorizing installation of new equipment and vertical radiator.

KRNR—Southern Ore. Pub. Co., Roseburg, Ore.—Granted license to cover C. P. authorizing changes in equipment; increase in power to 250 watts day, 100 watts night, time of operation limited to 1500 kc.

WSAZ—WSAZ, Inc., Huntington, W. Va.—Granted authority to determine operating power by direct measurement of antenna input.

WCBS—WCBS, Inc., Springfield, Ill.—Granted license to cover C. P. authorizing change in transmitter location locally; change in equipment and installation of vertical radiator.

WBLY—Herbert Lee Blye, Lima, Ohio.—Granted license to cover C. P. authorizing new station; 1210 kc., 100 watts, daytime.

WCBM—Baltimore Broadcasting Corp., Baltimore, Md.—Granted license to cover C. P. authorizing move of transmitter locally to Cold Spring Lane; and covering new equipment.

KOMO—Fisherman’s Blend Station, Inc., Seattle, Wash.—Granted license to cover C. P. authorizing changes in equipment; move of present licensed auxiliary transmitter to main transmitter, site of KOMO and KJR, for auxiliary purposes only, using same antenna system.

KJR—Fisherman’s Blend Station, Inc., Seattle, Wash.—Granted license to cover C. P. authorizing move of auxiliary transmitter of KOMO to main transmitter site of KOMO and KJR as auxiliary transmitter using same antenna.

KLAH—Harney Hubbard, A. J. Crawford, Jack Hawkins, Harold Miller, d/b as Carlsbad, b/c Co. (a partnership), Carlsbad, N. M.—Granted license to cover C. P. authorizing erection of new station; 1210 kc., 100 watts, unlimited.

WKY—WKY Radio Co., Oklahoma City, Okla.—Granted license to cover C. P. authorizing installation of new equipment and vertical radiator; increase day power to 5 kw; 900 kc., 1 kw, night, unlimited time. Also granted authority to determine operating power by direct measurement of antenna input.

KBST—The Big Spring Herald B/c Co., Big Spring, Tex.—Granted license to cover C. P. authorizing erection of new station; 1500 kc., 100 watts, unlimited.

WSAR—Doughty & Welch Electric Co. Inc., Fall River, Mass.—Granted license to cover C. P. authorizing installation of new equipment and directional antenna system for day and nighttime operation; increase power to 1 kw; 1450 kc., unlimited.

KDB—Santa Barbara Broadcasters, Ltd., Santa Barbara, Calif.—Granted license to cover C. P. authorizing installation of new equipment, increase day power from 100 to 250 watts; 1500 kc., 100 watts night, unlimited.

KVG—Ernest Edward Rueska, Great Bend, Kans.—Granted modification of C. P. approving transmitter north of city, outside of corporation limits, studio at 2103 Forest Ave.; install standard equipment other than authorized in C. P.

KSO—Iowa Broadcasting Co., Des Moines, Ia.—Granted modification of C. P. for further changes in equipment.

WPRP—Julio M. Conesa, Ponce, P. R.—Granted modification of license to operate an additional 3 hours (3 to 6 p.m.), Sundays only.

WBNX—Standard Cahill Co., Inc., New York, N. Y.—Granted modification of license to change name to WBNX Broadcasting Co., Inc.

KDON—Monterey Peninsula Broadcasting Co., Del Monte, Cal.—Granted modification of license to change studio location locally in Monterey.

WPAY—Vee Bee Corp., Portsmouth, Ohio.—Granted authority to install automatic frequency control.

WALA—Pape Broadcasting Corp., Inc., Mobile, Ala.—Granted authority to determine operating power by direct measurement of antenna power.

WDBO—Orlando Broadcasting Co., Inc., Orlando, Fla.—Granted authority to determine operating power by direct measurement of antenna input.

FEDERAL COMMUNICATIONS COMMISSION

ACTION

HEARING CALENDAR

The following broadcast hearings are scheduled for hearing at the Commission for the week beginning Monday, January 18.

Monday, January 18

HEARING BEFORE AN EXAMINER

(Broadcast)

NEW—Central States Broadcasting Co., Council Bluffs, Iowa.— C. P., 1500 kc., 100 watts, unlimited time.

NEW—The WATR Company, Inc., Waterbury, Conn.— C. P., 1290 kc., 250 watts, unlimited time.

KRLH—Clarence Scharbauer, Midland, Texas.—Modification of license, 1210 kc., 100 watts, daytime.

Tuesday, January 19

HEARING BEFORE AN EXAMINER

(Special Broadcast)

NEW—The Trenton Times, Trenton, N. J.—C. P., 1570 kc., 250 watts, unlimited time.

The following stations were granted renewal of licenses for the regular period:

KDKA and alternate, Pittsburgh, Pa.; KEX, Portland, Ore.; KFAB, Lincoln, Neb.; KEFG, St. Joseph, Mo.; KGO and auxiliary, San Francisco; KJBS, San Francisco; KIEW, Glendale, Calif.; KJZ, Seattle; KMOX, St. Louis, Mo.; KPAC, Beverly Hills, Cal.; KOA, Denver, Colo.; KOB, Albuquerque, N. M.; KPO and auxiliary, San Francisco; KRLD, Dallas, Tex.; KSL, Salt Lake City; KTHS, Hot Springs Nat'l Park, Ark.; KTRB, Modesto, Cal.; KVVO, Tulsa, Okla.; KXLA, Seattle, Wash.; KYW, Philadelphia; WAW, Omaha; WABC-WBRO, New York City; WAPI, Birmingham, Ala.; WBAL, Baltimore, Md.; WBAP, Fort Worth, Tex.; WBBM and auxiliary, Chicago; WBT, Charlotte, N. C.; WBZ, Boston; WBU, Boston; WACA and auxiliary, Philadelphia, Pa.; WCAZ, Carthage, Ill.; WCCO, Minneapolis, Minn.; WCLF and auxiliary, Chicago; WWSY, Minneapolis, Minn.; WEAF and auxiliary, New York City; WEJU, Pa.; WEND and auxiliary, Chicago; WFAA, Dallas, Tex.; WGN, Chicago; WHAM and auxiliary, Rochester, N. Y.; WHAS, Louisville, Ky.; WBB, Kansas City, Mo.; WHEB, Indianapolis, Ind.; KWWO, Columbus, Ohio; WHO, Des Moines, la.; WHBH and auxiliary, Boston; WIN, New York City; WJJD, Chicago; WJR and auxiliary, Detroit; WJZ, Cincinnati, Ohio; WLS and auxiliary, Chicago; WLW, Cincinnati, Ohio; WLAJ, Columbus, Ohio; WMAQ, Chicago; WMAZ and auxiliary, Macon, Ga.; WMBI, Chicago; WNYC and auxiliary, New York City; WOAI and auxiliary, San Antonio, Tex.; WOI, Ames, la.; WRB, Newark, N. J.; and auxiliary; WOWO, Fort Wayne, Ind.; WPTF, Raleigh, N. C.; and auxiliary; WRUF, Gainesville, Fla.; WRVA, Richmond, Va.; WSAZ, Huntington, W. Va.; WSB and auxiliary, Atlanta, Ga.; WVTB, Cumberland, Md.; WTVI, Hartford, Conn.; WWVA and auxiliary, Wheeling, W. Va.

The following stations were granted renewal of licenses for the period ending July 1, 1937:

KCBO, Kansas City, Mo.; WCBS, Springfield, Ill.; WBEB, Dubuque, Ill.; WQDM, St. Albans, Va.; WRDW, Augusta, Ga.

SET FOR HEARING

NEW—Salinas Newspapers, Inc., Salinas, Calif.—Application for C. P. for new broadcast station at Salinas, Calif. to operate on 1580 kc., 250 watts, daytime only. Transmitter and studio sites are to be determined with Commission's approval.

NEW—Seaboard Investment Co., Inc., Montgomery, Ala.—Application for C. P. for new broadcast station at Montgomery, Alabama to operate on 1580 kc., 250 watts, daytime only. Transmitter and studio sites are to be determined with Commission's approval.

NEW—Robert Raymond McCulla, Oak Park, Ill.—Application for C. P. for new broadcast station at Oak Park, Illinois to operate on 1580 kc., 250 watts, daytime only. Transmitter and studio site to be determined with Commission's approval.

NEW—R. W. Page Corp., Columbus, Ga.—Application for C. P. for new broadcast station at Columbus, Georgia to operate on 1580 kc., 250 watts, daytime only. Transmitter and studio site to be determined with Commission's approval.

NEW—Central Broadcasting Corp., Centralia, Wash.—Application for C. P. for new broadcast station at Centralia, Washington (amended 11-3-36) to operate on 1580 kc., 250 watts, daytime only. Transmitter and studio site to be determined with Commission's approval.

KGO—Mason City Globe Gazette Co., Mason City, Iowa.—Application for C. P. to install new equipment and increase daytime power from 100 watts to 250 watts.

KDB—Santa Barbara Broadcasters, Ltd., Santa Barbara, Calif.—Application (amended 12-3-36) for C. P. to move transmitter and studio sites locally, install new equipment and vertical radiator; change frequency from local channel (1500 kc.), to regional channel (1220 kc.); and increase power from 100 watts to unlimited. C. P. for years 1937-38 to be 250 watts LS, to 500 watts unlimited.

WRBL—WRBL Radio Station, Inc., Columbus, Ga.—Application for modification of C. P. to install new equipment and vertical radiator; change frequency from 1200 kc. to 950 kc., increase night power from 100 watts to 250 watts, and day power from 250 watts to 500 watts.

KADA—C. C. Morris, Ada, Okla.—Application for modification of license to increase time of operation from 100 watts daytime to 100 watts unlimited.

WIBA—Badger Broadcasting Co., Inc., Madison, Wisc.—Hearing before Broadcast Division on application for modification of license to eliminate directional antenna for nighttime operation and increase nighttime power from 1 KW to 5 KW.

KFVD—Standard Broadcasting Co., Los Angeles, Calif.—Application for modification of license to change frequency from 1000 kc. to 900 kc.

WHBB—W. J. Reynolds, Jr., J. C. Hughes and J. S. Allen, d/b a/s Selma Broadcasting Co., Selma, Ala.—Application for Commission's consent to voluntary assignment of license of WHBB from W. J. Reynolds, Jr., J. C. Hughes and J. S. Allen, t/a Selma Broadcasting Co. to the Selma Broadcasting Co., Inc.

APPLICATIONS DENIED

KFDY—So. Dak. State College, Brookings, S. Dak.—Denied special temporary authority to operate from 7 to 9:30 p.m., CST, Friday, Jan. 15, in order to broadcast program of Dist. Parent Teachers Assn.

WBCM—James E. Davidson, Bay City, Mich.—Denied special temporary authority to operate unlimited daytime with power of 1 KW as granted 11-10-36 in modification of license pending final disposition of protest filed in opposition to above grant; for period not to exceed 30 days.

APPLICATIONS DISMISSED

The following application, hereetofore set for hearing, was dismissed at request of applicant:

KFGI—Eagle Broadcasting Co., Inc., Corpus Christi, Tex.—Modification of C. P., 1330 kc., 500 watts, unlimited.

RATIFICATIONS

The Broadcast Division ratified the following actions authorized on the dates shown:

KSCJ—Perkins Bros. Co., Sioux City, Iowa.—Granted extension of program test auxiliary transmitter KSCJ period of 30 days from Jan. 15, 1937.

WKRC—Columbia Broadcasting System, Inc., Cincinnati, Ohio.—Granted extension of equipment test period 10 days from Jan. 8, 1937. (Action taken 1-2-37)

W9XPW-W9XPN—WDZ Broadcasting Co., Tuscola, Ill.—Granted authority to operate at above grant; period not to exceed 30 days.

KFRU—KFRU, Inc., Columbus, Mo.—Granted extension of program test period 30 days from Jan. 17, 1937.

WBL—Herbert Lee Blye, Lima, Ohio.—Granted extension of program test period 30 days from Jan. 8, 1937.

W9XPN-W9XW—WDZ Broadcasting Co., Tuscola, Ill.—Granted authority to operate as licensed Jan. 13, 15, 17, 18, 20, 22, 24, 25, 27, 29, 31, 1937, relay broadcast material from farms WPA projects.

KFRU—KFRU, Inc., Columbus, Mo.—Granted extension of program test period 30 days from Jan. 17, 1937.

W9XPN-W9XWP—WDZ Broadcasting Co., Tuscola, Ill.—Granted authority to operate as licensed Jan. 14, 16, 21, 23, 28 and 30, 1937, relay broadcast material from WPA farms project.

CKLW—Governor Elect Frank Murphy, Lansing, Mich.—Granted authority transmit inaugural ceremonies originating in Lansing, Mich., to Station CKLW by wire facilities.

**SPECIAL AUTHORIZATIONS**

**NEW—**F. M. Gleason, d/b as North Georgia Broadcasting Co., New York City.—Granted special temporary authority to operate a 100 watt portable test transmitter between the hours of 12 midnight and 6 a.m., EST, for a period not to exceed 30 days, in order to obtain a suitable location for transmitter in and near Sunbury.

KOY—Keten Broadcasting Co., Kansas City, Mo.—Granted special temporary authority to operate a 1500 watt, daytime and 1000 watt, nighttime transmitter at a new location, for a period of 30 days, in order to establish a new special broadcast station in St. Louis, Missouri. Order effective Jan. 15, 1937.

**SPECIAL TEMPORARY AUTHORIZATIONS**

**NEW—**S. H. Patterson, Denver, Colo.—Granted special temporary authority to operate on 1210 kc., 100 watts, daytime.

**NEW—**Hammond-Calumet Broadcasting Corp., Hammond, Ind.—Granted special temporary authority to operate on 1530 kc., 500 watts, unlimited time, to 2500 watts, unlimited time. Approved recommendation that WCAZ's application be set for hearing and that the effective date of the Commission's action be postponed to the date of decision after hearing.

**NEW—**Philadelphia Radio Broadcasting Corp., Philadelphia, Pa.—Granted special temporary authority to operate on 1370 kc., 100 watts, daytime only, making use of special antenna design.

**NEW—**Hearst Radio, Inc., for C. P. to erect a new broadcast station at New York, N. Y., to operate on 1510 kc., 100 watts, daytime and unlimited time.

**NEW—**North Carolina Broadcasting Co., Raleigh, N. C.—Granted special temporary authority to operate on 1480 kc., 5 KW, daytime, transmitter to be determined, subject to Commission's approval. (Facilities as approved at F. M. Gleason.)

**NEW—**Des Moines Register & Tribune, Des Moines, Ia.—Granted authority to intervene in the hearing on the application of WCAZ for increase in day power from 100 watts to 500 watts, unlimited time.

**SPECIAL TEMPORARY AUTHORIZATIONS**

**NEW—**Springfield Broadcasting Co., Inc., Springfield, Mo.—Denied petition for reinstatement of this application.

**NEW—**New Jersey American Legion, Trenton, N. J.—Granted special temporary authority to operate simultaneously with and for a period not to exceed 30 days, in order to obtain a suitable location for a new station to operate on 1570 kc. with power of 5 kw at night for the period Jan. 27 to Feb. 26, 1937.

**NEW—**WJAX—Jacksonville, Fla.—Granted petition to intervene in the hearing on the application of Hearst Radio, Inc., for C. P. to erect a new broadcast station at Jacksonville, Fla., to operate on 1370 kc., 100 watts, daytime only, making use of special antenna design.

**NEW—**WMT—Iowa Broadcasting Co., Cedar Rapids, Iowa.—Granted authority to intervene in the hearing of the Waterloo Times-Tribune Pub. Co.'s application for a C. P. to establish a broadcasting station at Waterloo, Iowa, to operate on 1370 kc., 100 watts, daytime only, making use of special antenna design.

**NEW—**Pennsylvania Broadcasting Co., Philadelphia, Pa.—Granted authority to intervene in the proceedings upon application of the Mid-Atlantic Corp., for authority to establish a new station in Washington, D. C., to operate on 1570 kc., 1 KW, unlimited time, scheduled to be heard Jan. 19.

**MISCELLANEOUS**

**NEW—**Philadelphia Radio Broadcasting Corp., Philadelphia, Pa.—Granted petition to intervene in the hearing on the application of the Trenton Times, Trenton, N. J., for authority to establish a new special broadcast station in Trenton, to operate on 1570 kc, 250 watts, unlimited time.

**NEW—**Philadelphia Radio Broadcasting Corp., Philadelphia, Pa.—Granted authority to intervene in the proceedings upon application of the Mid-Atlantic Corp. for authority to establish a new station in Washington, D. C., to operate on 1570 kc, 1 KW, unlimited time, scheduled to be heard Jan. 19.

**NEW—**WOKO—Albany, N. Y.—Granted authority to intervene in the hearing on the application of WCAZ for increase in day power from 100 watts to 500 watts, unlimited time.

**NEW—**WABY—Adirondack Broadcasting Co., Albany, N. Y.—Granted authority to intervene in the hearing on the application of Hearst Radio, Inc., for C. P. to erect a new broadcast station at Albany, N. Y., to operate on frequency 1530 kc, 1 KW, unlimited time.

**NEW—**Philomath Broadcasting Co., Philomath, Ore.—Granted special temporary authority to operate a 100 watt portable test transmitting set for a period of 30 days, in order to establish a new special broadcast station in Philomath, Ore.

**NEW—**New York Times Co., New York City.—Granted authority to intervene in the hearing on the application of Hearst Radio, Inc., for C. P. to erect a new broadcast station at Albany, N. Y., to operate on frequency 1480 kc, 1 KW, unlimited time.

**NEW—**Pennsylvania Broadcasting Co., Philadelphia, Pa.—Granted authority to intervene in the proceedings upon application of the Mid-Atlantic Corp., for authority to establish a new station in Washington, D. C., to operate on 1570 kc, 1 KW, unlimited time, scheduled to be heard Jan. 19.

**NEW—**New York Times Co., New York City.—Granted authority to intervene in the hearing on the application of Hearst Radio, Inc., for C. P. to erect a new broadcast station at New York, N. Y., to operate on 1510 kc, 100 watts, daytime and unlimited time.

**NEW—**New York Times Co., New York City.—Granted authority to intervene in the proceedings upon application of the Mid-Atlantic Corp., for authority to establish a new station in Washington, D. C., to operate on 1570 kc, 1 KW, unlimited time, scheduled to be heard Jan. 19.

**NEW—**New York Times Co., New York City.—Granted authority to intervene in the proceedings upon application of the Mid-Atlantic Corp., for authority to establish a new station in Washington, D. C., to operate on 1570 kc, 1 KW, unlimited time, scheduled to be heard Jan. 19.

**NEW—**New York Times Co., New York City.—Granted authority to intervene in the proceedings upon application of the Mid-Atlantic Corp., for authority to establish a new station in Washington, D. C., to operate on 1570 kc, 1 KW, unlimited time, scheduled to be heard Jan. 19.

**NEW—**New York Times Co., New York City.—Granted authority to intervene in the proceedings upon application of the Mid-Atlantic Corp., for authority to establish a new station in Washington, D. C., to operate on 1570 kc, 1 KW, unlimited time, scheduled to be heard Jan. 19.

**NEW—**New York Times Co., New York City.—Granted authority to intervene in the proceedings upon application of the Mid-Atlantic Corp., for authority to establish a new station in Washington, D. C., to operate on 1570 kc, 1 KW, unlimited time, scheduled to be heard Jan. 19.

**NEW—**New York Times Co., New York City.—Granted authority to intervene in the proceedings upon application of the Mid-Atlantic Corp., for authority to establish a new station in Washington, D. C., to operate on 1570 kc, 1 KW, unlimited time, scheduled to be heard Jan. 19.

**NEW—**New York Times Co., New York City.—Granted authority to intervene in the proceedings upon application of the Mid-Atlantic Corp., for authority to establish a new station in Washington, D. C., to operate on 1570 kc, 1 KW, unlimited time, scheduled to be heard Jan. 19.
directional antenna for nighttime operation. Hearing will be held as originally scheduled.

WREN—WREN Broadcasting Co., Lawrence, Kansas.—Granted motion to postpone hearing on application of WCAE, Inc., for renewal of license of WCAE which is scheduled for February 22, 1937, until after Commission shall have acted upon a pending application for transfer of control of WREX Broadcasting Co.

NEW—John S. Braun, Waco, Texas.—Denied petition for postponement of hearing scheduled for February 15, 1937, on application for C. P. to erect a new broadcast station at Waco, Texas, to operate on 1500 kc., 100 watts, daytime only.

WLBC—Donald A. Burton, Munde, Ind.—Granted permission to participate in oral argument on Examiner’s Report No. 1-240 on application of Continental Radio Co., Columbus, Ohio, for C. P. to erect broadcast station, Columbus, Ohio, to operate on 1310 kc., 100 watts, unlimited time.

NEW—Pee Dee Broadcasting Co., Florence, S. C.—Granted motion to dismiss without prejudice application for new broadcast station at Florence, S. C., to operate on 950 kc., 1 KW, daytime only, site to be determined.

KFBB—Buttery Broadcast Co., Great Falls, Mont.—Reconsidered action of Sept. 22, 1936, in designating application for renewal of license of KFBB for hearing, and dismissed same from the hearing docket. The renewal application of KFBB was designated for hearing because of an application of Ed Klies for its facilities. The Klies application was dismissed from the hearing docket on applicant’s request.

NEW—Twin City Broadcasting Co., Inc., Lewiston, Me.—Granted petition to consider and receive answer as respondent to application of the Cumberland Broadcasting Co., Portland, Me., applying for C. P. for new station to operate on 1210 kc., 100 watts, unlimited. Hearing on application scheduled for January 25, 1937.

NEW—Harold F. Gross and Edmund C. Shields, Saginaw, Mich., and WBCM—James E. Davidson, Bay City, Mich.—Suspended its order of Nov. 10, 1936, granting without hearing application of WBCM for modification of license to increase daytime power from 500 watts to 1 KW, and designated same for hearing. Also denied petition of WBCM to dismiss and strike protest of Harold F. Gross and Edmund C. Shields, who have application for new broadcast station to operate on 950 kc., 500 watts, daytime, at Saginaw, Mich.

A. W. Hayes, Erie, Pa.—Denied petition to set aside decision and order of the Broadcast Division, reopen and remand the application for hearing, de novo. (Ex. Rep. 1-212.) The petitioner sought a C. P. to erect a new station at Erie to operate on frequency 1270 kc., 500 watts night, 1 KW LS, unlimited time.

The Commission granted the petition of the Brooklyn Broadcasting Co., WBBC, and directed that hearing de novo before the full Commission in the Brooklyn case be continued to March 18, 1937.

APPLICATIONS RECEIVED

First Zone

WTIC—The Travelers Broadcasting Service Corp., Hartford, Conn. 1060.—Extension of special experimental authorization to change frequency from 1060 kc. to 1040 kc., hours of operation from S-WBAL to simultaneous operation with KRLD (unlimited) from 2-1-37 to 8-1-37.

WBAL—The WBAL Broadcasting Co., Baltimore, Md.—Extension of special experimental authorization to change hours of operation from S-WBAL to new hours of operation on 1060 kc. with KTHS, from 6 a. m. to local sunset at Hot Springs, Ark., from local sunset to 9 p. m., unlimited on 1060 kc.—will synchronize with WJZ on 760 kc. from 6 p. m. with power of 2½ KW, using directional antenna, from 2-1-37 to 8-1-37.

WJEK—The Mountain Broadcasting Co., Hagerstown, Md.—Con-1210-mitration to permit transmitter to move from Lovely Dame Building, 16 West Washington St., Hagerstown, Md., near Hagerstown, Md., and install a vertical antenna. Amended for transmitter site.

WNAC—The Yankee Network, Inc., Boston, Mass.—Modification 1230 of license to change name from Shepard Broadcasting Service, Inc., to The Yankee Network, Inc.

Second Zone

WFIL—WFIL Broadcasting Co., Philadelphia, Pa.—Modification 560 of construction permit (B2-P-1083) as modified, for new equipment, increase in power, and move transmitter, requesting extension of commencement date from 11-6-36 to 3-1-37 and completion date from 5-3-37 to 8-31-37.

WLW—The Crosley Radio Corp., Cincinnati, Ohio.—Extension 700 of special experimental authorization to operate with power of 500 KW, using directional antenna night, for period from 2-1-37 to 8-1-37.

WCKY—L. B. Wilson, Inc., Covington, Ky.—Construction permit 1490 to install new equipment, increase power from 5 KW to 50 KW day and night. Amended: Make changes in equipment and change requested power from 50 KW to 10 KW.

NEW—The Crosley Radio Corp., Cincinnati, Ohio.—Construction permit for a new high frequency broadcast station to be operated on 31600, 35600, 38600, 41000 kc., 200 watts power.

NEW—The Crosley Radio Corp., Cincinnati, Ohio.—Construction permit for a new high frequency broadcast station to be operated on 31600, 35600, 38600, 41000 kc., 200 watts power.

Third Zone

WDBO—Orlando Broadcasting Co., Inc., Orlando, Fla.—Authority 580 to determine operating power by direct measurement of antenna.

WSB—Atlanta Journal Co., Atlanta, Ga.—Construction permit to 740 make changes in transmitter and antenna and increase power from 50 KW to 500 KW.

WBRC—Birmingham Broadcasting Co., Inc., Birmingham, Ala.— 930 Construction permit to install new transmitter and vertical antenna and increase power from 1 KW to 1 KW night, 5 KW day.

WWL—Loyola University, New Orleans, La.—Extension of special 850 experimental authorization to operate unlimited time for period 2-1-37 to 8-1-37.

KWKH—International Broadcasting Corp., Shreveport, La.—Ext-1090ension of special experimental authorization to operate on 1100 kc., unlimited time, with directional antenna at night, for period 2-1-37 to 8-1-37.

KARK—Arkansas Radio and Equipment Co., Inc., Little Rock, Ark.—License to cover construction permit (B3-P-197) as modified for new equipment, increase in power, and move of transmitter.

KTHS—Hot Springs Chamber of Commerce, Hot Springs National 1040 Park, Arkansas.—Extension of special experimental authorization to change frequency from 1040 kc. to 1060 kc., hours of operation from S-KRLD to simultaneous WBAL from 6 a. m. to local sunset daily, suspend until 8 p. m., and unlimited from 8 p. m. until midnight, for period 2-1-37 to 8-1-37.

KRLD—KRLD Radio Corp., Dallas, Tex.—Extension of special 1040 experimental authorization to operate simultaneously with WTIC for period 2-1-37 to 8-1-37.

WJDX—Lamar Life Insurance Co., Jackson, Miss.—Construction 1270 permit to make equipment changes, new antenna, increase in power from 1 KW night, 2½ KW day to 1 KW night and 5 KW day.

NEW—John C. Hughes, Phoenix City, Ala.—Construction permit 1310 for a new station to be operated on 1310 kc., 100 watts, daytime.

WATL.—J. W. Woodruff, d/b/a Atlanta Broadcasting Co., Atlanta, Ga.—Modification of construction permit (B3-P-1228) for new equipment, changes in antenna, increase in power, and move of transmitter and studio, requesting further changes in authorized equipment and antenna.

WSFA—Montgomery Broadcasting Co., Inc., Montgomery, Ala.— 1410 Authority to make changes in automatic frequency control apparatus.

WACO—KTA Broadcasting Co., Waco, Tex.—License to cover 1420 construction permit (B3-P-1465) for a new transmitter and antenna.

NEW—James R. Doss, Jr., Mobile, Ala.—Construction permit for 1500 a new station to be operated on 1500 kc., 100 watts, daytime.
Fourth Zone

KFAB—KFAB Broadcasting Co., Lincoln, Nebr.—Extension of special experimental authorization to operate synchronously with WBBM from local sunset at Lincoln, Nebr., to midnight, CST, from 2-1-37 to 8-1-37.

WBBM—Columbia Broadcasting System, Inc., Chicago, Ill.—Extension of special experimental authorization to operate synchronously with KFAB from local sunset (KFAB local sunset) to midnight, for period from 2-1-37 to 8-1-37. Amended to change name from WBBM Broadcasting Corp. to Columbia Broadcasting System, Inc.

NEW—Western Union College, Le Mars, Iowa.—Construction permit for a new station to be operated on 1210 kc., 100 watts night, 250 watts day, unlimited time.

KRMC—Roberts-MacNab Co. (Arthur L. Roberts, R. B. MacNab), Jamestown, N. Dak.—Modification of construction permit (B4-P-510) for new station on 1310 kc., 100 watts, simultaneous day, share KVOK night, requesting authority to install new transmitter and increase power from 100 watts to 100 watts night, 250 watts day, approval of vertical antenna and transmitter site at 1 mile from center of city on U. S. Highway No. 10, Jamestown, N. Dak.

KROC—Southern Minnesota Broadcasting Co., Rochester, Minn.—1310 Authority to transfer control of corporation from First Trust Co. of St. Paul and G. P. Castner, as special administrators of the estate of L. J. Shields, deceased, Florence E. Brown and Emmet Butler, as trustees under the last will and testament of Frank M. Brown, deceased; Florence E. Brown as guardian of the estate of James L. Brown, a minor; and Stanley Hubbard, to Gregory Gentling.

WTAX—WHBY, Inc., Green Bay, Wis.—Construction permit to install new transmitter and increase power from 1 KW to 1 KW, 5 KW day. Amended to use directional antenna daytime.

KSTP—National Battery Broadcasting Co., St. Paul, Minn.—Construction permit to make changes in transmitting equipment.

KOVC—Geo. B. Bairey, Valley City, N. Dak.—Voluntary assignment of license from Geo. B. Bairey to KVOC, Inc.

W9XAA—Chicago Federation of Labor, York Township, Ill.—Modification of construction permit to increase power from 5 KW to 20 KW and make changes in equipment and extend commencement and completion dates.

NEW—K. E. Schoner, d/b/a Schonert Radio Service, Harrisburg, Ill.—Construction permit for a new high frequency station to be operated on 31600, 35600, 38600, 41000 kc., 100 watts.

Fifth Zone

KIRO—Queen City Broadcasting Co., Seattle, Wash.—Extension of special experimental authorization to operate on 710 kc., 1 KW, unlimited time for period 2-1-37 to 8-1-37.

NEW—Earle Yates, Las Cruces, N. M.—Construction permit for 950 a new station to be operated on 1500 kc., 500 watts, daytime. Amended: New transmitter and antenna changes, change frequency from 1500 kc. to 950 kc., power from 100 watts night, 250 watts day, to 500 watts, time from unlimited to daytime.

NEW—C. P. Sudweeks, Spokane, Wash.—Construction permit for 950 a new station to be operated on 950 kc., 500 watts night, 1 KW daytime, unlimited time.

KWJJ—KWJJ Broadcast Co., Inc., Portland, Ore.—Authority to determine operating power by direct measurement of antenna. Amended: Re operating constants.

NEW—The Peoples Forum of the Air, Helena, Mont.—Construction permit for 1210 a new station to be operated on 1210 kc., 100 watts, unlimited time.

KPPC—Pasadena Presbyterian Church, Pasadena, Calif.—License 1210 to cover construction permit (B5-P-1305) for changes in equipment.

KDON—Monterey Peninsula Broadcasting Co., Monterey, Calif.—1210 Modification of license to move studio from Del Monte Hotel, Del Monte, California, to 498 Washington St., Monterey, California.

KSU—Harold Johnson & Leland M. Perry, d/b/a as Johnson & Perry, Cedar City, Utah—Modification of construction permit (B5-P-84) for a new station on 1370 kc., change in frequency from 1370 kc. to 1440 kc., power from 100 watts night, 250 watts day to 1 KW, and move studio and transmitter locally.

KEEL—Eugene P. O’Fallon, Inc., Denver, Colo.—Construction permit to supersede B5-ML-360, requesting equipment changes, installation of vertical antenna, increase in power from 100 watts to 1 KW, change in hours of operation from S-KVOD to unlimited time. (Contingent on KVOD’s application B5-P-1540.)

PRELIMINARY ENGINEERING REPORT TO THE BROADCAST DIVISION CONCERNING THE OCTOBER 5, 1936, HEARING—DOCKET 4063

The Chief Engineer and the Assistant Chief Engineer in charge of broadcasting not only listened to all of the half million words of testimony presented at the formal hearing held by the Broadcast Division October 5 to 21, 1936, inclusive, but also have subsequently read and considered the record of 1741 pages and the numerous exhibits in addition thereto. Consequently, the Engineering Department feels it advisable to submit herewith in preliminary form our general conclusions and recommendations deduced from the record, so that the Broadcast Division may have an early opportunity to direct the Engineering Department more specifically in the matter of detailed revision of the existing regulations concerning broadcasting. This report should therefore be considered as general in character and in the nature of a request for specific instructions which will enable us to prepare detailed regulations to submit to the Broadcast Division for approval.

Inasmuch as the Broadcast Division, as well as other members of the Commission, listened to the same testimony as did the Engineering Department, it seems undesirable to burden this preliminary report with the details of the evidence. Nevertheless, if the Commission desires that the Engineering Department go into the detail of the factors of the evidence given at the hearing upon which we base our conclusions, we are ready to furnish such information. In any event, the Engineering Department will present to the Commission, in separate reports, a summary of the evidence given in the October 5 hearing, Docket 4063.

General

In general, based upon the evidence given at the hearing, the Engineering Department is of the opinion that from an engineering standpoint the existing system of allocation of frequencies within the broadcast band 550-1600 kc., which was inaugurated in 1928, is satisfactory for the fundamental 10 kc. separation between channels and the use of both clear channels and shared channels to render service to the nation. However, in view of the information which has been accumulated since 1928, and in view of technical improvements as well as an increasing demand for better facilities, there is need for an improvement in the engineering features of the structure as well as in some of the standards of engineering practice which have been followed hitherto.

In making this report the Engineering Department desires to make clear the fact that we have not endeavored to determine who should or should not be the licensees of radio stations, because this is primarily a matter of policy which the Commission will decide for itself. Our thought on this subject of allocation has been prompted primarily from the standpoint of sound engineering, and to this end we have endeavored to make the best technical use of the very limited radio spectrum between 550-1600 kc. so that the entire public may receive the maximum service both of transmission and reception, regardless of who may be the licensees of the various transmitting stations. In other words, we have endeavored to find the ideal distribution of stations properly distributed geographically, and each capable of rendering technically a good service to the public, there would be made available in all sections of the country the maximum possible facilities for the Commission to license or to continue to license whenever it feels should and could operate stations.

Naturally, we have made every effort to remain properly within the limits specified in the Communications Act of 1934, as amended in 1936, particularly with reference to the distribution of facilities to States and communities.

In general, the tenor of the testimony at the October 5 hearing tended primarily toward the improvement of existing facilities. The Engineering Department is of course aware that the Commis-
The subject of reallocation is so complex and the various phases so interrelated that it is essential to have some discussion in detail. However, for the convenience of those who do not have the time to study the details of this report, we set forth herewith a brief summary of the salient features of the recommendations of the Engineering Department.

**Summary**

The following is a summary of the Engineering Department's conclusions, recommendations and requests for instructions with respect to the broadcast band 550-1600 kc., based upon the October 5, 1936, hearing, Docket 4063:

1. We believe that while the engineering principles of the allocation structure of 1928 are basically sound, technical progress, operating practice and the accumulation of new data since 1928 indicate conclusively that modifications are needed and that improvements can be made which, from a technical standpoint, will result in better broadcasting service to the public.

2. We recommend that these modifications be made by revising the existing rules, regulations and standards of good engineering practice.

The Engineering Department's proposals for modification would not change the 10 kc. separation between channels, nor would it change fundamentally the conception as to the use of both clear channels and shared channels to render service to the nation. In the latter respect the recommendations tend toward the modification of the number of frequencies made available to each class of station.

3. As to the general procedure for making modification of the allocation structure, we believe and recommend that the Commission should continue its existing policy of evolution and experimentation through voluntary action of applicants rather than by enforced costly radical changes.

4. The reasonableness of the details of any of the new rules and regulations could well be the subject of formal hearings after due notice is given of the effective date of the new rules.

5. Applicants desiring to take advantage of the improvements made possible by the new rules might have their applications granted or designated for hearing, depending upon the facts in each individual case. In any event, the present prescribed legal procedure of the Federal Communications Commission could be maintained.

6. We recommend six classes of broadcast stations in the band 550-1600 kc., with powers as outlined in the following. The exact definitions will be submitted later by the Law and Engineering Departments, provided the general policies herein are approved:

<table>
<thead>
<tr>
<th>Class</th>
<th>Comparison</th>
<th>Purpose</th>
<th>Night Power</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Similar to clear channel stations...</td>
<td>To include remote rural coverage</td>
<td>Not less than 50 kw</td>
</tr>
<tr>
<td>B</td>
<td>Similar to clear channel stations except other stations use channel so as to protect secondary coverage</td>
<td>To include rural coverage</td>
<td>10 to 50 kw</td>
</tr>
<tr>
<td>C</td>
<td>Similar to high power regional stations</td>
<td>Large metropolitan district coverage, as well as limited rural coverage</td>
<td>5 to 50 kw</td>
</tr>
<tr>
<td>D</td>
<td>Similar to regional stations</td>
<td>Metropolitan district coverage</td>
<td>1 to 5 kw</td>
</tr>
<tr>
<td>E</td>
<td>Similar to existing regional stations separated by relatively short distances</td>
<td>City coverage</td>
<td>0.5 to 1 kw</td>
</tr>
<tr>
<td>F</td>
<td>Similar to local stations</td>
<td>City or town coverage</td>
<td>0.1 to 0.25 kw</td>
</tr>
</tbody>
</table>

1 The power for each station of a class is to be determined individually upon showing of need and proper consideration of channel conditions with respect to interference.

2 The class of stations which will use the same channel as Class B stations and protect the latter's secondary coverage, are in general Class D or Class E stations, located at sufficient distance from Class B stations to enable proper service to be rendered in accordance with the standards of good engineering practice. It may be possible in some instances to permit Class C stations to use Class B station channels.

(6) We request the Broadcast Division to designate which frequencies should be assigned to each class of station. In this connection we are ready to submit a separate memorandum setting forth the conditions existing on each frequency. This separate memorandum will assist the Division in determining whether the rules provide a proper balance between the various classes of stations in the band 550-1500 kc.
Class | *Number of channels*
---|---
A | Not less than 25
B | Approximately 5
C | " 14
D | " 30
E | " 10
F | " 6
Total 90

* The foregoing numbers exclude the frequencies now assigned exclusively to Canada.

With reference to the band 1510-1600 kc., we suggest that the Commission has three courses of action open to it, depending upon which policy the Commission desires to follow:

1. To assign all 10 channels in the band 1510 to 1600 kc. to Class F stations. In our opinion, while this provides the maximum number of stations, it does not in all cases provide a facility which will enable service to be rendered to all of an area requiring service.

2. To assign all 10 channels to Class D stations. This would permit only a few of the cities which do not now have a station to secure facilities. It would, however, in the relatively few individual cases afford a facility capable of performing an adequate service to a large community.

3. To distribute the 10 channels to Class D, E and F stations. This would enable a large number of cities to be served and at the same time permit a degree of flexibility in utilizing facilities in a manner which may be required in individual cases. A division such as 3 channels to Class D, 4 channels to Class E and 3 channels to Class F might be suitable, or else 3 channels to Class D and 7 channels to Class E, in which the power range may be more suitable for individual areas, would be an effective engineering solution to the problem. Instructions in this matter are requested.

We recommend that when the Commission is satisfied a frequency assigned to one class of station has been utilized to the fullest and proper extent by stations of such class, that stations of another class be permitted to use the same frequency, provided the latter does not cause objectionable interference, either to the frequency or jeopardize the specified use of the channel, and provided further that the new stations shall be able to render service consistent with the standards of good engineering practice.

We recommend that when licensing new stations, or when increasing the power of an existing station of any class on a channel assigned to such class, due regard should be given to the standards of the good engineering practice, particularly with reference to the interference that may be caused to the good service areas of other stations of the same class on the channel in question.

We recommend that the band 1500-1600 kc. be opened for Class D, E or F stations, depending upon the policy to be determined by the Commission with respect to the number of additional stations and the type of service they should render.

We recommend that all stations except Class A operate simultaneously on shared channels at night, and whenever practicable, use methods to increase service and reduce interference.

We believe that two 50 kw. stations separated by great distances and operating simultaneously at night on the same channel, are capable of rendering a service to a limited area, particularly if directional antennas are used. However, we do not recommend the universal duplication of all existing clear channel stations located on the coasts. We have recommended the retention of at least 25 clear channels permanently, and caution in duplicating other such channels, pending a North American arrangement.

We believe that directional antennas are feasible, but we recommend the careful and studied application of these antennas in individual instances.

We recommend against the general application of synchronization, but suggest it can be applied in certain instances to assist in increasing coverage of low-powered stations.

While we believe that powers in excess of 50 kw. on clear channels are technically sound and are in accord with scientific progress, we recognize that social and economic factors involved in the use of 500 kw. may outweigh in importance engineering considerations, and request instructions from the Division as to its desires with respect to regulations on the question of super-power. We feel that, in the matter of super-power, the Commission should give full consideration to our report summarizing the economic testimony in the October 5 hearing prior to making a decision.

We feel that there is a need for increased signal intensity and have recommended that in general power increases are required to better the service to the public. However, we recommend that the regulations in this respect be sufficiently flexible to permit the Commission to judge each individual case upon its merits, particularly as to the needs and economic and social circumstances.

We believe that from an ideal standpoint the "block" system of allocation to classes of stations may reduce the disadvantages of interference between stations on adjacent frequencies, but because of practical considerations, we do not recommend a radical change in allocation to accomplish this scientific ideal.

We recommend against the establishment of standards of receiver selectivity and fidelity, but instead we recommend incorporation in the standards of good engineering practice the basis of receiver performance which is utilized in arriving at necessary ratios between desired and undesired signals to avoid objectionable interference.

We suggest that the amount of importance of economic and social factors in the determination of the distribution of facilities to licensees in any section of the country, and state that a separate report will be submitted giving in detail a summary of the evidence presented at the October 5 hearing. The Commission will consider this summary of evidence before making final decisions.

We recommend against changing the existing requirements with respect to frequency stability, modulation, harmonics and power determination.

We suggest proceeding in an evolutionary manner toward the improvements in the broadcast band 550-1600 kc. without endeavoring to wait developments in other bands of frequencies, because we feel that the public needs the possible technical improvements in the existing broadcast service.

We recommend that the present empirical standards be revised and issued in the form of "standards of good engineering practice" and used as a guide in administration and in testimony when no better evidence is available. We believe that the following is the proper trend of the revision:

(a) Adopt curves on those presented by the Engineering Department at the hearing as guides to estimate service and interference under various conditions.

(b) Retain the present ratios between desired and undesired signals for stations using the same channel.

(c) Revise the ratios between desired and undesired signals for stations on adjacent channels. The ratios now used will be decreased to an amount to be finally determined at the engineering conference scheduled for January 18, 1937, at Washington. These revisions will permit stations of like power to be spaced geographically closer than hitherto provided in our "empirical standards".

(d) Stations in the same city may be assigned frequencies 40 kc. apart under special conditions of location and power.

(e) While we believe that the present limit of 125 mv. used in connection with "blanketing" is too small, we are not prepared at this time to accept the 1000 mv. limit suggested by certain engineers at the October 5 hearing. The figure which should be used will be determined after the engineering conference scheduled for January 18, 1937, at Washington. These revisions will permit stations of like power to be spaced geographically closer than hitherto provided in our "empirical standards".

(f) It is recommended that the present engineering "allocation factor" be replaced by a more scientific treatment of the "blanketing" based upon the selectivity performance of receivers as testified to by engineers at the October 5 hearing. The details of the changes will be determined finally at the engineering conference scheduled for January 18, 1937. The Engineering Department can then revise its present interference curves to take this into consideration.

(g) The existing mileage frequency separation tables should
Department may be presented more clearly, this report will hence¬
forth adhere to the outline of the subject matters given in the
classifications, or in other words, will make available more sizes of
classes. Such new classes will make more flexible the existing rigid
the evidence given at the hearing, there is need for establishing new
I. Classification of Broadcast Stations

1. Desirability of establishing new classes, or of sub-dividing,
modifying or abolishing any existing class.

In the opinion of the Engineering Department and based upon
the evidence given at the hearing, there is need for establishing new
classes of stations, as well as modifying some of the existing classi-
fications. Such new classes will make more flexible the existing rigid
classifications, or in other words, will make available more sizes of
'shoes' to fit the various "feet." The establishment of new classes
would permit an improved application of sound engineering to suit
the variable practical field conditions which are encountered in the
allocation of broadcast facilities.

In the opinion of the Engineering Department there should be at
least six classes of stations, as follows: (We have used letters to
denote classes, pending final definitions yet to be determined.)

<table>
<thead>
<tr>
<th>Class</th>
<th>Station Class</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>A station class having wide area coverage on a clear</td>
</tr>
<tr>
<td>B</td>
<td>A station class having wide area coverage and using</td>
</tr>
<tr>
<td></td>
<td>simultaneously a frequency which is also assigned to other</td>
</tr>
<tr>
<td></td>
<td>stations designed or so located as to protect the secondary</td>
</tr>
</tbody>
</table>
|       | coverage of the Class B station from objectionable interfer-
|       | ence. An example of the Class B station is one located on the |
|       | coast using 50 kw. on a frequency to obtain secondary coverage, |
|       | while at the same time there is operating on the same frequency |
|       | a 1 kw. or 5 kw. Class D or E station in another part of the |
|       | country in such a manner as not to cause objectionable inter-
|       | ference to the Class B station. |
| C     | A station class utilizing either great distance separation or |
|       | protective devices to avoid objectionable mutual interfer-
|       | ence with stations of the same class, enabling less coverage |
|       | than the long distance service to be rendered by Class A or B |
|       | stations, but greater coverage than Class D stations. An example |
|       | of Class C stations would be certain existing high power stations |
|       | separated by great distances such as coast to coast and operating |
|       | simultaneously on the same frequency, or certain existing high |
|       | power clear channel stations, both of which use the same fre-
|       | quency but with directional antennas or other means to avoid |
|       | objectionable mutual interference. An other example is the |
|       | existing 10 kw. high power regional station separated geo-
|       | graphically by a distance sufficient to avoid objectionable mutual |
|       | interference. |
| D     | A station class similar to the existing regional stations, |
| E     | A station class which, from an engineering standpoint, will |
|       | render less coverage than the existing local stations, but |
|       | greater coverage than the existing local stations. |
| F     | A station class similar to the existing local stations. |

2. Proper definition of each class with respect to purpose and |
character of service.

Suggestions were made at the hearing as to the definition of the
several classes of stations. Emphasis was placed by some groups
upon the existing definition of clear channel stations, and others
endeavored to define the various classes of stations by suggesting
a definition based upon the primary purpose of each class. The
Engineering Department is not submitting at this time detailed
recommendations to the Commission as to the specific definition of
each class of station, because it involves both legal interpretation
and matters of policy. We recommend, however, that the Engineer-
ing and Law Departments be directed to submit jointly to the Broad-
cast Division specific definitions for each class of station, based
uppon the general ideas outlined in subparagraph 1 above. Such
definitions, in our opinion, should be the general pur-
pose for which each class of station is intended. The Engineering
Department can further express technically, in the "standards of good
engineering practice," the engineering conditions involved for
each class of station by setting forth in general terms their inter-
ference limits. These standards will not be a part of the regula-
tions, but will be promulgated by the Commission. Engineer-
ing Department will submit these standards of good engineering
practice to the Broadcast Division for approval. If final hearings
are held with respect to the reasonableness of the new rules and
regulations, it appears desirable that these standards also be sub-
ject to hearing at the same time.

3. Number of frequencies to be allocated to each class.

There was no specific suggestion made at the hearing with re-
spect to the number of frequencies that should be allocated to each
of the six classes of stations. However, the clear channel group
claimed that there should be at least 30 clear channel bands. As
much as it was admitted and claimed that existing stations which share
time on clear channels are confronted with a serious economic prob-
lem—one which, in the opinion of the Engineering Department,
affets the character and continuity of the program service ren-
dered to the public by each of these stations in sections of the
country which in our opinion need high grade transmission facil-
ities, we recommend that the number of channels assigned to Class
A stations be not less than approximately 25, thus effecting a
reduction of 15 of the original 40 clear channels. In arriving at the
number of channels assigned to Class A stations, we feel that the
Commission should bear in mind the possibility of a North Amer-
ican agreement which might involve the number of such channels
ultimately to be preserved for the exclusive use of the United States,
and it is entirely possible that the Commission may not desire to
reduce the number to 25 in the immediate future.

In our opinion and based upon the engineering evidence at the
October 5 hearing, as well as upon our general technical knowledge
of actual operating conditions in the existing system, we suggest that
the ultimate number of frequencies to be assigned to various classes
of stations be as follows:

<table>
<thead>
<tr>
<th>Class</th>
<th>Frequency Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>550-1500 kc.</td>
</tr>
<tr>
<td>B</td>
<td>1510-1600 kc.</td>
</tr>
<tr>
<td>C</td>
<td>1600-2500 kc.</td>
</tr>
<tr>
<td>D</td>
<td>2500-3500 kc.</td>
</tr>
<tr>
<td>E</td>
<td>3500-4500 kc.</td>
</tr>
<tr>
<td>F</td>
<td>4500-5500 kc.</td>
</tr>
</tbody>
</table>

Total: 90

The distribution of the 10 frequencies between 1510 and 1600
kc. to Classes D, E and F involves important new policy questions
which make it unfeasible for the Department to make specific sug-
gestions without further instructions from the Division. However,
we set forth herewith certain pertinent facts and suggest various
courses of action which may be of assistance to the Division in
making its final determination of this matter.

The following table sets forth certain facts pertaining to coverage
of these frequencies for the three classes of stations involved. 1550
kc. is taken as an average, there being only slight differences between
1510 and 1600 kc.
A page of a document with text including:

- *It will be recalled that we suggest the following interference limits:

- The sizes of metropolitan districts in towns of about 100,000 people vary both in size and shape. In general, a station having a good service radius at night of 10 miles should be capable of covering such districts.

- The Engineering Department is ready to submit to the Commission data with reference to each channel in order to assist in the specific selection of frequencies to be assigned to various classes of stations.

- In general, the lower frequencies have better propagation characteristics for all conditions of terrain than do higher frequencies under the same conditions. However, where ground propagation conditions are poor, all frequencies do not enable as large a coverage with the same power as if the propagation conditions were good. Therefore, as propagation conditions vary that it will be possible to so assign a frequency to a new class of station and at the same time take advantage of the practical situation which may exist and designate certain stations on that frequency for some other class in such a manner as is provided for in the use of a frequency by more than one class of station under our recommendation in sub-paragraph 5 (d) following herein. It is believed that this will enable the initial preservation of any possible public interest in the coverage of existing stations which by the nature of their service should be placed in a different classification than warranted by the actual conditions in which such stations are found and the country for the full term of the license.

- The Engineering Department is of the opinion that, in determining the radius of coverage of a radio station it is necessary to consider four factors, namely, (1) conductivity, (2) frequency, (3) power, and (4) interference.

- Generally speaking, sky wave propagation is about the same on all frequencies with the same radiated power. However, it is possible to secure at less cost greater efficiency on the higher frequencies, and hence greater sky wave intensity per kilowatt input than on the lower frequencies. This increased signal intensity is, however, overbalanced by the fact that the rapidity of fading seems to be greater generally on the higher frequencies than on the lower frequencies.

- It is the opinion of the Engineering Department that in determining the radius of coverage of a radio station it is necessary to consider factors, namely, (1) conductivity, (2) frequency, (3) power, and (4) interference.

- The following table will illustrate these factors for regional stations rendering service to a 2 mv. ground wave signal intensity, which we consider good suburban service from a technical standpoint:

- The evidence shows that the band 1510-1600 kc., which hereto-

*The fourth factor, "interference," is primarily a matter of the maintenance of the standards of good engineering practice. If allocations are so made that mutual interference exists at higher signal intensities than recommended, the coverage will be less than if the standards are adhered to. We have subsequently set forth in this report our ideas regarding the standards of interference.*

---

*[The text continues with detailed information about the suitability of various bands of frequencies, propagation characteristics, and noise levels in the range 500-1600 kc., and the implications for frequency selection and engineering practice.]*

---
fore has been allocated only experimentally, is most useful and can be utilized for rendering excellent service to the listening public, particularly in the smaller cities.

In general, from a practical standpoint, the present engineering principles of allocation appear to be a good general guide for the Commission to follow in the allocation of frequencies to the various classes of stations, and in consideration of the practicalities involved, the Engineering Department recommends that in this phase of the allocation no radical departures from existing engineering principles be made, except as to the modification necessary to utilize existing frequencies for the new classes of stations.

5. Extent to which freedom from interference is to be secured to each class and extent to which duplicated use, night or day, of frequencies allocated to each class is to be permitted.

When the Commission has approved the new definitions of stations recommended to be submitted jointly by the Engineering and Law Departments, the Engineering Department can indicate more definitely than at present the extent to which freedom from interference is to be secured for each class, but in general we feel that Class A stations should not share the same channel at night with any other class of station, and that the ground wave protection from stations using the same frequency during the day should be to the .1 millivolt contour. The side channel interference protection to these stations should be to the .5 mv. ground wave contour.

We believe that the service of Class B stations to the .5 mv. ground wave contour should be free from objectionable interference from other stations on the same channel at night, and the .1 mv. contour in the day. As to Class C and Class D stations, it is our opinion that mutual interference should be limited to approximately the 2.5 mv. contour at night, and the .5 contour in the day, and that the stations using the same channel should be so placed geographically or else use other methods to obtain this degree of mutual freedom from interference.

As for the Class E and F stations, it is believed that the Commission should endeavor to arrange this allocation ultimately in such a manner that the interference limitations for these stations are not greater than the 4 mv. ground wave contour at night and the 2 mv. contour in the day.

All of these interference limitations, as mentioned before, should not be placed in the regulations, but in the "standards of good engineering practice" which will be promulgated by the Commission as general guides.

(a) Number of stations to be permitted to operate simultaneously on frequencies of each class.

On frequencies assigned to Class A stations, only one station should operate at night. Since a Class B station is a dominant station on a channel, the number of other classes of stations which can operate successfully in the United States on the same channel will depend primarily on the geographical location of the Class B station, the distance of the stations which can operate successfully on each channel will be dependent upon geographical separation, operating conditions and the engineering methods used to prevent interference. Generally speaking, however, the higher the power, the fewer the number of stations which can use the same frequency. For example, with Class C stations, assuming that each station has 50 kw. and uses a directional antenna in a practical manner, perhaps two or three stations could use the same channel, depending entirely upon practical circumstances, but in this connection, it is believed that in some instances it may be possible for only two Class C stations in the United States to operate simultaneously at night on the same channel. On frequencies assigned to Class F stations, it should be practical, from an engineering standpoint, for more than 20 stations in the United States to operate simultaneously at night on the same channel, provided they are properly distributed geographically.

(b) Mileage-frequency separation tables as a method for determining permissible duplications.

It appeared to be the unanimous opinion of engineers that the mileage-frequency separation tables are useful as a guide in determining questions of interference and geographical separation of stations. These tables could well be utilized in the "standards of good engineering practice" and will be useful as evidence when there are no other facts upon which to base any conclusions. However, the presentation of actual measurements or actual facts which show conditions different from those upon which the distance tables are based, should be better evidence. In accepting such facts, the Commission should weigh carefully the qualifications of engineers presenting testimony, and the accuracy of their measurements.

As to separations on the same channel, the existing distance tables will require modification to bring into consideration new classes of stations.

As to the final geographical separation required to avoid side channel interference, the Engineering Department is not satisfied that the evidence presented at the October 5 hearing adequately covers all the factors involved. However, the evidence shows conclusively that the existing distance tables with respect to 10, 20, 30 and 40 kc. can very well be modified to take into consideration the better known facts presented at the hearing with respect to receivers.

The Engineering Department recommends that it be instructed by the Division to revise the existing distance tables based upon new engineering facts given in evidence at the October 5 hearing, as well as upon the determination of final technical details resulting from the engineering conference scheduled for January 18, 1937, and that these distance tables be made a part of the "standards of good engineering practice" to be used as guides when better evidence is lacking. Other aspects of the mileage-frequency separation tables are dealt with subsequently in this report.

(c) Advisability of establishing subclassifications of any of the principal classes.

If the Commission should adopt the six general classifications mentioned in sub-paragraph 1 above, there would seem to be no need for further subclassification, and the Engineering Department recommends that there be no additional classes of stations.

(d) Use of frequencies allocated to one class by stations of another class.

The Engineering Department is of the opinion that the Commission should proceed most carefully in allowing one class of station to use frequencies assigned to stations of another class. The reason for this caution in procedure is that each class of station has its own specific engineering factors, and until, throughout this country and the rest of North America, the intended use has been made of a frequency assignment to a particular class of station, the Commission might so involve engineering as to make the frequency assigned to a particular class of station totally useless for the intended purpose. However, when the Commission is satisfied that all the requirements involved in the use of a frequency assigned to one class of station have been fulfilled, and that there can be no harm whatsoever to the stations regularly assigned that class and frequency, the Commission might at that time take advantage of the opportunity and allow another class of station to use the same frequency, provided that the new station shall be capable of rendering service consistent with the standards of good engineering practice of that class.

As to the final geographical separation required to avoid side channel interference, the Engineering Department recommends that there be no additional classes of stations.

(e) Possibility of duplicated use of a frequency by two 50 kw. stations separated by a substantial distance.

The evidence is conclusive that two 50 kw. stations separated by approximately 2500 miles or more can operate simultaneously on the same frequency and render a limited degree of good service, particularly if the stations have a difference in time, such as between the east and west coasts. It should be made clear, however, that the duplicated operation of two 50 kw. stations, both using conventional antennas and separated by a substantial distance, is not the equivalent of clear channel service. The Engineering Department is further of the opinion that the Commission should proceed with the utmost care in duplicating all existing clear channel stations located on the coasts because it is entirely possible that the secondary areas of some clear channel stations may afford the only good program service to rural areas adjacent to the coasts.

The comparison between duplicated and nonduplicated clear channel operation is of interest and is set forth herewith in the following table, which is for total hours of darkness. An east-west comparison would be more applicable in the west coast, in time will enable freedom from interference between "duplicated 50 kw. stations" over a longer period of time than if the transmission path were north and south:

If both 50 kw. stations use directional antennas, it is possible

that a better degree of secondary coverage can be obtained by both

stations that is possible with conventional antennas. A degree of

protection to so-called duplicated 50 kw. stations can be obtained

for one of the stations if the other station utilizes a directional antenna. However, the latter cannot expect a highly satisfactory

degree of secondary service over wide areas.

(f) Consideration of hour of sunset as the dividing line

between daytime and nighttime permissible duplications, and

location at which sunset or other hour should be taken as

such dividing line.

The Engineering Department, as a result of the evidence sub¬

mitted at the hearing, sees no necessity for changing the present

rules with respect to the hours of sunset at the dividing line between
daytime and nighttime permissible duplications.

(g) Application of directional antennas.

It was the consensus of engineering opinion that directional antennas are feasible, and if properly designed can be applied to

assist in the solution of the broadcast location problem. However, in consideration of practical conditions, the directional antenna
cannot be applied universally to all stations because there are many stations from which service could be rendered only in the
directions where relatively few persons reside.

In the application of directional antennas, it is the opinion of

the Engineering Department that the Commission should require
technical conditions leading to the stable operation of such antennas under variable conditions. The Engineering Department will

prepare such specifications in the standards of good engineering

practice which the Commission will be asked to promulgate at

some future date.

(h) Application of synchronization.

Synchronization has some limited application, particularly in

booster stations. However, it has one distinct disadvantage, in

that it requires all stations which are synchronized on a channel to

use the same program at night, and thus limits the availability of

the station for local features as well as the independence of action

of licensees. Differences in time also limit the practicability of

synchronized channels. The synchronization of too many channels

can also result in a waste rather than a net gain in the economic

use of the spectrum by reason of limitations of side channel interference. Nevertheless, in certain cases the engineering phase

of synchronization might be resorted to in order to solve particular

problems where the evidence shows that there is a distinct advantage

to the public to be gained thereby.

The Engineering Department recommends that the Commission

not consider synchronization as a desirable cure for some of the

claimed unsatisfactory features of broadcasting which appear in

some minds with respect to "chains". In this connection, the

Engineering Department views chain broadcasting as a means of

program distribution from the centers of talent to other centers

which are unable to sustain good programs over an extended period

of time by reason of lack of adequate talent. Therefore, from this

standpoint "chains" used as a method of program distribution are a

distinct advantage to the public, as well as to the low-power

stations—particularly if sufficient time is made available by each

station on the chain for operation in direct behalf of local

community interests.

The Engineering Department is of course aware that some

persons feel that "chains" have disadvantages. If these disadvan-

tages are serious, it appears that they can be corrected by adminis-

trative licensing measures rather than by empirical technical

restrictions. Therefore, since the subject is one of policy, the

Engineering Department has no other recommendations to submit

at this time with respect to "chains".

6. Maximum and minimum power requirements with respect to
each class.

General

In general, the trend of all engineering testimony was toward

higher power for all classes of stations. It was clearly indicated

that in general the existing empirical standards of the Engineering

Department with reference to signal intensities required for good

service should be used as a minimum and that in many instances

there is a need for a higher order of signal intensity to overcome

the noise level in cities and the noise level in rural areas, particularly

during the summer and in the southern sections of the country.

The only way to secure increased signal intensity is by increase

in radiated power. However, it should be clearly understood that

if the power of all stations were increased generally, the interference

which now exists would remain exactly the same in so far as the

distance from each station is concerned, and there would be no

increase in good service areas free from interference at night unless

means were taken to avoid such interference.

In the opinion of the Engineering Department, and in view of

modification of technical developments, it would seem desirable

that if powers were to be increased at various stations, an attempt

should be made from the standpoint of interference to secure an additional

improvement in service to the public over and above increased

signal intensity within existing interference boundaries. This, of

course, could not be accomplished in all cases, but in each individual

case advantage might be taken of practical opportunities which

might exist to secure the service of increased signal intensity which

might benefit the local listeners and at the same time create less

interference to listeners of a distant station.

(a) Increases in power above 50 kw. on any class of

frequency.

The greatest controversy and difference of opinion existed with

respect to power greater than 50 kw. However, with but one

exception, all engineers who testified admitted that where side

channel interference was not a factor, powers on clear channels

in excess of 50 kw. would be a technical advance and would result in

an increased signal intensity to remote areas. It is also clear to

the Engineering Department that from a technical standpoint any

power less than 50 kw. on a clear channel is a wasteful use of such

frequency on the North American Continent.

The following table gives a comparison of coverage expected

from a 50 and a 500 kw. station under the same conditions:

(c) Nighttime secondary service.

It should be noted that for all conductivities and frequencies fading will not limit the primary service of the station within its 5 kw. day contour whether the power be 50 kw. or 500 kw. The secondary service is that resulting from sky wave radiation reflected beyond the ground wave.

* Intensity of signal is exceeded 50% of the time.

Judging from the testimony, the Engineering Department is of the opinion that social and economic factors involved in powers in excess of 50 kw. are of paramount importance and in our opinion may outweigh engineering considerations in the final determination of this subject by the Commission.

For example, one group claimed that the use of 500 kw. by such clear channel stations would not result in either social or economic difficulties, but would result in a general benefit to the public. It was claimed by this group that the initial additional cost, as well as the additional cost of maintenance of operation would not be a detriment, and that in general the use of 500 kw. stations would benefit other stations indirectly by reason of the generally better radio service to be rendered to the public.

Some of those who opposed the use of 500 kw. power claimed that if super power were permitted on a few clear channel stations, there would be an inevitable trend toward the use of 500 kw. or more by all clear channel stations and that if such an event should occur, the results on the broadcast structure as a whole would be such as to reduce the benefits to the public and completely change the existing system of rendering program service to the public.

Some evidence was given by those opposed to the use of super power to the effect that it would result in low-power stations being unable to obtain by wire the benefits of good program service originating in the centers to which they listened.

Other groups indicated that they felt the use of 500 kw. by clear channel stations might make it difficult for the stations in the smaller communities to carry on local service to such communities, but they admitted the possibility that in general, where radio is well received, there might be an increasing public interest in radio such as to make the local station useful in its community.

Still another group indicated that the Commission should not at this time permit powers in excess of 50 kw., but should study the question further and in particular each individual case. This same group indicated that if the Commission should license two or three 500 kw. power stations in competing situations, the inevitable trend would be for all clear channel stations to have this high power, and that therefore the Commission should hesitate in this matter and study the situation carefully and proceed with caution.

The Engineering Department is of the opinion that if the Commission accepts the doctrine of clear channel stations, all such stations should employ sufficient power to justify the use of a single channel at night by only one station and that this power should not be less than 50 kw.

In connection with this question of super power, we are preparing a separate report giving a detailed analysis of the voluminous testimony in the record with respect to the economic phases involving costs, earnings and other facts which may be of assistance to the Commission in its final determination of increases in power. We feel that these facts are important and that the Commission should await its final decision pending the completion of this summary of the evidence.

(b) Horizontal increases in power on frequencies on which nighttime duplicated operation is permitted.

With reference to horizontal increases in power on frequencies on which nighttime duplicated operation is permitted, the Engineering Department, based upon the evidence at the hearing, is of the opinion that such increases in power should be permitted when the facts show the need therefor in any particular community, and when such increases in power can be made without detriment to other stations, and when the proposals for such increases in power are sound from both an engineering and economic standpoint. We further believe that the regulations with respect to power on these shared channel stations should be sufficiently flexible to permit an evolutionary accomplishment of a direct improvement in service to the public of the entire nation. However, we feel that the Commission should issue no blanket increases in power to any class of station, but instead should examine each case individually upon the voluntary application to this Commission for a modification of existing license or for a new license.

With special reference to local channels, the Engineering Department is of the opinion that gradually, by evolution, it will be possible to so arrange the channel allocation as to permit an increase in power to 250 watts instead of the 100 watts which exists today. However, this will have to be accomplished in certain congested sections of the country by a slight reallocation when and if existing local stations request new frequencies. In this connection, we believe that the frequencies between 1550-1650 kc., with powers up to 1 kw., would provide a service to local communities equivalent to the service rendered by a 250 watt station on the local channel of 1200 kc.

(c) Differentiation in maximum power at day and at night.

With respect to the differentiation in maximum power day and night, the Engineering Department is of the opinion that this in general is unsatisfactory, and should apply only when sound engineering prevents the use of the day power at night.

Summary on Question of Power

The Engineering Department suggests that in general the night power for different classes of stations be as follows:

- Class A—Not less than 5 kw.
- Class B—Not less than 10 kw. or more than 50 kw.
- Class C—Not less than 5 kw. or more than 50 kw.
- Class D—Not less than 1 kw. or more than 5 kw.
- Class E—Not less than 50 watts or more than 1 kw.
- Class F—Not less than 100 watts or more than 250 watts.

The power for each station should be determined upon facts in each individual case. The existing powers should not be changed except when there are applications made therefor. Increases in power of existing stations should, if practicalities permit, be made by utilizing interference protection devices in such a manner as to permit a general increase in coverage in so far as is possible. All increases in power on any channel should be based upon sound engineering.

II. Standards to Be Applied in Determining Coverage and the Presence or Absence of Objectionable Interference.

1. Propagation characteristics of the various frequencies in the range 550-1600 kc., including comparison of east-west and north-south transmission, effect of intervening mountain ranges, and seasonal variations.

The Engineering Department, as a result of the allocation survey and as a result of the applications made therefor, submitted testimony concerning the propagation characteristics, both of the ground and sky waves, on the various frequencies. There was unanimous engineering agreement with respect to these curves, provided they were used as guides in determining coverage and interference. Engineers in general felt that in individual cases the actual facts determined as a result of proper measurement should be the determining factors rather than the curves.
However, with respect to the sky wave, the Engineering Department is of the opinion that when the characteristics of the radiating antenna are known, the sky wave curves of the Engineering Department should not be discarded for other data unless at the same time it is disclosed that measurements were taken over a sufficient period of time to justify such data as being better evidence of propagation.

The Engineering Department recommends that its curves be incorporated in "standards of good engineering practice" which will be used as a guide for allocation engineering in all of the Commission's broadcast work between the frequencies 550-1600 kc.

It is the opinion of the Engineering Department that these curves will require possible modification from time to time, as additional data is collected, and it is believed that money could be well expended from time to time in securing such additional data. We shall therefore, at some future date, recommend to the Commission the expenditure of funds for the special purpose of making measurements in the field.

We shall also require our Technical Information Section to act continuously as a centralizing agency for all data and information collected by various organizations, as well as data presented to the Commission in various hearings, with the view of keeping up to date the standards of good engineering practice with reference to good propagation characteristics of the regular broadcast frequencies.

2. Prevailing attenuation in various parts of the country.

The general consensus of engineering opinion was that attenuation is different in different parts of the country, due to variations in conductivity and inductivity. The Commission's Engineering Department had collected data with respect to certain parts of the country, and at the hearing various broadcast organizations gave the Commission the benefit of their research. All of this data will be used as a guide for allocation engineering in all of the Engineering conference to be held in January to determine finally this question.

When these technical details have been determined finally, the Engineering Department recommends that the revised distance tables which we shall submit to the Commission at a later date, be included in the standards of good engineering practice and used solely as a guide in determining questions of interference when no additional evidence with respect to actual conditions is available.

Propagation conditions and other factors, such as different types of antennas, vary so greatly between stations and in different parts of the country and on different frequencies, that it will be impracticable to set up a rigid set of distance tables which would permit the necessary flexibility in enabling service to be rendered to the public in individual cases.

The Engineering Department recommends that the revised tables should be used solely as a guide in determining questions of interference when no additional evidence with respect to actual conditions is available.
forth in the tables. However, before the Commission accepts a departure from the distance tables, it should require:

1. Competent evidence indicating clearly wherein the facts in individual cases differ from the assumptions upon which the distance tables are based.
2. Adherence to accepted standards of service and interference.
3. Proper measurements taken by competent engineers over a sufficient length of time.
4. Adherence to good engineering practice in the location and efficiency of transmitters and antennas.

(d) Permissible disparity in power between stations on adjacent frequencies:

While no specific testimony was given on this subject, an analysis of the evidence on several subjects, including propagation curves and receiver selectivity, indicates that the question of disparity in power on adjacent channels depends entirely upon conditions resulting from geographical separation and propagation conditions between stations. A factor which is of prime importance is the ratio between desired and undesired signals at the edge of the service area of the station requiring freedom from interference. These factors which can be determined either by measurement or as a general guide, by reference to the distance tables referred to above.

Generally speaking, however, it is the opinion of the Engineering Department that an ideal situation, from an allocation engineering standpoint, would be the "bloc" assignment of frequencies to stations having equivalent powers so as to avoid the ill effects of disparity in power between stations on adjacent frequencies and to permit a better basic engineering allocation. However, from a practical standpoint, it appears that the review of the great desirability of proceeding with improvements in allocation on an evolutionary basis, the Engineering Department is of the opinion that there should be no attempt made at this time to change radically the existing allocation so as to secure the ideal of "bloc" assignment. Nevertheless, it is suggested that in the years to come and whenever practically possible, the Commission might take advantage of opportunities so as to secure the ideal of "bloc" assignment. Nevertheless, it is suggested that in the years to come and whenever practically possible, the Commission might take advantage of opportunities.

In conclusion, the Commission recommends that its Technical Information Section continue to accumulate data from other sources with reference to this subject, and that the Commission encourage research on the part of institutions, leading to the accumulation of greater knowledge concerning the Heaviside layer and the sunspot cycle. This study, of course, has been in progress at various commercial, educational and governmental institutions and laboratories in this country and abroad.

III. Geographical Distribution of Broadcast Facilities.

1. Weight to be given to such factors as area, population and economic support.
2. Feasibility of allowing adherence to sound engineering principles (e.g., a quota system) in order to comply with Sec. 307 (b) of the Communications Act of 1934, as amended, and "to provide a fair, efficient and equitable distribution of radio service" among the several States and communities.
3. Feasibility of allowing adherence to sound engineering principles automatically to effect the distribution required by Sec. 307 (b).

We know that the Commission understands it should take into consideration all the factors concerning the distribution of facilities, particularly the laws of Congress, economic laws, social requirements and principles of sound engineering. However, we feel that the entire subject is of such vital importance as a policy matter to the Commission, that the Engineering Department considers that we should only lay the available facts before the Commission, rather than to make any specific recommendations, particularly at this time, which take into consideration matters other than engineering. Consequently, the Engineering Department will make this Section III the subject of a separate report to the Commission, in which we shall attempt to summarize the comprehensive evidence given by economic experts and others, concerning market research data and its relation to the coverage of radio stations, as well as facts concerning costs, revenue and other economic factors.

In making this separate report we hope that it will be clearly understood that the Engineering Department feels that the subject matter, by its nature, requires more than engineering consideration, and that therefore we are constrained to confine our efforts to a summary of the facts so as to assist the Commission in its own determination of the weight to be given to these factors in the important policy question involving distribution of radio facilities.

At this time we can state that evidence was given at the October 5 hearing which was intended to show that, there were certain economic entities within the borders of this country which may or may not have a definite relationship to the question of coverage of broadcasting stations or services and that their interests may not lead to some knowledge as to the necessity or lack of necessity of licensing certain classes of stations in any particular community in a manner so as to enable proper coverage and program service.

There was also certain testimony given in the record with respect to the cost involved in the construction and maintenance of various classes of stations, as well as to their revenues, which information, in our opinion, should be of paramount importance in assisting the Commission in arriving at decisions with reference to the details of its specific regulations on any particular matter.

However, in our initial study of these questions, we fail to find a reason why it is not an advantage from all standpoints to so draft the regulations as to permit flexibility in making available suitable facilities in all sections of the country under varying technical and economic conditions, and in this connection it is our opinion that such a procedure will enable the Commission in its detailed consideration of licenses to so control the situation
that the Commission's final determination will be in accord with the broader phases of social and economic laws, and in conformity with sound engineering.

We feel that from an engineering standpoint the allocation system should provide the greatest number of stations so geographically distributed as to make the least wasteful use of the narrow spectrum from 550 to 1600 kilocycles and to the end that the entire public will receive the maximum possible service, both transmission and reception. We feel that in each community or section of the country the transmitting facilities should have sufficient power to render a good service in accord with the determined needs of the community or section of the country. We also feel that the allocation system should provide for facilities that will enable service to be rendered to remote rural areas.

IV. Standards and Methods of Measurement With Respect To

1. Power.
2. Tolerance.
3. Field intensity
4. Determination of service
5. Determination of interference.

The engineering testimony indicated clearly that the Engineering Department's standards with reference to the various factors mentioned above are sound. We shall include them in the standards of good engineering practice mentioned heretofore.

V. Apparatus Performance Requirements to Be Imposed on Broadcast Stations.

1. Frequency stability.

Engineering testimony indicated that the present standards of frequency stability, namely, 50 cycles tolerance, is capable of being maintained by all stations in the broadcast band 550-1600 kilocycles, and that while many stations maintain better tolerance than 50 cycles, there is no distinct advantage to be gained.

"Zero beat" between all stations on the same channel can be accomplished in practice and while there are methods available to enable such accomplishment, the Engineering Department is of the opinion that it is not practical at this time to change our existing standard of 50 cycles. There was some evidence to the effect that a 17 cycle difference might be useful, but the Engineering Department is not in accord with this suggestion because of the practical difficulties involved in utilizing such a difference, even if it were beneficial, which we do not at this time admit.

2. Antenna efficiency.

No engineering facts were given to indicate that the Engineering Department's standards with respect to antenna efficiency are unsound.

No engineering facts were given to indicate that the present engineering requirements as to modulation are unsound. However, evidence showed that certain stations are overmodulated, and that there might be a desirability of requiring broadcast stations to utilize apparatus which will automatically prevent overmodulation. Overmodulation can be the source of much undesirable and objectionable interference. The Engineering Department will include in its standards of good engineering practice some requirements with respect to modulation.

4. Suppression of harmonics.

No evidence was given to indicate that the existing requirements with respect to harmonics are unsound. The Engineering Department feels that while it may be desirable to increase the restrictions with respect to harmonics, it is not practicable to do so at this time.

5. Fidelity of transmission.

This subject is interrelated with the subject of desired to undesired ratios, mentioned heretofore with respect to the January conference to be held by the Engineering Department. It is possible that after that date the Engineering Department will have some recommendations to submit.

6. Transmitter Location.

This subject is interrelated with that of the proper definition of blanketing signal, which will be discussed at the January engineering conference, and recommendations will be submitted subsequent to that time.

VI. Effect of Any Proposals Regarding the Foregoing Subjects.

1. Socially and economically, upon the public and the industry.

The four subjects on which there was the greatest difference of opinion at the hearing concerning the allocation of frequencies to special groups: (a) the use of powers of 500 kw. or greater; (b) horizontal increase in power on existing stations operating simultaneously at night on the same channel and (d) duplication of station frequency assignments on existing clear channels.

(a) With respect to the allocation of frequencies to educational groups, the latter indicated that they recognize the limitations of the existing band 550-1600 kc., and they had no engineering evidence to offer. Solely from a technical standpoint and based upon the engineering evidence at the hearing concerning the propagation qualities of frequencies and the performance of various radio stations, the Engineering Department feels that to allocate a "block" of frequencies in the band 550-1600 kc. to any special group would be unsound engineering and would limit the service which can be rendered to the public within the broadcast band 550-1600 kc. both by the special group as well as by all others.

(b) With reference to the use of 500 kw. power, the technical aspects of this subject have been discussed previously in this report. We feel that recommendations covering social and economic factors relating thereto are not within the province of the Engineering Department.

(c) The question of increased power for regional and local stations likewise has some economic features, but in this connection the Commission is of course aware of the fact that the relative increase in power of these classes of stations does not present the same contract as does the question of 500 kw. power for a few stations, and of course if the Commission proceeds on an evolutionary basis, by voluntary action on the part of the licensee, the economic and social consequences involved in increasing power of these classes of stations could be under control.

(d) In the matter of the duplication of some of the existing assignments on clear channels, the Engineering Department feels that if sound engineering is applied in each individual case, as well as consideration given to other important factors upon their individual merits, the Commission could in all probability accomplish an evolutionary im-
improvement in broadcast service to the public in every section of the country.

2. Internationally, upon the use of the band 550-1600 kc. by other countries in North and Central America.

The testimony given with respect to the use of the band 550-1600 kc. by other countries in North and Central America was not gone into thoroughly at the October 5 hearing for obvious reasons. Nevertheless, the Commission is aware of the situation with respect to these nations. It is the opinion of the Engineering Department that if the United States should proceed with the technical improvements suggested in this report, this country should, in all probability, be in a more sound position with reference to our negotiations with other nations on this continent.

3. Upon possible future use of frequencies in the bands 6000-30,000 kc. and in the band above 30,000 kc. for broadcasting.

With reference to the effect upon the possible future use of frequencies in the band 6000-30,000 kc. and in the band above 30,000 kc., there was some testimony which indicated that if the industry by reason of competitive factors, should be forced to expend huge sums of money in improving facilities in the band 550-1600 kc., there might be some slowing up in the development of other broadcasting frequencies. However, evidence to the contrary was expressed by other groups which indicated that the industry could bear both expenses.

It is the opinion of the Engineering Department that in so far as frequencies between 6000-30,000 kc. are concerned, the technical limitations relative to the use of additional frequencies in this band, combined with the great demand therefor by other nations, create a situation wherein the industry as a whole would not be greatly embarrassed by the lack of funds to develop these few channels, and that this nation is capable of handling this situation without any regard to the effect improvements in regular broadcast band may or may not have thereon.

Regarding the use of frequencies above 30,000 kc., on which will appear television, the Engineering Department feels that while there may be some inability on the part of some of the existing licensees or broadcasters to finance improvements in existing broadcast facilities in the band 550-1600 kc., there was sufficient evidence at the hearing to indicate that others were capable of financing improvements in the existing structure as well as to finance heavily the development of television. The Engineering Department sees no valid reason why needed improvements in the existing broadcast structure should be withheld from the public by reason of the possible future development of television, particularly in view of the evolutionary character of such regular broadcast improvements. However, this is a matter which is of concern to the Commission as a matter of policy, and hence we are not making any specific recommendations in this matter.

4. Probable effects of the recommendations of the Engineering Department if same are approved by the Broadcast Division.

We believe that, while the Engineering Department may be qualified from a technical standpoint, for us to wander afield is fraught with some peril. Nevertheless, we feel that since economies, social requirements, and allocation engineering are so closely related in broadcasting, the Commission is entitled to our opinion of the possible effects of our own engineering recommendations.

First, we feel that if our recommendations are approved there will result an evolutionary technical improvement of broadcasting service to the public.

Second, it is our opinion that within the limitations inherent in the narrow frequency band 550-1600 kc., the resultant technical improvements in the broadcast structure will permit the maximum service to the greatest number of the public.

Next, it is our opinion that through flexibility in the details of the regulations and with the evolutionary procedure recommended for accomplishing the technical improvements, the Commission can exercise continuous control to prevent a radical upheaval which would affect programs service to the public.

It is also our opinion that with the policy of voluntary action on the part of licensees or applicants, the Commission can avoid the dire consequences of imposing costly burdens where economic justification may be lacking.

If the Commission keeps itself informed of the social and economic trends underlying the broadcast industry and will judge each individual case on its merits, bearing in mind the economic effect of granting of any applications on the broadcast service to the public, the Commission will be able to proceed judicially and wisely in improving service to the public.

All items in the proposed regulations involving direct cost to existing licensees are those pertaining to possible increases in kilowatt power. If the Commission in acting upon individual applications is assured that the applicant has the funds, that there is valid need for increasing power, and that there is evidence of continued financial support for the station, there need be no fear of the discontinuance of service to the community in which the station is located.

As to the indirect effect of competition on the costs involved in power increases or from additional stations, the Commission will be guided solely by the facts in each case and the resulting determination of what is in public interest.

We feel that with the evolutionary procedure recommended there is no valid reason to believe that needed improvements of broadcasting service in the band 550-1600 kc. will retard proper development of broadcasting in other bands by reason of lack of funds to finance such development. It is our belief that the public needs improved service in the band 550-1600 kc. and that when this be accomplished the industry will be in a better position to handle the newer developments which are certain to come when and if there is a public demand and an economic justification therefore.

In conclusion, it has been the objective of the Engineering Department to recommend such changes in the Rules and Regulations pertaining to broadcasting in the band 550-1600 kc. that will result in the accomplishment of the following:

1. The maximum availability in all sections of the country of broadcast facilities both of transmission and reception, having proper regard for the inherent technical limitations imposed by the narrow band of frequencies between 550 and 1600 kc.

2. From a technical standpoint, an improved service to the public consistent with sound engineering principles and abreast technical progress in the art.

3. The possibility for the Commission to secure greater freedom of action in determining the correlation between the technical, economic and social factors of broadcasting.

4. An improvement in broadcast service to the public where needed and where economically justified through voluntary evolutionary action on the part of the entire broadcast industry including both those who operate or manufacture for profit as well as those who do not operate stations for profit.

5. Rules and Regulations which are in accord with existing practical conditions.

6. An opportunity for all existing licensees, particularly low power "local" stations, to improve service to the public.

T. A. M. CRAVEN,
Chief Engineer.

A. D. RING,
Assistant Chief Engineer.

January 11, 1937.

NAB PRESIDENT ATTENDS SALES MEETING

C. W. Myers (KOIN-KALE) Portland, Oregon, attended the sales managers meeting in Chicago this week. Other officers in attendance included Arthur B. Church (KMBC), and John Patt (WGAR), director, H. K. Carpenter, Chairman of the commercial section and James W. Baldwin, managing director.

SALES MANAGERS MEET

More than 80 sales executives attended the meeting of the sales managers division this week (January 18 and 19) at Chicago, Illinois.

The meeting was the culmination of intensive and aggressive work on the part of Buryt Lotteridge (KFAB-KOIL, Omaha) Sales Division Chairman.

The story of the meeting will appear in a subsequent issue of NAB Report and as soon as a transcript of the proceedings is available.

CONNERY RADIO INVESTIGATION

Representative Connery of Massachusetts has introduced a resolution in the House (H. Res. 61) for the appointment of a special committee by the Speaker of the House to make a thorough investigation of radio and radio activities. The resolution, which has been referred to the House Committee on Rules, will be found in full on page 1896.

NEW CALIFORNIA STATION RECOMMENDED

Luther E. Gibson doing business as the Times-Herald Publishing Company applied to the Federal Communications Commission for a construction permit for the erection of a new broadcasting station at Vallejo, Cal. He asked for 1320 kilocycles, 250 watts power and daytime operation.

Examiner John P. Bramhall in Report No. I-335 recommended that the application be granted. He found that there is a need for daytime service in the area proposed to be served. The Examiner discusses interference with various stations and applications already on file with the Commission but found that granting this application would not cause any undue interference either with existing or proposed stations.

SECURITIES ACT REGISTRATIONS

The following Companies have filed registration statements with the Securities & Exchange Commission under the Securities Act: Cinema Magazine, Inc., New York City (2-2746, Form A-1).
Kentucky Mansion Distillery, Louisville, Ky. (2-2747, Form A-1).
Davega Stores Corporation, New York City (2-2748, Form A-2).
United States Potash Company, New York City (2-2749, Form A-2).
The Illinois Steel Products Company, Chicago, Ill. (2-2750, Form A-2).
Fairchild Engine and Airplane Corporation, New York City (2-2751, Form A-1).
The Indiana Steel Products Company, Chicago, Ill. (2-2752, Form A-2).
National Funding Corporation, Los Angeles, Cal. (2-2753, Form A-2).
Associated General Utilities Company, Jersey City, N. J. (2-2753, Form A-2).
Gold Star Radio and Television Corporation, Boston, Mass. (2-2754, Form A-1).
Manufacturers Trading Corporation, Cleveland, Ohio (2-2756, Form A-1).
Union Wire Rope Corporation, Kansas City, Mo. (2-2757, Form A-2).
Belden Manufacturing Company, Chicago, Ill. (2-2758, Form A-2).
Fontenelle Brewing Company, Omaha, Neb. (2-2759, Form A-1).
Western Petroleum Company, Aztec, N. M. (2-2760, Form A-1).
E. L. Bruce Company, Memphis, Tenn. (2-2762, Form A-2).
Copley Pictures, Inc., New York City (2-2763, Form A-1).
Panhandle Eastern Pipe Line Company, Kansas City, Mo. (2-2764, Form A-1).
National Aircraft Company, Los Angeles, Cal. (2-2765, Form A-1).
Kaw-Crow Patricia Gold Mines Limited, Toronto, Canada (2-2768, Form A-1).
Gateway Patricia Gold Mines Limited, Toronto, Canada (2-2769, Form A-1).
Winoga Patricia Gold Mines Limited, Toronto, Canada (2-2770, Form A-1).
The Colonial Finance Company, Lima, Ohio (2-2771, Form A-1).
Diamond T Motor Car Company, Chicago, Ill. (2-2772, Form A-1).
Southern California Water Company, Los Angeles, Cal. (2-2773, Form A-2).
Gardner-Denver Company, Quincy, Ill. (2-2774, Form A-2).

RECOMMENDATION FAVORS NEW HONOLULU STATION

The Advertising Publishing Company, Ltd., applied to the Federal Communications Commission for a construction permit for the erection of a new broadcasting station at Honolulu, Hawaii to use 1370 kilocycles, 100 watts and unlimited time on the air. Also Fred J. Hart applied to the Commission to erect a station at the same place to use 600 kilocycles, 250 watts and unlimited time on the air.

Examiner Robert L. Irvin in Report No. I-336 recommended that the application of the Publishing Company be granted but that of Hart be denied. There is need for additional radio service in the proposed coverage area, the Examiner states. In connection with the application of Hart the Examiner says that he filed it "with the intention of transferring control of any license or permit that might be acquired to parties who are not applicants and who do not appear in this proceeding."

RADIO ADVERTISING BILL

Representative Culkin, of New York has introduced a bill (H. R. 3140) in the House "to prohibit the advertising of alcoholic bever-
ages by radio, and for other purposes." The hill has been referred to the House Committee on Interstate and Foreign Commerce and will be found in complete text on page 1897.

**BROADCAST MEASUREMENTS**

The Federal Communications Commission has announced that during the month of December, 613 stations were measured, with 61 not being measured.

Of the number of stations measured the maximum deviation within 0-10 cycles was 497; between 11-25 cycles, 96; between 26-50 cycles, 17; and over 50 cycles 3.

**DENIAL OF CHANGES RECOMMENDED FOR WMAS**

Broadcasting Station WMAS, Springfield, Mass., applied to the Federal Communications Commission to change its frequency from 1420 to 560 kilocycles; its power from 100 and 250 watts LS to 1,000 watts; and to leave its hours of operation at unlimited as at present.

Examiner Melvin H. Dalberg in Report No. I-339 recommended that the application be denied. He states that "the granting of this application would result in causing severe objectionable interference to Station WDEV in the late afternoon hours. In view of the use of the directive antenna proposed by the applicant, no interference would be caused to the applicant by Station WFIL at night."

**SCOTT RADIO BILLS**

Representative Scott of California has introduced three radio bills in the House (H. R. 3038, 3037 and 3039) all of which are amendments to the Communications Act of 1934. They were all referred to the House Committee on Interstate and Foreign Commerce and will be found in full beginning on page 1896 of this issue.

**ELECTRICAL EXPERT NAMED**

Appointment of John H. Payne as Chief, Electrical Division, Bureau of Foreign and Domestic Commerce, succeeding Andrew W. Cruse who recently resigned, has been announced by Daniel C. Roper, Secretary of Commerce.

This appointment was the result of harmonious collaboration between the electrical industry and the Administration, and was preceded by a number of conferences of officials of the Department of Commerce and leaders in the electrical equipment and allied products industry, in which the selection of a person to fill the position was discussed.

Born in Titusville, Pennsylvania, Mr. Payne attended the Fostoria, Ohio, high school, and was later graduated from the Armour Institute of Technology, Chicago.

For fifteen years he has been connected with the Westinghouse Electric Company in representative and executive capacities. He has resigned from the service of that organization to enter upon his new duties with the Federal Government.

Mr. Payne brings to his new position the experience gained by 25 years of active service in various phases of the electrical industry, 12 years of which were devoted to the development and handling of export business.

**NEW MICHIGAN STATION RECOMMENDED**

The Port Huron Broadcasting Company applied to the Federal Communications Commission for a construction permit for the erection of a new broadcasting station at Port Huron, Mich., asking to use 1370 kilocycles, 250 watts and daytime operation.

Examiner John P. Bramhall in Report No. I-338 recommended that the application be granted. He found that the applicant showed a definite need for daytime service in the area proposed to be served. He recommended that the application be granted and that it be conditioned "upon the selection of an approved site."

**FEDERAL TRADE COMMISSION ACTION**

**Complaints**

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will have an opportunity to show cause why cease and desist orders should not be issued against them.

No. 3031. **The Great Atlantic and Pacific Tea Company**, owner and operator of more than 14,000 retail grocery stores, is charged with violating the Robinson-Patman Anti-Price Discrimination Act, in a complaint. The complaint specifically charges that The Great Atlantic and Pacific Tea Company, by accepting allowances or discounts in lieu of brokerage from certain corporations, firms and individuals from whom it purchases merchandise, has violated section 2 (c) of the Act, which provides:

"That it shall be unlawful for any person engaged in commerce, in the course of such commerce, to pay or grant, or to receive or accept, anything of value as a commission, brokerage, or other compensation or any allowance or discount in lieu thereof, except for services rendered in connection with the sale or purchase of goods, wares, or merchandise, either to the other party to such transaction or to an agent, representative, or other intermediary therein where such intermediary is acting in fact for or in behalf, or is subject to the direct or indirect control, of any party to such transaction other than the person by whom such compensation is so granted or paid."

Among the numerous corporations, firms and individuals from which the respondent corporation allegedly accepts discounts and allowances, the following are named in the complaint:

Alton Canning Co., Inc., Alton, N. Y.; Fred B. Huxley, trading as F. B. Huxley & Son, Alton, N. Y.; The H. J. McGrath Co., Babiglo Company, Inc., 37 West 20th St., New York City, operating market information and purchasing services, and 13 companies engaged either in buying or selling foodstuffs and groceries through the Biddle Company, are named respondents in a complaint, charging violation of section 2 (c) of the Robinson-Patman Anti-Price Discrimination Act, which provides:

"That it shall be unlawful for any person engaged in commerce, in the course of such commerce, to pay or grant, or to receive or accept, anything of value as a commission, brokerage, or other compensation, or any allowance or discount in lieu thereof, except for services rendered in connection with the sale or purchase of goods, wares, or merchandise, either to the other party to such transaction or to an agent, representative, or other intermediary therein where such intermediary is acting in fact for or in behalf, or is subject to the direct or indirect control, of any party to such transaction other than the person by whom such compensation is so granted or paid."

Respondent companies designated as sellers are:

General Grocer Co., 301 South 8th St., St. Louis, Mo.; Smart & Final, Ltd., 315 Marine Ave., Wilmington, Calif.; The Eavey Co., Xenia, O.; Michigan Trading Corporation, 140 12th St., Detroit; C. G. Meeker Co., Inc., 159 Wall St., Auburn, N. Y.; Midendorf & Rohe, a co-partnership composed of Peter and John Rohe, 3 Little West 12th St., New York City, and Koll Grocer Co., Owensboro, Ky.

Respondent companies designated as buyers are:

Dannemiller Coffee Co., 116-39th St., Brooklyn; Colonial Mo¬lasses Co., Inc., 616 Kent Ave., Brooklyn; Albert Dickinson Co., 2750 West 35th St., Chicago; Ervin A. Rice Co., 2230 South LaSalle St., Chicago; Cava Packing Co., Salinas, Calif., and Godolphin Packing Co., Inc., 107 Chambers St., New York City.

Use of unfair trade practices in connection with the sale of soap, which it represents to be olive oil Castile and of Spanish or Italian origin, when such is not a fact, is alleged in a complaint issued against Babiglo Company, Inc., 37 West 20th St., New York City.

The respondent company, the complaint charges, purchases soap for resale, and brands it with designations which are said to represent, and to lead purchasers to erroneously believe, that it is made wholly or predominantly of imported Spanish olive oil, or is a Spanish product made of olive oil, or is of Spanish or Italian origin.

According to the complaint, such representations are false, and the brands advertised and sold as "Castile Soap" made of imported oil are not manufactured, as claimed, from olive oil, but are highly adulterated soaps, saponified and mixed with other oils and fats, having for their fatty base large percentages of coconut oil,
palm kernel oil and tallow, containing either a small percentage of olive oil or none at all.

No. 3034. Alleging unfair trade representations in the sale of pencils, a complaint has been issued against United States Penneil Co., Inc., 487 Broadway, New York City.

Selling to jobbers, retailers and others, the respondent company is alleged to have advertised "High quality and much greater saving," specifying that the regular $5 grade was being offered at $2.75 per gross or "A 5¢ pencil at less than 2¢ each."

The complaint charges that the products thus advertised were not of a regular $5 grade, but of a less expensive grade sold at a lower price, and that other articles offered by the respondent company as "free" with an order for pencils, were not given free but the cost was included in the price paid by purchasers of the pencils.

No. 3036. Alleging charging unfair competition in the sale of fur products, a complaint has been issued against Benjamin Tucker, 1904 Livingston St., Brooklyn, N. Y., trading as Ben Tucker's and Hudson Bay Fur Co.

Furs and fur coats were represented by Tucker as "Beaver," "Hudson Seal," "Mink Marmot" and by other similar names when, according to the complaint, such garments were made from furs and skins other than and in many cases inferior to those of the seal, beaver and mink.

Other similar misrepresentations were alleged, and in certain advertisements the respondent is said to have used various names of furs without qualifications of any kind. In other advertisements, he alleged that the products were "dressed and cleaned," "dyed muskrat" or "processed lamb," in footnotes purporting to refer to the fur coats described in the advertisements but in such small type as to be practically unreadable, and not in close proximity to the fur designations set out.

**Stipulations and Orders**

The Commission has issued the following cease and desist orders and stipulations:

**No. 1724.** Voneiff, Dryer Co., 1606 Harford Ave., Baltimore, has been ordered to cease and desist from selling candy so packed and assembled that sales to ultimate purchasers are made by means of a lottery, gaming device or gift enterprise.

**No. 1874.** C. DeVitt Lukens Surgical Supply Co., 4908 Laclede Ave., St. Louis, trading as Duray Chemical Co., and Perry LeMon Clark, Jr., and Philip A. Lieber, 310 and 1615 Blackstone Ave., Fresno, Calif., trading as More-X Graphite Co., have agreed to discontinue use of extravagant and misrepresentations that the device actually adheres to the metal surfaces of motors, or penetrates the pores.

**No. 1858.** Gaylord Manufacturing Co., 1227 Washington Blvd., Chicago, sells a multiple speed fan having a so-called "Purex," for dairy and poultry sanitation, agrees to stop advertising that its products thus advertised were produced by all blade manufacturers in America, and that not one blend is used in simulating another fur, that fact shall be made known in the advertising matter.

**No. 1878.** Belmont Products Company, Calhoun and Lewis Sts., Fort Wayne, Ind., in the sale of flavoring products, stipulated that it would cease using on labels, or in any manner as descriptive of its products, the phrase "Dollar Value," when such an allegation was based upon the fact that the price for which the products are sold and intended to be sold in the usual course of trade; and stop employing the same phrase in connection with a suggested retail price of less than $1, so as to cause the purchaser to believe that the cost has been reduced and that he is obtaining for the lower price a product having a dollar value.

The corporation also will discontinue use of the words "vanilla" or "lemon" to represent products not composed wholly of vanilla or the juice of the lemon; if the products are imitation flavors, advertising to the effect that it makes tests of competing razor blades implied that it would cease using on labels, or in any manner as descriptive of its products, the words "veneer" or "veneer seal" to designate products which are not of double or extra strength.

**No. 1880.** Montgomery Ward & Co., Chicago, in connection with the sale of articles of furniture, signed a stipulation to discontinue using in advertising certain phrases containing some form of the word "veneer" to describe products not wholly covered with veneer. However, the stipulation provides that if the articles of furniture are not wholly covered with veneer and the phrases referred to above are used to designate them, then such words shall be immediately accompanied by the words "imitation" or "type equivalently.

The corporation further alleged to desist from use of the words "double strength" as to be practically unreadable, and not in close proximity to the fur designations set out.

According to the stipulation, there were other snap valves on the market both before and at the time the Buckner Manufacturing Company advertised its product as the first and only such valve; or that the device is capable of performing air conditioning; or that the quantity of oil required to be used can be reduced and that he is obtaining for the lower price a product having a dollar value.

The corporation also will discontinue use of the words "vanilla" or "lemon" to represent products not composed wholly of vanilla or the juice of the lemon; if the products are imitation flavors, advertising to the effect that it makes tests of competing razor blades implied that it would cease using on labels, or in any manner as descriptive of its products, the words "veneer" or "veneer seal" to designate products which are not of double or extra strength.

**No. 1882.** Albert S. Braaten, 4 4th St., South, Moorhead, Minn., trading as More-X Graphite Co., engaged in compound- ing auxiliary lubricant with a colloidal graphite base, intended to be added to ordinary lubricating oils and motor fuel oils, agrees to stop advertising that its products has germicidal or disinfectant properties when taken internally by poultry or other domestic animals; that, when used for bathing domestic live stock, it is a disinfectant for surface cuts or sores and in preventing spread of contagious diseases, and that it is non-poisonous under all circumstances or conditions.

**No. 1883.** Gaylord Manufacturing Co., 1227 Washington Blvd., Chicago, sells a multiple speed fan having a so-called "purifying" attachment composed of two electrically heated devices which vaporize chemicals introduced into the air current by a circulator. The chemicals, according to the stipulation, consist of chlorine and formaldehyde, the strong order of which is neutralized by the air current.

Use in advertising of the words "air conditioning," either alone or in connection with the word "system," "unit," or "features," so as to imply that the device is capable of performing air conditioning, will be discontinued, as will the use in advertising of the word "sterilizes," so as to imply that the device actually destroys all germs within the space in which it operates. The word "deodorizes" will not be used so as to impart that the device actually destroys or absorbs offensive odors within the space in which it operates.

The respondent company will also discontinue use of the phrase "Fresh'nd-Aire Alone Accomplishes Cooling Effects of 8 to 10 Degrees Lower Temperatures in Summer," and will eliminate from its corporate name the word "Manufacturing" so used as to imply that the company owns and operates a factory wherein its products are made. No more than this will be allowed to be used.

**No. 1885.** Cooperative Distributors, Inc., 39 Irving Place, New York City, in the sale of razor blades, agrees to stop advertising to the effect that it made tests of competing razor blades produced by all blade manufacturers in America, and that not one
of such blades was good or dependable. It also agreed to cease employing representations of similar meaning, the effect of which is to unwarrantably disparage the products of competitors. The respondent corporation also agreed to bar use of the advertising assertion that "samples were sent to 1200 shaver-consumers for testing. This time more than 90 per cent reported them eminently satisfactory." This representation, according to the stipulation, was not warranted by the facts.

No. 2395. Imperial Distillers Co., 12001 East Jefferson Ave., Detroit, has been ordered to cease and desist from representing that it is a distiller of whiskey, gin and other spirituous beverages, when such is not a fact.

Under the order, the respondent corporation is prohibited from representing, through use of the word "distillers" in its corporate name, on labels, or otherwise, that it is a distiller of spirituous beverages, that it manufactures such products through the process of distillation, or that it owns or operates a distillery, unless it actually does own or operate such a place.

The order excepts from its provisions gin made by respondent through a process of rectification whereby alcohol, purchased but not produced by the respondent company, is redistilled over juniper berries and other aromatics.

No. 2397. Banner Distilling Co., 2100 South Morgan St., Chicago, has been ordered to cease and desist from representing that it is a distiller of whiskey, gin and other spirituous beverages, when such is not a fact.

Under the order, the respondent corporation is prohibited from representing, through use of the word "distilling" in its corporate name, on labels, or otherwise, that it is a distiller of spirituous beverages, that it manufactures such products through the process of distillation, or that it owns or operates a distillery, unless it actually does own or operate such a place.

No. 2632. Unfair trade representations in the sale of a reference work and loose-leaf extension service are prohibited in an order to cease and desist issued against Bernhart P. Holst, of Boone, Iowa, trading as Holst Publishing Co., and others.

Among practices specifically barred are assertions that a purchaser is being given a set of books free because of his exceptional ability in his chosen trade or profession, when this is not a fact; that the reference work has been substantially enlarged and brought down to date, until and unless such is a fact; and that a person buying the reference work is only paying for an extension service to keep the books up to date, when in fact the price he pays covers the entire set.

The respondents are directed to stop representing that Bernhart P. Holst, or any other person, firm or corporation, is a bona fide purchaser for value without notice of the contracts executed by purchasers in buying the reference work and extension service, when such is not a fact.

Examiner's Report No. 2918. The Commission has entered an order closing its case against John D. Myers, trading as John Sterling Remedy Co., 1500 S. 19th Building, Kansas City, Mo., which was charged with unfair competition. The case was closed because the respondent company is no longer in business. The closing order was made without prejudice to the Commission's right to reopen the case should it become advisable.

FEDERAL COMMUNICATIONS COMMISSION ACTION

HEARING CALENDAR

The following broadcast hearings are scheduled at the Commission for the week beginning Monday, January 25.

Monday, January 25

HEARING BEFORE AN EXAMINER

(Broadcast)

NEW—Eastern Broadcasting Co., Portland, Maine.—C. P., 1210 kc., 100 watts, unlimited time.

NEW—Cumberland Broadcasting Co., Inc., Portland, Maine.—C. P., 1210 kc., 100 watts, unlimited time.

NEW—Twin City Broadcasting Co., Inc., Lewiston, Maine.—C. P., 1210 kc., 100 watts, unlimited time.

NEW—Philip J. Wiseman, Lewiston, Maine.—C. P., 1210 kc., 100 watts, unlimited time.

NEW—Harriett M. Allen and Helen W. MacLellan, d/b/a Cape Cod Broadcasting Co., Barnstable Township, Mass.—C. P., 1210 kc., 100 watts, 250 watts LS, unlimited time.

NEW—George M. Haskins, Hyannis, Mass.—C. P., 1210 kc., 100 watts, 250 watts LS, unlimited time.

NEW—James D. Scannell, Lewiston, Maine.—C. P., 1420 kc., 100 watts, unlimited time.

NEW—Arthur E. Seagrave, Lewiston, Maine.—C. P., 1420 kc., 100 watts, 250 watts LS, unlimited time.

Thursday, January 28

ORAL ARGUMENT BEFORE THE BROADCAST DIVISION

Examiner's Report No. I-295:

NEW—Metro Broadcasting Co., Los Angeles, Calif.—C. P., 820 kc., 250 watts, limited with WHAS.

Examiner's Report No. I-200:

Examiner's Report No. I-303:

WNRI—S. George Webb, Newport, R. I.—Modification of C. P., 1200 kc., 100 watts, 250 watts LS, unlimited time.

NEW—E. Anthony & Sons, Inc., Pawtucket, R. I.—C. P., 1200 kc., 100 watts, 250 watts LS, unlimited time (requests facilities of WNRI).

WTHT—The Hartford Times, Inc., Hartford, Conn.—Modification of C. P., 1200 kc., 100 watts, unlimited time (requests facilities of WNRI).

Examiner's Report No. I-305:

APPLICATIONS GRANTED

WMFJ—W. Wright Esch, Daytona Beach, Fla.— Granted C. P. to install new equipment and vertical radiator.

KOIL—Central States Broadcasting Co., Omaha, Nebr.—Granted amended C. P. to move transmitter site locally about 1.93 miles; install vertical radiator; change composite equipment; increase day power from 2½KW to 5 KW.

KTAT—Tarrant Broadcasting Co., Fort Worth, Tex.—Granted C. P. to install new equipment and vertical radiator.

KOBH—Black Hills Broadcast Co., Robert Lee Dean, Y.-P., Rapid City, S. Dak.—Granted license to cover C. P. and modifications; 1370 kc., 100 watts, unlimited.

KARK—Arkansas Radio & Equipment Co., Little Rock, Ark.—Granted license to cover C. P., as modified; 890 kc., 500 watts night, 1 KW day, unlimited.
KSCJ—Perkins Bros. Co., The Sioux City Journal, Sioux City, Iowa.—Granted license to cover C. P.; 1390 kc., 250 watts night, 500 watts day, for August 1, 1936, to broadcast basketball programs of Muncie Central High School, Burris High School of Muncie and Ball State Teachers College; also operate simultaneously with WTRC from 7:30 to 10 p. m., CST, nights of Feb. 14, 21 and 28, 1937, in order to broadcast services of St. Mary's Church of Muncie.

WNAD—University of Oklahoma, Norman, Okla.—Granted special temporary authority to operate from 2 to 4 p. m., CST, Feb. 1, 2, 3, 4, 8, 9, 10, 11, 15, 16, 17, 18, 22, 23, 24 and 25; also to 3 p. m., CST, Feb. 12 (provided KGGF remains silent), in order to broadcast special educational programs.

WFIL—WFIL Broadcasting Co., Philadelphia, Pa.—Granted extension of special temporary authority to operate on 580 kc., with 1 KW at night, during month of February, 1937, pending filing of and action on license application to cover C. P. for this authority.

APPLICATION DENIED

WSAZ—WSAZ, Inc., Huntington, W. Va.—Denied special temporary authority to operate from 1 to 4 a. m., EST, Jan. 10, 17, 24 and 31, 1937, in order to broadcast regular programs.

SET FOR HEARING

NEW—Anne Jay Levine, Palm Springs, Calif.—Application for C. P. for new broadcast station at Palm Springs, Calif., to operate on 1200 kc., 100 watts night, 250 watts day, unlimited time.

NEW—Vancouver Radio Corp., Vancouver, Wash.—Application for C. P. for new broadcast station at Vancouver, Wash., to operate on 880 kc., 250 watts, daytime. Exact transmitter and studio sites and antenna are to be determined with Commission approval.

NEW—W. E. Whitmore, Hobbs, N. Mex.—Application for C. P. for new broadcast station at Hobbs, N. Mex., to operate on 1330 kc., 100 watts, daytime only. Transmitter site to be determined with Commission approval.

NEW—The Record Publishing Co., Okmulgee, Okla.—Application for C. P. for new broadcast station at Okmulgee, Okla., to operate on 1910 kc., 100 watts, daytime only. Transmitter site to be determined with Commission approval.

NEW—Springfield Newspapers, Inc., Springfield, Ohio.—Application for C. P. for new broadcast station at Springfield, Ohio, to operate on 1120 kc., 250 watts, daytime only. Transmitter site to be determined with Commission approval.

NEW—Ann Arbor Broadcasting Co., Inc., Ann Arbor, Mich.—Application for C. P. for new special broadcast station to be located at Ann Arbor, Mich., originally filed on August 15, 1936, by Waldo Abbot, to operate on 1550 kc., 1 KW, unlimited time. Application filed on September 26, 1936, to change name of application from Waldo Abbot, an individual, to Ann Arbor Broadcasting Co., Inc. Transmitter site to be determined with Commission approval.

NEW—W. E. Whitmore, Hobbs, N. Mex.—Application for C. P. for new broadcast station at Hobbs, N. Mex., originally filed on 6-6-36, and amended on 8-26-36 as to frequency of Port Arthur.

FREE—KGGF, Muncie, Ind.—Operation suspended only pending hearing of and action on license application to cover C. P. for this authority.

RENEWAL OF LICENSES

The following stations were granted renewal of licenses for the regular period:

KFCI—Ablene, Kans.; KMMJ, Clay Center, Nebr.; KS00, Sioux Falls, S. Dak.; WBDD, Chicago; WDZ, Tuscola, Ill.; WPG, Atlantic City, N. J.; WSPR, Springfield, Mass.; WTAM, Cleveland, Ohio.

SPECIAL AUTHORIZATIONS

KPAC—Port Arthur College, Port Arthur, Tex.—Granted special temporary authority to operate from 5:30 p. m. to 12 midnight, CST, Jan. 28, in order to broadcast the mid-term graduation exercises of Thomas Jefferson Senior High School of Port Arthur.

WM3—Havens & Martin, Inc., Richmond, Va.—Granted extension of special temporary authority to operate from 5:30 to 7 p. m., EST, on Sundays, during month of February (provided WBBL remains silent) in order to broadcast special programs.

WLBC—Donald A. Burton, Muncie, Ind.—Granted special temporary authority to operate simultaneously with WTRC from 6 to 7:30 p. m., CST, nights of Feb. 1, 3, 5, 9, 12, 13, 15, 17, 19, 25 and 26, 1937, in order to broadcast basketball games of Muncie Central High School, Burris High School of Muncie and Ball State Teachers College; also operate simultaneously with WTRC from 7:30 to 10 p. m., CST, nights of Feb. 14, 21 and 28, 1937, in order to broadcast services of St. Mary's Church of Muncie.
KDON—Monterey Peninsula Broadcasting Co., Del Monte, Calif.—Application for C. P. (amended 11-25-36) to install new equipment and change frequency from 1210 kc. to 1280 kc.; increase night power from 100 watts to 250 watts, day power from 1000 watts to 1 KW, unlimited time.

KFBF—Burryte Broadcast, Inc., Great Falls, Mont.—Application for C. P. (amended 11-27-36) to install new equipment, move transmitter, site to be determined with Commission approval, change frequency from 1280 kc. to 950 kc.; increase power from 100 watts to 5 KW, unlimited time. Hearing before Broadcast Division.

WEEI—Columbia Broadcasting System, Inc., Boston, Mass.—Hearing before Broadcast Division on application for modification of C. P. (amended 12-15-36) to increase night power from 1 KW to 5 KW.

KFPY—Symons Broadcasting Co., Spokane, Wash.—Hearing before Broadcast Division on application for modification of license to increase nighttime power from 1 KW to 5 KW.

NEW—F. M. Gleason, d/b as North Georgia Broadcasting Co., Poplar Bluff, Mo.—Application for license to increase night power from 100 watts to 1 KW, unlimited time. Hearing before Broadcast Division on application for modification of license to increase nighttime power from 1 KW to 5 KW.

NEW—Pottsville News & Radio Corp., Pottsville, Pa.—Application for C. P. for new broadcast station at Pottsville, Pa., to operate on 580 kc., 250 watts, daytime only. Transmitter and studio sites and type of antenna to be determined with Commission approval.

NEW—Don M. Lidenton and A. L. McCarthy, d/b as Fields McCarthy Co., Poplar Bluff, Mo.—Application for C. P. for new broadcast station at Poplar Bluff, Mo., to operate on 1370 kc., 500 watts, daytime only. Hearing before Broadcast Division on application for modification of license to increase night power from 1 KW to 5 KW.

NEW—Lou Poller, Scratchon, Pa.—Application for C. P. for new broadcast station at Scratchon, Pa., (amended 12-14-36) to operate on 1370 kc., 250 watts, daytime only. Transmitter site is to be determined with Commission approval.

RULE 175 AMENDED

The Broadcast Division amended Rule 175 to strike the words "consecutive speech" in the last sentence, and substitute therefor the words "continuous, uninterrupted speech, play, symphony concert or operatic production of longer duration (than 30 minutes)."

ORAL ARGUMENTS

NEW—Ex. Rep. 1-329: Bayou Broadcasting Co., Houston, Tex.—Granted oral argument to be held March 6, 1937.

MISCELLANEOUS

WMCA—Knickerbocker Broadcasting Co., Inc., New York City.—Directed that modification of license to increase power to 1 KW night and day be issued WMCA in conformity with action of the Broadcast Division of Sept. 22, 1935, inasmuch as station has complied with the proviso contained in that authority regarding installation of directional antenna for use day and night.

Montgomery Broadcasting Co., Montgomery, Ala.—Denied in toto petition asking Commission to remand Docket No. 3982 to the Examiner with directions that Examiner's Report No. 1-324 be rewritten in the light of depositions excluded by the Examiner or to reopen hearing and allow the retaking of said depositions. Examiner's Report No. 1-324 is based on the application of John S. Allen and G. W. Covington, Jr., Montgomery, Ala., for a C. P. to erect station to operate on 1210 kc., 100 watts, daytime.

NEW—F. M. Gleason, d/b as North Georgia Broadcasting Co., Rossville, Ga.—Denied petition asking Commission to reconsider and grant without hearing application for C. P. to erect a new radio station to operate on 1200 kc., 100 watts, daytime. Hearing on this application is scheduled for Feb. 8, 1937.

NEW—Ferris Hodge et al., d/b as Lenawee Broadcasting Co., Adrian, Mich.—Denied petition asking Commission to dismiss application for permit to erect and operate a new radio broadcasting station at Adrian, Mich., on frequency 1440 kc., power 250 watts day only, and to cancel order for the taking of depositions in Adrian pursuant to such application.

NEW—Ex. Rep. 1-261: Earl Weir, St. Petersburg, Fla.—Granted petition of station WSUN, Clearwater, Fla., to remand application of Earl Weir for C. P. to operate on 1370 kc., 100 watts, unlimited (site to be determined), to the Examiner for further hearing on finances and need.

In the case of WOL, American Broadcasting Company, Washington, D. C., the effective date was extended to January 27, 1937. Under this decision WOL was granted permission to move transmitter from 1111 H St., N. W., Washington, to about 1/2 mile east Riggs and Iager Roads, Md.; change frequency from 1310 kc. to 1230 kc.; increase power from 100 watts to 1 KW, unlimited time (directional antenna); and make changes in equipment.

APPLICATIONS DISMISSED

The following applications, heretofore set for hearing, were dismissed at request of applicants:

KUOA—KUOA, Inc., Siloam Springs, Ark.—Modification of C. P., 1280 kc., 5 KW, daytime and midnight to 6 a.m.

KFEL—Eugene P. O'Fallon, Inc., Denver, Colo.—Modification of C. P., 920 kc., 500 watts, unlimited.

WBNF—J. E. Richards, John R. Maddox, and Edw. R. Musso, New Orleans, La.—C. P., 1500 kc., 100 watts, unlimited.

In the following case, the Commission, in the Broadcast Division meeting of January 12, 1937, denied the petition of this applicant requesting reinstatement and request for dismissal without prejudice; the application is therefore dismissed with prejudice.

NEW—S. H. Patterson, Denver, Colo.—C. P., 1570 kc., 1 KW, unlimited.

RATIFICATIONS

The Commission ratified the following acts authorized on the dates shown:

WSAR—Doughty & Welch Electric Co., Inc., Fall River, Mass.—Granted extension of program test period 30 days from Jan. 6.

WALK—WALR Broadcasting Corp., Zanesville, Ohio.—Granted extension of program test period 30 days from Jan. 10.

KWJJ—KWJJ Broadcast Co., Inc., Portland, Ore.—Granted authority to extend program test period 30 days.

WIEF—Miami Broadcast Co., Inc., Miami, Fla.—Granted authority to operate as licensed for additional period of 30 days beginning Jan. 15 to Feb. 15, inclusive, for relay broadcast descriptions of Miami from Blimp Puritan.

WBNY—Roy L. Albertson, Buffalo, N. Y.—Granted special temporary authority to operate from 2 to 3 p. m., EST, Jan. 23, 24, 30, 31, 1937, and from 3 a.m. to 12 noon, EST, Jan. 24, 31, 1937, in order to broadcast religious, sports and other programs of special local interest (provided WSVS remains silent).

W10XAH—National Broadcasting Co., Inc., New York City.—Granted special temporary authority to operate licensed mobile relay broadcast station experimental on frequencies 38900, 39100, 39300, 39500 kc. in addition to authorization contained in present license, on Jan. 14 and 21, for Inaugural Ceremonies.

W10XDX—National Broadcasting Co., Inc., New York City.—Granted special temporary authority to operate licensed mobile relay broadcast station experimental on frequencies 38900, 39100, 39300, 39500 kc. in addition to authority contained in present license, on Jan. 14 to 21, 1937, for purposes of describing Inaugural Ceremonies.

W10XDX—National Broadcasting Co., Inc., New York City.—Granted special temporary authority to operate a licensed mobile relay broadcast (mobile) experimental station on frequencies 38900, 39100, 39300, 39500 kc. in addition to the authority contained in present license, on Jan. 14 to 21, 1937, for purposes of describing Inaugural Ceremonies.

W10XDX—National Broadcasting Co., Inc., New York City.—Granted special temporary authority to operate a licensed mobile relay broadcast (mobile) experimental station on frequencies 38900, 39100, 39300, 39500 kc. in addition to the authority contained in present license, on Jan. 14 to 21, 1937, for purposes of describing Inaugural Ceremonies.

In the matter of the applications of Miles J. Hansen, Fresno, Calif., for C. P., Julius Bruntun & Sons Co., Fresno, Calif., for C. P.,
on which an order was heretofore entered on November 17, 1936, the Broadcast Division adopted and published a statement of facts and grounds for decision.

The Broadcast Division granted petition of Cherry and Webb Broadcasting Co. (WPRO), Providence, R. I., to intervene in the proceedings upon the application of the Bay State Broadcasting Corp., Docket 129.

The Broadcast Division granted petition of the Woodmen of the World Life Ins. Ass. (WOW), Omaha, Nebr., to intervene in the hearing of the application of Central States Broadcasting Corp. for a new station at Council Bluffs, Iowa, Docket 4179.

The Broadcast Division granted petition of Portland Broadcasting System, Inc., to intervene in the hearing on application of Cumberland Broadcasting Co., Inc., for a new station at Portland, Maine, Docket No. 2929.

The Broadcast Division, upon its own motion, directed that the oral argument now scheduled for Feb. 4, 1937, upon the applications of B.B.O.S., Inc. for renewal of license, and for transfer of control, be postponed until Feb. 18, 1937, and argument relative to the applications of the Bellingham Pub. Co. for C. P., and Gomer Thomas for C. P., be scheduled for Feb. 18, 1937, also.

The Broadcast Division waived Rule 104.6 (b) and accepted the answer by Intermountain Broadcasting Corp. relative to the proceedings upon the application of WATR Co., Inc., for C. P., and Gomer Thomas for C. P., be scheduled for Feb. 18, 1937, also.

The Broadcast Division granted petition of Portland Broadcasting System, Inc., to intervene in the hearing on application of Cumberland Broadcasting Co., Inc., for a new station at Portland, Maine, Docket No. 2929.

The Broadcast Division, upon its own motion, directed that the oral argument now scheduled for Feb. 4, 1937, upon the applications of B.B.O.S., Inc. for renewal of license, and for transfer of control, be postponed until Feb. 18, 1937, and argument relative to the applications of the Bellingham Pub. Co. for C. P., and Gomer Thomas for C. P., be scheduled for Feb. 18, 1937, also.

The Broadcast Division waived Rule 104.6 (b) and accepted the answer by Intermountain Broadcasting Corp. relative to the proceedings upon the application of WATR Co., Inc., for C. P., and Gomer Thomas for C. P., be scheduled for Feb. 18, 1937, also.

ACTION ON EXAMINERS' REPORTS

APPLICATIONS RECEIVED

First Zone

WICC—Southern Connecticut Broadcasting Corp., Bridgeport, Conn.—Voluntary assignment of license from The Southern Connecticut Broadcasting Corporation to The Yankee Network, Inc.

NEW—New England Radio Corp., Bridgeport, Conn.—Construction permit for a new high frequency broadcast station to operate on 1420 kc., 100 watts, daytime. Amended: To change requested frequency from 1420 kc. to 1190 kc., power from 100 watts to 250 watts, hours of operation from daytime to limited time (all daytime hours and night to local sunset at San Antonio, Tex.). Contingent upon WATR being granted 1290 kc.

WAAB—Bay State Broadcasting Corp., Boston, Mass.—Construction permit for a new high frequency broadcast station to be operated on 1350 kc., 250 watts power, daytime operation.

WJAY—The Cleveland Radio Broadcasting Corp., Cleveland, Ohio.—License to cover construction permit (B2-P-1354) for move of transmitter and installation of new transmitter and antenna.

NEW—The Ohio Broadcasting Company, Steubenville, Ohio.—780 kc. Construction permit for a new broadcast station to be operated on 780 kc., 250 watts power, daytime operation.

WTAR—WTAR Radio Corp., Norfolk, Va.—License to cover construction permit (B2-P-1073) for changes in auxiliary equipment.

NEW—Leonard A. Versluis, Grand Rapids, Mich.—Construction permit for a new broadcast station to be operated on 850 kc., 500 watts power, daytime operation.

NEW—The Ohio Broadcasting Co., Marion, Ohio.—Construction permit for a new broadcast station to be operated on 880 kc., 250 watts power, daytime operation.

NEW—WRBC, Inc., Cleveland, Ohio.—Construction permit for a new broadcast station to be operated on 880 kc., 1 kW, unlimited time. Amended: For approval of transmitter site on Rockside Road, 1/2 mile east of Canal Road, Valley View Village, near Cleveland, Ohio, and for approval of directional antenna for use at night.

WEKL—Royal Oak Broadcasting Co., Royal Oak, Mich.—License 1310 to cover construction permit (B2-P-1333) for new equipment.

WGHI—Hampton Roads Broadcasting Corp., Newport News, Va.—1310 kc. License to cover construction permit (B2-P-1062) for new transmitter and move of transmitter.

NEW—The Ohio Broadcasting Co., East Liverpool, Ohio.—Construction permit for a new broadcast station to be operated on 1350 kc., 250 watts power, daytime operation.

NEW—Valley Broadcasting Co., Youngstown, Ohio.—Construction permit for a new broadcast station to be operated on 1330 kc., 1 kW power, unlimited time. Amended to install directional antenna for night use, give studio site as Youngstown, Ohio, and for approval of transmitter site at Lake Park Road and Shields Road, Youngstown, Ohio.

NEW—The Ohio Broadcasting Co., Salem, Ohio.—Construction permit for a new broadcast station to be operated on 1420 kc., 100 watts power, daytime operation.

WHIS—Daily Telegraph Printing Co., Bluefield, W. Va.—Modification of license to increase power from 500 watts night, 1 kW day, to 1 kW day and night.

W8XKJ—Radio Air Service Corp., Mobile.—License to cover construction permit for a new high frequency relay broadcast station.

NEW—WCAU Broadcasting Co., Philadelphia, Pa.—Construction permit for a new high frequency broadcast station to be operated on 31600, 35600, 38600, 41000 kc., 100 watts.

NEW—WGAL, Inc., Lancaster, Pa.—Construction permit for a new high frequency broadcast station to be operated on 31600, 35600, 38600, 41000 kc., 100 watts.

NEW—Radio Air Service Corp., Cleveland, Ohio.—Construction permit for a new high frequency broadcast station to be operated on 31600, 33600, 38600, 41000 kc., 50 watts.

Third Zone

NEW—Carbonis Radio, Inc., Charlotte, N. C.—Construction permit for a new station to be operated on 880 kc., 500 watts, 1 kW day, unlimited time.

WMFN—Ataltah Broadcasting Corp., Grenada, Miss.—Modification of construction permit (B3-P-829) for new equipment and move of transmitter, extension of completion of date from 1-28-37 for ninety days.

NEW—Archie E. Everage, Andalusia, Ala.—Construction permit 1310 for new station to be operated on 1340 kc., 100 watts night, 250 watts day power, unlimited time. Amended to change requested frequency from 1320 kc. to 1310 kc.

1895
NEW—G. Kenneth Miller, Tulsa, Okla.—Construction permit for a 1310 new station to be operated on 1310 kc., 100 watts power, unlimited time.

KGKL—KGKL, Inc., San Angelo, Tex.—Construction permit to install a new transmitter, make changes in antenna; change frequency from 1370 kc. to 1310 kc., power from 100 watts, 250 watts day, to 1 KW night, 5 KW day; and move transmitter from 30 S. Milton Street, San Angelo, Tex., to site to be determined, Texas.

KGNC—Plains Radio Broadcasting Co., Amarillo, Tex.—License to cover construction permit (B3-P-1470) for equipment changes.

Fourth Zone

KFEQ—KFEQ, Inc., St. Joseph, Mo.—License to cover construction permit (B4-P-1363) for new equipment.

KJFB—Marshall Electric Co., Inc., Marshalltown, Iowa.—Modification of construction permit (B4-P-1054) as modified for new equipment and move of transmitter, requesting extension of commencement date from 11-19-36 to 1-18-37 and completion date from 1-18-37 to 3-18-37.

KWTN—Greater Kampska Radio Corp., Watertown, S. Dak.—Amendment of construction permit (B4-P-3757) as modified for installation of new transmitter; make changes in antenna; change power from 100 watts to 500 watts, and move transmitter from 502 Fifth Street, N. W., Watertown, S. Dak., to East Shore, Lake Kampska, S. Dak. Requests frequency of KGKD (subject to KGKD being granted 1210 kc.). Amended to change hours of operation from daytime to unlimited time, using power of 250 watts night, 500 watts daytime.

NEW—Arthur Malcolm McGregor and Dorothy Charlotte McGregor (partnership), Mobile.—Construction permit for a new high frequency relay broadcast station to be operated on 31100, 34600, 37600, 40600 kc., 10 watts.

Fifth Zone

KHQ—Louis Wasmer, Inc., Spokane, Wash.—Modification of license to change power from 1 KW night, 5 KW day, to 3 KW day and night.

NEW—J. Lourance Martin, Amarillo, Tex.—Construction permit for a new station to be operated on 1120 kc., 100 watts power, limited time (7 a.m. to 8 p.m.). Amended to change power from 100 watts to 250 watts, time from limited (7 a.m. to 8 p.m.), to specified hours (7 a.m. to 8 p.m.), and studio and transmitter sites from 605 East 4th, Amarillo, Tex., to Amarillo, Tex. (no street address).

KRTK—Lee E. Madgett, Everett, Wash.—Construction permit to make changes in equipment; install a vertical antenna; increase power from 50 watts to 150 watts, 250 watts day; move transmitter and studio from 2814 Rucker Avenue, Everett, Wash., to studio: Wetmore at Hewitt, and transmitter: Tract "O", Everett, Wash.

KOY—Salt River Valley Broadcasting Co., Phoenix, Ariz.—Modification of construction permit (B5-P-1516) to install vertical antenna, move of transmitter, further requesting authority to install new transmitting equipment.

KGCG—The Golden Gate Broadcasting Co. (Robert J. Craig), San Francisco, Calif.—Construction permit to make equipment changes; install vertical antenna; change frequency from 1370 kc. to 1350 kc., power from 100 watts to 100 watts, 250 watts day, time from specified hours to unlimited time (contingent upon KRE's application being granted for change in frequency from 1370 kc. to 1440 kc.).

NEW—Ben S. McGeohan, Los Angeles, Calif.—Construction permit for a new high frequency broadcasting station to be operated on 83000, 120000, 240000, 500000 kc., 500 watts power.

CONNERY RADIO RESOLUTION

IN THE HOUSE OF REPRESENTATIVES

January 13, 1937

Mr. Connery submitted the following resolution; which was referred to the Committee on Rules and ordered to be printed

RESOLUTION

Whereas the Congress in creating the Federal Radio Commission, and in enacting the Communications Act of 1934, expressly reserved to the people of the United States control of all radio frequencies; and Whereas, despite this restriction through the leasing of, the purchase of, the affiliating of, the operation of, or, through the possession of contracts giving to a select few the exclusive right to use the more desirable time of these radio-broadcasting stations, there is reason to believe that contrary to the intent and the spirit, as well as the language of laws in force, a monopoly exists in radio broadcasting, which radio-broadcasting monopoly is believed to be profiting illegally at the expense and to the detriment of the people through the monopolistic control and operation of all clear-channel and other highly desirable radio-broadcasting stations; and Whereas certain types of radio programs which have been broadcast are allegedly indecent and contrary to the intent, the spirit, and the language of laws in force; and Whereas it is believed that neither public interest, convenience, or necessity is served by permitting a virtual radio-broadcasting monopoly to control this property which has been reserved to the control of the American people; and Whereas it is contrary to public policy, convenience, or necessity to allow any private groups to traffic in a property reserved to and for the people: Therefore be it

Resolved, That a committee of seven Members of the House of Representatives shall be appointed by the Speaker, which committee is hereby authorized and directed to inquire into and investigate the allegations and charges that have been or may be made relative to irregularities in or pertaining to the monopoly which exists in radio and the activities and functions carried on under the laws by the Federal Communications Act of 1934 and all matters pertaining to radio and radio broadcasting; be it further

Resolved, That the said committee shall make a thorough and exhaustive investigation of all allegations and charges that have been or may be made in connection with or pertaining to the monopoly which exists in radio and the activities and functions carried on under the Communications Act of 1934 and all matters pertaining to radio and radio broadcasting, and shall report in whole or in part at any time to the House of Representatives, together with such recommendations as it deems advisable; and be it further

Resolved, That for the purpose of this resolution the said committee is authorized to hold such hearings, to sit and act during the sessions and the recesses of the present Congress at such times and places, either in the District of Columbia or elsewhere, and to employ such expert, clerical, and stenographic services as may be found necessary and to require by subpoena or otherwise the attendance of witnesses; to administer oaths; to compel the production of books, papers, and documents by Government or private agencies; and to take and record such testimony as the committee may deem advisable or necessary to the proper conduct of the investigation directed by this resolution.

RADIO RECORDS

H. R. 3033

IN THE HOUSE OF REPRESENTATIVES

January 14, 1937

Mr. Scott introduced the following bill; which was referred to the Committee on Interstate and Foreign Commerce and ordered to be printed

A BILL

To add section 315 (a) to the Communications Act of 1934.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Communications Act of 1934 be, and hereby is, amended by adding the following:

"(3) of all additions and changes requested in arranged programs on public, social, political, and educational subjects;

"(4) of interference with and substitution of programs on public, social, political, and economic issues and on educational subjects."
"The licensing authority shall make rules and regulations to effectuate this provision."

RADIO CENSORSHIP
H. R. 3038
IN THE HOUSE OF REPRESENTATIVES
JANUARY 14, 1937
Mr. Scott introduced the following bill; which was referred to the Committee on Interstate and Foreign Commerce and ordered to be printed

A BILL
To amend section 326 of the Communications Act of 1934.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 326 of the Communications Act of 1934 be, and hereby is, amended by striking out the whole said section and by inserting in lieu thereof the following:

"Sec. 326. Nothing in this Act shall be understood or construed to give the licensing authority the power of censorship over the radio communications or signals transmitted by any radio station, and no regulation or condition shall be promulgated or fixed by the licensing authority which shall interfere with the right of free speech by means of radio communication. No action, civil or criminal, shall be commenced or prosecuted against any licensee in any court, Federal or State, because of anything said or done in the course of any broadcast on any public, social, political, or economic issue: Provided, That the licensing authority, the advisory committee, and licensees shall have no power of censorship of any kind, nor shall any licensee be subject to liability, civil or criminal, in any State or Federal court for material so broadcast under the provisions of this section, nor shall any license be revoked or renewal refused because of material so broadcast."

RADIO TIME ALLOTMENT
H. R. 3039
IN THE HOUSE OF REPRESENTATIVES
JANUARY 14, 1937
Mr. Scott introduced the following bill; which was referred to the Committee on Interstate and Foreign Commerce and ordered to be printed

A BILL
To amend section 315 of the Communications Act of 1934.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 315 of the Communications Act of 1934 be, and hereby is, amended by adding a new paragraph to read as follows:

"Sec. 315. Each licensee of a radio broadcasting station shall be required to set aside regular and definite periods at desirable times of the day and evening for uncensored discussion on a nonprofit basis of public, social, political, and economic problems, and for educational purposes. When any such licensee permits any speaker on any controversial, social, political, or economic issue to use its facilities during any such period, it shall afford to at least one exponent or advocate of each opposing viewpoint equivalent facilities. The licensing authority shall without any delay make rules and regulations to carry this provision into effect, and in proceeding hereunder it shall appoint and, in its discretion, act upon the recommendations of an advisory committee consisting of disinterested, representative citizens: Provided, That the licensing authority, the advisory committee, and licensees shall have no power of censorship of any kind, nor shall any licensee be subject to liability, civil or criminal, in any State or Federal court for material so broadcast under the provisions of this section, nor shall any license be revoked or renewal refused because of material so broadcast."

CULKIN RADIO ADVERTISING BILL
H. R. 3140
IN THE HOUSE OF REPRESENTATIVES
JANUARY 14, 1937
M. Culkin introduced the following bill; which was referred to the Committee on Interstate and Foreign Commerce and ordered to be printed

A BILL
To prohibit the advertising of alcoholic beverages by radio, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 16 of the Act entitled "Communications Act of 1934", approved June 19, 1934, be amended by adding a new paragraph to read as follows:

"No person shall broadcast by means of any radio station for which license is required by any law of the United States or permit any advertisement of, or information concerning, any alcoholic beverage, whether beer, ale, wine, gin, whisky, or brandy, or called by any other name. Any person convicted of violating this section shall be fined not more than $1,000 nor less than $500 or imprisoned not more than one year or less than three months, or both, for each day during which the offense occurs."

COMMISSION APPROVES THREE NEW STATIONS

The Federal Communications Commission this week approved three new broadcasting stations. It granted a construction permit for a new station at Corpus Christi, Texas, to the Gulf Coast Broadcasting Company, to use 1330 kilocycles, 250 watts night, 500 watts day, and unlimited time.

Also, the Commission granted a construction permit to C. A. Rowley to erect a new station at Ashtabula, Ohio, to use 940 kilocycles, 250 watts power, and daytime operation.

The Southwest Broadcasting Company was granted a construction permit for the erection of a new station at La Junta, Colo., to use 1370 kilocycles, 100 watts, and unlimited time on the air.

RECOMMENDS NEW TEXAS STATION

The Dallas Broadcasting Company has filed an application with the Federal Communications Commission asking for a construction permit for the erection of a new broadcasting station at Dallas, Texas.

Examiner George H. Hill, in Report No. I-341, recommended that the application be granted “subject to the selection of an approved transmitter site.”

The Examiner states that there is a need for additional radio service in the area proposed to be served and “there appears to be adequate local talent to supply the requirements of the proposed station.” He states also that the operation of the proposed station would not cause objectionable interference to any existing station.

NEW CALIFORNIA RADIO BILL

A bill has been introduced in the State Legislature of California by Mr. Patterson, a member, for the construction of two broadcasting stations by the University of California. It has been referred to the Committee on Universities and is as follows:

“The people of the State of California do enact as follows:

“Section 1. The sum of $500,000, or so much thereof as may be necessary, is hereby appropriated out of any moneys in the State treasury not otherwise appropriated to be expended by the regents of the University of California, to provide adequate radio broadcasting facilities for the extension division of the University of California.”

“Sec. 2. Out of said appropriation there shall be erected and maintained on the campus of the University of California at Berkeley a 50,000-watt radio broadcast station, and a like station on the campus of the University of California at Los Angeles.

“Sec. 3. The operation of said stations shall be under the superintendence of the Division of Education, and shall be relinquished, by the regents, to the State of California, and shall be operated by the University of California, to provide adequate radio broadcasting facilities for the extension division of the University of California.”

INCREASED POWER RECOMMENDED FOR WGBI

Broadcasting Station WGBI, Scranton, Pa., applied to the Federal Communications Commission to increase its power from 500 watts to 500 watts nighttime and 1,000 watts until local sunset. The station now operates on 880 kilocycles, sharing time with WQAN.

Examiner John P. Bramhall, in Report No. I-342, recommended that the application be granted. He found that there is need for additional daytime service in the area proposed to be served. He found also that the power increase would be in the public interest.

RECOMMENDS MORE TIME FOR KHSL

Broadcasting Station KHSL, Chico, Calif., applied to the Federal Communications Commission for a change in frequency from 950 to 1260 kilocycles, and to change its time from daytime to unlimited. It does not request a change in its 250 watts power.

Examiner R. H. Hyde, in Report No. I-340, recommended that the application be granted. He found that there is need in the area proposed to be served for nighttime service and that such service on the frequency requested would not cause objectionable interference. He states that in his opinion the granting of the application would be in the public interest.

A. T. & T. SUBSIDIARIES’ NEW TARIFFS AFFECT LOCAL BROADCASTING

Each associate company of the A. T. & T. has filed a rate schedule with the FCC which is substantially a duplication of the A. T. & T. line charge rate schedule filed with the Commission in September and printed in full in the NAB REPORTS, Vol. 4, No. 45, September 24, 1936. The earlier schedules filed by subsidiary companies became effective December 1, 1936, and the last to be filed went into effect on January 15, 1937. In addition to the various services listed in the A. T. & T. tariffs, schedules of the subsidiary companies provide for a local rate termed Schedule F as follows:

Schedule F.

A—Local Channel
1. Installation charge
a. For selecting and connecting for all local channels at one time between the same points $10.00
b. Block or drop wiring if not in place, per terminal $  7.50
c. For inside wiring when required between drop and broadcasting station or speech input equipment, the charges will be based on the costs incurred.

2. Mileage per channel per one-quarter route mile, per month $  .75

Minimum charge per channel, per month 2.50

B—Equalization Charge
The charge for equalization will be based upon the work incurred.

Definition of the services offered by the various schedules are listed by the A. T. & T. as follows:

Schedule A provides for the continuous use of program transmission facilities with special operation and supervision, for the high quality transmission of music and speech. This schedule covers the provision of interchange channel facilities and services, including receiving and transmitting connections.

Schedule B provides for the occasional use of program transmission facilities with special operation and supervision, for the high quality transmission of music and speech. This schedule covers the provision of interchange channel facilities and services, including receiving and transmitting connections.
Schedule C provides for the continuous use of program transmission facilities, without special operation and supervision, for the maximum quality transmission of music and speech. Transmission limitations permit the use of these facilities only over limited distances. This schedule covers the provision of interexchange channel facilities and services, including bridging connections.

Schedule D provides for the occasional use of program transmission facilities, without special operation and supervision, for the medium quality transmission of music and speech. Transmission limitations permit the use of these facilities only over limited distances. This schedule covers the provision of interexchange channel facilities and services including bridging connections.

Schedule E provides for program transmission facilities within a program transmission area between stations, or between stations and the point of connection with interexchange channels.

Studio-transmitter channels—Program transmission channels for use between the studio and radio station transmitter are not provided under the above schedules. The requirements of such facilities vary widely as between cases, and the channels are provided on a basis to meet the particular requirement of each case.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

Chambers allegedly advertises that he is “One of the largest undertakers in the country, having 61 assistants, 100 hearses, 215 cars, seven chapels, fourteen parlors.” According to the complaint, he is not one of the largest undertakers in the world, does not employ 40 persons of the type susceptible of classification as undertakers, assistant undertakers or assistant funeral directors, and does not own or operate the number of cars, chapels or parlors advertised.

Among other representations allegedly made by the respondent Chambers, which the complaint charges are false and misleading, are the following:

That the services, cars, hearse and other facilities he furnishes in connection with the sale of a casket are free, that he renders a $500 service with every funeral; that his customers receive a $500 or $300 funeral for $265 or $165, respectively; that the steel vault he sells for $35 is worth $150 and is air-sealed, water-proof and air-tight; that it answers the purpose of a $5,000 mausoleum, and is the finest metal burial vault which can be obtained.

No. 3037. A complaint has been served upon Civil Employees Training, Inc., Ninth and Chester Sts., Cleveland, and its officers, alleging use of unfair methods of competition in connection with the sale of correspondence courses of instruction to prepare students for examinations for positions under the United States Civil Service.

The respondent corporation is said to falsely represent through advertisements that it is an agency of the government or connected with the Civil Service Commission, that its salesmen are in the employ of the government; that a person must take its course of study in order to obtain a government position; that a student will receive a government appointment as soon as the course is completed or within a reasonably short time thereafter; and that Civil Service examinations will be held at definite times stated for the positions desired.

No. 3038. Alleging unfair competition in the sale of poultry, a complaint has been issued against Allen Poultry Farm and Hatchery, Creson, Iowa, charging violation of Section 5 of the Federal Trade Commission Act.

Selling baby chicks in interstate commerce, the respondent company is alleged to have advertised that, because of its large hatching capacity, it assures prompt delivery, that it guarantees live delivery of the number of chicks ordered, and that they will be true to type and produced from flocks “blood tested” and called for disqualifications.

Stipulations and Orders

The Commission has issued the following cease and desist orders and stipulations:

No. 2967. Representations that “Alvita Tea” is a competent cure or remedy in the treatment of any disease or malady are prohibited under an order to cease and desist entered against California Alfalfa Products Company and Glenn B. Willis, trading as Alvita Products Company, 2573 Biers St., Pasadena, Calif.

The principal ingredient of the product is alfalfa which, according to the findings, has no beneficial therapeutic value or effect.

Among the representations specifically banned in advertising matter are that use of “Alvita Tea” will build up vitality, aid digestion, supply nutritional deficiencies, increase the appetite, and cause the user to become strong and robust. Also prohibited is the assertion that the product stands at the head of the vegetable list in internal and vital activity.

No. 2406. Radalam Company, of Detroit, has been ordered to cease and desist from certain misrepresentations in the sale of its product, “Marmola,” advertised as a weight-reducing preparation.

Such misrepresentations are held to constitute an unfair method of competition in violation of Section 5 of the Federal Trade Commission Act.

Containing as its active ingredient desiccated thyroid made from the thyroid glands of certain food animals, Marmola is said to have been advertised in a manner implying that thyroid deficiency is a common or the usual cause of obesity or excess fat and that, if a person is over-weight, it is necessarily an indication of thyroid deficiency and that thyroid should be taken for reducing.

The respondent company is directed to cease asserting that thyroid deficiency is a common or the usual cause of obesity or excess fat or that, if a person is over-weight, it is necessarily an indication of thyroid deficiency and that thyroid should be taken for reducing.

The respondent corporation is said to falsely represent through advertisements that Marmola and its thyroid ingredient and also directs the Radalam Company, of Detroit, to cease and desist from certain misrepresentations in the sale of its product.

No. 2067. Representations that “Marmola” is the proper treatment only in cases of actual deficiency of thyroid gland secretion; that in cases of thyroid deficiency the secretion of the thyroid gland is too low or is wanting; that thyroid deficiency is a common or the usual cause of obesity or excess fat; that cases of actual deficiency of thyroid gland secretion; that in cases of excess fat not caused by thyroid deficiency, thyroid is not usually indicated as a proper treatment, and its use in such cases is apt to be and frequently is harmful to the user's health.

The respondent company is also directed to stop asserting that it makes a full and complete disclosure of the properties and effects of Marmola or its ingredients, unless and until it does in fact make such disclosure, including the following: That desiccated thyroid is a powerful and dangerous drug or product when used internally for reducing purposes, attacking and oxidizing or burning not only fatty tissue, but all bodily tissues; that cases of abnormal excess fat caused by deficiency of the secretions of the thyroid gland are rare and exceptional; that physicians prescribe and recommend use of thyroid for treating obesity only in cases of actual deficiency of thyroid gland secretion; that in cases of excess fat not caused by thyroid deficiency, thyroid is not usually indicated as a proper treatment, and its use in such cases is apt to be and frequently is harmful to the user's health.

The respondent company is also directed to stop asserting that it makes full disclosure of Marmola's properties and effects, unless it also makes known that many persons are so constituted that they may not be harmed by thyroid or that the bodily conditions, defects and abnormalities render the use of Marmola or its ingredients unwise or dangerous.
through examination by a competent physician, often to be supplemented by experimental use of the product under medical advice and observation; that Marmola or dessicated thyroid for reducing purposes cannot be used generally for self-medication without possibility of harmful results and that when employed by a person having a deficiency in thyroid gland secretion, dessicated thyroid does not feed or stimulate the thyroid gland, materially increase its activity, tend to restore it to normal condition or thereby tend to remove the cause of obesity or abnormal excess fat, but merely acts as a supplement to secretion supplied by the thyroid gland.

Findings are that Marmola is in competition with all reducing preparations, including the "patent medicine" type and pharmaceutical preparations bought by consumers on their own initiative or on a physician's prescription. Such competing products are said to include various laxative salts, preparations for lessening consumption of fat-producing foods and also books of instruction on diet and exercise for reduction of weight. The findings list 26 competing products.

No. 2488. Consolidated Distillers Corporation, 38 South Calvert St., Baltimore, Md., has been ordered to cease representing through use of the word "Distillers" in its corporate name, or otherwise, that it is a distiller of whiskies, gins, or any other spirituous beverages; that it manufactures such products through the process of distillation, or that it owns or operates a distillery, unless and until it does own or operate such a plant.

No. 2716. Under an order to cease and desist, Neet, Inc., 4316 North Kilpatrick Ave., Chicago, is directed to discontinue unfair trade representations in the sale of a depletory advertised as "Neet.

Among representations to be discontinued are that the preparation is not caustic, that its use discourages the growth of hair and delays its appearance for a material length of time, and that the hair is much slower in returning and regrowing than when it is shaved. These prohibitions are qualified in the order, the findings showing that the product, while not generally caustic, might have a caustic effect under certain conditions, and that the hair may be delayed in reappearing above the skin surface to the extent that the product penetrates below the skin surface in dissolving the hair stalk.

No. 2892. The I. T. S. Company, 135 Maple St., Elyria, Ohio, and the National Federation of Master Shoe Rebuilders, 1124 Chester Ave., Cleveland, have been ordered to discontinue combining and cooperating to close natural channels of trade to manufacturers and wholesalers of rubber heels and soles who sell to the five-and-ten cent stores. The respondents' activities were found to have resulted in undue restraint of trade in the rubber heel and sole business.

No. 2833. An order to cease and desist has been entered against F. L. McWethy, 129 Michigan Ave., Marshall, Mich., prohibiting him from representing in advertising matter or in radio broadcasts that "McWethy's Home Treatment," which he sells in interstate commerce, is an effective remedy or a cure for bladder, prostatic, kidney or bowel troubles, and that it reaches all of the underlying causes of such ailments.

Other representations ordered discontinued are that the respondent's preparation will have a beneficial effect upon an acut or chronic condition of the blood causing bladder irritations, and that delay in taking the medicine may make it too late for one to treat a bladder ailment effectively.

No. 2922. An order to cease and desist has been issued against Group Sales Corporation, 215 West 39th St., New York City, requiring that company to discontinue certain unfair trade representations in the sale of silks, acetates and rayon piece goods in interstate commerce. The respondent company is a jobber and wholesaler.

The order bars representation that certain products it sells are the products of well and favorably known and extensively advertised silk, acetate and rayon manufacturers, when such products are not actually made by such manufacturers. It prohibits use of the names of manufacturers of silk, acetate and rayon as the makers of any of the respondent company's products not actually made by such manufacturers.

FEDERAL TRADE COMMISSION CLOSES CASES

The Federal Trade Commission has announced the dismissal and closing of the following cases:

Nos. 2457-2523-2703 and 2723. Orders have been entered closing without prejudice four cases against wine dealers who had been charged in complaints issued by the Commission with misbranding and false advertising in connection with the sale of their products.

The cases were closed, according to the orders, because the subject matter of the complaints is covered by Regulations No. 4, relating to labeling and advertising of wine, which became effective December 15, 1936, pursuant to the Federal Alcohol Administration Act of August 29, 1935.

Respondents in the cases closed are:

Wines of France, Ltd., 119 West 57th St., New York City, and its agent, International Champagne Corporation, 629 Grove St., Jersey City, N. J. Joseph Della Monica, trading as Delmonico's, 182 Fifteenth St., Brooklyn; Wente Brothers, Livermore, Calif., and Shewan-Jones, Inc., 85 Second St., San Francisco.

No. 2358. The Commission also dismissed a complaint charging Strutwear Knitting Co., 1015 South Sixth St., Minneapolis, with unfair methods of competition in the sale of women's hosiery.

FEDERAL COMMUNICATIONS COMMISSION

HEARING CALENDAR

The following broadcast hearings are scheduled at the Commission for the week beginning Monday, February 1:

Monday, February 1

HEARING BEFORE AN EXAMINER

(Broadcast)

NEW—Northwestern Publishing Co., Danville, Ill.—C. P., 1500 kc., 250 watts, daytime.
NEW—Curtis Radiocasting Corp., Indianapolis, Ind.—C. P., 1500 kc., 100 watts, 250 watts LS, specified hours.

Tuesday, February 2

HEARING BEFORE AN EXAMINER

(Broadcast)

WMEX—The Northern Corporation, Boston, Mass.—C. P., 1470 kc., 5 KW, unlimited time.

Wednesday, February 3

HEARING BEFORE AN EXAMINER

(Broadcast)

WCAE—WCAE, Inc., Pittsburgh, Pa.—Renewal of license (and auxiliary), 1220 kc., 1 KW, 5 KW LS; auxiliary, 1 KW day and night, unlimited time.

Thursday, February 4

ORAL ARGUMENT BEFORE THE BROADCAST DIVISION

Examiner's Report No. I-306:

WKZO—WKZO, Inc., Kalamazoo, Mich.—C. P., 590 kc., 250 watts, 1 KW LS, unlimited time.

Examiner's Report No. I-307:

Friday, February 5

HEARING BEFORE AN EXAMINER (Broadcast)

NEW—Radio Enterprises, partnership of R. Lacy and J. R. Curtis, Lufkin, Tex.—C. P., 1310 kc., 100 watts, daytime.

APPLICATIONS GRANTED

KRE—Central California Broadcasters, Inc., Berkeley, Calif.—Granted C. P. for approval of transmitter at E. Shore Highway and studio at 2337 Shattuck Ave.; install new equipment and vertical radiator.

WMPN—Atalla Broadcasting Corp., Grenada, Miss.—Granted modification of C. P. extending completion date to 4-28-37.

KJFB—Marshall Electric Co., Inc., Marshalltown, Iowa.—Granted modification of C. P. as modified extending commencement date to 1-18-37 and completion date to 3-18-37.

KSUB—Johnson & Perry, Cedar City, Utah.—Granted modification of C. P. of C. P. approving transmitter at W. 2nd South, and studio at El Escalante Hotel, and install vertical radiator.

KOV—Salt River Valley Broadcasting Co., Phoenix, Ariz.—Granted modification of C. P. to install new equipment.

WFIL—WFIL Broadcasting Co., Philadelphia, Pa.—Granted modification of C. P. to extend commencement date to 3-1-37 and completion date to 8-31-37.

WXEL—Royal Oak Broadcasting Co., Royal Oak, Mich.—Granted license to cover C. P., 1310 kc., 50 watts, unlimited time.

WAAB—Bay State Broadcasting Co., Boston, Mass.—Granted license to cover C. P., 680 kc., 1/2 kW, daytime only.

WALR—WALR Broadcasting Corp., Zanesville, Ohio.—Granted license to cover C. P., 1210 kc., 100 watts, unlimited time.

WEOA—Evansville on the Air, Inc., Evansville, Ind.—Granted license to cover C. P., 1370 kc., 100 watts night, 250 watts day, unlimited time.

WTAR—WTAR Radio Corp., Norfolk, Va.—Granted license to cover C. P., 780 kc., 500 watts night, 1 kW day, for emergency purposes only.

WWAAB—Bay State Broadcasting Corp., Boston, Mass.—Granted license to cover C. P., 1410 kc., 500 watts, unlimited time.

WGH—Hampton Roads Broadcasting Corp., Newport News, Va.—Granted license to cover C. P., 1310 kc., 100 watts night, 250 watts day, unlimited time.

WNAG—Shepard Broadcasting Service, Inc., Boston, Mass.—Granted modification of license to change name from Shepard Broadcasting Service, Inc., to The Yankee Network, Inc.

WEAN—Shepard Broadcasting Service, Inc., Providence, R. I.—Granted modification of license to change name from Shepard Broadcasting Service, Inc., to The Yankee Network, Inc.

WKRC—Columbia Broadcasting System, Inc., Cincinnati, Ohio.—Granted extension of special experimental authority to operate with 1 kW for the period March 1 to Sept. 1, 1937.

KFAB—KFAB Broadcasting Co., Lincoln, Neb.—Granted extension of special experimental authority to operate synchronously with WBBM, Chicago, from local sunset at Lincoln to 12 midnight, CST, for the period Feb. 1, to Aug. 1, 1937.

WBBM—Columbia Broadcasting System, Inc., Chicago, Ill.—Granted extension of special experimental authority to operate synchronously with KFAB, Lincoln, from local sunset at Lincoln to 12 midnight, for the period Feb. 1, to Aug. 1, 1937.

KRM—Robert MacNab Co., Jamestown, N. Dak.—Granted modification of C. P. approving transmitter site at 1 mile from center of city, on U. S. Highway No. 10, Jamestown, N. Dak.; installation of new equipment and vertical radiator, and increase in day power from 100 watts to 250 watts; 1310 kc., 100 watts night, simultaneous day, share KVOX night.

WICC—Southern Connecticut Broadcasting Corp., Bridgeport, Conn.—Granted voluntary assignment of license to The Yankee Network, Inc.

WAAB—Bay State Broadcasting Corp., Boston, Mass.—Granted voluntary assignment of license to The Yankee Network, Inc.

KFPL—B. C. Baxter, Dublin, Tex.—Granted license to cover C. P. as modified; 1310 kc., 100 watts night, 250 watts day, unlimited.

WWL—Loyola University, New Orleans, La.—Granted extension of special experimental authority to operate unlimited time on 850 kc., with 1 KW, for period Feb. 1, to Aug. 1, 1937.

KDAl—Red River Broadcasting Co., Inc., Duluth, Minn.—Granted license extended for period of 3 months.

WWL—Loyola University, New Orleans, La.—Granted extension of present license for period of 2 months.

WIOD-WMBF—Isle of Dreams Broadcasting Corp., Miami, Fla.—Granted renewal of license for the period Nov. 1, 1936, to May 1, 1937.

WIOX—WIOXCH-WIOXED-WIOXV—National Broadcasting Co., Inc., Mobile.—Granted C. P. for changes in equipment and increase in power from 15 to 25 watts.

W2XK—Columbia Broadcasting System, Inc., New York City.—Granted modification of C. P. extending completion date to 4-28-37.

SET FOR HEARING

WCHS—Charleston Broadcasting Co., Charleston, W. Va.—C. P. to install vertical radiator at present site; increase night power from 500 watts to 1 KW (380 kc., 1 KW, day, unlimited).

KLEM—Redwood Broadcasting Co., Inc., Eureka, Calif.—C. P. to install new equipment and increase power from 500 watts to 1 KW.

KRE—Central California Broadcasters, Inc., Berkeley, Calif.—C. P. to move transmitter to East Shore Highway and studio to 2337 Shattuck Ave. (locally); install new equipment and vertical radiator; change frequency from 1370 kc. to 1440 kc.; increase power from 100 watts night, 250 watts day, unlimited, to 1 KW, unlimited.

WSB—Atlanta Journal Co., Atlanta, Ga.—C. P. to install new equipment and vertical radiator at present transmitter location; increase power from 50 to 500 KW to 500 KW. To be heard before the Broadcast Division.

WHIS—Daily Teleg. Printing Co., Bluefield, W. Va.—Modification of license to increase night power from 500 watts to 1 KW.

WKB—WKBH, Inc., La Crosse, Wis.—Application for renewal of license for the period Nov. 1-11-36 to 5-1-37; 1380 kc., 1 KW, unlimited.

WSVS—Elmer S. Pierce, Principal, Seneca Vocational High School, Buffalo, N. Y.—Application for renewal of license for period 11-1-37 to 2-3-37; 1370 kc., 50 watts day—8:30 a.m. to 10 a.m.; 2 to 3 p.m.

WSAJ—Grove City College, Grove City, Pa.—Application for renewal of license for the period 11-1-36 to 6-1-37; 1310 kc., 100 watts, limited time, Sunday, 4:30 to 5:30 p.m.; two days each week, 7 to 10:30 p.m., EST.

APPLICATIONS DISMISSED

The following applications, heretofore set for hearing, were dismissed at request of applicants:

NEW—Abraham Plotkin, Chicago, Ill.—C. P., 1600 kc., 100 watts, 250 watts LS, unlimited.

SPECIAL TEMPORARY AUTHORIZATIONS

WJAG—The Norfolk Daily News, Norfolk, Neb.—Granted extension of special temporary authority to operate 1060 kc., with power of 1 KW and limited time, for the period beginning 3 a.m., EST, Feb. 1, 1937, and ending in no event later than 3 a.m., EST, Aug. 1, 1937.
KWJJ—KWJJ Broadcast Co., Inc., Portland, Ore.—Granted extension of special temporary authority to operate on 1040 kc., limited time, and resume operation from 9 p. m. to 3 a. m., PST, for the period beginning 3 a. m., EST, Feb. 1, 1937, and ending in no event later than 3 a. m., EST, Aug. 1, 1937.

KTEM—Bell Broadcasting Co., Temple, Tex.—Granted special temporary authority to conduct broadcast after stations KFJZ, KONO and KMAC have signed off, in connection with WHAS Louisville flood relief work, for a period from 12 midnight to 6 a. m., CST, Jan. 26 and 27, 1937.

WMAZ—Southeastern Broadcasting Co., Inc., Macon, Ga.—Granted special temporary authority to operate from 7:15 p.m. to 12 midnight, Jan. 30, 1937, in order to broadcast the President's Birthday Ball.

KPRO—Voice of Longview, Longview, Tex.—Granted special temporary authority to conduct broadcast after station KJUZ from 6:30 p.m. until 9 p.m., until 9 p.m., CST, on Sundays, Feb. 7, 14, 21 and 28, 1937, in order to broadcast services of the Kelly Memorial Methodist Church of Longview.

WJEF—Hagerstown Broadcasting Co., Hagerstown, Md.—Granted extension of special temporary authority to operate with power of 30 watts from local sunset (5:45 p.m.) to 11 p.m., EST, on Tuesdays, Thursdays, Saturdays and Sundays, during the month of Feb. 1937, pending compliance with Rule 131 on modification of license application requesting this authority.

WSYB—Philip Weiss, t/a Philip Weiss Music Co., Rutland, Vt.—Granted special temporary authority to operate from 9 a.m. to 10 a.m., EST, for period beginning Feb. 1, 1937, and ending in no event later than Feb. 27, 1937, in order to broadcast the Rutland County Community programs.

WCAX—Burlington Daily News, Inc., Burlington, Vt.—Granted special temporary authority to operate from 8 p.m. to 10:30 p.m., EST, Feb. 2, 6, 13; from 10 p.m. to 10:30 p.m., EST, Feb. 5, 12, 19, 26; and from 7 p.m. to 10:30 p.m., EST, Feb. 22, 1937, in order to broadcast University and High School basketball games.

WTIC—The Travelers Broadcasting Service Corp., Hartford, Conn.—Granted extension of special temporary authority to operate simultaneously with KRLD on frequency of 1040 kc., with 50 KW power for period ending Aug. 1, 1937.

KTHS—Hot Springs Chamber of Commerce, Hot Springs National Park, Ark.—Granted extension of special experimental authority to operate on 1060 kc., with 10 KW power, simultaneously with WBAL, from 6 a.m. to LS, sharing after sunset (KTHS operates unlimited 8 p.m. to midnight), for the period beginning Jan. 24, 1937, to sunset at Hot Springs, Ark., with 1 KW power to period ending Aug. 1, 1937.

KRLL—KRLD Radio Corp., Dallas, Texas.—Granted extension of special temporary authority to operate simultaneously with WTIC, Hartford, Conn., for the period ending Aug. 1, 1937.

WESG—Cornell University, Ithaca, N. Y.—Granted extension of special temporary authority to operate on 850 kc., daylight to sunset at New Orleans, La., with 1 KW power to period ending Aug. 1, 1937.

WBAL—The WBAL Broadcasting Co., Baltimore, Md.—Granted extension of special temporary authority to operate on 1040 kc., with 10 KW power, simultaneously with KTHS from 6 a.m. to sunset at Hot Springs, Ark., and from sunset at KTHS to 9 p.m., EST, unlimited time, and synchronously with WJZ on 760 kc., with 250 KW power, from 9 p.m., EST, to midnight operating directional antenna system for the period ending Aug. 1, 1937.

RATIFICATIONS

WEOA—Evansville on the Air, Inc., Evansville, Ind.—Granted extension program test period 30 days from January 19, 1937.

WABC—Memphis Commercial Appeal, Inc., Memphis, Tenn.—Granted authority to operate as licensed period 10 days beginning 1-21, for emergency use in connection with flood in vicinity Kennet, Mo.

W8XFM-W8XPU-W8XIK—The Crosley Radio Corp., Cincinnati, Ohio.—Granted authority to operate as licensed for period of 10 days beginning Jan. 18, for emergency use in cooperation with local authorities in connection with Ohio River floods.

W8XIR—W8GAR Broadcasting Co., Cleveland, Ohio.—Granted authority to operate as licensed for an additional period of 30 days beginning January 17 to February 17, relay broadcast interviews with school children.

W9XLC—Racine Broadcasting Corp., Racine, Wisc.—Granted authority to operate as licensed on January 31, relay broadcast local ski jump.

Radio Station WAPY, Portsmouth, Ohio.—Granted authority to operate emergency transmitter 1370 kc., 75 watts for general communication purposes and public service in event main transmitter becomes inoperative, for a period not to exceed 3 days.

KFJZ, KONO and KMAC have signed off, in connection with NBC "Flying Time" program in Chicago, Ill.

The Broadcast Division granted the petition of Indianapolis Power and Light Company (WFBM), Indianapolis, Ind., to intervene in the proceedings on the application of Curtis Radiocasting Corp., for construction permit for new station in Indianapolis, Ind., Docket No. 4323.

The Broadcast Division granted the petition of Twin City Broadcasting Co., Inc., to intervene in the proceedings upon the application of James D. Scannell, for construction permit for new station at Lexington, Ky., Docket No. 4251.

The Broadcast Division granted the petition of the Birmingham Broadcasting Co., Inc. (WBRC), to intervene in the proceedings upon the application of the Birmingham News Company for Construction Permit, File No. B3-P-997, Docket No. 3975, for new station at Birmingham, Alabama.

The Broadcast Division granted the petitions of Curtis Radiocasting Corp., waived Rule 104.6 (b), and accepted its answer in connection with the applications of Knox Radio Corp., Richmond, Ind. (Docket No. 4247), and the Northwestern Publishing Co., Danville, Ill. Docket No. 4177.

The Broadcast Division upon consideration of a petition filed in behalf of the Montgomery Broadcasting Co., respondent, directed that all parties involved in the proceeding relative to the Allen and Covington application (John S. Allen and G. W. Covington, Jr., Montgomery, Alabama), Docket No. 3982, be given until Monday, January 25, 1937, to file exceptions to Examiners Report No. I-324.
ACTION ON EXAMINERS' REPORTS

Denied. C. P. for new broadcast station to operate on 1800 kc., 100 watts, specified hours (site to be determined subject to Commission's approval). Examiner George H. Hill sustained. Order effective March 9, 1937.

NEW—Ex. Rep. 1-272: Gulf Coast Broadcasting Co., Corpus Christi, Tex.—
Granted C. P. for new broadcast station to operate on 1230 kc., 250 watts, daytime (site to be determined subject to Commission's approval). Examiner John P. Bramhall sustained. Order effective March 2, 1937.

Granted C. P. for new broadcast station to operate on 940 kc., 250 watts, daytime (site to be determined subject to Commission's approval). Examiner George H. Hill sustained. Order effective March 2, 1937.

NEW—Ex. Rep. 1-252: Maddox & Hair, d/b as Chattanooga WPHR—WLBG, Inc., Petersburg, Va.—
Effective date extended on a temporary basis only to 3 a.m., EST, Feb. 1, 1937, pending receipt and/or action on renewal application.

KFG—Okahoma Broadcasting Co., Inc., Oklahoma City, Okla.—
Present license extended on a temporary basis only for the period Feb. 1 to March 1, 1937, to subject to such action as may be taken on pending application for renewal.

The following stations were granted renewal of television (exp.) station licenses for the period Feb. 1, 1937, to Feb. 1, 1938, in exact conformity with existing licenses:

The following applications for renewal of broadcast station licenses were granted for the regular period:

KFI and auxiliary, Los Angeles, Calif.; KFVD, Los Angeles, Calif.; KGDM, Stockton, Calif.; KGU, Honolulu, Hawaii; KIRO, Seattle, Wash.; KNX, Los Angeles, Calif.; WEVD, St. Louis, Mo.; WGY, Schenectady, N. Y., and auxiliary; WIBG, Glenisle, Pa.; WJZ, New York, N. Y.; WOR, New York, N. Y.; WSM, Nashville, Tenn.

The Commission granted renewal of the following licenses on a temporary basis only for the term beginning 3 a.m., EST, Feb. 1, 1937, and ending 3 a.m., EST, Aug. 1, 1937, temporary licenses to contain the following clause: "This license is granted on a temporary basis only and subject to such action as the Commission may take upon the licensee's pending application for renewal of license. No authority herein contained shall be construed as a finding by the Commission that the operation of this station is, or will be in the public interest beyond the express terms hereof";

KWJ, Portland, Ore.; WESG, Elmhira, N. Y.; and WJAG, Norfolk, Nebr.

The Commission granted applications for renewal of the following licenses for the period ending 3 a.m., EST, July 1, 1937:

KCMC, Texarkana, Ark.; KUMA, Yuma, Ariz.; and WMSD, Sheffield, Ala.

The Commission granted applications for renewal of license of the following for period ending 3 a.m., EST, June 1, 1937:

KVSO, Ardmore, Okla.; WTAL, Tallahassee, Fla.

The Commission granted an extension of the following licenses expiring 3 a.m., EST, Feb. 1, 1937, upon a temporary basis only for the period ending in no event later than 3 a.m., EST, March 1, 1937, pending receipt and/or action on application for renewal of license:

WJZ auxiliary, New York, N. Y.; and WSM auxiliary, Nashville, Tenn.

The Commission directed that the licenses of the following station expiring 3 a.m., EST, Jan. 1, 1937, and extending upon a temporary basis only to 3 a.m., EST, February 1, 1937, be further extended upon a temporary basis only for period ending in no event later than 3 a.m., EST, March 1, 1937, pending receipt and/or action on application for renewal of license:

WPRP, Ponce, Puerto Rico; and WRDO, Augusta, Me.

APPLICATIONS RECEIVED

First Zone

WJZ—National Broadcasting Co., Inc., New York, N. Y.—Modification of license to reduce operating power of auxiliary transmitter from 30 KW to 25 KW.
WEAN—Shepard Broadcasting Service, Inc., Providence, R. I.—
780 Construction permit to make changes in equipment and increase power from 1 KW to 1 KW night and 5 KW day.

WORL—Broadcasting Service Organization, Inc., Boston, Mass.—
920 Construction permit to install directional antenna day and night use, increase power from 500 watts to 1 KW and hours of operation from daytime to unlimited.
Amended: To change transmitter site from Great Plain Ave., Babson Park, Needham, Massachusetts, to New Belmont, Cambridge, Massachusetts, and use directional antenna at night.

WESG—Cornell University, Ithaca, N. Y.—Extension of special second Zone
1440 Expended authority to operate on 850 kc., daylight to sunset at New Orleans, Louisiana, for period 2-1-37 to 8-1-37.

NEW—Press-Union Publishing Co., Atlantic City, N. J.—Construction permit for a new station to be operated on 1200 kc., 100 watts, daytime.

WFBR—The Baltimore Radio Show, Inc., Baltimore, Md.—Construction permit to install new transmitter and directional antenna for day and night use, increase power from 500 watts night, 1 KW day to 5 KW day and night, and move transmitter locally.

WDRC—WDRC, Inc., Hartford, Conn.—Special experimental authority to erect a “booster” station at New Haven, Connecticut, site to be determined, to be operated on 1330 kc., 250 watts power, to synchronize with WDRC at Hartford for connection purposes. Permit from 3-1-37 to 11-1-37.

National Broadcasting Co., Inc., New York, N. Y.—Extension of authority to transmit recorded programs to all broadcast stations in Canada licensed to operate by the Canadian Government, which may be heard consistently in the United States.

WIXER—Shepard Broadcasting Service, Inc., Quincy, Mass.—Modification of license to change corporate name of Shepard Broadcasting Service, Inc., to The Yankee Network, Inc.

WIXAC—Shepard Broadcasting Service, Inc., Quincy, Mass.—Modification of license to change corporate name of Shepard Broadcasting Service, Inc., to The Yankee Network, Inc.

W10XCT—Shepard Broadcasting Service, Inc., Boston, Mass.—Modification of license to change corporate name of Shepard Broadcasting Service, Inc., to The Yankee Network, Inc.

WBRY—American-Republican, Inc., Waterbury, Conn.—Construction permit to install a new transmitter and increase power from 1 KW to 1 KW, unlimited time.

Second Zone

WJAY—Cleveland Radio Broadcasting Corp., Cleveland, Ohio.
610 Authority to determine operating power by direct measurement of antenna.

WIP—Pennsylvania Broadcasting Co., Philadelphia, Pa.—Extension of special authorization to operate with 1 KW power from 3-1-37 to 9-1-37.

WTAR—WTAR Radio Corporation, Norfolk, Va.—Modification of construction permit (B2-P-1074) for change in power, install directional antenna for night use and move of transmitter, requesting extension of completion date from 3-2-37 to 7-3-37.

WMZN—Monongahela Valley Broadcasting Co., Fairmont, W. Va.—Authority to determine operating power by direct measurement of antenna.

WMN—Monongahela Valley Broadcasting Co., Fairmont, W. Va.—Construction permit to install a new transmitter and increase power from 500 watts, 1 KW daytime to 1 KW night, 5 KW day. Amended: To change name from A. M. Rowe, Inc., to Monongahela Valley Broadcasting Co.

WPEN—Wm. Penn Broadcasting Co., Philadelphia, Pa.—Modification of license to increase operating power from 250 watts nighttime using directional antenna and 500 watts daytime to 1 KW day and night, using directional antenna at night. Amended: To use directional antenna both day and night.

WRAX—WRAX Broadcasting Co., Philadelphia, Pa.—Modification of license to increase operating power from 250 watts night, using directional antenna and 500 watts daytime to 1 KW day and night, using directional antenna at night. Amended: To use directional antenna both day and night.

WWVA—West Virginia Broadcasting Corp., Wheeling, W. Va.—
1160 Authority to determine operating power by direct measurement of antenna.

WSMK—WSMK, Inc., Dayton, Ohio.—Construction permit to install a new transmitter, increase power from 200 watts to 250 watts night, 500 watts day, change hours of operation from simultaneous daytime, specified hours night to unlimited time, move transmitter from Fractional Section No. 8, Twp. 1, Range 7, between Little & Great Miami Rivers (near) Dayton, Ohio, to Town 2, Range 7, MRS. of Madison Twp., Montgomery County, Ohio, and install directional antenna for night use. Amended: To make antenna changes.

WHK—The Radio Air Service Corp., Cleveland, Ohio.—Modification of license to change hours of operation from specified hours to unlimited time. Amended to change frequency from 1330 kc. to 930 kc., power from 500 watts to 250 watts, 500 watts daytime, and specify vertical antenna.

WTAW—Agricultural & Mechanical College of Texas, College Sta.
1120 tion, Tex.—Modification of license to change hours of operation from specified hours to unlimited time.

WMFR—Radio Station WMFR, Inc., High Point, N. C.—Modification of license to change hours of operation from daytime to specified hours (6 a. m. to 7:30 p. m.), using 100 watts power.

KGHI—Arkansas Broadcasting Co., Little Rock, Ark.—License to cover construction permit (B3-P-1545) for move of transmitter and installation of new vertical antenna.

KMLE—Linzer's Broadcasting Station, Inc., Monroe, La.—Authority to make changes in automatic frequency control equipment.

WMFN—Attalla Broadcasting Corp., Grenada, Miss.—Voluntary assignment of construction permit (B3-P-829) from Attalla Broadcasting Corporation to P. K. Ewing.

NEW—Athens Times, Inc., Athens, Ga.—Construction permit for a new station to be operated on 1210 kc., 100 watts, unlimited time.

KUOA—KUOA, Inc., Siloam Springs, Ark.—Modification of license to cover construction permit (B3-P-1545) for move of transmitter and installation of new vertical antenna.

KVOA—KVOA, Inc., Philippine Islands, Arkansas.—Modification of license to change frequency from 1260 kc. to 620 kc., power from 25/2 KW to 5 KW.

KJNO—Hazlewood, Inc., West Palm Beach, Fla.—Construction permit to make changes in equipment and increase power from 100 watts to 250 watts.

KVSO—The Ardmoreite Publishing Co., Ardmore, Okla.—License to cover construction permit (B3-P-771) for change in hours of operation.

NEW—John C. Hughes, Phoenix City, Ala.—Construction permit for a new station to be operated on 1310 kc., 100 watts, unlimited time. Amended to correct the spelling of Phoenix City, Ala., to Phenix City, Ala.

KOCA—Oil Capital Broadcasting Association (James G. Ulmer, 1370 Pres.), Kilgore, Tex.—License to cover construction permit (B3-P-594) as modified for new station.

NEW—Faith Broadcasting Co., Inc., Wichita Falls, Tex.—Construction permit for a new station to be operated on 1380 kc., 1 KW, unlimited time. Amended to make changes in equipment; change power from 1 kw to 1 KW night, 5 KW day; for approval of transmitter site at 4½ miles southwest of Wichita Falls, Tex., and install directional antenna for night use.

KABC—Alamo Broadcasting Co., Inc., San Antonio, Tex.—License to cover construction permit (B3-P-1399) for new transmitter.
Fourth Zone

KFEQ—KFEQ, Inc., St. Joseph, Mo.—Modification of license to change hours of operation from daytime to unlimited time, using 2 1/2 KW power.

KELO—Sioux Falls Broadcast Association, Inc., Sioux Falls, S. Dak.
1200Modification of construction permit (B4-P-596) for a new station, requesting changes in authorized equipment, for approval of transmitter site at 3 miles west of Sioux Falls, S. Dak., and approval of antenna. Also change studio site from Carpenter Hotel, Sioux Falls, S. Dak., to 319 South Phillips Ave., Sioux Falls, S. Dak.

Wcat—South Dakota State School of Mines, Rapid City, S. Dak.
1500—License to cover construction permit (B4-P-1188) for new antenna and move of transmitter and studio.

KANS—Charles C. Theis, Wichita, Kans.—Voluntary assignment of license from Charles C. Theis to The KANS Broadcasting Co.

KOIL—Central States Broadcasting Co., Council Bluffs, Iowa.—Modification of construction permit (B4-P-1192) for changes in equipment.

WLBC—Donald A. Burton, Muncie, Ind.—Modification of license to change hours of operation from simultaneous day, share WTRC night, to unlimited.

WTAQ—WHBY, Inc., Green Bay, Wis.—Modification of license to modify directional antenna.

WGES—Oak Leaves Broadcasting Station, Inc., Chicago, Ill.—Construction permit to make changes in transmitting equipment and move transmitter and studio locally.

KABR—Aberdeen Broadcast Co., Aberdeen, S. Dak.—Construction permit to install a new transmitter, change frequency from 1420 kc. to 1390 kc., and increase power from 100 watts to 1 KW. Amended to change requested power from 1 KW to 500 watts night, 1 KW day; change type of equipment, and install directional antenna for night use.

NEW—Clark Standiford and L. S. Coburn, Fremont, Nebr.—Construction permit for a new station to be operated on 1420 kc., 100 watts, unlimited time.

WMTV—Mississippi Valley Broadcasting Co., Inc., East St. Louis, Ill.—License to cover construction permit (B4-P-1256) as modified for new equipment and increase in power.

Fifth Zone

KSFO—Associated Broadcasters, Inc., San Francisco, Calif.—Construction permit to install a new transmitter and vertical antenna, increase power from 1 KW to 1 KW night, 5 KW day, and move transmitter from 1410 Tenth Ave., Oakland, Calif., to Block 490 So. of Second Street, San Francisco, Calif. Amended: To change name of applicant from Columbia Broadcasting System of California, Inc., to The Associated Broadcasters, Inc.

KYOS—Merced Star Publishing Co., Inc., Merced, Calif.—Modification of license to change frequency from 1040 kc. to 1280 kc., change hours of operation from daytime to unlimited time, using 250 watts. Amended: To change requested frequency from 1280 kc. to 1290 kc.

KJBS—Julius Brunton & Sons Co., San Francisco, Calif.—Modification of license to change frequency from 1070 kc. to 1080 kc.

KRSC—Radio Sales Corporation, Seattle, Wash.—License to cover construction permit (B5-P-956) for changes in equipment, increase in power, change in hours of operation, and move of transmitter.

KFXM—J. C. & E. W. Lee (Lee Brothers Broadcasting Co.), San Bernardino, Calif.—Construction permit to install a new transmitter, erect a vertical antenna, increase power from 100 watts to 100 watts night, 250 watts day, and move transmitter locally.

NEW—Earl A. Nielsen, Phoenix, Ariz.—Construction permit for a new station to be operated on 1210 kc., 100 watts, unlimited time.

KWSC—State College of Washington, Pullman, Wash.—License to cover construction permit (B5-P-556) for changes in equipment and increase in power.

NEW—Roberts-MacNab Co., Arthur L. Roberts, R. B. MacNab, A. J. Breitbach, General Manager, Bozeman, Mont.—Construction permit for a new station to be operated on 1420 kc., 100 watts night, 250 watts day, unlimited time. Amended: To change name from Roberts MacNab Hotel Co. to Roberts-MacNab Co.

KAWM—A. W. Mills, Gallup, New Mex.—Modification of construction permit (B5-P-601) to change authorized transmitter site from West 66 Avenue, Gallup, New Mexico, to 1100 East Aztec Avenue, Gallup, New Mexico and for approval of studio at same site.

NEW—Northwest Research Foundation, Inc., Seattle, Wash.—Construction permit for a special broadcast station to be operated on 1530 kc., 1 KW, unlimited time. Amended: To change from Ward Walker, an individual to Northwest Research Foundation, Inc., a corporation.

NEW—Church of Jesus Christ of Latter Day Saints, Salt Lake County, Utah.—Construction permit for a new international broadcast station to be operated on 6080, 11830, 17780 kc., 50 KW. Amended: To change transmitter location to site to be determined County of Salt Lake, Utah.
WASHINGTON RADIO HIGHLIGHTS

Important happenings in Washington this week of interest to broadcasters include: Bill establishing a government broadcasting station; Bill to investigate chain broadcasting; Bills affecting radio monopoly and operators; Educational Commissioner establishes radio script exchange; Prall praises flood work of broadcasters; Wigglesworth criticizes FCC on House floor; Hearing called on Actor's Bill; FCC Commissioner Stewart issues strong dissent in WOL case; FCC establishes a flood emergency service.

INCREASED TIME RECOMMENDED FOR WNBC

Broadcasting station WNBC, New Britain, Conn., operating on a frequency of 1380 kilocycles applied to the Federal Communications Commission to increase its operation time from daytime to unlimited and to increase its power from 250 watts to 250 watts and 1,000 watts LS.

Examiner Melvin H. Dalberg in Report No. I-350 recommended that the application be granted. He states that there is an obvious need for additional local service in the area proposed to be served. The station proposes to erect a directional antenna and the Examiner states that this would obviate any interference which might otherwise be caused.

RADIO MONOPOLY BILL

Representative Wearin of Iowa has introduced a bill in the House (H. R. 3892) “to amend the Communications Act of 1934 by adding thereto provisions designed to prohibit unified and monopolistic control of broadcasting facilities and printed publications.” The bill has been referred to the House Committee on Interstate and Foreign Commerce and will be found on page 1919 of this issue.

EXAMINER REPORTS ON NEW CALIFORNIA STATION

The Golden Empire Broadcasting Company filed an application with the Federal Communications Commission asking for a construction permit for the erection of a new broadcasting station at Marysville, Calif., to use 1140 kilocycles, 250 watts power and daytime operation.

Examiner George H. Hill in Report No. I-351 recommended that the application be granted if the pending application of the Marysville-Yuba Publishers, Inc., for a similar assignment is denied. The Examiner states that there is a need for the services of a new station at Marysville and that the operation of the proposed new station would not cause any objectionable interference. Both applicants applied for the same facilities.

RADIO SCRIPT EXCHANGE

The Office of Education, Department of Interior, has announced that in order to promote better educational radio programs throughout the country it has established an Educational Radio Script Exchange to furnish local groups radio scripts especially appropriate for educational broadcasting.

RADIO OPERATORS BILL

A bill has been introduced in the House (H. R. 3898) by Representative Lea of California providing for the operation of certain radio stations without a licensed operator. The bill, which has been referred to the House Committee on Interstate and Foreign Commerce, will be found on page 1919 of this issue.

NEW MISSOURI STATION RECOMMENDED

The Hannibal Broadcasting Company filed an application with the Federal Communications Commission for a
construction permit for the erection of a new broadcasting station at Hannibal, Mo., to use 1310 kilocycles, 100 watts and unlimited time on the air. Also the Courier Post Publishing Company filed an application for the erection of a new station at the same place, with the same frequency and time but with 100 watts and 250 watts LS.

Examiner Melvin H. Dalberg in Report No. I-349 recommended that the application of the publishing company be granted and that of the Hannibal Broadcasting Company be denied. The Examiner found that there is a definite need for additional radio service at Hannibal. He states that the Hannibal Company is limited in its financial arrangements and that it does not appear to have a definite operating personnel in prospect. The publishing company, on the other hand, is qualified financially and proposes "to provide well balanced and meritorious programs which would satisfy the needs of the community involved. No objectionable interference would be caused by granting the application, the Examiner states.

**PRALL PRAISES RADIO FLOOD WORK**

Chairman Prall of the Federal Communications Commission speaking on a nation wide hookup this week gave just praise to the work of broadcasting stations in connection with the flood situation.

**CHANGES RECOMMENDED FOR KALB**

Broadcasting station KALB, Alexandria, La., filed an application with the Federal Communications Commission asking that its frequency be changed from 1420 to 1210 kilocycles, and that its daytime operation be changed to unlimited time. The station uses 100 watts and did not ask any power change.

Examiner John P. Bramhall in Report No. I-349 recommended that the application be granted "conditioned, however upon compliance with Rule 131." The Examiner states that it has been definitely established that there is a need for additional service in the area proposed to be served. Some slight interference might be caused with KOCA, the Examiner states, but the benefits derived from granting the application would outweigh any interference that might be sustained.

**WIGGLESWORTH CRITICIZES FCC**

Representative Wigglesworth of Massachusetts severely criticized the Federal Communications Commission on the floor of the House this week during debate on the independent office appropriation bill, which bill contains appropriations for the Commission for the fiscal year 1938.

He asked for an investigation of the Commission and told Representative Connery during his talk that he was in favor of the Connery resolution now pending before the House Rules Committee providing for the appointment of a special House Committee to investigate broadcasting and radio generally.

Mr. Wigglesworth charged monopoly in broadcasting with especial emphasis on the various chains. He stated that this had come about through the manner in which the Commission is construing the Communications Act.

**RECOMMENDS DENIAL OF LICENSE MODIFICATION**

Broadcasting station WCAP, Asbury Park, N. J., operating on a frequency of 1280 kilocycles and sharing time with stations WTNJ and WCAM, applied to the Federal Communications Commission to increase its power from 500 to 1,000 watts.

Examiner Robert L. Irwin in Report No. I-347 recommended that the application for modification of its license be denied.

**HEARING CALLED ON ACTORS BILL**

The House of Representatives Committee on Immigration and Naturalization has announced that it will begin hearings on February 17 in connection with the bill of Representative Dickstein of New York (H. R. 30) to protect the artistic and earning opportunities in the United States of American actors, vocal musicians, operatic singers, solo dancers, solo instrumentalists, and orchestral conductors. This is the identical bill which passed the House at the last session of Congress but failed of passage in the Senate.

**DISMISSAL WITH PREJUDICE RECOMMENDED**

The United States Broadcasting Company filed two applications for construction permits with the Federal Communications Commission. One for a new broadcasting station at Columbus, Ohio, to use 1200 kilocycles, 100 watts, daytime operation and the other at Columbus, Ohio, to use 1310 kilocycles, 100 watts and unlimited time.

When the cases were called for hearing counsel asked that they be dismissed without prejudice. However, a number of respondents were present and objected to this.

Examiner George H. Hill in Report No. I-346 recommended that the applications be dismissed with prejudice.

**SECURITIES ACT REGISTRATIONS**

The following companies have filed registration statements with the Securities & Exchange Commission under the Securities Act:

- Covered Wagon Company, Mt. Clemens, Mich. (2-2775, Form A-2)
- Liberty Thrift Foundation, Inc., New York City. (2-2776, Form C-1)
- Underwriters Group, Inc., New York City. (2-2777, Form C-1)
- Bradford Oil Refining Co., Bradford, Pa. (2-2778, Form A-1)
- Martin-Parry Corporation, York, Pa. (2-2788, Form A-2)

Mr. Wigglesworth charged monopoly in broadcasting with especial emphasis on the various chains. He stated that this had come about through the manner in which the Commission is construing the Communications Act.
Securities Investment Co. of St. Louis, St. Louis, Mo. (2-2790, Form A-2)
Randall Company, Cincinnati, Ohio. (2-2792, Form A-2)
Stratoplane Corp., New York City. (2-2793, Form A-1)
Lac-Tek Gold Mines, Ltd., Toronto, Canada. (2-2794, Form A-1)

AUTHORITY TO TRANSFER CONTROL RECOMMENDED

Authority to transfer control of Station WGAR, Cleveland, Ohio, was asked by the WGAR Broadcasting Company, from the Federal Communications Commission.

Examiner Ralph L. Walker in Report No. I-343 recommended that the application be granted “to transfer all of the outstanding stock of the WGAR Broadcasting Company to WJR, The Goodwill Station.” The Examiner states that “it appears from the record that the pending application may be granted within the purview of Section 310 of the Communications Act of 1934; that the group of stockholders who now control the WGAR Broadcasting Company also control the proposed transferee, WJR, The Goodwill Station; and that the public interest will be served by consenting to the proposed transfer of control in that the services of the engineering, program and other departments of WJR, the larger station, will be more readily available to WGAR.”

NEW TEXAS STATION RECOMMENDED

The Hunt Broadcasting Association filed an application with the Federal Communications Commission asking for a construction permit for the erection of a new broadcasting station at Greenville, Texas, to use 1200 kilocycles, 100 watts and daytime operation.

Examiner George H. Hill in Report No. I-344 recommended that the application be granted. He states that “a definite need is shown to exist in the Greenville area for the operation of the proposed station, and there appears to be adequate local talent to supply the requirements of such a station.”

The Examiner states further that “there appears to be no engineering reasons why the proposed station at Greenville, Texas, could not operate on 1200 kilocycles, and the evidence clearly establishes the fact that no interferences would result thereby to the protected service area of any existing station.”

RECOMMENDS LICENSE RENEWAL FOR WGPC

H. Wimpy filed an application with the Federal Communications Commission asking for a construction permit for the erection of a broadcasting station at Albany, Ga., to use 1420 kilocycles, 100 watts and 250 watts LS and unlimited time on the air. These are the facilities now used by WGPC, Albany, Ga.

Examiner Melvin H. Dalberg in Report No. I-345 recommended that the Wimpy application be denied and that the license of Station WGPC be renewed. The Examiner found that Wimpy is not financially in a position to construct and operate such a station. The Examiner states further that “no satisfactory showing whatever has been made by the applicant Wimpy to indicate that he would provide programs or service which would comply with the needs of the locality and certainly no sufficient showing of proposed programs or service is made by said applicant which would warrant the deletion of Station WGPC and the granting of his application.”

FCC FLOOD EMERGENCY SERVICE

The Federal Communications Commission has issued the following statement in connection with the emergency created by the flood situation in the South:

In view of the urgent need for prompt emergency communication in the flooded areas and the many requests which are being received for special authority to operate radio stations in a manner not normally provided by the rules and regulations, the Federal Communications Commission has adopted special measures whereby prompt action may be taken with respect to all requests for necessary emergency communication.

There has been established in the office of the Chief Engineer a special organization so that there may be prompt action on all requests for emergency radio operation. Special communication facilities have been provided for the handling of communications with persons or agencies requesting special facilities to communicate in or with the flooded areas. Continuous contact is also maintained with the Army, Navy, Coast Guard, Red Cross, and other organizations.

An official of the Commission will be on duty continuously during all hours of the day and night to act on all requests for special facilities. He will be located in Room 5353, New Post Office Bldg., Washington, D. C., and may be reached by telephone in accordance with the following schedule:

Any Hour of the Day or Night
Telephone DISTRICT 1654, BRANCH 85, or simply ask to speak to the official on duty having charge of emergency flood communications.
WASHINGTON, D. C., teletypewriter exchange No. “WASH. D. C. 398”
Any Telegraph Company.

While the Commission desires to cooperate in every way in affording prompt communication service and is prepared to consider and grant special privileges, we wish to invite attention to the fact that the Commission is not an operating agency and, therefore, cannot engage in direct communication with emergency radio stations. We are prepared, however, to aid in any coordination work involving emergency communications in the flooded areas.

The Commission wishes to invite attention to its Rule 23 which authorizes the licensee of any radio station to carry on emergency communication on licensed frequencies with any station of any class during emergency flood conditions in which the normal communication facilities are disrupted. Notice of such operation should be given to the Commission as early as practicable after the establishment of communication.

COMMISSIONER STEWART DISSENTS

Federal Communications Commissioner Stewart this week issued a dissenting opinion in connection with the action of the Commission in the case of Station WOL, Washington, D. C. Mr. Stewart said:

The Broadcast Division having granted the application in the instant case, Continental Radio Company has petitioned the entire Commission to grant a rehearing under Section 405 of the Communications Act of 1934. For the reasons stated hereafter, I believe the petition for rehearing should be granted.

The action of the Broadcast Division grants the American Broad-
casting Company, licensee of Station WOL, a permit to make changes in equipment, to change frequency from 1310 kc. (a local frequency) to 1230 kc. (a regional frequency) and to increase power from 100 watts to one kilowatt. As the use of the requested frequency and power would be contrary to the mileage separation rules of WOL, it probably would provide a good local service. I think that a conventional antenna designed to protect the existing regional stations on 1230 kc. However, the service area of Station WOL will not be protected from interference by the existing stations on the frequency. In conclusion, the facilities of WOL will be increased at night approximately to its 5.0 mv/m line instead of to its 1.0 mv/m line, the usual protection of regional stations. As transmission conditions vary, so will the interference occasioned to the signal of WOL by the other stations on 1230 kc. The result will be dissatisfaction on the part of listeners to WOL who will be able to receive the signal of something, but not WOL. That dissatisfaction can be expected to result in WOL seeking from the Commission some form of relief which might let the service be more constant for such listeners—relief from a situation which should not have been created in the first instance.

It seems to me that this is not the proper use of a regional frequency. While similar uses have been authorized in a few cases by the Broadcast Division, I believe that the piecemeal breaking down of the standards of the service which regional stations should render is not in the public interest. The criterion is service to the public, not sales of time to advertisers.

Regional frequencies should not be assigned to stations which cannot render a regional service. A station operating on a regional assignment with one kilowatt power should give the service properly to be expected of a regional station, not a local service masquerading as a regional service in order to persuade advertisers who may consider power as the only factor which determines coverage. If the area expected to be served by regional stations is to be decreased so as to permit such mongrel stations, I should prefer to see it done by a change in the standards followed by the Commission, not by building up exceptions to present standards. Then at least there would be equality of opportunity among potential applicants for such assignments, instead of an inequality favoring the applicant who might succeed in breaking down existing standards by a particular frequency.

In granting the application of the American Broadcasting Company, the Broadcast Division has seen fit to reward the present inefficient operation of Station WOL. The record shows that WOL has been operating as a local station with an antenna having an efficiency materially below the Commission's standards of good engineering practice. It further shows that the service the station has been rendering is unsatisfactory in considerable portions of the metropolitan area. It is silent on what service WOL might render with a decent antenna complying at least with the Commission's minimum standards. With the facilities approved in the present application, WOL will probably provide a good local service. I think that such good local service should have been required to be by proper use of the station's local assignment rather than by an inefficient use of a regional assignment. In Docket No. 2807, an application by Heast Radio, Inc., operators of Station WISN, the Commission on October 21, 1936, sustained the Broadcast Division in refusing to grant improved facilities to a licensee because he had not made efficient use of his current assignment. If that decision is sound (and I believe it is), the decision in the instant case is unsound.

The parable of the talents might well be placed on the list of recommendations made to improve the efficiency of his current assignment. If that decision is sound (and I believe it is), the decision in the instant case is unsound.

The petition for rehearing should be granted.

February 1, 1937

COMMISSION GRANTS NEW STATION

The Federal Communications Commission this week granted a construction permit for the erection of a new broadcasting station at Helena, Mont., to the Peoples Forum of the Air. The station will operate on 1210 kilocycles, 100 watts power and unlimited time.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms.

The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

The complaint alleges that the respondent company discriminated in favor of certain of its retail purchasers against other purchasers by giving and furnishing certain allowances, services and facilities not accorded to all buyers on proportionately equal terms. The respondent company is also charged with discriminating in price between different purchasers of its products, of like grade and quality, by giving certain purchasers different prices than those quoted to others.

Special services and facilities alleged to have been furnished certain customers included demonstrators, “beauty counsellors,” products to be given away, cooperative advertising arrangements, and transportation allowances.

No. 3040. Alleging unfair trade practices in violation of Section 5 of the Federal Trade Commission Act, a complaint has been issued against Royal Revues, Inc., West Coast Discount Corporation, Ltd., and their officers, L. H. and W. C. Hyde, trading as Royal Film Studios, engaged in manufacturing and leasing and renting to business men motion picture films for advertising purposes.

The respondents have their place of business at 6644 Santa Monica Boulevard, Hollywood Calif.

The respondents, through salesmen, are said to solicit theater operators to exhibit the respondents' films and to solicit business men for the purpose of inducing them to purchase the right to advertise their names and the nature of their businesses on the bottom of the screen when the film is shown.

To persuade prospective advertisers to sign contracts, to which promises notes are attached, the respondents are alleged to falsely represent, in many instances, that the films furnished will be equal in quality to and the same length as the sample shown by the
salesmen; that no other advertiser in the same line of business will be permitted to advertise in connection with the showing of such films, and that other advertisers already have contracted for use of the films.

No. 3041. Use of unfair methods of competition in connection with the sale of pianos is alleged in a complaint issued against Haddorf Piano Co., 1900 Harrison Ave., Rockford, Ill.

The complaint, allegedly representing that the piano designated as "Vertichord Grand", which it sells in interstate commerce, is the same as or is comparable to the type of piano generally known to the trade and public as grand pianos, having the same operating or mechanical features, tonal qualities and other characteristics.

No. 3042. Charging misrepresentation of the therapeutic value and effectiveness of certain medicinal preparations and appliances for use by women, a complaint has been issued against Bureau of Hygiene, Inc., Gynex Corporation, and Preferred Industries Corporation and its president, Benjamin Lindner, all having places of business at 301 Madison Ave. and 211 East 19th St., New York City.

The complaint alleges that the respondents' products will not, in all cases, accomplish the results as advertised, and that in some instances they are injurious.

The respondents allegedly represent that Bureau of Hygiene, Inc., is an organization devoted to scientific research on questions concerning methods of preventing, treating and curing diseases of women, and that it is in no way financially interested in the sale of the various products which it purportedly recommends in advertising matter distributed by the respondents.

No. 3043. Public Service Institute, Inc., 425 DeBaliviere Ave., St Louis, has been served with a complaint alleging unfair competition in the sale of courses of instruction designed to prepare students for United States Civil Service examinations.

Through certain advertising matter circulated by the respondent company, it is alleged to have represented, directly or by implication, that its business is operated on a large scale with a staff of 25 or more qualified instructors; that this staff consists in large part of former Government employees expert in civil service matters; that thousands of its pupils have passed Civil Service examinations and received Government appointments; that enrollment for the respondent company's courses is an enrollment for a Civil Service examination or position, or both, and other similar assertions, all of which, according to the complaint, are misleading.

Stipulations and Orders

The Commission has issued the following cease and desist orders and stipulations:

Nos. 2410-2439-2444-2448-2455. Four liquid distributing companies with headquarters in New York, Newark, Detroit and Los Angeles have been ordered to cease and desist from representing that they are distillers of whiskey, gin and other spirituous beverages; when such is not a fact. A case against a fifth liquor company has been ordered closed.

The four companies ordered to cease and desist are: Reo Distillers, Inc., 276 Jelliff Ave., Newark, N. J.; Federal Distillers Corporation, 123 West Jefferson Ave., Detroit; Distillers Products Co., Inc., 601 West 26th St., New York, and Imperial Distillers Corporation, 1615 South Los Angeles St., Los Angeles.

Under the orders to cease and desist, the respondent corporations are prohibited from representing, through use of the word "distillers" or "distilled" in their corporate names, on labels, or otherwise, that they are distillers of spirituous beverages; that they manufacture such products through the process of distillation, or that they own or operate distilleries, unless they actually do own or operate such places.

No. 2451. Kelly Brewing & Malting Co., trading as Rosecrest Distillers, 188 Twenty-first Ave., Paterson, N. J., liquor rectifier and wholesaler, has been ordered to cease and desist from representing that they are distillers of whiskey, gin and other spirituous beverages, when such is not a fact.

Under the order, the respondent corporation is prohibited from representing, through use of the word "distillers" in its corporate name, on labels, or otherwise, that it is a distiller of spirituous beverages, that it manufactures such products through the process of distillation, or that it owns or operates a distillery, unless it actually does own or operate such a place.

No. 3051. Sun Radio Service & Supply Corporation, 938 F St., N. W., Washington, D. C., has been ordered to discontinue representing through use of the letters "RCA", or by any other means, that the radio receiving sets and radio tubes and supplies it sells are manufactured by the Radio Corporation of America or any of its subsidiaries.

The order to cease and desist also prohibits the respondent corporation from advertising that its radio tubes are "new metal tubes", unless they are the products known to the trade and purchasing public as metal tubes in which the technical elements are sealed in a vacuum in steel.

FTC CLOSES CASE

The case was based on information that the respondent company has not engaged in business since October 4, 1936; that its physical assets have been dismantled and sold, and that it appears the respondent company is not likely to resume the violations of law alleged in the complaint issued November 6, 1936.

The case was closed without prejudice to the Commission's right to reopen it and resume prosecution should future circumstances warrant.

FEDERAL COMMUNICATIONS COMMISSION ACTION

HEARING CALENDAR

The following broadcast hearings are scheduled at the Commission during the week beginning Monday, February 8:

**Monday, February 8**

- **HEARING BEFORE AN EXAMINER**
  - (Broadcast)
  - NEW—Chauncey W. Hammond, Oakland, Calif.—C. P., 1280 kc., 1 KW, unlimited time.
  - NEW—Harold M. Finlay and Mrs. Eloise Finlay, La Grande, Ore.—C. P., 1420 kc., 100 watts, 250 watts LS, unlimited time.

**Tuesday, February 9**

- **HEARING BEFORE AN EXAMINER**
  - (Broadcast)
  - NEW—The Metropolis Co., Jacksonville, Fla.—C. P., 1290 kc., 250 watts, unlimited time.
  - Present assignment: 890 kc., 500 watts, 1 KW LS, unlimited time.

**Wednesday, February 10**

- **HEARING BEFORE AN EXAMINER**
  - (Broadcast)
  - NEW—West Texas Broadcasting Co., Wichita Falls, Tex.—C. P., 1310 kc., 100 watts, 100 watts LS, 250 watts LS, unlimited time.
  - NEW—Wichita Broadcasting Co., Wichita Falls, Tex.—C. P., 620 kc., 250 watts, 1 KW LS, unlimited time.
  - KFPL—C. C. Baxter, Dublin, Tex.—Voluntary assignment of license to WFTX, Inc.; 1510 kc., 100 watts, 100 watts LS, 250 watts LS, unlimited time.
  - KPFL—WFTX, Inc., Wichita Falls, Tex.—C. P., 1500 kc., 100 watts, 250 watts LS, unlimited time. Present assignment: 1510 kc., 100 watts, 250 watts LS, unlimited time.

**Thursday, February 11**

- **ORAL ARGUMENT BEFORE THE BROADCAST DIVISION**

  **Examiner's Report No. I-310:**
  - NEW—Telegraph Herald, Dubuque, Iowa.—C. P., 1340 kc., 500 watts, daytime.
  - WKBW—Sanders Brothers Radio Station, Dubuque, Iowa.—C. P., to move. 1500 kc., 100 watts, 250 watts LS, unlimited time.

  **Examiner's Report No. I-313:**
  - NEW—Glenn Van Auken, Indianapolis, Ind.—C. P., 1050 kc., 1 KW, daytime.
APPLICATIONS GRANTED

NEW—Columbia Broadcasting System, Inc., Mobile (New York, N. Y.).—Granted C. P. for new relay broadcast station to operate on 1846, 2090, 2190 and 2830 kc., 50 watts, under the provisions of Rules 1000, 1001(b) and 1002; unlimited time.

NEW—Arthur Malcolm McGregor and Dorothy Charlotte McGregor, Mobile (Bloomington, Ill.).—Granted C. P. for new experimental relay broadcast station to operate on an experimental basis under provisions of Rules 1000, 1001(b) and 1003(e); frequencies 31100, 34600, 37600, 40600 kc., on an experimental basis and subject to change without prior notice or hearing; 10 watts, unlimited time.

NEW—The Peoples Forum of the Air, Helena, Mont.—Granted C. P. for new broadcast station at Helena, Mont., to operate on 1510 kc., 100 watts, unlimited time. Exact transmitter site to be determined with Commission's approval.

NEW—K. A. Burn, Brady, Tex.—Granted C. P. to make changes in present equipment and increase day power from 100 watts to 250 watts.

NEW—Radio Air Service Corp., Mobile (Cleveland, Ohio).—Granted license to cover C. P. to operate on frequencies 38900, 39100, 39300, 39500 kc., 100 watts, on an experimental basis and subject to change without prior notice or hearing.

NEW—Arkansas Broadcasting Co., Little Rock, Ark.—Granted license to cover C. P. to operate on 1200 kc., 100 watts night, 250 watts LS, unlimited time.

NEW—The Ardmore Publishing Co., Inc., Ardmore, Okla.—Granted license to cover C. P. to operate on 1210 kc., 100 watts, unlimited time.

NEW—South Dakota State School of Mines, Rapid City, S. Dak.—Granted license to cover C. P. to operate on 1200 kc., 100 watts, 1:30 p. m. to 2:30 p. m. daily, CST.

NEW—The Cleveland Radio Broadcasting Corp., Cleveland, Ohio.—Granted license to cover C. P. to operate on 610 kc., 500 watts, daytime only. Also granted authority to determine operating power by direct measurement of antenna input in compliance with Rule 137.

NEW—Central States Broadcasting Co., Council Bluffs, Iowa.—Granted license to cover C. P. to operate on 1260 kc., 1 KW night, 250 watts LS, unlimited time.

NEW—Shepard Broadcasting Service, Inc., Mobile, Ala.—Granted license to cover C. P. to install new equipment and increase day power from 1 KW to 1000 watts, unlimited time.

NEW—WTAR—WTAR Radio Corp., Norfolk, Va.—Granted modification of C. P. to extend completion date from 3-2-37 to 6-2-37.

NEW—Shepard Broadcasting Service, Inc., Mobile, Mass.—Granted modification of license to change name from Shepard Broadcasting Service, Inc., to The Yankee Network, Inc.

NEW—Shepard Broadcasting Service, Inc., Mobile, Mass.—Granted modification of license to change name from Shepard Broadcasting Service, Inc., to The Yankee Network, Inc.

NEW—Shepard Broadcasting Service, Inc., Mobile, Mass.—Granted modification of license to change name from Shepard Broadcasting Service, Inc., to The Yankee Network, Inc.

NEW—Leonard A. Versluis, Grand Rapids, Mich.—Application for C. P. for new broadcast station at Grand Rapids, Mich., to operate on 830 kc., 500 watts, daytime only.
**NEW—The Ohio Broadcasting Co., North Platte, Nebr.—Application for C. P. for new broadcast station at North Platte, Nebr., to operate on 1500 kc., 250 watts, daytime only; transmitter and studio sites to be determined with Commission's approval.**

**NEW—The Ohio Broadcasting Co., Marion, Ohio.—Application for C. P. for new broadcast station at Marion, Ohio, to operate on 1420 kc., 250 watts, daytime only; transmitter and studio sites to be determined with Commission's approval.**

**NEW—The Ohio Broadcasting Co., East Liverpool, Ohio.—Application for C. P. for new broadcast station at East Liverpool, Ohio, to operate on 1420 kc., 250 watts, daytime only; transmitter and studio sites to be determined with Commission's approval.**

**NEW—The Ohio Broadcasting Co., Salem, Ohio.—Application for C. P. for new broadcast station at Salem, Ohio, to operate on 1420 kc., 100 watts, daytime only; transmitter and studio sites to be determined with Commission's approval.**

**NEW—West Texas Broadcasting Co., Wichita Falls, Texas.—Application for C. P. for new broadcast station at Wichita Falls, Texas, to operate on 1310 kc., 100 watts night, 250 watts day, unlimited time. Hearing is scheduled for February 23, 1937, before an examiner.**

**WSBC—WSBC, Inc., Chicago, Ill.—Reconsidered and granted application for increase day power from 100 watts to 250 watts.**

**NEW—Allen T. Simmons, Mansfield, Ohio.— Granted petition to intervene in the hearing on the application of Frazier Reams for C. P. for new broadcast station at Mansfield, Ohio, to operate on 1370 kc., 100 watts daytime only.**

**WBO—Baton Rouge Broadcasting Co., Inc., Baton Rouge, La.—Denied petition asking Commission to postpone effective date—January 26, 1937—of decision granting application to increase frequency from 1420 kc. to 1120 kc. and increase power from 100 watts to 500 watts and to operate specified hours.**

**W. Hanes Lancaster and J. W. Birdwell, d/b as Johnson City Broadcasting Co., Johnson City, Tenn.—Decided to reopen hearing on application for a new radio station at Johnson City, Tenn., to operate on 1490 kc. and studio at Sewanee, Tenn. Hearing to be held at John Sevier Hotel, 10 a.m. March 8, 1937.**

**W8XAN—The Sparks-Whittington Co., Jackson, Mich.—Directed that the license of W8XAN, expiring 3 a.m. EST, February 1, 1937, be extended upon a temporary basis only for the period ending in no event later than 3 a.m. EST, March 1, 1937, pending receipt and/or action on application for renewal of license.**

**KJR—Fishers' Blend Station, Inc. (Lessee), Seattle, Wash.—Directed that the license of KJR, expiring 3 a.m. EST, February 1, 1937, be extended upon a temporary basis only for the period ending in no event later than 3 a.m. EST, March 1, 1937, pending receipt and/or action on application for renewal of license.**

**KFXR—Plaza Court Broadcasting Co., Oklahoma City, Okla.—Denied motion to reconsider and grant application for the Commission's consent to the assignment of license for KFXR from the Exchange Avenue Baptist Church to Plaza Court Broadcasting Co. The application for assignment of license has been set for hearing.**

**NEW—Lenauee Broadcasting Co., Adrian, Mich.—Dismissed with prejudice application for C. P. for new broadcast station at Adrian to operate on 1440 kc., 250 watts daytime only.**

**The Broadcast Division directed that hearings be held in Washington, D. C., as scheduled on the following applications:**

**KTHS—Hot Springs Chamber of Commerce, Hot Springs National Park, Ark.—Application for authority to assign license of KTHS to Radio Enterprise, Inc., and application for C. P. to install new transmitter and directional antenna for night use, change frequency from 1010 kc. to 1060 kc.; change time of operation from S-KRLD to unlimited, and move transmitter to McAlmont, Ark., and studio to Little Rock, Ark. Application for C. P. has been set for hearing before the Broadcast Division.**

**NEW—Radio Enterprise, Inc., El Dorado, Ark.—Application for C. P. for new station at Hot Springs, Ark., to operate on 1310 kc., 100 watts daytime only. Hearing is scheduled for February 23, 1937, before an examiner.**

**NEW—Associated Arkansas Newspapers, Inc., Hot Springs, Ark.—Application for C. P. for new station at Hot Springs, Ark., to operate on 1310 kc., 100 watts day only. Hearing is scheduled for February 23, 1937, before an examiner.**

**SPECIAL TEMPORARY AUTHORIZATIONS**

**KRO—Voice of Longview, Longview, Texas.—Granted special temporary authority to operate from local sunset (6:30 p.m.) to 9 p.m. CST, on Sundays, March 7, 14, 21 and 28, 1937, in order to broadcast services of the Kelly Memorial Methodist Church of Longview.**

**WSYJ—Philip Weiss, 1/5 Philip Weiss Music Company, Rutland, Vt.—Granted special temporary authority to operate from 9 p.m. to 11 p.m. EST, Friday, February 5, 1937, in order to broadcast a concert by the Green Mountain Symphony Orchestra.**

**KUMA—Albert M. Schermann, Yuma, Ariz.—Granted special temporary authority to operate from 6 p.m. to 11:30 p.m. MST, February 9, 16 and 23, 1937, in order to broadcast wrestling and boxing bouts.**

**KABG—Ben S. McGlashan, Aboard Yacht "El Perrito."—Granted special temporary authority to operate ship transmitter WTY aboard Yacht El Perrito, as a relay broadcast station on 75 watt frequencies 1622, 2058, 2150 and 2790 kc., to broadcast Midwinter Regatta, for a period not to exceed 30 days.**

1913
KFDY—South Dakota State College, Brookings, S. D.—Granted special temporary authority to operate from 7 p. m. to 9:30 p. m. CST, Friday, February 5, and Monday, February 8, 1937, in order to broadcast affectionate messages and basket games.

WTHT—The Hartford Times, Inc., Hartford, Conn.—Granted special temporary authority to operate from local sunset (5:30 p. m.) to 11 p. m. EST, Thursday, February 4, 1937, in order to broadcast by remote control from the Hotel Bond an address by Dr. Alexander Ruthven, president of the University of Michigan.

KSF—The Associated Broadcasters, Inc., San Francisco, Calif.—Granted special temporary authority to operate a mobile 100 watt transmitter on 560 kc., between hours of 1 a.m. and 6 a.m., for period beginning February 8, 1937, and ending in no event later than February 14, 1937, in order to make transmitter site survey.

WSPR—Quincy A. Brackett, Lewis B. Breed, Edmund A. Laport, co-partners, d/b as Connecticut Valley Broadcasting Co., Springfield, Mass.—Granted special temporary authority to operate from 11 p. m., February 9, to 1:30 a.m., February 10, 1937, in order to broadcast a theater benefit for Red Cross Flood Relief.

WTRC—The Truth Publishing Co., Inc., Elkhart, Ind.—Granted special temporary authority to operate simultaneously with WNBC from 7:30 p.m. to 10 p.m. CST, Wednesday, February 3, 1937, in order to broadcast the Notre Dame-Purdue basketball game from South Bend, Ind.

APPLICATIONS DISMISSED

The following applications heretofore set for hearing were dismissed at the request of the applicants:

WBNQ—Coliseum Place Baptist Church, New Orleans, La.—Voluntary assignment of license to Pelican State Broadcasting Co., 1200 kc., 100 watts, shares-WBQW.

KFKA—Mid-Western Radio Corp., Greeley, Colo.—Modification of license, 1450 kc., 500 watts, 1 kW, LS, unlimited.

RATIFICATIONS

WSGN—Birmingham News Co., Birmingham, Ala.—Granted extension of program test period 30 days from January 25, 1937.

WIOD—Isle of Dreams Broadcasting Corp., Miami, Fla.—Granted extension of program test period 30 days from January 29, 1937.

KTSM—Tri-State Broadcasting Co., Inc., El Paso, Texas.—Granted extension of equipment test period 10 days from January 25, 1937.

WOKB—Agricultural Broadcasting Co., Chicago, Ill.—Granted authority to operate WOKB broadcast state police and amateur frequencies to transmit emergency messages pertaining to flood for duration of emergency.

WBPA—National Life and Accident Co., Inc., Nashville, Tenn.—Granted authority to operate WBPA on equipment tests January 24 in connection with flood conditions.

WSAI—Crosley Radio Corp., Cincinnati, Ohio.—Granted authority to use formerly licensed transmitter located at Maud Road, near Mason, Ohio, during period of emergency until present licensed transmitter can resume operation but not to exceed 30 days.

WHIO—Miami Valley Broadcasting Corp., Dayton, Ohio.—Granted authority to operate 5 KW non-directional for emergency messages only while communicating to isolated flood area in Southern Ohio, provided in accordance with Rule 23; period not to exceed 10 days.

WTJS—Sun Publishing Co., Inc., Jackson, Tenn.— Granted authority to operate 250 watts night while transmitting emergency messages only.

KLRA—Whitaker Broadcasting Co., Little Rock, Ark.—Granted authority to operate with 2500 watts KLRA, and KGHY with 250 watts night while transmitting emergency messages.

WSMK—WSMK, Inc., Dayton, Ohio.—Granted special temporary authority to operate WSMK simultaneously with KQV during nighttime hours in order to broadcast Red Cross appeal to raise funds for flood area, during period of emergency only.

KMOX—Columbia Broadcasting System, Inc., New York, N. Y.—Granted authority to relay broadcast station on 2830 kc. in flood in flood area for purpose of handling emergency messages and broadcast flood coverage to CBS and KMOX during period February 1 to 6, 1937 inclusive.

WBAM-WBAN—Bamberger Broadcasting Co., Newark, N. J.—Granted authority to use WBAM and WBAN frequency group A for handling emergency messages only.

WEW—St. Louis University, St. Louis, Mo.—Granted authority to broadcast during any hours in accordance with Rule 23; purpose of handling emergency messages only.

WWL—Loyola University, New Orleans, La.—Granted authority to operate for emergency communication service under Rule 23.

WKBV—Knox Radio Corp., Richmond, Ind.—Granted special temporary authority to operate unlimited time for period not to exceed 10 days to assist organizations in flood relief.

National Broadcasting Co., Inc.—Granted special temporary authority to rebroadcast over NBC networks program material which may be received by special receiving stations at presently undetermined strategic locations in the Ohio River flood area from amateur stations strategically located during the period beginning approximately at 10 a.m. January 26, 1937, and ending in no event later than January 29, 1937.

WJEJ—Hagerstown Broadcasting Co., Hagerstown, Md.—Granted special temporary authority to operate unlimited time every night its period not to exceed 10 days until Red Cross Drive is over.

KAAV—United Air Lines Transport Corp., Washington, D. C.—Granted special temporary authority to use and operate regularly licensed aircraft transmitter KHAQY aboard United Airlines Transport Corp. plane as a relay broadcast station, in connection with an emergency conditions in flood area beginning approximately at 10 a.m. January 26, 1937.

KPDN—R. C. Holies, Pampa, Tex.—Granted special temporary authority to operate unlimited time for period of 10 days beginning January 27 in order to broadcast appeals for help in the flood-stricken areas.

WAIA—WBNS, Inc., Columbus, Ohio.—Granted special temporary authority to operate a relay broadcast station beginning January 27 and ending in no event later than February 5, 1937, on frequencies 1646, 2090, 2190, 2830 kc., 175 watts, Collins equipment Type 30F XC in a truck, for communication in flood area.

WSAZ—WSAZ, Inc., Huntington, W. Va.—Granted authority to operate additional hours provided strict compliance with Rule 23.

WAAU—Columbia Broadcasting System, Inc., New York, N. Y.—Granted special temporary authority to operate a mobile relay broadcast station for duration of flood, in order to broadcast flood conditions on frequencies 1646, 2090, 2190, 2830 kc., 50 watts.

WKZ—WKZO, Inc., Kalamazoo, Mich.—Granted special temporary authority to operate unlimited time for period of 10 days beginning January 27 and ending in no event later than February 5, 1937, on frequencies 1646, 2090, 2190, 2830 kc., 50 watts.

WQBC—Delta Broadcasting Co., Inc., Vicksburg, Miss.—Granted special temporary authority to assist organizations in flood relief in period of 10 days in order to rebroadcast flood relief messages and flood bulletins as waters move down Mississippi River.

WSPA—Virgil W. Evans, t/a the Voice of South Carolina, Spartanburg, S. C.—Granted special temporary authority to operate from local sunset (5:45 p.m. January, 6:15 p.m. February), EST until 10 p.m., EST, for period of 10 days, using 500 watts power, in cooperation with Red Cross for securing money and clothing for relief of flood sufferers.

WQCB—Delta Broadcasting Co., Inc., Vicksburg, Miss.—Granted special temporary authority to operate unlimited time for period of 10 days in order to rebroadcast flood relief messages and flood bulletins as waters move down Mississippi River.

KWEU—Radio Station WKEU, Griffin, Ga.—Granted special temporary authority to operate unlimited time for a period of 10 days beginning January 27, 1937, in order to aid in local Red Cross Relief Drive.

W5RFH—R. A. Seivers, Radio Chairman, American Legion, Greenville, Miss.—Granted authority to Eugene Boyer, licensee of W5RFH amateur station, to operate same station on any frequency not assigned to government service listed in Rule 229 as amended, to transmit emergency messages only during flood period in strict compliance Rule 25.
W9XPV-W9XPN—WDZ Broadcasting Co., Tuscola, Ill.—Granted authority to operate as licensed for period 30 days from January 23 to February 21 for relay broadcast from train between Villagrove and Tuscola, Ill.

WGBD-WJLJ—WBNS, Inc., Columbus, Ohio.—Granted authority to operate as licensed for period of 10 days from date, for emergency use in connection with flood in vicinity of Portsmouth, Ohio.

W10XFR—National Broadcasting Co., New York.—Granted authority to operate as licensed from January 31 to February 5 and to be used for purposes mentioned in the license for emergency use in connection with the flood at New York City, N. Y.

WIEX-WMFS—Columbia Broadcasting System, Inc., New York City.—Granted authority to operate as licensed January 28 to February 6, inclusive, relay broadcast connection flood relief program.

W8XIO-W8XIR—WAGAR Broadcasting Co., Cleveland, Ohio.—Granted authority to operate as licensed for period of 10 days beginning this day for emergency use in connection with the flood at Cleveland, Ohio.

W9XPN—WDZ Broadcasting Co., Tuscola, Ill.—Granted authority to operate additional time provided compliance with Rule 23.

WREC—WREC, Inc., Memphis, Tenn.—Granted authority to transmit emergency messages pertaining to flood emergency in accordance with Rule 23.

W3XEM-W3XEL—WFIL Broadcasting Co., Philadelphia, Pa.—Granted authority to operate as licensed, period 15 days from January 21 to February 4, provided Commission is advised by telegram sent before broadcast, the requirements of Rule 1002. Nature of program to be settlement of maritime strike, vicinity San Pedro harbor. Renewal of this authority may be requested before expiration of 15-day period.

W9XPN—WDZ Broadcasting Co., Tuscola, Ill.—Granted authority to operate as licensed, period 10 days, relay broadcast Red Cross relief duty at Scott Field.

W3XEM-W3XEL—WFIL Broadcasting Co., Philadelphia, Pa.—Granted authority to operate as licensed, period of 10 days, relay broadcast for relief work during flood at Louisville.

W4XBT-W4AX—Radio Station WCC, Charlotte, N. C.— Granted authority to operate for period 1 week from date, connection Red Cross drive.

W9XPV-W9XPN—WDZ Broadcasting Co., Tuscola, Ill.—Granted authority to operate emergency in accordance with Rule 23.

WREC—WREC, Inc., Memphis, Tenn.—Granted authority to operate the transmitter formerly licensed to W2XBS as a facsimile broadcast connection flood relief program.

W9XPV-W9XPN—WDZ Broadcasting Co., Tuscola, Ill.—Granted authority to operate as licensed January 28 to February 6, inclusive, relay broadcast connection flood relief program.

W8XIO-W8XIR—WAGAR Broadcasting Co., Cleveland, Ohio.—Granted authority to operate as licensed for period of 10 days beginning this day for emergency use in connection with the flood at Cleveland, Ohio.

W9XPN—WDZ Broadcasting Co., Tuscola, Ill.—Granted authority to operate as licensed, period 10 days, relay broadcast Red Cross relief duty at Scott Field.

W3XEM-W3XEL—WFIL Broadcasting Co., Philadelphia, Pa.—Granted authority to operate as licensed, period of 10 days, relay broadcast for relief work during flood at Louisville.

W4XBT-W4AX—Radio Station WCC, Charlotte, N. C.— Granted authority to operate for period 1 week from date, connection Red Cross drive.

KARK—Arkansas Radio & Equipment Co., Little Rock, Ark.—Granted authority to operate with 1 KW night to transmit emergency messages only for duration of flood emergency in accordance with Rule 23.

WREC—WREC, Inc., Memphis, Tenn.—Granted authority to relay broadcast by WREC of amateur station W5BKB of material aiding emergency flood relief work as set forth in Rule 23.

WARK—Arkansas Radio & Equipment Co., Little Rock, Ark.—Granted authority to operate as licensed, period of 10 days, relay broadcast for relief work during flood at Little Rock.

WAVE—WAVE, Inc., Louisville, Ky.—Granted authority to operate a new station to be operated on 1570 kc., 1 KW, unlimited time. Amended: To change frequency from 1270 kc. to 1420 kc., power from 250 watts to 100 watts night, 250 watts daytime, and change hours of operation from daytime to unlimited time.

W3XAP—National Broadcasting Co., Bound Brook, N. J.—Granted authority to operate as licensed, period not to exceed 15 days from January 21 to February 5, inclusive, to broadcast by W2XBS as a facsimile broadcast connection program.

W2XIN—Standard Cahill Co., Inc., Mobile—Modification of license to change name from Standard Cahill Co., Inc., to WBNX Broadcasting Co., Inc.

W9XPN—WDZ Broadcasting Co., Tuscola, Ill.—Granted authority to operate during night hours on January 30 to February 3, inclusive, to broadcast programs directly related to Red Cross and relief work only.

APPLICATIONS RECEIVED

First Zone

WBZ—Westinghouse Electric & Manufacturing Co., Boston, Mass.—Construction permit to install a new tower and directional antenna for day and night use, increase power from 50 KW to 500 KW and move transmitter from Dover Road, Mills Township, Mass., to Provincetown, Mass.

NEW—Wartington Broadcasting Corp., Watertown, N. Y.—Construction permit for a new station to be operated on 1270 kc., 250 watts, daytime. Amended: To change frequency from 1270 kc. to 1420 kc., power from 250 watts to 100 watts night, 250 watts daytime, and change hours of operation from daytime to unlimited time.

W3XAP—National Broadcasting Co., Bound Brook, N. J.—Construction permit for a new high frequency broadcast station to be operated on 31600, 35600, 38600, 41000 kc., 500 watts, unlimited time. (Request of applicant.)

NEW—National Broadcasting Co., Inc., Bellmore, N. Y.—License to operate the transmitter formerly licensed to W2XBS as a facsimile broadcast (experimental) station on 2016 kc., unlimited time, to be located at River Road, Bound Brook, N. J. (Request of applicant.)

NEW—Knickerbocker Broadcasting Co., Inc., Flushing, N. Y.—Construction permit for a new marine broadcast station to be operated on 1420 kc., unlimited time. (Request of applicant.)

NEW—National Broadcasting Co., Inc., Bellmore, N. Y.—License to operate the transmitter formerly licensed to W2XBS as a facsimile broadcast (experimental) station on 2016 kc., unlimited time, to be located at River Road, Bound Brook, N. J. (Request of applicant.)

Second Zone

WJAC—WJAC, Inc., Johnstown, Pa.—License to cover construction permit (B2-P-817) for changes in equipment, increase in power and move of transmitter.

WSAN—WSAN, Inc., Allentown, Pa.—License to cover construction permit (B2-P-1380) as modified for new transmitter and antenna and move of transmitter.

WCBA—B. Bryan Musselman, Allentown, Pa.—License to cover construction permit (B2-P-1380) as modified for new transmitter and move of transmitter.

NEW—Summit Radio Corp., Akron, Ohio.—Construction permit for a special broadcast station to be operated on 1530 kc., 1 KW, unlimited time. Amended: To give studio site as 106 S. Main Street, Akron, Ohio.
NEW—Allen T. Simmons, Vicinity of Akron, Ohio.—Construction permit for a new high frequency relay broadcast station to be operated on 11000, 26600, 38600, 40000 kc., 100 watts, unlimited time.

W9XAP—National Broadcasting Co., Inc., Addison, Ill.—License to cover construction permit (B4-P-789) as modified for a new station. Amended to change from a partnership, Wm. C. Grove and S. H. Patrick, to an individual to a partnership by adding name of Saul S. Freeman.

WCRF—San Luis Obispo, Calif.—Modification of license to change hours of operation from simulcasting at 5900 kc. night to 1170 kc. daytime, share WLBC night, to unlimited time. Amended to give transmitter site as 1.285 miles south from center of San Luis Obispo, to 1.5 miles northwest from center of San Luis Obispo, Calif., and extend commencement and completion dates.

New—Economy Cash Hardware, E. E. Dodson, Prop., State of Texas.—Construction permit to install a new antenna and move transmitter from 1.285 miles south from center of San Luis Obispo, to 1.5 miles northwest from center of San Luis Obispo, Calif., and erect a vertical antenna.

WTRC—The Truth Publishing Co., Inc., Elkhart, Ind.—Modification of license to change hours of operation from simulcasting at 5900 kc. night to 1170 kc. daytime, share WLBC night, to unlimited time. Amended to give transmitter site as to be determined, Los Angeles, Calif.

KWOS—Tribune Printing Co., Jefferson City, Mo.—License to cover construction permit (B4-P-1023) as modified for a new station.

WGL—Westinghouse Radio Stations, Inc., Fort Wayne, Ind.—Construction permit for a new station to be operated on 31100, 34600, 37600, 40600 kc., 100 watts, unlimited time.

KVEC—Christina M. Jacobson, tr/as The Valley Electric Co., Bakersfield, Calif.—License to cover construction permit (B3-P-1343) for new transmitter and vertical antenna, increase in power and move of transmitter.

KOBH—Black Hills Broadcast Co. (Robert Lee Dean, Executive President) to Black Hills Broadcast Company of Rapid City.

WIEE—Indianapolis Broadcasting Co., Indianapolis, Ind.—Modification of construction permit for changes in equipment and increase in power, requesting further changes in equipment and extension of commencement and completion dates 30 and 90 days.

KSO—Iowa Broadcasting Co., Des Moines, Iowa.—License to cover construction permit (B4-P-996) as modified for changes in equipment and increase in power.

KEM—W. W. Luce, Fort Lauderdale, Fla.—Construction permit to make changes in equipment and increase power 35 watts to 100 watts.

KASQ—W. W. McAllister, San Antonio, Texas—License to make changes in equipment and change hours of operation from share-WJBW to unlimited, and move transmitter locally. Amended: To change requested frequency from 1500 kc. to 1420 kc.

WBNO—Coliseum Place Baptist Church, New Orleans, La.—Modification of construction permit (B3-P-1424) for new transmitter and vertical antenna, increase in power and move of transmitter.

WAMN—New Laurel Radio Station, Inc., Laurel, Miss.—License to cover construction permit (B3-P-594) as modified for a new station. Amended: To give transmitter site as 2,250 feet south of Spruce St., on line of Boone St., extended southward, El Paso, Texas.

NEW—Southeastern Broadcasting Co., Inc., Macon, Ga.—Construction permit for a new relay broadcast station to be operated on 1050 kc., 1 KW, unlimited time.

KCOA—Oil Capital Broadcasting Assn. (James G. Ulmer, President), Kilgore, Texas.—License to cover construction permit (B3-P-594) as modified for a new station. Amended: To give transmitter site as site to be determined, Los Angeles, Calif.

WBNO—Coliseum Place Baptist Church, New Orleans, La.—Construction permit to install a new antenna and move transmitter from 1.285 miles south from center of San Luis Obispo, to 1.5 miles northwest from center of San Luis Obispo, Calif., and erect a vertical antenna.

KMAC—W. W. McAllister, San Antonio, Texas—License to cover construction permit (B3-P-1343) for new transmitter and vertical antenna, increase in power and move of transmitter.

WBOV—Westcoast Broadcasting Co., Wenatchee, Wash.—Construction permit to make a new station to be operated on 20 Second Street, Wenatchee, Wash., to north end Miller Street, Wenatchee, Wash., and erect a vertical antenna.
to construct and maintain a government radio broadcasting station in the North, Central and South American countries forming the Pan-American Union. Roosevelt, Secretary of State Hull and Secretary of the Navy Swanson. It grows out of the radio resolution adopted January, 1932, at Montevideo, by the Seventh International Conference for exclusive use of Pan-American Republics.

The radio spectrum by international comity has been divided among the Governments of the world. Each American nation participating at the Conference agreed to make available for the United States Government participate; for instance, the message of the President at the opening session of Congress, and other addresses delivered on the occasion of the observance of Pan American Day and other similar events.

Representative Cellar of New York on Wednesday introduced a bill in the House for a federally controlled Pan-American broadcasting station. In connection with this, Mr. Cellar made the following statement:

I have this day offered a bill authorizing the Navy Department to construct and maintain a government radio broadcasting station to be called the Pan American Radio Station, with such power and equipment as will enable such station effectively to transmit programs to all parts of the world, and particularly, to countries of the Western hemisphere, with sufficient signal strength to permit programs to be rebroadcast in all countries of the Pan-American Union.

The sovereignty of no nation is respected. Surely some antidote is needed reform, by misguided and selfish persons. It is feared that Fascist and Communist Governments are growing bolder every day in their proselytizing activities. National boundaries mean nothing. The sovereignty of no nation is respected. Surely some antidote is necessary.

There are two million short wave receiving sets in this country and the number is mounting daily by leaps and bounds. Such increasing short wave receptivity might well command a Federal station.

The types of programs available might well be the following:

A. For Pan American Use:

1. The concerts given at the Pan American Union at regular intervals, together with other events of inter-American character which are held at the Union, such as Pan American Conferences, addresses delivered on the occasion of the observance of Pan American Day and other similar events.
2. Important events in which high officials of the Government participate; for instance, the message of the President at the opening session of Congress, and other addresses that may be delivered by The President and by other high officials of the Government.
3. Concerts by some of the great musical organizations of the United States; for example, the New York Philharmonic, the Boston Symphony and the Philadelphia Orchestra.
4. Programs of music by North American composers as played regularly by the Service Bands in Washington; the United States Army Band, the Navy Band and the Marine Band.
5. Outstanding productions of the theater, such as the Metropolitan Opera Company, the Chicago Civic Opera.

B. For National and Pan American Service:

1. Addresses by The President.
2. " Members of the Cabinet.
4. " Heads of Commission, Departments, Bureaus, etc.
5. Account and interpretation of various governmental activities.

The types of programs available might well be the following:

1. Opening of Congress and other important sessions.
2. Fourth of July Ceremonies
3. Ceremonies at Arlington
4. Account of Army Inspections and Drills
5. Graduation Ceremonies at Naval Academy at Annapolis and Military Academy at West Point.
RATIONALE WITH RESULTS QUITE AS REVOLUTIONARY AS FOLLOWED THE INVENTION

C. For National Service:

(1) Aims, functions, and policies of Government, current
Governmental activities—Congress—Officials in action—the
new arms of government—debates and discussions about cur-
tent governmental problems—interpretation and obevance of
laws.
(2) Economics and government—health and social wel-
fare—education and culture—recreation—history of the coun-
try and its institutions—patriotism—national resources—in-
dustrial development—labor.
(3) Home economics—farm and home periods—crop re-
ports—road conditions—weather reports—storm warnings—
Public and National Parks—law enforcement—safety of life—
fire prevention—preservation of forests.
(4) The rationalization of public life by the development of
a new type of statesman and a new type of voter.

D. For Education:
The material under this headings applies to both Pan
American and National broadcasts.

Proper use of Radio will affect the process and scope of Educa-
tion with results quite as revolutionary as followed the invention
of the printing press.

By applying this new instrumentality of communications to Edu-
cation, costs may be reduced and quality improved.

EMANUEL Celler,
Rep. 10th New York District.

AN ACT

Authorizing the Secretary of the Navy to construct and maintain
a government radio broadcasting station; authorizing the United
States Commissioner of Education to provide programs of national
and international interest; making necessary appropriations for the
construction, maintenance, and operation of the station and pro-
duction of programs therefor; and for other purposes.

SEC. 1: That the Secretary of the Navy be, and he is hereby,
authorized and instructed to construct a radio broadcasting station
of such power, and using such equipment as will effectively trans-
mit programs to all parts of the United States and from this coun-
try to other countries of the Western Hemisphere upon high fre-
quencies assigned by the President and allocated to broadcasting,
with sufficient signal strength to permit the same to be rebroadcast
in those countries. The said station shall be located in the vicinity of
Washington, D. C., the exact location of said station to be
selected by the Secretary of the Navy. The station shall be known
as the "Pan American Radio Station."

SEC. 2: There is authorized to be appropriated the sum of Seven
Hundred Thousand Dollars ($700,000) out of any money in the
Treasury not otherwise appropriated, to be expended by the
Secretary of the Navy for the operation and maintenance of the
Pan American Radio Station, including buildings, land, studio
equipment, lines, and all apparatus and equipment incident to the
effective operation thereof.

SEC. 3: There is hereby authorized to be appropriated the sum of
Fifty Thousand Dollars ($50,000) annually out of any money in the
Treasury, to the extent that such appropriation shall be used for
operation and maintenance of the Pan American Radio Station.

SEC. 4: The United States Commissioner of Education shall be
in charge of all programs for the Pan American Radio Station. He
shall provide and/or arrange for programs, which will render a
distinct national and/or international service and which will pro-
mote a better understanding among the Republics of the American
Continent and will be of educational and cultural value.

The general policies to be followed governing the operation of
the Pan American Radio Station shall be determined by an ad-
visory council consisting of the Secretary of State, the Director
General of the Pan American Union, the Chairman of the Federal
Communications Commission, the United States Commissioner of
Education, or such alternates as they may designate, and such
other Government officials as the President may select. Provided,
the total membership of said advisory council shall not exceed nine
persons.

The programs broadcast by the Pan American Radio Station
may be rebroadcast by any station the transmissions of which are in-
tended to be received by the general public. No commercial adver-
sising shall be permitted in the programs transmitted by the Pan
American Radio Station.

SEC. 5: For the production of radio programs, including rental
of technical facilities, there is hereby authorized to be appropriated
for the Office of Education, Department of the Interior, such sum
as may be necessary annually, said appropriation to be paid out of
any money in the Treasury not otherwise appropriated.

SEC. 6: The United States Commissioner of Education, with the
approval of the advisory council, shall, in his discretion, permit
well qualified, privately owned commercial radio companies,
actually operating efficient stations, to use, without charge, said
Pan American radio station and its facilities, during such times
and in such manner and conditions as to said Commis-
sioner with the approval of said council may seem just and
proper, having in mind always that the Pan American radio sta-
tion is a governmentally controlled facility, provided:

(1) Such privilege to such private company is exercised without
profit to said company;

(2) The programs contributed by said privately owned company
are suitably controlled and censored by said Commissioner
of Education;

(3) Said privilege to such privately owned company may be
withdrawn at any time without notice by said Commis-
sioner of Education;

(4) Such programs shall neither directly, indirectly, or remotely,
involve the broadcasting of any advertising, and shall be
exclusively in the public interest;

(5) Any use of the facilities of such Pan American radio station
as aforesaid to such privately owned company does not
interfere with or militate against the general purposes of
this Act.

CONNERY RADIO INVESTIGATION
RESOLUTION
H. Res. 92

IN THE HOUSE OF REPRESENTATIVES
JANUARY 28, 1937

Mr. Connery submitted the following resolution; which was re-
ferred to the Committee on Rules and ordered to be printed

RESOLUTION

WHEREAS the Congress, in creating the Federal Radio Commis-
sion and in enacting the Communications Act of 1934, expressly re-
serves to the people of the United States control of all radio fre-
quencies; and

WHEREAS, despite the restriction through the leasing of, the pur-
chase of, the affiliating of, the operation of, or, through the
possession of contracts giving to a select few the exclusive right
so to use the more desirable time of these radio-broadcasting sta-
tions, there is reason to believe that contrary to the intent and
two agencies, as well as the language of laws in force, one or more
monopolies exist in radio broadcasting, which radio-broadcasting
monopolies are believed to be profiting illegally at the expense
and to the detriment of the people through the monopolistic con-
trol and operation of all clear channel and other highly desirable
radio-broadcasting stations, such as the Columbia Broadcasting
System, the National Broadcasting Company, and the Mutual
Broadcasting System, or other existing groups; and

1918
WHEREAS it is believed that neither public interest, convenience, or necessity is served by permitting virtual radio-broadcasting monopolies to control this property which has been reserved to the control of the American people; and

WHEREAS it is contrary to public policy, convenience, or necessity, to allow any private groups to monopolize the use of a property reserved to and for the people: Therefore be it

Resolved, That a committee of seven Members of the House of Representatives shall be appointed by the Speaker, which committee is hereby directed to inquire into and investigate the allegations and charges that a monopoly or monopolies exist in radio broadcasting alleged to be held by the Columbia Broadcasting System, National Broadcasting Company, Mutual Broadcasting System, or others; be it further

Resolved, That the said committee shall make a thorough and exhaustive investigation of all charges and allegations of the existence of a monopoly or monopolies in radio broadcasting and the effect which such monopoly or monopolies may have on the character of radio programs, and rates charged advertisers, and generally the effect of such monopoly or monopolies on the public, and said committee shall report in whole or in part at any time to the House of Representatives during the Seventy-fifth Congress, together with such recommendations for legislation or otherwise as it deems advisable; and be it further

Resolved, That said committee or any subcommittee thereof is authorized to sit and act during the present Congress at such times and places within the United States whether or not the House is sitting, has recessed, or adjourned, to hold such hearings; to require the attendance of such witnesses and the production of such books, papers, and documents by subpoena or otherwise and take such testimony as it deems necessary with respect to such monopoly or monopolies and the management and operation of any company or companies being so investigated. Subpoenas shall be issued under the signature of the chairman of said committee or any member designated by him, and shall be served by any person designated by them or either of them. The chairman of the committee or any member thereof may administer oaths to witnesses. Every person who, having been summoned as a witness by authority of said committee, or subcommittee thereof, willfully makes default, or who, having appeared, refuses to answer any questions pertinent to the matter herein authorized to be investigated, shall be held to the penalties provided in sections 102, 103, and 104 of the Revised Statutes of the United States, as amended (U. S. C., title 2, secs. 192, 193, and 194).

WEARIN RADIO MONOPOLY BILL
H. R. 3892

IN THE HOUSE OF REPRESENTATIVES
January 28, 1937

Mr. Wearin introduced the following bill; which was referred to the Committee on Interstate and Foreign Commerce and ordered to be printed

A BILL
To amend the Communications Act of 1934 by adding thereto provisions designed to prohibit unified and monopolistic control of broadcasting facilities and printed publications, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Act of Congress designated by the statutory title “Communications Act of 1934”, approved June 19, 1934, be, and the same is hereby, amended by adding thereto a new section to immediately follow section 314 of said Act, said new section to be as follows:

“Sec. 314. (a) It is hereby declared to be against public interest to permit the creation or the continuance of monopolies in the distribution of general information, news, and editorial comment thereon, through any combination resulting in unified control of newspapers, magazines, or other printed publications, with radio broadcasting, and after the effective date of this Act it shall be unlawful for any licensee, to any extent, directly or indirectly, in its own person or through an agent, holding corporation, affiliated corporation, subsidiary corporation, by stock ownership in a corporation, or otherwise, (1) to be owned, partially owned, managed, or controlled by any person who owns, partially owns, manages, controls, directs, or publishes any newspaper, magazine, or other printed publication circulated or distributed to any extent within the area or zone served by the broadcasting station allotted to such licensee; or (2) to own, partially own, manage, control, direct, or publish any newspaper, magazine, or other printed publication circulated or distributed to any extent within the area or zone allotted to such licensee: Provided, That the foregoing provisions of this section shall not apply to and shall not be enforced against any person now holding a license under this Act until the termination of the term of his existing license but shall apply and be enforced against such present licensee immediately upon termination, and without any extension, of the existing term of such license.”

LEA RADIO OPERATORS BILL
H. R. 3898

IN THE HOUSE OF REPRESENTATIVES
January 28, 1937

Mr. Lea introduced the following bill; which was referred to the Committee on Interstate and Foreign Commerce and ordered to be printed

A BILL
To amend section 318 of the Communications Act of 1934.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 318 of the Communications Act of 1934 is hereby amended to read as follows:

“Sec. 319. The actual operation of all transmitting apparatus in any radio station for which a station license is required by this Act shall be carried on only by a person holding an operator’s license issued hereunder, and no person shall operate any such apparatus in such station except under and in accordance with an operator’s license issued to him by the Commission: Provided, however, That the Commission may waive or modify the foregoing provisions of this section for the operation of any station except (1) stations for which licensed operators are required by international agreement, (2) stations for which licensed operators are required for safety purposes, (3) stations engaged in broadcasting, and (4) stations operated as common carriers on frequencies below thirty thousand kilocycles.”
BROADCAST ADVERTISING FOR THE YEAR 1936 AND FOR DECEMBER

Broadcast Advertising In 1936

HIGHLIGHTS OF THE YEAR

Broadcast advertising volume reached a new all time high during 1936. Gross time sales amounted to $107,550,886 as compared to $87,523,848 in 1935, an increase of 22.9%. Although all portions of the medium registered marked increases, national non-network advertising exhibited the most pronounced gain, rising 41.5%. National network volume rose 19.2%, regional network volume 23.1% and local broadcast advertising 16.0%.

Non-network advertising registered a gain of 27.9% over 1935. Local stations continued the trend of 1934 and 1935 by showing the greatest increase in sales of any class of station. The South Atlantic-South Central Area led all geographical districts by increasing its sales 52.0% over 1935. However, all classes of stations and sections of the country enjoyed considerable increases over 1935 levels.

Although live talent programs represented 47.9% of the total non-network sales during 1936, transcriptions increased to a greater extent than any other type of rendition. Transcriptions during the past year showed a 50.6% gain over 1935.

General gains were experienced in most all broadcast sponsor groups during the year 1936. Only drug and confectionery advertising showed a decline as compared to the previous month. Principal gains were shown in the miscellaneous, soap and kitchen supply, automotive, beverage, tobacco, radio set and financial groups.

TOTAL BROADCAST ADVERTISING

The volume of broadcast advertising over various portions of the medium during 1935 and 1936 is shown in Table I.

2 Estimated.

NON-NETWORK BROADCAST ADVERTISING

Total non-network broadcast advertising for the year 1936 exceeded the gross time sales of 1935 by 22.9%. All portions of the medium experienced marked increases over 1935 levels. National non-network advertising showed the greatest gain over last year, rising 41.5%.  National network volume rose 19.2%, regional network business 23.1% and local advertising 16.0%.

The marked increase in national non-network advertising caused sales in this portion of the medium to represent 22.4% of the industry's gross revenues during 1936 as compared to 19.5% in 1935, 18.6% in 1934 and 17.5% in 1933. National network advertising accounted for 55.5% of the gross revenue for 1936 as compared to 57.2% in 1935, 58.5% in 1934, and 55.2% in 1933. Regional network advertising represented 1.3% of the total gross time sales as against 1.2% in 1935, 0.9% in 1934, and 0.7% in 1933. Local business comprised 20.8% of the total sales. Advertising of this type accounted for 22.1% of total volume in 1934 and 1935.

1921
the 1935 level. Clear channel and high-powered regional station volume rose 18.4% over 1935 and regional station volume increased 35.7%.

For the year 1936, gross time sales over clear channel and high-powered regional stations accounted for 42.2% of the total non-network sales. Regional station volume represented 42.4% of the total and local station volume 45.5%. During the year 1935 the composition of non-network sales was as follows: clear channel and high powered regional stations 45.5%; regional stations 40.0%; and local stations 14.5%.

Non-network broadcast advertising by power of station is shown in Table III.

| NON-NETWORK ADVERTISING BY TYPE OF RENDITION |

As has been evident throughout the past year, transcriptions showed the greatest gain over 1935 of any type of rendition. Total transcription volume rose 50.6%. Live talent volume rose 26.2%, record volume 9.7% and announcement volume 15.5%. Transcriptions accounted for 24.7% of the total amount of non-network sales, live talent 47.9%, records 2.0% and announcements 25.4%. Last year transcriptions accounted for 20.9%, live talent 48.3%, records 2.3% and announcements 28.5%.

In the national non-network field, transcriptions led other types of rendition, rising 53.2% over 1935. Live talent rose 35.6%, records 6.6% and announcements 35.4%. The proportion of total national non-network advertising represented by the various types of rendition is as follows: transcriptions 37.3%, live talent 45.0%, records 0.5%, and announcements 17.2%. In 1935 the proportion was transcriptions 37.7%, live talent 42.9%, records 0.4%, and announcements 19.0%.

Transcriptions also recorded the greatest gain in the local non-network field, rising 41.7% over the 1935 level. Live talent volume rose 18.5%, records 10.2% and announcements 6.9%. Transcriptions comprised 11.0% of the total local non-network sales, live talent 51.2%, records 3.7%, and announcements 34.1%. In 1935 transcriptions amounted to 9.0%, live talent 50.0%, records 3.8% and announcements 37.2%.

Broadcast advertising by type of rendition is presented in Table V.

BROADCAST ADVERTISING SPONSORSHIP

With the exception of drug and confectionery advertising which declined 2.4% and 7.9%, respectively, as compared to the preceding year, all forms of broadcast advertising showed gains during 1936. The miscellaneous group increased to the greatest extent over 1935 rising 63.8%, due mainly to sponsored political broad-
Foodstuffs led the sponsor field, accounting for 18.2% of the total broadcast advertising of the year. This has been the case for the last two years although foodstuffs comprised 19.0% of the total last year. The leading sponsor groups are the same as last year but their places have been changed. During the year just passed foodstuffs accounted for 18.2%, miscellaneous 13.8%, cosmetics 12.0%, drugs 9.6%, automobiles 8.1% and accessories 7.3%. In 1935, foodstuffs accounted for 19.0%,

cosmetics 13.1%, drugs 12.1%, miscellaneous 10.2%, accessories 7.6% and automobiles 7.1%.

Broadcast advertising in 1935 and 1936 by different product and service groups is found in Tables VI(A) and VI(B).

NATIONAL NETWORK ADVERTISING

National network advertising during 1936 experienced a 19.2% increase over the level of 1935. The greatest increase among the various sponsor groups was the miscellaneous group, which rose 153.2%. Principal increases over 1935 were registered in the soap and kitchen supply group which rose 48.2%, the beverage group which increased 48.1% and the automotive group which was 33.3% ahead of last year. Other increases over 1935 were as follows: accessories 10.2%, cosmetics 10.5%, foodstuffs 7.2%, financial 28.1%, radio sets 28.4% and tobacco products 31.9%. Clothing declined 18.9%, drugs 21.6%, confectionery 2.7% and household equipment 26.2%.

The composition of national network advertising changed little with regard to leading sponsor groups. In 1936, cosmetics with 19.1% of the total, led the field. This group was followed by foodstuffs comprising 18.8% of the total, miscellaneous 8.9%, drugs 8.4% and tobacco products and accessories each with 7.9% of the total. In 1935, the leading sponsor groups with their per cent of the total were foodstuffs 20.9%, cosmetics 20.6%, drugs 18.0%, confectionery 2.7% and household equipment 26.2%.

Regional network advertising was 23.1% ahead of the 1935 total. Many increases and decreases of importance occurred. Beverage advertising increased 255.7%, financial advertising 141.8% and the miscellaneous group 66.5%. Other increases were as follows: accessories 60.6%, cosmetics 57.4%, drugs 37.6%, foodstuffs 32.0%, and soaps and kitchen supplies 20.5%. Automotive decreased 13.5%, clothing 90.8%, confectionery 42.7%, household equipment 34.9% and tobacco products 37.7%. Foodstuffs, accessories, miscellaneous, beverage, drug and tobacco advertising sponsor groups were the leaders in total composition. In 1935, sales were heaviest in the foodstuffs, tobacco, accessories, miscellaneous, household equipment and drug sponsor groups.

LOCAL BROADCAST ADVERTISING

Local broadcast advertising over individual stations during 1936 was 15.6% greater than during 1935. The

The greatest increase was registered in the automobile agencies group which rose 43.4% over the 1935 level. Radio retailers increased 23.4%, furniture stores advanced 18.4% and confectionery stores rose 17.1%. Other increases were as follows: miscellaneous 31.8%, clothing stores 15.9%, department stores 14.7%, household equipment dealers 14.4%, grocery stores 13.6%, and restaurants 5.1%. Gasoline station advertising declined 25.9%, drug stores 19.2%, beauty parlors 5.6%, beverage retailers 25.2%, hardware stores 2.8%, and tobacco shops 64.4%.

Broadcast advertising by retail establishments of various types for the year is set forth in Table VII.

BROADCAST ADVERTISING IN DECEMBER

HIGHLIGHTS OF THE MONTH

Broadcast advertising during December amounted to $11,119,557, a decline of 2.6% as compared to the preceding month but a gain of 28.0% as compared to December 1935. National network volume stayed at approximately the same level, local advertising increased 4.4% while regional network and national non-network business experienced declines. All portions of the medium except the regional networks enjoyed increases in business when compared to last December.

Non-network advertising declined 6.1% from the level of the previous month but was 33.7% ahead of the corresponding month of last year. Local station volume alone showed an increase over November. All sections of the country showed a slight decline in volume of non-network advertising. However, all classes of stations and geographical districts were still well ahead of the level of the corresponding month of last year.

Records were the only type of rendition to show an increase in the non-network field. Announcements declined 10.9%, transcriptions 8.8% and live talent 2.5%. Total transcriptions showed the greatest increase when compared to last December, rising 49.3%. In the local field, transcriptions gained 23.7% over November, other types of rendition showing smaller gains. Record volume alone showed an increase in the national non-network field. The following principal increases over November were shown in the sponsor groups: national network drugs and pharmaceuticals, confectionery, financial and radio set advertising; national non-network financial advertising; regional network clothing, drug, foodstuffs and beverage advertising; and local drug, confectionery, and tobacco advertising. National network automotive and financial advertising, regional network drug and accessory advertising; national non-network accessory and tobacco advertising and local drug and foodstuffs advertising showed the principal gains over the corresponding month of last year. Retail advertising amounted to $1,410,480, an increase of 8.7% over November and a gain of 23.3% over December 1935.

TOTAL BROADCAST ADVERTISING

Total broadcast advertising for the month of December is found in Table I.

1 Yearly Adjusted P.I.B. Totals.

Total broadcast advertising declined 2.6% from the previous month's level. National network volume showed a slight increase of less than 1% while local advertising rose 4.4%. Regional network volume experienced the greatest decrease, declining 18.9%. National non-network business decreased 14.3% compared to November.

Only regional network volume showed a decrease when compared to December of last year, declining 21.8%. National network volume increased 25.1%, national non-network business 44.1% and local advertising 24.4%. Total broadcast advertising increased 28.0% over the corresponding month of last year.

COMPARISON WITH OTHER MEDIA

Advertising volume by major media during the month of December is found in Table II.

1 Publishers Information Bureau.

National magazine volume decreased 17%, a usual seasonal decline. Newspaper advertising during December experienced less than the usual seasonal decline, dropping less than 1%. National farm papers registered a gain of 3.8%.
Compared to December 1935, national magazine volume rose 26.7%, national farm paper advertising 39.4% and newspaper lineage 7.5%.

**NON-NETWORK ADVERTISING**

Total non-network advertising declined 6.1% as compared to November but registered a gain of 33.7% over December of last year. The only increase over November was experienced by the local station group which rose 5.7%. Non-network advertising over clear channel and high-powered regional stations declined 9.4% and the volume of the regional station group dropped 6.3%.

All classes of stations showed marked increases over the corresponding month of last year. Clear channel station volume rose 17.8%, regional station business 46.7% and local station business 50.4%.

Non-network advertising by power of station is found in Table III.

Non-network advertising experienced a general decline in volume in all sections of the country during December. Advertising in the New England-Middle Atlantic Area declined 8.2%, South Atlantic-South Central Area 5.9%, North Central Area 1.3% and the Pacific and Mountain Area 12.6%. However, when compared to the corresponding month of the preceding year, all sections of the country showed increases. The gain in the New England-Middle Atlantic Area was 66.1%, the South Atlantic-South Central Area 27.9%, North Central Area 30.5% and the Pacific and Mountain Area 11.2%. Non-network advertising by geographical districts is found in Table IV.

**SPONSOR TRENDS IN DECEMBER**

Drugs and pharmaceuticals, confectionery, financial and radio set advertising showed the principal gains over last month among the various sponsor groups in the national network field. The accessory, clothing and household equipment groups experienced decreases. All groups except accessory and household equipment advertising showed gains when compared to last December. Auto-
motive, confectionery, financial and radio set advertising showed the principal gains.

With the exception of clothing, drug, foodstuffs, and beverage advertising, all groups declined in the regional field as compared to November. The accessory, drug, beverage, and financial groups increased materially over last December.

Financial advertising experienced the only marked increase in the national non-network field when compared to November while the amusement, automotive, and household equipment groups showed the most marked declines. All groups except automotive showed gains as against the corresponding month of last year.

Gains were general in the local field when compared to last month, drug, confectionery, and tobacco groups showing the greatest gains. The automotive, drug, foodstuffs, and department store groups increased materially over last December.

Broadcast advertising during December by the type of sponsoring business is found in Table VI.

Detailed information regarding various sponsor groups during the month of December is as follows:

1a. Amusements. National non-network volume down 55.1% and local advertising up 20.7% as compared to November. Compared to last December, national non-network increased 188.1% and local advertising 33.5%.

1. Automotive. National network volume same as last month. Regional network volume amounted to $950. National non-network and local business declined 55.6% and 28.7%, respectively. National network volume $1,156,000 above December 1935. National non-network down 11.5% and local up 49.3%.

2. Accessories and gasoline. Compared to November, declines as follows: national network 18.8%, regional networks 45.6%, national non-network 30.2%, and local 6.5%. Regional network volume increased 56.3% as compared to the corresponding month of last year. National networks declined 12.8%. National non-network business rose 83.6% and local volume remained the same.

3. Clothing. National networks declined 30.2% as compared to last month. Regional business tripled, while national non-network and local business rose 4.8% and 11.0%, respectively. National network advertising 1.8% above corresponding month of last year. National non-network business up 23.1% and local 19.4%. Regional business declined 41.7%.

4. Drugs and pharmaceuticals. Gains over November as follows: national network 23.7%, regional network twofold, national non-network 3.1%, and local 38.7%. Gains compared to last December as follows: national network 9.1%, regional network fourfold, national non-network 18.8%, and local advertising 61.8%.

5. Toilet goods. National network volume up 1.1%. Regional network business down 38.2%, national non-network 3.2% and local advertising 27.1% compared to November. As against December of the preceding year national network volume increased 21.0% and national non-network business 72.3%. Regional networks dropped 56.3% and local advertising 64.9%.

6. Foodstuffs. Compared to last month, national networks increased 2.2%, regional networks 38.0%, national non-network 2.1% and local business remained the same.
National network volume increased 27.6% as compared to last December. Regional networks declined 16.3% while national non-network and local business rose 55.4% and 51.4%, respectively.

7. **Beverages.** National network volume 3.2% above November. Regional volume up 30.5% and local 6.7%. National non-network down 10.2%. Compared to last December, national networks rose 29.5%, regional networks 49.0% and national non-network 41.8%. Local advertising declined 6.7%.

8. **Confectionery.** National network advertising 47.0% ahead of November. Regional networks down 12.3% and national non-network down 4.0%. Local advertising increased 50.7%. Compared to last December, national networks rose 48.3%, national non-network 9.3% and local 13.3%. Regional network advertising declined materially.

9. **Household equipment.** Compared to last month, national networks declined 25.1%, regional networks 14.7% and national non-network 36.9%. Local advertising increased 26.2% and 17.2%, respectively. Regional network business dropped 47.4%.

10. **Soaps and kitchen supplies.** National network and local advertising 2.4% and 1.1%, respectively, ahead of last month. National non-network advertising declined 31.3% and regional network business materially. Compared to the corresponding month of last year, national networks and national non-network business doubled. Local business declined 38.3%.

11. **Financial and insurance.** Compared to last month, national network volume increased 20.6%, national non-network business 56.4%, and local business 12.8%. Regional network business declined 11.4%. Increases over last December as follows: national network 84.7%, regional network 50.4%, national non-network 68.7%, and local 30.1%.

12. **Radios.** National network volume 46.9% ahead of November. National non-network down 35.5%, local up 8.3%. Gains compared to last December as follows: national networks 42.5%, national non-network 21.1%, and local 27.7%.

13. **Department and general stores.** Regional network advertising 63.7% below last month. National non-network increased 5.1% and local 13.6%. Compared to last December, national non-network increased 24.5% and local advertising 46.3%.

14. **Tobacco products.** Compared to last month, national networks rose 3.2%, national non-network 7.3% and local 33.2%. Regional networks declined 34.3%. National networks 7.2% ahead of last December and national non-network more than tripled. Regional networks and local advertising declined 38.9% and 12.6%, respectively.

15. **Miscellaneous.** Local advertising 4.3% ahead of November. National networks declined 20.9%, regional networks 53.4%, and national non-network advertising 19.7%. Compared to last December, national network volume increased 18.6%, national non-network 45.5% and local advertising 22.5%. Regional network advertising declined 56.3%.

### RETAIL BROADCAST ADVERTISING

Retail broadcast advertising over individual stations increased 8.7% over last month contrary to the usual seasonal decline. Principal gains as compared to November as follows: restaurants 22.6%, confectionery stores 101.6%, radio retailers 16.8%, miscellaneous 50.4%, and department stores 12.8%. Principal declines during the month were beauty parlors, 34.5%, automobile agencies, 22.8%, gasoline stations, 29.9%, and beverage retailers 25.0%.

Retail broadcast advertising for December was 23.3% ahead of the same month of last year. Principal gains were as follows: automobile agencies 44.8%, restaurants 32.9%, furniture stores 31.5%, hardware stores 74.5%, radio retailers 57.8%, and department stores 44.1%. Retail broadcast advertising during the month is found in Table VII.

1928
WASHINGTON RADIO HIGHLIGHTS

No hearing dates have yet been announced at the Capitol for either the Connery resolution to investigate certain phases of broadcasting or the Cellar bill for a government owned Pan-American broadcasting station; Two new radio bills introduced in Congress, one dealing with liquor advertising through broadcasting and the other an amendment to the Communications Act; FCC grants two new stations, one to a newspaper publisher; FCC says flood emergency over for broadcasters.

LIQUOR ADVERTISING BY RADIO

Senator Capper of Kansas has introduced a bill in the Senate (S. 1369) “to prohibit the transportation in interstate commerce of advertisements of alcoholic beverages.” It has been referred to the Senate Committee on Interstate Commerce.

The only section of the bill referring to broadcasting is section 4 which reads as follows:

“It shall be unlawful to broadcast by means of any radio station for which a license is required by any law of the United States, or for any person operating any such station, to permit the broadcasting of any advertisement of alcoholic beverages or the solicitation of an order for alcoholic beverages.”

UNEMPLOYMENT INSURANCE—NEW YORK

The Director of Unemployment Insurance for New York has issued an important ruling concerning artists and radio performers. The following text is taken from Prentice-Hall:

(29,559) Artists and radio performers as independent contractors. Unless the facts in a particular case indicate otherwise, instrumentalists, vocalists, actors, comedians, and other artistic talent engaged by advertising agencies or others for specific radio performances, where the sponsor or advertising agency does not have actual or constructive control over the method of the performance of the work of such persons would be considered “Independent persons” rather than employees under the New York State Unemployment Insurance Law. (U. I. D. Letter 1/27/37.)

TWO NEW BROADCASTING STATIONS

During the current week the Federal Communications Commission has granted a construction permit for a new broadcasting station to Harold F. Gross and Edmund C. Shields at Saginaw, Mich., to use 950 kilocycles, 500 watts power and daytime operation.

A grant for a station permit was also made to the News Press Publishing Company, Santa Barbara, Cal., to use 1220 kilocycles, 500 watts unlimited time on the air.

WALSH RADIO BILL

A bill (S. 1353) has been introduced in the Upper House by Senator Walsh of Massachusetts to amend the Communications Act of 1934 in connection with the actual operation of a broadcasting station. The bill has been referred to the Senate Committee on Interstate Commerce and will be found on page 1937 of this issue.

COLONIAL POULTRY FARMS AND PER INQUIRY ACCOUNTS

The Colonial Poultry Farms are seeking to obtain radio time on a per-inquiry basis. In one of their letters they state: “We pay 25 cents each for inquiries, paying weekly or anyway that suits the station. Some of the stations have us sign a contract, at regular rate card rate, but attach a letter with same in which they guarantee inquiries will not cost over 25 cents and in case they come to less than 25 cents, at rate card rate, we are to pay 25 cents. We are now on eight stations and two of them are 5,000 watt stations. We have been using some of them for years and it has always paid out for the stations.”
What are you, as a member, doing to ferret out that small minority who indulge in practices that are responsible for spoiling all the apples in the barrel?

LOUCKS RETAINED AS SPECIAL COUNSEL

The Managing Director, with the approval of the Executive Committee, this week retained Philip G. Loucks of Loucks & Sharfeld, as special counsel to represent the NAB with respect to certain matters growing out of the suit instituted by the United States Government against the American Society of Composers, Authors and Publishers. Specifically this representation involves only those matters which are directly connected with the efforts of the interested parties to stipulate, as far as possible, the facts in the suit.

This case has been pending in the United States District Court for the Southern District of New York since August 30, 1934. The case was called for trial on June 10, 1934, and after proceeding for about one week was recessed with the understanding that interested parties would endeavor to stipulate the facts.

RADIO DAILY

The Radio Daily, the radio and television's first own newspaper, made its initial appearance as a nationally circulated trade journal on Tuesday, February 9th. Editorial and business offices are located in the Paramount Building, New York City.

In thus pioneering, the Radio Daily parallels the record of its affiliate, the Film Daily, now in its nineteenth year.

Jack Alicoate, editor and publisher of Film Daily, is also publisher of the new newspaper which will be published daily except Saturdays, Sundays and holidays. Bureaus will be maintained, it is said, in Washington, Los Angeles, Chicago and European capitals, while staff correspondents will be stationed in principal American cities.

RADIO FLOOD EMERGENCY OVER

In view of the improvement in conditions with reference to the flooded areas and the need for emergency communications, the special 24-hour watch being maintained at the Federal Communications Commission to handle requests for emergency communications has been discontinued. However, the special communication equipment will be retained for immediate use until after the flood has passed into the Gulf of Mexico.

The Commission is sending two Assistant Chief Engineers, namely, A. D. Ring and A. W. Cruse, into the recently flooded areas for the purpose of ascertaining first-hand knowledge of what lessons have been learned during the recent emergency which would be of benefit to the Commission in coordination of effort in the event of future emergency.

While it has been evident that the various Communications agencies in the country have functioned admirably under adverse conditions, it is believed that this recent experience may offer some basis for improved coordination of effort in the future, and the Commission feels that it is its duty to cooperate with other government departments as well as private agencies in effecting a comprehensive plan for the future, based upon practical experience.

The objective of the Commission is to be fully prepared for future emergencies. To this end the Commission is planning a permanent organization which can go into instant action whenever emergencies arise in any part of the country.

The Commission has also cancelled its order of January 26, which directed that no transmissions except those relating to relief work or to other emergencies be made within any of the authorized amateur bands below 4000 kilocycles.

In resuming normal operation, amateurs should make certain before going on the air that routine communications do not interfere with any messages which might still be handled in connection with the emergency flood situation.

The Commission expressed its appreciation for the splendid cooperation and excellent work of all stations and operators during the emergency.

RECOMMENDS AGAINST NEW CALIFORNIA STATION

George Harm filed an application with the Federal Communications Commission asking for a construction permit for the erection of a new broadcasting station at Fresno, Cal., to use 1310 kilocycles, 100 watts power and unlimited time on the air.

Examiner R. H. Hyde in Report No. 1-352 recommended that the application be denied. The Examiner did not find that there is need for additional broadcast service in the area proposed to be served and he states that "no facts were presented to indicate that Station KMJ has not or cannot adequately supply the needs of the area proposed to be served."

POWER INCREASE RECOMMENDED FOR WAAB

Broadcasting station WAAB, Boston, Mass., operating on 1410 kilocycles, full time with 500 watts applied to the Federal Communications Commission to increase its power to 1,000 watts in the daytime.

Examiner Robert L. Irwin in Report No. I-355 recommended that the application be granted. He found that there is a need for such additional daytime service in the area proposed to be served as may be effected by the proposed modification. The Examiner states also that
the granting of this application would not cause any objectionable interference to the fair and efficient service of any other licensed station or stations."

GRANT FOR KENTUCKY STATION RECOMMENDED

The Owensboro Broadcasting Company applied to the Federal Communications Commission for a construction permit for the erection of a new broadcasting station at Owensboro, Ky., to use 1,500 kilocycles, 100 watts and unlimited time on the air.

Examiner R. H. Hyde in Report No. I-354 recommended that the application be granted. He found that there is a need for a local service in the area proposed to be served and the operation of the proposed station would "not cause any substantial interference to the fair and efficient service of any other station or stations."

RECOMMENDS NEW MASSACHUSETTS STATION

Hildreth & Rogers Company filed an application with the Federal Communications Commission asking for a construction permit for the erection of a new broadcasting station at Lawrence, Mass., to use 680 kilocycles, 1,000 watts power and daytime operation. Also the Old Colony Broadcasting Corporation, asked for a construction permit for a new station at Brockton, Mass., to use the same frequency and time; with 250 watts power.

Examiner Ralph L. Walker in Report No. I-353 recommended that the application of Hildreth & Rogers Company be granted but that of the Old Colony Broadcasting Corporation be denied. The Examiner states that it is impossible to grant both applications. The proposed Lawrence station, he states would not cause any objectionable interference but as to whether the Brockton station would cause interference "the record affords no basis for a conclusion." The Examiner says further that "the city of Lawrence is without consistently satisfactory daytime service from existing stations, whereas several stations afford a signal of sufficient strength to render satisfactory service to residential sections of Brockton outside of the areas of unusually high noise level. As between the two cities, the greater need for daytime service is in Lawrence."

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

No. 3044. Charging unfair competition in the sale of rotary clocks and other merchandise, a complaint has been issued against Joseph H. and S. J. Robinson, 318 West Washington St., Chicago, trading as J. Arthur Warren Co.

The respondents are alleged to conduct lotteries or place in the hands of others the means of conducting lotteries in the sale of merchandise through a pushcard method in which chances are sold to persons selecting feminine names on a pushcard.

According to the complaint, there are 32 such names and 32 mixed numbers on the card. Persons drawing numbers under 29 pay what the respective numbers call for and those receiving numbers over 29 pay 29 cents. When a card is completely sold, two large seals at the top of the card are opened and the persons who selected names corresponding with those under the seals receive rotary clocks.

No. 3045. Melster Candy Co., Cambridge, Wis., is charged in a complaint with selling candy so packed and assembled that sales to ultimate purchasers are made by means of a lottery involving use of push cards, in violation of Section 5 of the Federal Trade Commission Act.

No. 3046. A complaint has been issued against Miliko Cone & Baking Co., Inc., 431 North Lincoln St., Chicago, charged with selling ice cream cones so packed and assembled as to involve the use of a lottery scheme when sales are made to ultimate purchasers.

The respondent corporation allegedly places in the cones it manufactures small strips of paper bearing various legends, a few of which inform ultimate purchasers that they will receive a package of gum free. The slips are said to be so placed in the cones that a purchaser cannot ascertain whether or not he is entitled to receive a free package of gum until the cone has been partially consumed.

No. 3047. Selected Kentucky Distillers, Inc., 305 West Broadway, Louisville, Ky., is charged in complaint with falsely representing, through use of the word "Distillers" in its corporate name, on labels, or otherwise, that it manufactures through the process of distillation alcoholic beverages it sells in interstate commerce. According to the complaint, the respondent corporation is a wholesaler of liquors.

False representations allegedly made in the respondents' advertising matter are to the effect that "Pedodyne" will banish, cure and heal bunions, will stop pain and reduce swelling and inflammation caused by bunions, and will give perfect foot comfort and permanent results.

The respondents are alleged to have falsely disparaged the products of competitors by advertising that "Pedodyne" is superior to other bunion treatments and that competing products are of no value.

No. 3049. Alleging unfair competition in the sale of leather luggage, a complaint has been issued against Samuel Brier, trading as Samuel Brier & Co., 310 Spruce St., Philadelphia, and Quakertown Luggage Co., Inc., Quakertown, Pa., controlled and managed by Brier.

Charging violation of Section 5 of the Federal Trade Commission Act, the complaint alleges that certain designations used by the respondent companies to describe luggage offered for sale tend to mislead buyers into the belief that it was covered with the outside or top layer of the hide when, in fact, the luggage so designated was made from split leather which consists of the cut or layer of the hide remaining after the top grain or surface layer has been removed. Such split leather is of inferior quality and durability to top grain leather and commands a lower price, the complaint points out.

No. 3050. Unlawful trade practices involving use of unfair methods of competition, exclusive dealing contracts and price discrimination are alleged in a complaint issued against Christmas Club, 341 Madison Ave., New York City, a corporation engaged in the sale of passbooks, account books, advertising literature and other paraphernalia for use by banks and trust companies in conducting Christmas Clubs and other savings systems.

The respondent corporation's practices are said to constitute violations of the Federal Trade Commission Act, the Clayton Act and the Robinson-Patman Anti-Price Discrimination Act.

Under Section 5 of the Federal Trade Commission Act, the respondent corporation is charged with representing, in connection with the sale of its systems, that it is the sole owner of and has exclusive right to use the phrase "Christmas Club," that such phrase is trade-marks by it, and that no one without its consent or license has the right to use the name "Christmas Club." According to the complaint, these representations are false in that...
the phrase "Christmas Club" is not owned solely by the respondent corporation, is not trade-marked, and may be used without its consent, permission or license.

Stipulations and Orders
The Commission has issued the following cease and desist orders and stipulations:

Nos. 2391-2394. Three companies selling and distributing alcoholic beverages have been ordered to discontinue representing that they are distillers, when such is not a fact.

The orders to cease and desist are directed against Quality Distillers, Inc., 824 South Flower St., Los Angeles; Charles B. Trull, trading as West Coast Distilleries Co., 658 Howard St., San Francisco; and Mount Rose Distilling Co., 2192 East State St., Trenton, N. J. These respondents are prohibited from representing, through use of some form of the word "distillery" in their corporate or trade names, on labels, or otherwise, that they are distillers of whiskies, gins, and other spirituous beverages; that they manufacture such products through the process of distillation, or that they own or operate distilleries, unless or until they do own or operate such places.

Nos. 2398-2433-2473. Paramount Distillers, Inc., 3088 West 106th St., Cleveland, and Hercules Products & Distilling Corporation, 52 Sand St., Brooklyn, have been ordered to cease representing through use respectively of the words "Distillers" and "Distilling" in their corporate names, on labels, or otherwise, that they are distillers of the whiskies, gins or other spirituous beverages they sell in interstate commerce; that they manufacture such products through the process of distillation, or that they own or operate distilleries, unless and until they do own or operate such places.

The orders except from their provisions gins manufactured by the respondent companies through a process of rectification whereby alcohol, purchased but not produced by them, is redistilled over juniper berries and other aromatics.

Under the third order, the Commission closed its case against Edward A. and Samuel Katz, trading as Globe Distilling Co., 522 West Garfield St., Glendale, Calif., who had been charged with unfair competition through use of the word "Distilling" in their trade name and in advertising matter.

No. 2496. Lott, Inc., 40th Ave. and 9th St., Long Island City, N. Y., large candy manufacturer, has been ordered to cease and desist from falsely disparaging the candy products of its competitors. The case grew out of the advertising campaign and sales program conducted by that company during 1934 and 1935.

The Commission's order also is directed against Dr. Daniel R. Hodgdon, New York City, who according to the findings, joined with Lott, Inc., in conducting a campaign of false disparagement. It was found that Dr. Hodgdon is not a doctor of medicine, but that he delivered a series of lectures over the radio, which were sponsored by Lott, Inc., and directed against glucose as a candy or food ingredient.

No. 2539. David R. Hodgdon and National Food Bureau, Inc., both of 378 Greenwich St., New York City, have been ordered to discontinue making false and misleading representations and disparaging statements in advertising and promoting the sale of peanut oil.

Engaged by a manufacturer of peanut oil to conduct a sales promotional campaign, the respondents, according to the findings, used the radio principally in advertising the product with Hodgdon broadcasting the lectures and addresses.

The order directs the respondents to stop representing that peanut oil or food products made therefrom are superior to or easier to digest than corn oil or cottonseed or food made therefrom, and that corn oil or cottonseed oil food products are cheap commodities which are impure, unwholesome and unfit for human consumption.

No. 2624. An order to cease and desist has been issued against Carlo Van Myers, formerly of 818 Broadway, New York City, requiring him to discontinue certain unfair methods of competition in the retail sale of ready-to-wear clothing in both interstate commerce and local markets.

Myers had been in business under the trade names North American Clothes Co., National Brand Clothes Co., Sartorial Art Clothes Co., and Society Bond Clothes Co.

Selling his clothing in various states by means of salesmen, who, according to the findings, and finding that "Salesmen Wanted" advertisements without adequate investigation as to their fitness, honesty, or reliability, the respondent is found to have made various misrepresentations through such salesmen.

Among such representations prohibited in the order to cease and desist, are the following: That the clothing sold is all wool, of fine quality, or ready-to-wear, or tailor-made, or will finish the same material as samples exhibited, unless and until the latter condition is a fact; that two garments are included in the price of one and extra trousers are furnished without extra charge; that prices quoted are special introductory prices or are other than the regular prices, unless they are in fact lower than the regular prices charged.

No. 2721. An order has been entered accepting a stipulation in settlement of a complaint against R. M. Barnett, trading as Home and School Education Society, Real Estate Trust Building, Philadelphia, who had been charged with unfair competition in the sale of an encyclopedia entitled "Source Book," together with a semi-annual loose leaf extension service and memberships in a Perpetual Bureau of Research.

Barnett stipulated that he will desist from representing in advertising matter or through salesmen that "Source Book" is given free to persons who subscribe for the extension service; that the total cost of the book and service is less than the amount actually required to be paid, and that the book has been approved and used by schools and libraries in every state of the Union.

Under the stipulation, Barnett agreed to cease representing that he maintains a research bureau which will give purchasers of "Source Book" information on any question; that he maintains educators, writers and photographers in every part of the world to prepare a review of current events to be published as loose-leaf extensions to such book; that he employs a competent staff to whom are available authorities in every branch of education, and that the services of such staff and of the editors of and contributors to "Source Book" are available to purchasers of the book.

No. 2981. An order to cease and desist has been issued against Israel Zelkind, 9-13 Winter St., Worcester, Mass., trading as Lawrence Blanket Mills and engaged in the sale of blankets in interstate commerce.

Zelkind is directed to discontinue use of the word "woolen" or the words "all wool," alone or in connection with other words, to describe blankets not made of wool, and of the words "wool" or "woolen" to imply that the articles to which they refer are composed of wool, when this is not a fact. The respondent also is directed not to represent blankets as "fully shrunk," when this is not a fact.

FTC CASES CLOSED

No. 1927. The Federal Trade Commission has cancelled its complaint, issued January 26, against L. H. and W. C. Hyde, trading as Royal Film Studios; Royal Revues, Inc., and West Coast Discount Corporation, Ltd., because these respondents have signed a stipulation, which has been accepted by the Commission, agreeing to discontinue unfair methods of competition in connection with the renting and leasing of motion picture films for advertising purposes.

According to the stipulation, the respondents, who have their place of business at 6644 Santa Monica Boulevard, Hollywood, Calif., are engaged in the production of entertainment-advertising films for display in motion picture theaters, such films consisting of short acts with merchant advertisers displayed across the lower part of the screen.

Among the representations which will be discontinued are the following:

That the films will be equal in quality to and the same length as samples shown, unless such are the facts; that the contracts which customers sign can be canceled after two months, unless this privilege is granted as represented; that no other merchant engaged in the same business as the customer will be placed on the same film with him, unless this restriction is observed; that the price paid by the customer for the film is the entire cost of the service, unless he is informed that additional sums must be paid to the local motion picture exhibitor, and that West Coast Discount Corporation, Ltd., is an innocent purchaser for value of the promissory notes and securities given by subscribers to Royal Film Studios or Royal Revues, Inc.

No. 2930. The Commission has closed its case against Electric Paint & Varnish Co., 8311 Franklin Ave., Cleveland, charged with false and misleading representations in the sale of its products in violation of Section 5 of the Federal Trade Commission Act.

The case was closed without prejudice to the Commission, if, according to the findings, the respondents did not resume prosecution in accordance with its regular procedure and upon the understanding that closing of this case is based on the record and is not to be regarded as a precedent.
No. 2571. The Commission has also entered an order closing its case against American Safety Razor Corporation, 315 Jay St., Brooklyn, which had been charged with discriminating in price between different purchasers of its razor blades, in violation of Section 2 of the Clayton Act. The alleged discrimination grew out of the practice of allowing certain purchasers commissions or other discounts because of advertising or promotion service rendered.

No. 2818. The Commission has issued an order closing its case against the Vogan Candy Corporation, 329 N. E. Eleventh Ave., Portland, Ore., which was charged with unfair competition in the sale of candy. Closing of the case was based on information that the respondent company has not engaged in the manufacture and sale of candies since August 19, 1936; that its physical assets have been dismantled and sold, and that it appears likely the company will not resume the violations of law alleged. The case was closed without prejudice to the Commission’s right to reopen it should future circumstances warrant.

No. 2927. An order has been entered by the Commission closing its case against F. A. North Co., and others, 1306 Chestnut St., Philadelphia. The respondents had been charged with false and misleading representations in connection with the sale of pianos.

The Commission reserved the right to reopen the case and resume prosecution of the complaint in accordance with its regular procedure if the facts should warrant.

FEDERAL COMMUNICATIONS COMMISSION
ACTION
HEARING CALENDAR
The following broadcast hearings are scheduled at the Commission for the week beginning Monday, February 15:

Monday, February 15
HEARING BEFORE AN EXAMINER
(Broadcast)
NEW—John S. Braun, Waco, Tex.—C. P., 1500 kc., 100 watts, daytime.
NEW—The Louisville Times Co., Louisville, Ky.—C. P., 1210 kc., 100 watts, unlimited time.
WMEX—The Northern Corporation, Boston, Mass.—C. P., 1470 kc., 5 KW, unlimited time.

FURTHER HEARING BEFORE AN EXAMINER
WCOP—Massachusetts Broadcasting Corp., Boston, Mass.—Modification of license, 1130 kc., 500 watts, limited time until LS at KSL, Salt Lake City.

Tuesday, February 16
HEARING BEFORE AN EXAMINER
(Broadcast)
NEW—Lillian E. Kiefer, Brooklyn, N. Y.—C. P., 1500 kc., 100 watts, 100 watts LS, specified hours (requests facilities of WMBQ).
WWRL—Long Island Broadcasting Corp., Woodside, L. I., New York, N. Y.—Modification of license, 1500 kc., 100 watts, 250 watts LS, specified hours (requests facilities of WMBQ). Present assignment: 1500 kc., 100 watts, 250 LS, specified hours.
NEW—Paul J. Gollihofer, Brooklyn, N. Y.—C. P., 1500 kc., 100 watts, 100 watts LS, specified hours (requests facilities of WMBQ).
WMBQ—Metropolitan Broadcasting Corp., Brooklyn, N. Y.—Renewal of license, 1500 kc., 100 watts, 100 watts LS, specified hours.
WMBQ—Metropolitan Broadcasting Corp., Brooklyn, N. Y.—C. P., 1500 kc., 100 watts, 100 watts LS, specified hours.

Wednesday, February 17
HEARING BEFORE AN EXAMINER
(Broadcast)
NEW—Sharon Herald Broadcasting Co., Sharon, Pa.—C. P., 780 kc., 350 watts, daytime.
NEW—Allen T. Simmons, Mansfield, Ohio.—C. P., 780 kc., 1 KW, daytime.

KLP—John B. Cooley, Minot, N. Dak.—C. P., 1300 kc., 1 KW, unlimited time.
NEW—Frazier Reams, Mansfield, Ohio.—C. P., 1370 kc., 100 watts, daytime.

Thursday, February 18
ORAL ARGUMENT BEFORE THE BROADCAST DIVISION
Examiner’s Report No. I-317:
Examiner’s Report No. I-127:
NEW—Bellingham Publishing Co., Bellingham, Wash.—C. P., 1420 kc., 100 watts, unlimited time.
Examiner’s Report No. I-283:
NEW—Gomer Thomas, Bellingham, Wash.—C. P., 1420 kc., 100 watts, unlimited time.
Examiner’s Report No. I-309:
KVOS—KVOS, Inc., Bellingham, Wash.—Renewal of license, 1200 kc., 100 watts, unlimited time.
KVOS—KVOS, Inc., Bellingham, Wash.—Transfer of control of corporation; 1500 kc., 100 watts, unlimited time.

Friday, February 19
HEARING BEFORE AN EXAMINER
(Broadcast)
NEW—Okmulgee Broadcasting Corp., Okmulgee, Okla.—C. P., 1210 kc., 100 watts, daytime.
NEW—Times Publishing Co., Okmulgee, Okla.—C. P., 1210 kc., 100 watts, daytime.
NEW—The Record Publishing Co., Okmulgee, Okla.—C. P., 1210 kc., 100 watts, daytime.
NEW—Richard S. Gozali, d/b as Oak Cliff-Dallas County Broadcasting Co., Dallas, Tex.—C. P., 1500 kc., 100 watts, daytime.
NEW—A. L. Chilton, Dallas, Tex.—C. P., 990 kc., 1 KW, daytime.

APPLICATIONS GRANTED
KOTN—Universal Broadcasting Corp., Pine Bluff, Ark.—Granted C. P. approving transmitter and studio sites, and installation of vertical radiator.
WBCA—B. Bryan Musseman, Allentown, Pa.—Granted license to cover C. P. as modified; 1440 kc., 500 watts night and day, sharing with WSAN.
WSAN—WSAN, Inc., Allentown, Pa.—Granted license to cover C. P. as modified; 1440 kc., 500 watts night and day, sharing with WBCA.
KFRU—KFRU, Inc., Columbia, Mo.—Granted license to cover C. P.; 630 kc., 500 watts night, 1 KW day, share with WGBF, simultaneous day WGBF.
Koca—Oill Capital Broadcasting Ass’n, Kilgore, Tex.—Granted license to cover C. P. as modified; 1210 kc., 100 watts, unlimited.
KWS—State College of Washington, Pullman, Wash.—Granted license to cover C. P.; 1290 kc., 1 KW night, 5 KW day, sharing KTW.
KGL—Mason City Globe Gazette Co., Mason City, Iowa.—Granted license to cover C. P. as modified; 1210 kc., 100 watts, unlimited.
KWOS—Tribune Printing Co., Jefferson City, Mo.—Granted license to cover C. P. as modified; 1210 kc., 100 watts, unlimited.
KSO—Iowa Broadcasting Co., Des Moines, Iowa.—Granted license to cover C. P. as modified; 1430 kc., 500 watts night, 255 KW day, unlimited.
KAWM—A. W. Mills, Gallup, N. Mex.—Granted modification of C. P. approving transmitter and studio at 1100 E. Aztec Ave.
WJZ—National Broadcasting Co., Inc., New York City.—Granted modification of license to reduce operating power of auxiliary transmitter from 30 KW to 25 KW, and granted renewal of license of auxiliary transmitter for the period 2-1-37 to 8-1-37.

1933
SET FOR HEARING

NEW—Abraham Plotkin, Chicago, Ill.—Application for C. P. for new station: 1570 kc., 1 KW, unlimited.

NEW—James R. Doss, Jr., Mobile, Ala.—C. P. for new station to operate on 1500 kc., 100 watts, daytime only, exact transmitter site to be determined with Commission's approval.

NEW—Staunton Broadcasting Co., Inc., Staunton, Va.—Application for C. P. amended to request 1300 kc., 250 watts, daytime only, exact location to be determined subject to Commission's approval.

KIDO—Frank L. Hill and C. G. Phillips, d/b as Boise Broadcast Station, Boise, Idaho.—Application for C. P. for changes in equipment; increase in power to 5 KW. To be heard before the Broadcast Division.

WMBJ—Joplin Broadcasting Co., Joplin, Mo.—Application for C. P. amended to request move of transmitter and studio sites locally; install new equipment and directional antenna system for nighttime operation; change frequency from 1420 kc. to 1380 kc., power from 100 watts night, 250 watts day, unlimited, to 500 watts, unlimited.

KGKO—Wichita Falls Broadcasting Co., Fort Worth, Tex.—Application for modification of C. P. approving transmitter location near Ft. Worth; install new equipment and directional antenna for nighttime use; increase night power from 250 watts to 1 KW, day power from 1 KW to 5 KW.

KJBS—Julius Brunton & Sons Co., San Francisco, Calif.—Application for modification of license to change frequency from 1070 kc. to 1080 kc.

KFEQ—K F E Q, Inc., St. Joseph, Mo.—Application for modification of license to increase hours of operation from daytime only to unlimited. Present authority: 680 kc., 2½ KW, daytime only. To be heard before the Broadcast Division.

WMFR—Radio Station WMFR, Inc., High Point, N. C.—Application for modification of license to increase hours of operation from daytime to specified hours, 6 a.m. to 7:30 p.m. Now operates on 1200 kc., 100 watts, daytime only.

WIOD-WMBF—Isle of Dreams Broadcasting Corp., Miami, Fla.—Application for modification of license to change frequency from 1300 kc. to 610 kc.

WKY—WKY Radiophone Co., Oklahoma City, Okla.—Application for modification of license to increase night power from 1 KW to 5 KW. To be heard before the Broadcast Division.

KGFF—KGFF Broadcasting Co., Inc., Shawnee, Okla.—Application for modification of license to change frequency from 1420 kc. to 1430 kc.; increase power from 100 watts night, 250 watts day, unlimited, to 250 watts, unlimited.

KHQ—Louis Wasmier, Inc., Spokane, Wash.—Application for modification of license to increase night power from 1 KW to 5 KW. To be heard before the Broadcast Division.

KYOS—Merced Star Publishing Co., Inc., Merced, Calif.—Application for modification of license to change frequency from 1040 kc. to 1260 kc.; increase hours of operation to unlimited.

NEW—Earle Yates, Las Cruces, N. Mex.—Application for C. P. amended to request 930 kc., 500 watts, daytime only; exact transmitter site to be determined with Commission approval.

Applications dismissed

The following applications, heretofore set for hearing were dismissed at request of applicants:

APPLICATIONS DENIED

The following application, heretofore set for hearing, was denied as in cases of default for failure to file an appearance and statement of facts in accordance with Rule 104.6(c):

RATIFICATIONS

The Broadcast Division ratified the following actions authorized on the dates shown:

WOPT—R. H. Smith, Bristol, Tenn.—Granted authority to use 250 watts output on 1500 kc. for handling emergency communications only.

KLCN—Station KLCN, Blytheville, Ark.—Granted authority to operate with 250 watts power for transmission of emergency flood and relief communications only.

WREC—WREC, Inc., Memphis, Tenn.—Granted authority to operate by terms of Rule 23 to use 5 KW power and operate nondirectional antenna at night while transmitting emergency messages only.
NEW—Nichols & Warinner, Long Beach, Calif.—Granted authority to use stations W6XXL and K1FO as licensed extensions of station KFV during period February 5 to 20 provided Commission is advised by telegram sent before each broadcast, the requirements of Rule 1002. Program in re settlement of Maritime strike in vicinity of San Pedro Harbor.

W10XFR-W10XFP—National Broadcasting Co., Inc., New York.— Granted authority to operate as licensed on February 6 to 15 to broadcast inquiring reporter, San Francisco, Calif.

WKRC—WKRC, Inc., Cincinnati, Ohio.— Granted extension of special emergency authority to operate as licensed on February 5 to 20 provided tests permitted 4:20 a.m. to 4:40 a.m., EST, February 8, due to Commission monitoring schedule.

WKAB-W6XKF-W6XLN-W10XGK—Ben S. McGlashan, Los Angeles, Calif.—Granted authority to operate WKAB with non-directional antenna while actually transmitting emergency messages in accordance with Rule 23 and the use of KILB and KABH for emergency message service only throughout emergency.

WRU—City of Dallas, Dallas, Tex.—Granted extension of special temporary authority to suspend tests on station KVPA’s transmitter by WRU as an auxiliary transmitter, as required by Sec. D of Rule 148, for period January 30 to February 8, pending necessary changes to comply with Rule 132. Application granted, Order effective February 10, 1937.

WSPR—Connecticut Valley Broadcasting Co., Springfield, Mass.— Granted special temporary authority to operate from 11 p.m., February 8, to 1:30 a.m., February 9, 1937 (instead of February 9 and 10 as authorized in grant of February 2), in order to broadcast a theater benefit for Red Cross Flood Relief.

WAAJ—Crosley Radio Corp., Cincinnati, Ohio.—Granted special temporary authority to operate relaybroadcast station on frequencies 1622, 2058, 2150 and 2790 kc., 50 watts, for period February 5 to February 11, to feed WMIC and/or WLW within radius of 200 miles of Memphis, Tenn.

WHAZ—Renssalaer Polytechnic Institute, Troy, N. Y.—Granted special temporary authority to operate during daytime hours until 4:30 p.m., EST, for the period February 8 to February 12, with power of 500 watts.

WFMB—Plattsburg Broadcasting Corp., Plattsburg, N. Y.—Granted special temporary authority to operate from 5:30 p.m. to 10:30 p.m., EST, February 9, 12, 13, 19 and 20, 1937, (using 100 watts) to broadcast special sporting events from Lake Placid and a special Kiwanis Luncheon at Plattsburg.

KAAS—Transcontinental & Western Air, Inc., Washington, D. C.—Granted special temporary authority to operate regularly licensed aircraft transmitter KHART aboard Douglas Type plane, as a relay broadcast station on one day from February 6 to 10, inclusive, on the frequencies 2790 kc. and/or 2150 kc., plane flying over Los Angeles, in connection with demonstration of a special shielded loop antenna developed and to be broadcast over CBS national hookup.

The Broadcast Division granted the petition of Pape Broadcasting Corp., (WALA) Mobile, Ala., to intervene in the proceedings upon the application of H. O. Davis, Mobile, Ala., for C. P. Docket No. 4298.

The Broadcast Division granted the petition of Liner’s Broadcasting Corporation, Inc. (KMLB), to intervene in the proceedings upon the application of Southland Industries, Inc. (WOAI), San Antonio, Tex., for C. P. Docket No. 4165.

The Broadcast Division granted the petition of T. E. Kirksey, Waco, Tex., to intervene in the proceedings upon the application of John S. Braun, for C. P. for new station at Waco, Docket No. 3914.

The Broadcast Division waived Rule 105.20 and granted the petition of Arkansas Broadcasting Co., Hot Springs, Ark., to intervene in the proceedings upon the application of Arkansas Broadcasting & Equipment Co., Inc. (KARK) for Mod. of C. P. Docket 4263.

The Broadcast Division granted the petition of The Outlet Company, Providence, R. I., to intervene in the proceedings upon the application of Bay State Broadcasting Corp. for new station at Providence, R. I. Docket 4128.

The Broadcast Division granted the petition of John B. Cooley (KLPM) for permission to amend his application for C. P. to increase power, so as to specify 500 watts power at night instead of 1 KW. Docket 4211.

The Broadcast Division granted the petition of W. P. Stuart and directed that the effective date of its order of December 1, 1936, in granting and denying respectively, the applications of Southwest Broadcasting Co., Prescott, Ariz., for C. P. Docket 3797, and W. P. Stuart, Prescott, Ariz., for C. P. Docket 3906, be extended to February 5, 1937.

The Broadcast Division denied the motion and supplemental motion of Woodman of the World Ins. Assn., respondent, for postponement of Oral Argument upon the application of WKZO, Docket 4241, now scheduled for February 4, 1937.

ACTION ON EXAMINERS’ REPORTS

NEW—Ex. Rep. No. 1-269: W. T. Knight, Jr., Savannah, Ga.—Denied C. P. for new broadcast station to operate on 1310 kc., 100 watts, unlimited time (site to be determined, subject to Commission’s approval). Examiner M. H. Dalberg sustained.

NEW—Ex. Rep. No. 1-283: Mrs. Jack E. Brantley, and Jack E. Brantley, Jr., Savannah, Ga.—Denied C. P. for new broadcast station to operate on 1310 kc., 100 watts, unlimited time (site to be determined subject to Commission’s approval). Examiner Dalberg reversed.

RENEWAL OF LICENSES

The following stations were granted renewal of licenses for the regular period:

MISCELLANEOUS

Monongahela Valley Broadcasting Co., Fairmont, W. Va.—Granted petition for acceptance of answer in re proceedings upon application of KARK, Little Rock, Ark., for modification of C. P. scheduled to be heard February 9, 1937. This application was for increase in power from 500 watts night, 1 KW LS, to 1 KW day and night.

Earl Weir, St. Petersburg, Fla.—Denied petition asking Broadcast Division to reconsider its action in remanding to dockets application for new radio station for further action. The application is for a new station to operate on 1370 kc., 100 watts, unlimited time.

Waterloo Times-Tribune, Waterloo, Iowa.—Granted petition to intervene at hearing of application of W. H. Hartman Co. (Docket 4340) for a new broadcast station at Waterloo, Iowa, to operate on 1420 kc., 100 watts, unlimited time.

WOKO—WOKO, Inc., Albany, N. Y.—Granted petition to intervene in hearing of application of Troy Broadcasting Co., for permit to erect a new radio broadcasting station at Troy, N. Y., to operate on 930 kc., 1 KW, daytime, scheduled to be heard on March 16, 1936.

ORAL ARGUMENT GRANTED

PETITION DENIED

The Commission denied the petition of the Winston-Salem Journal Company for a rehearing in the matter of the application of C. G. Hill, George D. Walker, and Susan H. Walker, to erect a new 250-watt broadcasting station at Winston-Salem, N. C., to operate on 1250 kc., daytime (Ex. Rep. 1-217), which was granted by the Broadcast Division on September 29, 1936.

Judge Sykes voted to remand the case to the dockets for rehearing.

PERMIT EXTENDED

The Commission in a general session extended the effective date of a construction permit issued to Dorrance D. Roderick, El Paso, Texas, from January 21, to 3 a.m. February 25. This is an authorization to construct and operate a new broadcast station in Texas, from January 21, to 3 a.m. February 25. This is an extension and completion dates.

APPLICATIONS RECEIVED

First Zone

WTAG—Worcester Telegram Publishing Co., Inc., Worcester, Mass. 580 —License to cover construction permit (B1-P-1153) for directional antenna, move of transmitter and increase in power.

NEW—Colonial Broadcasting Co., Morristown, N. J.—Construction permit for a new station to be operated on 620 kc., 1 KW, unlimited time. Directional antenna for night use.

WNRI—S. George Webb, Newport, R. I.—Voluntary assignment of construction permit for a new station to be operated on 620 kc., 1 KW, unlimited time. Directional antenna for night use.

KADA—C. C. Morris, Ada, Okla.—Modification of license to include the frequency of 15290 kc.

KARA—World Publishing Co., Jersey City, N. J.—Denied joint petition for a new high frequency broadcast station to be operated on 15290 kc., 100 watts, unlimited time.

Second Zone

NEW—The Birmingham News Co., Birmingham, Ala.—Construction permit for a new station to be operated on 590 kc., 500 watts night, 1 KW daytime, unlimited time. Amended: To change power from 500 watts night, 1 KW day to 1 KW day and night.

KARA—World Publishing Co., Jersey City, N. J.—Denied joint petition for a new high frequency broadcast station to be operated on 15290 kc., 100 watts, unlimited time.

KARA—World Publishing Co., Jersey City, N. J.—Denied joint petition for a new high frequency broadcast station to be operated on 15290 kc., 100 watts, unlimited time.

Third Zone

NEW—The Birmingham News Co., Birmingham, Ala.—Construction permit for a new station to be operated on 590 kc., 500 watts night, 1 KW daytime, unlimited time. Amended: To change power from 500 watts night, 1 KW day to 1 KW day and night.

KARA—World Publishing Co., Jersey City, N. J.—Denied joint petition for a new high frequency broadcast station to be operated on 15290 kc., 100 watts, unlimited time.

KARA—World Publishing Co., Jersey City, N. J.—Denied joint petition for a new high frequency broadcast station to be operated on 15290 kc., 100 watts, unlimited time.

Fourth Zone

KLPM—John B. Cooley, Minot, N. Dak.—Construction permit to 1240 make changes in equipment, install vertical antenna, change frequency from 1240 kc. to 1360 kc., change power from 250 watts to 1 KW day and night, change time from specified hours to unlimited and move transmitter locally. Amended: To change power to 500 watts, 1 KW day.

KOB—Black Hills Broadcast Co. (Robert Lee Dean), Rapid 1370 City, S. Dak.—Construction permit to increase power from 100 watts to 100 watts night, 250 watts daytime and install new transmitter. Also make changes in antenna. (Filed in name of Black Hills Broadcast Co. of Rapid City.)

XXX—Columbia Broadcasting System, Inc., Chicago, Ill.—Extension of authority to transmit programs to stations CFRB, Toronto and CKAC, Montreal and to stations of the Canadian Radio Commission or its successor.

Fifth Zone

NEW—Dan B. Shields, Provo, Utah.—Construction permit for a new station to be operated on 1200 kc., 100 watts, unlimited time.
WALSH RADIO OPERATORS BILL
S. 1353
IN THE SENATE OF THE UNITED STATES
February 1 (calendar day, February 3), 1937
Mr. Walsh introduced the following bill; which was read twice and referred to the Committee on Interstate Commerce

A BILL
To amend section 318 of the Communications Act of 1934.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 318 of the Communications Act of 1934 is hereby amended to read as follows:

"Sec. 318. The actual operation of all transmitting apparatus in any radio station for which a station license is required by this Act shall be carried on only by a person holding an operator's license issued hereunder, and no person shall operate any such apparatus in such station except under and in accordance with an operator's license issued to him by the Commission: Provided, however, That the Commission may waive or modify the foregoing provisions of this section for the operation of any station except (1) stations for which licensed operators are required by international agreement, (2) stations for which licensed operators are required for safety purposes, (3) stations engaged in broadcasting, and (4) stations operated as common carriers on frequencies below thirty thousand kilocycles."
WASHINGTON RADIO HIGHLIGHTS

FCC answers questions of Senator Wheeler

Hampson Gary, FCC General Counsel, says Commission now has no authority to prevent newspapers from owning broadcast stations. Suggests such legislation would be constitutional. Commission informs Wheeler in detail of stations owned by newspapers and chains and controlled by both interests. Possibility that freedom of the press might be involved. As result of answer Senator Wheeler has announced that he will introduce a bill to prevent newspapers from obtaining more stations and possibly make them give up those they already own. Craney (KGIR) addresses open letter to the Congress of the United States. Makes answer to ASCAP and proposes an amendment to the Copyright Act of 1909. Amendment would clear copyright at the source, place full responsibility on persons originating performances including manufacturers of electrical transcriptions. Hearing held on Dickstein Bill before House Committee on Immigration and Naturalization to protect artistic and earning opportunities for actors. Senator Copeland makes favorable report from his Committee on Commerce on Pure Food and Drug Bill (S. 5) with few amendments. Representative Culkin of New York introduces another bill to prevent alcoholic beverage advertising over radio.

FCC ANSWERS WHEELER

The Federal Communications Commission has sent its answer to Senator Burton Wheeler, of Montana, chairman of the Senate Committee on Interstate Commerce in connection with certain questions which he propounded dealing with newspaper ownership of broadcasting stations and network ownership of stations.

As the result of the Commission's answer Senator Wheeler has announced that he will introduce a bill making it unlawful for newspapers to own broadcasting stations. He contends that the effort of the bill will be to prevent monopoly of radio channels for public information.

Included in the answer of the Commission is an opinion of Hampson Gary, general counsel, as to whether the Commission now has power to prevent a newspaper from owning a broadcasting station and expressing his opinion as to whether such legislation can be enacted.

Mr. Gary’s complete answer to the Senator on the subject of the ownership of broadcasting stations by newspapers is as follows:

January 25, 1937.

MEMORANDUM TO THE COMMISSION:

Opinion of the General Counsel

In response to request of the Chairman of the Commission.

I.

Has the Commission authority, at the present time, to deny an application of a newspaper for radio facilities, on the ground that it is against public policy.

The question presented is whether the Commission may deny an application for license on the ground that it is against “public policy”. The specific standard, or guide, provided by Congress in the Communications Act of 1934 is whether or not the granting of an application for license is “in the public interest, convenience or necessity”. It must be determined at the outset, therefore, whether there is a difference between the term “public policy” and the standard of “public interest, convenience and necessity”. We think the two may be distinguished. “Public policy” has been defined as:

“that principle of law which holds that no one can lawfully do that which has a tendency to be injurious to the public or against the public good.”

(Spalding v. Maillet, 188 P. 377; Georgia Fruit Exchange v. Turnipseed, 62 So. 542.)

In the sense of the definition given, it might be said that “public policy” is synonymous with “public interest”. However, as was said in *Weeks v. New York Life Insurance Company*, 122 S. E. 586:

“Public policy imports something that is uncertain, fluctuating, varying with the changing economic needs, social customs and moral aspirations of the people. A state has no public policy cognizable by the courts which is not derivable by clear implication from established law as found in its Constitution, statutes, and judicial decisions.”

Again, in *Georgia Fruit Exchange v. Turnipseed*, supra, p. 544, the court said:

“Public policy is broader than the mere terms of the statute or statutes and embraces their general purpose and spirit.”

See also *Smith v. San Francisco & M. P. R. Co.*, 47 Pacific 582, 589, where the phrase is defined as follows:

“Public policy is a term of vague and uncertain meaning, which it pertains to the law-making body to define, and courts are apt to encroach on the domain of that branch of government if they characterize a transaction as invalid because it is contrary to public policy, unless the transaction contravenes some positive statute or some well-established rule of law. * * *”

As was pointed out in *Rast v. Van Deman & Lewis*, 240 U. S. 342, 357:

“It is the duty and function of the legislature to discern and correct evils, and by evils we do not mean some definite injury but obstacles to a greater public welfare.” (Italics supplied.)

This case is cited many times in other decisions, and we believe it is authority for the conclusion that a determination of “public policy” is the function of the legislature. Although it may be stated that the Federal Communications Commission is an arm of the Congress, or the agent of that legislative body, yet it is equally true that the Commission possesses only those powers specifically delegated to it by statute. (*Federal Radio Commission v. Nelson Bros. Bond & Mortgage Co.*, 289 U. S. 295.)

From the above it would appear that “public policy” is a broader and in some respects, a different term than “public interest,” and that the determination of “public policy” is a function of Congress.

Since the Congress has delegated to the Commission the power to determine whether a grant of an application in any case will serve the “public interest” this is the only standard the Commission can apply, and our inquiry is limited to whether such standard furnishes authority to deny applications from newspapers. We do not mean to infer from the above that the Commission, in applying the standard of “public interest, convenience or necessity” to a given set of facts, may not consider as a factor that the applicant before it owns or controls a newspaper.

The Supreme Court, in *Federal Radio Commission v. Nelson Bros. Bond and Mortgage Company*, supra, has defined the standard and indicated some of the limitations upon the power of the Commission:

“In granting licenses the Commission is required to act ‘as public convenience, interest or necessity requires.’ This criterion is not to be interpreted as setting up a standard so indefinite as to confer an unlimited power. Compare *N. Y. Central Securities Co. v. United States*, 287 U. S. 12, 24. The requirement is to be interpreted by its context, by the nature of radio transmission and reception, by the scope, character and quality of services, and, where an equitable adjustment between States is in view, by the relative advantages in service which will be enjoyed by the public through the distribution of facilities.”

See also the following language in *N. Y. Central Securities Co. v. United States*, 287 U. S. 24:

“Appellant insists that the delegation of authority to the Commission is invalid because the stated criterion is uncertain. That criterion is the ‘public interest.’ It is a mistaken assumption that this is a mere general reference to public welfare without any standard to guide determinations. The purpose of the Act, the requirements it imposes, and the context of the provision in question show the contrary.”

It should be observed that the application of this standard by the Commission is subject to judicial review under Section 402(b) of the Act. Upon appeal from decisions of the Commission the court will examine the decision for the purpose of determining whether the Commission has stayed within the power thus delegated and therefore its decision was not arbitrary or capricious.

“A finding without substantial evidence to support it—an arbitrary or capricious finding—does violence to the law. It is without the sanction of the authority conferred. And an inquiry into the facts before the Commission, in order to ascertain whether its findings are thus vitiated, belongs to the judicial province and does not trench upon, or involve the exercise of, administrative authority.” *Nelson Bros. case, supra*, p. 277.

In my opinion, therefore, the Commission does not have the authority, under the existing law and in the absence of an expression of public policy on the subject
by the Congress, to deny an application to a newspaper owner for radio facilities solely upon the ground that the granting of such an application would be against public policy. It is clear, however, that the Commission has the duty of examining the facts in each particular case to determine whether the granting of an application will serve "public interest, convenience or necessity". One fact among others to be considered by the Commission, is the business connections of the applicant, newspaper or other, and in my opinion the Commission has the power to refuse a license to a newspaper owner if upon all the facts before it in a given case the Commission is unable to find that the granting of such an application would serve public interest, convenience, or necessity.

II.

Whether legislation could be passed denying the right of newspapers to obtain broadcasting licenses in the future and requiring them to divest themselves of existing rights in broadcast stations within a reasonable time.

It is well settled that all radio broadcasting is within the regulatory power of Congress under the Commerce clause of the Constitution (American Bond & Mortgage Company v. United States, 52 F. (2d) 318; Federal Radio Commission v. Nelson Bros. Bond & Mortgage Co., 289 U. S. 267). This power is "supreme and plenary" (Minnesota Rate Cases, 281 U. S. 362, 398); is "complete in itself, and may be exercised to its utmost extent, and acknowledges no limitations, other than those prescribed in the Constitution." (Gibbons v. Ogden, 9 Wheat. 1, 196.) And the power to regulate includes the power to prohibit (The Lottery Cases, 188 U. S. 321).

It should be determined at the outset whether there exist any constitutional limitations upon the power of Congress to regulate interstate and foreign commerce. It would appear that if such limitations exist they may be found in the First or Fifth Amendments to the Constitution.

The portions of the First Amendment which need be examined in connection with the legislation proposed are as follows: "Congress shall make no law * * * abridging the freedom of speech, or of the press * * *." It is submitted that legislation such as that proposed would constitute no abridgment of freedom of speech or of the press since ownership or control of a radio broadcast station is not essential to the right to speak or the dissemination of news, and the owning or controlling of a broadcast station as a business has nothing to do with the freedom of speech or of the press as such, because the newspaper would still have the same right to communicate by printing or broadcasting, which is enjoyed by any other person or class.

This is demonstrated by the following language from the case of Trinity Methodist Church, South, v. Federal Radio Commission, 62 Fed. (2d) 850, 853, in which the court affirmed a decision of the Commission refusing to renew the applicant's broadcast license:

"This is neither censorship nor previous restraint, nor is it a whittling away of the rights guaranteed by the First Amendment, or an impairment of their free exercise. Appellant may continue to indulge his strictures upon the characters of men in public office. He may just as freely as ever criticize religious practices of which he does not approve. * * * but he may not, as we think, demand, of right, the continued use of an instrumentality of commerce for such purposes, or any other, except in subordination to all reasonable rules and regulations Congress, acting through the Commission, may prescribe." (Italics supplied.)

Moreover, the freedom of the press is not abridged by a reasonable regulation of commerce promulgated by the Congress under constitutional authority for the protection of all the people, including the press.

In Toledo Newspaper Co. v. U. S., U. S. 402, 419, Chief Justice White, speaking for the Court, dismissed the argument that a law providing for the punishment of contempt of court which obstructed justice was an interference with freedom of the press, in the following language:

"We might well pass the proposition by because to state it is to answer it, since it involves in its very statement the contention that the freedom of the press is the freedom to do wrong with immunity and implies the right to frustrate and defeat the discharge of those governmental duties upon the performance of which the freedom of all, including that of the press, depends." (Italics supplied.)

Chief Justice Fuller, in the case entitled In Re: Rapier, 143 U. S. 110, 134, said:

"We cannot regard the right to operate a lottery as a fundamental right infringed by the legislation in question; nor are we able to see that Congress can be held, in its enactment, to have abridged the freedom of the press. The circulation of newspapers is not prohibited, but the government declines itself to become an agent in the circulation of printed matter which it regards as injurious to the people. The freedom of communication is not abridged within the intent and meaning of the constitutional provision unless Congress is absolutely destitute of any discretion as to what shall or shall not be carried in the mails, and compelled arbitrarily to assist in the dissemination of matters condemned by its judgment, through the governmental agencies which it controls." (Italics supplied.)
Inasmuch as the granting of a license to operate a broadcast station does not give the licensee any vested property right (American Bond & Mortgage Company v. United States, 52 F. (2d) 318), (Sections 304 and 309(b) of the Communications Act of 1934) and since broadcast licenses must be renewed every six months, each application for renewal thereof being considered de novo, the right to hold or acquire property does not appear to be involved. For the same reasons the constitutional question presented in considering the power of Congress to deny newspapers the right to acquire broadcast stations in the future is not different from that presented as to its power to require them to divest themselves of the control of such stations within a reasonable time.

That protection of a person or class of persons to equality under the law exists under the Fifth Amendment is clearly indicated in the line of decisions noted herein: In the case of U. S. v. Yount, 267 F. 861, the court said, in discussing the power of Congress to classify or are they so beyond the scope of the exercise of that power as to cause the conditions to be repugnant to the Constitution? We say this is the question since necessarily if the power exists to legislate by discriminating in favor of publishers, the right to exercise that power, carries with
it the authority to do those things which are incidental to the power itself or which are plainly necessary to make effective the principal authority when exerted. In other words, from this point of view, the illuminating rule announced in McCulloch v. Maryland and Gibbons v. Ogden, governs here as it does in every other case where an exertion of power under the Constitution comes under consideration. The ultimate and narrow question therefore is, are the requirements of the provision in question incidental to the purpose intended to be secured by the second class classification?"

The court sustained the conditions as being "incidental and necessary to the complete fruition of the public policy lying at the foundation of the privileges accorded".

Thus, it may be seen that if the proposed legislation denying newspaper owners the right to own or control a broadcast station has a reasonable relationship to a purpose which Congress has the power under the commerce clause to accomplish, then the incidental or indirect interference with personal liberty is not repugnant to the First or Fifth Amendments.

Furthermore, this test which the courts may apply as to whether there is a reasonable relationship between the purpose and the means used to accomplish it, must be clearly distinguished from the question as to the wisdom of the end sought to be accomplished, or the policy adopted by Congress, power over which is vested solely within the legislative branch of the Government.

In the Lottery Case, supra, this principle was stated as follows:

"In determining the character of the regulations to be adopted, Congress has a large discretion which is not to be controlled by the courts simply because in their opinion such regulations may not be the best or most effective that could be employed."

This principle is even more clearly stated in the case of Northern Securities Co. v. United States, 193 U. S. 197, which involves legislation of much the same class as that under consideration. The law in question was the provision of the Sherman Anti-Trust Act which prohibited "every combination," etc., in "restraint of trade". The fact that the purpose of the act was to prevent restraints of trade brought it within the power delegated to Congress under the Commerce clause, but the objection was made that it interfered with the "liberty" to contract which is guaranteed by the Fifth Amendment. The Court said:

"The means employed in respect of the combinations forbidden by the Anti-Trust Act, and which Congress deemed germane to the end to be accomplished, was to prescribe as a rule for interstate and international commerce (not for domestic commerce) that it should not be vexed by combinations, conspiracies or monopolies which restrain commerce by destroying or restricting competition. We say that Congress has prescribed such a rule, because in all the prior cases in this court the Anti-Trust Act has been construed as forbidding any combination which by its necessary operation destroys or restricts free competition among those engaged in interstate commerce; in other words, that to destroy or restrict free competition in interstate commerce was to restrain such commerce. Now, can this court say that such a rule is prohibited by the Constitution or is not one that Congress could appropriately prescribe when exerting its power under the commerce clause of the Constitution? Whether the free operation of the normal laws of competition is a wise and wholesome rule for trade and commerce is an economic question which this court need not consider or determine. Undoubtedly, there are those who think that the general business interests and prosperity of the country will be best promoted if the rule of competition is not applied. But there are others who believe that such a rule is more necessary in these days of enormous wealth than it ever was in any former period of our history. Be all this as it may, Congress has, in effect, recognized the rule of free competition by declaring illegal every combination or conspiracy in restraint of interstate and international commerce. As in the judgment of Congress the public convenience and the general welfare will be best subserved when the natural laws of competition are left undisturbed by those engaged in interstate commerce, and as Congress has embodied that rule in a statute, that must be, for all, the end of the matter, if this is to remain a government of laws, and not of men." (Pp. 337-338.)

It would appear from these cases that if Congress sees fit to declare a policy to be followed in the regulation of interstate commerce (broadcasting) and provides that in order to carry out that policy, no newspaper shall operate a broadcasting station, the Courts will not question the wisdom of the policy, but will consider such legislation only for the purpose of determining whether the prohibition has a reasonable relation to, or is a reasonable means of accomplishing an end which is within the regulatory power of Congress.

Factors which would militate against holding arbitrary or unreasonable the regulation of interstate commerce as herein proposed are the actual facts and usages attendant upon joint ownership and operation of a broadcast station and a newspaper.

It is submitted that these factors should not be examined for the purpose of passing on the wisdom of the legislation but only for the purpose of determining whether
an unreasonable or arbitrary classification has been made. Chicago, B. & Q. R. R. Co. v. McGuire, 219 U. S. 549. In that case the court said at page 569:

"* * * The scope of judicial inquiry in deciding the question of power is not to be confused with the scope of legislative considerations in dealing with the matter of policy. Whether the enactment is wise or unwise, whether it is based on sound economic theory, whether it is the best means to achieve the desired result, whether, in short, the legislative discretion within its prescribed limits should be exercised in a particular manner, are matters for the judgment of the legislature, and the earnest conflict of serious opinion does not suffice to bring them within the range of judicial cognizance."

It is conceivable that situations might arise where the mutual control of a newspaper and a broadcast station would have no effect upon the operation of the station in the public welfare. If this be true, would an act barring every newspaper from owning or operating a broadcast station exceed the end to be accomplished? This question arose in connection with the Anti-Trust Act, supra, which prohibited "every" contract in restraint of trade. Prior to the Standard Oil case, 221 U. S. 1, the Supreme Court consistently held that when Congress said "every" it laid down a policy which the Court could not question, and the act, so interpreted, was held to be constitutional (Addyston Pipe & Steel Co. v. United States, 175 U. S. 211; Northern Securities Co. v. United States, supra). In the Standard Oil case, 221 U. S. 1, the Court established the well-known "Rule of Reason" which was applied in that and later cases. The different interpretation of the Anti-Trust Act, however, appears to have been based upon what the Court considered to be the common law concept of the term "restraint of trade" as used in the Act. The Court said:

"* * * It is certain that those terms ('restraint of trade' and 'monopoly') at least in their rudimentary meaning, took their origin in the common law, and were also familiar in the law of this country prior to and at the time of the adoption of the act in question.

"We shall endeavor, then, first to seek their meaning, * * * by making a very brief reference to the elementary and indisputable conceptions of both the English and American law on the subject prior to the passage of the Anti-Trust Act."

While the interpretation placed upon the Act in the Standard Oil case, supra, might be said to weaken the former decisions as to the constitutionality of the Act as originally construed, it did not constitute a reversal of the former cases as to such constitutionality; but rendered a consideration of the question unnecessary.

Other analogous legislation is contained in Section 1, Paragraph 8 of the Interstate Commerce Act commonly known as the "Commodities Clause" which provides that:

"From and after May 1, 1908, it shall be unlawful for any railroad company to transport from any state, * * * any article or commodity, other than timber and the manufactured products thereof, manufactured, mined, or produced by it, or under its authority, or which it may own in whole or in part, or in which it may have any interest, direct or indirect, except such articles or commodities as may be necessary and intended for its use in the conduct of its business as a common carrier."

This clause was held constitutional by the Supreme Court of the United States in the cases of U. S. v. Delaware & Hudson Co., 213 U. S. 366 and Delaware L. & W. R. R. Co. v. U. S., 231 U. S. 363.

In the former case the Government sought to enjoin five railroads from shipping coal over their lines. Some of these corporations owned and worked mines and transported over their own rails in interstate commerce the coals so mined either for their own account or for the account of those who had acquired title to the coal prior to the beginning of the transportation. As to this last group, the Government contended that the Act prohibited the carrying of any coal with which the line was formerly connected regardless of present ownership. One of the main defenses the companies claimed, on the other hand, was that the Act was unconstitutional because it deprived them of property without Due Process. The court pointed out that the broad interpretation contended for by the government would raise serious constitutional questions; that where an act is susceptible of two interpretations one of which would be constitutional and the other not, the construction upholding the validity of the law should be applied; and, therefore, construed the Act as applying only where there was an actual and a present connection between the company and the commodity. It was then concluded:

"We think it unnecessary to consider at length the contentions based upon the due process clause of the Fifth Amendment. * * * When, however, mere forms of statement are put aside and the real scope of the argument at bar is grasped, we think it becomes clear that in substance and effect the argument really asserts that the clause as construed by the Government is not a regulation of commerce, since it transcends the limits of regulation and embraces absolute prohibitions, which, it is insisted, could not be exerted in virtue of the authority to regulate. The whole support upon which the propositions and the arguments rest hence disappear as a result of the construction which we have given the
statute. Through abundance of caution we repeat that our ruling here made is confined to the question before us. Because, therefore, in pointing out and applying to the statute the true rule of construction, we have indicated the grave constitutional questions which would be presented if we departed from that rule, we must not be considered as having decided those questions. We have not entered into their consideration, as it was unnecessary for us to do so."

The Delaware L. & W. case, supra, involved a question as to whether a shipment of hay to be used in feeding mules in mines owned by the defendant railroad was a violation of the Commodities Act. The railroad challenged the constitutionality of the Act and contended inter alia that, "It is a matter of complete indifference to the public * * * whether or not the railroad company does or does not engage in such transportation, so long as it continues lawfully to own and operate its mines, and the Commodities Clause in prohibiting such transportation has no reasonable relationship to the accomplishment and any legitimate public object, but is arbitrary, unreasonable and unnecessary and violates the Fifth Amendment."

The court in holding that the Act did have a reasonable relationship to the regulation of interstate commerce said:

"But the courts are not concerned with the question as to whether, in a particular case, there had been any discrimination against shippers or harm to other dealers. The statute is general and applies not only to those particular instances in which the carrier did use its power to the prejudice of the shipper, but to all shipments which, however, innocent in themselves, come within the scope and probability of the evil to be prevented."

In making an analogy between these two cases and the question under consideration, the Delaware and Hudson case might be advanced as authority for the contention that a statute denying the right of all newspapers to operate radio stations would be unconstitutional as applied to an extreme situation; for instance, in a case where the owner of a Farmers' Weekly in Minnesota applied for a license to operate a station in Washington, D. C.

However, the above quoted language from the Delaware L. & W. case is authority for the conclusion that if there is a reasonable relationship between the prohibition of mutual control of radio facilities and newspapers the courts would not be concerned with the question as to whether in a particular case such mutual ownership was actually detrimental to the operation of the station.

While the above mentioned authorities relative to legislation similar to that contemplated serve to establish the criterion which would be applied in testing the validity of the proposed statute, it is submitted that they afford no basis for a positive conclusion as to its constitutionality.

Section 11 of the Panama Canal Act of August 24, 1912, 37 Stat. 560 made it unlawful for any railroad or other carrier to own, operate, etc., "any common carrier by water operating through the Panama Canal or elsewhere with which such railroad or other carrier does or might compete for traffic or any vessel carrying freight or passengers on such water route or elsewhere with which such railroad or other carrier competes or might compete."

This Act further provided that the Interstate Commerce Commission should determine the extent or possibility of competition. A date was specified on which all common ownership should cease, but it was also provided that the Commission should determine whether any "such existing specified service" was being operated in the public interest, etc., and empowered it to grant extensions to those which were challenged to such consideration upon the merits of the individual case. The constitutionality of this legislation has not been successfully challenged to date. See Lehigh Valley Railroad Co. v. U. S. (Dist. Ct. E. Dist. Pa., May 12, 1916, 234 F. 682).

Legislation similar to the type contemplated herein is found in Sections 310(a) and 311 of the Communications Act of 1934 wherein the Commission is directed to refuse to grant a license to an enumerated class of persons, among them being aliens, representatives of foreign governments, foreign corporations, etc., and also any person found guilty of unlawful monopoly, as defined therein.

The proposed legislation would impose a prohibition against a class, I. e., newspaper owners, and, in that respect, would be analogous to Section 310(a) of the present act which contains a similar prohibition against aliens.

Senator Wheeler inquires:

"Whether, if the Commission has not such authority at the present time, legislation could be passed denying the right for all newspapers to acquire radio stations in the future and requiring all newspapers within a reasonable time to divest themselves of the ownership and control of such stations."

A careful review of the decisions of the Supreme Court with respect to existing legislation which appears to be analogous or similar to that here suggested and those decisions with respect to the regulation of interstate commerce by the Congress and matters bearing a reasonable relation thereto, impel me to a conclusion that the constitutionality of an act of Congress denying the right to all newspaper owners as such to obtain broadcast licenses in the future and requiring all newspapers to divest themselves of such ownership or control within a reasonable time, is not free from doubt, and, therefore, I think the inquiry does not permit of a categorical answer.

However, let me add, it is established that all radio broadcasting is interstate commerce; that, under the
Constitution, the Congress has the power to regulate interstate and foreign commerce; that the criterion to be applied is whether the proposed legislation has a reasonable relation to a purpose which is within constitutional authority; and, that the power to regulate interstate and foreign commerce is limited only by the provisions of the Constitution itself.

I am of the opinion that the mutual ownership and control of newspapers and broadcast stations bears a reasonable relation to and has an effect upon interstate commerce, and therefore, if the Congress enacted a law of the purport suggested, it should meet the constitutional requirements.

Respectfully,

(Signed) HAMPSON GARY.
HAMPSON GARY,
General Counsel.

COPYRIGHT AMENDMENT PROPOSED BY CRANEY

Ed Craney (KGIR, Butte) in an open letter to Congress makes reply to a letter received from the General Manager of the ASCAP and proposes an amendment to the Copyright Act of 1909.

Mr. Craney would change the law so as to—

1. Place the responsibility for the public performance of music on the person originating the performance;
2. Make it necessary for Authors, Composers, and Publishers to identify the use they make of material in the public domain;
3. Leave the question of damages to the discretion of the court, and
4. Prevent assignees from collecting damages unless their assignments are recorded according to law.

The text of the Bill offered by Mr. Craney follows:

A BILL

To amend the Act entitled “An Act to Amend and Consolidate the Acts respecting Copyright”, approved March 4, 1909, as amended, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

That Section 6 of Act entitled “An Act to Amend and Consolidate the Acts respecting Copyright”, approved March 4, 1909, as amended, is hereby amended by striking out the period (.) at the end thereof and inserting in lieu thereof the following: “Provided, that the application for registration, and the printed notices of copyright on the work shall specify under which version or versions of works copyright is claimed”.

Sec. 2. (a) Section 25 of such Act is amended by adding after Subsection (b) the following new Subsection:

“(c) To pay to the copyright proprietor, in the case of an infringement by radio broadcasting, such damages as to the court shall appear to be just, provided, that the responsibility and liability for the use of copyrighted material in broadcasting on two or more stations simultaneously shall rest solely with the station originating the performance, and provided further, that the responsibility and liability for the use of copyrighted material in electrical transcriptions and other forms of recordings made exclusively for broadcasting purposes shall rest solely with the maker of such electrical transcriptions and other forms of recordings and his agents for distribution thereof to broadcasters.”

(b) Subsections (c), (d) and (e) of Section 25 of such Act are hereby amended to read Subsections (d), (e) and (f), respectively.

Sec. 3. Section 44 of such Act is hereby amended by striking out the period (.) at the end thereof and inserting in lieu thereof, the following: “, and such default shall be a defense against any legal proceeding brought by the assignee as a result of use made of the copyrighted material subsequent to the date of assignment”.

COMMISSION GRANTS NEW STATION

The Federal Communications Commission this week granted a construction permit for the erection of a new broadcasting station at Albert Lea, Minn., to the Albert Lea Broadcasting Corporation.

The new station will operate on 1200 kilocycles 100 watts and daytime only. The order is effective March 23.

CULKIN RADIO ADVERTISING BILL

A bill was introduced in the House this week by Representative Culkin of New York (H. R. 4738) “to prohibit the transportation in interstate commerce of advertisements of alcoholic beverages.” The bill has been referred to the House Committee on Interstate and Foreign Commerce.

The paragraph dealing with broadcasting in this bill is as follows:

“Sec. 4. It shall be unlawful to broadcast by means of any radio station for which a license is required by any law of the United States, or for any person operating any such station, to permit the broadcasting of any advertisement of alcoholic beverages or the solicitation of an order for alcoholic beverages.”

PURE FOOD BILL REPORTED

Senator Copeland of New York this week reported from his Committee on Commerce the pure food and drug bill (S. 5) with a few amendments over the bill as it was originally introduced at the present session and printed
in full in NAB Reports. There is no essential change in the advertising features. In reporting the bill out Senator Copeland has the following to say about the advertising situation:

"There has been controversy as to whether the Food and Drug Administration or the Federal Trade Commission should enforce the bill's provisions on advertising. On the premise that advertisements of foods, drugs, and cosmetics are nothing more than extensions of the labeling, this bill proposes that the control be vested in the Food and Drug Administration which enforces the provisions on adulteration and labeling. But, it does not have the effect of depriving the Federal Trade Commission of its jurisdiction to proceed against false advertising in such form as to make it an unfair method of competition. The bill specifically provides that it shall not be construed as impairing or diminishing the powers of the Federal Trade Commission.

"The bill simply provides that the district courts of the United States shall have the power to grant temporary and permanent injunctions against the dissemination of any advertisement which contains—any representation regarding any food, drug, device, or cosmetic or the ingredients thereof, or the substances therein, or the identity, strength, quality, purity, quantity, origin, source, harmlessness, or safety thereof, or the nutritional, dietary, curative, therapeutic, preventive, diagnostic, or beneficial effects thereof, or the safety or efficiency of the dosage, frequency, or duration of use pertaining thereto, which is false or misleading in any material particular."

Baldwin Attends Meeting

James W. Baldwin, managing director of NAB, attended the meeting of the Ohio State Broadcasters Association being held today in Cincinnati.

Broadcast Measurements

The Federal Communications Commission has announced that during the month of January 619 broadcasting stations were measured, with 58 not measured.

Of the number measured 492 had a maximum deviation within 0-10 cycles; 107 within 11-25 cycles; 17 within 26-50 cycles, and 3 over 50 cycles.

Change of Ownership Recommended

The Beverly Hills Broadcasting Corporation, licensee of Station KMPC, Beverly Hills, Calif., applied to the Federal Communications Commission to transfer all of the capital stock from the present holder, Pacific Southwest Discount Corporation, to George A. Richards.

Examiner Ralph L. Walker, in Report No. I-356, recommended that the application be granted. The Examiner states that "the record discloses that the proposed transferee is in all respects qualified to own and operate a broadcast station and hence is likewise qualified to own all of the stock of the licensee corporation. Consideration of all of the facts leads to the conclusion that if the present application is granted Station KMPC will serve public interest as well or better than it does at the present time."

Securities Act Registrations

The Pharis Tire and Rubber Company, Newark, Ohio. (2-2830, Form A-2)

Federal Trade Commission Action

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

No. 3951. A complaint has been issued against Lanteen Laboratories, Inc., 909 North Franklin St., Chicago, alleging unfair competition in the sale in interstate commerce of medicinal preparations and appliances for so-called feminine hygiene and other uses.
Other respondents named are Lanteen Medical Laboratories, Inc., 900 North Franklin St., Chicago; Medical Bureaus of Information, 734 State Lake Building and 190 North State St., Chicago, 804 Industrial Bank Building, Detroit, and 161 Wisconsin Ave., Milwaukee; and Ratus Fiddlesbarger, 1224 Pratt Boulevard, Chicago, and Davidson of Chicago and two Lanteen companies.

Medical Bureaus of Information is said to be operated by Lanteen Medical Laboratories, Inc., to advertise and distribute information regarding the products of Lanteen Medical Laboratories, Inc., and Lanteen Laboratories, Inc.

In this advertising matter, the respondents’ products are alleged to have been represented directly and by implication, as safe, competent and effective cures and preventative.

No. 3052. Unfair competition in the sale of women’s handbags is alleged in a complaint issued against Morris Whitig Mfg. Co., Inc., New York and Bridgeport, Conn.; and Stylecraft Leather Goods Co., Inc., New York and Scranton, Pa. Both companies are under a single ownership and management and have their offices at 362 Fifth Avenue, New York.

Representations of the respondents are alleged to have misled purchasers into believing that certain articles were patented and to have been represented, directly and by implication, as safe, competitive and effective cures and preventative.

No. 3053-3054. Two Chicago firms, one dealing in rotary clocks and other merchandise, and the other selling hosiery, are named respondents in complaints alleging unfair competition through use of lottery methods in connection with the sale of their products.

One complaint charges that National Manufacturers Distributing Co., 1420 South Halsted St., Chicago, distributes to its representatives sales outlets accompanied by pushcards bearing feminine names, and that the purchaser of a chance who selects a name corresponding to that concealed elsewhere on the card is given a rotary clock as a prize. According to the complaint, the pushcard contains disks concealing numbers, and bears printed instructions informing customers that “Nos. 1 to 29 pay what you draw. Over 29 pay only 29 cents.” Under such a sales plan, the complaint alleges, the fact as to whether a customer pays from 1 to 29 cents for a clock and whether he receives something for the amount paid is determined wholly by lot or chance.

The respondent in the other complaint, W. A. Leith, trading as Style Silk Co., 529 South Franklin St., Chicago, is alleged to use substantially the same pushcard method in the sale of silk hosiery, except that some of the numbers on the card he distributes are “free” draws, the cost of a chance ranges from 1 to 15 cents, and the premium awarded is one or more pairs of hosiery.

No. 3055. Van-Tage Medicine Company, Inc., 1265 North Vermont Ave., Los Angeles, and its president, G. H. Mosby, are charged in a complaint with misrepresenting the therapeutic value of a patented preparation, an iodine-iodamide medicinal, known as “Van-Tage.”

In advertising matter and in radio broadcasts, the respondents are alleged to have falsely represented, among other things, that their preparation will throw off the poisons that cause stomach trouble and will permit the kidneys and liver to function properly; that within ten minutes it will stop gas and will relieve backaches and bladder irritation; that it will give complete relief from indigestion, shortness of breath and dyspepsia; and that it will relieve the causative factors of rheumatism and neuritis, and will clear up skin eruptions caused by impurities in the organs. According to the complaint, “Van-Tage” is not a satisfactory or competent remedy, cure or treatment for any of these conditions or ailments.

No. 3056. A Sioux City, Iowa, candy firm is charged in a complaint with unfair competition through sale of its products by means of a lottery. The respondents are Winifred Sorenson and Fred W. Beales, doing business as Van-Tage Candy Co.

In advertising matter and in radio broadcasts, the respondents are alleged to have falsely represented, among other things, that their preparation will throw off the poisons that cause stomach trouble and will permit the kidneys and liver to function properly; that within ten minutes it will stop gas and will relieve backaches and bladder irritation; that it will give complete relief from indigestion, shortness of breath and dyspepsia; and that it will relieve the causative factors of rheumatism and neuritis, and will clear up skin eruptions caused by impurities in the organs. According to the complaint, “Van-Tage” is not a satisfactory or competent remedy, cure or treatment for any of these conditions or ailments.

No. 3057. A Sioux City, Iowa, candy firm is charged in a complaint with unfair competition through sale of its products by means of a lottery. The respondents are Winifred Sorenson and Fred W. Beales, doing business as Van-Tage Candy Co.

Employing the push-card method of selling, the respondents are alleged to have placed in the hands of others the means of conducting lotteries in the sale of the respondents’ products.

Stipulations and Orders

The Commission issued the following cease and desist orders and stipulations:

Nos. 2688-2747. Orders to cease and desist have been issued requiring two candy companies selling their products in interstate commerce to discontinue lottery methods in such sale. The respondents, York Caramel Co., College Ave. and Oak Lane, York, Pa., and George C. Co., Inc., New York and Scranton, Pa., were found to have violated Section 5 of the Federal Trade Commission Act.

The orders direct the respondents to stop distributing to jobbers and wholesalers candy so packed and assembled that its sales to the public are to be made or may be made by means of a lottery, gaming device, or gift enterprise.

No. 2780. Under an order entered, Charles R. Luce, trading as Luce & Co., 350 Mercer St., Jersey City, N. J., is directed to desist from selling candy so packed and assembled that sales to ultimate purchasers are to be made, or may be made, by means of a lottery, gaming device, or gift enterprise.

The respondent is prohibited from using the same assortment of candy pieces of uniform size and shape having centers of different color, together with small packages of candy which are to be used as prizes, in conjunction with purchases procuring a piece of candy with a center of a particular color. The order also bars him from furnishing, either with assortments of candy or separately, display cards bearing legends informing purchasers that the candy is sold to the public by lot or chance.

FEDERAL COMMUNICATIONS COMMISSION

ACTION

HEARING CALENDAR

The following broadcast hearings are scheduled at the Commission for the week beginning Monday, February 22.

Tuesday, February 23

HEARING BEFORE AN EXAMINER

(Broadcast)

NEW—Associated Arkansas Newspapers, Inc., Hot Springs, Ark.—C. P., 1310 kc., 100 watts, daytime.

KTHS—Hot Springs Chamber of Commerce, Hot Springs, Ark.—Voluntary assignment of license, 1040 kc., 10 KW, shares.

NEW—Bay State Broadcasting Corp., Providence, R. I.—C. P., 720 kc., 1 KW LS, limited time.

NEW—Utilize R. H. Mcgenty, Rice Lake, Wis.—C. P., 1210 kc., 250 watts, daytime.
Wednesday, February 24

HEARING BEFORE AN EXAMINER
(Broadcast)

NEW—Paul B. McEvoy, Publisher, Hobart Democrat-Chief, Hobart, Okla.—C. P., 1430 kc., 100 watts, daytime.

Thursday, February 25

ORAL ARGUMENT BEFORE THE BROADCAST DIVISION

Examiner's Report No. I-311:

Examiner's Report No. I-323:
KFFM—Voice of Greenville, Greenville, Tex.—C. P., 1420 kc., 100 watts; daytime: 1030 kc., 40 watts, unlimited time. Present assignment: 1310 kc., 15 watts, specified hours.

Examiner's Report No. I-325:
NEW—Michael F. Murray, St. Cloud, Minn.—C. P., 350 kc., 500 watts, daytime.

Examiner's Report No. I-337:
WOAL—Southland Industries, Inc., San Antonio, Tex.—Transfer of control of corporation; 1190 kc., 50 KW, unlimited time.

Friday, February 26

HEARING BEFORE AN EXAMINER
(Broadcast)

KFXR—Exchange Avenue Baptist Church of Oklahoma City, Oklahoma City, Okla.—Renewal of license, 1310 kc., 100 watts, 250 watts LS, unlimited time.
KFXR—Exchange Avenue Baptist Church of Oklahoma City, Oklahoma City, Okla.—Voluntary assignment of license; 1310 kc., 100 watts, 250 watts LS, unlimited time.
NEW—Frontier Broadcasting Co., Cheyenne, Wyo.—C. P., 1429 kc., 100 watts, 250 watts LS, unlimited time.

APPLICATIONS GRANTED

KBPS—Benson Polytechnic School, R. T. Stephens, Agt., Portland, Ore.—Granted C. P. to make changes in equipment.
WBRC—Birmingham Broadcasting Co., Inc., Birmingham, Ala.—Granted C. P. to install new transmitter and vertical antenna and increase day power from 1 KW to 5 KW.
NEW—Southeastern Broadcasting Co., Inc., Portable.—Granted C. P. for new low frequency relay broadcast station; frequencies 1622, 2058, 2150 and 2790 kc., 25 watts.
NEW—Stromberg Carlson Tel. & Mfg. Co., Portable.—Granted C. P. for new low frequency relay broadcast station; frequencies 1310 kc., 100 watts, 250 watts LS, unlimited time.
KRRV—Red River Valley Broadcasting Corp., Sherman, Tex.—Granted license to cover C. P. authorizing changes in equipment and increase in day power from 100 watts to 250 watts.
WSMA—WSMB, Inc., Portable.—Granted license to cover C. P. of relay broadcast station; frequencies 1606, 2022, 2102 and 2758 kc., 100 watts.
KGB—East Texas Broadcasting Co., Tyler, Tex.—Granted license to cover C. P. authorizing changes in equipment and increase in power and hours of operation from 100 watts night and day, unlimited, day, specified hours night, to 100 watts night, 250 watts day, unlimited time.
WSMC—WSMB, Inc., Portable.—Granted license to cover C. P. of relay broadcast station; frequencies 1606, 2022 and 2102 kc., 250 watts.
WTAG—Worcester Teleg., Pub. Co., Inc., Worcester, Mass.—Granted license to cover C. P. authorizing move of transmitter site, installation of directional antenna system, and increase in power from 500 watts, unlimited time, to 1 KW, unlimited time, employing directional antenna system for both day and night time operation.
WCNW—Arthur Faske, Brooklyn, N. Y.—Granted modification of license to extend commencement date to 4-1-37 and completion date to 10-1-37.

KFSD—Airline Radio Corp., Ltd., San Diego, Calif.— Granted renewal of license for period March 1 to Sept. 1, 1937.
KSFO—The Asso. Broadcasters, Inc., San Francisco, Calif.—Granted renewal of license for period March 1 to September 1, 1937.
KADA—C. C. Morris, Ada, Okla.—Granted modification of license authorizing change in studio location.
National Broadcasting Co., Inc., New York City.—Granted extension of authority to transmit programs to Canadian stations CFCF and CRCT and the Canadian Radio Broadcasting Commission.
NEW—Allen T. Simmons, Portable-Mobile.—Granted C. P. for new high frequency relay broadcast station; frequencies 31100, 34600, 37600 and 40000 kc., 100 watts.
W8XIQ—The WQAR Broadcasting Co., Mobile, Cleveland, Ohio.—Granted C. P. for changes in equipment and increase in power from 35 watts to 100 watts.

RENEWAL OF LICENSES

The following stations were granted renewal of licenses for the regular period:

KEHE, Los Angeles, Calif.; KFDY, Brookings, S. Dak.; KFNF, Shenandoah, Iowa; KFRC, San Francisco, Calif., and auxiliary; KFYR, Bismarck, N. Dak.; KJH and auxiliary, Los Angeles; KHQ, Spokane, Wash.; KLZ, Denver; KOMO, auxiliary, Seattle, Wash.; KTV, Tacoma; Wa.; WAAF, Chicago, Ill.; WBAW, W. Lafayette, Ind.; WBN, Buffalo, N. Y.; and auxiliary; WCAO and auxiliary, Baltimore; WDBO, Orlando, Fla.; WEAN, Providence, R. I.; WEE, Boston; WFLA-WSUN, St. Petersburg, Fla.; WGBF, Evansville, Ind.; WGBL, Scranton, Pa.; WGR, Buffalo, N. Y.; WGST, Atlanta, Ga.; WIP, Philadelphia; WJAR, Providence, R. I.; WJAR auxiliary, Providence, R. I.; WYI, Youngstown, Ohio; WKY, Oklahoma City, Okla.; WKZO, Kalamazoo, Mich.; WMMN, Fairmont, W. Va.; WMT, Cedar Rapids, Iowa; WOW, Omaha, Nebr.; WQAN, Scranton, Pa.; WSBE, Spartanburg, S. C.; WSYR-WSYU, Syracuse, N. Y.; WTAD, Quincy, Ill.; WTAG, Worcester, Mass., and auxiliary; WTAR and auxiliary, Norfolk, Va.; WTMJ, Milwaukee, Wis.; WWC, Asheville, N. C.
W9XAG—The Journal Co. (Milwaukee Journal), Milwaukee, Wis.—Granted renewal of facsimile broadcast station license.
W9XAF—The Journal Co. (Milwaukee Journal), Milwaukee, Wis.—Granted renewal of facsimile broadcast station license.

SET FOR HEARING

NEW—Press-Union Publishing Co., Atlantic City, N. J.—Application for C. P. for new station; 1200 kc., 100 watts, daytime.
NEW—Frank M. Stearns, Salisbury, Md.—Application for C. P. for new station; 1200 kc., 250 watts, daytime only.
KTEM—Bell Broadcasting Co., Temple, Tex.—Application for C. P. to make changes in equipment; change power and hours of operation to 100 watts night, 250 watts day, unlimited time.
NEW—Kenneth Miller, Tulsa, Okla.—Application for C. P. for new station; 1310 kc., 100 watts, unlimited time.
NEW—Summit Radio Corp., Akron, Ohio.—Application for C. P. for new special broadcast station; 1530 kc., 1 KW, unlimited time.
NEW—Arlington Radio Service, Inc., Arlington, Va.—Application for C. P. for new station; 850 kc., 250 watts, daytime only.
NEW—Clark Standiford and L. S. Coburn, Fremont, Nebr.—Application for C. P. for new station; 1420 kc., 100 watts, unlimited time.
NEW—George W. Young, St. Paul, Minn.—Application for C. P. for new station; 920 kc., 1 KW night, 5 KW day, directional antenna at night, unlimited time.
NEW—John C. Hughes, Phoenix City, Ala.—Application amended for C. P. to erect new station to operate on 1310 kc., 100 watts, daytime only, site to be determined.

1200 kc. to 1170 kc.; increase power from 100 watts to 250 watts night, 500 watts day. To be heard before the
Broadcast Division.
Application for C. P. for new special station; 1570 kc., 1 kw unlimited, exact transmitter site to be determined
subject to Commission's approval.
NEW—Archie E. Everage, Andalusia, Ala.—Application for C. P.
for new station; 1310 kc., 100 watts night, 250 watts day, unlimited.
WHK—Ohio Air Service Corp., Cleveland, Ohio.—Application
for modification of license to increase day power from 2 1/2 to 5 kw.
KGDY—Voice of South Dakota, Huron, S. Dak.—Application for
authority to transfer control of the Voice of South Dakota
(KFDY), Huron, S. Dak., from F. Koren, Robert J. Dean
and M. W. Plowman, to Greater Kempeska Radio Corp.

SPECIAL AUTHORIZATIONS
KSFO—The Associated Broadcasters, Inc., San Francisco, Calif.—
Granted extension of special temporary authority to operate
a mobile 100-watt transmitter on 560 kc. between the hours
of 1 and 6 a. m., PST, for the period February 15 to Feb-
rury 21, 1937, in order to make transmitter site survey.
WQY—The telephone Broadcasting Service, WQY, Inc., Bristol,
Tenn.—Granted special temporary authorization to operate
a 100-watt portable transmitter on 1500 kc., during the
period not to exceed 30 days, in order to make field intensity survey tests.
WGBF—Evansville on the Air, Inc., Evansville, Ind.—Granted
special temporary authority to operate with power of 300
watts while installing rectifier as authorized under C. P.,
for the period not to exceed 30 days.
WFIL—WFIL Broadcasting Co., Philadelphia, Pa.—Granted special
temporary authority to operate from 8:15 to 9:15 p.m.,
CST, March 24; also from 7:15 to 9:15 p.m., CST, March
21, 1937, in order to broadcast special educational programs.
WKBV—Knox Radio Corp., Richmond, Ind.—Granted special temporary
authority to operate from 2 to 4 p.m., CST, March 1, 2, 3,
4, 5, 6, 13, 20, 27, 1937, in order to broadcast high school basketball
tournaments.

RNAD—University of Oklahoma, Norman, Okla.—Granted special
temporary authority to operate from 2 to 4 p.m., CST,
March 1, 2, 3, 4, 8, 9, 10, 11, 15, 16, 17, 18, 22, 23 and 31;
also from 9:15 to 10:30 p.m., March 11; and 2 to 5 p.m.,
CST, March 12, 1937 (provided KGGF remains silent),
in order to broadcast special educational programs.

KGGF—Powell and Platz, Coffeyville, Kans.—Granted special
temporary authority to operate from 8:15 to 9:15 p.m.,
CST, March 24; also from 7:15 to 9:15 p.m., CST, March
25 and 30 (provided WNAD remains silent), in order to
observe Easter vacation.

WRVA—Larus & Bro. Co., Inc., Richmond, Va.—Granted special
temporary authority to operate a 50-watt portable trans-
mitter on 1140 kc. in the area approximately 16 miles
southeast of Richmond, Va., along and near the James River,
from 7 a. m. to 1 hour before local sunset (February sun-
set set, 6:15 p. m.; EST; March 15, 6:45 p. m., EST), for
a period not to exceed 30 days, in order to make site sur-
veys. Such tests, however, not permitted during hours
prescribed for Commission monitoring schedule.

WLBC—Donald A. Burton, Muncie, Ind.—Granted special tem-
porary authority to operate simultaneously with station
WTRC from 6 to 7:30 p.m., CST, March 2, 4, 5, 6, 13,
20 and 27, 1937, for the purpose of broadcasting basketball
games; also operate simultaneously with WTRC from 7:30
to 10 p. m., CST, March 7, 14 and 21, 1937, in order to
broadcast service from St. Mary's Church.

APPLICATIONS DISMISSED

The following applications, heretofore set for hearing, were
dismissed at request of applicants:
1 kw unlimited, exact transmitter site to be determined
by request of applicants.
NEW—Broadus McSwain, d/b as The Voice of the Times, Raleigh,
N. C.—C. P., 1210 kc., 100 watts, daytime.
NEW—Ogdensburg Pub. Co., Inc., Ogdensburg, N. Y.—C. P.,
1500 kc., 100 watts, unlimited time.

RATIFICATIONS

The Commission ratified the following acts authorized on the
dates shown:
KHAB—Broadcasting System, Inc., New York City.—
Granted authority to operate American Airlines station, 50
watts, 2830 kc., connection short wave broadcast from
plane flying in vicinity of Cincinnati.
W8XIR—WAAQ—WGAR Broadcasting Co., Cleveland, Ohio.—
Granted authority to operate as licensed 2-17-37 to 3-17-37,
relaybroadcast interview school children.
WAUK-W4XBT-W4XBZ—WSCC, Inc., Charlotte, N. C.—Granted
authority to operate as licensed on Tuesdays for period of
30 days from February 16, to relaybroadcast industries
and other important points, provided wire facilities not avail-
able.
WFTI—Liberty Broadcasting Co., Athens, Ga.—Granted special
temporary authority to operate a 100-watt test transmitter
on 1450 kc. in Atlanta between the hours of 12 midnight
and 6 a. m. for the period February 8 to February 17,
in order to make field intensity survey tests.
WJWB—Chas. C. Carlson, New Orleans, La.—Granted special
temporary authority to use transmitting equipment of
WBNO for period not exceeding 30 days, pending repairs
to WJWB's transmitter which was damaged by fire.

KAAE—Transcontinental & Western Air, Inc., Washington, D. C.—
Granted special temporary authority to operate a 100-watt
licensed aircraft transmitter KHART aboard Douglas Type
plane, as relaybroadcast station on 1 day from February
13 to 20, inclusive, on frequencies 2790 kc. or 2150 kc.,
plane flying over Los Angeles, connection with demonstrations
of special shielded loop antenna developed to be broadcast
over CBS national hookup; frequencies 2790 kc. and/or
2150 kc., 80 watts.

The Broadcast Division granted the petition by the Ohio Broad-
casting Company to intervene in the proceedings upon the appli-
cation of the Sharon Herald Broadcasting Co. for C. P. for
new station at Sharon, Pa., Docket No. 4201.

The Broadcast Division, in the exercise of its discretion under
Rule 103.3, refused to accept the amendment, involving a change
in equipment, to the application of WFTX, Inc., Docket No. 4365.

ORAL ARGUMENTS

Oral arguments were granted, to be held April 8, 1937, in the
following cases:
Ex. Rept. No. 1-339, Harmon L. Stevens and Herman L. Stevens,
d/b as Port Huron Broadcasting Co., Port Huron, Mich.;
and Ex. Rept. No. 1-341, Dallas Broadcasting Co., Dallas, Tex.

ACTION ON EXAMINER'S REPORTS

NEW—Ex. Rept. No. 1-273; Albert Lea Broadcasting Corp., Albert
Lea, Minn.—Granted C. P. for new broadcast station to
operate on 1290 kc., 100 watts, daytime only. Site to be
determined subject to Commission's approval. Examiner

NEW—Winona Radio Service, Winona, Minn.—Granted C. P. for
new broadcast station to operate on 1500 kc., 100 watts,
daytime only. Site to be determined subject to Commis-
sion's approval. Examiner R. H. Hyde sustained. Order
effective March 23, 1937.

KHS—Ex. Rept. No. 1-340; Golden Empire Broadcasting Co.,
Chico, Calif.—Granted modification of license to change
frequency from 1590 kc. to 1600 kc.; change power from
250 watts day to 250 watts night, 250 watts day; and
increase hours of operation from daytime to unlimited.
Examiner R. H. Hyde sustained. Order effective March 23,
1937.
APPLICATIONS RECEIVED

First Zone

WGR—Buffalo Broadcasting Corp., Buffalo, N. Y.—Modification of construction permit (B1-P-1189) to install new transmitter and antenna and increase power, requesting antenna changes and move of approximately 500 feet at same address.

WGMAKnickerbocker Broadcasting Co., New York, N. Y.—Modification of license to increase power of auxiliary transmitter from 500 watts to 1 KW.

WMAA—Knickerbocker Broadcasting Co., New York, N. Y.—Modification of license to increase power of auxiliary transmitter from 500 watts to 1 KW.

To use directional antenna day and night. Amended to give exact transmitter site as 6 miles southwest of Cleveland Public Square, south of Biddulph Road, between Ridge Road and West 117th St., Brooklyn Township, Ohio.

WSAJ—Grove City College, Grove City, Pa.—Modification of license to change specified hours and change studio site from Main and Broad St., Grove City College, to Hall of Science, Grove City College, Grove City, Pa.

NEW—George W. Taylor Co., Inc., Williamson, W. Va.—Construction permit for a new station to be operated on 1270 kc., 1 KW night, 5 KW daytime, unlimited time. Amended to change frequency from 1210 kc. to 1370 kc., and make changes in equipment.

WHK—The Radio Air Service Corp., Cleveland, Ohio.—Modification of license to increase night power from 1 KW to 5 KW (5 KW day power requested by B2-ML-415).

WCHV—Community Broadcasting Corp., Charlottesville, Va.—Construction permit to make changes in transmitting equipment and install vertical antenna; move transmitter from Stony Point Road, Charlottesville, Va., to Charlottesville, Va.

WHP—IWP, Inc., Harrisburg, Pa.—License to cover construction permit (B2-P-1239) for new antenna and move of transmitter.

NEW—Charleston Broadcasting Co., Charleston, W. Va.—Construction permit for a new high frequency broadcast station to be operated on 26550 kc., 100 watts, daytime.

NEW—Charleston Broadcasting Co., Inc., Vicinity of Charleston, W. Va.—Construction permit for a new relay broadcast station to be operated on 31100, 34600, 37600, 40600 kc., 5 watts, variable hours.
NEW—Charleston Broadcasting Co., Vicinity of Charleston, W. Va.—Voluntary assignment of license from Charleston Broadcasting Co., to Tri-State Broadcasting Co., Inc., West Palm Beach, Fla.—Construction permit for a new station to be operated on 1450 kc., 1 KW day and night, 500 watts daytime, unlimited time. Amended to change power from 250 watts to 250 watts.

Third Zone

WMC—Memphis Commercial Appeal, Inc., Memphis, Tenn.—Modification of license to cover construction permit (B3-P-1403) as modified for new equipment, increase in night power.

KGHI—Arkansas Broadcasting Co., Little Rock, Ark.—Construction permit to cover construction permit (B3-P-1468) for new station to be operated on 580 kc., 250 watts, daytime.

KRE—Central California Broadcasters, Inc., Berkeley, Calif.—Construction permit to install a new transmitter and antenna for 1370 kc., with 500 watts, unlimited time. Amended to change period of time from 4-1-37 to 10-1-37.

Fourth Zone

NEW—Northwest Publications, Inc., Duluth, Minn.—Construction permit for a new station to be operated on 1020 kc., 250 watts, daytime. Amended to change frequency from 920 kc. to 580 kc.

WDGY—Dr. George W. Young, Minneapolis, Minn.—Modification of construction permit (B4-P-1420) for a new transmitter, requesting extension of commencement and completion dates.

WABG—Memphis Commercial Appeal, Inc., Mobile.—Voluntary assignment of license from The Tribune Co., Dallas, Tex.—Construction permit for a new relay broadcast station to be operated on 1622 kc., 1 KW, 250 watts, daytime.

KFYO—Plains Radio Broadcasting Co., Lubbock, Tex.—Modification of construction permit (B5-P-725) to include a new station to be operated on 1420 kc., 250 watts, daytime, unlimited time.

NEW—Gallatin Radio Forum, Bozeman, Mont.—Construction permit for a new station to be operated on 1500 kc., 100 watts night, unlimited time.

NEW—Southeastern Broadcasting Co., Inc., Portable.—Construction permit for a new relay broadcast station to be operated on 1622 kc., 2058, 2150, 2790 kc., 30 watts. Amended to change power from 30 watts to 25 watts.

Fifth Zone

KJBS—Julius Brunton & Sons Co., San Francisco, Calif.—License to carry WDAH schedule on KTSM transmitter.

KTFI—Radio Broadcasting Corp., Twin Falls, Idaho.—Extension of special experimental authorization to operate with power of 1 KW (night) for period from 10-1-36 to 4-1-37. Amended to change period of time from 4-1-37 to 10-1-37.

KSLM—Oregon Radio, Inc., Salem, Ore.—Construction permit to install a new transmitter and antenna with special experimental authorization to operate with power of 1 KW (night) for period from 10-1-36 to 4-1-37. Amended to change period of time from 4-1-37 to 10-1-37.

KRE—Central California Broadcasters, Inc., Berkeley, Calif.—Construction permit to install a new transmitter and antenna; change frequency from 1370 kc. to 1110 kc., also change power from 100 watts to 500 watts.

NEW—Gallatin Radio Forum, Bozeman, Mont.—Construction permit for a new station to be operated on 1420 kc., 250 watts, daytime.
WASHINGTON RADIO HIGHLIGHTS

Five-year licenses for broadcasting stations proposed by Congressman Anderson of Missouri * * * * “There will be a reallocation,” said Chairman Prall of the FCC when testifying before the Senate Appropriations Committee on February 12 * * * * When Senator Byrnes (South Carolina) said, “I hope you will not authorize those 500,000-watt superstations without the most careful consideration, because it will injure the local stations,” Mr. Prall replied, “We will not, Senator” * * * * Printed record of hearings disclose also the FCC Chairman’s belief that if the Commission “were authorized under the Act to quiet a station or delete it for a temporary period, if we might close the station for two weeks for a violation, or a month, or six months, it would have a salutary effect on the industry as a whole” * * * * Mr. Prall also said he thought it would be desirable to have authority as to programs and the direction of broadcast stations with respect to the use of the time they are selling advertisers * * * * Question of license fees was raised by Senators Green (Rhode Island) and McAdoo (California), and Chairman Prall said, “To be equitable we could only do it, in my opinion, on the basis of income” * * * * “It would be like an income tax,” he said * * * * Chairman Prall sustained the view expressed by Senators Glass (Virginia) and McAdoo that it is not for the Commission “to tell a man he should or should not pay a certain price for a station.”

BILL FOR FIVE-YEAR LICENSES

Representative Anderson of Missouri on Wednesday introduced a bill in the House “to prescribe five-year minimum terms for broadcasting licenses.” The bill is as follows:

That section 307(d) of the Communications Act of 1934 is hereby amended to read as follows:

“(d) No license granted for the operation of a broadcasting station shall be for a shorter term than five years and no license so granted for any other class of station shall be for a longer term than five years, and any license granted may be revoked as hereinafter provided. Upon the expiration of any license, upon application therefor, a renewal of such license may be granted from time to time for a term of not less than five years in the case of broadcasting licenses and not to exceed five years in the case of other licenses, but action of the Commission with reference to the granting of such application for the renewal of a license shall be limited to and governed by the same considerations and practice which affect the granting of original applications.”

Sec. 2. The amendments made by section 1 of this Act shall not apply to any broadcasting license in force on the date of enactment of this Act until it expires pursuant to the provisions of section 307(d) of the Communications Act of 1934 as in force prior to such date.

(Ed. Note—There is no issue less controversial among our membership. Enactment of this bill would greatly increase the stability of the industry. That, we believe, would be in the public interest.)

RADIO AMENDMENT REPORTED

The House Committee on Interstate and Foreign Commerce on Wednesday made a favorable report on H. R. 3898 providing for an amendment to the Communications Act of 1934 which would amend section 318 of the Act in connection with radio operators. The committee reported the bill with some minor amendments. The bill as it was reported by the committee and recommended for passage is as follows:

“Sec. 318. The actual operation of all transmitting apparatus in any radio station for which a station license is required by this Act shall be carried on only by a person holding an operator’s license issued hereunder, and no person shall operate any such apparatus in such station except under and in accordance with an operator’s license issued to him by the Commission: Provided, however, That the Commission if it shall find that the public interest, convenience or necessity will be served thereby may...
waive or modify the foregoing provisions of this section for the operation of any station except (1) stations for which licensed operators are required by international agreement, (2) stations for which licensed operators are required for safety purposes, (3) stations engaged in broadcasting, and (4) stations operated as common carriers on frequencies below thirty thousand kilocycles: Provided, further, That the Commission shall have power to make special regulations governing the granting of licenses for the use of automatic radio devices and for the operation of such devices."

COMMISSION DENIES TRI-STATE PETITION

The Federal Communications Commission sitting en banc on Wednesday denied the petition of the Tri-State Broadcasting Company for a rehearing in the application of Dorrance D. Roderick for authority to establish a new broadcasting station at El Paso, Texas, using 1500 kilocycles, 100 watts power, unlimited time on the air. Commissioner Stewart dissented.

FAMOUS-DORANA RADIO PRODUCTIONS

The Famous-Dorana Radio Productions of Chicago, Illinois, manufactures an electrically transcribed library service for lease to radio broadcasting stations. The license agreement offered to stations should be studied carefully. Section 2 of their agreement reads as follows: "All selections in the library are fully tax paid, and the station may use any selection on either sustaining or sponsored local broadcast without additional payment of tax or fee; it being understood that the station shall send a list of all selections, used on sponsored local radio broadcasts during the first six months, to the producer."

A member who questioned Famous-Dorana concerning this provision is now advised by letter dated February 15, 1937, and signed by Daryl C. Doran, as follows: "A radio station must hold a performing license from ASCAP before the station can use our transcriptions. We hold a license to make the recordings but not a performing license."

"I understand that a radio station pays a percentage of their gross net income (or some such basis) which gives them the right to use all ASCAP music as often as they wish, either from records, transcriptions, or with live talent. . . ."

YOUR PERSONAL PROBLEM CLINIC

And now Bernard Zissu of Radio Program Associates offers to radio stations without cost a new fifteen-minute transcribed program developed by the editors of Physical Culture Magazine. Any station performing these transcriptions on any basis other than that specified in its rate card is violating both the letter and the spirit of paragraph 6 of the NAB Code of Ethics.

THE MUTUAL BENEFIT MANAGERS’ RADIO CAMPAIGN

It is reported that time for an insurance program may be purchased at a 5 per cent discount. The discount is said to be based on a confidential arrangement made by the sponsors through its advertising agency.

This is called to the attention of members that they may have the opportunity of doing a little policing per paragraph 6 of the NAB Code of Ethics.

A. F. A. MEETS IN JUNE

The 33rd Annual Convention of the Advertising Federation of America will be held June 20th to 23rd, inclusive, at the Hotel Pennsylvania, New York City.

RECOMMENDS NO CHANGES FOR KWBG

Broadcasting station KWBG, Hutchison, Kans., applied to the Federal Communications Commission to change its frequency from 1420 to 550 kilocycles, its power increased from 100 to 250 watts, and that its present unlimited time be left that way.

Examiner Melvin H. Dalberg, in Report No. I-357, recommended that the application be denied. The Examiner states that "it appears from the record that while the granting of this application would result in an increase in the useful daytime service area which is sought as coverage, the useful night-time service area (should the station be operated as proposed) would be less than now exists."

POWER INCREASE RECOMMENDED FOR WCOA

Broadcasting station WCOA, Pensacola, Florida, operating unlimited time on 1340 kilocycles, applied to the Federal Communications Commission to increase its daytime power from 500 to 1,000 watts, and to continue its present 500 watts night-time power.

Examiner Melvin H. Dalberg, in Report No. I-359, recommended that the application be granted. He found that "the proposed operation of the applicant will not adversely affect the interest of any licensed station, nor are there any pending applications which involve the possibility of objectionable interference." He states that the granting of the application would be in the public interest.

RECOMMENDS DENYING CALIFORNIA STATION

Loyal K. King applied to the Federal Communications Commission for a construction permit for the erection
of a new broadcasting station at Pasadena, Calif., to use 1320 kilocycles, 250 watts, and daytime operation.

Examiner Ralph L. Walker, in Report No. I-358, recommended that the application be denied. The Examiner states that “there is no need shown for additional broadcast service.” He states further that “the facts shown do not lead to the conclusion that a fair, efficient, and equitable distribution of radio service among the several states and communities would be accomplished by the granting of the application.”

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

No. 3057. American Mushroom Industries, Ltd., 28-30 Bloor St., West, Toronto, Canada, with an American branch office at 73 West Eagle St., Buffalo, N. Y., is charged with unfair competition in the sale of mushroom spawn, in a complaint.

Approximately 95 per cent of the respondent company's total sales are made in the United States, according to the complaint, and in this sale the respondent is alleged to have made misleading representations in its advertising.

The complaint charges that the respondent's advertising served to represent that there is a shortage of and a tremendously increasing demand for fresh mushrooms, and that the company's mushroom spawn will produce extraordinary financial returns to purchasers, may be planted in any idle space about the home, and that mushroom growing is an easy and pleasant occupation requiring no experience.

No. 3058-3059. A Baltimore ice cream cone manufacturer and a Brooklyn candy maker are charged in complaints with unfair competition in the sale of their products by means of lotteries. The respondent companies are Maryland Baking Co., 1200 South Eutaw St., Baltimore, and Mells Manufacturing Co., 250 Park Ave., Brooklyn.

Manufacturing cones and selling them to wholesalers, jobbers and ice cream manufacturers, Maryland Baking Co. is alleged to have distributed them packed and assembled with small printed slips a few of which were worded so as to entitle the recipient to an extra ice cream cone free of charge.

According to the complaint, the slips were so placed in the cones that the consumer could not ascertain whether or not he was entitled to a free cone until after he had bought a cone and partially consumed it. Whether he received an additional ice cream cone free was determined wholly by lot or chance, the complaint alleges.

No. 3060. American Television Institute, Inc., a correspondence school, and others, 433 East Erie St., Chicago, are charged in a complaint with unfair competition in the sale of courses in radio and television.

Representations made by the respondents are alleged to have had a tendency to mislead a substantial portion of the student public into erroneous beliefs regarding the respondents' courses, and to have caused them to enroll as students on account of such beliefs.

Certain representations made by the respondents in newspapers, booklets and general business correspondence are alleged to serve as representations that: Several young men are to be selected and trained for positions in radio television at the respondents' expense until actually employed; that a seventy-lesson course is offered, as representations that: Several young men are to be selected and trained for positions in radio television at the respondents' expense until actually employed; that a seventy-lesson course is offered, containing no experience required, of which the pupils are given opportunity for graduate residence study. It was also represented, according to the complaint, that certain individual respondents are engineers for certain radio stations.

No. 3061. Glenn Laboratories, Inc., 287 West 127th St., New York City, selling a thyroid treatment for overweight, is charged with unfair competitive practices in violation of Section 5 of the Federal Trade Commission Act, in a complaint.

Offering “Dr. Thomas' Rx 157” for sale, the respondent company is alleged to have made representations tending to induce prospective buyers to purchase the product, believing it to be a safe, harmless and competent remedy or treatment for all classes and types of obesity. These representations are alleged to be false and misleading, both because of their content and because of what the respondent fails to disclose.

The product is alleged to have been advertised over the radio and in newspapers and magazines as a new preparation, constituting a so called new and improved method, the use of which converts food into fuel and energy. It was advertised, according to the complaint, either expressly or by implication, that the product could be safely taken by laymen without advice of physicians.

No. 3062. Charging unfair competition in the interstate sale of a preparation for use in dyeing white or gray hair, a complaint has been issued against J. Palazzolo, 436 E. 41th St., New York, manufacturer and distributor of this product, sold under the names “Otello Water” and “L'Acqua Otello.”

L'Acqua Otello was advertised expressly or by implication as being not a dye but “a preparation which gives your hair a natural color, vitality,” according to the complaint, and Otello Water was represented as “not a tincture but a compound that restores gray hair to its natural color.”

The complaint also alleges that Otello Water was advertised in the same manner as capable of ending baldness, baldness and falling hair, as a sure cure for baldness.

No. 3063. Misleading representations of the character of the business of a nursery product dealer is alleged in a complaint against Earl E. May Seed Co. and Earl E. May, Shenandoah, Iowa.

Engaged only in the transportation, sale and distribution of nursery stock purchased at wholesale from the actual growers, the respondent company is alleged to have advertised in a manner serving to represent that the company actually grows or propagates the nursery products it sells and that it owns and operates nurseries, farms or properties on which the nursery products it sells are grown.

These representations are alleged to have a tendency to mislead purchasers into the erroneous belief that when they buy nursery stock from the respondents they are buying directly from the grower and are receiving advantages that come from such direct purchasing.

Stipulations and Orders

The Commission has issued the following cease and desist orders and stipulations:

No. 01518. B. Max Mehl, Mehl Building, Fort Worth, Tex., trading as Numismatic Company of Texas, agreed to discontinue representing in the sale of his booklets entitled “The Star Rare Coin Encyclopedia” and “The Star Coin Book,” and an illustrated folder giving information on coins, that any of them contain a certain number of illustrations, unless such is a fact; that the slips heretofore made have been issued and propaga-

tes the nursery products it sells and that it owns and operates nurseries, farms or properties on which the nursery products it sells are grown.

The respondents are alleged to have a tendency to mislead purchasers into the erroneous belief that when they buy nursery stock from the respondents they are buying directly from the grower and are receiving advantages that come from such direct purchasing.

No. 01519. W. H. Noll, trading as The Pinex Co., Fort Wayne, Ind., in its stipulation agreed to stop representing that its product “Pinex” is an effective remedy or competent treatment for colds. The respondent also will cease representing that its product “Pinex” is an effective remedy or competent treatment for colds. The respondent also will cease representing that its product “Pinex” is an effective remedy or competent treatment for coughs, unless such representation is qualified to indicate coughs due to colds. The respondent also will cease representing that his preparation is “100 per cent effective,” that it will end bad coughs quickly, giving instantaneous relief from colds, and will discontinue other similar representations.

No. 01530. M. N. Bunker, 400 Reliance Building, Kansas City, Mo., trading as Madame Serena, will discontinue advertising, in connection with the sale of astrological charts, that an individual or strictly personal report or “scope” is made to a customer; that a “master secret” is given free so long as it is included in the price of a “handwriting report,” and that the “master secret” will enable one to solve money problems, gain
happiness, double business, secure employment, or acquire a new grasp on life.

No. 10521. Psoriatex Laboratory, Inc., 1402 Real Estate Trust Building, Philadelphia, stipulates it will desist from representing that its product “Psoriatex” is a competent remedy in the treatment of psoriasis, unless the assertion is properly qualified, and that the preparation will relieve the most chronic cases, no matter how long affected. The company agreed to stop representing that psoriasis is a germ disease, or that the germs operate in the skin or on the skin. The respondent admitted that, according to reliable medical authority, the cause of psoriasis is unknown, and its duration, regardless of the treatment, is uncertain.

No. 10522. Charles Beaum, trading as Laborlite Manufacturing Co., 430 S. E. 6th Ave., Portland, Ore., agreed to cease representing that its trisodium phosphate washing preparation, designated “Laborlite” will destroy or destroy all germs, and that it contains no harmful ingredients and is composed of harmless minerals.

No. 10523. L. Sachs, 1085 Washington Ave, New York City, trading as Plastex Industries, and selling novelties and molds for use in the manufacture of such novelties, stipulated he would cease representing inferentially by such an assertion as “We start you in business” that he gives financial assistance to any one who desires to enter into the business of manufacturing novelties by use of the molds he sells; that, by the assertion, “We place orders and buy goods”, he will either buy, or procure purchasers for all of the articles a person may manufacture by use of his molds, that he cannot help but make perfect castings with his molds.

The respondent further agreed not to make unqualified claims of earnings in excess of the average earnings, under normal business conditions, of those who purchase molds or materials from him.

The respondent admitted, according to the stipulation, that he does not order or buy all of the products of his customers, but only as many as he can resell, for which he fixes and pays a wholesale price, and that no person purchasing his molds has earned the amounts of money represented.

No. 10524. A. A. Volk, trading as Volkscraft Inc., 297 Farmington Road, Rochester, N. Y., in the sale of “No-Emb”, will stop representing that this product is competent in the treatment of common ailments of the kidneys, liver or bowels, and that it has been of any use in the sale of “No-Erb”, will stop representing that his trisodium phosphate washing preparation, designated “Laborlite”, will sterilize or destroy all germs, and is composed of harmless minerals.

No. 10525. Fanule L. Judy, 1420 Broadway, San Diego, Calif., trading as Judy Medicine Co., stipulated that she will stop representing “Judy's Tablets” as competent treatment for indigestion, nervous complaints, rheumatism, liver trouble, and other conditions, that she will not sell or offer for sale any product represented to be necessary for headaches, unless this assertion is limited to relief of headaches due to constipation.

No. 10526. Takara Laboratories, 6314 Santa Monica Blvd., Hollywood, Calif., in the sale of “Takara Hygienic Powder”, “Foram”, and “Takara Suppositories”, agreed to desist from the representation, by direct statement or reasonable inference, that any one of its products is an effective destroyer of germ life, is the ideal preparation for feminine hygiene, and other similar allegations.

No. 10527. Moonshine Chemical Co., Inc., Pittsburgh, dealing Moon-Shine Washing Fluid, signed a stipulation to discontinue representing that the product destroys odors and kills germs, unless it is clearly indicated in connection with such representations that the product will not destroy all odors and will not kill all germs, including their spores; that it bleaches, removes stains and mildew, deodorizes, disinfects, and kills germs in one operation, and that it has a hundred helpful household uses.

Nos. 10528-10530. Stipulations have been entered into with two respondents for discontinuance of unfair advertising practices in connection with the interstate sale of their products. One is a Chicago dealer in a weight-reducing preparation. The other is a New York vendor of a physical culture course.

Respondents have signed in their stipulations: (1) Mrs. O. DeHaug, 4428 South Homan Ave., Chicago, trading as Raoxolyn Products, Raoxolyn Health Products, and Raoxolyn Laboratories, and (2) The King Book Shion, Inc., Madison Square Garden Arcade, New York, and Nat Fleisher, an individual, selling a course designated Nat Fleisher's Universal Boxing Course and System of Exercise for Height Increase.

Among advertising representations to be discontinued by the Chicago dealer are that her product, Alpine for the Waistline, is a powerful stimulant for the thyroid gland, is Nature's Neutralizing Normalizer and gets at the cause of the fat. The respondent admitted that, according to scientific opinion, the medicinal value of her product is practically limited to that of a senna laxative, and would not act as a stimulant to the thyroid gland, and that it would not purge the intestinal tract of poisonous waste and act as a normalizer for the entire system, as represented in connection with the interstate sale of boxes, agreed to desist from representing that his product, Alpine for the Waistline, is of value in prevention or treatment of worms, cocci- and other poultry diseases. The respondent also will no longer be advertised as a penetrating, healing spray for poultry capable of overcoming colds, bronchitis, diphtheria, and other diseases in poultry.

No. 1086. George F. Dodge, trading as Windsor Soap Co., Oneida and Bond Sts., Buffalo, agreed to stop use of the word “olive oil” on labels or in advertising matter to describe soap products whose fatty content is not composed wholly of olive oil, and use of the word “olive” in any manner so as to imply that the fatty content of the product so designated is composed wholly of olive oil, when such is not a fact. Dodge also will cease representing that the word “olive” is descriptive of fatty content in the soap products, which may create the impression that he owns or operates a factory in which his products are manufactured, when this is not true.

No. 1887. Gero Products, Inc., 158 North Street, South Boston, Mass., stipulated that on cartons containing emergency first-aid kits it will desist from using exaggerated or misleading representations concerning the value of such kits, or the price at which they are sold or are intended to be sold. The stipulation sets out that on the cartons appeared the words “Price 35 Cents”, which was not the price at which the kits were sold or intended to be sold, but was much in excess of the price at which they were sold.

Nos. 1889-1890. Sessions Clock Co., Forestville, Conn., and National Bedding Co., 1820 Delmar St., St. Louis, Mo., dealing, respectively, in clocks and mattresses, agreed to cease selling or distributing in interstate commerce products tagged or labeled with any fictitious, exaggerated or misleading price which is in excess of the price at which such products are sold or intended to be sold in the ordinary course of trade.

Nos. 1888-1900. Stipulations have been entered into with two food companies regarding unfair representations in interstate sales of food products. They are B. H. and Isallore Rudo, 121 Cheapside, Baltimore, trading as B. H. Rudo & Brother and as Atlantic Wholesale Grocery Co., and George W. Hogue Extract Co., 620 Prospect Ave., Kansas City, Mo., doing business also as George W. Hogue Manufacturing Co. and MeMillen Products Co.

Selling groceries at wholesale, the Baltimore firm agreed to stop branding or otherwise advertising its products as of “fancy" grade or quality when they were not of the grade or quality understood by the buying public to be entitled to that designation.

The Rudo firm agreed to cease employing stamps or brands that would indicate their products to be of higher quality than they are in fact.

The Kansas City Company, selling food flavors, agreed in its stipulation to discontinue use of the word “extract” as part of its corporate or trade name and in advertisements to describe products not extracts, or in any way tending to deceive buyers into believing that the firm manufactures or deals in extracts, when such is not the fact.
No. 1891. Leo J. Ratheim, trading as St. Clair Graphite Co., 819 East Main St., Belleville, Ill., is engaged in the sale of an auxiliary lubricant known as "Graf-ex," intended to be an added to ordinary lubricants and motor fuel oils. Ratheim signed a stipulation to discontinue advertising that, by use of "Graf-ex," oil and gasoline used can be knocked out of gasoline used. He also will stop representing that an advertised price of $3.25 cents for two pints of the product is "Two pints for the price of one." According to the stipulation, the product was regularly sold for 45 cents a pint.

No. 1892. Arcurtus Radio Tube Co., 729 Frelinghuysen Ave., Newark, N. J., agreed that it will discontinue the use of the word "metal" as descriptive of the radio tubes it sells, so as to imply that they are products which have become popularized and known to the trade and public as tubes in which the technical elements are sealed in a vacuum in steel, or wherein metal functions instead of glass. The stipulation provides that if the technical elements are sealed in a vacuum in glass encased in a metal shell, and the words "metal tube" are used to designate the metal covering, then such words shall be accompanied conspicuously by other suitable words so as to indicate clearly that the tube does not have its technical elements sealed in a vacuum in steel, and that it is a product other than one wherein metal functions instead of glass.

No. 1894. Schnefel Brothers, Inc., 684 South 17th Street, Newark, N. J., in connection with the sale of two nail polishes under the trade name "La Cross," agreed to discontinue putting into effect, by cooperative methods, any system for the maintenance of resale prices established by it. The corporation will stop seeking or obtaining agreements or assurances from wholesalers or retailers that they will cooperate in making effective any resale price maintenance system, and will cease seeking or obtaining assurances of cooperation from dealers failing to maintain established resale prices, that in the future they will adhere to such fixed resale prices, as a condition of their being further supplied with "La Cross" products.

No. 1895. New York Post, Inc., publisher of the New York Post and also engaged in printing and selling books, agreed to discontinue use in advertising matter of the phrase "embossed in gold" as descriptive of the titles and borders of certain books it sells, which are not, in fact, embossed in gold or gold leaf. The publishing company also will cease using the word "gold" in any way so as to create the impression that the material used on the titles and borders is gold or gold leaf, when such is not a fact. The stipulation states that the publishing company, in using "The Complete Works of Charles Dickens," advertised that "the titles and decorative borders are richly embossed in gold," when, in fact, they were finished with a material which, though it simulated gold or gold leaf in appearance, actually contained no gold.

No. 1896. Trading as Superkleen Company, Sidney and Ben Warmbrand, 265 West 34th St., New York City, engaged in the sale of a cleaning fluid known as "Superkleen," have entered into a stipulation with the Federal Trade Commission to discontinue use of the words "Leaves No Rings," or any other words, on labels or in advertising matter which may imply that the product will not leave a ring on any fabric to which it may be applied.

No. 1897. Pine Products International, Inc., 254 West 31st Street, New York City, signed a stipulation under which it agreed to cease representations in advertising matter that its bath preparations, designated "Swiss Pine Bath," "Pine Bath Siberis," and "Balpine," possess such therapeutic properties as to render them a complete treatment for all diseases of the respiratory system, sleeplessness, neuritis, rheumatism, colds, and conditions of the respiratory system, the heart and lungs. The company also will desist from use of the word "imported," alone or with other words such as in the phrase "Imported Pine Essences," so as to imply that its products consist wholly of pine essences wholly imported, when such is not a fact, and from use of the word "laboratories" so as to imply that it owns or operates a laboratory.

No. 1898. The Mystic Foam Corporation, 6607 Carnegie Ave., Cleveland, selling another cleaning fluid designated "Mystic Foam," also signed a stipulation to cease misrepresenting its product. It agreed to stop advertising that its preparation is a disinfectant, that it contains chemicals which instantly destroy bacteria and moths in fabrics on which it is used, or that it will eliminate the larvae or eggs of moths from fabrics treated with "Mystic Foam."

No. 1899. Holland Furnace Co., Holland, Mich., signed a stipulation to discontinue advertising matter of the assertion, "Find out why only Holland can guarantee perfect heat in every room," when, in fact, the Holland company is not the only furnace manufacturer concerned which guarantees perfect or satisfactory heat in every room.

No. 2111. National Silver Co., 61-65 West 23rd St., New York, cutlery distributor, has been ordered to cease and desist from misrepresentations in the sale of its products through use of the words "stainless" and "stainproof" as designations. The order bars representation by means of advertisements, signed by manufacturers and distributors upon their cutlery, table cutlery and flatware, or used in advertising such ware and cutlery, has, through long and continued usage, come to signify to the manufacturer, the distributor, the retailers, and to the ultimate purchaser and user, that such cutlery is produced from the chromium-steel alloy, stainless steel.

Use of the word "stainless" as a trade name, brand or label for knives and flatware cutlery, or in advertising and representing these articles, is prohibited unless they are made of steel containing from 9 to 16 per cent of chromium and not more than 0.7 per cent of carbon. These specifications are based, according to findings, on the recognized proportions of these ingredients in cutlery stainless steel, an alloy produced from iron, chromium and carbon, and possessing to a high degree the quality of resisting oxidation and corrosion.

No. 1957. An order to cease and desist has been issued against Granite Arts, Inc., 1909 Leavenworth St., Omaha, Nebr., requiring that firm to discontinue certain unfair representations in the interstate sale of tombstones, monuments and grave markers, in violation of Section 5 of the Federal Trade Commission Act.

Manufacturing its products by mixing granite chips or powder with cement and molding this into a cast stone, this company is ordered by the Commission to cease representing that its cast stone products are granite, and to stop representing through use of a corporate or trade name or other words or phrases containing the word "granite," that its products are granite. Findings in the case are that the respondent does not manufacture any products from true granite.

No. 2825. Under an order entered, Cushin Refining & Gasoline Co., Cushin, Okla., is prohibited from unfairly disparaging Ethyl gasoline, and from falsely representing that all of the gasoline it manufactures and sells is produced by a new process and is superior to the product containing tetraethyl lead, also known as "Ethyl."

The respondent corporation has refineries at Cushing and Blackwell, Okla., and a branch office at Minneapolis. According to the findings, the respondent corporation, prior to the issuance of the complaint in the Commission's proceeding, did not manufacture or sell gasoline containing tetraethyl lead, and was not interested and engaged in presenting to the purchasing public all available arguments tending to lessen the desirability, effectiveness and safety of Ethyl gasoline. Findings are that the corporation during the summer of 1936, began selling Ethyl, described as a gasoline to which tetraethyl lead has been added for the purpose of eliminating knock or detonation encountered in high compression motors when driven by standard regular gasoline. The order bars representation by means of radio, advertising matter and testimonial letters that the respondent company's products have curative value other than as a laxative or purgative in treating diseases, and that they are not a habit-forming drug.

No. 2924. Joseph Lewin, 207 West 17th St., New York, trading as Leeve-No-Ring Chemical Co., has been ordered to cease and desist from representing, through use of the phrase "Leeve-No-Ring" in his trade name and in advertising, that the cleaning fluids he sells can be used safely and without injury to the most delicate fabrics or materials.

Findings are that the respondent's preparations, when used on
certain dyed fabrics such as those containing non-fast or fugitive dyes, do affect the colors by causing them to bleed or run.

No. 2983. Selling home study psychology health courses, Robert Holmes, Inc., and Albert Goodman, Fuller Building, Jersey City, N. J., have been ordered to cease and desist from exaggerating and misrepresenting the nature, value and effect of such courses.

The respondents are ordered to discontinue representing, among other things, that their course is a competent treatment for nervousness, indigestion, dizzy spells, sleeplessness, irregular heart, constipation, slowing of the physical ailments mentioned; that constipation, indigestion, cold sweats, dizzy spells and hashish are always caused by nervous exhaustion, and that for 25 cents, or any other nominal sum, one may learn how to conquer hashish, nervousness or embarrassment, may overcome his faults easily and enjoy life to the fullest.

FEDERAL COMMUNICATIONS COMMISSION ACTION

Hearing Calendar

The following broadcast hearings are scheduled at the Commission for the week beginning Monday, March 1:

**Monday, March 1**

**HEARING BEFORE AN EXAMINER**

(Broadcast)

NEW—Broadus McSwain, d/b as "The Voice of The Times," Raleigh, N. C.—C. P., 1210 kc., 100 watts, daytime.

NEW—D. L. Thornton, approximately between Centralia & Chehalis, Wash.—C. P., 1500 kc., 100 watts, 250 watts L.S., unlimited time.

NEW—Chase S. Osborn, Jr., Fresno, Calif.—C. P., 1440 kc., 500 watts, unlimited time.

NEW—Central Broadcasting Corp., Centralia, Wash.—C. P., 1440 kc., 100 watts, unlimited time.

NEW—J. D. Keating, Harvey Wells, et al., d/b as Vancouver Broadcasting Co., Vancouver, Wash.—C. P., 1500 kc., 100 watts, daytime.

NEW—Vancouver Radio Corp., Vancouver, Wash.—C. P., 880 kc., 250 watts, daytime.

**Tuesday, March 2**

**HEARING BEFORE AN EXAMINER**

(Broadcast)

NEW—Charles Porter & Edward T. Eversole, Festus, Mo.—C. P., 1210 kc., 100 watts, daytime.

NEW—Northwestern Publishing Co., Danville, Ill.—C. P., 1500 kc., 250 watts, daytime.

NEW—Curtis Radiocasting Corp., Indianapolis, Ind.—C. P., 1500 kc., 100 watts, 250 watts L.S., specified hours.

WKBW—Buffalo Broadcasting Corp., Buffalo, N. Y.—Granted C. P. for change in transmitter location approximately 500 feet from present site, and change in antenna system.

WDGY—Dr. George W. Young, Minneapolis, Minn.—Granted modification of C. P. for extension of commencement date approximately 500 feet from present site, and change in antenna system.

WFOY—Fountain of Youth Properties, Inc., St. Augustine, Fla.—Granted license to cover C. P. as modified: 1210 kc., 100 watts, unlimited.

KROC—Southern Minnesota Broadcasting Co., Rochester, Minn.—Granted authority to transfer control of corporation from First Trust Co. of St. Paul and G. P. Castner as Special Admnr. of estate of L. J. Shields, deceased; Florence E. Brown and Emmet Butler as Trustees under will and testament of Frank M. Brown. Florence E. Brown as Guardian of estate of James L. Brown, a Minor, and Stanley Hubbard & National Battery Broadcasting Co., to: Gregory Gentling; 1510 kc., 100 watts, unlimited. Also granted renewal of license for the period December 1, 1936, to June 1, 1937.

WPEN—Wm. Penn Broadcasting Co., Philadelphia, Pa.—Granted renewal of license for the period 3-1-37 to 9-1-37; 920 kc., 250 watts day, 500 watts day, 6:30 p.m. to 1 a.m. daily, 5:30 p.m. to 1 a.m., Sunday. Also granted renewal of license for auxiliary transmitter; 920 kc., 250 watts day and night for auxiliary purposes only.

WRDO—WRDO, Inc., Augusta, Maine.—Granted renewal of license for the period January 1 to July 1, 1937; 1370 kc., 100 watts, unlimited time.

KJFR—Fisher's Blend Station, Inc., Seattle, Wash.—Granted renewal of license for auxiliary transmitter for the period February 1 to August 1, 1937.
KFDQ—Anchorage Radio Club, Inc., Anchorage, Alaska.—Granted extension of present license for a period of 60 days from March 1, upon a temporary basis only, subject to such action as may be taken upon pending application for renewal.

WWJ—The Evening News Assn., Inc., Detroit, Mich.—Granted extension of present license for a period of 30 days from March 1, upon a temporary basis only, subject to such action as may be taken upon pending application for renewal.

KWKH—International Broadcasting Corp., Shreveport, La.—Granted renewal of license for the period February 1 to August 1, 1937; 850 kc., 10 KW night and day, specified hours.

WMCA—Knickerbocker Broadcasting Co., Inc., New York City.—Granted renewal of license for the period March 1 to September 1, 1937; 570 kc., 500 watts day and night, unlimited time. Also granted renewal of license for auxiliary transmitter.

KFYO—Plains Radio Broadcasting Co., Amarillo, Tex.— Granted further extension of present license for a period of 30 days, on a temporary basis, from March 1, subject to such action as may be taken upon pending application for renewal.

KGNC—Plains Radio Broadcasting Co., Amarillo, Tex.—Granted further extension of present license for a period of 30 days, on a temporary basis from March 1, subject to such action as may be taken upon pending application for renewal.

WJAC—National Broadcasting Co., Inc., Mobile.—Granted license to cover C. P., frequencies 38900, 39100, 39300 and 39500 kc., on an experimental basis, 10.5 watts.

WDWS—Champaign News-Gazette, Inc., Champaign, Ill.—Granted license to cover C. P. and modifications; 1570 kc., 100 watts, daytime only.

W4XCC—Stuart Broadcasting Corp., Mobile.—Granted license to cover C. P., frequencies 38900, 39100, 39300 and 39500 kc., on an experimental basis, 1.5 watts.

SET FOR HEARING

NEW—Galesburg Printing & Pub. Co., Galesburg, Ill.—Application for C. P. for new station, 1200 kc., 100 watts, unlimited time, exact transmitter, and studio sites to be determined with Commission’s approval.

NEW—W. W. Luce, Fort Lauderdale, Fla.—Application for C. P. for new station, 1550 kc., 1 KW, unlimited time, exact transmitter and studio sites to be determined by Commission’s approval.

NEW—Dan B. Shields, Provo, Utah.—Application for C. P. for new station, 1290 kc., 100 watts, unlimited time, exact transmitter and studio sites to be determined with Commission’s approval.

NEW—Northwest Research Foundation, Inc., Seattle, Wash.— Application for C. P. for new special broadcast station, 1530 kc., 1 KW, unlimited time, exact transmitter site in Seattle to be determined subject to Commission approval. (Application was amended to change name from Ward Walker to Northwest Research Foundation, Inc.)

NEW—T. E. Kirksey, Waco, Tex.—Application for C. P. amended to request 930 kc., 250 watts night, 500 watts day, unlimited time, exact transmitter and studio sites to be determined with Commission’s approval.

KUOA—KUOA, Inc., Sioux City, Iowa.—Modification of license to change frequency from 1260 kc. to 620 kc.; increase power from 2500 kw to 5 kw.

WDRC—WDRC, Inc., Hartford, Conn.—Special experimental authority to install booster station in New Haven, Conn., to operate synchronously with WDRC (site to be determined); 1330 kc., 250 watts.

KMTR—KMTR Radio Corp., Los Angeles, Calif.—Renewal of license for the period March 1 to September 1, 1937; 570 kc., 1 KW day and night, unlimited. Temporary license granted pending outcome of hearing.

NEW—Clarence A. Berger and Saul B. Freeman, Coeur d’Alene, Idaho.—Application for C. P. amended to request 1290 kc., 100 watts, daytime only, exact transmitter site and type of antenna to be determined with Commission’s approval.

NEW—F. W. Berton, Coral Gables, Fla.—Application for C. P. for new station, 1420 kc., 100 watts, unlimited, exact transmitter and studio sites and type of antenna to be determined with Commission’s approval.

NEW—C. P. Sudweeks, Spokane, Wash.—Application for C. P. for new station, 950 kc., 500 watts night, 1 KW day, unlimited, exact transmitter site to be determined with Commission’s approval.

WDEY—Chas. B. Adams, admr. of Harry C. Whitehill Estate and Exec. of Mary M. Whitehill Estate, Waterbury, Vt.—Application for renewal of license, 550 kc., 500 watts local sunrise to local sunset only. Granted temporary license pending hearing.

WBZA—Westinghouse Electric and Manufacturing Co., Boston, Mass.—Application for C. P. to move transmitter locally, approximately 5 miles, to Agawam, Mass.; studio from Boston to Springfield, Mass.; install new equipment and directional antenna; change frequency from 990 kc. to 550 kc.; change time of operation from 1 KW night and day when synchronized with WBZ to unlimited time. (Deletes facilities of WDEY.)

KSD—Pulitzer Publishing Co., St. Louis, Mo.—Application for renewal of license for the period 9-1-36 to 3-1-37 (KSD and KFUO operating under temporary extensions pending time-sharing agreement). KSD operates on 550 kc., 1 KW night, 5 KW day, shares KFUO. Granted temporary license pending hearing.
KARK—Arkansas Radio & Equipment Co., Little Rock, Ark.—Application for renewal of license for the period 3-1-37 to 9-30-37; 890 ke., 250 watts night, 500 watts day, unlimited. Granted temporary license subject to whatever action the Commission may take upon renewal application.

RENEWAL OF LICENSES

The following stations were granted renewal of licenses for the regular period:

KFEI, Denver, Colo.; KFKA, Greeley, Colo.; KFRU, Columbia, Mo.; KUSD, Vermillion, S. Dak.; KVOD, Denver, Colo.; KWTO, Springfield, Mo.; WCOC, Meridian, Miss.; WDAF, Kansas City, Mo.; WELI, New Haven, Conn.; WFLIL and auxiliary, Philadelphia, Pa.; WFMD, Frederick, Md.; WICC, Bridgeport, Conn.; WIS, Columbia, S. C.; WJAX, Jacksonville, Fla.; WLBZ, Bangor, Maine; WMC and auxiliary, Memphis, Tenn.; WORL, Boston, Mass.; WOSU, Columbus, Ohio; WQAM and auxiliary, Miami, Fla.; WSUI, Iowa City, Iowa; WREC, Memphis, Tenn.; WSVB, Harrisonburg, Va.

The licenses for the following stations were extended on a temporary basis only, for the period March 1 to April 1, 1937, pending receipt and/or action on applications for renewal:

KGBU, Ketchikan, Alaska; WGHS, Charleston, W. Va.; WJAY, Cleveland, Ohio; WLBL, Stevens Point, Wis.; WPHR, Pittsburgh, Pa.; WSYR-WSYU, Syracuse, N. Y.

KGFG—Oklahoma Broadcasting Co., Inc., Oklahoma City, Okla. Present license further extended on a temporary basis for the period March 1 to April 1, subject to such action as may be taken on application for renewal.

WPRP—Julio M. Conesa, Ponce, Puerto Rico—Present license further extended on a temporary basis only for the period March 1 to April 1, 1937, pending receipt and action on application for renewal.

KFUO—Evangelical Lutheran Synod of Mo., etc., Clayton, Mo.—Granted renewal of license on a temporary basis only, for the period ending September 1, 1937, subject to whatever action may be taken by the Commission upon the pending application for renewal.

KSEI—Radio Service Corp., Pocatello, Idaho—Granted renewal of license on a temporary basis only, for the period ending September 1, 1937, subject to whatever action may be taken by the Commission upon the pending application for renewal.

KGDY—Voice of South Dakota, Huron, S. Dak.—Granted extension of special temporary authority to remain silent from March 11 to 15, for the purpose of rebuilding transmitter to comply with Rule 132 (provided that the authority herein granted, to remain silent, shall not in any wise be construed as a finding by the Commission with respect to any applications of KGDY, which are now pending before the Commission, particularly the renewal application for said station, or upon any issues raised thereby.

WMBG—Havens & Martin, Inc., Richmond, Va.—Granted extension of special temporary authority to operate from 5:30 to 7 p. m., EST, Sundays, from March 1 to 31, 1937, incl., provided WBBL remains silent, in order to broadcast special programs.

APPLICATION DISMISSED

The following application heretofore set for hearing, was dismissed at request of applicant:

APPLICATIONS RETIRED TO FILES

WTRC—The Truth Publishing Co., Elkhart, Ind.—Application for special temporary authority to operate simultaneously with WBLC from 7:30 to 10 p. m., EST, March 5, 6, 12, 13, 19, 20, 26 and 27, 1937, in order to broadcast the Elkhart High School basketball games and basketball tournaments.

WHBI—May Radio Broadcast Corp., Newark, N. J.—Application for renewal of license for auxiliary transmitter.

ACTION ON EXAMINERS’ REPORTS

WSBT—Ex. Rep. No. I-315: The South Bend Tribune, South Bend, Ind.—Denied C. P. to make changes in equipment, install directional antenna at night; change frequency from 1360 to 1010 kc., increase power from 500 watts to 1 KW, move transmitter from 4 1/2 miles west of U. S. 2, South Bend, Ind., to 4 miles S. E. of Center of South Bend on South Jackson Road, 3/8 mile east of Miami Highway, South Bend, and change hours of operation from sharing with WGES to unlimited time. Examiner Melvin H. Dalberg sustained.

WEMP—Milwaukee Broadcasting Co., Milwaukee, Wis.—Denied C. P. to install new equipment, change frequency from 1310 to 1010 kc., increase power from 100 watts to 250 watts night, 500 watts day, change hours of operation from daytime to unlimited. Examiner Dalberg sustained. Order effective April 20, 1937.

NEW—Ex. Rep. I-316: Dr. F. P. Cerniglia, Monroe, La.—Denied C. P. for new broadcast station to operate on 1500 kc., 100 watts, unlimited time Examiner Geo. H. Hill sustained. Order effective April 20, 1937.

ORAL ARGUMENTS GRANTED

KGDY—Oral argument to be held April 15, 1937.

NEW—The Courier Post Pub. Co., Hannibal, Mo.—Oral argument to be held April 15, 1937.

EFFECTIVE DATES EXTENDED

—and—
NEW—W. F. Stuart, Prescott, Ariz.—Effective date extended to March 16, 1937.

MISCELLANEOUS

KPRC—Houston Printing Co., Houston, Texas.—Granted temporary authority for 30 days to operate with 5 KW at night, station now operates on 920 kc, 5 KW day, 1 KW night.

H. O. Davis, Mobile, Ala.—Accepted appearance in re application for new broadcast station at Mobile.

Stanley Reid and Chas. Withnell Boegel, Jr., d/b as Rapids Broadcasting Co., Cedar Rapids, Iowa.—Denied petition to withdraw in the applications of Hannibal Broadcasting Co., Docket 4103, for a C. P. to erect a new broadcast station to operate on 1310 kc., with 100 watts, unlimited time, and the application of Courier-Post Pub. Co., Docket 4062, for a C. P. to erect new station at Hannibal, Mo., to operate on 1310 kc., 100 watts night, 250 watts day, unlimited time.

Exchange Avenue Baptist Church, Oklahoma City, Okla.—Accepted appearance in re application for renewal of license and assignment of license.

KFXR—Plaza Court Broadcasting Co., Oklahoma City, Okla.—Granted petition to intervene in hearing on application for renewal of license of Exchange Avenue Baptist Church, Docket 4329. Also granted application to consolidate application for renewal of license with the application for assignment of license.

John S. Braun, Waco, Tex.—Denied petition to have application for new broadcast station at Waco, Tex., dismissed without prejudice.

WOSU—Ohio State University, Columbus, Ohio.—Accepted answer as respondent in Docket 4272, in re application of Central Michigan Radio Co. for new station at Mt. Pleasant, Mich.

WLWL—The Missionary Society of St. Paul the Apostle, New York City.—Dismissed the protest of The Missionary Society of St. Paul the Apostle and the Universal Broadcasting Corp. on behalf of WLWL, directed against action of the Commission of November 24, 1936, in granting without hearing application for consent to transfer control of WOV.

Richard E. O'Dea, Paterson, N. J.—Dismissed protest asking Commission of November 24, 1936, in granting without hearing application for consent to transfer control of WOV.

WEEJ—Columbia Broadcasting System, Inc., New York City.—Granted extension of equipment test period 10 days from February 19, 1937.

WTFI—Liberty Broadcasting Co., Athens, Ga.—Granted extension of special temporary authority to operate 100-watt test transmitter, 1450 kc., in vicinity of Atlanta, Ga., between hours of 12 midnight and 6 a.m., EST, for period February 18 to 27, 1937, in order to make field intensity survey tests.

The Broadcast Division vacated its action of February 16, 1937, in setting the application of Geraldine Alberghane, Docket 4187, for hearing before the Division, and in granting the petition of WGN, Inc., to continue the hearing indefinitely, and in lieu thereof directed that the application be heard before an Examiner as heretofore scheduled, on March 26, 1937, and that the motion of WGN, Inc., to continue the hearing indefinitely be denied.

The Broadcast Division granted the supplemental petition filed by WGN, Inc., requesting continuance of the hearing on application of the Bay State Broadcasting Corp. for new station at Providence, R. I., and directed that the hearing be continued until March 26, 1937, said application to be heard with application of Geraldine Alberghane for a new station at Pawtucket, R. I.

The Broadcast Division granted the petition of E. Anthony and Sons, Inc., to intervene in the hearing on the application of Bay State Broadcasting Corp.

The Broadcast Division denied the petition of the Arkansas Broadcasting Co. (KLRA) for reconsideration and grant of its petition to intervene in the proceedings upon the application of Hot Springs Chamber of Commerce (KTHS) for voluntary assignment of license, which was denied on November 6, 1936.

The Broadcast Division denied the request of attorney for Gomer Thomas, applicant for C. P., Docket No. 3768, for withdrawal of said application due to the applicant's intention to forego participation in the oral argument, and directed that oral argument on the exceptions be had as scheduled.

APPLICATIONS RECEIVED

First Zone

WEAN—The Yankee Network, Inc., Providence, R. I.—Construction permit to make changes in equipment and increase power from 1 KW to 1 KW night, 5 KW day. Amended to change name from Shepard Broadcasting Service, Inc., to The Yankee Network, Inc.

NEW—Debs Memorial Radio Fund, Inc., Brooklyn, N. Y.—Construction permit for a new high frequency broadcast station to be operated on 3000, 35000, 39000, 41000 kc., 100 watts, unlimited time.

W1XT—The Travelers Broadcasting Service Corp., Mobile.—License to cover construction permit for new equipment and increase in power.

W1XO—The Travelers Broadcasting Service Corp., Mobile.—License to cover construction permit for new equipment and increase in power.

Second Zone

WKRC—Columbia Broadcasting System, Inc., Cincinnati, Ohio.—License to cover construction permit (2-P-B-3282) as modified, to make changes in equipment and increase power, using directional antenna night.

NEW—Washtenaw Broadcasters, Inc., Ann Arbor, Mich.—Construction permit for a new special broadcast station to be operated on 1550 kc., 1 KW, unlimited time.

WLAP—American Broadcasting Corp. of Kentucky, Lexington, Ky.—Modification of construction permit (B2-P-1373) for changes in equipment and move of transmitter and studio, for approval of transmitter site at Walton Blvd., and studio at Main and Esplanade, Lexington, Ky. (at present licensed location).

W9XPF—American Broadcasting Corp. of Kentucky, Lexington, Ky.—License to cover construction permit for a new relay broadcast station.

NEW—WBNS, Inc., Columbus, Ohio.—Construction permit for a new relay broadcast station to be operated on 1646, 2090, 2190 and 2830 kc., 175 watts, unlimited time.

W9XYZ—American Broadcasting Corp. of Kentucky, Mobile.—License to cover construction permit for a new relay broadcast station.
Third Zone

NEW—R. W. Page Corp., Phenix City, Ala.—Construction permit 1240 for a new station to be operated on 610 kc., 250 watts, unlimited time. Amended to change requested frequency from 610 kc. to 1240 kc., and give transmitter and studio sites to be determined, Phenix City, Ala.

KCMC—KCMC, Inc., Texarkana, Tex.—License to cover construction permit (B3-P-1307) as modified for changes in equipment and move of transmitter and studio.

W4XF—Isle of Dreams Broadcasting Corp., Miami, Fla.—License to cover construction permit for a new relay broadcast station.

Fourth Zone

WWAE—Hammond-Calumet Broadcasting Corp., Hammond, Ind. 1200—License to cover construction permit (B4-P-1481) for a new transmitter.

NEW—Leon M. Eisfeld, Burlington, Iowa.—Construction permit 1310 for a new station to be operated on 1310 kc., 100 watts, unlimited time.

NEW—Oscar C. Hirsch, tr/ as Hirsch Battery & Radio Co., Mobile, Missouri.—Construction permit for a new relay broadcast station to be operated on 1622, 2058, 2150, 2790 kc., 100 watts, unlimited time. Amended to change power from 100 watts to 50 watts.

NEW—Zenith Radio Corp., Chicago, Ill.—Construction permit for a new television station to be operated on 12000-56000, 60000-86000 kc., 1 KW, unlimited time.

Fifth Zone

KMJ—McClatchy Broadcasting Co., Fresno, Calif.—Authority to determine operating power by direct measurement of antenna.

KHQ—Louis Wasmer, Inc., Spokane, Wash.—Modification of construction permit (B5-P-925) as modified, for changes in equipment, increase in power and move of transmitter, requesting extension of completion date from 4-6-37 to 6-7-37.

KYA—Hearst Radio, Inc., San Francisco, Calif.—Modification of construction permit (B5-P-328) for new equipment, increase in power and move of transmitter, requesting extension of completion date from 3-15-37 to 5-15-37.

KFOX—Nichols & Warinner, Inc., Long Beach, Calif.—Modification of construction permit (B5-P-650) for new equipment and increase in power, requesting changes in authorized equipment, approval of antenna and approval of transmitter site at 5 1/2 miles northeast of Long Beach, California.

KSRO—The Press Democrat Publishing Co., Santa Rosa, Calif.—Modification of construction permit (B5-P-759) for a new station, requesting changes in authorized equipment, approval of transmitter site at Sebastopol Road, Santa Rosa, California, approval of vertical antenna and change studio site from 425-427 Mendocino Avenue to Sebastopol Road, Santa Rosa, California.

NEW—M. J. Urie, tr/ as Richfield Broadcast Co., Richfield, Utah. 1370—Construction permit for a new station to be operated on 1370 kc., 100 watts, unlimited time.

Hawaiian Zone

KGMB—Honolulu Broadcasting Co., Ltd., Honolulu, Hawaii.—Modification of license to change frequency from 1320 kc. to 580 kc.
WASHINGTON RADIO HIGHLIGHTS

President Roosevelt appoints American delegates to preliminary North American Radio Conference to be held at Havana, beginning March 15. Commander Craven, FCC chief engineer, to be chairman. Expected that general conference to be participated in by governments of Western Hemisphere in November, also probably at Havana. Preliminary conference will formulate agenda for later general conference. March 15 conference will be participated in by United States, Canada, Cuba and Mexico. Expected to take only one week.

PRELIMINARY NORTH AMERICAN RADIO CONFERENCE

Announcement was made this week by the State Department of a conference to begin at Havana, Cuba, March 15, which will be preliminary to a general North American Radio Conference to be held in November of this year. The President has appointed American delegates to the preliminary conference. In its official announcement the State Department says:

“This Government has accepted an invitation of the Government of Cuba for participation in a preliminary regional radio conference to be held at Habana from March 15 to 22, 1937, for the purpose of consulting with representatives of the Governments of Cuba, Canada and Mexico regarding radio matters in this hemisphere, particularly broadcasting. The object of the meeting will be a consideration of problems of interest to all of the participating governments and the formulation of an agenda for a formal regional radio conference to be held in early November of this year and to be participated in by the governments of the Western Hemisphere.

“Commander T. A. M. Craven, Chief Engineer of the Federal Communications Commission, has been selected to act as chairman of the American delegation to the preliminary conference. The other delegates of this Government are to be Mr. E. K. Jett, Assistant Chief Engineer, and Mr. Gerald C. Gross, Chief of the International Section of the Federal Communications Commission, and Mr. Harvey B. Otterman of the Treaty Division of the Department of State.”

OPERATORS BILL PASSES HOUSE

With no debate the House of Representatives has passed H. R. 3898 which amends section 318 of the Communications Act of 1934, dealing with operators. A similar bill is now pending in the Senate. The bill as it passed the House is as follows:

“That section 318 of the Communications Act of 1934 is hereby amended to read as follows:

“Sec. 318. The actual operation of all transmitting apparatus in any radio station for which a station license is required by this Act shall be carried on only by a person holding an operator’s license issued hereunder, and no person shall operate any such apparatus in such station except under and in accordance with an operator’s license issued to him by the Commission: Provided, however, That the Commission if it shall find that the public interest, convenience, or necessity will be served thereby may waive or modify the foregoing provisions of this section for the operation of any station except (1) stations for which licensed operators are required by international agreement, (2) stations for which licensed operators are required for safety purposes, (3) stations engaged in broadcasting, and (4) stations operated as common carriers on frequencies below thirty thousand kilocycles: Provided further, That the Commission shall have power to make special regulations governing the granting of licenses for the use of automatic radio devices and for the operation of such devices.”

SECURITIES ACT REGISTRATIONS

The following companies have filed registration statements with the Securities & Exchange Commission under the Securities Act:

Chasers, Inc., New York City. (2-2832, Form A-1)
Mercantile Credit Corporation, New Orleans, La. (2-2833, Form A-1)
Soundview Pulp Company, San Francisco, Calif. (2-2834, Form A-2)
Orogrande-Frisco Gold Mines, Inc., Spokane, Wash. (2-2836, Form A-1)
Bering Straits Tin Mines, Inc., Seattle, Wash. (2-2837, Form A-1)
Samson United Corporation, Rochester, N. Y. (2-2839, Form A-2)
Civic Finance Corporation, Passaic, N. J. (2-2840, Form A-1)
Silver Strike Mining Company, Murray, Idaho. (2-2841, Form A-1)
Insured Investors, Incorporated, Kansas City, Mo. (2-2843, Form C-1)
Martin Custom Made Tires Corp., New York City. (2-2844, Form A-1)
Seaboard Commercial Corporation, New York City. (2-2846, Form A-2)
Metropolitan Personal Loan Corporation, New York City. (2-2847, Form A-1)
North American Distillers, Inc., New Orleans, La. (2-2848, Form A-1)
United Endowment Foundation, Inc., New York City. (2-2849, Form C-1)
General Investors Trust, Boston, Mass. (2-2850, Form A-1)
Wasacanna Mines Limited, Toronto, Canada. (2-2851, Form A-1)
Fort Rouille Mining Corporation Limited, Toronto, Canada. (2-2852, Form A-1)
Spooner Gold Mines Limited, Toronto, Canada. (2-2853, Form A-1)
Colorado Silver Mines, Inc., Denver, Colo. (2-2854, Form A-1)
United Stove Company, Ypsilanti, Mich. (2-2855, Form A-2)
Kingston Products Corporation, Kokomo, Ind. (2-2856, Form A-2)
Burd Piston Ring Company, Rockford, Ill. (2-2857, Form A-2)
Austin Silver Mining Company, Austin, Nev. (2-2859, Form A-1)

Spiegel, Inc., Chicago, Ill. (2-2874, Form A-2)
Innovators Management Corporation, Pittsburgh, Pa. (2-2875, Form A-1)
Colonial Decorative Corporation, New York City. (2-2876, Form A-1)

**FEDERAL TRADE COMMISSION ACTION**

**Complaints**

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

No. 3061. **Use of unfair methods of competition, including fictitious price marking, is alleged in a complaint issued against J. C. Brush, C. R. Dickinson and C. V. Brush, 412 Halsey St., Newark, N. J., and six corporations which they direct and control, all engaged in the sale and distribution of shaving and dental creams, toilet goods and similar commercial preparations.**

The corporate respondents are Trade Laboratories, Inc., also trading as Redd Chemical Co., Modern Brands, Inc., Perlox Laboratories, Inc., Pearl-White Laboratories, Inc., and Dr. Daily’s Laboratories, Inc.

Several brands of shaving and dental creams sold by the respondents are marked by them with retail prices ranging from 35 to 60 cents, which, according to the complaint, are not intended to be the true retail value or the true retail prices of the merchandise so marked, and which are far in excess of such true value and true retail prices intended to be charged and actually charged the ultimate purchasers.

The complaint sets out that when a customer purchases a product of the type marketed by the respondents, he expects and usually receives, for an amount equal to or an amount almost equal to the size of the carton in which the product is packed. The respondents’ cartons, the complaint alleges, are capable of holding much larger or longer tubes of their product than the tubes which the cartons actually contain.

No. 3062. **Standard Distributors, Inc., 114 East 32nd St., New York, and Louis H. Geller, president of the corporation, are named respondents in a complaint alleging unfair competition through providing retailers with the means of conducting lotteries in the sale of radios and food beaters and mixers, and through misrepresentation of certain products and facilities furnished these merchants.**

The alleged lottery scheme is said to involve use of paraphernalia furnished by the respondents, including keys and a padlock, such keys being distributed by a merchant to customers with each purchase of a stated amount of goods, usually 25 cents worth. In this manner, according to the complaint, a merchant may pass out a large number of keys as 4500, two of which fit the padlock.

The two lucky key holders are alleged to receive prizes, usually a radio or a food mixer and beater, by means of a game of chance.

The respondents’ plan is alleged to be falsely represented to the merchants as a sales promotion plan to get the respondents’ product before the public, when in fact, according to the public, when in fact, it is a plan to dispose of the respondents’ products to the merchants. The latter are allegedly advised that they may participate in the plan without cost in that the respondents sell them this plan, including the merchandise to be given as prizes, at a price equivalent to one cent a key for the keys furnished, and that the respondents will pay the retailers one cent for each key returned for refund, thereby restoring to the retailers all money paid to the respondents, if all the keys are returned. However, the complaint charges that the respondent corporation fails and refuses to redeem the keys returned at one cent each, or to pay the merchants all or a substantial part of the money forwarded by them to the respondents.

No. 3066. **Russell’s Fifth Avenue, Inc., 5th Avenue at 36th Street, New York City, engaged in the sale of women’s wear, is charged in a complaint with use of unfair methods of competition in connection with the interest sale of certain dresses.**

In advertising matter, the respondent corporation allegedly described the dresses in question as “Satin and Silk Jersey Dresses” and as “Silk Afternoon Dresses.” The complaint charges that such representations were false and misleading to purchasers in that the dresses referred to as being silk and satin were not composed of genuine silk, but were made of other materials.

**Stipulations and Orders**

The Commission has issued the following cease and desist orders and stipulations:

No. 3910. **Airmaster Corporation, 140 South Dearborn St., Chicago, assembler and distributor of exhaust fans, ventilators and space heaters, agrees to stop using in advertising matter representations which materially exaggerate the volume of air delivered by its fans, or which materially understate the power required to operate them.**

In its catalogue, the respondent corporation according to the stipulation, advertised that Airmaster propellers would give maximum air delivery with minimum power requirement. Figures taken from the catalogue purporting to show the approximate air delivery and power consumption of certain of the respondent corporation’s fans are compared in the stipulation with figures for the same elements arrived at by scientific methods. This comparison, in most instances, shows an overstatement of the volume of air delivered and an understatement of power consumed. Such advertisements, according to the stipulation, tended to mislead and deceive purchasers regarding performance of the company’s fans.

No. 1902. **Sanotuf Mattress Co., 1010 North 10th St., St. Louis, agreed to cease selling or supplying its customers with its mattresses which bear any false, fictitious or misleading price known to be in excess of the price at which such products are intended...**
to be sold and usually are sold at retail. According to the stipula-
tion, the company affixed to certain mattresses labels bearing pur-
ported retail price marks of $29.50 or $39.50, when, in fact, such
prices were greatly in excess of the prices at which the products
were customarily sold.

St., Quincy, Ill., manufacturing a line of poultry supplies, in-
cluding automatic feeders, brooders, heaters, and a feed mixer
called "Giant Whirlwind Mixer," agreed to stop advertising to
the effect that the Giant Whirlwind Mixer measures up to the
exacting demands of the United States Government, or is being
successfully used in the Government's soil erosion work, or other
representations of similar meaning implying that the device has
been officially sanctioned or approved by the Government, when
such is not a fact.

No. 1906. Cast Stone Co., Inc., 223 West Spruce St.,
Columbus, Ohio, manufacturer of concrete burial vaults, under
the terms of its stipulation, will stop advertising that its vaults,
in all cases, will appreciate with time, harden with age, and finally
become cement-like or of impenetrable hardness. The company also
agreed to stop asserting that its vaults will endure for centuries or
for all time, free from the inroads of water or rodents, and assure
safe and peaceful rest throughout the years. The company will
cease using representations directly implying that the material of
the terms of its stipulation, will stop advertising that its vaults,
in all cases, will appreciate with time, harden with age, and finally
become cement-like or of impenetrable hardness. The company also
agreed to stop asserting that its vaults will endure for centuries or
for all time, free from the inroads of water or rodents, and assure
safe and peaceful rest throughout the years. The company will
cease using representations directly implying that the material of
which its vaults are made is the only material which, regardless of
burial conditions, is strong and dependable enough to infinitely
exclude water, when such is not a fact.

The stipulation points out that vaults made of concrete, in many
cases, are subject to the effect of and are appreciably affected by
corrosion caused by the presence in the soil of alkali and other
soluble chemicals.

No. 1912. Jacob S. Glekel and Jacob Press, trading as
Eagle Corrugated Products Co., 783 6th Ave., New York,
stipulated that they will stop using as a brand for their corrugated
fiber boxes the word "maker," or any other words of equivalent
meaning, which tend to convey to customers the belief that Glekel
and Press are the manufacturers of their products or that they
own or operate a factory in which the boxes they sell are made,
when such is not a fact. The boxes in question, the stipulation
sets out, were stamped with a brand which included the words
"Certificate of Box Maker."

FEDERAL COMMUNICATIONS
COMMISSION ACTION

Hearing Calendar

The following broadcast hearings are scheduled at the
Commission for the week beginning Monday, March 8:

<table>
<thead>
<tr>
<th>Monday, March 8</th>
</tr>
</thead>
<tbody>
<tr>
<td>HEARING BEFORE AN EXAMINER</td>
</tr>
<tr>
<td>(Broadcast)</td>
</tr>
<tr>
<td>WPEN—Wm. Penn Broadcasting Co., Philadelphia, Pa.—Modification of license, 100 kw, 250 watts (directional antenna), 500 watts LS, unlimited time (requests facilities of WRAX). Present assignment: 920 kw, 250 watts (directional antenna), 500 watts LS, S-WRAX.</td>
</tr>
<tr>
<td>WPEN—Wm. Penn Broadcasting Co., Philadelphia, Pa.—Authority to transfer control of corporation to John Iraci; 920 kw, 250 watts (directional antenna), 500 watts LS, S-WRAX. FURTHER HEARING BEFORE AN EXAMINER

NEW—Radio Enterprises, partnership of R. Lacy and J. R. Curtis, Lufkin, Tex.—C. P., 1310 kw, 100 watts, daytime. |
| NEW—Red Lands Broadcasting Assn., Ben T. Wilson, Pres., Lufkin, Tex.—C. P., 1310 kw, 100 watts, unlimited time. |

APPLICATIONS GRANTED

WJEJ—Hagerstown Broadcasting Co., Hagerstown, Md.—Granted C. P. to move transmitter site and install vertical radiator.
| WJNO—Hazelwood, Inc., W. Palm Beach, Fla.—Granted C. P. to make changes in equipment and increase day power to 250 watts. |
| WKRC—Columbia Broadcasting System, Inc., Cincinnati, Ohio.—Granted license to cover C. P. as modified, 500 kw, 1 KW night, 5 KW day, unlimited time, using directional antenna for night-time operation subject to reduction of day power to 1 KW when WOSU is operating. |
| WSAU—Northern Broadcasting Co., Inc., Wausau, Wis.—Granted license to cover C. P. as modified; 1370 kw, 100 watts, daytime. |
| WWAE—Hammond-Calumet Broadcasting Corp., Hammond, Ind.—Granted license to cover C. P., 1200 kw, 100 watts night, unlimited day, share WFAM night. |
| WGNY—Peter Goelet, Newburgh, N. Y.—Granted license to cover C. P. as modified; 1210 kw, 100 watts night and day, sharing WBRR, WFAS and WGBB. |
| WLAP—American Broadcasting Corp. of Kentucky, Lexington, Ky.—Granted modification of C. P. to change transmitter site to Walton Bldg. and studio to Main and Esplanade, locally. |
| KOB—Albuquerque Broadcasting Co., Albuquerque, N. Mex.—Granted modification of C. P. authorizing changes in equipment. |
| KMJ—McClatchy Broadcasting Co., Fresno, Calif.—Granted authority to determine operating power by direct measurement of antenna input. |
| KANS—Charles C. Thels, Wichita, Kans.—Granted voluntary assignment of license to the KANS Broadcasting Co., 1210 kw, 100 watts, unlimited. |
| WBAX—John H. Stenger, Jr., Wilkes-Barre, Pa.—Granted license to cover C. P., 1210 kw, 100 watts, specified hours. |
| Cruff Laboratory, Harvard University, Cambridge, Mass.—Granted C. P. for new special experimental station to be used to make continuous automatic observations of the upper atmosphere; 600 watts peak average 2 watts; frequencies 2000 to 8000 kc, unlimited. |
SET FOR HEARING

NEW—General Electric Co., near Belmont, Calif.—Application for C. P. for new international station; frequencies 9530 kc., 15530 kc., 20 kW. The purpose is to obtain a further use of these channels which are now licensed to W2XAD and W2XAF at Schenectady, in order that satisfactory transmission may be made to the Far East.

NEW—S. O. Ward and P. C. Ward, d/b as WLSU Broadcasting Co., Louisville, Ky.—C. P. for new station, 1210 kc., 250 watts, daytime only, exact transmitter site to be determined with Commission's approval.

NEW—Toledo Edison Co., Youngstown, Ohio.—C. P. already in hearing docket, amended to request installation of new equipment and directional antenna for night-time operation.

WEAN—The Yankee Network, Inc., Providence, R. I.—Application for C. P. amended to request installation of new equipment, increase in day power from 1 to 5 KW, employing directional antenna system.

WKOK—Sunbury Broadcasting Corp., Sunbury, Pa.—Application for C. P. to move transmitter locally to site to be determined; install new equipment and vertical radiator; increase day power from 100 to 250 watts.

WBRY—American-Republican, Inc., Waterbury, Conn.—Application for C. P., already in hearing docket, amended to request: move transmitter locally near Belmont, Cambridge, Mass.; install directional antenna system; increase power and time of operation from 500 watts, daytime only, to 1 KW, unlimited time, using directional antenna for night-time operation.

WBF—WSMK, Inc., Dayton, Ohio.—Application for C. P. amended to request: move transmitter site locally; install new equipment and directional antenna; increase power and time of operation from 200 watts night, 200 watts day, simultaneous day (KQV), specified hours night, to 250 watts night, 500 watts day, unlimited, using directional antenna system for night-time operation.

KQV—KQV Broadcasting Co., Pittsburgh, Pa.—Application for C. P. to make changes in equipment; install directional antenna system for night-time use; increase power from 500 watts night-day, simultaneous day operation with WSMK and specified hours night, to 1 KW, unlimited.

NEW—University of Illinois, Urbana, Ill.—Granted special temporary authority to operate simultaneously with KOB, Thursday, March 4, 1937, from 7:30 to 8 p.m., CST, in order to broadcast President's address to be given at Democratic Victory Dinner.

WILL—University of Illinois, Urbana, Ill.—Granted special temporary authority to operate simultaneously with KKFN from 1 to 3 a.m., CST, March 18; 3 to 4 a.m., CST, March 19; 1:15 to 4 p.m., CST, March 20, 1937, and simultaneously with KUSD from 4 to 5 p.m., CST, March 18 and 19 (provided WBAE remains silent), in order to broadcast Illinois State High School Athletic Assn. basketball tournament.

KFU—Evangelical Lutheran Synod of Missouri, Etc., Clayton, Mo.—Granted special temporary authority to broadcast a DX program, using power of 1 KW, on March 6, 1937, from 1 to 3 a.m., CST.

WGR—Westinghouse Radio Stations, Inc., Fort Wayne, Ind.—Granted special temporary authority to operate old equipment on a temporary basis only while present transmitter is being moved, for the period April 20 to 29, 1937.

WRUF—University of Florida, Gainesville, Fla.—Granted special temporary authority to rebroadcast the Navy time signals from Arlington for a period not to exceed 3 a.m., EST, August 1, 1937.

APPLICATIONS DENIED

KFDR—South Dakota State College, Brookings, S. Dak.—Denied special temporary authority to operate from 7:30 to 9:15 p.m., CST, Friday, March 5, 1937, in order to broadcast “Little International Livestock Show.”

The following application, heretofore set for hearing, was denied as in cases of default for failure of applicant to file an appearance and statement of facts in accordance with Rule 104A (c):

NEW—Edward Gooderlet and Harry J. Frahn, d/b as Great Muscle Shoals Broadcasting Co., Sheffield, Ala.—Application for C. P., 1500 kc., 100 watts, unlimited time.

APPLICATIONS DISMISSED

The following applications, heretofore set for hearing, were dismissed at request of applicants:
ACTION ON EXAMINERS’ REPORTS

NEW—Service Life Ins. Co., Omaha, Nebr.—C. P., 1500 kc., 100 watts, unlimited time.

NEW—Archie E. Everage, Andalusia, Ala.—C. P., 1310 kc., 100 watts, 250 watts LS, unlimited time.

NEW—D. L. Thornton, between Centralia and Chehalia, Wash.—C. P., 1300 kc., 100 watts, 250 watts LS, unlimited.

RATIFICATIONS

The Broadcast Division ratified the following actions authorized on the dates shown:

W9XPV—W9XPN—WDZ Broadcasting Co., Tuscola, Ill.—Granted authority to operate as licensed for a period of 30 days from February 22 to March 23, relaybroadcast from train running between Villa Grove and Tuscola.

WBAM—WBAN—W2XMI—W2XMJ—Bamberger Broadcasting Serv’ Inc., Newark, N. J.—Granted authority to operate WBAM and WBAN as licensed February 21 to March 7, relaybroadcast inauaguration revised traffic regulations New York City. Also operate W2XMI and W2XMJ as licensed February 28 to March 2, relaybroadcast Sportsmen’s Show.

K6XCJ—Honolulu Broadcasting Co., Ltd., Honolulu, T. H.—Granted extension of program test period to April 1, 1937.

WSGN—Birmingham News Co., Birmingham, Ala.—Granted extension of program period 30 days from February 22.

W9XES—Midland Broadcasting Co., Kansas City, Mo.—Granted extension of operation as licensed for period of 30 days from February 28, relaybroadcast series of children’s educational programs.

WHF—WHF, Inc., Harrisburg, Pa.—Granted extension of authorization to operate with reduced power 10 days from February 24.

KUMA—Albert H. Schermann, Yuma, Ariz.—Granted special temporary authority to operate from 10 to 11:30 p. m., MST, March 2, 9, 16, 23 and 30, 1937, to broadcast boxing and wrestling bouts.

WCAX—Burlington Daily News, Burlington, Vt.—Granted special temporary authority to operate from 6:30 to 10:30 p. m., EST, March 2, in order to broadcast basketball games and local election returns; from 8 to 10:30 p. m., March 6, and from 1:30 to 4 p. m.; 8:45 to 10:30 p. m., EST, March 13, 1937, in order to broadcast basketball games.

The Broadcast Division granted the petition of Head of the Lakes Broadcasting Co., WMFG, to intervene in the proceedings upon the application of Walter H. McGenty for C. P. for new station at Rice Lake, Wls.

The Broadcast Division granted the petition of Central Broadcasting Corp., Centralia, Wash., to intervene in the proceedings upon the application of D. L. Thornton, Chehalia, Wash., for C. P.

The Broadcast Division granted the petition of Cheyenne Radio Corp. to intervene in the proceedings upon the application of The Frontier Broadcasting Company for C. P. for new station at Cheyenne, Wy.

The Broadcast Division granted the petition of Voice of Green- ville, Greenville, Texas, for consolidation of oral argument on Examiner’s Report on its application (Docket No. 3758) and the oral argument in the application of Hunt Broadcasting Assn. (Docket No. 3424).

The Broadcast Division granted the petition of George H. Payne, San Jose, Calif., to intervene in the proceedings upon the application of Central Broadcasting Corp., Centralia, Wash., for C. P.

The Broadcast Division granted petition of George H. Payne, San Jose, Calif., to intervene in the proceedings upon the application of Chase S. Osborn, Jr., Fresno, Calif., for C. P.

The Broadcast Division denied the petition of Luther Bohanon to intervene in the proceedings upon the application of Exchange Ave. Baptist Church of Oklahoma City, Okla., KFXR, for voluntary assignment of license.

The Broadcast Division extended the effective date of its order of November 24, 1936, in denying the application of the Interstate Broadcasting Corp., KLO, Ogden, Utah, for a period of 30 days from February 25, 1937, or until March 27, 1937.

EFFECTIVE DATE OF RULE POSTPONED

The effective date of Rule 981 was further postponed for a period of 6 months from March 15, 1937, to give the manufacturers additional time in which to perfect this equipment for sale to the licensees (this rule relates to frequency monitors).

MISCELLANEOUS

Chase Osborn, Jr., Fresno, Calif.—Denied petition requesting postponement of further consideration of the application of George H. Harm for a new station at Fresno, Calif., to operate on 1310 kc., 100 watts, unlimited time. Osborn is an applicant for a new station at Fresno to operate on 1310 kc., 100 watts, unlimited time.

Woodman of the World Life Insurance Association, Omaha, Nebr.—Granted petition to intervene in hearing on application of Service Life Insurance Co. for a new station at Omaha to operate on 1500 kc., 100 watts, unlimited time.

NEW—Ex. Rep. No. 1-324: Donald A. Wike and H. E. Studebaker, d/b/a Wike & Studebaker, Baker, Ore.—Denied C. P. for new broadcast station to operate on 1370 kc., 100 watts night, 250 watts day, unlimited time (site to be determined, subject to Commission’s approval). Order effective April 27, 1937. Examiner R. L. Irwin reversed.

KUJ—Ex. Rep. 1-300: KUJ, Inc., Walla Walla, Wash.—Denied C. P. to install new equipment; change frequency from 1370 kc. to 1250 kc., increase power from 100 watts to 250 watts and move transmitter from 2d and Rose Sts., Walla Walla, to site to be determined, subject to Commission’s approval, unlimited time. Order effective April 27, 1937. Examiner R. L. Irwin reversed.

KIB—Ex. Rep. 1-311: Carl E. Haymond, Yakima, Wash.—Granted C. P. to install new transmitter (subject to determination, subject to Commission’s approval), erect a vertical antenna; change frequency from 1310 kc. to 1220 kc., increase power from 100 watts to 1 kw., change hours of operation from sharing with WTEL to unlimited time, move transmitter from Hotel Pennsylvania, Philadelphia, to Whittemar Township, Pa., and install directional antenna. Order effective April 27, 1937. Examiner R. L. Irwin sustained.

NEW—Ex. Rep. 1-345: H. Wimpy, Albany, Ga.—Denied C. P. for new broadcast station to operate on 1420 kc., 100 watts night, 250 watts day; unlimited time (site to be determined subject to Commission’s approval), facilities of WGPC. Examiner M. H. Dalberg sustained.

NEW—Ex. Rep. 1-346: United States Broadcasting Co., Toledo, Ohio—Dismissed with prejudice application for C. P. for new broadcast station to operate on 1250 kc., 100 watts day; unlimited time, site to be determined, subject to Commission’s approval. Examiner Geo. H. Hill sustained.

NEW—United States Broadcasting Co., Columbus, Ohio—Dismissed with prejudice, application for C. P. for new station to operate on 1310 kc., 100 watts, unlimited time (site to be determined subject to Commission’s approval). Examiner Geo. H. Hill sustained. Order effective March 2, 1937.

ORAL ARGUMENTS

NEW—Ex. Rep. 1-353: Hildreth & Rogers Co., Lawrence, Mass.—Granted oral argument to be held April 22, 1937.

NEW—Old Colony Broadcasting Corp., Brockton, Mass.—Granted oral argument to be held April 22, 1937.
Hammond-Calumet Broadcasting Corp., Hammond, Ind.—Denied action of September 26, 1936, granting the application for a C. P. for a new broadcasting station at Hammond to operate on 1460 kc., 5 kw., subject to the limitation that the operation of the said station extend during daytime hours until local sunset at Buffalo, N. Y.

Wichita Falls Broadcasting Co., Wichita Falls, Tex.—Denied petition asking the Commission to reconsider action of February 9, 1937, in designating application for hearing and grant the same. This application requests approval of transmitter site, installation of new equipment and directional antenna for operation from daytime to unlimited, and increase in night power from 250 watts to one kw., and increase in day power from one kw. to five kw.

WIP—Pennsylvania Broadcasting Co., Philadelphia, Pa.—Denied petition asking the Commission to reconsider action of February 9, 1937, in designating application for hearing and grant the same. This application requests approval of transmitter site, installation of new equipment and directional antenna for operation from daytime to unlimited, and increase in night power from 250 watts to one kw., and increase in day power from one kw. to five kw.

WCR—National Broadcasting Co., Inc., Washington, D. C.—Construction permit to install new transmitter and vertical antenna; increase power from 500 watts night power, 1 kw. day, to 1 kw. night, 5 kw. day; move transmitter from 3308 14th Street, N. W., Washington, D. C., to Ager Road, Chillum Township, Maryland. Amended re antenna.

WCHB—WLBH Broadcasting Co., Kansas City, Mo.—Retired to the files petition for rehearing before the Broadcast Division of application for authority to install new equipment; change authorized frequency from 860 kc. to 1120 kc., change hours of operation from daytime to unlimited, and to operate with 500 watts at night, 1 kw. day, employing a directional antenna during nighttime operation.

WHB—WLBH Broadcasting Co., Kansas City, Mo.—Retired to the files petition for rehearing before the Broadcast Division of application for authority to install new equipment; change authorized frequency from 860 kc. to 1120 kc., change hours of operation from daytime to unlimited, and to operate with 500 watts at night, 1 kw. day, employing a directional antenna during nighttime operation.

KRLH—Midland, Tex.—Denied petition requesting reopening of hearing in re application for CP to install new equipment and increase day power from 250 watts to 1 kw.

WHB—WLBH Broadcasting Co., Kansas City, Mo.—Retired to the files petition for rehearing before the Broadcast Division of application for authority to install new equipment; change authorized frequency from 860 kc. to 1120 kc., change hours of operation from daytime to unlimited, and to operate with 500 watts at night, 1 kw. day, employing a directional antenna during nighttime operation.

WHB—WLBH Broadcasting Co., Kansas City, Mo.—Retired to the files petition for rehearing before the Broadcast Division of application for authority to install new equipment; change authorized frequency from 860 kc. to 1120 kc., change hours of operation from daytime to unlimited, and to operate with 500 watts at night, 1 kw. day, employing a directional antenna during nighttime operation.

KLO—Interstate Broadcasting Corp., Ogden, Utah.—Remanded to the Docket application to move transmitter, make changes in equipment, etc.

APPLICATIONS RECEIVED

First Zone

WRC—National Broadcasting Co., Inc., Washington, D. C.—Construction permit to install new transmitter and vertical antenna; increase power from 500 watts night power, 1 kw. day, to 1 kw. night, 5 kw. day; move transmitter from 3308 14th Street, N. W., Washington, D. C., to Ager Road, Chillum Township, Maryland. Amended re antenna.

WHB—WLBH Broadcasting Co., Kansas City, Mo.—Retired to the files petition for rehearing before the Broadcast Division of application for authority to install new equipment; change authorized frequency from 860 kc. to 1120 kc., change hours of operation from daytime to unlimited, and to operate with 500 watts at night, 1 kw. day, employing a directional antenna during nighttime operation.

KLO—Interstate Broadcasting Corp., Ogden, Utah.—Remanded to the Docket application to move transmitter, make changes in equipment, etc.

Second Zone

WSPD—The Port Industry Co., Toledo, Ohio.—Modification of 1340 license to increase night power from 1 to 5 kw.

W8XAN—The Sparks-Whittington Co., Jackson, Mich.—Construction permit to make equipment changes and move transmitter to East Ganson St., Jackson, Mich.

W8XAN—The Sparks-Whittington Co., Jackson, Mich.—License to cover above.

Third Zone

NEW—Florida West Coast Broadcasting Co., Inc., Clearwater, 610 Fl. —Construction permit to erect a new broadcast station to be operated on 1390 kc., 250 watts power, unlimited time. Contingent upon WIOT changing frequency from 1390 kc. to 610 kc.

Fourth Zone

KFCN—KFNF, Inc., Shenandoah, Iowa.—Construction permit to install a new transmitter, erect a vertical antenna, and increase power from 500 watts, 1 kw. day, to 1 kw. night and 5 kw. day. Amended: Move transmitter from 407 Sycamore St. to intersection of Highway 1 No. 3 and Ferguson Ave. ext. near Shenandoah, Iowa, and install directional antenna for night use.

NEW—Glenn E. Webster, Decatur, Ill.—Construction permit to erect a new station to be operated on 1290 kc., 250 watts, daytime hours of operation.

KCKN—The WLFB Broadcasting Co., Kansas City, Kans.—Modification of license to change name of applicant from The WLFB Broadcasting Co. to The KCKN Broadcasting Company.

KBN—Iowa Broadcasting Co., Des Moines, Iowa.—Modification of construction permit (B4-P-952) for new equipment, increase in power, directional antenna, requesting further changes in equipment and extend commencement date 30 days.

KSCJ—Perkins Bros. Co. (The Sioux City Journal), Sioux City, Iowa.—Authority to determine operating power by direct measurement of antenna power.

WOC—Tri-City Broadcasting Co., Davenport, Iowa.—Authority to make changes in automatic frequency control apparatus.

NEW—L. L. Coryell, Sr., and L. L. Coryell, Jr., d/b as L. L. Coryell & Son., Lincoln, Nebr.—Construction permit for new broadcast station to be operated on 1450 kc., 250 watts night, 500 watts day power, unlimited time. Amended to change type of equipment, increase night power from 500 watts to 1 kw., give transmitter site as Lancaster Township, Nebraska.

KSJS—R. J. Laubengayer, Salina, Kans.—Modification of construction permit (B4-P-1004) for new station, requesting change in transmitting equipment, increase in power from 100 watts to 100 watts night, 250 watts day, and approval of transmitter site at U. S. 40, 1.2 miles west of business section, Salina, Kansas, and approval of antenna.

NEW—South Bend Tribune, South Bend, Ind.—Construction permit for a new high frequency relay station on 31100, 34600, 37600 and 40600 kc., 1 kw. watts, variable hours of operation, mobile.

NEW—South Bend Tribune, South Bend, Ind.—License to cover above.

NEW—South Bend Tribune, South Bend, Ind.—Construction permit for a new high frequency relay broadcast station on 25950 kc., 100 watts, unlimited time.

NEW—South Bend Tribune, South Bend, Ind.—License to cover above.

Fifth Zone

NEW—Radiotel Corporation, San Diego, Calif.—Construction permit for new station on 920 kc., 500 watts power, unlimited time. Amended: Re stockholders.
KVOD—Colorado Radio Corp., Denver, Colorado—Construction permit to change frequency from 920 kc. to 630 kc., change hours of operation from share with KFEL to unlimited time, increase power from 500 watts to 1 kilowatt, install directional antenna for night use and move transmitter from outside of Denver, Colorado, to North of Denver, Colorado. Amended: To make changes in directional antenna and change transmitter site re: geographical location.

KTKC—Tulare-Kings Counties Associates, Chas. A. Whitmore, President, Visalia, Calif.—Modification of construction permit (B5-P-816) for new station to make changes in equipment, for approval of transmitter and studio sites at Visalia, California.

NEW—Scott M. Matheson, d/b as Provo Broadcast Co., Provo, Utah.—Construction permit to erect a new broadcast station to be operated on 1210 kc., 100 watts power, unlimited time.

KDYL—Intermountain Broadcasting Corp., Salt Lake City, Utah. Modification of construction permit (B5-P-126) for increase in power from 1 kilowatt to 1 kilowatt night, 5 kilowatts day, make equipment changes, give transmitter site as site to be determined, requesting further changes in equipment, installation of vertical antenna and approval of transmitter site at S. W. of Salt Lake City, Utah.

NEW—George H. Payne, San Jose, Calif.—Construction permit for new broadcast station to be operated on 1440 kc., 1 kilowatt, unlimited time. Amended: To change type of equipment, make changes in vertical antenna, change frequency from 1010 kc. to 1440 kc., power from 1 kilowatt to 500 watts. Omit request for KQW's facilities.

WASHINGTON RADIO HIGHLIGHTS

Chairman Prall of the Federal Communications Commission was designated by the President on Wednesday to succeed himself as chairman for a period of one year from March 11. Copeland pure food and drug bill passes the Senate with little debate. Commissioner Stewart dissents in important newspaper-radio case. January broadcast advertising increases over same month of last year. New copyright bill introduced in House and several new radio bills.

PRALL REAPPOINTED CHAIRMAN

President Roosevelt announced at his press conference on Wednesday that he had designated Anning S. Prall, chairman of the Federal Communications Commission, to succeed himself as chairman for a period of one year. The term as chairman expired on March 11.

NEW BROADCAST STATION GRANTED

The Federal Communications Commission this week granted a construction permit for the erection of a new broadcast station at Indianapolis, Ind., to Glenn Van Auken, to use 1050 kilocycles, 1,000 watts, and daytime operation. The order is effective May 11.

EXTENSION OF DATE OF RULE 981

The Broadcast Division of the Federal Communications Commission has further extended the working date of Rule 981 for six months from March 15. This rule requires all relay, international, television, facsimile, high frequency, and experimental broadcast stations to have in operation by September 15, 1936, a frequency monitor. This monitor does not have to be approved by the Commission but must have an accuracy of one half the allowed tolerance of the class of station with which it is to be used. It is believed that sufficient commercial monitors will be available within six months so that all stations of this class can be equipped as required.

NEW RADIO ENDORSEMENT BILL

Representative Maloney of Louisiana has introduced a bill (H. R. 5300) in the House “to require that personal endorsements of articles by radio be accompanied by a statement that the endorsement is paid for.” The bill, which has been referred to the House Committee on Interstate and Foreign Commerce, will be found on page 1985 of this issue.

PURE FOOD BILL PASSES SENATE

Senator Copeland’s pure food and drug bill (S. 5) passed the Senate on Tuesday of this week with few amendments and practically no debate.

The bill as it passed the Upper House puts the advertising features of the bill under the direction of the Department of Agriculture instead of the Federal Trade Commission.

At a recent press conference the President stated that he was not satisfied with the bill and the amendments made did not take care of his objections. It is reported that the bill may be held up indefinitely in the House.

RADIO OPERATORS QUALIFICATION BILL

Representative Welch of California has introduced a bill (H. R. 5376) in the House in connection with the qualifications of radio operators which would amend the Communications Act. The bill, which has been referred to the House Committee on Interstate and Foreign Commerce, is as follows:

That section 303 (1) of the Communications Act of 1934 (U. S. C., 1934 ed., title 47, sec. 303), is amended by inserting the words “who are twenty-one years of age or over” after the words “United States”, so that the amended paragraph will read:

“(1) Have authority to prescribe the qualifications of station operators, to classify them according to the duties

to be performed, to fix the forms of such licenses, and to issue them to such citizens of the United States who are twenty-one years of age or over as the Commission finds qualified;".

NEW COPYRIGHT BILL

Representative Daly of Pennsylvania has introduced a new bill (H. R. 5275) in the House dealing with the copyright situation. The bill, which has been referred to the House Committee on Patents, is different from the Daly bill of the last session of Congress and is also different from any of the copyright bills now pending in either House of Congress.

IOWA STATION RECOMMENDED

The Central States Broadcasting Company filed an application with the Federal Communications Commission asking for a construction permit for the erection of a new broadcasting station at Council Bluffs, Iowa, to use 1500 kilocycles, 100 watts power, and unlimited time on the air.

Examiner Melvin H. Dalberg, in Report No. I-360, recommended that the application be granted. He found that "there is an apparent need for the additional service in the area proposed to be served, and the proposed program service is of a satisfactory nature." The Examiner states further that "the proof seems to be clear that the operation of the proposed station would not result either in objectionable interference from it or to it from any existing station."

STEWART DISSENTS ON KTSN DECISION

Commissioner Stewart has issued the following dissenting opinion in connection with the decision rendered a short time ago by the Federal Communications Commission in the KTSN case. Commissioner Stewart said:

"Dorrance D. Roderick applied for a permit to construct a new broadcast station at El Paso, Texas, to operate unlimited time with 100 watts power on the frequency 1500 kc. The Broadcast Division having granted that application, the Tri-State Broadcasting Company, Incorporated, licensee of Station KTSN, located at El Paso, has petitioned the full Commission to grant a rehearing under Section 405 of the Communications Act of 1934.

"There are now two time-sharing local stations in El Paso, apparently operated as a single full-time station. On the facts of the present case there are presented the questions of the need for another broadcast station in El Paso and the ability of that area to support a second station. The Division found that there was both need and support for applicant's proposed station.

"The determination of need is a subjective process. There is no yard stick which can be applied against any given set of statistics with the invariable result that the need for another broadcast station is or is not demonstrated. The best the Commission can do is to receive such testimony as is offered and announce its opinion as to the need. The opinion may be dignified by calling it a conclusion or a finding of fact, but nevertheless it remains an opinion, a kind of enlightened and informed guess.

"The finding of a need for an additional broadcast station in El Paso rests almost entirely upon applicant's testimony that he wants a station and that some people he talked to would like to see another station in El Paso and are willing to advertise over it. Applicant introduced no witnesses other than himself to establish the need for a station in El Paso nor did he introduce depositions from persons in El Paso as to such need. Instead, he relied upon his impression of what people told him, a procedure which made effective cross-examination impossible. While I have no doubt that the publisher of such an important newspaper as the El Paso Times would be able to procure depositions supporting his desire for a broadcast station, it seems to me that the affirmative testimony in the present record is decidedly weak. In fact, if the applicant's self-serving declarations were disregarded, it would be difficult to find any affirmative testimony at all.

"The intervenor, Station KTSN, presented as an expert a witness who testified as to the inability of the El Paso area to support another broadcast station. The Broadcast Division apparently declined to attach significant weight to his testimony; and it found there was sufficient potential advertising reasonably to assure adequate financial support for another broadcast station in El Paso.

"Developments subsequent to the hearing, as recited in the petition for rehearing, throw grave doubt upon the validity of the finding of adequate support. Thus, the opinion of the Broadcast Division states, and apparently substantial reliance is placed upon the fact, that 'the evidence shows that three newspapers are now supported in the City of El Paso.' The petition for rehearing states that subsequent to the hearing one of those newspapers has ceased publication with a statement of 'regret that economically it is apparent El Paso can not adequately support three English newspapers.' The petition further states that the other two newspapers, one of which is owned by a corporation in which applicant holds the majority of stock, have since the hearing entered into an arrangement 'for the joint printing, sale and distribution of their newspapers, and for the sale of advertising, without affecting the ownership of either property.' While such an arrangement is not unknown to the newspaper world, it is sufficiently unusual to create a strong implication that El Paso is having difficulty in supporting two English language newspapers conducted along the usual
competitive newspaper lines. These two developments subsequent to the hearing cast grave doubt upon the correctness of the finding that El Paso can support an additional broadcast station.

"Whenever reasonable doubt exists as to the ability of a community to support two stations, the Commission should look to the possible consequences of the operation of more than one station. In my opinion there is such a doubt on the record in the present case.

"The applicant herein owns the majority of the stock of the corporation publishing the El Paso Times, a daily newspaper published in El Paso. He testified that the newspaper and the broadcast station would be separate with reference to their business management and operation but otherwise identified with each other. The station will receive space rent free in a building on which the newspaper pays rent. Members of the newspaper staff will be used to produce programs. Applicant's proposed rates, which he admits are not based on the probable cost of operation of the station, are lower than those of KTSM. In the application for the station, it is recited that applicant is 'able and willing to operate station at loss, if necessary.' Many of the persons who are said to have agreed to buy time on applicant's station are now patrons of KTSM. Applicant's newspaper does not list the programs of KTSM; the manager of that station testified that applicant had given as his reason for not listing the programs that KTSM was competitive to the newspaper.

"From the above it is apparent that applicant is prepared to throw the resources of his newspaper behind his proposed broadcast station. In any struggle for existence between the two competing broadcast stations, the odds seem greatly in favor of the continuance of the station herein authorized. In that circumstance, the only broadcast station in El Paso will be owned and operated by the dominant stockholder in one of the two English language newspapers in the community. I believe the Commission should consider whether such a result is desirable.

"The criterion by which the law requires the Commission to judge applications is that of 'public interest, convenience or necessity.' It is my opinion that the application of this criterion requires that matters which have a bearing upon the ownership and control of broadcast stations should be given appropriate consideration. I believe that the ownership or control of broadcast stations by newspapers has an important bearing upon public interest.

"The newspaper has long served the community as its source of news and its guide to the offerings of the local and national market places, and, to some extent, has moulded the pattern for its thinking. As a purveyor of current news, until recently it has had no competitors. Similarly, until recently it has had relatively little competition for local advertising, although this has not been true for national advertising. As to its influence upon thought patterns (except as influenced by its news columns), it has had to share the field with many others.

"Broadcasting directly challenged the newspaper in all three fields. It could deliver news faster (though normally in much less detail) than the newspaper. When the leading press associations refused to serve broadcast stations except upon a highly restrictive basis, independent press associations sprang up to furnish news to the stations. Local and national advertisers found radio a valuable method of putting their wares before the public. By bringing into the home the views of men whose views on public questions varied widely among themselves, broadcasting encouraged its listeners to do more thinking for themselves on those questions.

"Most important of all this, as I see it, is that the broadcast station has given the public a source of information independent of the newspaper. That many newspapers honestly endeavor to present a true picture of the course of events, I firmly believe. That some distort that picture to conform to the views of the publisher is apparent to anyone who gives thought to what he is reading, and who has any check on its accuracy. Editorial views are not always confined to the editorial page—they are sometimes permitted to influence the presentation of news. No one can question that there must be editorial discretion; no one should be expected to believe that such discretion may not, frequently or infrequently, reflect the prejudices of the editor or publisher.

"Most readers are dependent upon the intellectual integrity of the publisher, editor and reporters of the newspaper they read. The events reported are outside their personal experience and beyond their ability to test. Reading additional newspapers to get additional enlightenment is not practicable for most people. ‘All I know is what I read in the papers’ is more than the slogan of a well-remembered humorist; until recently at least, it was the confession of a national dependence.

"Broadcasting has given the listener the means of checking on the newspaper. More important, it has given him a means to supplement the information he gets from the paper, to get matter denied him in the process of editorial selection or because of the limited resources of the publisher. This does not mean that he always gets better or more accurate information over the radio. The reverse may often be the case. Editorial discretion is a part of the broadcaster’s stock in trade as it is of the publisher. There are instances in which the broadcaster has used his editorial discretion in a manner heartily to be condemned by fair minded men. The main thing is that where the newspaper and the broadcast station are separately controlled, the listener may receive the full benefit of both—that he has more chance to decide for himself what is really happening, what its influence upon him, his family,
his community, his country is likely to be. Obviously the newspaper and the broadcast station can not be checked against each other when both are under the same control. To some this solicitude for channels of information independent of each other may seem a counsel of confusion; to me, it is a principal hope of democracy.

"As possibly shedding some light on the question of public interest as affected by newspaper control of broadcast stations it may be observed that one of the most direct requests that the Commission limit the freedom of speech of broadcasters was made on behalf of the American Newspaper Publishers' Association. That Association, on June 22, 1936, requested the Commission to fix definite periods as the only times at which news could be broadcast.

"Persons familiar with developments in broadcasting are aware of the exceeding rapidity with which broadcast stations are passing into newspaper control. It is not possible to compile a list of newspaper controlled broadcast stations with assurance that it is complete. This is due to the fact that the Commission does not require the disclosure of information leading to ultimate control. Where the application of a station shows that its stock is owned by another company, the name of the owning company does not always give a clue to its real business. Thus one can not state with absolute finality the number of broadcast stations owned or controlled by or affiliated with newspapers or persons interested in publishing newspapers. The number may be somewhat larger than that given below.

**Existing Stations Controlled by Newspapers**

"To show the rate of growth of newspaper control, it is of interest to note the date since which there has been continuous newspaper control of each of the 200 broadcast stations presently so controlled. There may be slight errors in the assignment of five stations in the following table due to the incompleteness of some of the records. The dates have been divided into three unequal groups, corresponding roughly to the three periods in the regulation of broadcasting:

<table>

"It will be observed that comparatively few of the present stations were newspaper controlled during the highly experimental period prior to the creation of the Federal Radio Commission. Newspaper control of most of them dates from the time when broadcasting had definitely demonstrated its value as a news distributing..."
medium and its power to make money as an advertising medium. More than one-half of them have come under newspaper control since January 1, 1934, after the revenues of broadcast stations had stood up so significantly during the depression. The greatest rate of increase has occurred since the establishment of the Federal Communications Commission. I shall not labor the rate of progression at which newspaper control has proceeded in recent months nor attempt to picture the future if that growth continues unabated. In 1936 the Commission approved nearly twice as many newspaper stations as during 1935. In the period January 1-February 16, 1937, eight newspaper controlled stations have been authorized; in the same period of 1936 none were authorized.

"There is no reason to believe that the demand for newspaper controlled stations will not continue. Although broadcast stations have come under newspaper control at a constantly accelerating rate, there were pending on February 16, 1937, a total of 111 applications the granting of which would result in other stations coming under newspaper control. The corresponding figure stood at 97 on October 1, 1936, at 87 on August 1, 1936, and at 62 on February 1, 1936. In other words, in spite of the rapidity with which newspaper stations have been authorized, there has been a steady increase in the number of applications yet to be acted upon. Even the open-handed policy thus far pursued has not been able to keep up with the demands of newspapers for broadcast stations.

"To those newspaper stations which were among the pioneers in the development of broadcasting, much credit is due. However, the table shows that few of the stations presently controlled by newspapers were among the pioneers. Most of the newspapers now controlling stations merely jumped on the bandwagon.

"Of more than passing interest is the following: in the case of only 78 out of the total of 200 newspaper controlled stations does the newspaper interest date from the construction permit or other original authorization. In the other 122 cases the newspaper interest has been projected into an already existing station.

"There are 103 cities in which the only broadcast station is newspaper controlled, 8 cities with two broadcast stations each in which both stations are newspaper controlled, and 2 cities with three broadcast stations each in which all three are newspaper controlled. Thus there are 113 cities in which all local broadcast stations are under newspaper control.

"Applying the foregoing statements to the present case, it seems to me that the Commission should not create a situation which may result in the control of the only local broadcast station passing to a newspaper. In reaching this conclusion, I consider it immaterial whether the editorial policy and practices of the El Paso Times are better or worse than those presently followed by Station KTSB. The Commission must be concerned with the possibilities inherent in the situation, not with the particular manifestations of editorial discretion.

"The application for rehearing should be granted."

**Broadcast Advertising In January**

**HIGHLIGHTS OF THE MONTH**

Total broadcast advertising in January amounted to $10,369,556, a decrease of 6.7% from the level of the preceding month but a 29.1% increase over gross time sales for the corresponding month of last year. The usual seasonal declines occurred in all portions of the medium. Compared to last January only regional networks failed to show a gain, declining 3.3%. The principal increase was registered in the national non-network field where advertising rose 42.2% over January, 1936.

Although all advertising media experienced the downward seasonal trend during January, radio broadcasting declined to the least extent when compared to December. Advertising in national magazines declined 26.1%, national farm papers 14.2%, and newspapers 25.3%.

Non-network advertising declined 12.8% as compared to December. Local station advertising decreased to the greatest extent, dropping 24.1%. Clear channel and regional station advertising declined 8.1% and 13.3%, respectively. A decline in volume of advertising was recorded in all sections of the country although the Pacific and Mountain Area declined to the least extent. Regional station advertising and advertising in the New England-Middle Atlantic Area showed the greatest gain over last January. However, all sizes of stations and geographical districts showed marked increases in non-network advertising.

Transcriptions showed the greatest decrease of any type of rendition during the month, declining 22.7%. However, all types dropped below the level of last month. Live talent volume declined 5.6%, records 11.4%, and announcements 17.2%. Records and announcements in the national non-network field and records and transcriptions in the local field showed the greatest gains when compared to last January.

Principal gains in national network advertising were registered in the radio set, gasoline and accessory and household equipment sponsor groups, while the clothing, confectionery, soap and kitchen supply, and miscellaneous groups declined as compared to last month. Clothing, confectionery, and tobacco advertising gained in the regional field, whereas accessory and drug volume declined. A decrease of 68.3% in national non-network automotive advertising was recorded during the month. In the local field, toilet goods, soaps and kitchen supplies, and accessories and gasoline showed increases and radio set, drug, clothing and automotive advertising dropped as compared...
to December. Retail broadcast advertising during January declined 30.5% as compared to the previous month but remained 21.3% ahead of last January.

TOTAL BROADCAST ADVERTISING

Total broadcast advertising for the month of January is found in Table I.

<table>

</tbody>
</table>

Total broadcast advertising continued the usual seasonal trend by declining 6.7% from the level of the previous month. During the previous year the decline for this period amounted to 7.5%. All portions of the medium declined at about the usual seasonal amount. National network volume declined 2.1%, regional networks 7.2%, national non-network business 5.9%, and local advertising 19.8%.

Gross time sales for the month were 29.1% ahead of the volume recorded for last January. National non-network business showed the greatest gain, rising 42.2%. National network volume rose 27.8% and local advertising 20.9%. Regional network volume declined 3.3%.

COMPARISON WITH OTHER MEDIA

Radio broadcasting experienced the slightest decline in gross sales for the month of any of the major advertising media. National magazines declined 26.1% from the level of December, national farm papers 14.2%, and newspaper volume 25.3%. Broadcast advertising also showed the greatest gain over January 1936. Whereas radio broadcasting increased gross sales 29.1% over last January, national magazines gained 9.8%, national farm papers 28.3%, and newspaper volume remained at approximately the same level.

Advertising volume by major media during the month of January is found in Table II.

2 Estimated.

NON-NETWORK ADVERTISING

Total non-network advertising followed the usual seasonal trend by declining 12.8% as compared to last month. Advertising over local stations declined to the greatest extent, falling 24.1% below the level of December. Non-network advertising over clear channel and high-powered regional stations declined 8.1%, while regional station volume decreased 13.3%.

Compared to January of last year, non-network advertising volume increased 31.7%, all classes of stations showing gains. Clear channel and high-powered regional station volume increased 22.3%, regional station volume 50.6%, and non-network advertising over local stations 13.2%.

Non-network advertising by power of station is found in Table III.

</tbody>
</table>

Declines in non-network advertising volume were experienced in all sections of the country as compared to last month. However, the volume in the Pacific and Mountain Area declined only 2.9% as against a decrease of 13.6% in the New England-Middle Atlantic Area, 14.4% in the South Atlantic-South Central Area, and 15.6% in the North Central Area.

The New England-Middle Atlantic Area showed the greatest gain over the corresponding month of last year, non-network advertising in that area rising 59.9%. Other regions experienced increases over last January as follows: South Atlantic-South Central Area 24.0%, North Central Area 21.6%, and Pacific and Mountain Area 29.4%.

Non-network advertising by geographical districts is found in Table IV.

1976
NON-NETWORK ADVERTISING BY TYPE OF RENDITION

Transcription volume showed the greatest drop in the non-network field as compared to December, although all types of rendition registered declines. Total transcription volume declined 22.7% below last month's level. Live talent volume decreased 5.6%, records 11.4%, and announcements 17.2%. Compared to the volume of the corresponding month of 1936, total transcriptions rose 14.1%, live talent 36.6%, records 56.1%, and announcements 38.1%.

In the national non-network field, transcriptions dropped 18.7% as against last month. Live talent volume remained practically unchanged, while records and announcements registered gains of 4.9% and 3.4%, respectively. As against last January, transcriptions rose 9.4%, live talent 59.6%, announcements 74.4%, and record volume more than tripled.

In the local non-network field, transcriptions declined 34.6% from December but remained 35.6% above the level of the corresponding month of last year. Live talent declined 11.3% from last month, records 14.1%, and announcements 27.6%. Compared to last January, live talent gained 17.8%, records 41.4%, and announcements 20.3%.

Non-network advertising by type of rendition is found in Table V.

SPONSOR TRENDS IN JANUARY

Principal gains to be registered over last month in the national network field were in the radio set, gasoline and accessory and household equipment groups. Clothing, confectionery, soaps and kitchen supply and the miscellaneous groups showed the major declines. All other sponsor groups showed little change. With exception of miscellaneous advertising, all sponsor groups showed gains over last January, principal gains being registered in the financial, radio set, soap and kitchen supply and automotive groups.

Clothing, confectionery and tobacco advertising showed increases in the regional network field as compared to December. Accessory and drug volume showed the principal declines. As compared to last January, clothing, beverage, accessory and financial advertising showed the major gains, while the drug, confectionery and household equipment groups registered declines.

In the national non-network field, automotive advertising declined 68.3% as compared to December. Accessory, clothing, and radio set advertising also showed substantial declines. All groups gained as compared to last January except the amusement, automotive, clothing, and radio set groups.

Toilet goods, soaps and kitchen supplies, and accessories and gasoline showed the only increases of importance in the local field as compared to December. Radio set, drug, clothing and automotive groups declined. With the exception of amusements, drugs, toilet goods and confectionery, all groups were ahead of last January's totals.

Broadcast advertising during January by major product and service groups is found in Table VI on page 1978.

Detailed information regarding various sponsor groups during the month of January is as follows:

1a. Amusements. Compared to December, national non-network volume down 2.1% and local 24.5%. Total down 21.3%. National non-network down 27.5% and local 3.9% as against last January. Total down 9.2%.

1. Automotive. National network volume increased 6.9% over last month. Regional network volume declined from $950 to $540. National non-network and local business declined 68.3% and 31.8%, respectively. National network volume 82.4% ahead of last January. National non-network business declined 79.7% and local advertising increased 4.8%.

2. Accessories and gasoline. National network volume 27.4% above December and local advertising up 48.6%. Regional network volume down 21.2% and national non-network 33.1%. Gains over corresponding month of last year as follows: national networks 12.6%, regional networks 35.9%, national non-network 50.0%, and local 53.4%.

3. Clothing. Compared to December, national network volume down 23.6%, national non-network business 36.8%, and local advertising 30.2%. Regional network
volume more than doubled. As against last January, national network volume rose 3.2%, local advertising 21.0%, and regional network volume tripled. National non-network advertising declined 3.5%.

4. Drugs and pharmaceuticals. National network volume alone increased over last month, rising 6.4%. Regional network volume declined 27.4%, national non-network business 2.5%, and local advertising 31.1%. Compared to the corresponding month of the preceding year, national network volume increased 20.7% and national non-network business 14.7%. Regional network volume declined 33.8% and local business 31.5%.

5. Toilet goods. National network volume and national non-network business down 7.6% and 10.6%, respectively, from December. Regional network volume remained the same, while local business increased 33.4%. Compared to last January, national network volume increased 15.6%, regional network volume 19.7%, and national non-network business 88.7%. Local advertising declined 29.5%.

6. Foodstuffs. Compared to last month, national network volume increased 3.1% and national non-network business 3.0%. Regional network business dropped 2.5% and local advertising 17.5%. As against the corresponding month of last year, national networks increased 38.7%, national non-network 76.8%, and local advertising 22.2%. Regional networks declined 4.3%.

7. Beverages. Compared to the previous month, national network volume declined 11.7%, national non-network business 11.5%, and local advertising 8.8%. Regional network business rose 15.3%. Gains over last January as follows: national networks 2.6%, national non-network 64.3%, and local advertising 13.6%. Regional network business more than doubled.

8. Confectionery. National network volume 27.3% below December. Regional network volume and local advertising increased 56.7% and 15.1%, respectively. National non-network advertising declined 6.6%. Compared to the corresponding month of 1936, national network volume increased 4.0% and national non-network business 23.6%. Regional network volume dropped 55.7% and local business 33.3%.

9. Household equipment. As against last month, national network volume increased 26.5% and national non-network business 14.7%. Regional network business declined 9.6% and local business 21.8%. National network volume 1.8% above last January. National non-network business up 25.9% and local advertising 29.5%. Regional network business down 63.1%.

10. Soaps and kitchen supplies. National network business decreased 27.8% from December. Regional network business dropped from $960 to $200. National non-network and local volume increased 4.1% and 22.6%, respectively. Compared to last January, national networks increased 45.7%, national non-network 155.4%, and local advertising 23.3%.

11. Financial and insurance. National network volume 12.3% below December and regional network volume down 3.2%. National non-network up 10.6% and local advertising remained the same. Gains over last January as follows: national networks 110.2%, regional networks 44.0%, national non-network 79.9%, and local advertising 42.6%.

1978
12. **Radios.** National network volume 57.8% above December. National non-network volume and local advertising down 79.5% and 45.4%, respectively. National network volume 207.8% greater than last January. National non-network business declined 55.0%, while local increased 75.0%.

13. **Department and general stores.** National non-network volume declined 17.5% as against December and local 29.0%. National non-network business 67.8% above corresponding month of last year. Local volume up 29.8%.

14. **Tobacco products.** Compared to last month, national network volume increased 4.3%, regional network volume 30.7%, and national non-network business 8.0%. Local advertising declined 2.4%. Gains over last January as follows: national networks 17.3%, regional networks 29.3%, national non-network business six times as great, and local business 56.9%.

15. **Miscellaneous.** As against last month, national network volume declined 28.7%, regional network volume 34.5%, and local advertising 20.6%. National non-network business increased 19.1%. Compared to the corresponding month of last year, national network volume declined 10.8% and regional network volume 50.6%. National non-network and local business gained 87.7% and 26.7%, respectively.

Retail broadcast advertising over individual stations during January declined 30.5% as compared to the preceding month. This decline compares to a 29.4% drop registered at the same time last year. Retail broadcast advertising still remained 21.3% ahead of the level of January, 1936. Decreases were fairly general as compared to December, only beauty parlors, grocery and confectionery stores showing increases. As compared to last January, clothing stores, household equipment dealers, furniture and department stores showed the principal gains, while drug stores, beverage retailers, and grocery store advertising registered declines.

Retail broadcast advertising during the month is found in Table VII.

**FEDERAL TRADE COMMISSION ACTION**

### Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

No. 3067. Making and selling automobile accessories, Banner Manufacturing Co., 841 East 43rd St., Brooklyn, is charged with unfair competition in the sale of its products, in a complaint.

The respondent corporation advertises over the radio and in newspapers, magazines and other printed matter, and allegedly represented its product as furnishing the user protection against inferior compounds, the company certifying that the products were made in strict conformity of standard under strict supervision of the company's own laboratories.

The representations are alleged to lead the public into believing that the respondent company's anti-freeze solutions are safe and harmless for general use, are made under strict supervision of laboratories and manufactured at the company's premises, when in fact, according to the complaint, these assertions are not the facts and the company does not operate a laboratory for manufacturing, compounding and testing these products along scientific lines.

No. 3068. Levy Bros. China Co., Inc., 467 Keap St., Brooklyn, is charged in a complaint with unfair competition in the sale of chinaware.

Lables on certain of the respondent company's products are alleged to have created the impression that they or the decorations thereon originated in Limoges, France, when this was not a fact. Chinaware made and decorated in Limoges has a favorable and valuable reputation in the United States, the complaint points out.

No. 3069. Alleging use of unfair methods of competition in the sale of a medicinal compound designated "Eucathol," a complaint has been issued against The Eucathol Co., Inc., Shawnee, Okla.

The respondent corporation advertises over the radio and in newspapers, magazines and other printed matter, and allegedly represents, expressly or by implication, that use of Eucathol will prevent and cure, or is beneficial in the treatment of insect bites, sunburn, asthma and hay fever, catarrh, colds, scalds and burns, skin disorders, influenza and pneumonia, and other ailments.

### Stipulations and Orders

The Commission has issued the following cease and desist orders and stipulations:

No. 1904. William Alt, 107 South Wells St., Chicago, engaged in the sale of toiletries, razor blades, notions and household utilities, will cease using on labels and in catalogues exaggerated or misleading representations concerning the value of his merchandise or the prices at which it is sold or intended to be sold in the usual course of trade. He also will stop using the word "New York" in any manner so as to imply that he has an office or a place of business in New York City, when such is not a fact. All trades as Star Novelty Utilities and Star Products Co., and, according to the stipulation, labeled certain of its products with the words "Star Products Company, New York, Chicago," when, in fact, he did not have a place of business in New York.

1979
No. 1905. Dilex Institute of Feminine Hygiene, 33 West 47th St., New York City, engaged in selling, under the trade name La Dila Hygienic Institute, a product designated "La-Dila Method," agreed to discontinue making certain representations, the effect of which was to directly or indirectly imply that use of the feminine hygiene preparation would prevent or cure sickness that could be relied upon generally to accomplish the results claimed for it.

No. 1909. Munsell's Mineral Products Co., 1415 Sharp Building, Lincoln, Nebr., engaged in compounding and selling household remedies under the name "Munsell's Mineralization Tablets," stipulated that it will cease representing that its products, used and sold only as a specific remedy for any human ailment, but reserved the right to represent that they are beneficial to general health in cases where they may supply a deficiency of any mineral salt which may be lacking and which deficiency has produced, or is tending to produce, a diseased condition. The company also will cease representing that its products are safe for self-medication if they contain any drug or ingredient, such as fluoride, in a quantity which may prove harmful when taken otherwise than under the direction of a physician. The stipulation sets out that there is no established authority for believing that mineral salts, when taken alone, will correct human ailments.

Nos. 1910-1913. Unfair representations in the interstate sale of extracts and an orange juice concentrate, will be banned by two concerns. These respondents are: Alfredo Wanderlingh, 2321 First Avenue, New York, trading as Venus Importing Co., and Bireley's, Inc., 1117 North Mansfield Avenue, Hollywood, Calif.

Wanderlingh, in the sale of extracts, agreed to stop employing the word "importing" as part of or in connection with the trade name under which they were sold, and to cease using this word or the word "importati" on labels implying that the articles referred to are imported from Italy or elsewhere, or that Wanderlingh is an importer, when such are not the facts.

Use of the phrase "Laboratorio Chimico Italiano" to imply that Wanderlingh maintains a chemical laboratory in Italy, will be discontinued, as will be the use of pictorial or other representations tending to indicate that medals or crosses were awarded Wanderlingh in connection with exhibition of his products at an exposition or fair.

Bireley's, Inc., in the sale of "Bireley's Dairy Orange Juice" and "Bireley's Orangeade," stipulated that it would cease seeking or obtaining agreements, promises or assurances from distributors that they would cooperate with Bireley's in a system of resale price maintenance for Bireley's products.

The respondent corporation's product is said to have been sold to a large number of distributors and to several chain stores. Distributors were required to sign a written agreement that Bireley's would cooperate with Bireley's in a system of resale price maintenance for Bireley's products.

The respondent corporation's product is said to have been sold to a large number of distributors and to several chain stores. Distributors were required to sign a written agreement that Bireley's would fix a minimum retail price and that the distributors would not under any circumstances sell for less than the prices so established.

No. 2860. Gulf Coast Oil Company of Mississippi, Inc., 3331 St. Charles Ave., New Orleans, has been ordered to discontinue unfair methods of competition through simulation of the brand names and trade marks of the products of competitors, including Gulf Refining Co., and Ethyl Gasoline Corporation and its licensees. The order also is directed against Anthony Paciera, president of the respondent corporation.

The respondents are ordered to cease and desist from representing, through use of the word "Gulf," either alone or with other words simulating the brand names under which Gulf Refining Company sells its products, that their motor oils and gasolines are those of a competitor. The respondents also are directed to discontinue making the same representation through use of any symbol, term or device.

In advertising their products, the respondents are not prohibited from using their entire corporate name or any trade or brand name which includes the words "Gulf Coast," so long as they do not use the word "Gulf" in any manner unless the word "Coast" appears in close proximity thereto in letters equally prominent and of the same type. The order does not prevent the respondents from using any yellow or orange color scheme on their stations, pumps and other equipment.

Nos. 2882-2777. Practices permitting use of a lottery or game of chance in the sale of candy to jobbers and wholesalers for resale to retailers, are prohibited under orders to cease and desist, issued against The Euclid Candy Co., of California, Inc., 715 Battery St., San Francisco, and Plantation Chocolate Co., Inc., 3150 Jamney St., Philadelphia.

Candy assortments sold by the respondent companies to wholesalers and retailers were arranged so that prizes could be given to consumers procuring certain candies designated by a color different from the other candies in the collections, according to the findings.

No. 2901. An order to cease and desist has been entered directing National Kream Co., Inc., 360 Furman St., Brooklyn, to cease and desist from unfair methods of competition in the sale of flavoring extracts.

The respondent corporation is ordered to discontinue advertising or representing, through use of words of any foreign language, or through symbols or picturizations, that flavoring extracts manufactured in the United States are produced in Italy or any other foreign country and imported into this country. Other representations ordered discontinued are that the respondent corporation's extracts were exhibited or awarded a prize at any exposition.

**FTC CLOSES CASE**

No. 2751. The Federal Trade Commission has closed its case against Thomas Leeming & Co., Inc., 101 West 31st St., New York, that respondent having entered into a stipulation with the Commission to discontinue certain unfair trade practices in connection with the sale of a treatment for the relief of pain designated "Baume Analgesique" or "Baume Bengue." The Commission's complaint was issued March 30, 1936.

Under the stipulation, the respondent corporation will cease representing that Baume Bengue will allay or relieve pain in any part of the body except in the local area of application; will stay in the area where it is applied until the pain is banished, and will penetrate deeper or through muscles to the pain itself.

The claim that Baume Bengue is the only "true" Baume Analgesique also will be discontinued, as will any similar representation which may reasonably be taken to imply that there are no other reputable or authentic preparations on the market of substantially similar ingredients and therapeutic properties.

In closing the case, the Commission reserved the right to reopen it, should the facts warrant, and to resume prosecution of the complaint in accordance with regular procedure.

**FEDERAL COMMUNICATIONS COMMISSION ACTION**

**Hearing Calendar**

The following broadcast hearings are scheduled at the Commission for the week beginning Monday, March 15:

**Monday, March 15**

HEARING BEFORE AN EXAMINER

(Broadcast)

NEW—H. O. Davis, Mobile, Ala.—C. P., 610 kc., 250 watts, 500 watts LS, unlimited time.

FURTHER HEARING BEFORE AN EXAMINER

(Broadcast)

NEW—Harold Thomas, Pittsfield, Mass.—C. P., 1310 kc., 100 watts, 250 watts LS, unlimited time.

**Tuesday, March 16**

HEARING BEFORE AN EXAMINER

(Broadcast)

NEW—Arthur H. Croghan, Minneapolis, Minn.—C. P., 1310 kc., 100 watts, daytime.

**Wednesday, March 17**

HEARING BEFORE AN EXAMINER

(Broadcast)

KRLH—Clarence Scharbauer, Midland, Texas.—Modification of license, 1210 kc., 100 watts, daytime.
Thursday, March 18

HEARING BEFORE THE COMMISSION
EN BANC*

* (There is a petition pending for postponement of this hearing.)

WBBC—Brooklyn Broadcasting Corp., Brooklyn, N. Y.—Renewal of license, 1400 kc., 500 watts. Share-WLTH, WARD and WVFW.

WBBC—Brooklyn Broadcasting Corp., Brooklyn, N. Y.—Modification of license, 1400 kc., 500 watts (Auxiliary transmitter). Share-WARD, WLTH and WVFW.

WVFW—Paramount Broadcasting Corp., Brooklyn, N. Y.—Transfer of control of corp.; 1400 kc., 500 watts. Share WARD, WLTH and WBBC.

WVFW—Paramount Broadcasting Corp., Brooklyn, N. Y.—Modification of license to Kings Broadcasting Corp., 1400 kc., 500 watts. Share WVFW, WLTH and WBBC.

WARD—United States Broadcasting Corp., Brooklyn, N. Y.—C. P. to move transmitter; 1400 kc., 500 watts. Share WVFW, WLTH and WBBC.

WARD—United States Broadcasting Corp., Brooklyn, N. Y.—Renewal of license, 1400 kc., 500 watts. Share WVFW, WLTH and WBBC.

WARD—United States Broadcasting Corp., Brooklyn, N. Y.—Voluntary assignment of license to Kings Broadcasting Corp., 1400 kc., 500 watts. Share WVFW, WLTH and WBBC.

WLTH—Voice of Brooklyn, Inc., Brooklyn, N. Y.—Renewal of license, 1400 kc., 500 watts. Share WARD, WVFW and WBBC.

WLTH—Voice of Brooklyn, Inc., Brooklyn, N. Y.—Modification of license, 1400 kc., 500 watts, unlimited time. Share-WARD, WVFW and WBBC.

APPLICATIONS GRANTED

WCHV—Community Broadcasting Corp., Charlottesville, Va.—Granted C. P. approving transmitter site 0.85 miles from present location; change in composite equipment, and installation of vertical radiator.

KMAC—W. W. McAllister, San Antonio, Texas.—Granted license to cover C. P.; 1370 kc., 100 watts night, 250 watts day, unlimited, share KONO.

KCKN—WLBF Broadcasting Co., Kansas City, Kan.—Granted modification of license to change name from WLBF Broadcasting Co., to The KGKN Broadcasting Co.

KRNR—Southern Oregon Publishing Co., Roseburg, Ore.—Granted authority for changes in automatic frequency control apparatus.

KPLC—Caleasieu Broadcasting Co., Lake Charles, La.—Granted license to cover C. P. and modifications thereof, 1500 kc., 100 watts night, 250 watts day, unlimited.

WGST—Georgia School of Technology, Atlanta, Ga.—Granted license to cover C. P. and modifications therefor; 890 kc., 1 KW night, 5 KW day, unlimited; also granted authority to determine operating power by direct measurement of antenna input.

KJBS—Julius Brunton & Sons Co., San Francisco, Calif.—Granted license to cover C. P.; 1070 kc., 500 watts night and day, unlimited.

KSFO—Associated Broadcasters, Inc., San Francisco, Calif.—Granted modification of C. P. to move transmitter site locally.

KHQ—Louis Wasmcr, Inc., Spokane, Wash.—Granted modification of C. P. to extend completion date from April 6 to June 7, 1937.

KRTN—Iowa Broadcasting Co., Des Moines, Iowa.—Granted modification of C. P. to make changes in transmitting equipment and antenna system authorized by C. P.

WSMB—WSMB, Inc., New Orleans, La.—Granted modification of C. P. for authority to change transmitter site authorized by C. P. from Algiers Naval Station to Behrman Highway, New Orleans.

KGF—Eagle Broadcasting Co., Inc., Corpus Christi, Tex.—Granted Modification of C. P. to move station to Brownsville, exact studio facilities and type of antenna to be determined with Commission's approval; installation of new equipment; and extension of commencement date to 60 days after grant and completion date to 180 days thereafter.

WMCA—Knickerbocker Broadcasting Co., New York City—Granted modification of license to increase operating power of auxiliary transmitter from 500 watts to 1 KW for emergency purposes only.

WOC—Tri-City Broadcasting Co., Davenport, Iowa.—Granted authority to make changes in automatic frequency control apparatus.

KSCJ—Perkins Bros. Co. (The Sioux City Journal), Sioux City, Iowa.—Granted authority to determine operating power by direct measurement of antenna input in compliance with terms of Rule 137.

Columbia Broadcasting System, Inc., New York City.—Granted extension of authority to transmit programs to Canadian stations CFBR and CKAC and to stations of the Canadian Broadcasting Corp. (formerly Canadian Radio Broadcasting Commission).

SET FOR HEARING

NEW—Petersburg Newspaper Corp., Petersburg, Va.—Application for C. P. for new station; 1210 kc., 100 watts night, 250 watts day, specified hours. Full time Mondays, Tuesdays, Wednesdays, Thursdays, Fridays, Saturdays; 6 to 10:30 a. m., 1:30 to 5:30 p. m., 7 to 7:30 p. m., 9:30 to midnight, EST, Sundays. Exact transmitter site and type of antenna to be determined with Commission's approval.

NEW—Carolinas Radio, Inc., Charlotte, N. C.—Application for C. P. for new station; 1210 kc., 100 watts night, 250 watts day, unlimited, exact transmitter and studio sites to be approved.

NEW—C. S. Gooch, d/b as Amarillo Broadcasting Co., Amarillo, Tex.—Application for C. P. for new station amended to request 1500 kc., 100 watts, unlimited.

NEW—John W. Haigis, Greenfield, Mass.—Application for C. P. for new station; 1210 kc., 250 watts, daytime only, exact transmitter site to be determined with Commission's approval.

NEW—J. K. Patrick, Earl B. Braswell, Tate Wright, C. A. Rowland and A. Lynne Brannen, d/b as J. K. Patrick & Co., Athens, Ga.—Application for C. P. for new station; 1316 kc., 100 watts night, 250 watts day, unlimited, exact transmitter and studio sites to be determined with Commission's approval.

NEW—George E. Payne, San Jose, Calif.—Application for C. P. amended so as to request 1440 kc., 500 watts, unlimited, exact transmitter site to be determined with Commission's approval.

NEW—Howard A. Miller, Gainesville, Ill.—Application for C. P. amended to request 1500 kc., 100 watts, daytime only, exact transmitter site to be determined with Commission's approval.

NEW—John D. Fields, Inc., Las Vegas, Nev.—Application for C. P. amended to request 1370 kc., 100 watts, unlimited, exact transmitter site to be approved.

NEW—World Publishing Co., Tulsa, Okla.—Application for C. P. amended to request 940 kc., 1 KW night, using directional antenna, 5 KW day, unlimited.

SPECIAL AUTHORIZATIONS

WKAR—Michigan State College, East Lansing, Mich.—Granted special temporary authorization to operate with reduced power pending arrival of new transformer for a period not to exceed thirty days.
KFN—KFDF, Inc., Shenandoah, Iowa.—Granted special temporary authorization to operate simultaneously with WILL from 8 a. m. to 11 a. m. and 5 p. m. to 6 p. m. daily, except Sundays, during the month of April, 1937.
KFNF—KFNF, Inc., Shenandoah, Iowa.—Granted special temporary authorization to operate simultaneously with WILL from 4 p. m. to 5 p. m., March 21 and 28, 1937, in order to broadcast additional Easter time programs.

WPRF—Mrs. M. Conesa, Ponce, Puerto Rico.—Granted special temporary authorization to operate from 2 to 3 p. m., AST, March 26, 1937, in order to broadcast a religious service on Good-Friday from a local church.

WPRP—Julio M. Conesa, Ponce, Puerto Rico.—Granted special temporary authorization to operate simultaneously with WGBF, from local sunset (6:15 p. m., CST) to 12 midnight, with reduced power of 250 watts, on March 20 and 27, 1937, in order to broadcast semi-final and final state championship basketball games.

WKRC—Columbia Broadcasting System, Inc., Cincinnati, Ohio.—Granted special temporary authorization to operate from local sunset (6:30 p. m., EST) to 9 p. m., EST, March 11, 1937, in order to broadcast annual banquet of the High Point Chamber of Commerce from ballroom of the Sheraton Hotel.

WGBF—W. J. Reynolds, Jr., J. C. Hughes and J. S. Allen, d/b, Evansville, Ind.—Granted.

WSUI—State University of Iowa, Iowa City, Iowa.—Granted.

1140, 1190, 1240, 1300, 1350, 1400, 1460, 1520, 1550, and 1600 kc., between the hours of 1 a. m. and 6 a. m., for a period not to exceed three weeks from April 16, 1937, in order to obtain performance of roof antennas by taking measurements of the field produced by new tower at various heights.

**MISCELLANEOUS**

KRKO—Lee E. Mudgett, Everett, Wash.—Granted petition asking Commission to continue for approximately 90 days hearing on application for C. P. for new radio broadcasting station to operate on 1420 kc., 100 watts night, 250 watts LS, unlimited time. Hearing now scheduled for March 26, 1937.

KFPY—Symons Broadcasting Co., Spokane, Wash.—Denied petition asking that hearing upon its application for modification of license to authorize operation on frequencies of 890 kc., 3 KW, unlimited, be held on or about March 29, 1937. This application is scheduled to be heard before the Broadcast Division at a date to be determined.

WTCN—Minnesota Broadcasting Corp., Minneapolis, Minn.—Granted petition to intervene in proceedings relative to application of Edward Hoffman for modification of license of station WMIN to change frequency from 1570 kc. to 1360 kc., and to increase night power from 100 watts to 250 watts, day power to remain the same: 250 watts.

WINS—Hearst Radio, Inc., New York, N. Y.—Granted authority to operate as licensed March 6 and 5 relaybroadcast material from plane over Decatur, Ill.

**RATIFICATIONS**

The Broadcast Division ratified the following actions authorized on the dates shown:

WSAU—Northern Broadcasting Co., Inc., Madison, Wis.—Granted extension program test period 30 days from March 1, 1937.

WGYN—Peter Goelet, Newburgh, N. Y.—Granted extension program test period 30 days from March 1, 1937.

W8XK—Croley Radio Corp., Cincinnati, Ohio.—Granted authority to operate W8XK as licensed on March 8, 15, 22 and 29 relaybroadcast street interviews program, “For Men Only.” Also granted authority operate W8XFO as licensed on March 5, 12, 19 and 26 relaybroadcast polo matches at 4 p.m. on.

KPLC—Calesicau Broadcasting Co., Lake Charles, La.—Granted extension program test period 30 days from March 5, 1937.

W9XPS—WDZ Broadcasting Co., Tuscola, Ill.—Granted authority operate as licensed for period 30 days beginning March 5 for relaybroadcast WPA projects and March 4 and 5 relaybroadcast material from plane over Decatur, Ill.

W10XV—National Broadcasting Co., Inc., New York, N. Y.—Granted authority operate as licensed March 6 and 7 in New York City relaybroadcast program “Feeding a City.”
APPLICATIONS RECEIVED

First Zone

WGBS—Columbia Broadcasting System, Inc., Boston, Mass.—License to cover construction permit (B1-P-1196) for new equipment, increase in power, and move of transmitter.

WFAS—Westchester Broadcasting Corp., White Plains, N. Y.—Special experimental authorization to operate simultaneously with WBBB, sharing as before with WGBB and WNYN, for regular license period.

WSNJ—Eastern States Broadcasting Corp., Bridgeton, N. J.—Modification of construction permit (B1-P-529) for approval of transmitter site at Centerton and Burlington Roads, Upper Deerfield, N. J., and studio at Pearl and Second Streets, Bridgeton, N. J.

New—Hearst Radio, Inc., Washington, D. C.—Construction permit for a booster station on 1310 kc., 250 watts, to operate synchronously with main transmitter of proposed broadcast station daytime only, to be determined in or near Washington, D. C. Requests facilities of WOL, contingent on the granting of WOL’s application for frequency of 1230 kc.

NEW—Hearst Radio, Inc., Washington, D. C.—Construction permit for a booster station on 1310 kc., 250 watts, to operate synchronously with main transmitter of proposed broadcast station daytime only, to be determined in or near Washington, D. C. Requests facilities of WOL, contingent on the granting of WOL’s application for frequency of 1230 kc.

NEW—John Stewart Bryan, Petersburg, Va.—Construction permit for a new station to be operated on 1370 kc., 100 watts, daytime. Amended to change name from John Stewart Bryan, Douglas Freeman and Tennant Bryan, co-partners, to John Stewart Bryan; change requested frequency from 1370 kc. to 1210 kc., power from 100 watts to 250 watts night, 250 watts daytime, hours of operation from daytime to unlimited except Sunday, when WBBL operates between 10:30 a.m. to 1:30 p.m., 5:30 to 7 p.m., and 7:30 to 9:30 p.m., EST; and make changes in requested equipment. Requests facilities of WMBG.

NEW—Hearst Radio, Inc., Washington, D. C.—Construction permit for a new station to be operated on 850 kc., 250 watts, daytime. Amended to change frequency from 850 kc. to 1210 kc., and hours of operation from daytime to unlimited, using 250 watts power.

WAOL—WAOL, Inc., Lancaster, Pa.—License to cover construction permit (B2-P-1330) for move of transmitter and studio and install new antenna.

WSXK—The Crosley Radio Corp., Cincinnati, Ohio.—License to cover construction permit for changes in equipment and increase in power.

WAAX—The Crosley Radio Corp., Cincinnati, Ohio.—License to cover construction permit for a new relay broadcast station.

NEW—Pennsylvania Broadcasting Co., Philadelphia, Pa.—Construction permit for a new relay broadcast station to be operated on 31100, 34600, 37600, 40600 kc., 10 watts.

NEW—Ashland Broadcasting Co., Ashland, Ky.—Construction permit for a new relay broadcast station to be operated on 1622, 2058, 2150, 2790 kc., 40 watts.

Third Zone

WBBZ—Adelaide L. Carrell, Representative, Estate C. L. Carrell, 1300 Deceased, Ponca City, Okla.—Construction permit to install new equipment, make changes in antenna, and increase daytime power from 100 watts to 250 watts. Amended to change name from Howard Johnson, Representative, Estate C. L. Carrell, Deceased, to Adelaide L. Carrell, Representative, Estate C. L. Carrell, Deceased.

WFTC—Jonas Weiland, Kinston, N. C.—Construction permit (B3-P-975) for new equipment, increase in power, change of frequency and hours of operation, further requesting changes in antenna, move of transmitter from Magnolia and 5th Street, Baton Rouge, La., to Baton Rouge, La.; change hours of operation from specified hours to unlimited time and extend commencement and completion dates. Amended to change requested hours of operation from unlimited time to unlimited time except 8 to 9 p.m. Monday.

NEW—The Enterprise Co., Beaumont, Tex.—Construction permit for a new station to be operated on 1400 kc., 500 watts, unlimited time.

WJPO—Baton Rouge Broadcasting Co., Baton Rouge, La.—Modification of construction permit (B3-P-975) for new equipment, increase in power, change of frequency and hours of operation, further requesting changes in antenna, move of transmitter from Magnolia and 5th Street, Baton Rouge, La., to Baton Rouge, La.; change hours of operation from specified hours to unlimited time and extend commencement and completion dates. Amended to change requested hours of operation from unlimited time to unlimited time except 8 to 9 p.m. Monday.

1984
WTFT—Liberty Broadcasting Co., Atlanta, Ga.—Modification of 1450 construction permit (B3-P-745) for move of transmitter and studio, requesting authority to install new equipment, for approval of transmitter site at Parkway Drive and East Avenue, Atlanta, Ga., and approval of antenna. Amended to change requested transmitter site from Parkway Drive and East Avenue to between Memorial Drive and Glenwood Drive, Atlanta, Ga.

WKUW—Radio Station WKUW, Griffin, Ga.—Construction permit 1500 to change frequency from 1500 kc. to 1310 kc., hours of operation from daytime to unlimited time, using 100 watts power, and install vertical antenna.

NEW—Isla of Dreams Broadcasting Corp., Miami, Fla.—Construction permit for a new relay broadcast station to be operated on 1606, 2022, 2102, 2758 kc., 40 watts.

Fourth Zone

KUSD—University of South Dakota, Vermillion, S. D.—License to cover construction permit (B4-P-1503) for a new transmitter.

WBAA—Purdue University, W. Lafayette, Ind.—Construction permit 890 to install new transmitter, make changes in antenna, change power from 500 watts, 1 KW day to 5 KW day, change hours of operation from specified hours to daytime only, and move transmitter ½ mile on Northwestern Ave., W. Lafayette, Indiana.

NEW—Iowa Minnesota Broadcasting Co., Rochester, Minn.—Construction permit for a new station to be operated on 920 kc., 1 KW night, 5 KW daytime, unlimited time. To use directional antenna night.

WISN—Hearst Radio, Inc., Milwaukee, Wis.—Modification of construction permit (B4-P-1566) to install vertical antenna, move transmitter, further requesting authority to install a new transmitter.

KFJB—Marshall Electric Co., Inc., Marshalltown, Iowa.—Modification of construction permit (B4-P-1054) as modified, for changes in equipment, move of transmitter and new antenna, requesting extension of completion date from 3-18-37 to 5-18-37.

KIUL—Garden City Broadcasting Co. (Homer A. Ellison & Frank D. Conard), Garden City, Kans.—Voluntary assignment of license from Garden City Broadcasting Co. (Homer A. Ellison & Frank D. Conard), to KIUL, Incorporated.

KGLO—Mason City Globe Gazette Co., Mason City, Iowa.—Authority to determine operating power by direct measurement of antenna.

KOIL—Central States Broadcasting Co., Omaha, Nebr.—Modification of construction permit (B4-P-1473) for changes in equipment, new antenna, increase in power and move of transmitter, requesting changes in authorized equipment.

NEW—Gardens City Broadcasting Co., Kennewick Baker, Hartwell 1500 Gains, and V. A. Bernier, Kankakee, Ill.—Construction permit for a new station to be operated on 1500 kc., 100 watts, unlimited time.

Fifth Zone

KFDO—Associated Broadcasters, Inc., San Francisco, Cal.—Modification of construction permit (B-P-1512) for new transmitter and antenna, increase in power and move of transmitter, further requesting move of transmitter from Block 490, South of Second St. to approximate S. E. corner Seawall, Lot No. 344, San Francisco, California.

KGRB—KGRB, Incorporated, Butte, Montana.—License to cover 1340 construction permit (B5-P-1175) for new equipment, vertical antenna and move of studio and transmitter.

KGAR—Tucson Motor Service Co., Tucson, Arizona.—Modification of license to change frequency from 1370 kc. to 890 kc. and power from 1200 watts night, 250 watts day to 250 watts day and night. Amended: To change requested frequency from 890 kc. to 1340 kc.

KRKO—Lee E. Mudgett, Everett, Wash.—Construction permit to 1370 make changes in equipment, install vertical antenna, increase power from 50 watts to 100 watts night, 250 watts daytime, and move transmitter and studio. (Violation Rule 104.7)

Koy—Salt River Valley Broadcasting Co., Phoenix, Arizona.—1390 License to cover construction permit (B5-P-1516) as modified, for new equipment, move of transmitter.

NEW—C. W. Moses, R. W. Workman, J. Allan Moses, a partner—1500 ship, Hobbs, New Mexico.—Construction permit for a new station to be operated on 1500 kc., 100 watts, unlimited time.

WDNC—Durham Radio Corp., Durham, N. C.—Construction permit 1500 to install a new transmitter and directional antenna for night use, change frequency from 1500 kc. to 600 kc., power from 100 watts to 1 KW and move transmitter. (Sections 4 (a), 22 and 26.)

KRNR—Southern Oregon Publishing Co., Roseburg, Oregon.—1500 Authority to make changes in automatic frequency control apparatus.

WEXB—Earl A. Nielsen, Mobile—Voluntary assignment of license from Earl A. Nielsen to Salt River Valley Broadcasting Co.

KABF—James McClatchy Co., Mobile.—Voluntary assignment of license from James McClatchy Company to McClatchy Broadcasting Company.

Hawaiian Zone

KGMB—Honolulu Broadcasting Co., Ltd., Honolulu, Hawaii.—1320 Modification of license to change frequency from 1320 kc. to 890 kc. Amended re antenna.

K6XCS—Honolulu Broadcasting Co., Ltd., Honolulu, Territory of Hawaii.—License to cover construction permit for a new relay broadcast station.

MALONEY ENDORSEMENT BILL

H. R. 5300

IN THE HOUSE OF REPRESENTATIVES

March 3, 1937

Mr. Maloney introduced the following bill; which was referred to the Committee on Interstate and Foreign Commerce and ordered to be printed

A BILL

To require that personal endorsements of articles by radio be accompanied by a statement that the endorsement is paid for.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 317 of the Communications Act of 1934 is amended by inserting "(a)" before "All" and by adding at the end thereof the following new subsection:

"(b) It shall be unlawful for any individual to broadcast by radio communication any recommendation of the use of any article and, in such broadcast, to indicate that such person has used such article, unless such individual shall, at the time of such broadcast, also broadcast the fact, if true, that the recommendation was secured by the promise or payment of money or other valuable consideration, or that such person has been promised or has received money or other valuable consideration for the broadcast of which such recommendation is a part."
WASHINGTON RADIO HIGHLIGHTS

An investigating committee of its own members has been appointed by the FCC to look into alleged irregularities in practice before the Commission. Senator Pittman introduced a resolution in the Upper House of Congress calling for an investigation into the practicability of broadcasting Congressional debates and other proceedings at the Capitol. Senator Connery talks before radio experts at meeting and forecasts passage of his resolution calling for a general investigation of radio and broadcasting. Senator White of Maine asked complete radio investigation in speech on the floor of the Senate.

SENATOR WHITE ASKS RADIO INVESTIGATION

Senator Wallace H. White, Jr., of Maine, long time friend of the broadcasting industry, in a speech on the floor of the Senate on Wednesday asked for a complete investigation of the broadcasting and radio industry. He charged that inordinate amounts of money are being made by broadcasters. Senator White also took up the question of newspapers owning broadcasting stations and asked that this be included in any investigation that might be held. These ideas are in line with those of Senator Wheeler, of Montana, chairman of the Committee on Interstate and Foreign Commerce of which Senator White is a member.

FCC APPOINTS INVESTIGATING COMMITTEE

At a meeting of the full membership of the Federal Communications Commission, a special investigating committee members of the Commission was appointed to investigate alleged irregularities of practices at the Commission.

Commissioner Payne was made chairman of the committee and the other members include Commissioners Stewart and Brown. No official announcement has been made by the Commission either as to the scope or purpose of the investigation.

RADIO INVESTIGATION HEARING

Representative Connery of Massachusetts appeared a few days ago before the Rules Committee of the House, having before it the Connery resolution calling for an investigation of radio and broadcasting. Mr. Connery made a good many charges before the committee, including the fact that broadcasting stations are controlled by the so-called public utility trusts. The Rules Committee has taken no action yet on the resolution, pending further hearings, the dates of which have not yet been set.

CONGRESSIONAL BROADCAST RESOLUTION

Senator Pittman of Nevada has introduced a resolution in the Senate (S. Res. 93) providing for investigating the advisability of broadcasting the proceedings of Congress. The resolution, which has been referred to the Senate Committee on Interstate Commerce, is as follows:

"Resolved, That the Committee on Interstate Commerce, or any duly authorized subcommittee thereof, is authorized and directed to make a full and complete investigation of the advisability of broadcasting by radio the proceedings of the Congress upon matters of public importance and of having assigned to the various classes of radio stations for that purpose bands of frequencies of wave lengths. The committee shall report to the Senate as soon as practicable the results of its investigation, together with its recommendations.

"For the purposes of this resolution the committee, or any duly authorized subcommittee thereof, is authorized to hold such hearings, to sit and act at such times and places during the sessions and recesses of the Senate in the Seventy-fifth Congress, to employ such clerical and
other assistants, to require by subpoena or otherwise the attendance of such witnesses and the production of such books, papers, and documents, to administer such oaths, to take such testimony, and to make such expenditures as it deems advisable. The cost of stenographic services to report such hearings shall not be in excess of 25 cents per hundred words. The expenses of the committee, which shall not exceed $—$, shall be paid from the contingent fund of the Senate upon vouchers approved by the chairman.”

**CONNERY ON RADIO INVESTIGATION**

Contending that radio is a natural resource, Representative Connery of Massachusetts, addressing a meeting of the American Section of the International Committee on Radio at the Cosmos Club, this city, argued that it would be good for the broadcasting industry if Congress does have a radio investigation. Connery has a resolution pending in the House calling for such an investigation.

He said that there is a radio monopoly and he stated that in his opinion this vast power of reaching the people of the country should not be lodged in the hands of a few.

Mr. Connery contended that he is not an enemy of either radio or the broadcasters and he insisted that he has no axe to grind. A monopoly in radio, he said, is dangerous to American liberty. He stated that he had hundreds of communications from all over the country protesting against the radio monopoly. It is vital to the American people, he said, to have the investigation he proposes in his resolution. If radio is honest, he said, the industry will have nothing to fear from such a committee as he proposes to carry on a radio investigation.

Senator Wallace H. White, Jr., of Maine, retiring president of the American Section, stated that because of the temper of members of Congress, he believed that if the House did not make a radio investigation that one would be made by the Senate.

Senator Duffy of Wisconsin addressed the meeting on the subject of his copyright bill and he spoke at some length on the ASCAP situation, reading a number of letters from constituents in his state to show what the society has done in some instances. He predicted that the Senate Patents Committee would hold hearings on the copyright bill during this session.

Commander T. A. M. Craven, chief engineer of the FCC, was elected president of the American Section at the meeting. Other officers elected for the coming year include; Louis G. Caldwell, vice president; Howard S. LeRoy, treasurer; and F. P. Guthrie, secretary. Executive counsel includes: John W. Guider, chairman; A. L. Ashby, Thad H. Brown, William R. Vallance, J. H. Dellinger, and Francis C. DeWolf.

**SECURITIES ACT REGISTRATION**

The following companies have filed registration statements with the Securities & Exchange Commission under the Securities Act:

- Rodama Gold Mines, Ltd., Vancouver, B. C., Canada. (2-2877, Form A-1)
- The American Brake Shoe and Foundry Company, New York City. (2-2878, Form A-2)
- Treasure State Oil Producing Co., Great Falls, Mont. (2-2879, Form A-1)
- Cashy Corporation, New York City (2-2880, Form A-1)
- The Kansas Pipe Line & Gas Company, Phillipsburg, Kansas. (2-2882, Form A-1)
- Investors Fund C, Inc., Jersey City, N. J. (2-2883, Form A-2)
- Schutter Candy Company, Chicago, Ill. (2-2884, Form A-2)
- The Tappan Stove Company, Mansfield, Ohio (2-2885, Form A-2)
- Hewitt Rubber Corporation, Buffalo, N. Y. (2-2886, Form A-2)
- Memphis Commercial Appeal Company, Memphis, Tenn. (2-2887, Form A-2)
- The Finance Company of America at Baltimore, Baltimore, Md. (2-2888, Form A-2)
- Air Devices Corporation, Chicago, Ill. (2-2889, Form A-1)
- Bireley's, Inc., Los Angeles, Cal. (2-2891, Form A-1)
- Palmer-Bee Company, Hamtramck, Mich. (2-2892, Form A-2)
- Sun Glow Industries, Inc., Mansfield, Ohio. (2-2893, Form A-2)
- Securities Acceptance Corporation, Omaha, Neb. (2-2894, Form A-2)
- Pittsburgh Metallurgical Company, Incorporated, Niagara Falls, N. Y. (2-2895, Form A-2)
- The National Guarantee and Finance Company, Columbus, Ohio. (2-2896, Form A-2)
- Railway Equipment & Realty Company, Ltd., Oakland, Cal. (2-2897, Form A-2)
- The Bender Body Company, Cleveland, Ohio. (2-2899, Form A-2)
- Fork & Enamel Corporation, Cleveland, Ohio. (2-2901, Form A-2)
- The Mineral Point Mining Company, Denver, Col. (2-2902, Form A-1)
- Motors Securities Company, Inc., Shreveport, La. (2-2903, Form A-1)
- Merchants Distilling Corporation, Terre Haute, Ind. (2-2904, Form A-1)
- The Granby Consolidated Mining, Smelting and Power Co., Ltd., Vancouver, B. C. (2-2906, Form A-2)
- Key Company, East St. Louis, Ill. (2-2907, Form A-2)
- Lion Oil Refining Company, El Dorado, Ark. (2-2908, Form A-2)
- The Angostura-Wuppermann Corporation, Norwalk, Conn. (2-2909, Form A-2)
- Teklan Royalty Corporation, Tulsa, Okla. (2-2910, Form E-1)

**APPOINTMENT ANNOUNCED**

Mr. Allen, who was given a leave of absence as night manager of the National Broadcasting Company's Washington division, will assume his new duties as editor of the Educational Radio Project's script and editorial divisions immediately, succeeding Leo S. Rosencrans, who resigned to take a position with Wilding Motion Pictures, Inc. Mr. Allen brings with him more than 10 years of radio work training and some 15 years' experience as a newspaperman.
IOWA STATION RECOMMENDED

The Sioux City Broadcasting Company applied to the Federal Communications Commission for a construction permit for the erection of a new station at Sioux City, Iowa, to use 1420 kilocycles, 100 watts and 250 watts LS, with unlimited time. C. W. Corkhill also applied to the Commission for a construction permit for the erection of a station at the same place to use the same frequency and unlimited time, with 100 watts power.

Examiner George H. Hill, in Report No. I-362, recommended that the application of the Sioux City Company be granted but that of Mr. Corkhill be denied. The Examiner found that no interference would be caused by the erection of the proposed station, and that sufficient talent is available. However, he states that Mr. Corkhill’s “showing with respect to bank credit, which would be extended him to the amount of $6,500 or more, is not corroborated by any witness.”

RECOMMENDS NEW SATELLITE STATION

The Merrimac Broadcasting Company, Inc., licensee of WLLH, Lowell, Mass., applied to the Federal Communications Commission for special experimental authority to construct a satellite station at Lawrence, Mass., to be operated synchronously with WLLH on 1370 kilocycles with variable power from 10 to 100 watts. On March 25, 1936, Hildreth & Rogers Company filed with the Commission a motion to designate for hearing the application, which motion was duly acknowledged by the Commission. On April 24, 1936, the Commission announced that the Broadcast Division had granted the application of the Merrimac Company.

Examiner George H. Hill, in Report No. I-361, recommended “that if the application of Hildreth & Rogers Company be denied, that the Commission affirm its grant of the application of Merrimac Broadcasting Company, Inc. (WLLH), for special experimental authority to construct and operate a satellite station to be located at Lawrence, Mass., and to operate synchronously with Station WLLH, at Lowell, Mass., on 1370 kilocycles, with variable power of from 10 to 100 watts, contingent upon the selection of an approved transmitter site.” The Examiner states further that “the program of research and experimentation proposed by the applicant indicate reasonable promise of substantial contribution to the advancement of the radio art.”

SUGGESTS ALABAMA STATION

Isadore Goldwasser applied to the Federal Communications Commission for a construction permit for the erection of a new broadcasting station at Anniston, Ala., to use 1420 kilocycles, 100 watts, and daytime operation.

Examiner Ralph L. Walker, in Report No. I-364, recommended that the application be granted. He found that “the proposed station would provide a signal of sufficient strength to give satisfactory service in a city which does not now receive such service during the day from existing stations.” He states also that “the use of the assignment requested will not result in objectionable interference to any existing station.”

DENIAL OF FLORIDA STATION RECOMMENDED

Bay County Publishers, Inc. applied to the Federal Communications Commission for a construction permit for the erection of a new broadcasting station at Panama City, Florida, to use 1420 kilocycles, 100 watts, and unlimited time on the air.

Examiner P. W. Seward, in Report No. I-366, recommended that the application be denied. He found that the “applicant does not seem to be financially qualified to construct and operate the proposed station.” The Examiner said further that “the granting of this application would not serve public interest, convenience and necessity. If the application be granted it would afford this applicant a monopoly upon all means of advertising in the area proposed to be served, which is not considered to be in the public interest.”

RECOMMENDS DENYING TEXAS STATION

The State Capitol Broadcasting Association filed an application with the Federal Communications Commission asking for a construction permit for the erection of a new station at Austin, Texas, to use 1120 kilocycles, 100 watts power, and specified hours of operation.

Examiner Ralph L. Walker, in Report No. I-363, recommended that the application be denied. The Examiner states in part that the testimony showed that “there is no suggestion of a need for an additional station except for the purpose of covering an area larger than that served by the existing station.” He states further that “not only would the service area of the proposed station be limited to a lesser radius than that normally expected of a regional station, but such operation would result in serious and objectionable interference unreasonably curtailing the satisfactory service area of another station heretofore authorized.”

NEW OREGON STATION RECOMMENDED

Harold M. Finlay and Eloise Finlay filed an application with the Federal Communications Commission asking for a construction permit for the erection of a new station at La Grande, Ore., to use 1420 kilocycles, 100 watts and 250 watts LS, and unlimited time on the air.

Examiner P. W. Seward, in Report No. I-367, recommended that the application be granted “provided a trans-
mended that the application be granted. He found that the proposed station would be in the public interest. The Examiner found that no interference would be expected to result from the proposed station being served by the applicant. The Examiner states that "the evidence adduced indicates that a need does exist for a radio broadcast station in the area proposed to be served." He found that the proposed station would be in the public interest.

KENTUCKY STATION RECOMMENDED

The Lincoln Memorial University filed an application with the Federal Communications Commission asking for a construction permit for the erection of a new station at Middleboro, Ky., to use 1210 kilocycles, 100 watts night and 250 watts LS, and unlimited time.

Examiner P. W. Seward, in Report No. I-365, recommended that the application be granted. He found that "the evidence adduced at the hearing shows that a need exists for additional radio service in the area proposed to be served by the applicant." The Examiner found that no interference would be expected to result from the granting of the application and its construction would be in the public interest.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

No. 3070. Alleging unfair competition in the sale of perfumes and toilet article to retailers and peddlers a complaint has been issued against Mills Sales Company of New York, Inc., 901 Broadway, New York City, and David, Evelyn, Walter and Joseph Jacoby and Estelle J. Kruger, individually and as officers of the company.

False and misleading advertising in catalogues, price lists and other printed matter is alleged to have had the effect of misleading consumers into mistakenly believing that certain merchandise sold by the respondents is of a superior quality because of the high retail prices marked thereon; that the respondents manufacture the products advertised, are large scale operators and have been in business for many years; that they are importers of perfumes, notions and other toiletries, and that certain perfumes sold by them are made in and imported from France, or other foreign countries.

The complaint points out the well known custom of manufacturers of marking on articles or the containers thereof the suggested retail prices for use of the retailers. It is alleged that the respondents marked prices in this manner far in excess of the ordinary retail price of the articles, thus giving the impression that the products so marked were of a superior quality.

No. 3071. A complaint has been issued charging William H. Pearce & Co., 52 South Second St., Philadelphia, with unfair trade practices in connection with the sale of an appliance for use on open top gas stoves or ranges. William H. Pearce and Philip S. Shassian, partners in the firm, and E. E. Iraelzoon, 200 South Kennelworth Ave., Elmhurst, Ill., in charge of field agents for the company, also are named respondents.

In circulars and pamphlets, the respondents allegedly advertise that their appliance, known as the "Pearce Stove Top," will reduce gas bills, increase the cooking capacity of the stove or range, prevent the burners from clogging, and add to the sanitary condition of the stove. They also represent, it is charged, that every appliance is properly ventilated to insure proper combustion, and that their company is the oldest and largest of its kind in the world.

No. 3072. Five respondents engaged in the sale of electro-magnetic appliances known as "Harmony Belts," designed for self-therapeutic treatment of various diseases and ailments, have been served with a complaint charging use of unfair methods of competition in violation of Section 5 of the Federal Trade Commission Act. The complaint alleged that when it is connected to electric current a magnetic field is created within its circumference.

The respondents are Joseph C. Bradley, 4 St. Clair St., West Toronto, Canada; John M. Schulz, 425 West Ferry St., Buffalo; William M. Arndt, 1422 South Boston St., Tulia, Okla.; Frieda E. Breslin, 37 South Washington St., Wilkes-Barre, Pa., and A. R. Erbe, 509 Luzerne Ave., West Pittston, Pa.

The complaint points out that the iron in the human system is non-magnetic and that electro-magnetism has no effect upon bacteria, which are the cause of many ailments and diseases, or upon their growth, reproduction or virulence. Use of the belt, the complaint charges, has not produced and cannot produce any demonstrable physical or physiological change or effect in the body in the prevention, cure or relief of any ailment, disease or pathological condition.

No. 3073. A complaint has been issued charging Emile Carpentier, trading as Dr. Emile Carpentier, 68 Chestnut St., Hillsdale, N. J., with unfair competition in the interstate sale of a medicinal compound.

Assertions made by Carpentier in printed matter circulated among prospective customers, are alleged to have served, directly or through implication, as representations with respect to the efficacy and therapeutic value of the compound; that it would cure tuberculosis of the lungs, larynx, bones, intestines and the brain, also chronic bronchitis, chronic gastritis, and ulcerated duodenum, stomach and intestines.

No. 3074. Kolynos Co., New Haven, Conn., has been served with a complaint charging unfair competition in the sale of Kolynos tooth paste.

In the respondent company's advertising matter are alleged to have appeared representations to the effect that its tooth paste erases or removes stain and tartar; that it will whiten teeth several shades in a few days; and that it cleans teeth down to the white enamel without injury.

Other representations are alleged to have been made to the effect that Kolynos almost instantly kills millions of germs which cause most ailments of teeth and gums; that it keeps the teeth and mouth thoroughly clean and healthy on account of its germicidal and antiseptic properties, and that it will remove or conquer bacterial mouth.

No. 3075. Misleading representations in the sale of medicinal products are alleged in a complaint issued against nine individuals, trading as Herbal Medicine Company and Natex Company, 219 West Saratoga St., Baltimore.

The respondents named in the complaint are George Earl McKewen, George McKewen, Mrs. George McKewen, Samuel Oler, Mrs. Samuel Oler, Albert W. Oler, Leroy Burdette, Mrs. Leroy Burdette, James Howard, Jr., and Publicity Engravers. These respondents are copartners trading under the two company names in the sale of "Herb Doctor Compound" and "Natex." These preparations are alleged to have been advertised, either directly or through implication, in a manner representing that they form competent and effective cures, remedies or treatments for stomach troubles, rheumatism, neuritis, liver troubles, and other ailments, when, according to the complaint, these assertions were directly or through implication, in a manner representing that they form competent and effective cures, remedies or treatments for stomach troubles, rheumatism, neuritis, liver troubles, and other ailments, when, according to the complaint, these assertions were misleading and untrue.

No. 3076. Violation of the brokerage section of the Robinson-Patman Anti-Price Discrimination Act is alleged in a complaint issued against 11 chains of retail stores, dealing principally in food products, and their purchasing organization, Procor Grocery Service Co., Inc., 205 East 42nd St., New York City.

The chain groups named as respondents, with their principal business, are as follows:

- Kroger Grocery and Baking Co., 35 East 7th St., Cincinnati;
- American Stores Co., 424 North 19th St., Philadelphia;
- First National Stores, Inc., 5 Middlesex Ave., Somerville, Mass.;
- National Trading Co., 1000 Crosby St., Chicago;
- supermarket Stores, Inc., 5th and Jackson Sts., Oakland, Calif.;
- David Pender Grocery Co., Norfolk, Va.;
- Southern Grocery Stores, Inc., Atlanta, Ga.;
- Eisner Grocery Co., 202 South Market St., Champaign, Ill.;
- Steiden Stores, Inc., 414 Baxter Ave., Louisville, Ky.;
- Danahy-Faxon Stores, Inc., 229 Bailey Ave. and Clinton St., Buffalo, and Fisher Grocery Co., 229

1990
The Commission has issued the following cease and desist orders and stipulations:

No. 01533. B & P Company, Cleveland, selling "B & P Wrinkle Eradicators and Frowners," stipulates that it will stop representing that persons using these products may become free of wrinkles, crow's feet, and other facial blemishes. The respondent company admits that although its products are alleged to have been furnished to and forced upon its dealers by The Texas Company on the condition and with the understanding that they should not deal in products competing with these manufacturers' makes of accessories for which The Texas Company had contracted. In certain instances the respondent company allegedly threatened cancellation of service station contracts to compel operators to deal exclusively in products of the manufacturer.

Stipulations and Orders

The Commission has issued the following cease and desist orders and stipulations:

No. 01535. B & P Company, Cleveland, selling "B & P Wrinkle Eradicators and Frowners," stipulates that it will stop representing that persons using these products may become free of wrinkles, crow's feet, and other facial blemishes. The respondent company admits that although its products may tend to retard the formation of wrinkles and frowns, they will not remove either wrinkles or frowns after they are formed.

No. 01534. F. Ad. Richter & Co., Inc., Berry and South 5th Sts., Brooklyn, in the sale of Anchor Pain Expeller, agrees to discontinue advertising that the product is a competent remedy in treating rheumatism, neuritis or sciatica; that it drives out pain and agony and is the prescription of a famous doctor.

The respondent company admits that it is a deodorant and kills bacteria, unless these claims are qualified by assertions that the product will not destroy all bacteria, including their spores. Omness also agreed that he will discontinue advertising that his chemical solution called "Chlorite" is antiseptic, and will cease representing that it is the greatest water softener and ten times quicker than soap. The company admitted the cleaning powder may be used safely in washing or cleaning washable fabrics, but cannot be recommended for all fabrics, especially silks and woolens.

No. 01541. Nu-Dell Manufacturing Company, 501 West Huron St., Chicago, distributor of "Nu-Life Nail Conditioner," agrees to stop representing directly or otherwise that its preparation will lubricate and replenish the natural oils of the nail or correct hangnails.

In his stipulation, the respondent agrees to cease advertising that Chlorite will disinfect bread boxes, drain pipes, garbage cans, sick room equipment, and other articles, unless directions are given for first thoroughly cleansing the surface to be disinfected and then stirring or rubbing the solution over the entire surface. The respondent also agrees to stop representing that he is able to diagnose or to judge what treatments a patient may require from reading a symptom chart filled out by the patient.

No. 01542. William Omness, trading as Western Michigan Chemical Co., 1385 Lakeview Ave., Muskegon, Mich., stipulates that he will discontinue advertising that his chemical solution called "Chlorite" is antiseptic, and will cease representing that it is deodorant and kills bacteria, unless claims are qualified by assertions that the product will not destroy all odors and will not kill all bacteria, including their spores. Omness also agreed to stop representing that Chlorite will disinfect bread boxes, drain pipes, garbage cans, sick room equipment, and other articles, unless directions are given for first thoroughly cleansing the surface to be disinfected and then stirring or rubbing the solution over the entire surface.

No. 01543. Samuel Bernstein Hair Company, 59 Temple Place, Boston, in the sale of "Avol Beauty Preparations," agrees to desist from the representation that its preparation "Kwikset," will nourish the scalp; that "Fome" will recondition the hair and impart lustre or gloss to it; that "Fome" before waving, dyeing or bleaching the hair will assure the best results. The respondent company also stipulates that it will cease designating any of its products as "Cuticle Oil," "Cuticle Remover," "Muscle Oil," "Tissue Cream" or "Hair Conditioner."
Generally available to students of various schools of mental science, or that it contains the ultimate secret of every religion, or of every system of metaphysics, or is the key that opens the way to either health or wealth.

No. 01545. R. M. Kallejian, trading as Prapion Laboratories, Los Angeles, in the sale of Prapion Remedy, agrees to stop advertising it as a competent treatment or effective remedy for all stomach disorders, or for nervous indigestion, hyperacidity, billiousness, dizziness and a dozen other ailments. In his stipulation, the respondent admits that although his preparation may be of value as a sedative, astringent, and lasative, it is not regarded by current medical opinion as a competent treatment or as an effective remedy in the various pathological conditions of the stomach.

No. 2745. An order to cease and desist has been issued against Kalo Inoeulant Co., 1007 Main St., Quincy, Ill., prohibiting unfair competition in the sale of legume seed inoculants, such as "Humogerm," consisting of nitrogen-fixing bacteria in a humus base. Through wholesalers, retailers and jobbers of seed these inoculants are sold to growers of leguminous crops, who mix them with legume seed to promote the growth of crops and enrich the soil.

Among specific representations barred, under the order, is the assertion that the containers in which the respondent company's products are sold are packed with 15,000,000,000 legume germs, or any other definitely specified quantity or number and type of such germs, unless and until such data have been scientifically ascertained by a controlled bacteriological count made by a competent bacteriologist using scientifically approved methods.

The order bans representation that a definitely specified number and type of nitrogen-fixing bacteria are in the containers at any time other than the time of packing, by use of language indicating that the container is "guaranteed packed with" such definite number and type of bacteria.

No. 2938. Pike-Hansen, Inc., 113 North Franklin St., Chicago, has been ordered to cease and desist from unfair methods of competition in the sale of men's clothing.

According to the findings, salesmen travel throughout the country and solicit orders for clothing to be made at the respondent corporation's place of business. Findings show that inoculants called "Humogerm," consisting of nitrogen-fixing bacteria in a humus base. Through wholesalers, retailers and jobbers of seed these inoculants are sold to growers of leguminous crops, who mix them with legume seed to promote the growth of crops and enrich the soil.

Among specific representations barred, under the order, is the assertion that the containers in which the respondent company's products are sold are packed with 15,000,000,000 legume germs, or any other definitely specified quantity or number and type of such germs, unless and until such data have been scientifically ascertained by a controlled bacteriological count made by a competent bacteriologist using scientifically approved methods.

FEDERAL COMMUNICATIONS COMMISSION ACTION

Hearing Calendar

The following broadcast hearings are scheduled at the Commission for the week beginning Monday, March 22:

Tuesday, March 23

HEARING BEFORE AN EXAMINER
(Broadcast)

KDON—Monterey Peninsula Broadcasting Co., Del Monte, Calif.—C. P., 1400 kc., 250 watts, 1 KW LS, unlimited. Present assignment: 1210 kc., 100 watts, unlimited time.

NEW—Salinas Newspapers, Inc., Salinas, Calif.—C. P., 1390 kc., 250 watts, day and night.

NEW—The Bend Bulletin, Bend, Ore.—C. P., 1310 kc., 100 watts, 250 watts LS, unlimited.

Wednesday, March 24

HEARING BEFORE AN EXAMINER
(Broadcast)

NEW—Juan Pizza, San Juan, Puerto Rico.—C. P., 1500 kc., 100 watts, 250 watts LS, unlimited time.

WSPA—Virgil V. Evans, d/b as The Voice of South Carolina, Spartanburg, S. C.—C. P., 880 kc., 5 KW, day and night. Present assignment: 920 kc., 1 KW, day and night.

Friday, March 26

HEARING BEFORE AN EXAMINER
(Broadcast)

NEW—Geraldine Alberghane, Pawtucket, R. I.—C. P., 720 kc., 1 KW, day time.

NEW—Bay State Broadcasting Corp., Providence, R. I.—C. P., 720 kc., 1 KW LS, limited time.

WHBB—W. J. Reynolds, Jr., J. C. Hughes, and J. S. Allen, d/b as Selma Broadcasting Company, Selma, Ala.—Modification of license, 1500 kc., 100 watts, unlimited time. Present assignment: 1300 kc., 100 watts, day and night.

WHBB—W. J. Reynolds, Jr., J. C. Hughes, and J. S. Allen, d/b as Selma Broadcasting Company, Selma, Ala.—Voluntary assignment of license, 1500 kc., 100 watts, day and night.

APPLICATIONS GRANTED

KPO—Wescoast Broadcasting Co., Wenatchee, Wash.—Granted C. P. approving transmitter site at E. End Miller St., and installation of vertical radiator.

KPLT—North Texas Broadcasting Co., Paris, Tex.—Granted C. P. to make changes in equipment and increase day power from 100 to 250 watts.

KQY—Sac River Valley Broadcasting Co., Phoenix, Ariz.—Granted license to cover C. P., modified, frequency 1390 kc., 500 watts night, 1 KW day, unlimited.

KTSM—Tri-State Broadcasting Co., Inc., El Paso, Tex.—Granted license to cover C. P., 1310 kc., 100 watts night, 250 watts day, S-WDAH, and authority to carry WDAH schedule.

WGAL—WGAL, Inc., Lancaster, Pa.—Granted license to cover C. P., 1500 kc., 100 watts night, 250 watts day, unlimited.

KUSD—University of South Dakota, Vermillion, S. Dak.—Granted license to cover C. P., 890 kc., 500 watts, 5-KFKNF and WILL.

WEEI—Columbia Broadcasting System, Inc., Boston, Mass.—Granted license to cover C. P., 590 kc., 1 KW night, 5 KW day, unlimited, using directional antenna system for day and night-time operation.

WISN—Heard Radio, Inc., Milwaukee, Wis.—Granted modification of C. P. to install new equipment.

KTKC—Tulare-Kings Counties Associates, Chas. A. Whitmore, Pres., Visalia, Calif.—Granted modification of C. P. approving transmitter site and changes in equipment.

KOIL—Central States Broadcasting Co., Omaha, Nebr.—Granted modification of C. P. for changes in authorized equipment.

KGLO—Mason City Globe Gazette Co., Mason City, Iowa.—Granted authority to determine operating power by direct measurement of antenna.

NEW—University of Alaska, College, Alaska.—Granted C. P. and license for special experimental station for the purpose of making ionosphere measurements in the polar regions; frequencies each even 100 kilocycles from 1500 to 16000 kc.,
provided licensee shall listen on each frequency to determine whether or not the transmission will cause interference to any service operating on that frequency or on an adjacent channel; 200 watts peak, .5 watt average; unlimited time.

KFTI—Radio Broadcasting Corp., Twin Falls, Idaho.—Granted extension of special experimental authorization to operate 1 KW night for the period 4-1-37 to 10-1-37.

KTN—Southern Oregon Publishing Co., Roseburg, Ore.—Granted voluntary assignment of license to News-Review Co., 1500 kw., 100 watts night, 250 watts day, unlimited.

WNBR—Memphis Broadcasting Co., Memphis, Tenn.—Granted renewal of license of high frequency experimental broadcast station for the period 4-1-37 to 4-1-38; frequency 26400 kc., 500 watts.

W6XKG—Ben S. McGlashan, Los Angeles, Calif.—Granted renewal of high frequency experimental broadcast station license for the period 4-1-37 to 4-1-38; frequency 25930 kc., 1500 watts.

W8XWJ—The Evening News Association, Detroit, Mich.—Granted 90-day extension of present high frequency broadcast station license; frequencies 31600, 35600, 38600 and 41000 kc., 100 watts.

SET FOR HEARING

NEW—Press-Union Publishing Co., Atlantic City, N. J.—C. P. amended to request 1200 kc., 100 watts night, 250 watts day, unlimited, exact transmitter site and type of antenna to be determined with Commission's approval.

NEW—George W. Taylor Co., Inc., Williamson, W. Va.—C. P. amended to request 1370 kc., 100 watts, daytime only.

NEW—R. W. Page Corporation, Phenix City, Ala.—C. P. for new station amended to request 1240 kc., 250 watts, unlimited. exact transmitter site and type of antenna to be determined with Commission's approval.

NEW—Watertown Broadcasting Corp., Watertown, N. Y.—Amended C. P. requesting new station at Watertown, N. Y., to operate on 1420 kc., 100 watts night, 250 watts day, unlimited time, site and antenna to be approved. (To be heard with previously applied applications.

W3XAU—WCAU Broadcasting Co., Philadelphia, Pa.—Application for modification of license to add frequency 1529 kc. to present assignment 5930 kc., 6000 kw., 10 kw. unlimited.

WRAX—WRAX Broadcasting Co., Philadelphia, Pa.—Application for modification of license to increase power to 1 KW employing directional antenna day and night.

WPEN—Wm. Penn Broadcasting Co., Philadelphia, Pa.—Application for modification of license to increase power to 1 KW employing directional antenna system day and night.

NEW—WRC, Inc., Cleveland, Ohio.—Application for C. P. for new station amended to require 880 Kw. 1 KW unlimited using directional antenna for nighttime operation.

WTBO—Associated Broadcast Corp., Cumberland, Md.—Authority to transfer control of corporation from Roger W. Clipp and Frank V. Becker, to: Delaware Channel Corp.—250 shares common stock. (Station operates on 800 kc., 250 watts day, unlimited SS at Dallas, Texas.)

SPECIAL AUTHORIZATIONS

KNX—California Broadcasting System, Inc., Los Angeles, Calif.—Granted special temporary authority to rebroadcast the Easter Sunday service from the USS Pennsylvania over radio station KNX on 48500 kc. on March 27 and 28, 1937.

WXG—General Television Corp., Boston, Mass.—Granted special temporary authority to operate portable test transmitter on present licensed frequencies of Station WXG for a period not to exceed 10 days between the hours of 1 and 6 a. m., in order to make field intensity survey tests.

KWLC—Luther College, Decorah, Iowa.—Granted special temporary authority to remain silent March 25, 27, 28 and 29, 1937, and to operate a minimum of 1 hour on Friday, March 26, 1937, in order to observe the Easter holidays at Luther College.

KVI—KVI Melody Broadcasting Co., Inc, Tacoma, Wash.—Granted special temporary authority to operate formerly licensed transmitter at near Des Moines, Wash., as described in license dated 8/15/36, as an auxiliary for period not to exceed 30 days pending application for C. P., without approved modulation monitor.

WRVA—Larus & Bro. Company., Inc, Richmond, Va.—Granted extension of special temporary authority to operate a 50 watt portable transmitter on 1140 kc., in the area approximately 16 miles southeast of Richmond, Va., along and near the James River, from 7 a. m. to 1 hour before local sunset, March sunset, 6:15 p. m., April sunset, 6:45 p. m.), for the period March 18 to April 2, 1937, in order to make site surveys.

WFIL—WFIL Broadcasting Co., Philadelphia, Pa.—Granted extension of special temporary authority to operate on 560 kc., with power of 1 KW at night, during month of April, 1937, pending filing of and action on license application to cover C. P. for this authority. Also granted special temporary authority to operate a 50 watt test transmitter on 560 kc., between the hours of 1 and 6 a. m., EST, for a period not to exceed 30 days, in order to make a site survey in Philadelphia and surrounding territory. However, such tests not permitted during monitoring schedule.

WNAD—University of Oklahoma, Norman, Okla.—Granted special temporary authority to operate from 5-10 p. m., CST, April 1, 5, 6, 13, 14, 15, 19, 20, 21, 22, 26, 27; also 2 to 4 p. m., and 7:45 to 10:30 p. m., CST, April 28; 2 to 4 p.m. and 9:15 to 10:30 p. m., CST, April 29; and 2 to 5 p.m., CST, April 30, 1937 (provided KGFF remains silent), in order to broadcast special educational programs.

APPLICATIONS RETIRED TO CLOSED FILES

KEX—Oregonian Publishing Co., Portland, Ore.—Application for special temporary authority to operate simultaneously with KOB from 6:15 to 7 p. m., PST, March 12, 1937.

WGCM—WGCM, Inc., Mississippi City, Miss.—C. P. granted to change frequency power and hours of operation, was retired to the closed files, because the Commission on January 5, effective January 26, 1937, granted station WJBO at Baton Rouge, La., the facilities of WGCM's C. P.

Inasmuch as no application for further extension of time, or for a license has been filed, the following C. P.'s were retired to the closed files:

KFPI—Symons Broadcasting Co., Spokane, Wash.—Granted 5/1/36; date of expiration 1/1/37.

KREC—Radio Sales Corp., Seattle, Wash.—Granted 6/12/36; date of expiration 2/12/37.

APPLICATIONS DISMISSED

The following applications, heretofore set for hearing, were dismissed at request of applicants:

NEW—Loyal K. King, d/b a Radio & Television Research Co., Los Angeles, Calif.—C. P. 1570 kc., 1 KW, unlimited.

KDB—Santa Barbara Broadcasters, Ltd., Santa Barbara, Calif.—C. P. 1220 kc., 500 watts unlimited.

NEW—James R. Doss, Jr., Mobile, Ala.—C. P. 1500 kc., 100 watts; daytime only.

KGNF—Great Plains Broadcasting Co., North Platte, Neb.—Modification of license. 1430 kc., 1 KW, S. H.

NEW—Springfield Newspapers, Inc., Springfield, Ohio.—C. P. 1120 kc., 250 watts; daytime.

EXAMINERS' REPORTS SUBMITTED FOR THE PERIOD MARCH 6 TO 15, 1937

NEW—Ex. Rep. 1-360: Central States Broadcasting Co., Council Bluffs, Iowa.—Application for C. P. for new station; 1500 kc., 100 watts, unlimited time. Examiner Dalberg recommended grant of application to construct a satellite station at Lawrence, Mass., to be operated synchronously with WLLH on 1370 kc., with variable power from 10 to 100 watts. Examiner Hill recommended a grant conditionally.

WLMU—Ex. Rep. 1-365: Lincoln Memorial University, Middlesboro, Ky.—Application for C. P. to establish a new station to operate on 1210 kc., 100 watts night, 250 watts LS, unlimited time. Examiner Seward recommended grant.

NEW—Exp. Rep. 1-367: Harold M. Finlay & Eloise Finlay, La Grande, Ore.—Application for C. P. for new station to operate on 920 kc., 250 watts, daytime. Examiner Seward recommended a grant. ORAL ARGUMENT GRANTED

ACTION ON EXAMINER’S REPORT

MISCELLANEOUS

WLB—University of Minnesota, Minneapolis, Minn.; WTCN—Minnesota Broadcasting Corp., Minneapolis, Minn.; WCAI—St. Olaf College, Northfield, Minn.—Denied joint petition asking hearing before Broadcast Division en banc of application of WTCN for modification of license so as to operate full time on 1250 kc. and the applications of WCAI and WLB to share time on 760 kc., 5 KW daytime. These applications are scheduled for hearing before an examiner but no date has been fixed.

Power City Broadcasting Corp., Niagara Falls, N. Y.—Denied petition asking Commission to reconsider its action in denying application for C. P. to erect new broadcast station at Niagara Falls, N. Y. to operate on 630 kc., 250 watts, daytime, and to grant the same.

WBBZ—Adelaicd Lillian Carrell, Ponca City, Okla.—Granted extension for 30 days of Rule 132, pending action on application to install new equipment and vertical radiator, also to increase day power to 250 watts.

WHBB—Selma Broadcasting Co., Selma, Ala.—Denied petition asking order to take depositions in re application for modification of license to increase hours of operation from daytime to unlimited.

WJAR—The Outlet Co., Providence, R. I.—Granted petition to intervene at hearing of application of Geraldine Alberghane for C. P. for new station at Providence, R. I., to operate on the frequency 720 kc., with 1 KW daytime. Her application has been set for hearing on March 26, 1937.

Washtenaw Broadcasters, Inc., Ann Arbor, Mich.—Granted petition to intervene at hearing of application of Ann Arbor Broadcasting Co., Inc., for C. P. to erect new broadcast station at Ann Arbor, Mich., to operate on frequency of 1350 kc., 1 KW, unlimited time.

WFIL—WFIL Broadcasting Co., Philadelphia, Pa.—Granted petition to intervene in proceedings relative to application of the Philadelphia Radio Broadcasting Co., Philadelphia, Pa., for C. P. to erect a new special broadcast station at Philadelphia to be operated on frequency of 1570 kc., 1 KW, unlimited time.

S. O. Ward and P. C. Ward, d/b as Louisville Broadcasting Co., Louisville, Ky.—Hearing scheduled for May 14, 1937, on application for C. P. to erect and operate new broadcast station at Louisville, Ky., on 1210 kc., 100 watts, unlimited time, to be consolidated with hearing of application of Louisville Times Company for same facilities. Hearing on Louisville Times’ application, set for hearing April 5, 1937, continued to May 18, 1937.

KLX—Tribune Building Co., Oakland, Calif.—Denied motion asking Commission to dismiss application of Chauncey W. Hammond for C. P. to establish a new broadcast station at Oakland, Calif., to operate on 1260 kc., 1 KW, unlimited time.

EFFECTIVE DATE EXTENDED

In Report No. 126, dated March 9, 1937, the item appearing under this heading should have read:

RATIFICATIONS

The Commission ratified the following acts authorized on the dates shown:

W8XFO—Crosley Radio Corp., Cincinnati, Ohio.—Granted authority to operate as licensed on March 17, for relaybroadcast professional tennis matches.

WIEF—Miami Broadcasting Co., Inc., Miami, Fla.—Granted authority to operate as licensed for the period 3-18 to 3-21, inclusive, rebroadcast 24th Annual Biscayne Bay Regatta in Miami.

WBAM-WBAN—Bamberger Broadcasting Service, Inc., Newark, N. J.—Granted authority to operate as licensed 3-15 and 3-16 in New York City for relaybroadcast program “Midnight in Manhattan.”

KTSM—Tri-State Broadcasting Co., Inc., El Paso, Tex.—Granted extension program test period 10 days from March 10, 1937.

W8XIR-WGAR—WGBA Broadcasting Co., Cleveland, Ohio.—Granted extension of authority 30 days to operate as licensed March 18 to April 16, inclusive, for relaybroadcast interviews with school children.

NEW—James D. Scannell, Lewiston, Me.—Application for C. P., 1420 kc., 100 watts, unlimited time, was dismissed at request of applicant and order forwarded to all interested parties.

WQDM—Regon & Bostwick, St. Albans, Vt.—Denied request to operate on 1370 kc., 100 watts, at location authorized by C. P.

The Broadcast Division granted motion of Charles C. Carlson (WJBS), New Orleans, La., for an order to take depositions in support of his application for renewal of license, Docket No. 4330. The Broadcast Division granted the petition by Cornell University (WESG), Elmsra, N. Y., to intervene in the proceedings upon the application of Elmsra Star-Gazette, Inc., for C. P. for new station, Docket 4307.

The Broadcast Division granted the petition by WIOD Broadcast Co., Inc., WEDG Broadcasting Corp., Inc., WDKA, Nashville, Tenn., to intervene in the proceedings upon the application of F. W. Gleason, d/b as North Georgia Broadcasting Co., Rossville, Ga., for C. P. for new station, Docket No. 3979.

The Broadcast Division granted the petitions of Minneapolis Broadcasting Corp. (WTCN), Dr. Geo. W. Young (WDGY), and Edward Hoffman (WMIN) to intervene in the proceedings upon the application of Elmira Star-Gazette, Inc., for C. P. for new station, Docket 4307.

The Broadcast Division granted the petition of the West Texas Broadcasting Co., Wichita Falls, Tex., for leave to amend its application of C. P. for new station in Wichita Falls, Docket 4218, with regard to the site selected, and directed that the amendment to this application with regard to the site be accepted without interrupting the progress of the hearing now scheduled for March 29, 1937. The Broadcast Division also directed that all parties be notified immediately.

The Broadcast Division granted the petition of Hearst Radio, Inc., to intervene in the proceedings upon the application of the Adirondack Broadcasting Co., Inc. (WABY), Albany, N. Y., for modification of C. P., Docket 4368.

The Broadcast Division granted the petition of the City of Dallas (WRK), Dallas, Tex., Intervenor, for postponement of oral
The Broadcast Division waived Rule 104.6 (b), on its own motion, and accepted the answer filed on behalf of Interstate Broadcasting Co., Inc., to the appearance of Ann Arbor Broadcasting Co., Inc., applicant for new station at Ann Arbor, Mich., Docket No. 4178, and directed that said answer be made a part of the record.

APPLICATIONS RECEIVED

First Zone

NEW—Fall River Herald News Publishing Co., Fall River, Mass.—Construction permit for a new station to be operated on 1210 kc., 1 KW, unlimited time. To use directional antenna. Amended to make changes in equipment, change requested frequency from 1240 kc. to 1210 kc., power from 1 KW to 100 watts night, 250 watts daytime, and install vertical antenna instead of directional antenna.

NEW—The Ohio Broadcasting Co., East Liverpool, Ohio.—Construction permit for a new station to be operated on 1350 kc., 250 watts, daytime. Amended to change requested frequency from 1350 kc. to 1270 kc., and make changes in proposed antenna system.

NEW—Ashland Broadcasting Co., Inc., Ashland, Ky.—Construction permit to install a new transmitter; make changes in antenna; change frequency from 1310 kc. to 1120 kc., power from 100 watts night, 250 watts daytime, to 250 watts night, 1 KW day; move transmitter from 20th and Greenup Streets, Ashland, Ky., to site to be determined. Ashland, Ky.

Second Zone

WCAU—WCAU Broadcasting Co., Philadelphia, Pa.—Authority 1170 to determine operating power by direct measurement of antenna.

NEW—The Ohio Broadcasting Co., East Liverpool, Ohio.—Construction permit for a new station to be operated on 1350 kc., 250 watts, daytime. Amended to change requested frequency from 1350 kc. to 1270 kc., and make changes in proposed antenna system.

WCMI—Ashland Broadcasting Co., Inc., Ashland, Ky.—Construction permit to install a new transmitter; make changes in antenna; change frequency from 1310 kc. to 1120 kc., power from 100 watts night, 250 watts daytime, to 250 watts night, 1 KW day; move transmitter from 20th and Greenup Streets, Ashland, Ky., to site to be determined. Ashland, Ky.

W8KX—The Toledo Broadcasting Co., Mobile.—Voluntary assignment of construction permit from the Toledo Broadcast Co. to The Fort Industry Co.

WAAJ—The Toledo Broadcasting Co., Mobile.—Voluntary assignment of construction permit from The Toledo Broadcasting Co. to The Fort Industry Co.

NEW—Allen T. Simmons, Tallmadge, Ohio.—Construction permit for a new high frequency broadcast station to be operated on 31600, 35600, 38600, 41000 kc., 100 watts.

NEW—The Crosley Radio Corp., Cincinnati, Ohio.—Construction permit for a new high frequency broadcast station to be operated on 31600, 35600, 38600, 41000 kc., 200 watts. Amended to delete frequencies 31600, 35600, 38600, 41000 kc., and add frequency 26350 kc.

NEW—The Crosley Radio Corp., Cincinnati, Ohio.—Construction permit for a new high frequency broadcast station to be operated on 31600, 35600, 38600, 41000 kc., 200 watts. Amended to delete frequencies 31600, 35600, 38600, 41000 kc., and add the frequency 26350 kc.

Third Zone

KTSA—KTSA Broadcasting Co., San Antonio, Tex.—Voluntary assignment of license from KTSA Broadcasting Co. to Hearst Radio, Inc.

WKY—WKY Radiophone Co., Oklahoma City, Okla.—License to 900 use RCA 1001-A, 1 KW transmitter as an auxiliary for emergency purposes only.

NEW—Southern Broadcasting Corp., New Orleans, La.—Construction permit for a new station to be operated on 1200 kc., 100 watts, share WJBW, requests facilities of WBNO. Amended to make changes in requested equipment, change hours of operation from share WJBW to unlimited, power from 100 watts to 100 watts night, 250 watts daytime and studio site from 226 Carondelet Street to 527 Canal Street, New Orleans, La. Requests facilities of WJBJ.

WRBL—WRBL Radio Station, Inc., Columbus, Ga.—Modification of construction permit (B3-P-1396) for new transmitter and antenna, increase in power and move of transmitter and studio, requesting approval of transmitter site at Talbotton Road, Columbus, Ga., and studio at 12th & Broadway, Columbus, Ga., and approval of vertical antenna. Amended to change requested transmitter site from Tallahatchie Road to 15th Avenue and 30th Street, Columbus, Ga.

WRBL—WRBL Radio Station, Inc., Columbus, Ga.—Modification of construction permit (B3-P-1396) for a new transmitter and antenna, increase power and move studio and transmitter locally, further requesting changes in transmitting equipment; change frequency from 1200 kc. to 950 kc., power from 100 watts night, 250 watts day, to 250 watts night, 500 watts day, and make changes in antenna. Amended to change requested frequency from 950 kc. to 1320 kc.

KTAT—Tarrant Broadcasting Co., Fort Worth, Tex.—Modification of construction permit (B3-P-1472) for new transmitter and vertical antenna, further requesting authority to make changes in equipment and extend commencement and completion dates.

KAND—Navarro Broadcasting Assn., J. C. West, President, Corsicana, Texas.—Modification of construction permit (B3-P-703) for a new station, requesting changes in authorized equipment, change authorized transmitter site from Corner Main & Fifth Avenue to 1/2 mile north of city on Highway 75, Corsicana, Texas, and studio from Corner Main & Fifth Avenue to Corner Beaton & Collin Streets, Corsicana, and extend commencement and completion dates.

KFXR—Exchange Avenue Baptist Church of Oklahoma City, Oklahoma City, Okla.—License to cover construction permit (B3-P-1141) as modified for new equipment.

KFRO—Voice of Longview, Longview, Tex.—License to cover construction permit (B3-P-1398) as modified for new equipment.

NEW—Standard Life Insurance Co. of the South, Jackson, Miss.—Construction permit for a new station to be operated on 1420 kc., 100 watts night, 250 watts daytime, unlimited time.

WACO—KTSA Broadcasting Co., Waco, Tex.—Voluntary assignment of license from KTSA Broadcasting Co. to Hearst Radio, Inc.

Fourth Zone

WJJD—WJJD, Inc., Chicago, Ill.—Modification of license to 1130 change time from 6 a. m. CST, until 12 noon at Salt Lake City, Utah, to 6 a. m. Eastern Standard Time (Chicago, daylight saving) until local sunset at Salt Lake City, Utah.

KWTN—Greater Kampska Radio Corp., Watertown, S. Dak.—Authority to install automatic frequency control.

KVG2—Ernest Edward Ruehlen, Great Bend, Kans.—License to 1370 cover construction permit (B4-P-1211) as modified for a new station.
WGL—Westinghouse Radio Stations, Inc., Fort Wayne, Ind.—1370 Construction permit to make changes in transmitting equipment and increase power from 100 watts to 100 watts, 250 watts daytime.

NEW—Minnesota Broadcasting Corp., Minneapolis, Minn.—Construction permit for a new high frequency broadcast station to be operated on 26100 kc., 150 watts, unlimited time.

W9XAI—The Journal Company, Milwaukee, Wis.—Construction permit for replacement of transmitter and increase in power from 7.5 watts to 50 watts.

NEW—Indianapolis Broadcasting, Inc., Indianapolis, Ind.—Construction permit for a new relay broadcast station to be operated on 1622, 2058, 2150, 2790 kc., 40 watts.

NEW—The Journal Company (The Milwaukee Journal), Milwaukee, Wis.—Construction permit for a new relay broadcast station to be operated on 1646, 2090, 2190, 2830 kc., 50 watts.

Fifth Zone

KVI—Puget Sound Broadcasting Co., Tacoma, Wash.—Construction permit to use old W.E. 106-B transmitter as an auxiliary and move transmitter from near Des Moines, Wash., to 950 Pacific Avenue, Tacoma, Wash.

KEHE—Evening Herald Publishing Co., Los Angeles, Calif.—780 Voluntary assignment of license from Evening Herald Publishing Co. to Hearst Radio, Inc.

NEW—Robert E. Clements, Huntington Park, Calif.—Construction permit for a new station to be operated on 1160 kc., 250 watts, daytime.

KRLC—H. E. Studebaker, Lewiston, Idaho.—Modification of construction permit (B5-P-733) for new equipment, increase in power, change of frequency and move of transmitter, requesting new equipment, vertical antenna and approval of transmitter site at Midway between Preston & Warner and 9th & 10th Streets, Lewiston, Idaho.

Hawaiian Zone

NEW—Honolulu Broadcasting Co., Ltd., Honolulu, Hawaii.—1010 Construction permit for a new station to be operated on 1010 kc., 250 watts, unlimited time.
WASHINGTON RADIO HIGHLIGHTS

Representative Wigglesworth appearing this week before the Rules Committee of the House urging favorable action on Connery radio investigation resolution charges radio monopoly. Calls attention to station sales at prices he charges are far in excess of replacement cost of station transferred. Says thorough investigation of radio and broadcasting should go far to help many of present evils. FCC Commissioner Stewart makes elaborate talk on radio at Duke University, again airing his ideas on newspaper-owned broadcasting stations and discussing whole broadcast situation in its many ramifications. Both Houses of Congress pass radio operators bill.

WIGGLESWORTH SUPPORTS CONNERY RESOLUTION

Representative Wigglesworth of Massachusetts appeared before the Rules Committee of the House on Tuesday in support of the Connery resolution calling for a radio and broadcasting investigation by a committee of the House.

It is understood that the committee wishes to give Representative Connery another chance to appear before the committee before action is taken on the resolution. He is out of town and will not return until next week. Therefore, it is not expected that the Rules Committee will take any action on the resolution until sometime next week at the earliest.

"It is perfectly apparent," Mr. Wigglesworth told the committee on Tuesday, "that certain definite objectives were sought by Congress through the Federal Radio Act of 1927 and the Federal Communications Act of 1934. Among these objectives were the elimination of private ownership in the channels of interstate and foreign radio transmission, the elimination of undesirable trafficking in licenses issued by the Federal government, and the elimination of monopoly or the evils of monopoly. No one can read the provisions of the Acts referred to without coming to this conclusion.

"Nevertheless, it appears today that we are confronted by a virtual monopoly in the hands of the three big broadcasting companies of the nation, National, Columbia and Mutual. It also appears in the absence of further explanation that we have failed to eliminate private ownership or its equivalent in radio channels as well as undesirable trafficking in radio licenses, with all the possibilities with which we have been familiar in the past in other fields for the capitalization of earnings and profits to the detriment of the American people.

"The evidence indicates that all of the 40 so-called clear channels are owned, operated or affiliated with the big broadcasting companies. 96% of the broadcasting stations with full time or substantial power are said to be owned or in some way tied in with the three big chains. Of 2,500,000 watts of full time night power allocated to the industry, less than 60,000 watts or 3% is available to stations which are not affiliated with the big 3. No independent full time station is licensed to operate at night with a power of more than 1,000 watts in contrast to some 200 stations affiliated with the big 3, many of which have 50,000 watts, one of which has 500,000 watts. In several states such as North Carolina, Rhode Island and Utah it is said that there is no independent station operated at night. In other states, I am informed, including Arkansas, Connecticut, Florida, Georgia, Iowa, Kentucky, Massachusetts, Minnesota, Missouri, Nebraska, New Jersey, New York, Ohio, Virginia and Washington, less than 1% of the power authorized for use at night is available to independent stations. This and other evidence indicates in some measure at least, the extent of monopoly by the big 3.

"The evidence also indicates instance after instance of the transfer of licensed broadcasting stations for a consideration far in excess of the replacement cost of the station transferred. It includes other instances where..."
the transfer has been in the form of a lease for periods in excess of the original license, limited by law to a maximum of three years.

"One of the most striking cases of this character is afforded in the transfer of Station KNX, Los Angeles, to the Columbia Broadcasting Station. The replacement value of the station amounted to about $217,000. After the deduction of accounts receivable, cash and good will, the value of the physical property amounted, I am told, to about $63,000. The consideration paid for the assignment was $1,250,000 or about twenty times the value of the physical property. Among the leases referred to is a lease of a station with replacement value of less than $500,000 for an annual rental of $219,000 for a period of seven years; the lease for a period of ten years with an option for renewal for another ten years and still another instance of a lease for a period of 99 years. The lessor in certain instances appears to obtain not only a fixed rental but a substantial percentage of the profits realized by the lessee.

"These transactions in the absence of further explanation appear to indicate that we have failed to date to bring about either the elimination of private ownership or its equivalent in radio channels or the undesirable trafficking in radio licenses. Unless this is accomplished the opportunity remains for the capitalization of government gratuities and for all the scandals of the past in other fields.

"A thoroughgoing impartial investigation into the entire situation should serve to establish the extent and effects of monopoly in the broadcasting field. It should serve to determine the extent to which the elimination of private ownership and trafficking in licenses has been accomplished. It should serve to throw light on the matter of proper program control. It should serve to determine the earnings of the industry, whether or not rates charged are reasonable and what contribution, if any, the industry may be fairly asked to make to the Federal Treasury. The industry today is dependent for its very existence on Federal licenses. It pays nothing for these licenses, yet it commands a gross income which has been estimated for 1937 as amounting to between $125,000,000 and $135,000,000.

"A thoroughgoing investigation seems to me imperative with a view to obtaining the objectives sought by Congress with proper protection for the American people."

FCC AMENDS RULE 101.7

At a meeting of the full membership of the Federal Communications Commission the following amendment to Rule 101.7 of the Commission's rules of practice and procedure, effective immediately, was adopted, with Commissioner Walker dissenting:

"Rule 101.7 is hereby amended by adding after the first sentence thereof a new sentence to read as follows:

"The provisions of this rule shall not apply to any person practicing, appearing or acting as an attorney in behalf of any municipality, or State or the Federal Government in any case, claim, contest, or other proceeding before the Commission or before any division or agency thereof.'"

The rule in its entirety, as amended, now reads:

"101.7. No person serving as an attorney at law in the Federal Communications Commission on or after July 1, 1935, shall be permitted to practice, appear, or act as an attorney in any case, claim, contest, or other proceeding before the Commission or before any Division or agency thereof until 2 years shall have elapsed after the separation of the said person from the said service. The provisions of this rule shall not apply to any person practicing, appearing or acting as an attorney in behalf of any municipality, or State or the Federal Government in any case, claim, contest or other proceeding before the Commission or before any Division or agency thereof. The term 'attorney at law' includes attorney-examiner. Nothing herein shall be construed to prevent any former officer or employee of the Federal Communications Commission from appearing as a witness in any hearing, investigation, or other proceeding before it."

RADIO OPERATORS BILL PASSES

The Senate has passed H. R. 3898, which has already passed the House and has gone to the President for signature before it becomes law. The bill amends section 318 of the Communications Act of 1934, dealing with operator's licenses. As it passed both Houses of Congress and becomes law it is as follows:

That section 318 of the Communications Act of 1934 is hereby amended to read as follows:

"Sec. 318. The actual operation of all transmitting apparatus in any radio station for which a station license is required by this Act shall be carried on only by a person holding an operator's license issued hereunder, and no person shall operate any such apparatus in such station except under and in accordance with an operator's license issued to him by the Commission: Provided, however, That the Commission if it shall find that the public interest, convenience, or necessity will be served thereby may waive or modify the foregoing provisions of this section for the operation of any station except (1) stations for which licensed operators are required by international agreement, (2) stations for which licensed operators are required for safety purposes, (3) stations engaged in broadcasting, and (4) stations operated as common carriers on frequencies below thirty thousand kilocycles: Provided further, That the Commission shall have power to make special regulations governing the granting of licenses for the use of automatic radio devices and for the operation of such devices."

1998
SECURITIES ACT REGISTRATIONS

The following companies have filed registration statements with the Securities & Exchange Commission under the Securities Act:

- The Trane Company, LaCrosse, Wis. (2-2912, Form A-2)
- Windsor Land Company, Jersey City, N. J. (2-2913, Form A-1)
- Shawnee Pottery Company, Zanesville, Ohio. (2-2914, Form A-1)
- Broadway Department Stores, Inc., Los Angeles, Cal. (2-2915, Form A-2)
- Hummel-Ross Fibre Corporation, Hopewell, Va. (2-2916, Form A-2)
- The Hartford Electric Light Company, Hartford, Conn. (2-2917, Form A-2)
- San Jose Water Works, San Jose, Cal. (2-2919, Form A-2)
- Girard Investment Company, Philadelphia, Pa. (2-2920, Form A-2)
- Old Diamond Gold Mines Limited, Madoc, Ontario, Canada (2-2921, Form A-1)
- Queensboro Gold Mines Limited, Toronto, Canada (2-2922, Form A-1)
- Le Rol Company, West Allis, Wis. (2-2923, Form A-2)
- Blair Distilling Company, Chicago, Ky. (2-2924, Form A-1)
- Truax-Traer Coal Company, Chicago, Ill. (2-2925, Form A-2)
- The Dobecskun Company, Cleveland, Ohio (2-2927, Form A-2)
- Commercial Discount Company, Los Angeles, Cal. (2-2928, Form A-2)
- General Household Utilities Company, Chicago, Ill. (2-2929, Form A-1)
- Gamble-Skogmo, Inc., Minneapolis, Minn. (2-2930, Form A-2)
- Gulfboard Oil Corporation, Houston, Texas (2-2931, Form A-1)
- Western Auto Supply Company, Kansas City, Mo. (2-2932, Form A-2)
- Aetna Ball Bearing Manufacturing Company, Chicago, Ill. (2-2933, Form A-2)
- Marine Midland Corporation, Jersey City, N. J. (2-2934, Form E-1)
- Boston Fund, Inc., Boston, Mass. (2-2935, Form A-1)
- Sonoco Products Company, Hartsville, S. C. (2-2936, Form A-2)
- Committee for the Protection of Gold Debentures of Utilities Power & Light Corporation, New York City (2-2937, Form D-1)
- Nobblitt-Sparks Industries, Inc., Columbus, Ind. (2-2938, Form A-2)
- Fedders Manufacturing Company, Inc., Buffalo, N. Y. (2-2940, Form A-2)
- The Hindle & Dauch Paper Company, Sandusky, Ohio (2-2941, Form A-2)
- United Stockyards Corporation, Chicago, Ill. (2-2942, Form A-1)
- G. C. Murphy Company, McKeesport, Pa. (2-2943, Form A-2)

MORE TIME FOR WBAX

Broadcasting Station WBAX, Wilkes-Barre, Pa., applied to the Federal Communications Commission for a change from specified hours on the air to unlimited time. The station operates on 1210 kilocycles, with 100 watts power.

Examiner P. W. Seward in Report No. I-369 recommended that the application be denied without prejudice. When the case came on for hearing no appearance was made by the applicants nor was an appearance entered by any attorney representing the applicants. The Examiner has therefore recommended that the application be denied without prejudice.

NORTH CAROLINA STATION RECOMMENDED

H. W. Wilson and Ben Farmer applied to the Federal Communications Commission for a construction permit for the erection of a new station at Wilson, N. C., to use 1310 kilocycles, 100 watts and daytime operation.

Examiner P. W. Seward in Report No. I-368 recommended that the application be granted. He found that a need does not exist in the area proposed to be served for additional daytime broadcast service and that granting of the application would be in the public interest.

STATION DENIAL RECOMMENDED

The Falls City Broadcasting Corporation, filed an application with the Federal Communications Commission asking for a construction permit for the erection of a new station at Falls City, Nebr., to use 1310 kilocycles, 100 watts power and unlimited time on the air.

Examiner Ralph L. Walker in Report No. I-370 recommended that the application be denied. He states that “operation of the proposed station at night will cause objectionable interference, seriously curtailing the service area of an existing station. No objectionable interference will result from operation daytime only.” He states on the other hand that “at least two existing stations provide satisfactory signals for primary day service in Falls City, and the area as a whole has good service from a number of additional stations.”

DENIAL OF KRLH CHANGES RECOMMENDED

Broadcasting station KRLH, Midland, Texas, filed an application with the Federal Communications Commission asking that its frequency be changed from 1420 to 1210 kilocycles. The station operates on 100 watts and daytime only.

Examiner P. W. Seward in Report No. I-376 recommended that “in view of the fact that applicant seems to have abandoned his application for change of frequency and has failed to prosecute same on the date set by the Commission, it is recommended that the same be denied for want of prosecution.”
ALABAMA STATION DENIAL RECOMMENDED

H. O. Davis filed an application with the Federal Communications Commission asking for a construction permit for the erection of a new broadcast station at Mobile, Ala., to use 610 kilocycles, 250 watts night and 500 watts L. S. unlimited time on the air.

Examiner P. W. Seward in Report No. I-374 recommends that the application be denied, because the applicant failed to appear and prosecute his application when the case was called for hearing.

DENIAL RECOMMENDED FOR STATION

Harold Thomas applied to the Federal Communications Commission for a construction permit for the erection of a new station at Pittsfield, Mass., to use 1310 kilocycles, 100 watts night and 250 watts LS unlimited time operation.

Examiner P. W. Seward in Report No. I-375 recommends that the application be denied. He found that "the evidence adduced at the hearing does not establish a need for additional radio service and particularly is the evidence insufficient to show that the station would have adequate commercial support to insure its proper and efficient operation."

RECOMMENDS DENIAL OF PERMISSION TO TRANSMIT PROGRAMS

J. L. Statler doing business as the Baker Hospital at Muscatine, Iowa, applied to the Federal Communications Commission for permission to transmit programs to stations in Canada and Mexico.

Examiner Ralph L. Walker in Report No. I-373 recommends that the application be denied. He found that the testimony concerning the financial condition of the applicant and plans "for technical operation is confined to his own broad general statements, without detailed facts sufficient to form the basis for a definite conclusion with reference thereto." The Examiner found that the granting of the application would not serve the public interest.

RECOMMENDS Denying Applications

J. R. Roberts applied to the Federal Communications Commission for an extension of time to construct a station at Gastonia, N. C., which was to operate with 1420 kilocycles, 100 watts and unlimited time. Also Virgil V. Evans asked for a construction permit at the same place to use the same frequency, power and time.

Examiner John P. Bramhall in Report No. I-378 recommended that both of the applications be denied. He found that granting either of the applications would not be in the public interest.

RECOMMENDATIONS FOR PITTSFIELD AND NEW HAVEN

Broadcasting station WELI, New Haven, Conn., now operating on 900 kilocycles, 500 watts power and day-time applied to the Federal Communications Commission to modify its license to use 930 kilocycles, 250 watts night and 500 watts LS and unlimited time on the air. Also Lawrence K. Miller applied to the Commission to construct a new station at Pittsfield, Mass., to use 930 kilocycles, 250 watts and daytime operation.

Examiner P. W. Seward in Report No. I-372 recommended that the changes requested by WELI be granted but that the application of Miller be denied. Granting of the first application would not cause interference the Examiner found and but in the case of the Miller application he states that the evidence did not show the need for additional radio service in the area proposed to be served.

STEWART DISCUSSES HIS VIEWS ON BROADCASTING

An elaborate presentation of his views on broadcasting was made on Tuesday night by Commissioner Irvin Stewart, vice chairman of the Federal Communications Commission in an address at Duke University.

In connection with his talk Commissioner Stewart said that "the public control of radio is of a fairly recent date. If I have left you with the impression that there are more problems than answers at the present time, I have but reflected the truth. The problems are there. To refuse to admit their experience will not solve them. Upon their solution will depend the eventual reception of radio by the public; and upon that depends the future not only of the public control of radio, but of radio itself."

In connection with his remarks dealing with broadcasting Mr. Stewart said in part:

"The person who has the largest stake in American broadcasting is the listener. While the investment of the individual listener in his receiving set is small compared to that of the broadcast station owner or that of the large advertiser, in the aggregate the total investment in receiving sets is far greater than that in transmitting stations or in advertising time. In theory, broadcasting is for the benefit of the listener. It should be; for its heart is an uncompensated use of public property, and the listener is the man who foots the bill for broadcasting when he pays the cost of governmental regulation and when he buys the advertised product.

One corollary of the American system in which broadcasting is supported by advertising revenue is generally overlooked. Somewhat over-simplified for emphasis, it is that a broadcasting system supported by advertising is one in which broadcast stations are located where the advertisers want them, not where they will best serve the country as a whole. This corollary is not entirely free in its operation for Congress, in setting up the regulatory authority, has said that in granting facilities, the Commission must so distribute them "as to provide a fair, efficient, and equitable distribution of radio service" to each state. This general statutory requirement has operated as a limitation upon the complete freedom of broadcast station owners to locate their stations where the prospect of advertising revenue was the greatest."
Another characteristic of the American system of broadcasting is that the initiative in the establishment of stations for the most part comes from persons who have a private interest, usually financial, in the ownership of the stations. Their primary purpose is not to locate the proposed station so as to serve that portion of the population of the United States that needs radio service. Generally speaking, the primary consideration of the applicant is that of financial return, not of service rendered. In practice this means intense competition for stations in areas with large population, and little demand for stations where population is comparatively sparse. The result is a distribution of broadcast stations in the United States which no engineer would attempt to defend as an efficient way to deliver broadcasting service to the country as a whole.

**SERVICE AREAS**

From the standpoint of the transmitted signal, broadcast stations have a primary service area and a secondary service area. In the former the program is transmitted by the ground wave directly and the service is good from the standpoint of the strength and consistency of the received signal. In the latter, the program is transmitted by the sky wave which is reflected back to earth. In strength and consistency, the signal received in the secondary service area varies with the seasons from good, through mediocre, and consistency of the received signal. In the latter, the program service is owned or are affiliated with one of these three organizations in a position to determine what programs shall be carried on the most powerful broadcast stations all over the country at the times when most people are free to listen, it is most desirable hours for broadcasting, the important evening hours. The national advertiser dealing with the chain has first call upon those hours. The local program, whether sustaining or network program, is controlled and managed by the chain. If the local station usually loses control over some of its local or regional chains there are three chains providing coast-to-coast service at the present time. All of the high power clear channel stations upon which the rural areas depend for broadcast service are owned or are affiliated with one of these three organizations. The result of this is that a considerable portion of the population of the United States is largely dependent upon programs from chain stations. The duplication of programs on chain stations may make it more certain that persons in those parts of the United States dependent upon unreliable secondary service will be able, on any given evening, to receive a particular program from one or more stations. The duplication also means, unfortunately, that the choice of programs is very severely limited. It must be disconcerting to him to receive only two or three stations satisfactorily and find the same program on all of them, especially if it is a program that appeals to one's particular taste. The duplication of programs on clear channels raises the fundamental question as to how successfully clear channels are meeting their claimed purpose when they are used to pound the same program in on the listener from several stations rather than to give him a selection from which to choose the program to which he wishes to listen.

The three coast-to-coast networks own a comparatively small number of stations, but they provide programs for a total of 249 out of the 696 broadcast stations in the United States, including practically all of the more powerful stations. In furnishing a program to one channel, the local station usually loses control over some of its rural or regional channels. They have made it possible for national audiences to listen to programs of national importance. But, with the exception of one resolution providing for an investigation of charges of the existence of a monopoly in radio broadcasting.

While Congress in the Radio Act of 1927 and again in the Communications Act of 1934 specifically gave to the Commission power to issue special regulations applicable to radio stations engaged in chain broadcasting, there are no such regulations at the present time, nor have any ever been in effect.

**CLEAR CHANNELS**

Clear channels were designed to provide rural coverage. On such channels, there was not only one station operating with comparably high power, having its secondary service area interference-free in order that large areas might be served.

At this point, the economics of the American system of broadcasting come into play. With clear channel stations designed to provide rural coverage, most of them are located in the larger cities. The New York metropolitan area has four clear channel stations, Chicago four, Philadelphia two and Los Angeles two. Due to the breaking down of certain clear channels, there are now a total of 47 stations operating on the 40 clear channels. Twenty of them are located in metropolitan areas having a population of a million or more; fourteen in metropolitan areas having a population ranging from quarter-million to a million. Forty-three of the 47 clear channel stations are located in metropolitan areas having a population of 100,000 or over. Thus our urban farmers are bountifully cared for. Perhaps these figures were in the mind of the president of the company which owns all the stock in one of the broadcasting networks, when he recently said: "The rural listener is served on a parity with the city dweller." Or perhaps he had in mind that while over three-quarters of the area of the United States has no primary service, there are 30 broadcast stations in New York City and 19 each in Chicago and Los Angeles.

**CHAINS**

This leads me to another phenomenon in the American broadcasting picture, the networks or chains. In addition to about 40 local or regional chains there are three chains providing coast-to-coast service at the present time. One matter in which there has been a great deal of interest recently is that of transfers of broadcast station licenses. It will be recalled that, in granting station licenses, the Commission is limited by the applications filed with it. Similarly, in connection with applications for consent to the transfer of station licenses, the Commission passes only upon the would-be transferee who has been selected as his successor by the present licensee. Assuming the qualifications of the transferee, there remains an interesting question with respect to the price to be paid for the assignment of the license.

You will recall that broadcast station licenses are issued for six month periods. The license has certain physical assets in the form of a transmitter, studios and associated equipment. When he sells his station, subject to the approval of the Commission—what is he selling? Can he transfer an expectancy of the renewal of the license? There has been no determination that he can. Has he any interest beyond that of the value of the physical equipment, and, if so, what is its nature?

According to one school of thought, the consideration paid for the transfer is a matter between the two individuals in which the Commission has no interest. According to another school of thought, the law has been so carefully drawn by Congress to ex-
clude any possibility of any rights in the licensee other than those granted on the face of the license itself, that the Commission should be on guard against anything looking toward the building up of a vested right in a station license.

**RADIO LICENSE**

My own views coincide with those of the latter group. A radio station license is personal to the licensee, granted after a finding that his holding the license will be in the public interest. There is nothing in that finding which says that he may sell the license to the highest bidder who may be technically qualified. Station licenses are not pieces of merchandise; they are evidences of a privilege to serve the public. Surely this must have been one reason why Congress carefully restricted the license period to not more than three years and the Commission has further restricted it to six months.

There have been suggestions that, if the Commission does not explore its own powers to check sales of broadcast stations at inflated prices, Congress might recapture for the public the profit on the transfer of public property. Bear in mind that broadcasters pay nothing for the privileges they receive from the government, and that the taxpayers pay the cost of the administration which makes it possible for the broadcasters to operate at a profit. Sooner or later broadcasters may be asked what would be unfair about an act of Congress taking in the form of taxes the excess of the sale price over the value of the physical equipment transferred.

The transfer of licenses at prices far in excess of the value of the physical equipment involved will sooner or later offer a tempting field for the middleman. While licensees have agitated for longer license periods, at the same time they have acted as though they were to be the beneficiaries of an indefinite grant of public facilities. Thus, in one instance, a price of $1,250,000 was paid for a broadcast station where the original cost of the fixed assets was approximately $177,000. This would seem a high price for the privilege of being on the air for the remainder of a six-month period.

**LEASE EQUIPMENT**

Again holders of a six-month license have leased their physical equipment for periods of from one to fifteen years at annual rentals approximating the value of the equipment. Yet physical equipment without the privilege of transmitting would have only a junk value.

Further, contracts of affiliation between station licensees and the broadcasting chains sometimes run for two years or even for five years, although the station licenses run only for six months. A fairly recent device has been the sale of stock in certain licensee corporations to the public in a manner to yield the promoters far more than the entire cost of the station while leaving them in control of the station with a majority of the stock.

Some of the things I have mentioned have been with the approval of our Commission and our predecessor, the Federal Radio Commission. I have some fear of the outcome, some fear that the claim may be made that the Government, through the Commission, has in a measure estopped itself. If the short-sightedness and crudity of station licensees should eventually lead to Government ownership (and I am not an advocate of Government ownership), the Government will undoubtedly be met with wholly fictitious values which it will be claimed it has approved. Likewise, if Congress should in a measure equalize opportunity for the use of broadcasting by making broadcast stations common carriers, a highly inflated rate base is in sight.

A related matter which merits serious attention is the rapid increase in the number of situations where two or more broadcast stations are coming under the same control. This development is occurring through the transfer of existing stations even more than through the construction of new stations. At times it takes the form of a single control of all, or of the more important, stations in a particular community. Again it is in the form of single control of stations in different localities. When the Commission is awarding an invaluable public property of limited proportions, carrying great power with it, and for which there is great demand, how much of it should be allotted to one man for his own benefit? The Commission must find the answer to that question.

**NEWSPAPER CONTROL OF BROADCAST STATIONS**

Another matter which is in the public eye at the moment is that of newspaper control of broadcast stations. As of February 16, 1937, of the less than 700 broadcast stations, exactly 200 were controlled by or affiliated with newspapers. One factor of great interest in these figures is the length of time in which the newspaper interest has been present in the stations.

Of the 200 newspaper controlled or affiliated stations 99 have a newspaper interest which began sometime in the 13-year period between January 1, 1921, and January 1, 1934, and 101 have a newspaper interest which began sometime in the slightly more than three years between January 1, 1934, and February 16, 1937. On the latter date there were pending 111 applications the granting of which would result in other stations coming under newspaper control. So it is that after a most prodigal grant of newspaper applications, there remain pending what is probably the largest number of newspaper applications in the history of radio.

Is there any element of public interest in this rapid extension of newspaper control over broadcasting? I believe that, at least in certain situations, there is. The community has long been dependent upon the newspaper for its news and its advertising. Its thinking has been influenced by the columns of the newspapers, by the method of presentation as well as by the editor’s choice of what he will print and what he will not.

**RELIEVES CITIZENS**

To some extent the broadcast stations have relieved the citizen of his dependence on the newspaper. The fact that a newspaper does not print all or part of a particular speech loses some of its significance if a man can hear the speech in its entirety on his receiving set. News services are now available to the broadcast station owner as they are to the newspaper. When the newspaper and the station are separately controlled, one can be checked against the other. When they are under the same ownership, how long will this be true? To my mind there is an important public interest involved in that question.

The subject is one on which there is a wide divergence of views. Probably not many people gave much thought to the situation when newspapers had an interest in comparatively few stations. The rapid increase in newspaper stations in the last three years has given rise to fear in some quarters that the public interest might be adversely affected. If the acceleration of the last three years continues for long into the future, the entire broadcasting picture may change.

There is a bill pending in the House of Representatives to divorce newspapers and broadcast stations. Another of similar intent has been promised for the Senate. If either bill is pressed, the ensuing hearings should be as interesting as they promise to be bitter. The cry of monopoly of news and information is being heard to some extent. I think we shall hear more of it. And soon the question will be raised as to whether America is so short of men who can be trusted to control the avenues through which information is passed on to the public, that we must entrust the two principal avenues to the same group of men.

Men will differ in the weight they attach to the matter of newspaper control of broadcast stations as well as in the treatment they will propose. I can not agree with those who contend that the matter has no element of public interest which may be considered by a Commission granting applications under a statutory standard of “public interest, convenience or necessity.”

**ADVERTISING**

One of the complaints most frequently raised against broadcasting is the character of advertising permitted and the length of time occupied by advertising blurs. The Commission’s powers in this field are not well defined and they have never been thoroughly explored. On the one hand, there is the flat statutory bar against censorship of broadcast programs. On the other, there is the equally flat requirement that broadcast stations may be licensed
only when public interest, convenience or necessity will be served thereby. May and should the Commission consider the type of advertising and the character of products advertised in passing upon public interest?

The Commission has declined to renew station licenses in three cases where the stations were used largely for the promotion of questionable ventures in which the station owners were interested. It has called a number of stations for hearing in connection with the advertising of certain products, chiefly patent medicines. It has indicated its displeasure in certain extreme cases where the station owner and the advertiser were so needful of public responsibility that they joined hands in pushing products the use of which might lead to death or permanent disability—to the profit of the broadcaster and of the advertiser.

How effectively the Commission can regulate advertising has never been shown and need never be shown if broadcast station licensees will accept the public responsibilities that go with a broadcast station license. Good taste can not be legislated, and I suspect that it can not even be administratively required. Good taste, a sense of public responsibility and elementary decency on the part of broadcast licensees should make it unnecessary for the Commission ever to explore the possibilities of its power effectively to regulate advertising.

**PROSPERITY FOR BROADCASTERS**

At the present time the rising tide of prosperity for the broadcasters may simplify the problem of objectionable advertising. With the increased demand for the inelastic number of hours available on any station, the station owner is in a position to use the increased demand to require better programs and better taste in both programs and advertising announcements on the part of the sponsors whose contracts he accepts. He is equally in a position to increase his rates and to sell the time to the advertiser who will pay the higher rates rather than the one whose programs and whose products are in better taste. This is simply another of the numerous instances where broadcasters are privileged to choose between an enlightened far-sighted selflessness and a short-sighted “bird-in-the-hand” variety. The extent to which the Commission’s powers will need to be explored rests upon the decisions of the broadcasters.

**PROGRAMS**

Broadcast programs vary widely in their quality. Variation of content is desirable, of course, as the tastes of individuals vary. The variation in quality, however, is enormous. There are numerous high quality programs of all types. But there are also numerous, perhaps more numerous, programs of all types of mediocre or extremely low caliber. Program content offers an interesting sphere of broadcasting. The extent to which the Commission’s powers will need to be explored rests upon the decisions of the broadcasters.

As elsewhere in dealing with broadcasting we must hold public interest paramount. “Public interest” is more than a phrase to which an applicant for broadcast facilities must give lip service. It is a constant reminder that the station licensee has the temporary use free of all charge of an invaluable facility which belongs to all the people. The American people control the frequencies thereby. May and should the Commission impose high technical standards. The condition is that the operation of their stations will be in the public interest. That should mean good programs at the very least.

**CENSORSHIP**

As it may be claimed that a requirement that broadcast stations furnish good programs amounts to censorship, I shall discuss that subject next. Indeed no discussion of the public regulation of radio would be complete without some reference to censorship.

Last year the country went through a bitter political campaign. All shades of opinion were expressed in varying degree—in many cases to the point of complete boredom of the listeners—and there was no complaint that the Commission was trying to censor anybody. In three widely publicized incidents which reached the Commission the cry of censorship was raised, but not against the Commission.

In one instance two California stations refused to carry an address of the President of the United States without payment. When some individuals in California complained against this refusal, the Commission stated that the stations acted within their legal rights in declining to carry the President’s address.

In the second case the owner of a broadcast station who had carried—for pay—the speeches of Candidates Roosevelt and Landon, refused to carry—for pay—the speeches of Candidate Browder, although the law is very specific that if a station’s facilities are made available to any candidate for a public office, they must be made available to all candidates for that office. When the Commission asked the station owner to explain his conduct in the matter, he decided to let Candidate Browder speak.

The third incident was the debate between a Senator and a phonograph record, which some stations refused to carry. Although there was a half-hearted attempt in some quarters to show that the Commission was in some way censoring the Senator, I think that most people, certainly including the Senator himself, realize that the affair was one between the Senator and the broadcast chain which could not make up its mind whether to carry his speech.

I know of no instance of censorship or attempted censorship of broadcasting by the Federal Communications Commission. To complete the picture I want to add, however, that the Commission has the right to look into a licensee’s conduct of his station as an aid in determining from a study of his past conduct whether public interest would be served by the renewal of his license. In nine years of Commission regulation under that power, five renewals of interest would be served by the renewal of his license. In nine years of Commission regulation under that power, five renewals of license have been refused primarily because of past programs. Where appeals were taken from those decisions, the Commission was sustained by the courts, which agreed with the Commission that the past conduct of the licensees indicated that their future holding of station licenses would not be in the public interest. The courts shared the views of the Commission that this was quite different from censorship.

There is another place at which censorship can be sought, however: at the station itself. Congress has not seen fit to make broadcast stations common carriers. In consequence, the station owner can carry such programs as he pleases, and refuse such as he desires. Where the station owner refuses to carry programs on public interest. I think that most people, certainly including the Senator himself, realize that the affair was one between the Senator and the broadcast chain which could not make up its mind whether to carry his speech.

The courts shared the views of the Commission that this was quite different from censorship.

Facts regarding censorship are hard to obtain because there is no requirement of records showing refusals of time and the reasons therefor. A bill now before Congress would require each station to keep such records. To date it has not been acted upon.
The refusal of a station owner to permit the use of his facilities for the expression of views inimical to his own may have serious results. In a large part of the country only a very few stations can be heard consistently. When a minority group is refused expression of its views over a single broadcast station, it means that those views can not be heard in a section of the country where that station is the only one received.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

No. 3078. University Forum, Inc., and Delta Theta Chi Sorority, of 1811 Prairie Ave., Chicago, and 354 O'Farrell St., San Francisco, respectively, are charged with unfair competition in the sale of books, in a complaint.

Selling and distributing a series of books entitled “University Forum” and “Effective Speech,” the respondent corporations are alleged to have represented to prospective customers in different cities that alleged chapters of Delta Theta Chi were being established in such cities as a sorority for professional or business women. It was represented, according to the complaint, that while the prime purpose of the sorority was social, it had certain cultural aspects. Prospective members are alleged to have been informed that further the cultural aspect of the sorority an alleged local chapter would be given two sets each of the “University Forum” and “Effective Speech” series, one set to remain at the local chapter rooms under supervision of a college or university professor.

The complaint charges that the representation that Delta Theta Chi Sorority is a professional or business women’s sorority is not true, and that the sorority is only an outlet for the publications offered for sale. Delta Theta Chi Sorority is not a sorority in any sense of the word, according to the complaint, and representations to the effect that members would receive supervised instruction under a university professor are not true, it is alleged.

No. 3079. Phoebe Phelps Caramel Co., 74 Fulton St., Boston, is charged in a complaint with unfair competition in the sale of candies to wholesalers, jobbers and retailers.

Assortments of candy were so packed and assembled by the respondent company as to involve use of a lottery scheme when resold to consumers, according to the complaint.

No. 3080. A complaint has been issued charging Louis Kipling, trading as Majestic Laboratories, 129-04 111th Ave., Richmond Hill, Long Island, N. Y., with unfair competition in the interstate sale of “Kipzeme Ointment.”

This product, according to the complaint, was advertised in a manner having a tendency to mislead buyers into believing that Kipzeme heals all leg sores, and is an adequate remedy in the treatment of old, aggravated leg sores, skin eruptions, eczema, and kindred ailments.

The fact is, according to the complaint, that the respondent’s representations are false and misleading and the preparation will not accomplish in all cases the results claimed for it.

No. 3081 and 3083. Sale of merchandise by means of plans involving lottery schemes, in violation of Section 5 of the Federal Trade Commission Act, is alleged in two complaints.

Albert J. Tarrson, 230 East Ohio St., Chicago, is respondent in one complaint. Trading as National Advertisers Co., A. J. Sales & Manufacturing Co., The Tarrson Co., and Pla-Pla Radio & Television Co., Tarrson is engaged in the sale of cameras, pen and pencil sets, radios, safety razors, clocks, and other merchandise.

In the second complaint, the respondents are Mitchell Bazelon and Charles Harris, 945 Diversey Parkway, Chicago, who trade as Park-Lane Candy Co., and Charris Specialty Co., and sell candy, cocktail shakers, watches, pipes, cigarette cases and lighters, and other novelty products.

The respondents in both cases allegedly employ push-card or punch-board lottery methods in selling their merchandise. They are said to distribute the merchandise, together with push cards or punch boards, to retailers direct, or through wholesalers, thus placing in the hands of others the means of conducting lotteries in the sale of such merchandise to ultimate purchasers.

No. 3082. A complaint has been issued charging The Solvotone Co., 4303 Cottage Grove Ave., Chicago, and Jessie Rogers, individually and as president of the corporation, with unfair competition in the interstate sale of “Solvotone,” a medicinal preparation.

This product, according to the complaint, was advertised in a manner tending to mislead buyers into believing that it is a cure for serious and dangerous conditions of the body, such as gallstones, appendicitis, and ulcer of the stomach, and that its use prevents the necessity of surgical operations to relieve such conditions.

No. 3084. A complaint alleging false and misleading representations in connection with the sale of medicinal preparations, designated as “Dr. Warner’s Remedies,” has been issued against Warner’s Renowned Remedies Co., 13 East 25th St., Minneapolis.

The complaint charges that use of the preparations in the treatment of certain ailments does not have the beneficial therapeutic value claimed, and that the products are not, as implied in advertising matter, manufactured under the supervision or formula of a member of the medical profession, nor are they generally prescribed by Dr. H. H. Warner.

The preparation charged as to involve use of a lottery scheme when resold to consumers, according to the complaint.

No. 3085. Gordon E. and Maynard E. Jenks, trading as Jenks Brothers, 144 Bank St., Elkhart, Ind., stipulate that they will desist from representing in advertising matter that the Rectal Ointment they sell is a competent remedy in the treatment of hemorrhoids or piles, and that Lax-A-Ton Herb Tea is a competent remedy in the treatment of constipation or any more effective than ordinary laxatives in relieving temporary constipation.

The complaint charges that use of the preparations in the treatment of serious and dangerous conditions of the body, such as gallstones, appendicitis, and ulcer of the stomach, and that its use prevents the necessity of surgical operations to relieve such conditions.

No. 3054. Omega Chemical Co., 53 34th St., Brooklyn, signed a stipulation to cease advertising that Omega Oil, a preparation for external application, relieves deep-seated or stubborn pain, unless such representations are so qualified as to exclude those pains which cannot be benefited by the product’s therapeutic action, and are so worded as not to imply that the product will have therapeutic effect upon the underlying causes of pain in every instance.

Other representations to be discontinued are that the medical profession is agreed that the formula for Omega Oil makes it out-

No. 01548. Konjola, Inc., 18 North Water St., East Port Chester, Conn., agreed that in the sale of Konjola it will cease representing, among other things, that the product is a competent remedy in the treatment of hemorrhoids or piles, and that Lax-A-Ton Herb Tea is a competent remedy in the treatment of constipation or any more effective than ordinary laxatives in relieving temporary constipation.

The complaint charges that use of the preparations in the treatment of serious and dangerous conditions of the body, such as gallstones, appendicitis, and ulcer of the stomach, and that its use prevents the necessity of surgical operations to relieve such conditions.

No. 01549. Omega Chemical Co., 53 34th St., Brooklyn, signed a stipulation to cease advertising that Omega Oil, a preparation for external application, relieves deep-seated or stubborn pain, unless such representations are so qualified as to exclude those pains which cannot be benefited by the product’s therapeutic action, and are so worded as not to imply that the product will have therapeutic effect upon the underlying causes of pain in every instance.

Other representations to be discontinued are that the medical profession is agreed that the formula for Omega Oil makes it out-

No. 01548. Konjola, Inc., 18 North Water St., East Port Chester, Conn., agreed that in the sale of Konjola it will cease representing, among other things, that the product is a competent remedy in the treatment of hemorrhoids or piles, and that Lax-A-Ton Herb Tea is a competent remedy in the treatment of constipation or any more effective than ordinary laxatives in relieving temporary constipation.

The complaint charges that use of the preparations in the treatment of serious and dangerous conditions of the body, such as gallstones, appendicitis, and ulcer of the stomach, and that its use prevents the necessity of surgical operations to relieve such conditions.
No. 01550. H. P. Clearwater, Ph.D., Hallowell, Me., engaged in the sale of Clearwater's Treatment, agrees to discontinue advertising that by use of the treatment one may get rid of rheumatism, neuritis, arthritis, sciatica or lumbago, in the sense of pre-existing attacks due to the same or other cause. He also will cease representing that rheumatism is caused only by the absorption of poisonous toxins, chemically developed in the intestines by putrefaction of certain undigestible food elements, and that uric acid does not cause rheumatism.

No. 01551-01552. R. E. Stulls, 1623 West Grand Avenue, Chicago, selling a course in detective training, and Jim Lund, River Falls, Wis., vendor of a book entitled "One Thousand Ways to Get Rich," have entered into stipulations to discontinue unfair advertising practices in the sale of these commodities.

Stulls, trading as The United Detective System, agrees to stop advertising that experience is unnecessary in order to be a detective and that the training obtained through his course will of itself actually prepare a person for a good paying and permanent position; enable one to operate a detective business in his own home, no matter where he lives, and that there are thousands of detective positions open each year.

Lund, under his stipulation, will cease advertising that his book, "One Thousand Ways to Get Rich," affords a most unique opportunity, enabling one to make money at home, and that it offers an opportunity worth its weight in gold, gives "twenty ways to make a million," and contains 1,000 formulas, plans and secrets for making one's fortune.

No. 01553. H. R. Walde, Lake Wales, Fla., selling Walde's Wonder Salve, agrees to stop advertising it as an effective treatment for all kinds of infections, boils, burns, wounds, sores or sprains and as a protection against infection of any kind, particularly wounds from rusty nails.

No. 01554. American Maize Products Co., 100 East 42nd St., New York, agrees to stop advertising its syrups by means of assertions that dextrose is a "mysterious" element, that it replaces burned-up body tissues, revives tired muscles and nourishes starved nerves. The company also will stop asserting that any of its syrups is "extra rich" or "extra plentiful" in dextrose, and that any of its products has been "recommended," as distinguished from "accepted," by the American Medical Association. The respondent company admits that the composition and functions of dextrose in the body's metabolism have been known for several years, and are not mysterious, and that the company's syrups do not contain dextrose in amounts sufficient to warrant it in representing them as "extra rich" or "extra plentiful" therein.

No. 01555. Trading as B. C. Remedy Co., Germaine Bernard and C. T. Counsell, of Durham, N. C., stipulate that they will cease representing that B. C. Remedy is ranking first in the Nation, unless it be true, and will stop advertising that, by use of this remedy, one may "banish" headaches or muscular aches or cause them to "vanish." They also agree to cease asserting that B. C. relieves pain within three or four minutes or within any other definite time.

No. 01556. Trading as Master Falar Co., Elmer J. Jacobs, 301 West 9th St., Kansas City, Mo., has entered into a stipulation to discontinue false and misleading advertising in connection with the sale of clothing.

Jacobs agrees to cease representing that sweater coats are given free, for advertising purposes, to persons making written requests for them; that any person writing for a free sweater coat will receive one without being required to purchase anything, and that a free sweater is given to only one person in each locality.

No. 01557. Associated Pharmacists of Baltimore, Inc., 6 East Mulberry St., Baltimore, agrees to stop representing that its product, Q-623, is a competent treatment or an effective remedy for rheumatism, neuritis, sciatica or lumbago, unless the assertion is limited to the relief of pain resulting from such conditions, and that the product is "a prescription of a famous specialist." In its stipulation the respondent company admitted that while the product may be of some benefit in relieving the pains resulting from the condition for which the individual inducing cannot be depended on to produce results to the extent advertised. The respondent company also admitted that its product is not the prescription of a famous specialist.

No. 01558. Manikin Products, Inc., 200 5th Ave., New York, in the sale of "Manikin Tea," agrees to cease advertising that its use will give a person a "fashionable figure" or a "youthful, athletic figure." The respondent company also agrees to stop representing that Manikin Tea is "pure and harmless" or "safe," and that it is a competent treatment or an effective remedy for obesity.

In its stipulation, the company admits that a preparation of the composition of its product would have laxative and diuretic properties, but in and of itself would have no appreciable effect in reducing weight. The company also admits that any preparation containing senna or bladderwrack is, according to the consensus of medical opinion, if taken in sufficient quantities over a period of time, capable of producing harmful effects.

No. 01559. Dr. A. F. Jacobson and Arthur Carlsten, 29 East Madison St., Chicago, trading as D'Arten Pharmacol Co., 42nd & Oak., Oakland, Calif., agrees to discontinue representing that its washing fluid, sold under the name "Clorox," kills typhoid, diphtheria, scarlet fever and many other infectious germs in less than ten seconds.

The company also will cease advertising that Clorox will remove stains and destain odors, unless such representations are properly qualified. The company admitted that it is not generally practical to use Clorox to kill odors in the air, and that the product will not remove some stains.

No. 1916. Refrigeration Engineering Institute, Inc., 260 West Federal St., Youngstown, Ohio, has entered into a stipulation to discontinue or to franchise in connection with the sale of courses of instruction in electric refrigeration and air conditioning.

The corporation agreed to desist from use of the word "Institute" as part of or in connection with its corporate name; use of the words "Institute" or "Institution" so as to imply that it is an organization of members of the refrigeration engineering industry for the purpose of considering and solving the problems of such industry, and from using or making representations, in any manner contrary to the facts, that members of the industry are cooperating in conducting the school, that they are glad to employ its graduates, or otherwise lend the school their aid.

No. 1936, 1938, 1939, 1941, 1943, 1944, 1950. Six New York retail stores and one in Brooklyn have entered into stipulations to discontinue false and misleading advertising in which they improperly describe the materials or fabrics composing certain merchandise sold in interstate commerce.

The New York companies signing the stipulations are James McCreery & Co., 5th Ave. & 34th St.; Gimbel Brothers, Inc., 33rd St. & Broadway, which also has a store in Philadelphia; Hecht Brothers Co., Inc., 53 West 14th St., which also has stores in Baltimore to conduct Washington; Roaman's, 32 West 39th St.; Lane Bryant, Inc., 908 7th Ave. & Broadway, which also has a store in downtown Men's Shop, Inc., 315 5th Ave. The Brooklyn store signing a stipulation is Frederick Loeser & Co., Inc., Fulton & Bond Sts.

According to the stipulations, the companies misled consumers one or more of such terms as "silk," "linen," "silk," "linen," and "harris Tweed," as descriptive of wearing apparel, neckties, men's robes, coats, and linings for luggage.

Each of the companies agreed to cease and desist from using the word "silk," either alone or with other words, as descriptive of articles of merchandise, or of the fabrics used in making such merchandise, when such is not a fact.

FTC DISMISSES COMPLAINT

No. 2839. The Federal Trade Commission has dismissed its complaint against Louis Seehar and Jack Schrader, 239 Fourth Ave., New York, charging them with unfair competition in the sale of novelties. Trading as Seehar and Schrader, the respondents were alleged to have sold a novelty game called "Hindu Cones" in imitation of the product of a competitor.

FEDERAL COMMUNICATIONS COMMISSION ACTION

There was no meeting of the Broadcast Division of the Commission this week due to hearings before the entire Commission. A meeting will be held later this week.
Hearing Calendar

The following broadcast hearings are scheduled at the Commission for the week beginning Monday, March 29:

Monday, March 29

HEARING BEFORE AN EXAMINER
(Broadcast)
NEW—Robert Raymond McCulla, Oak Park, Ill.—C. P., 1500 kc., 160 watts, daytime.

FURTHER HEARING BEFORE AN EXAMINER
NEW—West Texas Broadcasting Co., Wichita Falls, Texas.—C. P., 1380 kc., 1 KW, unlimited time.
NEW—Wichita Broadcasting Co., Wichita Falls, Texas.—C. P., 620 kc., 250 watts, 1 KW, LS, unlimited time.
NEW—Faith Broadcasting Co., Inc., Wichita Falls, Texas.—C. P., 1380 kc., 1 KW, 5 KW, LS, unlimited time.
KFPL—C. C. Baxter, Dublin, Texas.—Voluntary assignment of C. P., 1380 kc., 250 watts LS, unlimited time.
KFPL—WFTX, Incorporated, Wichita Falls, Texas.—C. P., 1500 kc., 100 watts, 250 watts LS, unlimited time. Present assignment: 1310 kc., 100 watts, 250 watts LS, unlimited time.

Wednesday, March 31

HEARING BEFORE AN EXAMINER
(Broadcast)
NEW—Wm. W. Ottaway, Port Huron, Mich.—C. P., 1370 kc., 250 watts.
NEW—Frazier Reams, Mansfield, Ohio.—C. P., 1370 kc., 100 watts, daytime.

Thursday, April 1

ORAL ARGUMENT BEFORE THE BROADCAST DIVISION

FURTHER HEARING BEFORE AN EXAMINER
(Broadcast)
NEW—Pacific Acceptance Corp., San Diego, Calif.—C. P., 1200 kc., 100 watts, daytime.

Friday, April 2

HEARING BEFORE AN EXAMINER
(Broadcast)
NEW—Charles Porter and Edward T. Eversole, Festus, Mo.—C. P., 1420 kc., 100 watts, daytime.

APPLICATIONS RECEIVED
First Zone
WDEV—Charles B. Adams, Executor estate of Mary M. Whitehill 550 and Administrator of estate of Harry C. Whitehill, Waterbury, Vt.—Construction permit to install new equipment and increase power from 500 watts to 1 KW. Amended to change name from Mary M. Whitehill, Executor of estate of Harry C. Whitehill to Charles B. Adams, Executor estate of Mary M. Whitehill and Administrator of estate of Harry C. Whitehill.

WBRR—Monmouth Broadcasting Co., Red Bank, N. J.—License 1210 to cover construction permit (B1-P-1514) for changes in equipment.
WFBL—Onondaga Radio Broadcasting Corp., Syracuse, N. Y.—1360 Modification of license to change power from 1 KW night, 5 KW day to 5 KW day and night.
W3XL—National Broadcasting Co., Inc., Bound Brook, N. J.—Modification of license to add the frequencies 31100, 31600, 34600, 35600, 37600, 38600, 40600, 41000, 540000, 401000, kc., and above, and add A1 and A2 emission.

Second Zone
NEW—The Ohio Broadcasting Co., Marion, Ohio.—Construction permit for a new station to be operated on 1420 kc., 100 watts, daytime. Amended to change requested frequency from 1420 kc. to 780 kc., power from 100 watts to 250 watts, change of transmitting equipment and make changes in proposed antenna system.
NEW—The Ohio Broadcasting Co., Steubenville, Ohio.—Construction permit for a new station to be operated on 780 kc., 250 watts, daytime. Amended to change requested frequency from 880 kc. to 1200 kc., power from 250 watts to 100 watts, changes of transmitter and antenna.
NEW—The Ohio Broadcasting Co., Salem, Ohio.—Construction permit for a new station to be operated on 1420 kc., 250 watts, daytime. Amended to change of hours of operation from unlimited to daytime.
WRTD—The Times Dispatch Publishing Co., Inc., Richmond, Va.1500—Modification of license requesting that the license of WRTD be severed to form two stations under the call letters WTRA and WRTD, to operate specified hours. WTRA—unlimited Monday, Wednesday and Friday; share, WRTD, Saturday, 500 watts; share, WRTD, Sunday. WTRA—unlimited Wednesday, Thursday and Saturday; share, WRTD, Sunday. WRTD studio at Auditorium Music Hall, Clearwater, Fla. WRAU studio at Recreation Pier, St. Petersburg, Fla.
WBHP—Wilton Harvey Pollard, Huntsville, Ala.—Modification of construction permit (B3-P-840) as modified for a new station, requesting changes in equipment and studio.

Third Zone
KTBS—Tri-State Broadcasting System, Inc., Shreveport, La.—620 Modification of license to change frequency from 1450 kc. to 620 kc., power from 1 KW to 500 watts, 1 KW daytime.
WSL—WSUN—Clearwater Chamber of Commerce, Clearwater, Fla.—Modification of license requesting that the license of WSL-WSUN be severed in order to form two stations under the call letters WSL and WSUN, to operate specified hours. WSUN—unlimited Monday, Wednesday and Friday; WFLA studio at Auditorium Music Hall, Clearwater, Fla. WSUN studio at Recreation Pier, St. Petersburg, Fla.
KTEM—Bell Broadcasting Co., Temple, Texas.—Construction permit to make changes in equipment and change power and hours of operation from 100 watts daytime to 100 watts night, 250 watts day, unlimited time. Amended to change hours of operation from unlimited to daytime.

2006
Fourth Zone

WILL—University of Illinois, Urbana, Ill.—Modification of construction permit (B4-P-1219) for directional antenna and move of transmitter, requesting extension of completion date from 5-22-37 to 7-22-37.

KSOO—Sioux Falls Broadcast Association, Inc., Sioux Falls, S. D.—Construction permit to make changes in equipment and increase power from 2½ KW to 5 KW.

KFOR—Cornbelt Broadcasting Corp., Lincoln, Nebr.—Construction permit to install a new transmitter and directional antenna for night use, change frequency from 1210 kc. to 1450 kc., power from 100 watts night, 250 watts day to 1 KW night, 5 KW day and move transmitter from 4706 S. 48th Street, Lincoln, Nebr., to Stevens Creek Township, Sec. 21, near Lincoln, Nebr.

WHBU—Anderson Broadcasting Corp., Anderson, Ind.—Authority to install automatic frequency control.

KROC—Southern Minnesota Broadcasting Co., Rochester, Minn.—Construction permit to make changes in equipment and increase power from 100 watts to 100 watts night, 250 watts daytime.

NEW—Clark Standiford, L. S. Coburn and A. C. Sidner, Fremont, Nebr.—Construction permit for a new station to be operated on 1420 kc., 100 watts, unlimited time. Amended to add the name of A. C. Sidner to partnership, change frequency from 1420 kc. to 1370 kc., and make changes in proposed antenna system.

WROK—Rockford Broadcasters, Inc., Rockford, Ill.—License to cover construction permit (B4-P-1430) for changes in equipment, new antenna and increase in day power.

NEW—Gazette Printing Co., Janesville, Wis.—Construction permit for a new relay broadcast station to be operated on 31100, 34600, 37600, 40600 kc., 2 watts.

Fifth Zone

KRKD—Radio Broadcasters, Inc., Los Angeles, Calif.—Authority to transfer control of corporation from Frank P. Doherty to J. F. Burke, Sr., and Loyal K. King 10,000 shares of common stock.

NEW—Dan B. Shields, Provo, Utah.—Construction permit for a new station to be operated on 1210 kc., to 100 watts, unlimited time. Amended to change frequency from 1200 kc. to 1210 kc.

KSRO—The Press Democrat Publishing Co., Santa Rosa, Calif.—Modification of construction permit (B5-P-759) for a new station, requesting changes in authorized equipment, approval of transmitter site at Sebastopol Road, Santa Rosa, Calif., approval of vertical antenna and change studio site from 425-427 Mendocino Avenue to Sebastopol Road, Santa Rosa, Calif. Amended to change requested transmitter site from Sebastopol Road to Stony Point Road, Santa Rosa, Calif., and studio from Sebastopol Road to Press Democrat Building, Santa Rosa, Calif.

NEW—Anne Jay Levine, Palm Springs, Calif.—Construction permit for a new station to be operated on 1200 kc., 100 watts night, 250 watts daytime, unlimited time. Amended to change requested frequency from 1200 kc. to 1370 kc, change geographic location of proposed transmitter site and make changes in proposed antenna.

KLS—S. W. Warner and E. N. Warner, d/b as Warner Brothers, Oakland, Calif.—License to cover construction permit (B3-P-1451) for a new antenna and move of transmitter and studio.
WASHINGTON RADIO HIGHLIGHTS

Havana Radio Conference ends with claims of achievement and signals further conference in Havana in November purpose agreeing on use radio frequencies in North and South America ** U. S. Senator Sheppard (Texas) introduced Copyright Bill (S. 2013) which would (1) make it necessary for authors, composers and publishers to identify the use they make of material in the public domain; (2) place the responsibility for the public performance of music on the person originating the performance; (3) leave the question of damages to the discretion of the court.

NAB BOARD TO MEET

The spring meeting of the NAB Board of Directors will be held at the Washington Hotel, Washington, D. C., on April 7. The purpose of the meeting is to appraise current problems.

MRS. McNARY RESIGNS

Members of the NAB who have visited the Washington office will regret to learn of the resignation of Mrs. Bert Siebert McNary as secretary to the Managing Director, effective April 1.

Mrs. McNary, the very efficient secretary to Mr. Baldwin, has been with the association for the past six years, having joined its staff shortly after the association was moved to Washington.

Leonard D. Callahan, who was recently designated as assistant to the Managing Director, will take over a large share of Mrs. McNary’s duties.

COPYRIGHT AMENDMENT INTRODUCED

Senator Sheppard of Texas introduced a bill in the Senate this week (S. 2031) to amend the copyright act approved March 4, 1909, having direct effect on the broadcasters of the country. The bill, which has been referred to the Senate Committee on Patents, is as follows:

That section 6 of the Act entitled “An Act to amend and consolidate the Acts respecting copyright,” approved March 4, 1909, as amended, is hereby amended by striking out the period at the end thereof and inserting in lieu thereof the following: “Provided, That the application for registration, and the printed notices of copyright on the work shall specify under which version or versions of works copyright is claimed.”

Sec. 2. (a) Section 25 of such Act is amended by adding after subsection (b) the following new subsection:

“(c) To pay to the copyright proprietor, in the case of an infringement by radio broadcasting, such damages as to the court shall appear to be just: Provided, That the responsibility and liability for the use of copyrighted material in broadcasting on two or more stations simultaneously shall rest solely with the station originating the performance: And provided further, That the responsibility and liability for the use of copyrighted material in electrical transcriptions and other forms of recording made exclusively for broadcasting purposes shall rest solely with the maker of such electrical transcriptions and other forms of recordings and his agents for distribution thereof to broadcasters.”

(b) Subsections (c), (d), and (e) of section 25 of such Act are hereby amended to read subsections (d), (e), and (f), respectively.

Sec. 3. Section 44 of such Act is hereby amended by striking out the period at the end thereof and inserting in lieu thereof the following: “and such default shall be a defense against any legal proceeding brought by the assignee as a result of use made of the copyrighted material subsequent to the date of assignment.”

HAVANA RADIO CONFERENCE IS CONCLUDED

The technical radio conference which began at Havana on March 15 concluded its work on March 29. It was participated in by representatives from the United States, Canada, Cuba and Mexico. It is expected that a further detailed conference will be held on November 26 at Havana.

While no official statement has been made public by any
American governmental body, Commander T. A. M. Craven, chief engineer of the Federal Communications Commission and chairman of the American delegation to the Havana conference, made the following statement at the close of the conference:

"The accomplishments to date at this preliminary conference have been outstanding in that for the first time in the history of their radio relations, a common understanding has been reached by the countries represented on the technical principles that are basic, adoption of which is deemed essential if coordination is to be accomplished.

"We have also paved the way for study of the facts and conditions that exist today in the chaotic and unsatisfactory situation in short-wave communications in this hemisphere with the view that, at the approaching November conference, all the American nations will be in far better positions to suggest effective means for meeting this situation.

"The specific recommendations of the conference include an increase in the regular broadcast band used for the national broadcasting services from 550-1,500 kilocycles to 540-1,600, thus increasing the available channels from ninety-six to 107.

"Fifty-eight of these would be set aside as clear channels to be used by high-power stations in each nation, to render service over wide areas. The remaining forty-nine channels would be assigned for use by regional and local stations providing, through engineering principles and location of stations, against the present objectionable interference, on which the delegates have reached a common definition for the first time.

"There is also a recommendation for a change in the existing amateur band from 1,750-2,050 kilocycles to 1,715-2,000 and for extension of the existing bands allocated to State or Provincial police.

"A study looking toward elimination of interference by radio therapeutic machines and other apparatus will be made by all the attending countries and an international plan will be drawn up to provide for emergency communications in the event of disruption of normal channels of communication by hurricanes, earthquakes and other disasters.

"Likewise, study will be given to adoption of suitable regulations with respect to frequency bands above 1,600 kilocycles that might permit interchange of international police communications.

"The delegations have refrained from touching on the political phase of international radio problems, but it is undeniable that this is likely to prove the greatest stumbling block at the coming conference.

"It will be highly necessary for each nation to establish standards of control for its own stations. In Cuba, for example, due to lack of adequate regulations, the interference of stations has become so intense, not only with each other but with stations in the United States, that a wave of protest has swept the nation. However, the economic situation of the island's stations and political influences have thus far prevented enactment of efficient measures of control."

NEW TEXAS STATION RECOMMENDED

Radio Enterprises, partnership of J. R. Curtis and R. Lacy, and the Red Lands Broadcasting Association both applied to the Federal Communications Commission for a construction permit for a new station at Lufkin, Texas, and both asked the same facilities, namely, 1310 kilocycles, 100 watts, and daytime operation.

Examiner P. W. Seward, in Report No. I-377, recommended that the application of Radio Enterprises be denied and that of the Red Lands Broadcasting Association be granted. He found that a need does exist for additional radio facilities during the day in the area proposed to be served. The Examiner states that the applicants connected with Radio Enterprises "reside in a different area than that proposed to be served and that neither one of the partners in this application has spent any considerable time in the Lufkin or Nacogdoches area."

On the other hand the applicants connected with the Red Lands Broadcasting Association do reside in Lufkin and Nacogdoches and therefore the Examiner feels "these applicants are better qualified to know the needs of the area."

MONTANA COPYRIGHT LAW

On March 3 the Montana state legislature enacted a law making copyrighted music licensing pools illegal. It was approved by the Governor on March 12.

A similar bill was passed by the State of Washington legislature and also approved by the Governor.

Legislation designed to regulate music copyright licensing pools is also pending in Illinois, Iowa, Minnesota, Nebraska, Ohio and Wisconsin. An Indiana bill to license and tax music licensing pools was passed by the House and reported favorably in the Senate but was not passed by that body prior to final adjournment. The Montana law is as follows:

MONTANA

(Regular Session)

AN ACT in aid of the Federal Copyright Laws, to assist in effectuating their true intent and their enforcement in the State of Montana by removing and declaring illegal certain monopolistic abuses and activities wrongfully practiced under the guise of copyrights within the state by price fixing combinations, monopolies and pools; to enforce the Montana constitutional provisions prohibiting price fixing monopolies, and combinations in restraint of
commerce and trade, providing penalties for combining rights granted by the copyright laws where the effect of such combinations results in the use of copyright privileges as instrumentalities of oppression and extortion within the state in violation of constitutional provisions; and encouraging the rendition, creation and production of copyrighted works among the school children and citizens of the State of Montana, encouraging the marketing and acceptance of copyrighted works, created by the citizens of this state; repealing certain Acts; creating a state anti-monopoly board for a particular function to be exercised only in the event of abuses and violations hereof; defining its duties, and the jurisdiction and duties of courts of record; the duties of the prosecuting attorneys, county auditors, the state treasurer and the secretary of state; and providing for the appointment of a receiver in certain instances; defining certain terms; providing for service of process on nonresidents; prohibiting certain Acts; and providing penalties for violation hereof. 

Be it enacted by the Legislative Assembly of the State of Montana:

Section 1. It shall be unlawful for any person to, without the consent of the owner thereof, cause to be publicly performed for profit any dramatic composition, or dramatic musical composition commonly called an opera, or other copyrighted works, or any substantial part thereof, which has been copyrighted under the laws of the United States, or for any person to knowingly participate in the performance or representation of any substantial part thereof, or by knowingly selling a substantial copy of any substantial part thereof. Provided, however, that nothing contained in this Act shall affect or be construed to affect motion pictures.

Section 2. It shall be unlawful for two or more persons holding or claiming separate copyrighted works under the Copyright Laws of the United States, either within or without the State, to band together, or to pool their interests for the purpose of fixing the prices on the use of said copyrighted works, or to pool their separate interests or to conspire, federate, or join together, for the purpose of collecting fees in this State, or to issue blanket licenses in this State, for the right to commercially use or perform publicly their separate copyrighted works; provided, however, such persons may join together if they issue licenses on rates assessed on a per piece system of usage; provided further, this Act shall not apply to any one individual author or composer or copyright holder or owner who may demand any price of fee he or she may choose for the right to use or publicly perform his or her individual copyrighted work or works; provided further, such per piece system of licensing must be based on and in proportion to the use made of such copyrighted works and in no case in excess of any other per piece system in operation in other states where any group or persons affected by this Act does business, and all groups and persons affected by this Act, are prohibited from discriminating against the citizens of this State by charging higher and more inequitable rates per piece for music licenses in this State than in other States; provided further, where the owner, holder, or person having control of any copyrighted works has sold the right to the single use of said copyrighted work, where its sole value is in its use for public performance for profit, and has received any consideration therefor, either within or without the State, then said person or persons shall be deemed to have sold and parted with the right to further restrict the use of said copyrighted work or works; Provided this does not apply to selling the use of any copyrighted work or works at a different time.

Section 3. In the event two or more persons holding separate copyrighted musical works, or any rights flowing therefrom, whether by assignment, agency agreements, or by any form of agreement, pool their interest, or combine, or conspire, federate, or join together in any way, whether for a lawful purpose or otherwise, a complete list of their copyrighted works or compositions shall be filed once each year with additions or revisions made monthly in the office of the Secretary of State of the State of Montana, together with a list of the prices charged or demanded for their various copyrighted works; no payment or filing fee shall be required by the Secretary of State, and said persons, corporations, or associations, foreign or domestic, shall state therein under oath, that said list is a complete catalogue of the titles of their claimed compositions, whether musical or dramatic or of any other classification, and in addition to stating the name and title of the copyrighted work it shall recite therein the date each separate work was copyrighted, and the name of the author, the date of its assignment, if any, or the date of the assignment of any interest therein, if any, and the name of the publisher, the name of the present owner, together with the addresses and residences of all parties who have at any time had any interest in such copyrighted work. The Secretary of State shall require two copies of said list, one of which he shall keep on file, the other shall be forwarded to the office of the State Treasurer at Helena.

Section 4. The foregoing list of names and titles, provided for in the preceding section, shall be made available by the Secretary of State to all persons for examination, in order that any user of copyrighted works in this State may know the rights and titles to such copyrighted works as may be claimed by any of said combinations, pools, associations, or persons as aforesaid, said lists shall be prepared so that all persons may avoid using said copyrighted compositions, if they so desire, and may avoid conflict therewith, and avoid committing innocent infringements of said works; and said lists so filed shall constitute constructive notice to all persons of the matters contained therein; and in order to further effectuate the copyright
laws of the United States, the Secretary of State shall, if he deems it necessary to protect the citizens of this State from committing innocent violations of the Copyright Laws of the United States, publish such list once each year in a newspaper of general circulation, in order that all citizens of the State may respect any and all individual rights granted by the United States Copyright Laws.

Section 5. No person, corporation, or association, domestic or foreign, whether doing business in this State as hereinafter defined or not, shall be absolved from the foregoing duty of filing said list of holdings as required in the preceding sections of this Act, if their music or copyrighted works are used commercially in this State, or have been used herein, whether originating from a point within the State or from without, and as long as any rendition thereof is received or heard within the State, or is intended to be so received by the originator of any musical program; provided, however, any individual owner of a copyrighted work or works, not a party to or not connected in any way with any pool, conspiracy, combination, or groups, or association of persons, as prohibited by this Act, need not file any such list.

Section 6. It is hereby declared that the production and creation of music and the commercial use of music and of copyrighted works within this State, whether originating at a point from within or without the State, as long as the same shall be rendered and publicly received within the confines of this State, whether mechanically or by radio communication, is a business clothed and affected with the public interest, and the adult educational advantages engendered by the public use of music and its creation, makes this business one of public necessity, and necessary for the education and training of the youth of this State; that many abuses are practiced under a false guise of Federal protection which only the State with its police power can easily and lawfully restrain, and in order to prohibit, discourage and prevent monopolistic practices, and to prevent extortion, to encourage free bargaining between the citizens of this State with each other and with those without the State, and in order to give greater effect to the Constitutional provisions relating to monopoly and price-fixing, and in the general interest of the public, therefore, the legislature in the interest of good morals and the general welfare of the people of this State, and for greater educational advantages to the public, declares that said business shall be subject to the police power and reasonable regulation of the State government, and such police and regulating power shall be administered by the Courts and other officials of this State in a manner consistent with, in aid of, and never in conflict with, the Copyright Laws of the United States. The provisions of this Act, and the administration thereof, shall at all times effectuate the enforcement, the true intent, and meaning of the United States Copyright Laws in order to prevent abuses from being practiced within this State from points within or from points without the State, by any individual, corporation, or organizations, who attempt to use the Federal Courts as innocent instrumentalities in the furtherance of any systematic campaign or scheme designed to illegally fix prices for the commercial use of copyrighted works in this State through the use of extortionate means and terrorizing practices based on threats of suits, and an abuse of both State and Federal process, all of which are declared to be in violation of this Act and of the State Constitution; it is further declared that any person or persons, or combines, as aforesaid, who shall violate this Act shall be deemed to have used their property within this State in such a way that the same shall have acquired a legal situs, analogous to the situs of other personal tangible property within the State, even though separate from the domicile and residence of the owner; provided further, the legal situs of any copyrighted work is a co-extensive about the State, and a copyrighted work used or sold for public use or public performance for profit, if intended to be heard from a point without the State or from a point within the State, is hereby declared to be a commercial commodity, and its legal situs is hereby declared to be within the State of Montana.

Section 7. All persons, groups, corporations, associations, foreign or domestic, violating this chapter, shall be deemed to have been doing business within this State and amenable to the process of the state courts, when any such persons, combinations, or groups shall have issued licenses either from within or from without the State, for the privilege of using commercially and publicly any copyrighted work or works pooled in a common group or entity, or when any of the functions of said entity, organization, pool or combine, is or has been performed in this State; and the business of spying upon and the warning of users of the copyrighted works of such combinations, in addition to the presence within the State of such persons, and the activities of such persons or their agents at any time or occasion for the detection of infringements within this State, shall be conclusive evidence that such combinations and persons, even though non-residents, have accepted the privileges of doing business within this State, and such persons, if they abide by the provisions of this Act, shall be granted the privilege of conducting business within this State in a legal manner, and may invoke the benefits of the State government and its political subdivisions in their behalf, and they may use all of the privileges available to the citizens of this State in general, and the use at any time of any general privilege available to any citizen of this State, by any of such agents, their attorneys, or representatives, or investigator, or by any aidor and abettor, or any non-resident person, group, entity, or combination as aforesaid, shall be deemed to be an acceptance of the
provisions of this Act; and all licensees of any violator of this Act shall be deemed as aiders and abettors of said persons and subject to the provisions of this Act unless they forthwith indicate their obedience herewith; and the acceptance of the general privileges of the State of Montana by any non-resident copyright holder or owner, or combination, defendant, or person, or organization of any kind, or entity, through an investigator, attorney, agent representative, or through any aider and abettor as herein defined, and the acceptance by such persons of the rights, police protection, or of any general privilege conferred by the law of this State to any of its citizens, including the use of the roads and highways, or the privileges of any of its political subdivisions, as evidenced by their presence within the State at any time, shall be deemed equivalent to and construed to be an appointment by such non-resident or non-residents, as the case may be, of the Secretary of State of Montana to be his or their true and lawful attorney upon whom may be served all summons and processes against him or them and growing out of a violation of this Act, in which said non-resident may be involved, and said acceptance of the privileges of this State, as aforesaid, shall be signification of his or their agreement that any summons or process against him or them which is so served shall be of the same legal force and validity as if served on him or them personally within the State of Montana. Service of such summons or process shall be made by leaving a copy thereof with a fee of $2.00 with the Secretary of State of Montana, or in his office, and such service shall be sufficient and valid personal service upon any such non-resident defendant, copyright holder or owner, persons, or defendants, combination, entity, or organization, as aforesaid; provided, that notice of such service and a copy of the summons of process shall be forthwith sent by registered mail requiring personal delivery, by the Prosecutor bringing any action under this Act, to any defendant at his last known address, and the defendant's return receipt and the Prosecutor's affidavit of compliance herewith are appended to the process and entered as a part of the return thereof; provided further, the Court in which any action is brought may order such continuances as may be necessary to afford any non-resident defendant or groups, or entity, a reasonable opportunity to defend the action; provided further, the Secretary of State shall keep a record of all such summons and process which shall show the day and time of service; and valid personal service shall thus be had on non-resident persons or individuals, entities, firms, or corporations violating this Act.

Section 8. In the event any person, or groups of persons, or any combination or pool as aforesaid, whether a non-resident corporation, person, or an association, or domestic, refuse to abide by the provisions hereof, or attempt to evade or render ineffectual the true enforce-
cording to the subsequent provisions of this Act; provided further, in the event any defendant or defendants attempt to withdraw their said copyright works or property from the State in order to violate and render this Act or the Court’s orders ineffectual, or to deprive the citizens of this State of such commodity, or to hamper the enforcement of any provision of this Act, or to injure any citizen or use of music in any way, then the Court shall immediately order the Receiver to compile a complete list of all of the copyrighted works of said defendants which have been used in this State, and the Court shall then convene the State Anti-Monopoly Boards, as herein now created, consisting of the State Treasurer and the State Auditor, and said Board shall meet in the County where the suit is filed, and the District Judge hearing the Cause shall be an advisory member of said Board; and said Board, of which the State Treasurer shall be chairman, shall have only one function, the discouragement of price-fixing and monopolies, and the Court shall then submit to said Board the single question of the establishment of license rates for the use of these copyrighted works controlled by the defendants so proceeded against, and for the purpose of aiding in the abolition of monopolies and price-fixing, and preventing the violations of this Act, the Board shall determine a fair and just rate that the Receiver should charge for the single and separate public performance for profit of each copyrighted work or works of said defendants, on a per piece system and basis of licensing, and the Court shall not be deemed thereby to have divested itself of any of its jurisdiction by so doing; after determining such rate, the said Anti-Monopoly Board shall immediately advise the Receiver of its findings, and of its fair rate, and the same shall be filed of record in the cause, and the Receiver may then, if said finding is approved by the Court, issue licenses for the use of said music at such approved rate on a basis of so much money per each time a piece of music is played or used in a public performance for profit; that said property shall be thus administered by the Receiver for a period of one year, or until such time as the defendants, or the individual copyright owners of any combination so proceeded against take oath that they will abide by the rulings of the Court and the provisions of this Act; and all fees and funds collected by the Receiver shall be turned over to the State Treasurer, and no receivers fees or attorneys fees shall be allowed, and the Prosecuting Attorney shall be the Attorney for the Receiver, and the State Treasurer shall keep said money in a separate and special fund, subject to the order of the Court only for whatever portion thereof that the Court may order used to defray the actual expenses of the Board and the Receivership; at the end of one year, if the defendants and copyright owners or holders in any combination thus proceeded against, continue to wilfully disobey the Court's orders, then the Court shall issue an order, which shall be published in three public places, to the effect that unless the defendants obey all of the orders of the Court within ten days from the date of said order, that the Court will proceed to permanently deprive said defendants and each of them of their property; and the Court shall then order said defendants to show cause within ten days why they should not be involuntarily compelled to assign all of their copyrighted works to the Receiver forthwith, and to show cause why all of the funds as collected in the manner aforesaid from licenses, together with all of the copyrighted works including the performing rights thereto of said defendants and members of said combine, should not escheat and be forfeited forever to the State of Montana, and be subject thereafter to administration by the State in the same manner as all other personal property belonging to the State of Montana; if any of said defendants and copyright holders, or owners, do appear before the end of said ten day period, and take oath that they will abide by the future orders of the Court and the provisions of this Act, then the Court shall release their copyrighted works and order the State Treasurer to return any and all of their money which has been received or seized; provided, however, the Court shall retain such jurisdiction over their persons for such time as the Court may deem necessary to insure strict compliance with the terms of the Court’s judgment and the provisions of this Act; if any of said defendants or copyright owners or holders shall ignore or refuse to obey the show cause order, as aforesaid, or fail to appear at the end of ten days as ordered and abide by the Court’s judgment, then the Court shall make an order and enter judgment to the effect that all of the copyrighted works, including the performance rights thereto, of said defendants and the members of any defendant combination, shall be construed as having been escheated and forfeited to the State of Montana, and the Court shall thereupon appoint some officer of the Court to execute an involuntary assignment of all of the legal and equitable titles to all of the copyrighted works of each of said defendants and members of any defendant combination to the Receiver, in the event the defendants or any of their members fail to execute a voluntary assignment, and the Receiver shall immediately file said involuntary assignment at the United States Copyright Office at Washington, D. C.; and the Court shall then order the Receiver to close the estate, and turn the titles to said copyrighted works over by proper assignment from the Receiver to the State Treasurer of the State of Montana, who shall thereafter administer, issue licenses for the use of the same in a manner consistent with this Act, and conserve the same as State personal property in his possession, and according to law; and any funds left in the State Treasury from said receivership shall escheat and be forfeited to the State and become part of the general fund; provided further, the State Treasurer shall make a report to the legislature on each biennium of the amount of money received from such
licensing and the amount of property he has on hand through the enforcement of this Act.

Section 9. That in the event any person, or any of the defendants, or non-residents, or non-resident copyright owners or holders, are proceeded against as herein outlined, and are served with process according to law, or any non-resident is served with process as outlined in the preceding sections of this Act, and if any of said defendants, or persons, or aiders and abettors named as defendants, appear in any such proceeding by counsel or otherwise, or institute any special proceeding attacking such proceeding, or make any motion therein, either special or general, or if any of them appear to obtain the judgment of the Court solely upon the sufficiency of the service of the process upon them, or upon any phase of particularity of said injunction proceedings, such special proceeding or appearance, or motion, or appearance, as the case may be, shall nevertheless be deemed as a general appearance even though the process may have been insufficient, and said parties and defendants as may thus appear in this action, for any reason or cause, whether they seek special or affirmative relief, shall thereafter be subject to the general orders and jurisdiction of the Court for all purposes, and if any of said defendants or persons appear in any Court proceeding instituted to effectuate this Act solely for the purpose of challenging the validity of service of process upon them they shall be deemed to have surrendered themselves and as having submitted to the general jurisdiction of the Court; provided however, this section shall not be construed as denying, and no attempt shall be made at any time in any proceeding in connection with the enforcement of this Act, to restrain or deny any of said defendants, resident or non-resident, copyright holders or owners, or any person, or members of any defendant combination, entity, pool, or monopoly of their rights or property without full and complete due process of the law. Provided, however, that nothing contained in this Act shall affect or be construed to affect motion pictures.

Section 10. Every person, in addition to the other penalties, provided in this Act, who violates or who procures, or aids or abets in the violating of any provision of this Act, or who conspires to render ineffectual any valid order or decision of any Court in the enforcement of this Act, or who procures, conspires with, or aids or abets any person or persons in his or their failure to obey the provisions of this Act, or to render ineffectual any valid order of any court in connection with the enforcement of this Act shall be deemed guilty of a gross misdemeanor, and upon conviction, shall be punished by a fine not exceeding Five Hundred Dollars ($500.00), or imprisonment in the county jail for not more than six months, or both such fine and imprisonment.

Section 11. In case any part or portion of this Act shall be held unconstitutional, such holding shall not affect the validity of this Act as whole or any other part or portion of this Act, and if any clause, sentence, paragraph, or subdivision, section or part of this Act shall for any reason be adjudged invalid such judgment shall not affect, impair, or invalidate the remainder of the Act, but shall be strictly confined in its operation and holding to the specific clause, sentence, paragraph, subdivision, section or part thereof, directly involved in the controversy in which such judgment shall have been rendered; and all other Acts and laws in conflict herewith are hereby repealed.

Section 12. In the event more than one injunction suit provided for in this Act is instituted in this State, in different counties by different prosecuting attorneys, but against the same defendants, the respective District Judges hearing the causes may issue orders against said defendant in any county, but in the event any of the various county proceedings enter into the state of receivership, as herein provided, then the Judges hearing the respective causes shall order those causes where the defendants are the same, to be consolidated in one action in one particular county, and in such county as the Judges may decide, to the end that only one receivership may be appointed for the entire State for the property of the same defendant or defendants.

Section 13. All Acts and parts of Acts in conflict herewith are hereby repealed.

Section 14. This Act shall be in full force and effect from and after its passage and approval.

Approved, March 12, 1937.

FEDERAL TRADE COMMISSION
ACTION
Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

No. 3985. Allegedly misrepresenting domestic-made toffee as being manufactured in or imported from England, the British American Toffee Co., 102 Hill St., New Haven, Conn., has been named respondent in a complaint charging unfair methods of competition.

The respondent company, the complaint alleges, sells certain confections in packages bearing the names "English Toffee" or "Piccadilly Toffee," together with pictorial representations of the Tower of London, London Bridge, a coat of arms, and figures simulating British soldiers in dress and appearance. Such phrases as "Delicious English Toffees" and "England's Most Popular Sweet," and the respondent's corporate name are said to be printed upon certain of the packages.

The false and misleading representations are alleged to place in the hands of wholesalers, retailers and jobbers the means whereby they may defraud purchasers by enabling dealers to sell the respondent company's toffee products either as imported or as made in the United States in conjunction with or under license from English manufacturers.

It is alleged that the respondent corporation uses bottle wrappers or labels simulating in use of Lea & Perrins as to type of paper, color, wording and other distinctive features in the printed matter, including a script signature of the respondent corporation written in black ink diagonally across the face of the wrapper.

These simulations, according to the complaint, have the tendency to induce the public to form the erroneous belief that the respondent corporation's product is the sauce manufactured and sold by Lea & Perrins, as a result of which mistaken belief substantial numbers of purchasers have bought the respondent's product, thereby unfairly diverting trade to the respondent.

No. 3088. Misleading representations in the sale of a medicine are alleged in a complaint issued against William Everett, 509 North Fifty-Eighth St., Philadelphia, trading as W. E. & M. E. Medicine Co.

Newspaper and magazine advertising sponsored by the respondent is alleged to have represented that "W.E. & M. E. Herb Tonic" will purify the blood, and is a body builder, and that its use will relieve constipation, chills, backaches, liver, kidney, stomach, skin, and other disorders and that no ingredient in it is harmful.

No. 3087. Misleading representations in the sale of a medicine are alleged in a complaint issued against Oliver Brothers, Inc., 417-421 Canal St., New York, supplying market information and purchasing service to wholesalers, jobbers and other dealers in various parts of the country. Eleven buying and selling companies are also named respondents.

Oliver Brothers, Inc., is alleged to have been the medium through which a large group of buyers purchased commodities, mostly hardware, from a group of sellers. The complaint charges that Oliver Brothers, Inc., while acting as agent or representative of the buyers and subject to their direct or indirect control, accepted from the selling group so-called brokerage fees or commissions, varying from 10 to 15 per cent of the quoted agreed sales prices, without rendering service of any kind to the sellers in connection with these transactions of sale or purchase of goods. Such commissions, it is alleged, were in turn paid over by Oliver Brothers to its buyer clients, without the latter rendering any service to the sellers in connection with the particular transactions involved.

Each amount paid the individual buyer was the amount paid by the individual seller in a given transaction, according to the complaint.

No. 3089. California Rice Industry, a trade association with headquarters in San Francisco, 16 of its officers and eight rice milling company members, representing 60 per cent of the rice produced in California, are charged in a complaint with unlawfully restricting the sale of their products through fixing and maintaining uniform prices, and with other practices, under an agreement and conspiracy in violation of Section 5 of the Federal Trade Commission Act.

Member companies are said to control and dominate the round grain and Japanese type rice industry in the United States and to direct and dominate purchasers of such rice for resale throughout the world.

They are charged with entering into the alleged combination and agreement late in August, 1935, such undertaking allegedly having resulted in undue restraint of trade in rice and rice products, enhancement of prices and maintenance of prices at artificial levels, elimination of competition, and a tendency to create monopoly.

No. 3090. A complaint has been issued alleging that 35 companies, producing and selling 90 per cent of the output of cast iron soil pipe in the United States, have, through use of the Birmingham Plus pricing system, substantially lessened price competition within their industry and discriminated in price among certain buyers of their products. The complaint charges violation of both the Federal Trade Commission Act and the Robinson-Patman Anti-Price Discrimination Act.

The Cast Iron Soil Pipe Association, Birmingham, Ala., which is the trade organization of the industry, and its officers, also are named respondents in the complaint.

For more than ten years, according to Count One of the complaint which alleges violation of the Federal Trade Commission Act, the respondents have combined and agreed to lessen and restrict competition in a commodity which they had controlled, and used the Birmingham Plus pricing system, under which, to the extent that the system is followed, all cast iron soil pipe, wherever produced, is sold at delivered prices, which are equivalent to the base price fixed at Birmingham, Ala., plus the freight rate from Birmingham to the buyer's freight station, wherever located. From the delivered prices there are deducted, it is said, trade discounts which vary for buyers of different classes, but are uniform to buyers of the same class.

Under the Birmingham Plus system, each respondent company, the complaint alleges, makes a delivered price, identical with that made by every other producer adhering to the system, to any given customer wherever located, such uniform pricing being carried on by each respondent company with the knowledge that all other producers following the system will quote and charge identical delivered prices.

No. 3092. Eleven companies said to control and dominate the production and distribution of blue print paper and other reproduction paper, cloth and allied products used in the engineering and building trades, are named respondents in a complaint against them and their trade association, the Scientific Apparatus Makers of America, 20 North Wacker Drive, Chicago, and the Surveying-Drafting-Coaters Section of that association.

The complaint charges these respondents and various officers, directors and other members with combining and conspiring to fix and maintain prices, control bidding, and other unfair practices in connection with the sale of their particular type of products, in violation of Section 5 of the Federal Trade Commission Act.

Members of the association and its Surveying-Drafting-Coaters Section named as respondents are: Charles Bruning Co., Inc., 102 Reade St., and Eugene Detzen Co., 218 East Twenty-Third St., both of New York City; Keuffel & Esser Co., 300 Adams St., Hoboken, N. J.; The Huey Co., 17 South Wabash Ave., The Frederick Post Co., 3636 North Hamlin St., Economy Blue Print Products, Inc., 1714 North Damen Ave., The C. F. Pease Co., 813 North Franklin St., and United States Blue Print Paper Co., 207 Wabash Ave., all of Chicago; Keystone Blue Paper Co., 910 Fillibert St., Charles W. Speidel & Co., 112 North Twelfth St., and J. H. Well & Co., 1315 Cherry St., all of Philadelphia.

The Surveying-Drafting-Coaters Section, one of seven divisions of the general trade association, each division acting as a trade association to protect the interests of its own group, has approximately forty members, but this number, according to the complaint, varies from time to time because of the dropping out of old and the addition of new members so that at any one time it is impracticable to name all members as parties respondent.

The complaint names the eleven members separately and as representatives of all other members as a class, such members, according to the complaint, constituting practically all the sellers to wholesalers of, dealers in and consumers of the various products sold, especially blue print and other reproduction papers and cloths.

Stipulations and Orders

The Commission has issued the following cease and desist orders and stipulations:

Nos. 1917 and 1918. Two New York dealers in cosmetic products have entered into stipulations to discontinue unfair representation in the sale of their preparations. They are: Northam Warren Sales Co., Inc., 191 Hudson St., New York, and Laure Co., Inc., 9 West 29th St., New York.

Northam Warren Sales Co. in the sale of "Cutex Lipstick," agrees to abandon use of the word "nourishing" so as to imply that its article nourishes or feeds the lips and causes them to become smooth, moist, velvety or non-greasy in appearance as a result of such purported nourishment.

Lutter Co. stipulated that it would cease employing the word "Parisian, " and other words, in the form of a signature, on display or shipping cartons or packages containing its perfume products, or in advertising matter relating to them, in a manner tending to convey the impression that...
these preparations are compounded or manufactured in Paris, France, or that Laure Co., Inc., has offices there, when these are not the facts.

No. 1923. Eastern Wine Corporation, Bronx Terminal Market, Bronx, New York City, stipulated that it will cease labeling wine with the words "Vintage-1928," when in fact the products so described were of vintages subsequent to 1928, and will stop using any labels or vintage strips which do not accurately and truthfully represent the age of the wine. The corporation also agreed to discontinue use on labels or in advertising matter of the words "Highest award wherever exhibited," alone or with pictorial representations simulating medals, or of any other equivalent words or expressions, so as to imply that it has exhibited its wine at any exposition or fair or has been awarded medals for the excellence of its products, when such is not a fact.

No. 1924. Red Top Brewing Co., 1747 Central Parkway, Cincinnati, agreed to cease using on labels affixed to kegs the words "Double Brew" as descriptive of beer which is not double brewed, and to stop using the words "Double Brew," alone or with any other words, so as to imply that the product so designated has been brewed twice, when such is not a fact.

No. 2667. Selling baby chicks, George F. Pinaire, trading as Clover Valley Poultry Farm and Hatchery, Ramsey, Ind., has entered into a stipulation to discontinue use in advertising matter of words or representations implying that all the baby chicks he sells are hatched from eggs produced by his own or by blood-tested flocks, when such is not a fact. According to the stipulation, the chicks sold by Pinaire were not all hatched from eggs produced by blood-tested flocks, and he purchased from hatcheries other than his own a substantial part of the chicks required to fill orders he received.

No. 2530. An order to cease and desist has been issued prohibiting Mutual Stores, Inc., 9th and D. Streets, and 9th and E. Streets, Washington, D. C., from using the words "Army and Navy," or either of them, to describe merchandise offered for sale, unless these descriptions be used specifically in connection with goods actually procured from the United States Army or Navy.

Findings are that inventory of the respondent has never revealed more than 10 to 15 per cent of its goods as being surplus, refuse or reject goods from the Army or Navy. Since 1932, no substantial amount of such goods, suitable for resale in retail stores of the respondent company's type, has been offered for sale by the Army or Navy, according to the findings.

No. 2752. Prohibiting certain unfair representations in the sale of fish and other seafood an order has been issued to cease and desist against M. F. Foley Co., Friend and Union Streets, Boston, a wholesaler.

This company is directed to stop representing, directly or indirectly, through use of the word "whitefish," that fish of the salt water species known as "cusk" are whitefish.

Another practice barred is use of the word "whitefish," alone or with other words, to represent that fish of any species other than Lake Superior or Selkirk whitefish, or as whitefish, are in fact whitefish.

No. 2943. David F. Kemp, 225 Fifth Avenue, New York, trading as United States School of Music, has been ordered to discontinue certain unfair methods of competition in connection with the sale of correspondence courses.

Among the representations prohibited are that Kemp has taught 700,000 pupils to play musical instruments; that all pupils studying the course, regardless of their degree of talent, can be taught to play a musical instrument in one-half the time usually required, and that, at the end of the course, the average pupil is sufficiently proficient to pass a teacher's examination.

FTC CLOSES CASES

No. 2888. The Federal Trade Commission has closed a case involving charges of unfair competition against Four California companies alleged to have violated Section 5 of the Federal Trade Commission Act by representing their "Acme Beer" as superior to other beers because made under a "non-fattening formula."

Closing of the case followed approval by the Commission and the signing by the respondent companies of a stipulation as to the facts. In closing the case, the Commission retains its right to reopen it at any time, should the facts warrant.

Signers of the stipulation are: Cereal Products Refining Corporation, 762 Fulton St., San Francisco, now known as Acme Breweries, and also doing business under the fictitious name of California Brewing Association, a corporation, named in the Commission's Complaint, but now dissolved; Acme Brewing Co., 2080 East 49th St., Los Angeles, and Bohemian Distributing Co., Ltd., 2060 49th St., Los Angeles.

Under their stipulation, the respondent companies specifically agree to cease representing their beer as containing no carbohydrates or fat-producing properties, and as being without properties for producing or inducing increase in body weight, and to stop asserting that such representations are, or may be taken to be, applicable and true for all consumers of beer.

Other advertising assertions to be discontinued are that this beer has a non-fattening quality due to a "non-fattening formula" peculiar to Acme as distinguished from other beer products, and that certain of Acme's ingredients give it a capacity to "slanderize" persons of excess weight.

Under the stipulation, the respondent companies reserve the power to advertise their beer as a food or food-beverage, and to qualify the term "non-fattening" so as to make it publicly known that this beer as a food or food-beverage is relatively "non-fattening" by comparison with other foods and as an item of normal diet. It is provided, however, that these representations be consistent at all times with the stipulated agreement.

FEDERAL COMMUNICATIONS COMMISSION ACTION

Hearing Calendar

The following broadcast hearings are scheduled at the Commission for the week beginning Monday, April 5:

Monday, April 5

HEARING BEFORE AN EXAMINER
(Broadcast)

KROY—Royal Miller, Sacramento, Calif.—Modification of C. P., 1340 kc., 250 watts, 1 KW LS, unlimited. Present assignment: 1310 kc., 100 watts, unlimited.

WMBO—Roy L. Albertson and Auburn Publishing Co., Auburn, N. Y.—Authority to transfer control of corporation; 1310 kc., 100 watts, unlimited.

WSAU—Northern Broadcasting Co., Inc., Wausau, Wis.—Modification of C. P., 1370 kc., 100 watts, unlimited, time, unlimited.

HEARING BEFORE AN EXAMINER
(Broadcast)

NEW—Okmulgee Broadcasting Corp., Okmulgee, Okla.—C. P., 1210 kc., 100 watts, daytime.

NEW—Times Publishing Co., Okmulgee, Okla.—C. P., 1210 kc., 100 watts, daytime.

NEW—The Record Publishing Co., Okmulgee, Okla.—C. P., 1210 kc., 100 watts, daytime.

Wednesday, April 7

HEARING BEFORE AN EXAMINER
(Broadcast)

Thursday, April 8

ORAL ARGUMENT BEFORE THE BROADCAST DIVISION

Examiner's Report No. 1-104:

KGCC—The Golden Gate Broadcasting Co. (Robert J. Craig), San Francisco, Calif.—Modification of license, 1430 kc., 100 watts, unlimited time. Present assignment: 1430 kc., 100 watts, daytime.

KFVD—Standard Broadcasting Co., Los Angeles, Calif.—Modification of license, 990 kc., 1 kw, 1 kw LS, limited time. Present assignment: 1000 kc., 1 kw, 1 kw LS, limited time.

NEW—Edgar L. Bill, Peoria, Ill.—C. P.

WSGN—The Birmingham News Co., Birmingham, Ala.—Granted C. P.

Examiner's Report No. 1-324:

Examiner's Report No. 1-338:

NEW—Harmon LeRoy Stevens and Herman LeRoy Stevens, d/b as Scranton Broadcasters, Inc., Scranton, Pa.—Modification of license, 880 kc., 500 watts, 1 kw LS, shares-WQAN. Present assignment: 880 kc., 500 watts, shares-WQAN.

Examiner's Report No. 1-342:

WGBI—Scranton Broadcasters, Inc., Scranton, Pa.—Modification of license, 1210 kc., 100 watts, unlimited time.

Examiner's Report No. 1-351:

NEW—Golden Empire Broadcasting Co., Marysville, Calif.—C. P., 1140 kc., 250 watts, daytime.

Friday, April 9

HEARING BEFORE AN EXAMINER

(Broadcast)

NEW—Twin City Broadcasting Corp., Longview, Wash.—C. P., 780 kc., 250 watts, daytime.

NEW—Edgar L. Bill, Peoria, Ill.—C. P., 1040 kc., 250 watts, daytime.

APPLICATIONS GRANTED

WSGN—The Birmingham News Co., Birmingham, Ala.—Granted license to cover C. P., 1310 kc., 100 watts night, 250 watts day, unlimited time. The license is granted upon condition it shall in no wise be construed as a finding upon the application for renewal of license of WSGN, or upon the application of B. H. Hopson for the facilities of WSGN, or upon any of the issues thereby raised, nor that the operation of this station is or will be in the public interest beyond the express terms hereof.

WBBZ—Adelaide L. Carrell, Representative Estate of C. L. Carrell, deceased, Ponca City, Okla.—Granted C. P. as amended with respect to name, for installation of new equipment, erection of vertical radiator, and increase in day power from 100 to 250 watts, conditionally upon the same limitations as at present contained in existing license.

WGCM—WGCM, Inc., Guilford, Miss.—Granted authority to transfer control of corporation from Sam Gates to P. K. Ewing; 1210 kc., 100 watts night, 250 watts day, unlimited.

WFTF—Liberty Broadcasting Co., Atlanta, Ga.—Granted modification of C. P. approving transmitter site and installation of vertical radiator and new equipment.

KSJS—R. J. Laubengayer, Salina, Kans.—Granted modification of C. P. authorizing change in transmitter and studio sites, installation of new equipment, changes in antenna, and increase in day power from 100 to 250 watts.

WHDL—Olean Broadcasting Co., Inc., Olean, N. Y.—Granted modification of license to change name from Olean Broadcasting Co., Inc., to WHDL, Inc.

KWTN—Greater Kampska Radio Corp., Watertown, S. Dak.—Granted authority to install automatic frequency control equipment, upon condition it shall not be construed as a finding upon the application for renewal of license nor upon any of the issues involved therein, nor that the Commission has found that the operation of this station is or will be in the public interest beyond the express terms thereof.

WCAU—WCAU, Inc., Philadelphia, Pa.—Granted authority to determine operating power by direct measurement of antenna input in compliance with terms of Rule 137.

WNBF—Howitt-Wood Radio Co., Inc., Binghamton, N. Y.—Granted C. P. to make changes in composite equipment and increase day power from 100 to 250 watts.

KFRO—Voice of Longview, Longview, Tex.—Granted license to cover C. P. and modification; 1370 kc., 250 watts, daytime only.

WRBL—WRBL Radio Station, Inc., Columbus, Ga.—Granted modification of C. P. approving transmitter and studio sites and vertical radiator.

WAAJ—The Toledo Broadcasting Co., Toledo, Ohio (Mobile).—Granted voluntary assignment of C. P. from The Toledo Broadcasting Co. to the Fort Industry Company.

WSXKO—The Toledo Broadcasting Co., Toledo, Ohio (Mobile).—Granted voluntary assignment of C. P. from The Toledo Broadcasting Co. to the Fort Industry Company.

KABF—James McClatchy Company, Sacramento, Calif. (Mobile).—Granted voluntary assignment of license from James McClatchy Company to McClatchy Broadcasting Co.

WGXB—Karl A. Nielsen, Phoenix, Ariz. (Mobile).—Granted voluntary assignment of license from Earl A. Nielsen to Salt River Valley Broadcasting Co.

WPRP—Julio M. Conesa, Ponce, Porto Rico.—Granted renewal of license for the period January 1 to July 1, 1937.

WJAX—The Cleveland Radio Broadcasting Corp., Cleveland, Ohio.—Granted renewal of license for the period March 1 to September 1, 1937.

WWL—Loyola University, New Orleans, La.—Granted renewal of license for the period February 1 to August 1, 1937.

WLAK—Lake Region Broadcasting Co., Lakeland, Fla.—Granted authority to transfer control from E. I. J. von M. M., to B. W. Patterson; 1370 kc., 100 watts, unlimited time. Also granted renewal of license for the period December 1, 1936, to June 1, 1937.

KΓFX—Ida A. McNeill, Pirate, S. Dak.—Granted involuntary assignment of license from Dana McNell to Ida A. McNeill, administrator of the estate of Dana McNell, deceased. Also granted renewal of license for the period March 1, to September 1, 1937.

KTOX—Oklahoma Broadcasting Co., Inc., Oklahoma City, Okla.—Granted license to cover C. P. as modified. Also granted renewal of license upon a regular basis.

WWBI—Wodaad Corporation, Newark, N. J.—Granted renewal of license for the period April 1 to October 1, 1937.

WWJW—The Evening News Assn., Inc., Detroit, Mich.—Granted extension of present license for a period of 30 days.

WPRO—Cherry & Webb Broadcasting Co., Providence, R. I.—Granted extension of present license for a period of 30 days.

WFN—Attala Broadcasting Corp., Grenada, Miss.—Granted voluntary assignment of C. P. from Attala Broadcasting Corp. to P. K. Ewing.

WHIO—Miami Valley Broadcasting Corp., Dayton, Ohio.—Granted extension of present license for a period of 60 days.

NEW—Ashland Broadcasting Co., Ashland, Ky. (Mobile).—Granted C. P. for new relay station; frequencies 1622, 2058, 2150 and 2790 kc., 40 watts.

NEW—Isele of Dreams Broadcasting Corp., Miami, Fla. (Mobile).—Granted C. P. for new station; frequencies 1606, 2022, 2102 and 2798 kc., 40 watts. Also granted license covering same.

NEW—Indianapolis Broadcasting Co., Inc., Indianapolis, Ind. (Mobile).—Granted C. P. for new relay station; frequencies 1622, 2058, 2150 and 2790 kc., 40 watts.

NEW—WAVE, Inc., Louisville, Ky. (Mobile).—Granted C. P. for new relay station; frequencies 1522, 2058, 2150 and 2790 kc., 50 watts.

2013
NEW—The South Bend Tribune, South Bend, Ind. (Mobile).—
Granted C. P. and license for new relay station; frequencies 1622, 2058, 2150 and 2790 kc., 50 watts.

NEW—The South Bend Tribune, South Bend, Ind. (Mobile).—
Granted C. P. for new relay station; frequencies 31100, 34600, 37600 and 40600 kc., 1 watt. Also granted license covering same.

WDAY—WDAY, Inc., Fargo, N. Dak. (Mobile).—Granted C. P. for new relay station; frequencies 31100, 34600, 37600 and 40600 kc., 7 watts.

Granted C. P. for new station; frequencies 31100, 34600, 37600 and 40600 kc., 10 watts.

NEW—Gazette Printing Co., Janesville, Wis. (Mobile).—
Granted C. P. for new relay station; frequencies 31100, 34600, 37600 and 40600 kc., 2 watts.

WXF—Isle of Dreams Broadcasting Corp., Miami, Fla. (Mobile).—
Granted license to cover C. P. for relay broadcast station; frequencies 31100, 34600, 37600 and 40600 kc., 10 watts.

WAX—The Crosley Radio Corp., Cincinnati, Ohio (Mobile).—
Licensed to cover C. P. for low frequency broadcast relay station; frequencies 1622, 2058, 2150 and 2790 kc., 50 watts.

W8XIK—The Crosley Radio Corp., Cincinnati, Ohio (Mobile).—
Licensed to cover C. P. for increase in power of high frequency relay broadcast station to 50 watts.

W8XIL—The Crosley Radio Corp., Cincinnati, Ohio (Mobile).—
Granted license to cover C. P. for new station to operate on 1420 kc., 250 watts, daytime only.

NEW—Leon M. Eisfeld, Burlington, Iowa.—C. P. for new station to operate on 1310 kc., 100 watts, unlimited time.

NEW—Glen E. Webster, Decatur, Ill.—C. P. for new station to operate on 1290 kc., 250 watts daytime; exact transmitter site to be determined with Commission's approval.

NEW—Harold F. Cross, Lansing, Mich.—C. P. for new station to operate on 580 kc., 500 watts night, 1 kw. day, unlimited time, using directional antenna system for both day and night-time operation.

NEW—Robert E. Clements, Huntington Park, Calif.—C. P. for new station to operate on 1160 kc., 250 watts, daytime only, exact transmitter site and type of antenna to be determined with Commission's approval.

NEW—John Stewart Bryan, Petersburg, Va.—C. P. for new station to operate on 1210 kc., 100 watts night, 250 watts day, unlimited, except Sundays when WBBL operates between 10:30 a.m. to 1:30 p.m., 5:30 to 7 p.m., and from 7:30 to 9:30 p.m., EST. Desires facilities of WMBG. Exact transmitter site and type of antenna to be determined with Commission's approval.

NEW—Gerald A. Travis, LaPorte, Ind.—C. P. for new station to operate on 1500 kc., 100 watts night, 250 watts day, unlimited time.

NEW—L. L. Coryell, Sr., and L. L. Coryell, Jr. d/b as L. L. Coryell & Son, Lincoln, Nebr.—C. P. for new station amended to request-1450 kc., 250 watts night, 1 kw. day, unlimited time.

NEW—Citizens Broadcasting Corp., Schenectady, N. Y.—C. P. for new station amended to request 1240 kc., 1 kw. night using directional antenna, 5 kw. day, unlimited time.

NEW—Standard Life Ins. Co. of the South, Jackson, Miss.—C. P. for new station to operate on 1420 kc., 100 watts night, 250 watts day, unlimited time; exact transmitter site to be determined with Commission's approval.

NEW—B. H. Hopson, Birmingham, Ala.—C. P. for new station amended to request 1310 kc., 100 watts night, 250 watts day, unlimited time. (Requests facilities of WSGN, contingent upon granting of application of Birmingham News Co. for new station to operate on 590 kc., 1 kw unlimited.) Exact transmitter site to be determined with Commission's approval.

NEW—Birmingham News Co., Birmingham, Ala.—C. P. for new station amended to request frequency 590 kc., 1 kw., unlimited time.

NEW—Southern Broadcasting Corp., New Orleans, La.—C. P. for new station amended to request frequency 1500 kc., 100 watts night, 250 watts day, unlimited time; exact transmitter site and type of antenna to be determined with Commission's approval.

NEW—Arlington Radio Service, Inc., Arlington, Va.—C. P. for new station amended to request frequency 1510 kc., 250 watts, unlimited, exact transmitter site and type of antenna to be determined with Commission's approval. To be heard before Broadcast Division on date to be fixed by the Division.

WGL—Westinghouse Radio Stations, Inc., Fort Wayne, Ind.—C. P. to make changes in equipment and increase day power from 100 watts to 250 watts.

NEW—Phillip Jackson, Brunswick, Ga.—C. P. for new station, 1450 kc., 100 watts, daytime only.

WMNN—Monongahela Valley Broadcasting Co., Fairmount, W. Va.—C. P. amended so as to request installation of directional antenna system for nighttime use, install new equipment, increase night-time power from 250 watts to 1 kw. and day power from 1 kw to 5 kw.

WCLS—WCLS, Inc., Joliet, Ill.—Modification of license to install a radiating system to comply with Rule 131 and change time of operation from specified hours to unlimited time.

WKBI—WKBI, Inc., LaCrosse, Wis.—Authority to transfer control of corporation from Joseph C. Callaway to Harry Dahl.

WSAN—WSAN, Inc., Allentown, Pa.—Application for voluntary assignment of license from WSAN, Inc., licensee, to WSAN, Inc., a newly organized corporation (1440 kc., 500 watts, WJW (WJW)).

WCBA—B. Bryan Musselman, Allentown, Pa.—Application for voluntary assignment of license from B. Bryan Musselman to WSAN, Inc. (1440 kc., 500 watts, S-WSAN).

KFYO—Plains Radio Broadcasting Co., Lubbock, Texas.—Application for renewal of license for the period December 1, 1936, to June 1, 1937. Temporary license granted pending outcome of hearing. 1310 kc., 100 watts night, 250 watts day, unlimited.

KCNC—Plains Radio Broadcasting Co., Amarillo, Texas.—Same as above.

WWL—Loyola University, New Orleans, La.—Application for C. P. amended to request installation of new equipment and increase in power from 1 to 50 kw.

NEW—The Enterprise Co., Beaumont, Tex.—C. P. for new station to operate on 1400 kc., 500 watts, unlimited. Exact transmitter site to be determined with Commission's approval.

RENEWAL OF LICENSES

The Commission granted renewal of licenses for the regular period to the following:

KDYL, Salt Lake City; KFBB, Great Falls, Mont.; KFIO, Sodo, Wash.; KGCN, Lawrence, Kans.; KGXB, Springfield, Mo.; KGCU, Mandan, N. Dak.; KGFF, Covallis, Kans.; KGVO, Missoula, Mont.; KHSI, Chico, Calif.; KLKN, Blytheville, Ark.; KLPM, Minot, N. Dak.; KMA, Shenandoah, Iowa; KMBC and auxiliary, Kansas City, Mo.; KOL, Omaha, Neb.; KOL, Seattle; KPAC, Port Arthur, Texas; KOW, San Jose, Calif.; KRDK, Los Angeles; KROW, Oakland, Calif.; KRSC, Seattle; KTAT, Fort Worth, Tex.; KTRH, Houston, Tex.; KTWW, Seattle; KUOA, Siloam Springs, Ark.; KWLC, Decatur, Iowa; KWSC, Pullman, Wash.; KYA, San Francisco; WAAT, Jersey City, N. J.; WASH, Grand Rapids, Mich.; WAVE, Louisville, Ky.; WBRC, Birmingham, Ala.; WCAD, Canton, N. Y.; WCAM, Camden, N. J.; WCOP, Boston; WCHS, Portland, Maine; WDAE, Tampa, Fla.; WDAY, Fargo, N. Dak.; WDBJ, Roanoke, Va.; WDOD, Chattanooga, Tenn.; WEBG and auxiliary, Duluth, Minn.; WFBM, Indianapolis, Ind.; WBFR and auxiliary, Baltimore; WHA, Madison, Wis.; WHN and auxiliary, New York City; WINS, Milwaukee; WJAS, Philadelphia, Pa.; WQAK, San Juan, P. R.; WNAC, Boston; WNAD, Norman, Okla.; WNBNX, Springfield, Vt.; WNBZ, Saranac Lake, N. Y.; WNEL, San Juan, P. The following renewals of high frequency broadcast (experimental) station licenses were granted for the period April 1, 1937 to April 1, 1938, on an experimental basis, subject to whatever action may be taken upon renewal application:

**WCAE—WCAE, Inc., Pittsburgh, Pa., Auxiliary.**—Granted renewal of license on a temporary basis only, subject to whatever action may be taken upon renewal application.

**WCHS—Charleston Broadcasting Co., Charleston, W. Va.**—Granted renewal of license for the period ending Sept. 1, 1937.

**WLBD—State of Wisconsin Department of Agriculture and Market, Stevens Point, Wis.**—Granted renewal of license for the period ending Sept. 1, 1937.

**WPHR—WLBG, Inc., Petersburg, Va.**—Granted renewal of license for the period ending Sept. 1, 1937.

**W2XDV, New York City; W9XHW, Minneapolis; W2XDG, New York City; W2XHG, New York City; W9XBS, Chicago; W9XPD, St. Louis, Mo.; W6XOK, St. Louis, Mo.; W6XAI, Victor Township, N. Y.; W8XH, Buffalo, N. Y.; WIXKA, Boston; W1XKB, East Springfield, Mass.; W3XKA, Philadelphia; W6XKA, Pittsburgh, Pa.; W5XAU, Oklahoma City; WIXER, Quincy, Mass.**—Present license extended on a temporary basis only for the period in no event later than May 1, 1937, pending receipt and action on renewal application.

**WCAP—Radio Industries Broadcast Co., Asbury Park, N. J.**—Present license extended on a temporary basis only for the period ending in no event later than May 1, 1937, pending receipt and action on renewal application.

**WTNJ—WCAX, Inc., Trenton, N. J.**—Present license extended on a temporary basis only for the period in no event later than May 1, 1937, pending receipt and action on renewal application.

**WGBU—Alaska Radio & Service Co., Inc., Ketchikan, Alaska.**—Present license extended on a temporary basis only for the period in no event later than May 1, 1937, pending receipt and action on renewal application.

**KGGM—New Mexico Broadcasting Co., Albuquerque, N. Mex.**—Present license extended on a temporary basis only for the period in no event later than May 1, 1937, pending receipt and action on renewal application.

**KOAX—Alaska Radio & Service Co., Inc., Ketchikan, Alaska.**—Present license extended on a temporary basis only for the period in no event later than May 1, 1937, pending receipt and action on renewal application.

**W2XDV, New York City; W9XHW, Minneapolis; W2XDG, New York City; W2XHG, New York City; W9XBS, Chicago; W9XPD, St. Louis, Mo.; W6XOK, St. Louis, Mo.; W6XAI, Victor Township, N. Y.; W8XH, Buffalo, N. Y.; WIXKA, Boston; W1XKB, East Springfield, Mass.; W3XKA, Philadelphia; W6XKA, Pittsburgh, Pa.; W5XAU, Oklahoma City; WIXER, Quincy, Mass.**—Present license extended on a temporary basis only for the period in no event later than May 1, 1937, pending receipt and action on renewal application.

The following renewals of high frequency broadcast (experimental) station licenses were granted for the period April 1, 1937 to April 1, 1938, on an experimental basis, subject to change without prior notice or hearing:

**W2XDV, New York City; W9XHW, Minneapolis; W2XDG, New York City; W2XHG, New York City; W9XBS, Chicago; W9XPD, St. Louis, Mo.; W6XOK, St. Louis, Mo.; W6XAI, Victor Township, N. Y.; W8XH, Buffalo, N. Y.; WIXKA, Boston; W1XKB, East Springfield, Mass.; W3XKA, Philadelphia; W6XKA, Pittsburgh, Pa.; W5XAU, Oklahoma City; WIXER, Quincy, Mass.**—Present license extended on a temporary basis only for the period in no event later than May 1, 1937, pending receipt and action on renewal application.

The following applications, heretofore set for hearing, were dismissed as cases of default for failure to file an appearance and statement of facts to be proved in accordance with Rule 104.6 (c):

**NEW—C. P. Sudweeks, Spokane, Wash.**—1 KW-LS, unlimited.

The following applications, heretofore set for hearing, were dismissed at request of applicants:

**NEW—Howard A. Miller, Galesburg, Ill.**—C. P. 1500 kc., 100 watts, daytime.

**NEW—Staunton Broadcasting Co., Inc., Staunton, Va.**—C. P. 1500 kc., 250 watts, daytime.

WHK—Radio Air Service Corp., Cleveland, Ohio.—Modification of license 1390 kc., 1, KW, 5, KW, unlimited.

EXAMINERS REPORTS SUBMITTED DURING WEEK OF MARCH 16 TO 26, 1937

NEW—Ex. Rep. 1-370: Falls City Broadcasting Corp., Falls City, Nebr.—Examiner Walker recommended denial of application for C. P. for new station to operate on 1310 kc., 100 watts, unlimited.

WBAI—Ex. Rep. 1-371: John H. Stenger, Jr., Wilkes-Barre, Pa.—Examiner Bramhall recommended grant of modification of license to change hours of operation from specified to unlimited.

WELL—Ex. Rep. 1-372: City Broadcasting Corp., New Haven, Conn.—Examiner Seward recommended that application to change frequency from 900 kc. to 930 kc. power from 300 watts to 250 watts night, 500 watts LS, and hours of operation from daytime to unlimited be granted conditionally.

NEW—Ex. Rep. 1-373: J. L. Statler, d/b as Baker Hospital, Muscatine, la.—Examiner Walker recommended denial of authority to transmit programs to stations in Canada and Mexico.

NEW—Ex. Rep. 1-374: H. O. Davis, Mobile, Ala.—Examiner Seward recommended denial of application to erect new station to operate on 610 kc., 250 watts, night, 500 watts LS, unlimited.

KRLH—Ex. Rep. 1-376: Clarence Scharbauer, Midland, Tex.—Examiner Seward recommended denial of license to operate from local sunset (March sun set, 5:45 p. m., CST) to 10 p. m. March 22, 1937, in order to conduct location survey.

WJBR—Ex. Rep. 1-378: J. B. Roberts, Gastonia, N. C.—Examiner Bramhall recommended denial of application for modification of C. P. requesting additional time to construct station; and, NEW—Virgil V. Evans, Gastonia, N. C.—Recommended denial of application for C. P. for new station to operate on 1420 kc., 100 watts, unlimited.

ACTION ON EXAMINER'S REPORT

ORAL ARGUMENT

WMMN—Monongahela Valley Broadcasting Co., Fairmont, W. Va.—Granted petition to intervene in the hearing on the application of W. Va., Newspaper Publishing Co., for C. P. to erect a new broadcast station at Clarksburg, W. Va., to operate on 1350 kc., 1 KW, daytime only.

NEW—Athens Times, Inc., Athens, Ga.—Granted petition to intervene in the hearing on application of J. K. Patrick & Co., for C. P. to erect new station at Athens, Ga., to operate on 1310 kc., 100 watts night, 250 watts LS, unlimited time.

KGB—Don Lee Broadcasting System, San Diego, Calif.—Granted petition to intervene in the hearing on the application of the Radiotel Corp., for C. P. to erect a new station in San Diego under the call sign KGB, to operate on 920 kc., 500 watts, unlimited time.

KALB—Alexandria Broadcasting Co., Alexandria, La.—Denied petition asking Commission to cancel oral argument in the proceeding in Docket 4110. Postponed action on petition in so far as it prays for grant of the application until the application is determined upon its merits. This is an application for modification of license to increase frequency from 1450 kc. to 1210 kc., and to increase hours of operation from daytime to unlimited.

WPG—City of Atlantic City, Atlantic City, N. J.—Granted petition to intervene in the hearing on the application of the Press Union Publishing Company for a C. P. to erect a new station at Atlantic City to operate on 1290 kc., 100 watts, 250 watts LS, unlimited time.

KOL—Seattle Broadcasting Co., Inc., Seattle, Wash.—Granted petition to intervene in the hearing on the application of the Northwest Research Foundation, Inc., for C. P. to erect a new special broadcast station to operate on 1530 kc., 1 KW, unlimited.

WJJBJames F. Hopkins, Inc., Detroit, Mich.—Granted petition to intervene in the hearing on the application of the Voice of Detroit, Inc., for a C. P. to erect a new broadcast station at Detroit, Mich., to operate on 1120 kc., with 500 watts night, 1 KW LS, unlimited time.

WJW—WJW, Inc., Akron, Ohio.—Denied petition to intervene in the hearing on the application of the Summit Radio Corp., for C. P. to erect a new broadcast station at Akron, Ohio, to operate on frequency 1550 kc., 1 KW, unlimited time.

WTCN—Minn. Broadcasting Corp., Minneapolis, Minn.—Denied petition to intervene in the hearing on the application of George W. Young for C. P. to erect a new station in St. Paul, Minn., to operate on 920 kc., with 1 KW night, 5 KW LS, unlimited time.

WTCN—Minn. Broadcasting Corp., Minneapolis, Minn.—Denied petition to intervene in the hearing on the applications of the National Battery Broadcasting Co., for C. P. to erect two new stations in St. Paul, Minn., (1) to operate on the frequency 580 kc., with 1 KW, unlimited, and (2) to operate on the frequency of 920 kc., with 1 KW, unlimited time.

WHK—Radio Air Service Corp., Cleveland, Ohio.—Accepted answer to the examination of the Commission and to increase hours of operation from daytime.

WCHS—Charleston Broadcasting Co., Charleston, W. Va.—Continued for approximately 30 days from April 13, 1937, hearing on application for C. P. to install vertical antenna and to increase power from 500 watts to 1 KW during nighttime hours.

WCAZ—Superior Broadcasting Service, Carthage, Ill.—Granted request to withdraw its application for modification of C. P. to make changes in equipment and to increase power from 100 watts to 250 watts, daytime only.

C. Kenneth Miller, Tulsa, Okla.—Denied petition asking Commission to reconsider and grant application for C. P. to erect new broadcast station to operate on 1310 kc., 100 watts, unlimited time. Hearing set for April 23, 1937.

Dr. William States Jacobs, d/b as William States Jacobs Broadcasting Co., Houston, Tex.—Granted request to continue hearing about 30 days after April 5, 1937, the date now set. This is an application for C. P. to erect new station at Houston to operate on 1320 kc., 1 KW, unlimited time.

F. M. Gleason, d/b as North Georgia Broadcasting Co., Rossville, Ga.—Granted petition to reopen for further hearing on date about 30 days hence for purpose of receiving depositions. Secretary of Commission to send depositions formerly filed.
in this Docket (No. 3979) to Charles Robert Jones, Notary Public, Rossville, Ga., under Commission use, for purpose of having deponents subscribe to depositions and return to Secretary at least 5 days prior to date of the reopened hearing.

WSAU—Northern Broadcasting Co., Wausau, Wis.—Rule 104.4 suspended with regard to application for modification of C. P. requesting increase in operation from daytime to unlimited time. Objections of Edward Hoffman dismissed.

WSAY—Brown Radio Service & Lab., Gordon P. Brown, owner, Rochester, N. Y.—Denied petition to reconsider and grant without hearing application to make changes in equipment and to increase power from 100 watts day only to 100 watts night and 250 watts day—full time.

Harold F. Gross and Edward C. Shields, Bay City, Mich.—Denied

KOOS—Pacific Radio Corp., Marshfield, Ore.—Denied petition asking Commission to reconsider and grant without hearing application for assignment of license of KOOS, daytime station operating on 1210 kc., from Pacific Radio Corp. to KOOS, Inc.

APPLICATIONS RECEIVED

First Zone

NEW—The Colonial Network, Inc., Providence, R. I.—Construction permit to erect a new broadcast station to be operated on 720 kc., 1 KW power, limited time. Amended to change name of station from Bay State Broadcasting Corporation to The Colonial Network, Inc.

NEW—Thomas J. Watson, Endicott, N. Y.—Construction permit to erect a new broadcast station to be operated on 1240 kc., 1 KW power, unlimited time, directional antenna for night use. Amended to give studio as North Avenue, Endicott, N. Y., and transmitter site as 3 1/2 miles east northeast of Endicott, adjacent to I. B. M. Gun Club, Union Township, New York.

KOOS—Pacific Radio Corp., Marshfield, Ore.—Denied petition asking Commission to reconsider and grant without hearing application for assignment of license of KOOS, daytime station operating on 1210 kc., from Pacific Radio Corp. to KOOS, Inc.

Second Zone

WWVA—West Virginia Broadcasting Corp., Wheeling, W. Va.—1140 Construction permit to change frequency from 1160 kc. to 1140 kc., hours of operation from simultaneous day WOWO, share WOWO night, to unlimited time, and install directional antenna for night use. Amended to change transmitter site from Bell's Lane, 8 1/2 miles northeast of Wheeling, West Liberty, W. Va., to 2 1/2 miles east of St. Clairsville, Richland Township, Ohio.

WCPO—Continental Radio Co., Cincinnati, Ohio.—License to cover construction permit (B2-P-1464) for new transmitter and antenna and move of transmitter.

WBEO—The Lake Superior Broadcasting Co., Marquette, Mich.—1310 Modification of license to change specified hours from daily except Sunday, 9:30 a. m. to 4:30 p. m.; Sunday, 9:00 a. m. to 1:30 p. m., CST, to daily except Sunday, 9:30 a. m. to 1:30 p. m., CST.

WBLK—The Exponent Co., Clarksburg, W. Va.—Modification of construction permit (B2-P-1127) as modified for new transmitter and changes in hours of operation from day to unlimited, power from 100 watts to 100 watts night, 250 watts day, extend commencement and completion dates 90 and 180 days respectively, and make change in antenna. Amended: Request 100 watts power day and night, and equipment changes.

Third Zone

KVVO—Southwestern Sales Corporation, Tulsa, Okla.—Construction permit to change hours of operation from simultaneous day WAPI, share WAPI night, to unlimited time, and install directional antenna for night use.

WOWO—Westinghouse Radio Stations, Inc., Fort Wayne, Ind.—1160 Modification of license to change hours of operation from simultaneous day, share WWVA night, to unlimited time. (Contingent upon the granting of WWVA's application for change in frequency.

NEW—Capitol Broadcasting Co., Inc., Raleigh, N. C.—Construction permit for a new broadcast station to be operated on 1210 kc., 250 watts power, daytime operation.

KRIS—Gulf Coast Broadcasting Co., Corpus Christi, Tex.—Modification of construction permit (B3-P-539) for new station, requesting approval of vertical antenna approval of transmitter, site at Ocean Drive, Corpus Christi, Texas, and studio at Medical Professional Building, Corpus Christi, Texas.

WSFA—Montgomery Broadcasting Co., Inc., Montgomery, Ala.—1410 Modification of license to increase night power from 500 watts to 1 KW.

WRDW—Augusta Broadcasting Co., Inc., Augusta, Ga.—Modification of construction permit (B3-P-1301) for move of transmitter and installation of vertical antenna requesting changes in equipment, and increase in power from 100 watts to 100 watts night, 250 watts day. Also extend completion date from 5-29-37 to 90 days after grant.

Fourth Zone

KVOK—Robert K. Herbst, Moorhead, Minn.—Voluntary assignment of construction permit (B4-P-324) from Robert K. Herbst to KVOK Broadcasting Co.

NEW—Galesburg Broadcasting Co., Galesburg, Ill.—Construction permit for a new station to be operated on 1500 kc., 250 watts, daytime.

NEW—Metropolitan Radio Service, Inc., Chicago, Ill.—Construction permit for a new special broadcast station to be operated on 1570 kc., 1 KW power, unlimited time.

WXXA—The Journal Co., Mobile, Ala.—Construction permit for replacement of transmitter and increase power from 7.5 watts to 50 watts.

Fifth Zone

KXK—American Radio Telephone Co., Seattle, Wash.—Construction permit to make changes in equipment, install vertical antenna, increase power from 250 watts night, 500 watts day, to 1 KW and move transmitter and studio from 218 Bigelow Building, Fourth Avenue and Pike Street, Seattle, Washington, to site to be determined, Seattle, Washington.

KROY—Royal Miller, Sacramento, Calif.—License to cover construction permit (B4-P-713) as modified, for a new station.

KHB—F. W. Atkinson, Watseville, Calif.—License to cover construction permit (B5-P-781) as modified, for a new station.

KMO—KMO, Inc., Takoma, Wash.—License to cover construction permit (B5-P-1235) as modified, for increase in power, new equipment and move of transmitter.

KOY—Salt River Valley Broadcasting Co., Phoenix, Ariz.—Modification of license to increase power from 500 watts night, 1 KW daytime to 1 KW day and night.

NEW—Warren B. Worcester, San Diego, Calif.—Construction permit to erect a new station on 1400 kc., 250 watts, 1 KW day, unlimited time.
WASHINGTON HIGHLIGHTS

Chicago selected for NAB Convention * * * * NAB Board of Directors decide at meeting in Washington, D. C., to assist in defense of the Montana and Washington State Copyright Laws * * * * endorse both the Duffy Copyright Bill (S. 7) and the Sheppard Copyright Bill (S. 2031) * * * * appoint committee to investigate problem looking to refund of monies paid to the Warner Bros.-owned Music Publishers Holding Corporation * * * * Appraise Havana conference * * * * Board members audition NAB recorded library * * * * authorize officers to proceed with the incorporation of a Bureau of Copyrights.

NAB CONVENTION AT CHICAGO IN JUNE

The Board of Directors at their Spring Meeting selected Chicago, Illinois, as a meeting place for the 15th Annual NAB Convention. The exact date in June will be selected by the Executive Committee at an early date.

NAB DIRECTORATE DIRECTS ASSISTANCE BE GIVEN MONTANA AND WASHINGTON

The Board of Directors of the NAB at a meeting held in Washington, D. C., April 7 agreed that competent counsel should be retained to assist in the defense of the Montana and Washington State Copyright laws and to advise State Associations concerning proposed legislation in their respective states.

NAB ENDORSES FEDERAL COPYRIGHT BILLS

The NAB Directors on April 7 voted to support both the Duffy Copyright Bill (S. 7) and the Sheppard Copyright Bill (S. 2031). The Sheppard Bill is identical with the bill proposed by Ed Craney (KGIR, Butte, Mont.) in his letter to the General Manager of the Ascap on February 7, 1937, copy of which Mr. Craney sent to all NAB members.

COMMITTEE APPOINTED TO INVESTIGATE REFUNDS BY WARNER BROS. MUSIC SUBSIDIARY

President C. W. Meyers, under authority given by the NAB Directorate on April 7, has appointed Joe Maland (WHO, Des Moines), John Elmer (WCBM, Baltimore), and John Gillin (WOW, Omaha) as a committee of three to investigate and forward plans seeking the refund of monies paid by broadcasting stations to the Music Publishers Holding Corporation, a Warner Bros. subsidiary.

BOARD APPRAISES HAVANA CONFERENCE

The Board of Directors of the NAB this week discussed the many ramifications of the International Radio Conference just concluded at Havana, Cuba. The Managing Director, James W. Baldwin, who spent a week in Havana as an unofficial observer, commended the attitude displayed by the members of the various government delegations and expressed the view that by reason of their technical qualifications and serious intentions very constructive results might be expected at the next conference scheduled to open in Havana November 26th.

The members of the Board were in agreement on the proposal that the problems incidental to a North American Radio agreement should be carefully studied and appraised in the interests of good radio broadcasting.

INITIAL AUDITION NAB RECORDED LIBRARY ENTHUSIASTICALLY RECEIVED BY BOARD OF DIRECTORS

At a meeting of the Board of Directors this week the Director of the Bureau of Copyrights, Edward J. Fitzgerald, gave a one hour audition for the Directors to demonstrate the progress of the Bureau of Copyrights in the building of an electrical transcription library based primarily on public domain music.

The selections performed for the Board members were
typical examples of one hundred and eighty selections comprising ten hours of music which have been produced by the NAB and which very shortly will be offered to member stations.

The quality of the library may best be measured by the unanimous adoption of a motion by the Board that the Managing Director and his staff should be highly commended for the work thus far accomplished in the building of a music library.

The present schedule of the Bureau of Copyrights calls for a total of twenty-five hours of recordings (approximately 500 selections) by June first.

Just one year ago this month the Board of Directors at a meeting in Chicago approved a plan submitted by the Managing Director which had as its main objective the creation of a library of one hundred hours of music based primarily on music in the public domain. The production and recording of the first 10 hours of music signals the execution of the plan which won the almost universal approval of the NAB members at the 14th annual convention.

The success of the NAB's efforts in building a so-called public domain library is expected to be judged by the ability of the arranging staff to modernize the old musical selections and make them conform to present day needs. This ability on the part of the Bureau of Copyrights is well demonstrated in the variety contained in the first ten hours including the popular swing dance numbers and other modern arrangements.

The creation of an independent supply of music for radio broadcasting should win the hearty approval of those representatives of the ASCAP, who for several years have publicly criticized the use of popular music by radio broadcasting stations and charged that the radio broadcasting industry was responsible for "killing" the sales of popular sheet music. Also, it is expected that the NAB accomplishments in creating for radio a supply of music based primarily on musical selections in the public domain will be cheered by those who have complained so vigorously against the use of phonograph records by radio broadcasting stations.

With the creation of a new corporation which has been authorized by the Board of Directors and which will handle all the business details incidental to distributing the music, definite proposals including cost of materials (recordings and sheet music) will be formally submitted to the membership. It is expected that distribution will begin within 30 to 60 days.

**BROADCAST COURT DOCKET**

The following broadcast cases are now pending in the United States Court of Appeals for the District of Columbia:

Case No. 6762—Paul R. Heitmeyer (Cheyenne, Wyo.) vs. FCC.
Case No. 6772—Eastland Company vs. FCC.

**CHANGES RECOMMENDED FOR WATR**

Broadcasting station WATR, Waterbury, Conn., applied to the Federal Communications Commission to change its frequency from 1190 to 1290 kilocycles, increase its power from 100 to 250 watts and change its hours of operation from sharing with WOAI to unlimited time.

Examiner Melvin H. Dalberg in Report No. I-379 recommended that the application be granted. He found that there is ample program material available for additional hours of broadcasting and that the proposed operation of the station will not adversely affect the interests of any licensed station. Also there are "no pending applications which involve the possibility of objectionable interference to other stations." The Examiner found that the granting of the application would be in the public interest.

**BRIEF IN SUPPORT OF STATE COPYRIGHT BILL**

Kenneth C. Davis has furnished the NAB with a copy of his brief in support of the State of Washington Copyright Bill (see NAB REPORTS, Vol. 5, No. 14, Page 2010).

Mr. Davis' brief follows:

The states have jurisdiction over a combination of copyright owners or proprietors, in that, "no more than the patent statute was the copyright act intended to authorize agreements in restraint of trade and tending to monopoly."

"While the compositions owned and controlled by the defendant American Society of Composers, Authors and Publishers may be copyrighted, a suit to enjoin a conspiracy to restrain commerce and trade in such compositions is not one arising under the copyright laws of the United States." (Citing Straus vs. American Publishers, (supra) and Standard Oil Company vs. U. S., 283 U. S. 163.)

The appointment of a receiver in such a case is merely incidental to the main suit."

Washington vs. ASCAP (Supra).
(There are many cases on this point—see reported decision.)

The states may enforce the monopoly law in their way. —"It cannot be denied that the power of the state to protect the lives, health and property of its citizens, and to preserve good order and the public morals, its power to govern man and things within the limits of its dominion" is a power originally and always belonging to the states, not surrendered by them to the general government, nor directly restrained by the constitution of the U. S. and essentially exclusive."

U. S. vs. Knight, 156 U. S. 1 and page 11.

A receiver may be appointed to enforce the Anti-trust laws, and the monopoly laws of a state.

Clerk on Receivers, Vol. 1, Sec. 243, p. 332.
Washington vs. ASCAP (supra).
United States vs. Union Pacific Railroad, 226 U. S., p. 98.

Copyrights are property.
Ager vs. Murray, 105, 105 U. S. 126.

Mere service of process is not a Federal question.
German In. Co. vs. Wisconsin, 119 U. S. 473.

An intangible property may be so used in a state other than the owner's domicile as to give such property a situs analogous to the actual situs of tangible personal property in said state.

U. S. National Bank vs. Main, 284 U. S. at 331.

The states have control over all property, tangible or intangible, having its situs there.
U. S. vs. Knight, 156 U. S. 1.

The situs of copyrights are coextensive throughout the United States.
Ager vs. Murray, 105 U. S. 126, 130.

A Texas statute providing that Special appearances shall constitute a general appearance does not deny "due process of Law or act as 'deprivation of property rights.' " The Supreme Court of the United States so held in York vs. Texas, 11 Supp. Court 9, and Kaufman vs. Westers, 11 Supp. Court 298, a special appearance based on such a statute thus brings the defendants, non-resident or resident, personally and generally before the court.

The Federal courts would have no jurisdiction under the copyright laws, if any defendant sued for infringement, as the Receiver would have issued a license, and where a license exists, the copyright laws are only incidentally drawn into question; and as the state courts can determine questions or rights concerning the title of copyrights, and since there is a difference between a case and a question on copyright, the Federal court would have no jurisdiction until recission was sought by such plaintiff of the license issued by the receiver in the State Court. Then too, the Copyright law states the "owner or proprietor" must bring an infringement action, and obviously the title would not be clear, so the infringement suit really involves only a "question" on copyright and not a "case," and the State courts have jurisdiction thereof, and the Federal court has no such jurisdiction under the copyright laws.

Then too, Federal Courts follow those decisions of the State courts, which are based on the Criminal statutes of that state. This is so, because the question of whether a crime has been committed, is not a Federal question.
Howard vs. Fleming, 191 U. S. 126.
Ughbanks vs. Armstrong, 208 U. S. 481.

The receiver or Anti-monopoly Board can set rates, and the receiver can make new contracts, or even renew old ones, and still, that does not create a Federal Question or violate the United States Constitution.

Most combinations, pools, and groups have taken assignments from their members and have complete title to the copyrights of its members, and those who have signed said membership agreements, whether Publisher, Author, or Composer, giving such combination or entity a five year assignment, have really assigned the entire Copyright. Such assignments are held to be absolute assignments; a comparable illustration is the membership agreements of ASCAP which recite the most they (ASCAP) are to have, and the member could not give them any more. The Supreme Court of the United States held such membership contracts to be outright assignments carrying title. Thus, any title of the Receiver would be a complete title:
DRONE on Copyrights, page 337.

The various legislatures may declare that the property of the monopolist shall forfeit to the State after a reasonable time (See Idaho Statutes and many cases on this point).
Congress recently (last session) passed a law giving the several states power to make reciprocal deals with one another for the purpose of endorsing their respective criminal laws. The various state enforcement agencies could work out a per piece system and plan to curb such abuses.

Once a Court of Equity in a state has acquired jurisdiction over a defendant, non-resident or not, the court may coerce and compel the defendant to act in relation to property not within its jurisdiction. To illustrate, a court of equity in Vermont, having jurisdiction over the defendant in personam, can compel him to execute a deed to property in Texas.

Carpenter vs. Strange, 141 U. S. 87, 105.

The fact that a special appearance is made a general appearance by legislative act, and that service is not a Federal question, and that all defendants are doing business in each state where their music is used, or their entity performs some function of its charter, all of these will enable the various states to acquire jurisdiction in personam as well as in rem. Further, even though the matter is in rem at the start, yet the only known way for them to get a release of their property is by special appearance of special motion, otherwise, the property will be in suspense and under a cloud. If they make such an appearance, it is a general appearance by statute, and the action is then in personam.

If a sale of the use of a copyrighted work for public performance takes place in Chicago, and the use is broadened in scope to include Seattle, the owner of said copyrighted work whose sole value is in its use, once having obtained a consideration for its use and having sold said use for a particular occasion, parts with the right to further restrict that use. The Supreme Court of the United States in Hobbs vs. Jennison, 13 Supreme Court Reporter 879, and in Adams vs. Burke, 17 Wallace 453, said:

"Where the patentee, or the person having its rights, sells a machine or instrument, whose sole value is in its 'use' he receives a consideration for its 'use' and parts with the right to restrict that 'use'"

Injunction is a proper way of enforcing criminal statutes:

Georgia Trust Co. vs. Georgia, 109 Ga. 756; 35 S. E. 323; 41 Corpus 198.

The act of one conspirator is the act of all, and where an agreement in violation of the Anti-Trust Laws is made, and one party (monopolists) pursues the course of conduct agreed upon, the other parties (the users) are liable as aiders and abettors.

State v. Racine, 63 Texas Civil app. 663; 134 S. W. 400; 41 Corpus 127.

A Federal license cannot shield one or operate as a shield in violation of state law—

49 Federal 238; see also Straus case, supra.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

No. 3093. Charging unfair competition through use of the term "Virginia" to describe meats or meat food products not obtained from live stock grown in Virginia, a complaint has been issued against United Corporation, trading as Virginia Products Co., 212 American Bank Building, Richmond, Va., and George M. Crump, individually and as the corporation's president.

The complaint alleges that the respondent company, by using the word "Virginia" in its trade name and on labels on containers of its products, and in other ways, represented to the purchasing public that the meats used in its products were obtained from hogs and cattle grown in Virginia, and that the products have been cured and processed by the well-known Virginia method.

According to the complaint, the respondent company, through arrangements with different meat packers, purchased deviled ham and corned beef ready packed and labeled as specified by the respondent company, but such products were neither obtained from Virginia cattle and hogs nor processed by the Virginia method.

No. 3094. Misrepresentation of the therapeutic value of a medicinal preparation designated "Excel Gland Tablets" is alleged in a complaint issued against C. J. O'Crowley, trading as Excel Products, 4136 Sheridan Road, Chicago.

Advertising in newspapers, magazines and circulars, the respondent allegedly represented that his tablets consist of gland medicines, and are a gland stimulant; that they constitute a competent aphrodisiac, enable one to be young again, and that the results from their use are sure.

Such representations are false and misleading, according to the complaint, which alleges that the respondent's product is not in any sense a gland treatment and is not a competent treatment for natural debility or for debility caused in any manner.

No. 3095. Use of a lottery scheme in selling blankets and bedspreads is alleged in a complaint issued against Miller, Bain, Beyer & Co., 1001 Fifteenth St., Philadelphia, William F. Allen, Charles H. Wolf, Edward M. Mullen and Charles H. Clark, and as copartners in the firm, also are named respondents.

According to the complaint, the respondents advertise their merchandise and sales plan by means of cards, circulars and letters and sell their products to wholesalers and retailers, clubs, fraternal organizations, hospitals and charitable institutions for resale to the purchasing public.

The respondents' method of distributing their merchandise is described as a "Club Plan", the clubs organizing having a fixed number of members, usually 60 or 100, each of whom pays weekly dues, generally 25 cents, for a given period of weeks, usually 20 or 24.

No. 3096. Unfair representations indicating that certain domestic-made products are imported from France, are alleged in a complaint issued against Chanel, Inc., 35 West 34th St., New York, dealer in toilet preparations. The complaint alleges unfair competition in violation of Section 5 of the Federal Trade Commission Act.

Perfume products were labeled in a manner purporting to describe and refer to the place of their origin, according to the complaint, by use of the following names: "Glamour de Chanel, Paris, France"; "Chanel-Jasmin, Chanel, Paris"; "No. 5, Chanel, Paris", and "Gardenia de Chanel, Paris".

Use of these representations on cartons and containers is alleged to have had a tendency to deceive buyers into the mistaken belief that the products so named were made or compounded in France and imported into the United States, when, in fact, they were produced in the United States.

STIPULATIONS AND ORDERS

The Commission has issued the following cease and desist orders and stipulations:

No. 1925. Clarence N. Debaugh, trading as C. D. Electric Co., Ruxton, Md., in the sale of an electrical apparatus for re-
moyal of surplus hair, designated "Monolux Hair Remover," agrees to stop using the words "safe," "painless" or "permanent" in describing this article, without at the same time qualifying such representations in accordance with the facts and the necessary care and skill required to be used in its application. The stipulation points out that use of this device by self-application is not safe, easy, or permanent or harmless, as was indicated in the respondent's advertising, unless great care and skill are used in its application.

No. 1926. James D. Bou勒er, trading as Eastern Textile Co., Power Square, Greenfield, Mass., agreed to cease advertising bundles of dry goods remnants as "dress remnants," so as to imply that the bundles are composed wholly of remnants of dress materials. If the bundles are composed in substantial part of remnants of dress materials, and the words "dress remnants" are used to describe the contents, then such words shall be prominently accompanied by other words so as to indicate clearly that the bundles are not composed wholly of dress remnants, but in part of other materials. Bou勒er also agreed to stop advertising "Satisfaction Guaranteed or Money Back", so as to imply that in all instances both the purchase price and the postage paid by dissatisfied customers will be returned to them, when such is not a fact.

No. 1928. The Bay Co., trading as American Plaster Co., 305 Bishop St., Bridgeport, Conn., agrees to stop using the word "sterilized" as a brand or mark for absorbent cotton which has not been rendered free from bacteria after being packaged, or in the packing of which the best accepted sanitary precautions have not been followed in the removal and killing of all bacteria. The company agrees to cease employing the word "sterilized" in such way as to imply that its products have been sterilized and are sanitary, when this is not a fact.

No. 1929. Use of lottery schemes in the sale of certain food products will be discontinued by Hiram E. and Lottie Vickers, trading as Dub's Sandwich Co., 4011 South Driver Ave. In part of its stipulation entered into by these respondents.

Manufacturing peanut-butter and cheese sandwiches, candies and other similar products, and selling them exclusively to the jobbing trade or wagonmen, the respondents are said to have packed them in cartons containing 24 packages, each package holding five sandwiches wrapped in cellophane and selling for five cents each.

No. 1930. Fred F. Weissman, Inc., 270 West 38th St., New York, stipulated that on labels it will discontinue use of the phrase "100% Camel's Hair" as descriptive of those of its coats not composed of camel's hair, and of the words "Camel's Hair" either alone or with "100%", or in any manner so as to imply that the products to which such words apply are composed wholly of camel's hair, when this is not true. The stipulation provides that if the respondents sell coats made substantially of camel's hair, then such words shall be accompanied by other words in type equally conspicuous so as to indicate clearly that the coats are composed in part of materials other than camel's hair.

No. 1931. Centemetalcraft Corporation, 1105 Lawrence Ave., Chicago, has entered into a stipulation to discontinue certain unfair methods of competition, in violation of Section 5 of the Federal Trade Commission Act, in the sale of cooking utensils under the trade name "Silver-Seal".

The corporation agreed to cease representing in advertising matter and through salesmen that the waterless method of cooking accomplished only by use of Silver-Seal equipment, or that the cooking of foods in water necessarily deprives consumers of mineral salts, vitamins, nourishing elements and natural flavors of the foods, when such are not the facts; and that the eating of foods cooked in Silver-Seal utensils positively will improve health in all instances.

No. 1932. Allen's Poultry Farms and Hatchery, Creston, Iowa, stipulated that it will cease using in advertising matter the representation "We guarantee these chicks to be the best in the world," an allegation which may imply that the company's orders are filled promptly, and will also cease alleging that its flocks are "rigidly inspected" and that "the user certain benefits beyond those obtained from using any soap products so as to imply that they contain ingredients which give the soap products such a character that it is the successor of Timm's Cap Corporation, or that its caps are manufactured thereby. Provision is made that whenever the corporate name containing the word "Timm" is used in advertising matter it should be prominently accompanied by the phrase "Established in 1934," to indicate clearly that Timm Cap Co., Inc., is not the successor of Timm's Cap Corporation.

Timm's Cap Corporation is said to have acquired a good will through the excellence of its product, "Timm's Cap," the patent on which expired in 1930. In 1933 Timm's Cap Corporation was formed by the corporation.

No. 1935. Climax Radio & Television Corporation, manufacturer of radio sets, agrees to discontinue using the words "Edison," "Elgin," "Hamilton," or "Waltham" as brands or labels for products so as to imply that they are manufactured by or sold under license. He also agreed to discontinue use of the word "Laboratories" as part of its trade name, the stipulation providing that that name shall be accompanied by other words in type equally conspicuous so as to indicate clearly that the location of its premises is "No. 1959. Climax Radio & Television Corporation, manufacturer of radio sets, agrees to discontinue using the words "Edison," "Elgin," "Hamilton," or "Waltham" as brands or labels for products so as to imply that they are manufactured by or sold under license.
matter representations to the effect that its soap is of a dollar quality, contains no cocanut oil, or has extra beneficial qualities for the skin, when these assertions are not warranted by the facts.

No. 1961. Union Knitting Mills, 15 South Third St., Philadelphia, and Lawson Jaffe, Capitol Jewelers, 5 North Wabash Ave., Chicago, have entered into stipulations with the Federal Trade Commission to discontinue certain unfair representations in the sale of their products.

The knitting mills company, manufacturer of sweaters, trading under its corporate name or under the name Home Knitting Mills, agrees to stop employing the words "All Wool" or "All Wool 100 per cent" as a label for products not composed of wool. The company agrees to cease using the word "wool" alone or in connection with the word "all" or with "100 per cent," in ways which imply that its articles are made of wool. The stipulation provides that if its products are composed in substantial part of wool, the word "wool," if used to describe the wool content, shall be prominently accompanied by other words clearly showing that the articles are not made wholly of wool.

No. 1962. Lawson Jaffe, a wholesale jeweler distributing birthstone rings and birthstone rings, agrees to desist from the use of the words "Free Offer" in connection with advertisements featuring the language "Send 10¢ to cover handling—mailing," and a pictorial representation of a ring set with a stone, such representation implying that by paying 10 cents only a customer would be given free a ring set with his birthstone, when this is not a fact.

Use of the words "special" and "limited" when the offer described is not limited or special but is the usual or customary offer, will be discontinued, as will the use in advertising of the words "cameo," "ruby" or "onyx" to describe mountings of rings which are not set with those stones.

Jaffe will also stop using the word "platinum" alone or in connection with "rhodium", as descriptive of the finish of rings, when in fact each finish has no plating as a label.

No. 2333. The Clark Grave Vault Co., 375 East 5th Ave., Columbus, Ohio, has been ordered to cease and desist from false and misleading representations constituting unfair methods of competition in connection with the sale of metal burial vaults.

The respondent company was ordered to discontinue representing in purported certificates of warranty or in advertising matter that its vaults, made of ferrous metal, are absolutely water-proof and air-tight, and will remain so when placed underground for 50 years or for any stated period of time; that they are made of a metal resistant to rust or corrosion, which is proof against moisture and crumbling; that they will afford positive and permanent protection to the coffin and body encased therein, and are warranted for 50 years against water entering the vault due to rust or corrosion.

No. 2578. An order has been issued requiring H. Will Elders, of St. Joseph, Mo., to cease and desist from certain unfair methods of competition in the sale of Dr. H. Will Elders' Filled Prescription for Women, and other preparations.

Elders is directed to discontinue representing that his preparations constitute a cure, remedy, or competent and adequate treatment for sterility in women, or that they are beneficial in treating such condition unless the representations are limited to cases of sterility due to functional weaknesses.

Other similar representations, some of them in the form of advertising testimonials, are directed to be discontinued, under the order.

No. 2941. An order has been served upon General Electric Co., Westinghouse Electric & Manufacturing Co., Elliott Co. and Allis-Chalmers Manufacturing Co., an order to cease and desist from entering into or maintaining any conspiracy to fix and maintain uniform delivered prices in the sale of turbine generators and from selling turbine generators by agreement upon uniform performance guarantees. The order directs the respondents to cease and desist from engaging in the following acts in furtherance of any such conspiracy:

Selling turbine generators upon uniform performance guarantees where the guarantees are not based upon actual performance;

From using the pricing sheets of any of the companies as the pricing sheets of any of the others;

From submitting uniform bids.

The order, however, does not prohibit the exchange of scientific information, if not used for unlawful price fixing.

The order was predicated upon a complaint of the Commission charging a price fixing conspiracy in the sale of turbine generators, the purchasers of which are chiefly the Federal Government, state governments, municipal governments, and public utilities, and upon the answers of the companies admitting, for the purposes of the proceeding, only, the said conspiracy and the Commission's finding that the conspiracy had been entered into.

No. 3049. An order to discontinue misbranding certain articles of luggage sold in interstate commerce has been entered against Samuel Brier, trading as Samuel Brier & Co., 310 Spruce St., Philadelphia, and Quakertown Luggage Co., Inc., Quakertown, Pa., of which Brier is president.

The order directs the respondents to cease and desist from representing, through use of the words "Warranted Cowhide," "Genuine Cowhide," "All Leather," "Genuine Leather," or any other words of similar import, that luggage made from the inner split of leather is made from the outer split or any part of the hide or skin other than the inner split.

**Broadcast Advertising in February**

HIGHLIGHTS OF THE MONTH

Total broadcast advertising during February amounted to $10,182,325, a decline of 1.8% from the level of the previous month but an increase of 25.1% as compared to the corresponding month of last year. National network volume declined 5.7% as compared to January and local advertising dropped 2.5%. Regional network volume increased 4.5% and national non-network business rose 8.7%. All portions of the medium experienced gains as compared to last February. Local advertising increased to the greatest extent, rising 40.8%.

Radio broadcasting during February showed the greatest gain of any major medium as compared to the corresponding month of 1936. Whereas broadcast advertising increased 25.1% in volume, national magazine volume rose 12.8%, national farm paper volume 22.8%, and newspaper lineage 12.5%.

Non-network advertising increased 3.7% in volume over the preceding month and registered a gain of 33.9% over last February. Clear channel stations experienced the greatest increase over January, rising 6.5%. Compared to last February, regional station volume showed a gain of 58.3%. The South Atlantic-South Central area registered the greatest gain as compared to last month. All geographical districts showed substantial gains over last February.

Transcriptions showed the greatest increase of any type of rendition as compared to last month, rising 9.2%. Records and announcements showed the principal gains over last February. Announcements in the national non-network field and records in the local field showed the greatest increases over last month.

Principal gains were shown in the following sponsor groups: national network household equipment and soap and kitchen supplies; regional network tobacco, food-
stuffs and soap and kitchen supplies; national non-network automotive, beverage and soap and kitchen supplies; and local automotive and cosmetics. Retail broadcast advertising amounted to $971,830, a decline of less than 1.0% from the level of January but 34.0% greater than last February.

**TOTAL BROADCAST ADVERTISING**

Total broadcast advertising for the month of February is found in Table I.

Total broadcast advertising for the month of February declined 1.8% from the level of last month. This was due mainly to a 5.7% drop in national network business. Local broadcast advertising volume also experienced a decrease, declining 2.5%. Regional network and national non-network volume recorded gains of 4.5% and 8.7%, respectively.

Compared to February of last year, total broadcast advertising registered a 25.1% gain in volume. Local advertising volume increased to the greatest extent, rising 40.8%. National network volume was 19.4% ahead of last February and regional network and national non-network volume experienced gains of 4.2% and 29.3%, respectively.

**COMPARISON WITH OTHER MEDIA**

National magazine and national farm paper volume increased 39.8% and 49.1%, respectively, over January. Newspaper lineage, contrary to the trend of preceding years, experienced an increase of 4.0%. However, radio broadcasting showed the greatest gain in advertising volume of any major medium as compared to last February. Whereas radio broadcasting volume increased 25.1%, national magazine volume rose 12.8%, national farm paper volume 22.8%, and newspaper lineage 12.5%.

Advertising volume by major media is shown in Table II.

**NON-NETWORK ADVERTISING**

Following the usual seasonal trend, non-network broadcast advertising increased 3.7% over the preceding month. Non-network gross time sales showed a 33.9% gain over February of last year. Clear channel and high-powered regional station volume increased 6.5% over the January level and regional station volume showed a gain of 2.0%. Local station volume remained at approximately the same level.

Regional station volume experienced the greatest gain when compared to the corresponding month of last year, rising 58.3%. Non-network advertising over clear channel and high-powered regional stations rose 22.9%, while local station volume increased 11.1%.

Non-network advertising by power of station is found in Table III.

SPONSOR TRENDS IN FEBRUARY

Declines were general in the national network field with the exception of the household equipment, soap and kitchen supply and tobacco sponsor groups which registered increases as compared to last month. All groups except clothing, beverage and miscellaneous advertising showed gains over last February. Automotive advertising increased 49.1%, foodstuffs rose 42.2%, household equipment tripled, soap and kitchen supplies rose 52.4%, financial increased 41.3%, and radio set advertising more than doubled.

Foodstuffs, soap and kitchen supplies and tobacco advertising showed the most important gains over last month in the regional network field. Clothing and household equipment advertising experienced the most pronounced declines. As compared to last February, the principal increases were in the gasoline and accessory, cosmetic, beverage and tobacco sponsor groups.

National non-network automotive, beverage, and soap and kitchen supply advertising showed the principal gains over January. Department store advertising declined 16.6% and tobacco advertising 18.2%. The foodstuffs, beverage, confectionery, soap and kitchen supply and tobacco sponsor groups registered important gains over last February.

Local automotive advertising rose 25.2% and cosmetic advertising increased 34.2%, while gasoline and accessory advertising declined 54.8% and confectionery advertising 30.0%. With the exception of drug advertising, all groups showed increases when compared to the corresponding month of last year.

Broadcast advertising during February by major product and sponsor groups is shown in table VI, on page 2033.

Detailed information regarding various sponsor groups during the month of February is as follows:

1a. Amusements. As compared to last month, national non-network volume rose 2.9% and local advertising 24.9%. National non-network business 8.1% greater than during last February and local business 3.7% greater.

1. Automotive. National network volume declined 10.7% from January, while national non-network and local business showed gains of 91.8% and 25.2%, respectively. As against February, 1936, national network business increased 49.1% and local advertising 12.1%. National non-network volume declined 69.9%.

2. Accessories and gasoline. National network volume 11.4% less than during January. Regional network volume increased 6.8% and national non-network volume 9.1%. Local advertising declined 54.8%. Compared to the corresponding month of last year, national network and local business remained approximately the same, while regional network volume increased 91.1% and national non-network 7.6%.

3. Clothing. Compared to last month, national network volume decreased 17.4%, regional networks 76.3%, and local 16.6%. National non-network business rose 13.4%. National network volume 28.0% below the level of last February and national non-network volume 7.9% less. Regional network and local advertising 28.2% and 47.2% greater, respectively.

4. Drugs and pharmaceuticals. Regional network
volume rose 6.2%, while national network volume declined 7.8%, national non-network business 3.2%, and local advertising 12.6%. National network advertising 12.6% above last February and national non-network up 11.5%. Regional network volume down 27.6% and local 17.3%.

5. Toilet goods. National network volume 7.0% less than during January. Regional network business remained the same, while national non-network volume declined 1.1% and local advertising rose 34.2%. Gains as compared to February of preceding year as follows: national network 3.4%, regional networks 44.6%, national non-network 10.1%, and local 16.9%.

6. Foodstuffs. National network volume alone declined as compared to last month, dropping 5.1%. Regional network volume rose 16.3%, national non-network business 1.6%, and local advertising 5.6%. Gains over February 1936 as follows: national networks 42.2%, regional networks 7.6%, national non-network 63.9%, and local 44.1%.

7. Beverages. National network 13.9% below January and regional network volume down 19.4%. National non-network business rose 51.2%, while local advertising remained the same. National network volume 15.4% less than February of last year. Regional network volume rose 96.9%, national non-network business 43.3%, and local advertising 61.9%.

8. Confectionery. Compared to last month, national network volume declined 3.9%, regional network business 18.6%, and local advertising 30.0%. National non-network business rose 35.0%. Regional network business 46.5% below last February, while national network volume rose 18.3%, national non-network 33.5%, and local advertising 93.3%.

9. Household equipment. National network business three times as great as last month and national non-network business rose 13.2% and local business 5.7%. Regional network business declined 53.4%. Compared to last February, national network volume tripled and national non-network and local advertising increased 8.3% and 46.5%, respectively. Regional network volume declined 72.6%.

10. Soap and kitchen supplies. Gains over January as follows: national network 14.6%, regional networks more than tripled, national non-network 74.5%, and local 2.9%. National network volume increased 52.4% over last February, while national non-network volume was five times as great and local advertising more than tripled. Regional network volume declined materially.

11. Insurance and financial. National network volume 7.8% below January and local down 13.3%. National non-network volume increased 17.1%, while regional network business remained the same. National network volume 41.3% greater than during the corresponding month of last year, regional network business doubled, and local business rose 42.8%. National non-network volume declined 42.4%.

12. Radio. Compared to January, declines as follows: national network 15.5%, national non-network 4.6%, and local 14.5%. National network volume was more than double that of last February and local advertising rose 54.5%. National non-network business declined 62.1%.

13. Department and general stores. Regional business amounted to $800. National non-network volume dropped 16.6% and local advertising 2.3% as compared to last month. National non-network business down 20.3% and local advertising up 59.7% as against last February.

WGBI—Scranton Broadcasters Inc., Scranton, Pa.—Modification of license, 800 kc., 500 watts, 1 KW LS, shares-WOAN. Present assignment: 880 kc., 500 watts, shares WQAN. Other participants: WABC, New York City; WESG, Elmira, N. Y.; WRNL, Petersburg, Va.

WABY—Burlington Daily News, Inc., Burlington, Vt.—Granted C. P. to change transmitter site locally, install new equipment and vertical radiator, and increase night power from 500 watts, 1 KW LS, to 1 KW day and night. KTEM—Bell Broadcasting Co., Temple, Tex.—Granted C. P. for new equipment and increase in day power from 100 watts to 250 watts.

WBBR—Monmouth Broadcasting Co., Red Bank, N. J.—Granted license to cover C. P. authorizing changes in equipment.

WKBW—WKBW Broadcasting Co., Buffalo, N. Y.—Granted C. P. to make changes in equipment and increase in power from 100 watts to 250 watts.

WOR—Rockford Broadcasting Co., Rockford, Ill.—Granted license to cover C. P. authorizing changes in equipment.

WORL—WORL Broadcasting Co., Pocatello, Idaho.—Granted C. P. to make changes in equipment and increase power from 7.5 watts to 50 watts.

WRC—National Broadcasting Co., Inc., Washington, D. C.—C. P. to move transmitter site locally, install new equipment and vertical radiator, and increase night power from 500 watts to 1 KW and day power from 1 KW to 5 KW.

WTOC—WTOC Radio Station, Inc., Columbia, S. C.—C. P. to change transmitter site locally, install directional antenna system for night-time use, change frequency from 1500 kc. to 600 kc., and increase power from 100 watts, unlimited, to 1 KW, unlimited time.

WKY—WKY Radiophone Co., Oklahoma City, Okla.—Granted license for auxiliary transmitter on frequency 900 kc., with 1 KW power.

WMT—Lawrence W. McDowell, 320 E. Calhoun St., Des Moines, Iowa.—Granted C. P. to install new equipment, change frequency from 1500 kc. to 600 kc., and increase power from 100 watts, unlimited, to 1 KW, unlimited time.

WOR—Rockford Broadcasting Co., Rockford, Ill.—Granted license to cover C. P. authorizing changes in equipment.

WTOC—WTOC Radio Station, Inc., Columbia, S. C.—C. P. to change transmitter site locally, install directional antenna system for night-time use, change frequency from 1500 kc. to 600 kc., and increase power from 100 watts, unlimited, to 1 KW, unlimited time.

WPLS—WPLS Broadcasting Co., Austin, Tex.—Granted license to cover C. P. authorizing changes in equipment.

WPAI—WPAI Radio Station, New York City, N. Y.—Granted license for auxiliary transmitter on frequency 900 kc., with 1 KW power.

WQXL—WQXL Radio Station, Columbia, S. C.—C. P. to make changes in equipment and increase in power from 100 watts to 250 watts.

WQAM—WQAM Broadcasting Co., Chicago, Ill.—Granted C. P. to make changes in equipment and increase power from 7.5 watts to 50 watts.

WQCB—WQCB Radio Station, Columbia, S. C.—C. P. to move transmitter site locally, install new equipment and vertical radiator, and increase night power from 500 watts to 1 KW and day power from 1 KW to 5 KW.

WQIS—WQIS Broadcasting Co., Iowa City, Iowa.—Granted C. P. to install new equipment, change frequency from 1500 kc. to 600 kc., and increase power from 100 watts, unlimited, to 1 KW, unlimited time.

WQXR—WQXR Radio Station, New York City, N. Y.—C. P. to move transmitter site locally, install new equipment and vertical radiator, and increase night power from 1500 kc. to 3150 kc., increase power and time of operation from 100 watts, daytime only, to 100 watts, unlimited time.

WQY—WQY Broadcasting Co., Washington, D. C.—C. P. to move transmitter site locally, install new equipment and vertical radiator, and increase night power from 500 watts to 1 KW and day power from 1 KW to 5 KW.

WQZ—WQZ Radio Station, Zanesville, Ohio.—C. P. to move transmitter site locally, install new equipment and increase night power from 500 watts to 1 KW and day power from 1 KW to 5 KW.

WQX—WQX Radio Station, New York City, N. Y.—C. P. to move transmitter site locally, install new equipment and vertical radiator, and increase night power from 500 watts to 1 KW and day power from 1 KW to 5 KW.

WQX—WQX Radio Station, New York City, N. Y.—C. P. to move transmitter site locally, install new equipment and vertical radiator, and increase night power from 500 watts to 1 KW and day power from 1 KW to 5 KW.

WQZ—WQZ Radio Station, Zanesville, Ohio.—C. P. to move transmitter site locally, install new equipment and increase night power from 500 watts to 1 KW and day power from 1 KW to 5 KW.

WQZ—WQZ Radio Station, Zanesville, Ohio.—C. P. to move transmitter site locally, install new equipment and increase night power from 500 watts to 1 KW and day power from 1 KW to 5 KW.

WQZ—WQZ Radio Station, Zanesville, Ohio.—C. P. to move transmitter site locally, install new equipment and increase night power from 500 watts to 1 KW and day power from 1 KW to 5 KW.

WQZ—WQZ Radio Station, Zanesville, Ohio.—C. P. to move transmitter site locally, install new equipment and increase night power from 500 watts to 1 KW and day power from 1 KW to 5 KW.

WQZ—WQZ Radio Station, Zanesville, Ohio.—C. P. to move transmitter site locally, install new equipment and increase night power from 500 watts to 1 KW and day power from 1 KW to 5 KW.

WQZ—WQZ Radio Station, Zanesville, Ohio.—C. P. to move transmitter site locally, install new equipment and increase night power from 500 watts to 1 KW and day power from 1 KW to 5 KW.

WQZ—WQZ Radio Station, Zanesville, Ohio.—C. P. to move transmitter site locally, install new equipment and increase night power from 500 watts to 1 KW and day power from 1 KW to 5 KW.
of Schenectady Police Dept. radio system on April 5, during dedication program.

WCAD—St. Lawrence University, Canton, N. Y.—Granted special temporary authority to operate from 1:30 to 3 p.m., and from 4 p.m. to local sunset (May sunset 7:15 p.m., EST), May 1, 8, 11, 15, 18, 22 and 28, 1937, in order to broadcast baseball games: also from 2:45 to 4:15 p.m., EST, May 2, 1937, in order to observe Charter Day—College Holiday.

ACTION ON EXAMINER'S REPORT

KRLH—Ex. Rep. 1-376: Clarence Scharbauer, Midland, Tex.—Denied as in cases of default application for modification of license to change frequency from 1420 kc. to 1210 kc. Examiner Seward sustained.

ORAL ARGUMENTS GRANTED

Oral arguments were granted, to be held May 6, 1937, in the following cases:

ORAL ARGUMENT CONTINUED

Oral arguments in the following cases, now scheduled to be heard on April 8, 1937, were continued to April 15, 1937:

EFFECTIVE DATES EXTENDED

The Commission further extended the effective date of the decision of the Broadcast Division of November 17, 1936, in denying the application of WHB Broadcast Company, Kansas City, Mo., for C. P., Docket No. 3808, from April 8 to April 15, 1937.

APPLICATION DISMISSED

APPLICATION DENIED

The following application, heretofore set for hearing, was denied as in cases of default for failure of applicant to file an appearance and statement of facts in accordance with Rule 104.6 (c):

MISCELLANEOUS

Carolina Advertising Corp., Columbia, S. C.— Granted petition to reopen the record to authorize the taking of additional evidence in support of its application for C. P. for a new station at Columbia to operate on 1370 kc., 100 watts, 250 watts LS, unlimited time. (Docket No. 4274.)

WDGY—Dr. George W. Young, Minneapolis, Minn.—Granted authority to intervene in the hearing on the application of the National Battery Broadcasting Co., for C. P. to erect a new broadcasting station at St. Paul, to operate on 580 kc., 1 KW, unlimited time.

KGFF—The KGFF Broadcasting Co., Inc., Shawnee, Okla.—Denied 60 day postponement of hearing on its application for modification of license to change frequency from 1420 to 1420 kc., and increase power from 100 watts, 250 watts LS, unlimited time, to 250 watts, unlimited time. (Docket No. 4424.)

WSAY—Brown Radio Service & Lab., Rochester, N. Y.—Granted continuance of hearing on application for modification of license to change power from 100 watts daytime, to 100 watts, 250 watts LS, unlimited time. (Docket No. 1060.)

Philadelphia Radio Broadcasting Co.—Granted petition to be made respondent in the hearing of the application of Abraham Plotkin for C. P. for new station in Chicago to operate on 1570 kc., 1 KW, unlimited time.

WFLA-WSUN—Clearwater Chamber of Commerce, Clearwater, Fl.—Denied petition to intervene in the hearing on the application of the Isle of Dreams Broadcasting Corp., licensee of station WIOD-WMIB, for modification of license to change frequency from 1300 to 600 kc. (Docket No. 4425.)

The Yankee Network, Inc., Boston, Mass.—Granted petition to intervene at the hearing of the application of the Broadcasting Service Organization, WORL, Boston, Mass., for C. P. to increase power from 500 watts daytime, to 1 KW, unlimited time, 920 kc. (Docket No. 4206.)

KROY—Royal Miller, Sacramento, Cal.—Denied petition to reconsider action in postponing hearing from April 5 to May 19, 1937, on application for modification of C. P. to change frequency from 1210 kc. to 1340 kc., power from 100 watts daytime, to 250 watts, 1 KW LS, unlimited.

KGA—Louis Wamer, Spokane, Wash.—Granted petition to intervene in the hearing on the application of the Delaware Channel Corp., and grant the same without hearing.

APPLICATION DROPPED

No new applications were reported. The temporary license granted to receiver is specifically subject to recall and cancellation by Commission without advance notice or hearing at any time.

WMBQ—Metropolitan Broadcasting Co., Brooklyn, N. Y.—Granted temporary interim authority to Joseph Hrud, receiver, to continue to operate the station for a reasonable time, i.e., 60 days, pending decision upon applications from WMBQ, Paul J. Gollhofer and Lillian Kiefer for the facilities of WMBQ as well as application for renewal of license from WMBQ for permit to install new equipment, move station, make changes in antenna, which were heard by Examiner Walker, February 16, 17, 18, 1937, and reported. The temporary license granted to receiver is specifically subject to recall and cancellation by Commission without advance notice or hearing at any time.
RATIFICATIONS

The Commission ratified the following acts authorized on the dates shown:

KFXR—Exchange Ave. Baptist Church of Oklahoma City, Oklahoma, Okla.—Granted extension of program test period 30 days from March 29, 1937.

WSGN—Birmingham News Co., Birmingham, Ala.—Granted extension of program test period 30 days from March 24, 1937.

WIRE—Indianapolis Broadcasting Inc., Indianapolis, Ind.—Granted extension of equipment test period 10 days from March 29.

W9XPS—Peoria Broadcasting Co., Peoria, Ill.—Granted authority to operate as licensed on March 30, relay broadcast WMBD Good Neighbor program.

KABE-KIGA—National Battery Broadcasting Co., St. Paul, Minn.—Granted authority to operate as licensed on 4-4-37, relay broadcast from Ft. Snelling Chapel, near St. Paul.

K6SCJ—Honolulu Broadcasting Co., Ltd., Honolulu, T. H.—Granted extension program tests to April 30, 1937.

McLaren Advertising Co., Ltd., Toronto, Canada.—Granted special temporary authority to transmit programs on behalf of the Imperial Oil Co., Ltd., over a Canadian network of National Hockey League playoff games which will be played in Boston, New York and Detroit for a period not to exceed 30 days.

KOCA—Oil Capital Broadcasting Assn., Kilgore, Tex.—Granted special temporary authority to use studio located at 310½ Main St., Kilgore, Texas, instead of main studio located at Laird Ave., Kilgore, Texas, for a period ending in no event later than 4-20-37.

WILL—University of Illinois, Urbana, Ill.—Granted special temporary authority to operate 100 watt test transmitter on 580 kc., between midnight and 6 a. m., CST, for the period April 1 to April 10, 1937, for the purpose of adjusting directional antenna authorized by C. P.

WSYB—Philip Weiss Music Co., Rutland, Vt.—Granted special temporary authority to use studio located at 9 to 10 a. m., EST, April 1 to April 30, 1937, inclusive, in order to broadcast Rutland County Community programs, provided no further extension is granted unless a formal application specifying a proper antenna is filed.

The Broadcast Division granted the petition of KTSA Broadcasting Co., licensee of Station WACO, to intervene in the proceedings upon the application of T. E. Kirksey for C. P. for new station at Waco, Texas, Docket 4275.

 Granted petition of Dr. Geo. W. Young to intervene in the proceedings upon the petition of Edward Hoffman, d/b as Hoffman Wireless, for C. P. for new station at Waco, Texas, Docket 4275.

 Granted petition of Sabine Broadcasting Co., Inc. (KFDM), Beaumont, Texas, to intervene in the proceedings upon the application of Beaumont Broadcasting Assn. for C. P. for new station at Beaumont, Texas, Docket 4376.

 Granted petition of Magnolia Petroleum Co., Dallas, Texas, to intervene in proceedings upon the application of Beaumont Broadcasting Assn. for C. P. for new station at Beaumont, Texas, Docket 4376.

 Granted petition of Carolinas Radio, Inc., to intervene in the proceedings upon the application of WSOC, Inc., Charlotte, N. C., for C. P., Docket 4370.

 Denied petition of WHFC, Inc., Cicero, Ill., requesting permission to intervene in the proceedings upon the application of Robert McCurdy for C. P. for new station at Oak Park, Ill., Docket 1647.

 The Broadcast Division disregarded the petition of the Don Lee Broadcasting System for authority to intervene in the proceedings upon the application of Pacific Acceptance Corp. for C. P. for new station at San Diego, Calif., Docket 2968, and directed that it be returned to the Docket Section to be associated with the record. The Broadcast Division also denied the petition of the Don Lee Broadcasting System for continuance of a period of 30 days of said hearing on Docket No. 2968.

 Granted motion of Frazier Reame, Mansfield, Ohio, for continuance of the hearing on his application for C. P., Docket 4315, and directed that the said hearing be continued until May 17, 1937.

 Granted request of The Faith Broadcasting Co. for permission to amend its application for C. P. for new station at Wichita Falls, Tex., Docket 4218, relative to its antenna system, and directed that the amendment to this application be accepted without interrupting the progress of the hearing in the Wichita Falls cases, and further that all parties should be immediately notified.

 Granted request of the Brooklyn Daily Eagle Broadcasting Co., Inc., Brooklyn, N. Y., for the issuance of a subpoena to compel the attendance of Anthony D’Angelo, Brooklyn, N. Y., President of the Paramount Broadcasting Corporation, in the so-called Brooklyn cases. The Commission denied the request of the Brooklyn Daily Eagle Broadcasting Co., Inc., for subpoena duces tecum to compel the attendance of Salvatore D’Angelo with certain books and documents of the Paramount Broadcasting Corporation.

 Approved a form letter to be issued by the Accounting Department granting requests for extension of time for filing Report Form 360 for Holding Companies for the year 1936 until April 30, 1937, with the understanding that the reports be filed earlier than that date if practicable.

APPLICATIONS RECEIVED

First Zone

WCAX—Burlington Daily News, Inc., Burlington, Vt.—License to cover construction permit (B1-P-1448) for changes in equipment, installation of vertical antenna, and increase in power.

NEW—The Hampden-Hampshire Corp., Holyoke, Mass.—Construction permit for a new station to be operated on 1240 kc., 1 kW, unlimited time. To use directional antenna day and night.

XXXX—Mutual Broadcasting System, Inc., Chicago, Ill.—Extension of authority to exchange programs with Station CKLW, Windsor, Ontario, and through the Telegraph office of the Canadian Pacific Railway at Windsor with the Canadian Broadcasting Corp.

NEW—The University of Minnesota, Minneapolis, Minn.—Construction permit for a new high frequency broadcast station to be operated on 31600, 35600, 38600, 41000 ke., 86000-401000 ke., 100 watts. Amended: To omit request for 86000-101000 ke.

NEW—National Broadcasting Co., Inc., Chicago, Ill.—Construction permit for a new special relay broadcast station to be operated on 31100, 34600, 37600, 40600 ke., 50 watts.

NEW—National Broadcasting Co., Inc., Chicago, Ill.—License to cover above.

2038
Fifth Zone

KJBS—Julius Brunton & Sons Co., San Francisco, Calif.—Modification of license to change frequency from 1070 kc. to 1080 kc. Amended: To change hours of operation from limited time to specified hours, 6:00 a. m. to 6:30 p. m. and 9:00 p. m. to midnight, PST, daily.

KGDM—E. F. Peffer, Stockton, Calif.—Construction permit to install a new transmitter, increase power from 1 KW to 5 KW, change frequency from 1100 kc. to 1110 kc., hours of operation from daytime to unlimited time. Amended: To change requested frequency from 1110 kc. to 1150 kc., and install directional antenna for night operation.

KGGM—New Mexico Broadcasting, Albuquerque, N. Mexico.—License to cover construction permit (B5-P-1359) for equipment changes, increase in power and move transmitter.

KCRJ—Charles C. Robinson, Jerome, Ariz.—Construction permit to make changes in equipment, install a vertical antenna, increase power from 100 watts to 100 watts night, 250 watts day, change hours of operation from specified hours to unlimited time and move transmitter from 711 Main Street, Jerome, Arizona to Lower Hogback, Jerome, Arizona.

KSB—Don Lee Broadcasting System, San Diego, Calif.—Construction permit to install a new transmitter, erect a vertical antenna, increase power from 1 KW to 1 KW night, 5 KW day and move transmitter from Pickwick Terminal Hotel, 132-152 Broadway, San Diego, California, to site to be determined, San Diego, California. Amended: To request 5 KW power night and day.

KBPS—Benson Polytechnic School (R. T. Stephens, Agent), Portland, Ore.—License to cover construction permit (B5-P-1627) for changes in equipment.

KPQ—Wescoast Broadcasting Co., Wenatchee, Wash.—Modification of construction permit (B5-P-1617) for move of transmitter and erection of a vertical antenna, requesting authority to install a new transmitter, change frequency from 1500 kc. to 1360 kc., power from 100 watts night, 250 watts day, to 1 KW, and extend commencement and completion dates.

W6XRE—Ben S. McGlashan, Los Angeles, Calif.—License to cover construction permit for a new high frequency broadcast station.
Official Report of the American Delegation to
The Regional Radio Conference Held in
Habana, Cuba, March 15-29, 1937

"Washington, April 5, 1937.

"The Honorable
The Secretary of State,
Washington.

"SIR:

"In accordance with the Department's instruction of March 6, 1937, the Delegation of the United States of America to the Regional Radio Conference arrived at Habana, Cuba, on March 13, 1937. The Delegation consisted of the following:

T. A. M. Craven, Chief Engineer, Federal Communications Commission, Chairman;
E. K. Jett, Assistant Chief Engineer, Federal Communications Commission;
Gerald C. Gross, Chief, International Section, Federal Communications Commission;
Harvey B. Otterman, Treaty Division, Department of State.

"Upon arrival at Habana the American Embassy made available the services of Mr. Ellis O. Briggs, Second Secretary of the Embassy, who participated as a member in the work of the Delegation throughout the Conference.

I. GENERAL

"At the opening plenary session the work of the Conference was presented by the host nation in the form of an agenda consisting of twelve questions for study. They are as follows:

1. Consideration of the possibility and necessity of resolving a newer and proper distribution of the channels corresponding to the broadcasting band ranging between 550 and 1600 kc., especially with reference to the North and Central American regions and the West Indies, and, if possible, to determine the assignment of exclusive, shared and local channels.

2. Examination of principles regulating the assignment of broadcasting bands in the Americas for short wave bands.

3. Consideration of convenience of revising the North and Central American Agreement, signed in Mexico City, in July 1933, and referring to the bands of frequencies from 1500 to 6000 kc.

4. Exchange of opinions concerning allocation of frequencies in waves below ten meters and especially concerning interference with those frequencies, from an international standpoint.

5. Proposal of measures, even if they be of a temporary nature, which may contribute to alleviate the interference situation which is being produced in the nations of North and Central America in relation to the broadcasting service in general.

6. Exchange of opinions concerning other problems confronted by the Americas in the different features of radiocommunication, and, if possible, adoption of practical resolutions, such as the use of directed waves and proper geographical separation between stations.

7. Proposal of new bases concerning classification and width of bands, classification of stations according to their power and definition of service areas of the different classes of stations, etc.

8. Consideration of the problems presented in the amateur radio bands of 20 and 40 meters. Study of the possibility of extending said bands and, especially, those corresponding to the radiotelephone communications.

9. Adoption of practical coordination measures and mutual aid amongst the neighboring nations through radiocommunication, in cases of national calamities, such as floods, earthquakes, hurricanes, etc.

10. Study of what should, in general, be understood in radiocommunication as 'good engineering standards.'

11. Examination of the convenience of proposing and considering, in a Regional Conference of the Americas, any other matters deemed useful in avoiding the existing conflicts, or those which may appear in the future, in radiocommunication in the American countries.

12. Consideration of the convenience of calling, for the month of November, 1937, and at such place as may be decided upon, a Regional Radio Conference for the purpose of defining and studying, at a meeting of all the American nations, their point of view in connection with the Telecommunication Conference to be held at Cairo, in 1938.
During the course of the Conference a thirteenth question was added, reading as follows:

13. Study of means to suppress inductive interference with special reference to diathermic and similar apparatus.

"The Conference, at its first plenary session, unanimously elected Senator Wilfredo Albanes, a member and Vice President of the Cuban Senate and Chairman of the Cuban Delegation, to serve as Chairman of the Conference. The Honorable Ramiro Hernandez Portela, Minister of the Republic of Cuba to Argentina, was named to act as Secretary-General of the Conference.

"The following countries were represented and participated actively in the work: Canada, Cuba, Mexico, United States of America.

"The work of the Conference was divided among four main committees under the general direction of a steering committee (Comision de Iniciativos) which consisted of the Chairman of the Conference and the Chairmen of the other three Delegations. These committees were organized as follows:

1. Committee on Broadcasting:
   Chairman, Walter A. Rush, Canada.
   Vice Chairman, Ignacio Galindo, Mexico.
   Secretary, Nicolas Paroz Stable, Jr., Cuba.

   "This committee had assigned to it for study questions 1, 2 and 5 of the agenda.

2. Committee on Services other than Broadcasting:
   Chairman, Agustin Flores, Mexico.
   Vice Chairman, E. K. Jett, United States of America.
   Secretary, Carlos A. Mendiola, Cuba.

   "To this committee were assigned questions 3, 4, 8, 9 and 11 of the agenda.

3. Committee on Engineering Standards:
   Chairman, T. A. M. Craven, United States of America.
   Vice Chairman, J. W. Bain, Canada.
   Secretary, Emilio Pando, Cuba.

   "There were assigned to this committee for study questions 5, 6, 7, 10, 12 and 13 of the agenda.

   "In addition to the three working committees mentioned above, at the opening of the Conference, a Committee on Credentials was appointed to examine the credentials of the Delegates; at the conclusion of the Conference a Committee on Drafting was appointed to revise the Final Acts.

   "At the outset of the Conference it was proposed by the delegation of the United States and unanimously approved by the Conference that all decisions should be unanimous. This provided a measure of protection to each of the nations involved and paved the way for harmonious agreement throughout the negotiations.

II. WORK OF THE CONFERENCE

Committee No. 1

"Three members of the American Delegation, namely T. A. M. Craven, Harvey B. Otterman and Ellis O. Briggs were assigned to this Committee. A considerable portion of the time of this Committee was devoted to the proposals on the part of Canada, Cuba and Mexico that exclusive channels be assigned to each nation and that these be divided on the basis of some formula which might be acceptable to all four nations represented. The United States' delegation was opposed to the allocation of exclusive channels and recommended that service be provided in accordance with the basic engineering standards which are covered in the report of Committee No. 3. The American Delegation pointed out that no formula could be devised which would be acceptable to all nations because service for each nation must be based, among other considerations, upon the following factors:

1. Total population of each nation.
2. Geographical distribution of the population over the entire area to be served in each nation.
3. Within each nation the density of population as a whole.
4. The density of population in various sections of any country.
5. The number of cities and towns in each nation.
6. The geographical distribution of cities and towns within each nation.
7. Extent and proportion of rural population as compared to total population of a nation.
8. The total inhabited area.
9. The extent of the area to be served.
10. The geographical configuration of a country.
11. Topographical conditions within each country.
12. Actual propagation conditions over the terrain in each country.
13. Atmospheric conditions to be expected in each country insofar as such conditions affect radio reception.
14. Man-made ‘noise’ conditions to be expected in each country which would affect the quality of radio service capable of being rendered to the public.
15. The variations in requirements for public radio service in various sections within a country.
16. Variations in public preference for broadcast programs requiring diversification of program service.
17. The area of the various metropolitan districts required to be served in each country.
18. The necessity for individual communities to have their own facilities for public self-expression on local problems.

19. The necessity for the seat of government to have facilities enabling mass communication with the entire public of a country.

20. Broadcasting facilities which exist and which have been established over an extended period of time.

"It was contended that the best method by which neighboring nations can take full advantage of the radio spectrum between 540 and 1600 kc., is for such nations, in collaboration with each other, to agree upon standards of engineering and then attempt to reconcile problems involving radio interference over the borders of each country by requiring the application of sound engineering principles which will, insofar as is practicable, provide for the maximum service in each nation with a minimum of radio interference between the stations of all the nations. Efforts should be made to take advantage of modern devices which assist in the reduction of interference, as well as upon great geographical separation between stations of high power, to share channels to the fullest extent possible consistent with sound engineering.

"After an intensive study of the views of each of the countries represented and a real attempt to decide the extremely complex problems on the basis of sound engineering principles rather than on the basis of national or political considerations, the Committee happily was able to arrive at a meeting of the minds and the following principles were agreed to unanimously:

IN THE REGULAR BROADCASTING BAND

"With respect to clear channels, the former doctrine of international coverage has been changed to 'freedom from interference within the borders of a country.'

"The adoption of the United States standard practices for regional stations is applied to the North American region as a whole resulting in the use of regional channels by all nations when no interference will exist to any regional station under the engineering standards recognized in the engineering report of January 11 of the Commission's engineering department. This was accomplished after full consideration by all delegations of the doctrine long recognized by our Government with respect to sovereign rights of nations relative to the use of radio. Therefore, no new international principle or change of policy on the part of the United States is involved.

"With reference to clear channels, the rights of nations to use frequencies is modified when they cause interference to the reception of stations in other countries, and hence it is recognized that regional arrangements are necessary to permit the orderly joint use by all nations of the narrow broadcasting band mutually agreed upon by nations of the world for allocation to broadcast service. No new international principles have been evolved here with regard to clear channels and the practice and policies of the United States have been sustained.

"Channels formerly assigned exclusively to a country can be used by other nations in daytime when no more than five microvolts interference is caused at the border by stations of another nation using the same channel. This will result in easing the present difficulties in the United States relative to our daytime stations by adding six channels which are in the band 550 to 1500 kc., which are not now available to us. While the same concession was made to Canada and to other nations, no harm can come to the United States stations if the terms of this agreement are set forth at the November Conference and agreed upon there and thereafter maintained in force by all nations.

"Three classes of clear channels, one class of regional channels and one class of local channels were recommended much along our own present or proposed practice except that the use of directional antennae is encouraged between nations when convenient. This is in accord with what has been recognized as engineering necessity in our own country.

"Inasmuch as Committee No. 3 was charged with the study of principles of engineering and related questions, the actual definitions of stations by various classes were drafted by it and are given as follows for convenience. The work of Committee No. 3 in drawing up these definitions was concurred in by Committee No. 1 and was ratified unanimously by the plenary session.

"Six classes of stations defined very much along the lines of the Federal Communications Commission's engineering department's January report were adopted. These do not materially change our existing practice and are in accord with our present necessities.

"For the purpose of promoting coordination between nations with respect to questions of interference in the broadcast band 540-1600 kc., each nation a party to this agreement should notify the others with respect to the call signs, frequency, power, antenna characteristics, and location of the stations they have authorized; and for purposes of obtaining cooperation with respect to international interference they shall state in which of the following classes they deem the stations they have authorized should be listed:

"Class I: A 'clear channel station' using Class A or B clear channels and designed to render primary and secondary service over extended areas and at relatively long distances. Those stations of this Class operating on Class B channels shall not be permitted to use more than 50 kw. power.

"Class II: A 'clear channel station' using Class C clear channels and designed to render primary and secondary
service over relatively wide areas and at relatively long distances. They may operate with not more than 50 kw. power and must use directional antennae or other means in order to avoid objectionable interference with other stations of the same class using the same channel.

"Class III: A 'limited clear channel station' using Class B or Class C clear channels and designed to render service to a portion of their normal primary service area which, according to the power used, may be relatively large. The power of these stations shall not exceed 50 kw. and they must use special measures or otherwise be located at a sufficient distance to prevent objectionable interference to the service of the clear channel stations regularly assigned the same channel as is used by the 'limited clear channel station.' A 'limited clear channel station' is subject to the interference it may receive from the Clear Channel stations using the same frequency.

"Class IV: A 'regional station' using a regional channel and designed to render service primarily to metropolitan districts and the rural areas contained therein and contiguous thereto. Their power may not exceed 5 kw. and their service areas are subject to mutual interference in accord with agreed upon engineering standards.

"Class V: An 'urban station' using a local channel and designed to render service primarily to cities and towns and the suburban areas contiguous thereto. The power of 'urban stations' may not exceed 1 kw. and their service areas are subject to mutual interference in accord with agreed upon engineering standards.

"Class VI: A 'city station' using a local channel and designed to render service primarily to cities and towns and the suburban areas contiguous thereto. The power of these stations may not exceed 250 watts and their service areas are subject to mutual interference in accord with agreed upon engineering standards.

"For the first time in international radio history, 'objectionable interference' has been defined in specific terms for use between nations on the North American continent. The United States practices are followed in this instance and it is believed that, in view of the general misunderstanding throughout the Americas of what is meant by interference of an objectionable character, this action will go far toward attaining an orderly use of the broadcast band in this region.

"The frequency 540 kc., is permitted to be used for broadcasting as provided for in the present agreement between Canada and the United States except that distance from the coast line is prescribed.

"The broadcast band was extended to 1600 kc. in accordance with the United States proposals at Mexico City and present United States policy.

"The use of 520 kc. and 530 kc. and all other long waves was rejected for broadcasting. This is in accord with the existing United States policy.

"The frequency separation of 10 kc. and the assignment of frequencies in multiples of 10 kc. was maintained in accordance with the present United States policy.

"The division of the 107 channels between 540 and 1600 kc. is as follows:

<table>
<thead>
<tr>
<th>Channels</th>
</tr>
</thead>
<tbody>
<tr>
<td>58 as clear channels of all classes</td>
</tr>
<tr>
<td>33 as regional channels</td>
</tr>
<tr>
<td>16 as local channels, ten of which are for urban stations (our low power regionals) and six for city stations (our local)</td>
</tr>
</tbody>
</table>

"The fifty-eight clear channels will be used by four classes of stations, namely (a) clear channel stations using Class A clear channels which give freedom from interference to the border; (b) clear channel stations using Class B clear channels which give freedom of interference to the 100 microvolt day contour of the station during the day and the 500 microvolt sky wave signal intensity during the night; (c) clear channel stations using Class C channels with directional antennae or other means of avoiding objectionable interference; freedom from interference much along same lines as above and (d) limited clear channel stations, i.e., those which use Class B and C clear channels on condition they do not interfere with regular clear channel stations assigned these frequencies but which are limited in their primary coverage by the interference from the regular clear channel stations. This class of station is similar to the Class C station suggested by the Commission's engineering department in its January report.

"An important recommendation agreed to by Committee No. 1 and ratified by the Conference is contained in Resolution No. 14 which recognizes the essential difference between broadcasting frequencies in the normal broadcast band 540-1600 kc. and broadcasting on short waves. While the former are recognized as being essentially for national service, it is pointed out that for successful short wave broadcasting and especially the cultural exchange of programs among the Americas, stations in the short wave broadcasting bands should be required to use sufficient power to permit the rendition of good international service.

"Your Delegation feels that this Regional Conference of the four nations while preliminary in character was eminently successful in establishing the fundamental needs for broadcasting service of the participating countries and through the achievement of unanimous agreement on the broadcasting engineering bases involved, the way is paved for a more comprehensive agreement among the participating nations in the November conference.

"The following resolutions which are contained in the Final Acts of the Conference attached hereto as Annex II were the results of Committee 1: Resolutions Nos. 1, 2, 3, 4, and 5.

**Committee No. 2**

"Two members of the American Delegation were appointed to serve on this Committee, namely E. K. Jett and Gerald C. Gross.
"The Committee carefully examined the Mexico City Agreement of 1933 and as a result of its work unanimously concurred in a revision of this agreement, the text of which is attached hereto as Annex I, Acts of the Conference. The changes made in the former text were minor in character and consist principally, first in a change in the amateur band 1715-2000 kc. to read 1750-2050 kc., the next band formerly reading 2000-2100 kc. to read 2050-2100 kc. This proposal was made by the United States Delegation and was agreed to unanimously in order to provide more frequencies for state police in the new band 1715-1750 kc., the upper limit of the amateur band being increased to 2050 kc. in order to compensate for the amount taken off at the lower end. Such upward shift in the amateur band also provides increased protection to the broadcasting band now extended from 1500 to 1600 kc.

"The Committee also unanimously agreed that the United States would furnish by September 15, 1937, a plan for a North American international police radio telegraph network. This proposal was made by the United States and is in accord with the plans being formulated by the Federal Communications Commission in cooperation with the International Association of Chiefs of Police and the Associated Police Communication Officers for intercity police communications concerning law enforcement matters.

"The Committee then agreed that frequencies above 30,000 kc. should be retained for the present in an experimental status with the understanding that definite proposals concerning the allocation of these frequencies will be made by each country for the November Conference. It was further agreed in this connection that it would be desirable from an engineering standpoint to allocate frequencies beginning at approximately 40 megacycles to the television service except for the amateur band, 56 to 60 megacycles.

"The following proposal on the part of the United States was adopted by Committee Number Two, was concurred in by Committee Number One, and was unanimously adopted by the plenary session:

"That subject to the internal regulations of each country, any radio transmitting station, may, during a period of emergency in which normal communication facilities are disrupted as a result of hurricane, flood, earthquake or similar disaster, carry on emergency communication, with points other than those normally authorized.'

"The Cuban Delegation recommended that the forty meter amateur band be subdivided into two parts: first, from 7000 to 7100 kc. to be used exclusively for radio telephone amateur communication by Latin American amateurs; and the other, from 7100 to 7300 kc. to remain as at present for radio telegraph amateur operation only.

In this connection the Delegation of the United States of America pointed out that such a plan does not fit in with its national needs, but in view of the desire of the Latin American countries to take such special action for their own amateurs, it was not felt that our delegation could reasonably oppose such a move at this time. The Cuban representative pointed out that the fourteen megacycle Madrid band which is used in the United States for radio telephone communication is not suited by reason of its propagation characteristics for radio telephone communication between most of the Latin American countries where the distances involved are comparatively short. After considerable discussion the resolution above referred to was unanimously adopted for study.

"Summarizing the following resolutions which are contained in the Final Acts of the Conference attached hereto as Annex I were the result of the work of Committee Number Two: Resolutions Nos. 6, 7, 8, 12 and 13.

**Committee Number 3**

"Three members of the American Delegation participated in the work of Committee No. 3, namely T. A. M. Craven, who served as chairman of the committee; E. K. Jett, and Gerald C. Gross. The only proposals submitted to the committee were those of the Canadian Delegation and those submitted by the Delegation of the United States of America. It was found after studying both sets of proposals that those submitted by the Delegation of the United States of America were more comprehensive in scope in that they not only included the essence of the Canadian proposals but also took into account the discussions previously held during the meetings of Committee No. 1 which obviously were not included in the Canadian proposals which were submitted on the first day of the committee meetings. Consequently, the proposals of the United States of America were taken as the basis for discussion and after some modifications and amendments as suggested by the other Delegations, the committee unanimously agreed on the engineering principles set forth in the Final Acts of the Conference and attached to this report as Annex I under the heading 'Engineering Principles', Resolution No. 9.

"These engineering principles are based on United States standards of antenna performance, interference, and equipment performance. The propagation and interference curves are those developed by the Engineering Department of the Federal Communications Commission as a result of broadcasting experience in the United States. They were accepted as guides in the determination of international interference and service.

"With respect to services other than broadcasting the committee agreed to recommend a study of high frequency broadcasting by all nations along the same lines as is already being accomplished in the United States with a
view to arriving at a more positive conception at the November Conference so that the American nations in the Western Hemisphere will be in a position to deal in collaboration with other nations at the approaching Cairo Radio Conference.

"The committee adopted a proposal of the Delegation of the United States of America to study ways and means to eliminate interference to radio service because of radiotherapeutic machines and other devices which have substantial radiation in space. This is also in accord with the present plans of the Federal Communications Commission.

"The committee also adopted the recommendation on the part of the United States of America concerning the prevention of spurious radiations, including harmonic modulation, key clicks, parasitic oscillations, and other transient effects.

"Another important point brought out by Committee No. 3 is found in Resolution No. 9, 'Engineering Principles', and reads as follows:

"Where two regions are separated by long distances such as North and South America, it is deemed good engineering practice to have different regional arrangements so as to permit the high powered clear channels in one region to use some of the frequencies allocated as regional or local channels in other regions and vice versa.'

"With respect to high fidelity broadcasting, it was agreed that the various administrations should study the problems incident to this type of service to the end that such service may be accommodated in accordance with good engineering principles.

"The committee agreed that the engineering standards mentioned in the agreement are subject to change in accordance with technical advances in the art and by mutual consent of the Governments which are parties to this agreement.

"Summarizing, the following resolutions which are contained in the Final Acts of the Conference attached hereto as Annex II were the result of the work of Committee No. 3: Resolutions Nos. 9, 11, and 14.

STEERING COMMITTEE

"Two proposals originated in the Steering Committee and were unanimously approved by the plenary session. The first concerns the Inter-American Radio Conference to be held beginning November 1, 1937, in Habana. Because of the fact that Habana is so central and so convenient for the transportation of delegates from all the American nations the Conference went on record as accepting the offer of the Government of Cuba to hold the Conference at Habana beginning November 1, 1937. It was suggested that the Republic of Cuba agree to invite the following twenty-three nations:

Argentina, Bolivia, Brazil, Canada, Chile, Colombia, Costa Rica, Cuba, Dominican Republic, Ecuador, El Salvador, Guatemala, Haiti, Honduras, Mexico, Newfoundland, Nicaragua, Panama, Paraguay, Peru, United States of America, Uruguay, Venezuela.

The Cuban Delegation informed the Conference that their Government would take the necessary steps.

"In addition, the Conference gave very careful study to a proposal made by the Cuban Government looking toward the establishment of a Regional Radio Consulting Committee for the Americas, whose principal functions would be supervisory. Such a committee would also act as the distribution center for the exchange of information concerning statistical data relative to the characteristics of stations which have been authorized by the American nations under the terms of the November agreement. Our delegation supported this idea which was presented by Cuba because we felt that it is through such an organization that an effective means can be secured in gradually raising the standards of engineering employed in practice by the various nations which will become parties to the engineering standards of the forthcoming November agreement. It is also essential that information with respect to the location and technical characteristics of stations authorized by each nation become known quickly. If these factors of engineering practice and exchange of information are not accomplished in fact, there would result an inevitable confusion and lack of uniformity in the broadcast band at least, which would again deteriorate service to listeners. In view of these factors, our delegation strongly supported the Cuban proposal and suggested that its permanent headquarters be Habana.

CREDENTIALS COMMITTEE

"Because of the fact that the delegation had not been supplied with formal credentials by the Department, it was necessary for the American Embassy at Habana to issue a certificate for the delegation. This was accepted by the Credentials Committee, as were the credentials of the other delegations present. Mr. Otterman represented the delegation of the United States of America on this committee.
DRAFTING COMMITTEE

"Because of the press of the work of the Conference and the fact that the informal plenary session was held on Easter Sunday and the closing plenary session on the following Monday afternoon, certain minor typographical errors necessarily appeared in the Final Acts of the Conference as printed. In order not to delay the final signing but to provide for the correction of these errors the Chairman of the Conference appointed a small Drafting Committee, consisting of Dr. Nicolas Mendoza of Cuba and Mr. Gerald C. Gross of the United States of America, which was authorized by the plenary session to make such editorial changes as were deemed necessary, especially with respect to questions of translation.

CONCLUSION

"While your delegation feels that an extremely important and constructive work has been done in this preliminary Conference in Habana, it must necessarily point out that in order to bring permanent stability to the radio industry not only in the United States but throughout all the nations in the Americas this work which was begun in March must be carried through to a successful conclusion at the November Conference. If the same fine spirit of cooperation and good will which was evidenced by each of the participating nations in this preliminary Conference is continued, it is only reasonable to believe that this goal so earnestly desired by all the nations involved will be successfully reached.

"In conclusion, your delegation desires to express its appreciation of the whole-hearted cooperation extended to it by officers and members of the staffs of the American Embassy and the American Consulate General at Habana.

"Finally, warm thanks are due the Cuban Government for its most generous treatment of the delegates to the Conference.

T. A. M. Craven, Chairman
E. K. Jett,
Gerald C. Gross
Harvey B. Otterman

Final Minutes of the Regional Radio Conference
Convened in the City of Havana from March 15 to March 29, 1937

"The Governments of the United Mexican States, the United States of America, the Dominion of Canada and the Republic of Cuba, agreed to hold, in the city of Havana, a Radio Regional Conference, for the purpose of preparing and studying such matters of common interest as may serve as a basis for discussion at the Inter-American Radio Conference to be held in the month of November, 1937, as preliminary to the International Conference to be convened at Cairo in the month of February, 1938.

"Said four Governments appointed for that purpose the following Delegations:

For the United Mexican States:
Mr. Alfonso Gomez Morentin,
Director General of Posts and Telegraphs, Chairman.
Mr. Ignacio Galindo,
Engineer, Chief of the Office of Radiocommunication of the Direction General of Posts and Telegraphs.
Mr. Agustin Flores,
Engineer, Inspector of Radio of the Direction General of Posts and Telegraphs.

For the United States of America:
Com. T. A. M. Craven,
Chief Engineer, Federal Communications Commission, Chairman.
Mr. E. K. Jett,
Assistant Chief Engineer, Federal Communications Commission.
Mr. Gerald C. Gross,
Chief, International Section, Federal Communications Commission.
Mr. Harvey B. Otterman,
Treaty Division, Department of State.
Mr. Ellis O. Briggs,
Second Secretary, American Embassy, Havana.

For Canada:
Mr. Walter Rush,
Controller of Radio.
Mr. J. W. Bain,
Radio Engineer.
Mr. Donald Manson,
Canadian Broadcasting Corporation.
Mr. K. A. MacKinnon,
Radio Engineer, Canadian Broadcasting Corporation.

For Cuba:
Mr. Wifredo Albanes,
Senator of the Republic, Chairman of the Cuban Delegation.
Mr. Nicolas G. Mendoza,
Director of Radio.
Mr. Arturo Novo Vidal,  
Inspector General of Radio.

Mr. Alfonso Hernandez Cata,  
Superintendent of Laboratory, Department of Communications.

Mr. Luis Moas,  
Assistant to the Director of Protocol, Department of State.

Mr. Raul Karman,  
Engineer.

Mr. Julio Cesar Ulloa,  
Engineer.

Mr. Luis Martinez,  
Engineer.

Mr. Andres Ascencio,  
Major of the Constitutional Army.

Mr. Jose Lara,  
Lieutenant of the Central Division of the National Police.

Mr. Amadeo Saenz de Calahorra,  
Engineer, Member of the Radio Club of Cuba.

Captain Carlos M. Choca Quintana,  
Chief of the Signal Corps of the Constitutional Navy.

"The Conference held its Inaugural Session at 5:00 p.m. of the 15th day of March, 1937, in the Assembly Hall of the Department of Education, attended by all the Delegations and, as guests of honor, by Mr. Alfonso Cravioto, Mexican Ambassador, Mr. Herbert Grant Watson, British Minister, and Mr. Bissett, Trade Commissioner of the Dominion of Canada.

"The Conference was inaugurated, in the name of the Government of Cuba, by Mr. Melanio Diaz, Secretary of Communications.

"Mr. Wifredo Albanes, Senator of the Republic of Cuba and Chairman of the Cuban Delegation, was elected, by the unanimous vote of all the Delegations, to be Chairman of the Conference.

"Dr. Ramiro Hernandez Portela, Cuban Minister to the Argentine Republic, was appointed Secretary General.

"The Conference, at this Session, resolved to create in addition to the Committees on Credentials and on Initiatives, provided in the Regulations, three Committees of a technical character, for the prior study of the topics suggested for the Conference, and named as follows:

"First Committee: Broadcasting in General.

"Second Committee: Radiocommunications and other Services.

"Third Committee: Engineering.

"Messrs. Alfonso Gomez Morentin, Com. T. A. M. Craven and Walter A. Rush, Chairmen of the Delegations of the United Mexican States, the United States of America and the Dominion of Canada, were unanimously ap- pointed, in the order above mentioned, determined by lots drawn, Vice-Chairmen of the Conference.

"The following were likewise unanimously elected as Chairmen of the respective Committees:

"First Committee:  
Chairman: Walter A. Rush (Canada).

"Second Committee:  
Chairman: Engineer Agustin Flores (Mexico).

"Third Committee:  
Chairman: Com. T. A. M. Craven (U. S. A.).

"Senator Dr. Wifredo Albanes, Chairman of the Conference, was acknowledged, in accordance with the Regulations, as Chairman of the Committee on Initiatives, constituted also under the provisional Regulations, by the Chairmen of the four Delegations.

"The above mentioned Committees convened daily in the premises assigned for that purpose by the Government of Cuba, in the Hotel National, carefully examining each and all the topics submitted to them for study, and the enumeration of which is as follows:

1st.—Consideration of the possibility and necessity of resolving a newer and more proper distribution of the channels corresponding to the broadcasting band ranging between 550 and 1600 kcs., especially with reference to the American regions of the North and Center, and the West Indies, and, if possible, to determine the assignment of exclusive shared and local channels.

2nd.—Examination of principles regulating the assignment of broadcasting channels in the Americas for short wave bands.

3rd.—Consideration of the convenience of revising the North and Central American Agreement, signed in Mexico City, in July, 1933, and referring to the bands of frequencies from 1500 to 6000 kcs.

4th.—Exchange of opinions concerning allocation of frequencies in waves below ten meters, and especially concerning interferences with those frequencies, from an international standpoint.

5th.—Proposal of measures, even if they be of a temporary nature, which may contribute to at least relieve the interference situation which is being produced in the nations of North and Central America in relation to the broadcasting service in general.

6th.—Exchange of opinions concerning other problems confronted by the Americas in the different features of radiocommunication, and, if possible, adoption of practical resolutions, such as the use of directed waves and the proper geographical separation between stations.

7th.—Proposal of new bases concerning classification and width of channels, classification of stations
according to their power and definition of service areas of the different classes of stations, etc.

8th.—Consideration of the problems presented in the amateur radio bands of 20 and 40 meters. Study of the possibility of extending said bands and, especially, those corresponding to radiophone communications.

9th.—Adoption of practical coordination measures and mutual aid amongst the neighboring nations through radiocommunication, in cases of national calamities, such as floods, earthquakes, hurricanes, etc.

10th.—Study of what should, in general, be understood in radiocommunication as 'a good standard of engineering.'

11th.—Examination of the convenience of proposing and considering, in a Regional Conference of the Americas, any other matters deemed useful in avoiding the existing conflicts, or those which may appear in the future, in radiocommunication in the American countries.

12th.—Consideration of the convenience of calling, for the month of November, 1937, and at such place as may be resolved, a Regional Radio Conference for the purpose of defining and studying, at a meeting of all the American nations, their points of view in connection with the Telecommunication Conference to be held at Cairo, in 1938.

13th.—Study of the means to suppress the Inductive Interference, with special reference to diathermy and similar apparatus.

The Delegates examined carefully the provisional Regulation for the Conference, submitted to them by the Cuban Government for consideration, and, after agreeing on some amendments thereto, unanimously approved the same.

The Committees, after an exhaustive deliberation, resolved to submit to the consideration of the Conference the drafts of Resolution hereinafter set forth and which were unanimously approved by the Conference in its Plenary Session held the 29th day of March, 1937, in the Assembly Hall of the Department of Education.

RESOLUTIONS APPROVED

"The Regional Radio Conference, held at Havana, in the month of March, 1937, has resolved, unanimously, to express to the Governments herein represented, its recommendation that the following be agreed upon, as a basis of discussion at the forthcoming Inter-American Regional Radio Conference, now scheduled for November 1st, 1937.

"No. 1.—

"The sovereign right of all nations to the use of every radio broadcasting channel is recognized. Nevertheless, the Governments recognize that, until technical development reaches a state that permits the elimination of radio interference of international character, it is agreed that regional arrangements are essential in order to promote standardization and to minimize such interference.

"No. 2.—

"The Governments recognize that radio broadcasting service can be rendered in each nation by six classes of stations, each having different standards of service and interference conditions.

"No. 3.—

"The frequency band between 1500 and 1600 kilocycles should be assigned to radio broadcasting service in the Americas.

"No. 4.—

"For the purposes of this Conference, it is unanimously agreed that the words in the English language 'clear channel' shall be interpreted in the Spanish language as 'canal despejado,' and vice-versa, both expressions being understood as meaning the same thing.

"For the purposes of this Conference, it is unanimously agreed to accept the interpretation of the English words 'objectionable interference' as 'interferencia molesta' in the Spanish language and vice-versa, both expressions being understood to mean the same thing.

DEFINITION OF CHANNELS

"No. 5.—

"Three categories of channels exist, namely: Clear, regional and local.

"Clear channels: A clear channel is primarily one on which stations render service over wide areas and which are cleared of objectionable interference, within their primary service areas and over all or a substantial portion of their secondary service areas, from other stations operating on the same frequency.

"There are three classes of clear channels, namely:

"A.—Clear channels on which stations may operate with powers of more than 50 kw. and have their primary and secondary service areas free from objectionable interference within the limits of the country in which the said stations are located.

"B.—Clear channels on which no station may operate with a power in excess of 50 kw. In addition to the clear channel station operating on this frequency there may be stations of other classes providing the latter do not cause objectionable interference within either the primary or secondary service area of the clear channel station. In this class of clear channel, the determination of objectionable interference is obtained from measurements of the interference at a given day field strength contour of the clear channel station.
C.—Clear channels on which no station may operate with a power in excess of 50 kw. There may be more than one clear channel station on this class of channel but each station must use a directional antenna or other means in order to prevent objectionable interference within the service areas of the other stations. In this class of clear channel, the determination of objectionable interference is obtained from measurements of the interference at a given day field strength contour.

Regional channels: A regional channel is one on which several stations may operate with power not in excess of 5 kw. and whose primary service areas may be reduced as a consequence of mutual interference to given field strength contours.

Local channels: A local channel is one on which several stations may operate with powers not in excess of 5 kw. and whose primary service areas may be reduced as a consequence of mutual interference to given field strength contours.

Definition of primary service area: The primary service area of a clear channel station is that area determined by the field strength contour at which the ratio between ground and sky wave at night approaches unity.

Definition of secondary service area: The secondary service area of a clear channel station is that area within which the service is provided principally by means of indirect radiation and in consequence thereof the field strength varies from time to time.

Definition of objectionable interference: Objectionable interference is that degree of interference produced when the field strength of an interfering station operating on the same frequency and any type of wave to any radio station under their authority, upon the sole condition that no interference with any service of another country results therefrom.

Limits of objectionable interference: A station shall be considered as not capable of causing objectionable interference to a clear channel station when it uses the same frequency and is separated from the clear channel station by a time difference of five hours, or if it is located no closer to the clear channel station than indicated in the following Table:

<table>
<thead>
<tr>
<th>Power</th>
<th>Miles</th>
<th>Kilometers</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 kw. or less</td>
<td>3.000</td>
<td>4.825</td>
</tr>
<tr>
<td>5 kw.</td>
<td>3.250</td>

<td>3.500</td>
<td>5.630</td>
</tr>
<tr>
<td>over 50 kw.</td>
<td>4.000</td>
<td>6.440</td>
</tr>
</tbody>
</table>

General: Stations operating on clear channels should in principle employ relatively high power and may employ under certain specified conditions powers in excess of 50 kw.

Each nation to which a clear channel may be assigned must use such channel in a manner that conforms to the best practice of good engineering. If within a number, to be determined, of years from the day of signing this agreement a nation to which has been assigned a clear channel does not make use of such channel in accordance with good allocation engineering practice, any other nation, which is a party to this Agreement, shall have the right to use such channel in the same manner and under the same conditions as employed by the nation to which the channel was originally assigned.

When one nation to which a clear channel has been assigned agrees to permit another nation to use it in a manner not in accord with this Agreement, other nations signatories to this Agreement must be notified in sufficient time to permit their presenting objections thereto.

All nations in a specified region may use all regional and local channels in accordance with the agreed standards of engineering.

FREQUENCIES ABOVE 1600 KC/S

A.—Services Other Than Broadcasting

No. 6.—

I.—The participating Governments may assign any frequency and any type of wave to any radio stations under their authority, upon the sole condition that no interference with any service of another country results therefrom.

II.—The participating Governments undertake to assign frequencies to the stations under their jurisdiction in conformity with the Table “Distribution of Frequencies to Services”.

“Table II may be used as a guide for the designation of frequencies to be assigned to stations.

“IV.—The participating Governments in allocating frequencies above 4000 kc. agree to adhere to the provisions of Appendix No. 1, except that the band of frequencies from 5600 to 5700 kc. shall be assigned exclusively to the Air Mobile Service.

“V.—In general, in the frequency range 1600-3000 kilocycles, the frequencies assigned shall be integral multiples of 4 kilocycles. Communication channels wider than 4 kilocycles may be assigned where the authorized band width of the emission requires the use of such wider channels. For example, two adjoining telegraph channels may be assigned for telephony, in which case the frequency assigned to a station should be the mid-frequency of such channels. The frequencies to be assigned to stations are given in Table II. Departure from these assignments may be made in order to make more efficient use of the frequency space available.

</table>

A.—Fixed stations 0.03% 0.01%
B.—Land stations 0.04% 0.02%
C.—Mobile stations using frequencies not normally used for ship radiotelegraph transmissions 0.05% 0.02%
D.—Mobile stations using any wave within the band 0.1% 0.1%

(1) The tolerances given in this column will be applicable only until January 1, 1940. After that date all transmitters shall conform to the tolerances given in the second column.

“VIII.—The participating Governments agree to require stations under their jurisdiction to use transmitters which are as free as practicable from all spurious emissions such as those due to harmonics, decrement, spacing waves, frequency modulation, key clicks, type of keying, etc., not essential to the type of communication being carried on.

“IX.—The procedure to be followed in the elimination of interference between radio stations under the jurisdiction of the participating Governments shall be covered by separate agreements.

“X.—The restriction against certain types of emissions in the band 325 to 345 kc., contained in Appendix No. 1, par. 11 (1), will not be applicable to the region of North and Central America.

“XI.—All the coastal stations (except those in Hudson Bay) under the jurisdiction of the participating Governments shall be considered as being in a region of heavy traffic in the sense of Appendix No. 2, par. 1 (6)-a. As a result, traffic on the wave of 500 kilocycles (410 kc. on the Great Lakes) shall be limited to the conditions fixed in said Appendix No. 2, par. 6 (a).

“XII.—Definitions of terms:

“(1).—Telecommunication: Any telegraph or telephone communication of signs, signals, writings, images and sounds of any nature, by wire, radio, or other systems or processes of electrical or visual (semaphore) signalling.

“(2).—Radiocommunication: Any telecommunication by means of Hertzian waves.

“(3).—Radiogram: Telegram originating in or destined to a mobile station, transmitted on all or part of its route over the radio channels of the mobile service.

“(4).—Public correspondence: Any telecommunication which the offices and stations, by reason of their being at the disposal of the public, must accept for transmission.

“(5).—Private operating Agency: Any individual, company or corporation, other than a government institution or agency, which is recognized by the government concerned and which operates telecommunication installations for the purpose of exchanging public correspondence.

“(6).—Administration: A government administration.

“(7).—International service: A telecommunication service between offices or stations under the jurisdiction of different countries, or between stations of the mobile service, except when the latter are of the same nationality and are within the limits of the country to which they belong. An internal or national telecommunication service which is likely to cause interference with other services beyond the limits of the country in which it operates, shall be considered as international service from the standpoint of interference.

“(8).—Limited service: A service which can be used only by specified persons or for special purposes.

“(9).—Mobile service: A radiocommunication service carried on between mobile and land stations and by mobile stations, communicating among themselves, special services being excluded.
“(10).—**Fixed stations**: A station not capable of being moved, and communicating by radio with one or more stations similarly established.

“(11).—**Land station**: A station not capable of being moved, carrying on a mobile service.

“(12).—**Coast station**: A land station carrying on a service with ship stations. This may be a fixed station used also for communication with ship stations; in this case, it shall be considered as a coast station only for the duration of its service with ship stations.

“(13).—**Aeronautical station**: A land station carrying on a service with aircraft stations. This may be a fixed station also for communication with aircraft stations in this case, it shall be considered as an aeronautical station only for the duration of its service with aircraft stations.

“(14).—**Mobile station**: A station capable of being moved and which ordinarily does move.

“(15).—**On board station**: A station on board either of a ship which is not permanently moored, or an aircraft.

“(16).—**Ship station**: A station on board a ship which is not permanently moored.

“(17).—**Aircraft station**: A station on board an aerial vehicle.

“(18).—**Radiobeacon station**: A special station the emissions of which are intended to enable an on-board station to determine its bearing or a direction with reference to the radiobeacon station, and in some cases also the distance which separates it from the latter.

“(19).—**Radiodirection-Finding station**: A station equipped with special apparatus for determining the direction of the emissions of other stations.

“(20).—**Telephone broadcasting station**: A station carrying on a telephone broadcasting service.

“(21).—**Television broadcasting station**: A station licensed for the transmission of transient visual images of moving or fixed objects, for simultaneous reception and reproduction by the general public.

“(22).—**Amateur station**: A station used by an amateur, that is, by a duly authorized person interested in radio technique solely with a personal aim and without pecuniary interest.

“(23).—**Private experimental station**: A private station for experiments looking to the development of radio technique or science.

“(24).—**Private radio station**: A private station, not open to public correspondence, which is authorized solely to exchange with other private radio stations, communications concerning the private business of the license holder or holders.

“(25).—**Frequency assigned to a station**: The frequency assigned to a station is the frequency occupying the center of the frequency band in which the station is authorized to work. In general this frequency is that of the carrier wave.

“(26).—**Frequency band of an emission**: The frequency band of an emission is the frequency band actually occupied by the emission for the type of transmission and for the signalling speed used.

“(27).—**Frequency tolerance**: The frequency tolerance is the maximum permissible separation between the frequency assigned to a station and the actual frequency of emission.

“(28).—**Power of a radio transmitter**: The power of a radio transmitter is the power supplied to the antenna.

In the case of a modulated-wave transmitter, the power in the antenna shall be represented by two numbers, one indicating the power of the carrier supplied to the antenna and the other the actual maximum rate of modulation used.

“(29).—**Aeronautical service**: A radio service carried on between aircraft stations and land stations, and by aircraft stations communicating among themselves. This term shall also apply to fixed and special radio services intended to insure the safety of aerial navigation.

“(30).—**Fixed service**: A service carrying on radio communication of any kind between fixed points excluding broadcasting services and special services.

“(31).—**Special service**: A telecommunication service carried on especially for the needs of a specific service of general interest and not open to public correspondence, such as: a service of radio-beacons, radio direction finding, time signals, regular meteorological bulletins, notices to navigators, press messages addressed to all, medical notices, medical consultations, standard frequencies, emissions for scientific purposes, etc.

“(32).—**Telephone broadcasting service**: A service carrying on the broadcasting of radiophonic emissions primarily intended to be received by the general public.

“(33).—**Visual broadcasting service**: A service carrying on the broadcasting of visual images, either fixed or moving, intended to be received by the general public primarily.

“(34).—**Amateur service**: A radio service carried on between amateur stations.

“(35).—**Air mobile service**: A radio service carried on between aircraft carriers and by aircraft stations communicating among themselves.

“(36).—**General experimental service**: A radio service carried on by experimental stations engaged in research or development in the radio art.

“(37).—**Police service**: The radio service carried on by provincial, state, or municipal police authorities for emergency services principally with mobile police units.

“(38).—**The term ‘channels’ means the portion of the radio spectrum of a width sufficient to permit of its use
by a radio station for communication purposes; it comprises the following three elements, all defined below:

1) the 'frequency band of emissions.'
2) twice the specified 'frequency tolerance.'
3) the 'interference guard bands,' if required.

"(39).—The term frequency band of emission means that the frequency band of an emission is the frequency band actually occupied by this emission for the type of transmission and for the signalling speed used.

"(40).—The term 'interference guard bands' means the frequency bands additional, to the frequency band of emission and frequency tolerance, which may be allowed in order that there shall be no interference between stations having adjacent frequency assignments. In general this provision is dependent upon receiver selectivity and transmitter characteristics.

"(41).—The term ‘primarily’ used in connection with certain bands in the allocation table of this agreement, means that as duly authorized installations of the primary services are undertaken, they will have preference on the available channels in that particular band.

The assignment of channels to other services in the general allocation for each of these bands will be carried out in such a manner as to prevent undue interference with existing stations of the primary service.

"(42).—Facsimile broadcast station: A station licensed to transmit images of still objects for record reception by the general public.

APPENDIX I

"Allocation and use of frequencies (wave lengths) and of types of emissions.

"(Exact text of Article 7 of General Radio Regulations annexed to the International Telecommunication Convention, Madrid, 1932.)

APPENDIX II

"Use of waves in the mobile service.

"(Exact text of Article 19 of General Radio Regulations annexed to the International Telecommunication Convention, Madrid, 1932.)

"No. 7.—

"That the 40-meter amateur band be subdivided in two parts: one from 7000 to 7100 kc. exclusive for radiophone amongst the Latin American amateurs, and the other, from 7100 to 7300 kc. to remain as before, only as a radiotelegraph band.

"No. 8.—

"That consideration be given to the establishment of an international regional police radiotelegraph system with the object of taking action at the forthcoming regional conference of November 1, 1937. In this connection, the United States of America is requested to act as the centralizing administration and to furnish not later than September 15, 1937, to the countries invited to the November Conference, the draft of a plan for study in advance of the regional conference.

"No. 9.—

"The Third Committee of this Conference (Engineering) held several meetings, in order to comply with the task entrusted to it by the Conference, to establish the engineering standards indispensable for the fulfillment of the resolutions adopted by the First and Second Committees, relating to the topics submitted to the study of said Committees.

"It acted, therefore, on the work rendered by said Committees, making a thorough study of the problems and drawing up an extensive document, in which the technical principles that it considered necessary to recommend as a basis for the execution of said resolutions are set forth.

"This is the document inserted hereinafter:

ENGINEERING PRINCIPLES

PART I

Broadcasting 540-1600 kc.

Classes of Stations

"For the purpose of promoting coordination between nations with respect to questions of interference in the broadcast band 540-1600 kc., each nation a party to this agreement should notify the others with respect to the call signs, frequency, power, antenna characteristics, and location of the stations they have authorized; and for purposes of obtaining cooperation with respect to international interference they shall state in which of the following classes they deem the stations they have authorized should be listed:

"Class I: A ‘clear channel station’ using Class A or B clear channels and designed to render primary and secondary service over extended areas and at relatively long distances. Those stations of this Class operating on Class B channels shall not be permitted to use more than 50 kw. power.

"Class II: A ‘clear channel station’ using Class C clear channels and designed to render primary and secondary service over relatively wide areas and at relatively long distances. They may operate with not more than 50 kw. power and must use directional antennae or other means in order to avoid objectionable interference with other stations of the same class using the same channel.

"Class III: A ‘limited clear channel station’ using Class B or Class C clear channels and designed to render service to a portion of their normal primary service area which, according to the power used, may be relatively large. The
power of these stations shall not exceed 50 kw. and they must use special measures or otherwise be located at a sufficient distance to prevent objectionable interference to the service of the clear channel stations regularly assigned the same channel as is used by the ‘limited clear channel station.’ A ‘limited clear channel station’ is subject to the interference it may receive from the clear channel stations using the same frequency.

“Class IV: A ‘regional station’ using a regional channel and designed to render service primarily to metropolitan districts and the rural areas contained therein and contiguous thereto. Their power may not exceed 5 kw. and their service areas are subject to mutual interference in accord with agreed upon engineering standards.

“Class V: An ‘urban station’ using a local channel and designed to render service primarily to cities and towns and the suburban areas contiguous thereto. The power of ‘urban stations’ may not exceed 1 kw. and their service areas are subject to mutual interference in accord with agreed upon engineering standards.

“Class VI: A ‘city station’ using a local channel and designed to render service primarily to cities and towns and the suburban areas contiguous thereto. The power of these stations may not exceed 250 watts and their service areas are subject to mutual interference in accord with agreed upon engineering standards.

“The engineering standards of operation under which each class of station renders service is as follows:

<table>
<thead>
<tr>
<th>Class of Stations</th>
<th>Permissible Power</th>
</tr>
</thead>
<tbody>
<tr>
<td>Class I using Class A clear channels</td>

“The frequency 540 kc. may be used only by stations located at least 1000 miles from the nearest seacoast and should not be used under any other conditions for the reason that such stations are capable of rendering interference to international services of nations not a party to this agreement, as well as to services of nations a party to this agreement, which operate aviation and maritime radio services in accordance with the International Telecommunications Convention at Madrid.

Frequency Separation

“Within the broadcast band 540-1600 kc., the frequencies which are assigned to broadcasting stations shall be in multiples of ten, and stations operating on these frequencies shall not deviate from their assigned frequency by more than 50 cycles.

Use of Channels by Classes of Stations

“In general, clear channels should be assigned to clear channel stations, the regional channels to regional stations, and local channels to urban and local stations.

“In any specified region and under conditions in which objectionable interference is not likely to occur, ‘limited clear channel stations’ (Class III) may use Class B and C clear channels.

“Also, in any specified region and under conditions in which objectionable interference will not occur, Class V and VI stations may use frequencies assigned to Class IV stations.

“Between the hours of sunrise and sunset any class of station may use clear channels of Class A provided no objectionable interference is caused within the country in which is located the station which is normally assigned such clear channel for regular use.

“Where two regions are separated by long distances
such as North America and South America, it is deemed good engineering practice to have different regional arrangements so as to permit the high powered clear channels in one region to use some of the frequencies allocated as regional or local channels in other regions and vice versa.

**Objectionable Interference: Same Channel**

“Objectionable interference shall be said to exist to the service of the classes of stations specified herein when the signals radiated from another station using the same channel exceed at the specified point of measurement the field intensities, indicated below, 10% of the time or more:

<table>
<thead>
<tr>
<th>Class of Station</th>
<th>Permissible Intensity of Interfering Signal</th>
<th>The Contour or Boundary on or Within Which Interference is to be measured</th>
</tr>
</thead>
<tbody>
<tr>
<td>Class I using Class A clear channels</td>

**Antenna Performance**

“For the purpose of estimating objectionable interference of an international character, clear channel stations shall be assumed to produce an effective field of 200 millivolts per meter at one mile (324 millivolts per meter at one kilometer) corrected for attenuation, for each kilowatt of antenna input power to the antenna.

“Stations of ‘limited clear channel’ and regional classification shall be assumed to produce an effective field of 150 millivolts per meter at one mile (243 millivolts per meter at one kilometer) corrected for attenuation, for each kilowatt of antenna input power.
"Stations of an urban and city classification shall be assumed to produce an effective field of 125 millivolts per meter at one mile (202 millivolts per meter at one kilometer) corrected for attenuation, for each kilowatt of input power.

"In order to determine the effect of comparative radiation of a station employing a directional antenna, it is necessary to determine the unattenuated field at one mile (or one kilometer) in the direction of the service area of the station with which there is a probability of interference, and then to express this value in terms of that of a station having similar classification, utilizing an antenna of the stipulated efficiency.

Determination of Power

"With respect to the notifications of statistical data concerning the characteristics of radio broadcasting stations, each nation, party to this agreement, agrees to determine the power of its stations in one of the following manners:

1. Antenna Input Power consisting of the square value of the antenna current times the value of the antenna resistance.

2. Determination of effective field intensity recordings, corrected for attenuation. Such recordings to be made on several radials. This effective field can then be related to the effective field normally expected for the antenna efficiency used in this agreement for the different classes of stations.

Method of Determining the Presence of Objectionable Interference

"In the case of interference to Class A stations from stations using the same channel, the probability of such interference must be determined by the application of the use of the interference curve with the location of the border of the country in which the Class A station is located.

"The presence of objectionable interference may be presumed to exist in the service area of all stations, except for Class A as specified above, when an interfering station is radiating the normally expected effective field in the direction of a station interfered with and the distance between the two stations is less than that indicated in the distance tables used as a guide. Another acceptable method of determining the probability of objectionable interference is to utilize the interference curves which are 'field intensity versus distance,' and which are adopted as guides.

"Actual proof of interference must be obtained by field intensity recordings taken by Government engineers or such other agency as may be mutually acceptable to the parties concerned, and for daylight interference the total time taken for recordings should be at least five days under good transmission conditions and for at least fifty per cent of the daylight transmission time of the interfering station. In the event of night interference, the recordings should be commenced two hours after sunset of the most westerly station and should be taken each night for ten days (not necessarily consecutive) of good transmission conditions and for at least fifty per cent of the night transmission time of the interfering station after the stipulated commencement of the recordings. (See Resolution No. 11.)

Propagation Curves

"In computing strength of signal at a given distance from a station of given power, for the purpose of establishing frequency-mileage separation tables for the guidance of the Administrations, it is proposed to use as a basic curve for day propagation the curve for 1000 kc., annexed hereto, entitled, 'Ground Wave Field Intensity vs. Distance For One Kilowatt Radiated From Short Antenna, Ground Conductivity = 10^{-13} \ e =15 Field at One Kilometer, 300 Millivolts Per Meter' (187 mv/m at one mile).

"It is to be understood that in using this curve different values of unattenuated field at one mile (or one kilometer) shall be used for the different classes of stations. The values to be used are:

- For clear channel stations 200 mv/m at one mile
- For 'limited clear channel' and regional stations 150 mv/m at one mile
- For urban and city stations 125 mv/m at one mile

These values are for one kilowatt input to the antenna.

"For night propagation it is proposed to use the graphs of sky wave field intensity, attached hereto, entitled, 'Average Sky Wave Field Intensity Corresponding to the Second Hour After Sunset in the Recording Station, 100 Millivolts Per Meter at One Mile (161 at one kilometer).'

Width of Broadcast Channels

"The present width of 10 kc. for broadcast channels shall be maintained in the band 540-1600 kc.

Broadcast Frequency Assignments

"The frequencies assigned to broadcast stations in the band 540-1600 kc. shall be in multiples of 10 kc.

PART II

High Frequency Broadcasting

"It is the sense of this Conference that there is a need for the study of the high frequency broadcasting situation in the Americas so that an orderly arrangement based on
sound engineering principles can be obtained. Such an arrangement could be designed so as to permit the interchange of broadcasting programs among the American nations free of objectionable interference.

"This study should include an observation of the high frequency portion of the radio spectrum in order to determine existing conditions and causes of interference which are present.

"Each nation should be prepared to exchange this information at the forthcoming Inter-American Regional Radio Conference with the view of perfecting a plan which could be presented at the Cairo Radio Conference beginning February 1, 1938.

"Such a plan could be coordinated with the plans of other nations in other portions of the world in full collaboration between the Americas and other nations who must also share these high frequency broadcasting bands.

**PART III**

**Miscellaneous Matters**

**Interference from Electrical Devices**

"It is considered that radio-therapeutic machines and other apparatus in which the radiation in space is not suppressed constitute a serious source of objectionable interference to radio communication and broadcasting services. It is therefore recommended that the various nations study the ways and means for eliminating or reducing this serious source of interference which has proved to be international in character.

**Prevention of Spurious Radiation**

"The Administrations shall endeavor to reduce or eliminate spurious radiations from a transmitter. These radiations should not be of sufficient intensity to cause interference on receiving sets of modern design which are tuned outside the frequency band of emission required for the type of emission employed. In the case of type A-3 emission (radiotelephony) the transmitter should not be modulated in excess of its modulation capability to the extent that interfering spurious radiations occur, and in the case of amplitude modulation the operating percentage of modulation should not be less than 75 per cent on peaks of frequent recurrence. Means should be employed to insure that the transmitter is not modulated in excess of its modulation capability.

"A spurious radiation is any radiation from a transmitter which is outside the frequency band of emission normal for the type of transmission employed, including any harmonic modulation products, key clicks, parasitic oscillations or other transient effects.

**Study With Respect to High Fidelity Broadcasting**

"The various Administrations agree to study the problems incident to high fidelity broadcasting to the end that this type of service may be accommodated in accordance with good engineering principles.

**Changes of Engineering Standards**

"The engineering standards mentioned in this agreement are subject to change in accordance with technical advances in the art and by mutual consent of the Government parties to this agreement.

---

"No. 10.—

"It was resolved by the Conference to hold an Inter-American Radio Conference, to be inaugurated the first day of November, 1937, to which there shall be submitted, as a basis for discussion, all the matters prepared and studied by the present Regional Conference as well as any other questions which the American nations may suggest before the 30th day of August, 1937.'

"It requests the Cuban Government to offer its hospitality for the holding of said Conference in the city of Havana and, in such a case, to kindly invite all the American nations to be present at the said Conference of November 1, 1937.'

"No. 11.—(See 'Method of Determining the Presence of Objectionable Interference'—Resolution No. 9.)

"If the signal intensity for all these recordings at the specified point of measurement exceeds the value specified herein as constituting objectionable interference for ten per cent of the time or more there shall be ground for complaint under the provisions of this agreement.

---

"No. 12.—

"That the frequencies higher than 30 megacycles be retained in an experimental status with the understanding that definite proposals concerning the allocations of these frequencies will be made by each country at the regional radio conference to be held beginning 1st November, 1937. In this connection it appears desirable from an engineering standpoint to allocate frequencies beginning at approximately 40 megacycles to the television service except for the amateur band 56 to 60 megacycles.

---

"No. 13.—

"That subject to the internal regulations of each country, any radio transmitting station, may, during a period of emergency in which normal communication facilities are disrupted as a result of hurricane, flood, earthquake or similar disaster, carry on emergency communication, with points other than those normally authorized.
"No. 14.—

"It is considered that short wave broadcasting services are extremely useful for the exchange of programs among the American nations but that they differ from the services of the regular broadcast band (540-1600 kc.) because the latter are essentially useful primarily for national service. In the determining factors for the use of short wave broadcasts as among nations, it is considered that the principles which should govern the assignment to stations of these short waves must differ entirely from those considered in the assignment of frequencies in the regular broadcast band for national service, because of the radically different propagation characteristics between said classes of waves.

"It is considered essential that, if short waves are to be used effectively for international service—for which they seem to be admirably suited—stations which use these channels should be required to use them with sufficient power to secure the rendition of good international service. Insofar as the American nations are concerned, the distribution of short waves should be based on a principle which enables a proper interchange of programs from the various centers of talent, rather than on a principle which necessitates the distribution of frequencies from the standpoint of national service.

"No. 15.—

"That the 'Pan-American Radio Technical Union' be established at such place as may be determined, for the purpose of creating a regional organization, of an advisory character, to centralize and facilitate the exchange of radio technical information among the following American Governments:

"Argentine Republic, Bolivia, Brazil, Canada, Chile, Colombia, Costa Rica, Cuba, Dominican Republic, Ecuador, El Salvador, Guatemala, Haiti, Honduras, Mexico, Newfoundland, Nicaragua, Panama, Paraguay, Peru, United States of America, Uruguay and Venezuela.

"This organization shall be maintained by proportional quotas from the countries concerned, the annual expenses to be limited to a maximum of $25,000.

"The Cuban Government is requested to forward prior to August 30, 1937, to the Governments which are to participate in the November Conference, a preparatory statement of the terms in which said organization is to be created and relative to the details of its working.

"The Conference resolved to acknowledge the efficiency and special assiduity with which the officials assigned to the office of the Secretary General have collaborated to the greater success of its work, Messrs. Nicolas Perez Stable, Dr. Carlos A. Mendiola, Dr. Emilio Pando and Eng. Nicolas M. Quintana deserving to be especially mentioned.

"The names of Messrs. Eduardo Morales de los Ríos, Dr. Alberto Hevia and Julio F. Berndes, as well as those of Antonio Bruzon and Misses Mencia and Washington, likewise deserve to be mentioned.

"It also seems appropriate to give special mention to the personnel of the office of the Secretary General, who have rendered a maximum of individual effort in the works of this Conference.

"And for the proper recording, the present FINAL MINUTES have been signed by all the Delegates, in the City of Havana, this 29th day of March, 1937.

WASHINGTON RADIO HIGHLIGHTS

NAB fifteenth annual convention set for June 20-23, inclusive, Hotel Sherman, Chicago. * * * FCC Commissioner Payne suggests taxing broadcasting stations from $1 to $3 per watt per year depending upon wattage of the station. * * * Recommendation made in letter to Representative Boylan of New York. * * * Also communicates suggestion for bill to Congress. * * * Contends that proposed bill would net U. S. Government nearly seven million dollars annually. * * * Compares broadcasting and concessions granted telegraph companies from which it receives reduced rates. * * * Contends his bill will transfer burden of regulation from government to radio industry.

NAB CONVENTION, JUNE 20-23, HOTEL SHERMAN, CHICAGO

The Fifteenth Annual NAB Convention will be held June 20, 21, 22 and 23, 1937, at the Hotel Sherman, Chicago, Illinois. The decision on dates and the hotel was made after a thorough examination of the available facilities in Chicago. The schedule of rates follow:

- Single: $2.50; 3.00; 3.50; 4.00; 4.50; 5.00.
- Double: $4.00; 4.50; 5.00; 6.00; 7.00; 8.00.
- Twin Beds: $5.00; 6.00; 7.00; 8.00; 10.00.

Make your reservations now.

PAYNE SUGGESTS WATTAGE TAX

Federal Communications Commissioner George Henry Payne, in a communication to Representative Boylan of New York this week suggests a tax on the wattage of broadcasting stations. In his letter to the congressman, Commissioner Payne says:

"Honorable John J. Boylan,
House of Representatives,
Washington, D. C.

"My dear Congressman Boylan:

"In accordance with our conversation of the other day, I am sending you my ideas of a bill that would meet the serious situation that exists with regard to the taxing of the broadcast stations. As neither Dr. Miller nor myself is a bill drafter by birth or profession, I suppose you will have the bill run over by your Legislative Counsel of the House. There has been a widespread conviction that the enormous profits made by the broadcast stations more than justify a special tax, as they now enjoy the use of a great national resource and it is the government that bears the burden of the regulation without which they could not exist. Various members of both branches of Congress have at times suggested that this situation should be remedied, but all the suggestions were in the form of taxation of the gross revenue or net income. This form of taxation with the varying sums and the large amount of labor involved is obviously not as workable or practical as the one outlined in the bill enclosed.

Make Your Plans Now to Attend the FIFTEENTH ANNUAL NAB CONVENTION HOTEL SHERMAN CHICAGO, ILLINOIS JUNE 20, 21, 22, and 23, 1937
"The levy on power in the form of a special tax is simple, calculable at once and is eminently fair. To give you some idea of the profits, it is a fact that there are not more than $40,000,000 invested in the broadcasting business and the gross revenue last year exceeded $107,000,000, with the possibility of its reaching $125,000,000 to $130,000,000 in the current year. Not long ago, one station, which represented an investment of $177,192.15, was sold for $1,250,000; another, which represented an investment of $146,006.02, was sold for $452,500.00; and still another, which represented an investment of $90,321.09, was sold for $300,000.00—and so on.

"Computed on the broadcast licenses now in effect, the total amount of revenue that this special tax will yield will be $6,946,395.00, including the tax on an experimental broadcast license now in effect, representing a temporary increase of 450,000 watts.

"Many years ago the government gave to the telegraph companies concessions in land and timber and the government has since that time continued to receive compensation in the form of substantially lower rates. The government, as you know, pays only forty per cent of the normal rates on all messages sent by telegraph. In the case of the broadcast industry the government has made a far more valuable gift from the public resources without any compensation whatever.

"The proposed special tax will be no burden on the broadcast industry as it represents less than six per cent of the revenue of the industry. At best it is but a small return for the great privilege the industry enjoys in using the people’s airwaves. I may mention, in this connection, that the bill represents purely a revenue measure and that no special tax heretofore levied by the government, including the special taxes of the Harrison Act and the Firearms Act, which are largely regulatory, has ever been upset by the courts."

"Very sincerely yours,

George Henry Payne,
Commissioner."

A BILL

To provide for the taxation of operators of radio broadcast stations.

Be it enacted by the Senate and the House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Broadcast Station Tax Act of 1937."

Section 1. Definitions.

That when used in this Act—

(a) That the term "person" includes a partnership, company, association, corporation, trust or estate, as well as a natural person.
number of daily hours authorized by the Commission bears to 24 hours.

(d) Varying Power Stations.

In the case of a station using varying amounts of power, the tax shall be at the rate imposed by subsection (a) using as the basis the weighted average amount of power authorized by the Commission.

(e) Borrowed Time.

Time borrowed from or loaned to another station shall not affect the basis of the tax.

Sec. 3. Exemptions.

The provisions of section 2 shall not apply to a station certified by the Commission to the Commissioner as (1) operated by the United States Government, any State, Territory, or possession of the United States, or any political subdivision thereof, or the District of Columbia; or (2) operated exclusively for non-profit purposes and broadcasting only unsponsored programs.

Sec. 4. Administrative Provisions.

All provisions of law (including penalties) applicable with respect to the taxes imposed by section 1 of the Act of December 17, 1914, as amended (U.S.C. Suppl. VII, Title 26, sections 1040 and 1383) shall, insofar as not inconsistent with this Act, be applicable with respect to the taxes imposed by this Act.

Sec. 5. Separability Clause.

If any provision of this Act, or the application thereof to any person or circumstances, is held invalid, the remainder of the Act, and the application of such provision to other persons or circumstances, shall not be affected thereby.

Sec. 6. Authority for Regulations.

The Commissioner, with the approval of the Secretary, shall prescribe such rules and regulations as may be necessary for carrying the provisions of this Act into effect.

SECURITIES ACT REGISTRATIONS

The following companies have filed registration statements with the Securities & Exchange Commission under the Securities Act:

North American Finance Corporation, Richmond, Va.  (2-2946, Form A-2)
Edison Brothers Stores, Inc., St. Louis, Mo.  (2-2947, Form A-2)
Chester Pure Silk Hosiery Co., St. Louis, Mo.  (2-2951, Form A-1)
Taylor-Colquitt Co., Spartanburg, S. C.  (2-2952, Form A-2)
Pick Properties Corporation, Chicago, Ill.  (2-2953, Form A-1)
Katz Drug Company, Kansas City, Mo.  (2-2954, Form A-2)
United Services Life Insurance Company, Washington, D. C.  (2-2955, Form A-1)
Elizabeth Gold Mining Company, Limited, Toronto, Canada.  (2-2956, Form A-1)
The New York Woman, Incorporated, New York City.  (2-2958, Form A-1)

Arthur J. Morris and William E. Wheeler, voting trustees of The New York Woman, Incorporated, New York City.  (2-2959, Form F-1)
Pfeiffer Brewing Company, Detroit, Mich.  (2-2960, Form A-1)
Hamilton Manufacturing Company, Two Rivers, Wis.  (2-2961, Form A-2)
Reliable Stores Corporation, Baltimore, Md.  (2-2962, Form A-2)
Stayton Oil Company, Denver, Col.  (2-2963, Form A-1)
Bridgeport Brass Company, Bridgeport, Conn.  (2-2964, Form A-2)
The Master Electric Company, Dayton, Ohio.  (2-2965, Form A-2)
The United Electric Coal Companies, Chicago, Ill.  (2-2966, Form A-2)
Brewster Aeronautical Corporation, Long Island City, N. Y.  (2-2967, Form A-1)
Bethesda Industrial Savings & Loan Company, Bethesda, Md.  (2-2968, Form A-1)
Monogram Pictures Corporation, New York City.  (2-2969, Form A-2)
Chicago Mail Order Company, Chicago, Ill.  (2-2972, Form A-2)
Virginia Surety Company, Roanoke, Va.  (2-2973, Form A-2)
Commonwealths Distribution, Inc., New York City.  (2-2974, Form A-1)
Gold Recovery Mining & Milling Corporation, Nederland, Col.  (2-2975, Form A-1)
Hollywood-Vine Building Corporation, Los Angeles, Cal.  (2-2976, Form A-2)
Atlantic Investors Trust, Boston, Mass.  (2-2977, Form A-1)
Somoa Products Company, Inc., Chicago, Ill.  (2-2609, Form A-1)
National Aircraft Company, Los Angeles, Cal.  (2-2765, Form A-1)
Luc-Teck Gold Mines, Limited, Toronto, Canada.  (2-2794, Form A-1)

RECOMMENDS CHANGES FOR WCOP

Broadcasting station WCOP, Boston, Mass., applied to the Federal Communications Commission to change its frequency from 1120 to 1130 kilocycles. It now operates daytime only and asked that it be allowed limited time until local sunset Salt Lake City, Utah. It operates with 500 watts.

Examiner George H. Hill in Report No. I-380 recommended that the application be granted. He found that “there appears to be a definite need in the Boston area for the services such as are proposed by the applicant.” Some slight interference might result from granting the permit for a short time but the Examiner states that “it appears that the increased service which will be rendered by station WCOP would greatly outweigh any interference caused by the proposed operation.”

NEW ALASKAN STATION RECOMMENDED

Edwin A. Kraft applied to the Federal Communications Commission for a construction permit for the erection of a new broadcasting station at Petersburg, Alaska, to use 1420 kilocycles, 100 watts and unlimited time on the air.

Examiner R. H. Hyde in Report No. I-384 recommended that the application be granted. The Examiner states that “the evidence disclosing the relatively limited amount of radio service now available in the community
and general area proposed to be served and the unusual conditions existing in the area with respect to transportation and communication facilities indicates a substantial need for local radio transmission facilities." He found also that granting the license would be in the public interest.

RECOMMENDS DISMISSAL OF APPLICATION

The Cadillac Broadcasting Company applied to the Federal Communications Commission for a construction permit for the erection of a new station at Dearborn, Mich., to use 1140 kilocycles, 500 watts power and daytime operation.

Examiner Melvin H. Dalberg in Report No. I-381 recommended that the application be allowed to be withdrawn without prejudice at the request of the applicant.

INCREASED POWER RECOMMENDED FOR WMBD

Broadcasting station WMBD, Peoria, Ill., operating on a frequency of 1440 kilocycles with unlimited time applied to the Federal Communications Commission to have its power increased from 500 watts and 1000 watts LS, to 1,000 watts and 5,000 watts LS.

Examiner George H. Hill in Report No. I-383 recommended that the application be granted. The Examiner states that "there appears to be a need for the service proposed to be rendered," also that "no objectionable interference would be caused to the protected service area of any station now licensed should WMBD be granted authority to operate with 5,000 watts, daytime power."

RECOMMENDATION AGAINST NEW STATION

The Peninsular Newspapers, Inc., applied to the Federal Communications Commission for a construction permit for the erection of a new broadcast station at Palo Alto, Cal., to use 1160 kilocycles, 250 watts and daytime operation.

Examiner P. W. Seward in Report No. I-382 recommended that the application be denied. He found that "the evidence adduced at the hearing does not establish a need for additional daytime service in the area proposed to be served." The Examiner states that the application is not in the public interest.

KINY POWER INCREASE DENIAL RECOMMENDED

Broadcasting station KINY, Juneau, Alaska, applied to the Federal Communications Commission to change its frequency from 1310 to 1430 kilocycles and to increase its power from 100 to 250 watts. It operates unlimited time.

Examiner R. H. Hyde in Report No. I-386 recommended that the application be denied. He found that "the applicant has not shown that the granting of this application under the conditions shown, particularly with respect to transmitter and antenna location, would serve the public interest, convenience and necessity."

DENIAL RECOMMENDED IN MICHIGAN CASES

W. H. Marolf applied to the Federal Communications Commission for a construction permit to erect a new broadcast station at Escanaba, Mich., to use 1500 kilocycles, 100 watts and unlimited time on the air. The Escanaba Daily Press Company applied for the same facilities.

Examiner R. H. Hyde in Report No. I-385 recommended that the Marolf application be denied and that the application of the Escanaba Daily Press Company be dismissed. The latter had asked for a continuance of its hearing.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them:

No. 3097. Wesleyan Diesel Service, Inc., 2906 Leavenworth St., Omaha, Neb., dealer in correspondence courses in Diesel engine installation and maintenance, is named respondent in a complaint charging certain unfair methods of competition in violation of Section 5 of the Federal Trade Commission Act.

Advertising in newspapers, magazines, circulars and by radio, the respondent company is alleged to have made assertions which served as representations to prospective pupils that several young men possessing required qualifications would be selected and trained for Diesel engine work; that there is a great demand for trained men in this activity; that good positions can be obtained by students after completing the respondent company's courses; that the tuition fee will be refunded if a student is not satisfied with results obtained after completion of the course, and other like representations.

No. 3098. Alleging use of a lottery scheme in the sale of blankets and bedspreads, a complaint has been issued against Penn Dry Goods Co., 731 Arch St., Philadelphia, and George J. Nothnagel, Collingswood, N. J., trading under the name of The Stanley Store and as agent of the Penn Dry Goods Co.

The complaint alleges that the respondents advertise their merchandise and sales plan by means of cards, circulars and letters and sell their products to wholesalers and retailers, clubs, fraternal organizations, hospitals and charitable institutions for resale to the purchasing public.

The respondents' method of distributing their merchandise is described as a "Club Plan", the clubs organized having a fixed number of members, usually 60 or 100, each of whom pays weekly dues, generally 25 cents, for a given period of weeks, usually not to exceed 20 or 24.

No. 3099. Biloxi Oyster Exchange, of Biloxi, Miss., its officers and directors, and 24 member companies operating in six southern states, are charged in a complaint with entering into and maintaining a price-fixing agreement which has resulted in lessen-
ing competition in the interstate sale and distribution of canned oysters. Fourteen of the companies have their headquarters in Mississippi, and the others in Louisiana, Alabama, Georgia, South Carolina and Florida.

Ernest Desporte, jr., is president and general manager and Cary P. Goodman, secretary-treasurer, of the exchange. The exchange was organized in 1933, according to the complaint, for collecting and disseminating information for oyster canners and packers, operating a selling agency for the canned oysters processed by its members, selling canned oysters for its own account, and for the further purpose of putting into effect the acts and practices alleged in the complaint to constitute unfair competition in violation of Section 5 of the Federal Trade Commission Act.

Acting in cooperation with each other, and with Biloxi Oyster Exchange, and pursuant to their alleged agreement and for the purpose of maintaining it, the respondents are said to have engaged in the following practices:

(1) Fixing and maintaining throughout each season uniform sales prices, brokerage fees, discounts, label allowances, and terms and conditions under which they sell canned oysters to the trade;

(2) permitting Biloxi Oyster Exchange to have access to their books and sales records;

(3) furnishing the exchange with weekly or other periodically kept inventories or data, such as names and addresses of buyers, number of cases of oysters sold to each buyer, prices at which all sales were and are made, copies of all invoices of shipments and of bills of lading, and other reports; and

(4) regulating and curtailing the processing of oysters and the canning thereof.

In promoting the sale of its dog food, the respondent company is said to present in detail his theories as to the mode of living which should be pursued to gain health. The pamphlets in general are said to deal with mental and physical hygiene.

The order directs Welsh to stop advertising that persons, by following his theories and adhering to certain practices, can prevent and cure all bodily diseases and receive beneficial treatment for any of a list of some 50 specific ailments, diseases and conditions ranging from adenosids to yellow jaundice.

The respondents are directed to stop advertising, through use of any foreign language, symbol, or picturization, or through any other means, that flavoring extracts or compounds, to stop representing, directly or indirectly, through use of any foreign language, symbol, or picturization, or through any other means, that flavoring extracts compounded or manufactured in the United States, are produced in Italy or any other foreign country, and imported into the United States.

The order directs McKinnon and his salesmen to cease and desist from representing that his photographic enlargements are oil paintings, portrait paintings or water-color paintings, or paintings, produced by hand without the aid of photography.

Findings in the case are that the pictures so represented as "paintings" are merely enlargements of original photographs, tinted or colored by spraying thereon crayon, pastel, water color or other powdered pigments.

No. 2827. An order prohibiting unfair representations in the sale of luggage and billfolds has been issued against George Landon and Michael Mason Warner, 360 North Michigan Ave., Chicago, trading as Landon & Warner.

The respondents are directed to stop advertising, through use of the words "cowhide," "genuine cowhide," "choice leather" and "A-1 quality leather," that Gladstone bags or other luggage made of leather, are made from the outer layer which is of higher quality.

Use of the term "14-K Gold" or any other symbol of similar import to describe initials or letters placed on handbags, when such initials or letters are made from the outer layer which is of higher quality, is also prohibited, as is the representation that letters or initials of purchasers are encased within a 14-K gold frame when such frame is not composed of 14-K gold or is gold plated.

Nos. 3090-3092 to 3007, inclusive. Ten companies manufacturing and selling automobiles, and three automobile financing companies have entered into stipulations not to resume representations in their advertising as to the amount charged retail purchasers of motor vehicles as financing charges under deferred payment plans, which the Commission had alleged to be misleading.
Upon acceptance of the stipulations, the Commission dismissed the complaints against the respondent companies without prejudice. The companies signing the stipulations are:

The Nash Motors Co.; Chrysler Corporation and its subsidiaries; Chrysler Sales Corporation and those companies manufacturing DeSoto, Dodge, and Plymouth cars; Graham-Paige Motors Corporation; Hudson Motor Car Co.; Reo Motor Car Co.; Packard Motor Car Co.; and Commercial Credit Co., Commercial Investment Trust Corporation, and Universal Credit Corporation, the last three named being financing companies.

Each respondent company agreed to cease and desist from separately or concertedly using or furnishing to authorized dealers or distributors any advertising matter in which the expression “6%” is used, without equally prominent use, in direct conjunction with, or otherwise using or furnishing to authorized dealers or distributors any advertising matter in which the expression “6%” does not refer to or indicate 6 per cent per annum on unpaid balances of the purchase price if such is not a fact.

According to the stipulations, one motor company adopted and advertised the so-called “6% Plan” in conjunction with a finance company, and by force of competition this plan was generally adopted throughout the motor vehicle industry.

FEDERAL COMMUNICATIONS COMMISSION ACTION

Hearing Calendar

The following broadcast hearings are scheduled at the Commission for the week beginning Monday, April 19:

Monday, April 19

HEARING BEFORE AN EXAMINER (Special Broadcast)

NEW—Abraham Plotkin, Chicago, Ill.—C. P., 1570 kc., 1 KW, unlimited time.

NEW—Food Terminal Broadcasting Co., Cleveland, Ohio.—C. P., 1500 kc., 100 watts, daytime.

NEW—Summit Radio Corp., Akron, Ohio.—C. P., 1390 kc., 1 KW, 1 KW LS, unlimited time.

WHK—Radio Air Service Corp., Cleveland, Ohio.—Modification of license, 1390 kc., 1 KW, 5 KW LS, unlimited time. Present assignment: 1390 kc., 1 KW, 5 KW LS, unlimited time.

NEW—Valley Broadcasting Co., Youngstown, Ohio.—C. P., 1350 kc., 1 KW, unlimited time.

Tuesday, April 20

HEARING BEFORE AN EXAMINER (Broadcast)

NEW—Associated Arkansas Newspapers, Inc., Hot Springs, Ark.—C. P., 1310 kc., 100 watts, daytime.

KTHS—Hot Springs Chamber of Commerce, Hot Springs, Ark.—Voluntary assignment of license, 1040 kc., 10 KW. Shares KRLD.

Thursday, April 22

ORAL ARGUMENT BEFORE THE BROADCAST DIVISION

Examiner's Report No. I-309:

KQV—KQV, Incorporated, Bellingham, Wash.—Renewal of license, 1200 kc., 100 watts, unlimited time.

KVOX—KVOX, Incorporated, Bellingham, Wash.—Transfer of control of corporation, 1290 kc., 100 watts, unlimited time.

Examiner's Report No. I-350:

Examiner's Report No. I-353:

NEW—Hildreth & Rogers Co., Lawrence, Mass.—C. P., 680 kc., 1 KW, daytime.

Friday, April 23

HEARING BEFORE AN EXAMINER (Broadcast)

NEW—John C. Hughes, Phoenix City, Ala.—C. P., 1310 kc., 100 watts, daytime.

APPLICATIONS GRANTED

WJDX—Lamar Life Ins. Co., Jackson, Miss.—Granted C. P. for changes in equipment, installation of new antenna system and increased in daytime power from 2½ to 5 KW; 1270 kc., 1 KW night, unlimited time.

KGKO—Wichita Falls Broadcasting Co., Wichita Falls, Tex.—Granted C. P. to install new equipment.

KCDA—Estes and Estes Broadcasting Co., Inc., Texarkana, Tex.—Granted C. P. to install new equipment and increase day power from 100 to 250 watts; 1420 kc., 100 watts, unlimited time.

KBPS—Benson Polytechnic School, Portland, Ore.—Granted license to cover C. P.; 1420 kc., 100 watts night and day, sharing with KXJL.

WAIR—C. G. Hill, Geo. D. Walker and Susan H. Walker, Winston-Salem, N. C.—Granted license to cover C. P. as modified; 1350 kc., 250 watts, daytime only.

WFTC—Jonas Weiland, Kinston, N. C.—Granted license to cover C. P. as modified, 1200 kc., 100 watts night, 250 watts, daytime, unlimited time.

KNJO—Iowa Broadcasting Co., Des Moines, la.—Granted license to cover C. P. as modified; 1320 kc., 1 KW night, using directional antenna, 5 KW day, non-directional, unlimited.

KRCM—Roberts-Mac Nab Co. (Arthur L. Roberts, R. B. McNab, A. J. Breitbach, Gen. Mgr.), Jamestown, N. Dak.—Granted license to cover C. P. and modifications thereof; 1310 kc., 100 watts night; 250 watts day, Simul-D, share KVOX night.

KFIR—K GIR, Inc., Butte, Mont.—Granted license to cover C. P.; 1310 kc., 1 KW night, 2½ KW day, unlimited time.

WGBF—Evansville on the Air, Inc., Evansville, Ind.—Granted license to cover C. P.; 630 kc., 500 watts night, 1 KW day, simul-day, share KFIRU night.

KVGB—Ernest Edward Ruehlen, Great Bend, Kans.—Granted license to cover C. P. as modified; 1370 kc., 100 watts, unlimited time.

WQDM—E. J. Regan and F. Arthur Bestwick, d/b as Regan & Bestwick, St. Albans, Vt.—Granted license to cover C. P. as modified; 1390 kc., 1 KW, specified hours.

KAND—Navarro Broadcasting Assn., J. C. West, President, Corsicana, Tex.—Granted modification of C. P. to move transmitter and studio sites locally, make changes in equipment, and extend completion date from June 20, 1937, to 60 days thereafter.

WRTD—The Times Dispatch Publishing Co., Richmond, Va.—Granted modification of C. P. approving transmitter and studio sites and vertical radiator and change in previously approved equipment.

2046
NEW—Augusta Broadcasting Co., Inc., Augusta, Ga.—Granted modification of C. P. to make changes in equipment and increase day power from 100 to 250 watts.

KSDO—The Press Democrat Publishing Co., Santa Rosa, Calif.—Granted modification of C. P. approving transmitter and studio sites, changing authorized equipment and approving tower.

KRIS—Gulf Coast Broadcasting Co., Corpus Christi, Tex.—Granted modification of C. P. approving transmitter and studio sites and installation of vertical radiator.

KTA—Tarrant Broadcasting Co., Fort Worth, Tex.—Granted modification of C. P. authorizing changes in equipment and extension of commencement date for 60 days and completion date for 180 days thereafter.

KOV—George B. Bairey, Valley City, N. Dak.—Granted voluntary assignment of license to KOV, Inc.; 1500 kc., 100 watts, unlimited.

WJBY—Gadsden Broadcasting Co., Inc., Gadsden, Ala.—Granted authority to install automatic frequency control equipment.

WPAD—Puducah Broadcasting Co., Inc., Paducah, Ky.—Granted special temporary authority to broadcast police calls for period not exceeding 30 days, pending building of new police transmitter; 1420 kc., 100 watts, 250 watts LS, unlimited.

NEW—Loyola University, Portable Mobile, New Orleans, La.—Granted C. P. for new relay high frequency station, frequencies 31100, 34600, 37600 and 40600 kc., 2 watts.

NEW—Loyola University, Portable Mobile, New Orleans, La.—Granted C. P. for new relay high frequency station, frequencies 31100, 34600, 37600 and 40600 kc., 2 watts.

NEW—WCAU Broadcasting Co., Mobile.—Granted C. P. for new high frequency relay station, frequencies 31100, 34600, 37600 and 40600 kc., 30 watts.

NEW—WAVE, Inc., Mobile.—Granted C. P. for new high frequency relay station, frequencies 31100, 34600, 37600 and 40600 kc., 1500 kc., 100 watts, night, 250 watts day, unlimited time.

SET FOR HEARING

NEW—Capitol Broadcasting Co., Inc., Raleigh, N. C.—C. P. for new station to operate on 1210 kc., 250 watts, daytime, exact transmitter, studio site and type of antenna to be determined with Commission's approval.

NEW—WSMB, Inc., New Orleans, La.—C. P. for new station to operate on 1500 kc., 100 watts night, 250 watts day, unlimited time, exact transmitter site to be determined with Commission's approval.

NEW—Warren B. Worcester, San Diego, Calif.—C. P. for new station to operate on 1400 kc., 250 watts night, 1 kw day, unlimited time, exact location to be determined subject to Commission approval.

NEW—L. Laurence Martin, Amarillo, Tex.—C. P. for new station to operate on 1120 kc., 250 watts, S.H. (7 a.m. to 8 p.m., continuous.

NEW—Western Union College, La Mars, Iowa.—C. P. for new station to operate on 1210 kc., 100 watts night, 250 watts day, unlimited time.

NEW—Metropolitan Radio Service, Inc., Chicago, Ill.—C. P. for new station to operate on 1570 kc., 1,000 watts, unlimited time, exact transmitter site to be determined subject to Commission approval.

NEW—Athens Times, Inc., Athens, Ga.—C. P. for new station to operate on 1210 kc., 100 watts night, 250 watts day, unlimited time, exact transmitter and studio sites to be determined with Commission's approval.

NEW—The Ohio Broadcasting Co., Steubenville, Ohio.—C. P. for new station amended to request 1425 kc., 100 watts, daytime only, exact transmitter and studio sites to be determined with Commission's approval.

NEW—The Ohio Broadcasting Co., Marion, Ohio.—C. P. for new station amended to read: 1200 kc., 100 watts, daytime only, exact transmitter site to be determined with Commission's approval.

NEW—The Ohio Broadcasting Co., East Liverpool, Ohio.—C. P. for new station amended to request 1270 kc., 250 watts, daytime only, exact transmitter and studio sites to be determined with Commission's approval.

NEW—G. Kenneth Miller, Tulsa, Okla.—C. P. for new station amended to request 1310 kc., 250 watts, daytime only.

KCRC—The Enid Radiophone Co., Enid, Okla.—C. P. for new station to install new equipment, a vertical radiator and increase power from 250 watts unlimited time to 500 watts unlimited time.

KXA—American Radio Telephone Co., Seattle, Wash.—C. P. to move station locally to site to be determined subject to Commission approval; make changes in equipment and increase power from 250 watts night, 300 watts day, to 1 KW, 700 kc., limited.

WCM—WCM Broadcasting Co., Inc., Asland, Ky.—C. P. to move transmitter site locally to site to be determined; install new equipment; changes in antenna system; change frequency from 1310 kc. to 1120 kc.; increase night power from 100 watts to 250 watts, and day power from 250 watts to 500 watts unlimited time.

WBK—The Exponent Company, Clarksburg, W. Va.—Modification of C. P. to make changes in equipment and increase power from 100 watts daytime to 100 watts unlimited time; also requesting extension of commencement date from 12/26/36 to 90 days after grant, completion date to 180 days thereafter.

KIUL—Garden City Broadcasting Co. (Homer A. Ellison and Frank D. Connard), Garden City, Kans.—Voluntary assignment of license to KIUL, Inc.; 1210 kc., 100 watts, unlimited.

RENEWAL OF LICENSES

The following stations were granted renewal of licenses for the regular period:

**APPLICATIONS DISMISSED**

The following applications, heretofore set for hearing, were dismissed at request of applicants:

**WDEV**—Chas. B. Adams, Executor of Estate of Mary M. Whitehill, and Estate of Harry C. Whitehill, Waterbury, Vt.—Granted petition to change frequency from 550 kc., to 1000 kc., daytime.

**NEW**—Mile High Radio Corp., Denver, Colo.—C. P., 570 kc., 250 watts, unlimited time.

**NEW**—National Battery Broadcasting Co., St. Paul, Minn.—C. P., 920 kc., 1 KW, unlimited time.

**NEW**—Edgar L. Bill, Peoria, Ill.—C. P., 1040 kc., 250 watts, daytime.

**NEW**—Northwest Publications, Inc., Duluth, Minn.—C. P., 580 kc., 250 watts, daytime.

**NEW**—George W. Young, St. Paul, Minn.—C. P., 920 kc., 1 KW, 5 KW, unlimited.

The following applications, heretofore set for hearing, were dismissed at request of applicants: (Hearings on these applications were scheduled for April 6, 1937.)

**NEW**—Times Publishing Co., Okmulgee, Okla.—C. P., 1210 kc., 100 watts, daytime.

**NEW**—The Record Publishing Co., Okmulgee, Okla.—C. P., 1210 kc., 100 watts, daytime.

**EXAMINER'S REPORT SUBMITTED DURING WEEK OF APRIL 2 TO 9**

**WATR**—Ex. Rep. 1-379: The WATR Company, Inc., Waterbury, Conn.—Application for C. P. to change frequency from 1190 kc. to 1290 kc., power from 100 watts to 250 watts, and hours of operation from limited-WOAI to unlimited. Examiner M. H. Dalberg recommended grant.

**ORAL ARGUMENTS GRANTED**

**WLMU**—Ex. Rep. 1-365: Lincoln Memorial University, Middleboro, Ky.—Granted oral argument to be held May 13, 1937.

**NEW**—Ex. Rep. 1-366: Bay County Publishers, Inc., Panama City, Fla.—Granted oral argument to be held May 20, 1937.

**EFFECTIVE DATE EXTENDED**

**MISCELLANEOUS**

**NEW**—World Publishing Co., Tulsa, Okla.—Granted petition accepting appearance in application for C. P. to erect new broadcasting station to operate on 940 kc., 1 KW night, 5 KW LS, unlimited time. Respondents allowed additional period of 10 days within which to file answers.

**R. W. Page Corporation**, Phenix City, Ala.—Denied petition to intervene at the hearing on the application of John C. Hughes, Phenix City, Ala., for C. P. to erect a new station to operate on 1310 kc., 100 watts, daytime hours.

**Northwest Research Foundation, Inc., Seattle, Wash.**—Granted continuance of hearing on application for C. P. to erect a new station to operate on 1530 kc., 1 KW, unlimited, from April 25, 1937, to on or about June 15.

**First National Telecasting Co., Kansas City, Mo.**—Denied petition to intervene in the hearing upon the application of KCVO Broadcasting Corp., Kansas City, Mo., for C. P. to change frequency from 1370 kc. to 1450 kc., and increase power from 100 watts, unlimited time, to 1 KW, unlimited time.

**WOID-WMBF**—Isle of Dreams Broadcasting Corp., Miami, Fla.—Granted petition to intervene in the hearing upon the application of W. W. Luce for C. P. to erect a new broadcast station at Fort Lauderdale, Fla., to operate on frequency 1050 kc., with 1 KW, LS, daytime only.

**WOID-WMBF**—Isle of Dreams Broadcasting Corp., Miami, Fla.—Denied petition to intervene in the hearing on the application of F. W. Borton for C. P. to erect a new broadcast station at Coral Gables, Fla., to operate on 1420 kc., with 100 watts, unlimited time.

**KSD**—Pulitzer Publishing Co., St. Louis, Mo.—Waived Rule 104.6 to permit applicant's appearance to become part of the record in Docket 4462, involving application for renewal of license. The appearance was due to be filed on March 25, 1937, and was filed on March 26th, but since it does not appear that any injury has been occasioned by reason of the failure to file said answer, the appearance is accepted.

**KGFF**—KGFF Broadcasting Co., Inc., Shawnee, Okla.—Denied request that Commission reconsider its action of April 2, 1937, denying a petition to postpone hearing scheduled for April 14, 1937, on the application of KGFF Broadcasting Co., Inc., for modification of license to change frequency from 1420 kc. to 1430 kc. and increase power from 100 watts, 250 watts LS, to 250 watts, unlimited time.

**Wichita Broadcasting Co., Wichita Falls, Tex.**—Denied request applying Commission to dismiss from hearing the following application for renewal of license to increase power from 100 watts, unlimited time, to 1 KW, unlimited time, to 250 watts, unlimited time, to 500 watts, unlimited time.

**WIOD**—WIOD—WMBF—Isle of Dreams Broadcasting Corp., Miami, Fla.—Denied request to operate new broadcasting station at Wichita Falls, Tex., on 1360 kc., 1 KW, unlimited time (Docket 4218).

**WDOD**—WDOD-Broadcasting Corp., Chatahoochee, Tenn.—Granted petition to correct defects in depositions but denied request to reconsider action in application of F. M. Gleason, d/b as North Georgia Broadcasting Co., Docket 3979.

**WSMK**—WSMK, Inc., Dayton, Ohio.—Refused and returned to applicant proposed amendment to application for C. P. to erect new broadcasting station at Day, Ohio, to increase power from 250 watts to 750 watts, unlimited time.

**WBRC**—Birmingham Broadcasting Co., Inc., Birmingham, Ala.—Reconsidered action of February 16, 1937, in granting without hearing application to change equipment and to increase day power from 1 KW to 5 KW. Application designated for hearing to be held in conjunction with application of Birmingham News Co. for C. P. to erect and operate new radio broadcasting station at Birmingham on 590 kc., 1 KW, unlimited time.
RATIFICATIONS

The Division ratified the following acts authorized on the dates shown:

W4XCI—The Atlanta Journal Co., Atlanta, Ga.—Granted authority to operate as licensed for a period of 30 days from April 5, to relaybroadcast AAA National Safety Campaign, and also from Atlanta Fire Department Training School.

W8XPN—WDZ Broadcasting, Ill.—Granted authority to operate as licensed for a period of 30 days beginning April 4, to relaybroadcast WPA projects, Douglas County Schools and Farms.

W8XII—Crosley Radio Corp., Cincinnati, Ohio.—Granted authority to operate as licensed on April 10, 1937, to relaybroadcast program of Circus Arena, Madison Square Garden.

W8XAN—The Sparks-Withington Co., Jackson, Mich.—Granted extension of special temporary authority to operate W8XAN at Plant No. 3, Jackson, Mich., on frequencies of 42000-56000, 60000-66000 kc.; 100 watts, for period of 30 days, from April 1 to April 30, 1937, due to fire at Plant No. 1.

WKRC—Columbia Broadcasting System, Inc., Cincinnati, Ohio.—Granted extension of special temporary authority to maintain and employ the present licensed 6-B transmitter of WKRC as station's auxiliary transmitter without an approved frequency monitor and modulation monitors, for period April 1 to April 30, 1937.

WCBD—WCBD, Inc., Chicago, Ill.—Granted special temporary authority to use transmitter of station WMBI for period not to exceed 30 days pending repair to WCBD's transmitter, which was destroyed by fire.

KHUB—Mrs. Anna Atkinson, executrix of estate of F. W. Atkinson, Watsonville, Calif.—Granted special temporary authority to operate station for period April 5 to May 4, 1937.

KTMX—The News Press Publishing Co., Santa Barbara, Calif.—Granted special temporary authority to operate station for period April 5 to May 4, 1937.

APPLICATIONS RECEIVED

First Zone

WUYC—City of New York, Dept. of Plant & Structures, New York, N. Y.—Modification of construction permit (B1-P-678) as modified for changes in equipment and move of transmitter, requesting extension of completion date from 5-27-37 to 11-15-37.

WAAB—The Yankee Network, Inc., Boston, Mass.—Modification of license to use W. E. Type 106-B transmitter as an alternate transmitter instead of an auxiliary transmitter.

W2XAX—Columbia Broadcasting System, Inc., New York, N. Y.—Construction permit to install new equipment and increase power from 50 watts to 7500 watts. Amended: To change request from construction permit for a new station to construction permit for W2XAX.

Second Zone

WPHR—WLBG, Incorporated, Richmond, Va.—Modification of construction permit (B2-P-667) for move of transmitter and studio, further requesting authority to install new transmitter, make changes in antenna for approval of transmitter site at North of City limits on Route 1, Richmond, Virginia, and studio at 323 E. Grace Street, Richmond, Va.

WSAZ—WSAZ, Incorporated, Huntington, W. Va.—Construction permit to install a new transmitter and increase day power from 1 KW to 5 KW. Also make changes in antenna.

WHBC—Edward P. Graham, Canton, Ohio.—Authority to install 1200 automatic frequency control apparatus.

WMBG—Havens & Martin, Inc., Richmond, Va.—Modification of construction permit (B2-P-338) for change in frequency, power, hours of operation, installation of directional antenna and move of transmitter, requesting authority to install a new transmitter and make changes in antenna.

WHK—Radio Air Service Corp., Cleveland, Ohio.—Construction permit to install directional antenna for night use.

WEED—William Avera Wynne, Rocky Mount, N. C.—Construction permit to make changes in equipment, increase power from 100 watts night, 250 watts day to 500 watts, change frequency from 1320 kc. to 1240 kc., change hours of operation from unlimited day to unlimited night and install directional antenna for night use.

WLAF—American Broadcasting Corp., of Kentucky, Lexington, Ky.—License to operate as W. E. Type 106-B transmitter (B2-P-1373) as modified for equipment changes and approval of transmitter and studio sites.

NEW—William F. Maag, Jr., Youngstown, Ohio.—Construction permit for a new station to be operated on 1420 kc., 100 watts, daytime.

Third Zone

NEW—E. B. McChristy, Brownwood, Texas.—Construction permit for a new station to be operated on 630 kc., 250 watts, daytime.

NEW—The Tribune Co., Tampa, Fla.—Construction permit for a new station to be operated on 940 kc., 1 KW day, 5 KW day, unlimited time. Amended: To give transmitter site as 3½ mile South of Memorial Highway on bank of Rocky Creek, Tampa, Florida.

WRBI—WRBL Radio Station, Inc., Columbus, Ga.—License to cover construction permit (B3-P-1396) as modified for changes in equipment, increase in power and move of transmitter and studio.

WMBF—P. E. Ewing, Grenada, Miss.—Modification of construction permit (B3-P-329) as modified for changes in equipment and move of transmitter, and requesting extension of commencement and completion dates.

NEW—Dr. William States, Jacobs Broadcasting Co., Houston, Texas.—Construction permit for a new station to be operated on 1220 kc., 1 KW, unlimited time. Amended: To install directional antenna for night use.
NEW—Radio Enterprises, Inc., Lufkin, Texas.—Construction permit for a new station to be operated on 1310 kc., 100 watts, daytime.

KRMD—Radio Station KRMD, Inc., Shreveport, La.—License to cover construction permit (B3-P-1302) for changes in equipment, installation of new antenna and increase in power.

NEW—Arthur Lucas, Savannah, Ga.—Construction permit for a new station to be operated on 1310 kc., 100 watts, unlimited time.

KLRA—Arkansas Broadcasting Co., Little Rock, Ark.—Modification of construction permit (B3-P-1311) for changes in equipment and increase in day power, requesting authority to install a directional antenna for night use.

KRRV—Red River Valley Broadcasting Corp., Sherman, Texas.—Construction permit to change frequency from 1310 kc. to 1450 kc., install a new transmitter, erect a vertical antenna, increase power from 250 watts to 500 watts and change hours of operation from daytime to unlimited, (Contingent upon the grant of KTBS' application for 620 kc.).

WHEF—Attala Broadcasting Corp., Kosciusko, Miss.—Construction permit to make changes in antenna, move of transmitter from 1 mile east of Kosciusko, Mississippi to Terry Road, Jackson, Mississippi, and studio from 212 Washington Street, Kosciusko, Mississippi, to corner of Griffith & Lamar Streets, Jackson, Mississippi.

Fourth Zone

WTMJ—The Journal Co. (The Milwaukee Journal), Milwaukee, Wis.—Construction permit to install a new transmitter.

NEW—Wm. E. Walker & Merrill F. Chapin, d/b as Walker & Chapin, 1010 Chapin, Oshkosh, Wis.—Construction permit for a new station to be operated on 1010 kc., 250 watts, unlimited time. Amended: To give name as Wm. E. Walker & Merrill F. Chapin.

WJJD—WJJD, Incorporated, Chicago, Ill.—Modification of license to change hours of operation from 6 a. m. CST, until local sunset at Salt Lake City, Utah to 6 a. m. EST. (Chicago, daylight saving time) to local sunset at Salt Lake City, Utah. Amended: Requesting this authority from 4-25-37 to 9-25-37.

KELO—Sioux Falls Broadcast Association, Inc., Sioux Falls, 1200 S. Dak.—Modification of construction permit (B4-P-696) for a new station, requesting changes in authorized equipment, for approval of transmitter site at 3 miles West of Sioux Falls, S. Dak., and approval of antenna. Also change studio site from Carpenter Hotel, Sioux Falls, S. Dak. to 319 South Phillips Ave., Sioux Falls, S. Dak. Amended: To make changes in equipment.

WIRE—Indianapolis Broadcasting, Inc., Indianapolis, Ind.—License to cover construction permit (B4-P-636) as modified for changes in equipment, increase in power and installation of directional antenna.

KATE—Albert Lea Broadcasting Corp., Albert Lea, Minn.—Modification of construction permit (B4-P-883) for a new station, requesting authority to change authorized frequency from 1200 kc. to 1420 kc., make changes in equipment, change power from 100 watts to 250 watts and give studio site as Albert Hotel, Albert Lea, Minnesota.

NEW—Thomas F. Airth, Wythe Walker & Rex Schepp, d/b as 1500 Evanston Broadcasting Co., Evanston, Ill.—Construction permit for a new station to be operated on 1500 kc., 100 watts night, 250 watts daytime, unlimited time. Amended: To give studio and transmitter sites as Church & Orrington Streets, Evanston, Illinois.

Fifth Zone

NEW—R. M. Dickinson, San Diego, Calif.—Construction permit for a new station to be operated on 890 kc., 1 KW day, 5 KW night, unlimited time.

KORE—Frank L. Hill and C. G. Phillips, d/b as Eugene Broadcasting Station, Eugene, Ore.—License to cover construction permit (B5-P-1360) for changes in equipment and move of transmitter and studio.

KGGC—The Golden Gate Broadcasting Co. (Robert J. Craig), San Francisco, Calif.—Construction permit to install a new antenna, move transmitter from 1445 Ellis Street to 230 Eddy Street, San Francisco, Calif.

Puerto Rican Zone

NEW—United Theatres, Inc., San Juan, Puerto Rico.—Construction permit for a new station to be operated on 570 kc., 1 KW, unlimited time.

WPRA—Puerto Rico Advertising Co., Inc., Mayaguez, Puerto Rico—Modification of construction permit (B-P-668) for changes in antenna, change specified hours, and move transmitter and studio, requesting changes in authorized equipment and extension of commencement and completion dates.
W. WRIGHT GEDGE, NAB DIRECTOR, DIES

It is with the deepest regret that we have learned of the death at Detroit, Michigan, of W. Wright Gedge. Mr. Gedge was a Director of the NAB, having been elected for a three-year term at the Colorado Springs Convention in 1935. Burial was at Wyoming Village, a suburb of Cincinnati, Ohio, on Monday of this week. Mr. Gedge, who was associated with WMBC in Detroit, had been prominent in the broadcasting industry and the activities of the Association for several years. The members of the NAB have lost a loyal and faithful servant.

BROADCAST STATION TAX BILL

Representative Boylan of New York has introduced a bill (H. R. 6440) in the House "to provide for the taxation of operators of radio-broadcast stations". It has been referred to the House Committee on Ways and Means. This is the bill which was suggested to Mr. Boylan by Federal Communications Commissioner Payne and it was printed in full in last week's issue of NAB Reports.

COMMISSION GRANTS NEW STATION

The Federal Communications Commission this week granted a construction permit for the erection of a new station to A. Frank Katzentine at Miami Beach, Fla., to operate on 1500 kilocycles, 100 watts unlimited time. The order is effective May 25.

APPEALS COURT UPHOLDS FCC

The United States Court of Appeals for the District of Columbia this week affirmed the decision of the lower court in the Monocacy Broadcasting Company case.

The decision is as follows:

UNITED STATES COURT OF APPEALS FOR THE DISTRICT OF COLUMBIA.

No. 6818.

THE MONOCACY BROADCASTING COMPANY, A CORPORATION, Appellant,

v.

ANNING S. PRALL, EUGENE O. SYKES, NORMAN S. CASE, IRVIN STEWART, THAD H. BROWN, GEORGE H. PAYNE, AND PAUL A. WALKER, AS THE FEDERAL COMMUNICATIONS COMMISSION.

Appeal from the District Court of the United States for the District of Columbia.

Decided April 19, 1937.

Hampton Gary, George B. Porter, and Fanney Neyman, all of Washington, D. C., for appellee.

Before Martin, Chief Justice, and Robb, Groner and Stephens, Associate Justices.

Make Your Plans Now to Attend the NAB Convention at Hotel Sherman, Chicago, June 20-23, 1937

2051
MARTIN, Chief Justice: This is an appeal from a decree of the District Court of the United States for the District of Columbia granting a motion of the appellee to dismiss a bill of complaint filed by appellant. The appellant was plaintiff below, the Federal Communications Commission was defendant, and the parties will be so named in this opinion.

It was alleged in substance in the plaintiff's bill that on June 7, 1935 the plaintiff, the Monocacy Broadcasting Company, a corporation, filed an application with the Federal Communications Commission for a permit to construct a new broadcasting station near Rockville, Md., and appellant set out as a statement of facts in support of the application;

That on July 2, 1935 the Commission considered the application and forthwith granted it without a hearing, under the provisions of Rule 44 of the Commission's Rules and Regulations. A permit accordingly was issued to the applicant;

That Rule 44 aforesaid provided that any application which is properly filed and conforms to the regulations of the Commission may be granted by the Commission without a hearing, if it appears conclusive to the Commission from the face of such application, and from other information had by the Commission, that the granting of such application would serve public interest, convenience, and necessity, and would not adversely affect the interest of any other person or corporation holding a permit or other authorization from the Commission, or having an application therefor pending before the Commission, "provided, however, that any such grant shall be conditional and may be suspended and reconsidered by the Commission as hereinafter provided."

That on July 23, 1935 WCAU Broadcasting Company, owner and operator of Station WCAU, Philadelphia, filed a protest against the application of plaintiff on the ground that the proposed station would cause objectionable interference with the service rendered by Station WCAU. The protest complied in every respect with the provisions of the Commission's Rule 45 covering such procedure;

That Rule 45 aforesaid provides in substance as follows: In any case where an application is granted in whole or in part without a hearing as provided in Rule 44, any person, whose interests are adversely affected by such grant, may obtain a hearing upon such application by adhering to the following procedure: Such parties shall, within 20 days from the date on which public announcement of such grant is made at the principal office of the Commission, or from its effective date if a later date is specified by the Commission, file with the Commission and serve upon or mail to the applicant a protest in writing directed to the action of the Commission making such grant. Upon the receipt by the Commission of such protest the application involved will be set for hearing and the applicant and other parties in interest notified thereof; provided, however, that upon such hearing the verified protest shall be taken as a pleading limiting the issues to be tried, but not as evidence of the facts therein stated;

That on January 25, 1935 the American Broadcasting Company, owner and operator of Station WOL, Washington, D. C., filed a protest, which however failed to comply with the requirements of Rules 45, supra, and the protest was denied by the Commission;

That on September 5, 1935, the Commission notified the plaintiff that its application had been set for hearing on September 25, 1935 upon the protest of Station WCAU, such hearing to be "upon the issues set forth in said protest."

That on September 16, 1935 the American Broadcasting Company, filed a petition for leave to intervene in the hearing to be held on September 25th upon plaintiff's application, pursuant to the protest of Station WCAU, but the petition did not set out any problem of interference with the WOL service area;

That on September 18, 1935 plaintiff filed an opposition to the aforesaid petition of WOL for leave to intervene, and moved to strike the petition from the files, on the ground that it failed to comply with the Commission's Rule 59, requiring that a petition to intervene in a proceeding must disclose "a substantial interest in the subject matter of the hearing."

That on September 19, 1935 Station WCAU voluntarily withdrew its protest, and the Commission notified appellant that the hearing scheduled for September 25th was cancelled;

That plaintiff claimed that pursuant to the Commission's Rule 46 no further action was then necessary under the rules to make final a formal grant of the plaintiff's application, inasmuch as no protest remained before the Commission;

That nevertheless on September 24, 1935 the Commission reconsidered the plaintiff's application for the construction of a new station as aforesaid, and designated it for hearing with instructions that notices of the hearing be sent to Stations WCAU and WOL; that this action of the Commission was based upon no facts whatsoever in addition to those originally set forth by plaintiff and upon consideration of which the Commission had found that the public interest would be served and no person adversely affected by the operation of the proposed station;

That on September 27, 1935 plaintiff filed a motion with the Commission to reconsider its action designating appellant's application for a rehearing and to make final the original grant to plaintiff; this motion however was denied by the Commission on October 29, 1935, and the
application of appellant was set for hearing before an examiner on February 3, 1936.

Plaintiff avers that upon the aforesaid facts it is lawfully possessed of a valid and absolute construction permit; that the only action which remained for the Commission to perform was to issue its approval of a site for the transmitter of the proposed station, but the Commission refuses to approve a transmitter site, and without such approval plaintiff may not commence construction and its permit may automatically be forfeited and lost; that plaintiff will thereby suffer irreparable damage. Plaintiff alleges that it had no remedy at law and only by the prompt interposition of a court of equity can plaintiff's interest be protected and irreparable injury to its permit may be avoided, wherefore, it prays that the court may grant plaintiff an injunction enjoining the defendant from holding any hearing upon plaintiff's application to construct the new radio station set out in its original application, and to issue a modified permit to plaintiff for the construction of the radio station first applied for by it.

The defendant filed a motion to dismiss the bill of complaint above set out upon the ground, among others, that plaintiff had a plain, speedy, and adequate remedy at law under Sec. 402 (b) of the Communications Act of 1934 which provides for appeals to the United States Court of Appeals for the District of Columbia, and the bill of complaint does not show that plaintiff has exhausted his legal remedy thereunder.

Thereupon the district court sustained the motion and dismissed plaintiff's bill.

We are of the opinion that the decision of the district court is correct. It is fundamental that a court of equity will not issue an injunction where plaintiff has a plain, adequate, and complete remedy at law. Appellant had such a remedy under Sec. 402 (b), Subsec. (2) of the Communications Act of 1934 (48 Stat. 1093) which provides in part as follows:

"An appeal may be taken, in the manner hereinafter provided, from decisions of the Commission to the Court of Appeals of the District of Columbia [now United States Court of Appeals for the District of Columbia] in any of the following cases:

(1) By any applicant for a construction permit for a radio station, or for a radio station license, or for renewal of an existing radio station license, or for modification of an existing radio station license, whose application is refused by the Commission.

(2) By any other person aggrieved or whose interests are adversely affected by any decision of the Commission granting or refusing any such application."

Under Subsection 2 the appellant had a right to appeal immediately from the refusal of the Commission to make final, without a hearing, the original grant to it. It has been repeatedly held that the foregoing statute delegates to this court exclusive jurisdiction over all such appeals as the present one, and that other courts will not grant equitable relief by injunction in such cases. United States v. American Bond & Mortgage Co., 31 F. (2d) 448; White v. Fed. Radio Commission, 29 F. (2d) 113; Sykes v. Jenny Wren Co., 64 App. D. C. 379; 78 F. (2d) 729.

Section 267 of the Judicial Code (28 USCA 384) reads as follows: "Suits in equity shall not be sustained in any court of the United States in any case where a plain, adequate, and complete remedy may be had at law." In the case of Matthews v. Rodgers, 284 U. S. 521, Mr. Justice Stone, referring to sec. 267 of the Judicial Code, said: "The effect of this section which was but declaratory of the rule in equity, established long before its adoption, is to emphasize the rule and to forbid in terms recourse to the extraordinary remedies of equity where the right asserted may be fully protected at law."

It is contended by appellant that the case of Federal Radio Commission v. Stromberg-Carlson Manufacturing Co., 60 App. D. C. 31, is authority for a different rule. We think however that this contention cannot be sustained. In that case the company was an existing licensee and the terms of its unconditional license had been changed by the Commission during a license period without notice to the licensee and without a hearing or an opportunity to the licensee to be heard. The opinion of this court in that case was that the ruling of the Commission was not simply erroneous, but was void. The decision does not furnish authority for the appellant's claim in the present case.

It is contended further by appellant that Sec. 414 of the Communications Act of 1934 is contrary to our conclusion. The section reads as follows:

"Nothing in this act contained shall in any way abridge or alter the remedies now existing at common law or by statute, but the provisions of this chapter are in addition to such remedies."

It may be observed however that the rule followed in our present decision does not "abridge or alter the remedies now existing at common law or by statute" but is consistent with such existing remedies at common law and by statute.

The decree of the lower court is therefore affirmed. Affirmed.

TRENTON STATION RECOMMENDED

The Journal Company, Milwaukee, Wis., the Mid-Atlantic Corporation, Washington, D. C., and the Trenton Times, Trenton, N. J., all applied to the Federal Communications Commission for construction permits in their respective cities, all asking for 1570 kilocycles, and unlimited time on the air. The Journal and Mid-Atlantic Corporation asked for 1,000 watts with the Trenton Times asking for 250 watts.

Examiner Ralph L. Walker in Report No. I-395 recommended that the application of the Trenton Times be granted and that the other two applications be denied.

The Examiner stated in his report that "while the programs of research and experimentation of the Journal Company and the Mid-Atlantic Corporation may be expected to provide additional and desirable data in connection with the development and practical application of high fidelity broadcasting, the proposal of the Trenton
Times gives more promise of substantial contribution to the radio art as a whole."

TENNESSEE APPLICATIONS RECOMMENDED FOR DENIAL

The Knoxville Journal Broadcasting Company applied to the Federal Communications Commission for the erection of a new station at Knoxville, Tenn., to use 1200 kilocycles, 100 watts and 250 watts LS and unlimited time. Also Richard M. Casto applied for the same facilities at Johnson City, Tenn.

Examiner George H. Hill in Report No. I-389 recommended that both of the applications be denied. He found that there is sufficient radio service at Knoxville and in the case of the Johnson City application recommendation has been made for the erection of a new station at that point.

MAINE-MASSACHUSETTS APPLICATION RECOMMENDATIONS

The Cumberland Broadcasting Company applied to the Federal Communications Commission for a construction permit for the erection of a new station at Portland, Me., to use 1210 kilocycles, 100 watts and unlimited time. Also the Twin City Broadcasting Company and Philip J. Wiseman both applied to the Commission for the same assignment and both asking to erect a station at Lewiston, Me. The Cape Cod Broadcasting Company applied to the Commission to construct a station at Barnstable, Mass., and George M. Haskins to erect a station at Hyannis, Mass., both asking for 1210 kilocycles, 100 watts and 250 watts LS and unlimited time on the air. Also Arthur E. Seagrave asked for a construction permit for a new station at Lewiston, Me., to use 1420 kilocycles, 100 watts and 250 watts LS and unlimited time on the air.

Examiner Melvin H. Dalberg in Report No. I-388 made the following recommendations relative to these requests.

1. The application of Philip J. Wiseman, of Lewiston, Maine, be dismissed as in the case of default.
2. The application of George M. Haskins, of Hyannis, Massachusetts, which, it was stated, had been withdrawn, be dismissed as in the case of default.
3. The application of Twin City Broadcasting Company, Inc., of Lewiston, Maine, be denied.
4. The application of Arthur E. Seagrave, of Lewiston, Maine, be denied.
5. The application of Cumberland Broadcasting Company, Inc., for a construction permit to operate on 1210 kilocycles with 100 watts power, unlimited time, be granted.

6. The application of Harriett M. Alleman and Helen W. MacLellan, doing business as Cape Cod Broadcasting Company, of Barnstable, Massachusetts, for a construction permit to operate on 1210 kilocycles with 100 watts power at night and 250 watts until local sunset, unlimited time, be granted.

RECOMMENDATION ON NEW WYOMING STATION

The Frontier Broadcasting Company applied to the Federal Communications Commission for a construction permit for the erection of a new station at Cheyenne, Wyo., to use 1420 kilocycles, 100 watts night and 250 watts LS, with unlimited time.

Examiner P. W. Seward in Report No. I-391 recommended that the Commission "suspend action until final disposition by the Courts of the application of Paul H. Heitmeyer for authority to construct a radio station in Cheyenne." The Examiner states that if the Heitmeyer application is denied that the granting of this application would be in the public interest.

CHANGES RECOMMENDED FOR WMEX

Broadcasting station WMEX, Boston, Mass., applied to the Federal Communications Commission to change its frequency from 1500 to 1470 kilocycles, and to increase its power from 100 watts and 250 watts LS to 5,000 watts. The station operates on unlimited time.

Examiner John P. Bramhall in Report No. I-392 recommended that the application be granted. He found that a need for the additional service in the area proposed to be served was definitely established. It was also found that no interference would be caused by the changes and the increased power and changed frequency would be in the public interest.

NEW TENNESSEE STATION RECOMMENDED

The Johnson City Broadcasting Company has applied to the Federal Communications Commission for a construction permit for the erection of a new broadcasting station at Johnson City, Tenn., to use 1200 kilocycles, 100 watts and 250 watts LS and unlimited time on the air.

Examiner George H. Hill in Report No. I-387 recommended that the application be granted "subject to the selection of an approved transmitter site” by the Commission. The Examiner states that no objectionable interference would occur to any existing station if the application were granted. Also the Examiner states that adequate local talent is available to supply the needs of the proposed station.
RECOMMENDATIONS IN DALLAS CASES

Richard S. Gozzaldi applied to the Federal Communications Commission for a construction permit for the erection of a new broadcast station at Dallas, Texas, to use 1500 kilocycles, 100 watts and daytime operation. Also A. L. Chilton applied for a construction permit for Dallas to use 990 kilocycles, 1000 watts power and daytime operation.

Examiner Robert L. Irwin in Report No. I-390 recommended that both of the applications be denied, that the latter application be denied if the Commission grants the applications of the Dallas Broadcasting Company and the Centennial Broadcasting Company but that the Chilton application be granted if either of these applications are denied by the Commission. The Examiner found that the operation of the proposed Chilton station would not be expected to cause objectionable interference with any existing station but the operation of the proposed Gozzaldi station would cause interference. The Gozzaldi application is not in the public interest but the Chilton application would be except for the applications now pending before the Commission.

POWER INCREASE RECOMMENDED FOR KARK

Broadcasting station KARK, Little Rock, Ark., operating unlimited time on 890 kilocycles applied to the Federal Communications Commission to increase its power from 500 watts and 1,000 watts LS to 1,000 watts all the time.

Examiner John P. Bramhall in Report No. I-393 recommended that the application be granted. He states that there is need for additional service in the area proposed to be served and that the granting of the application would be in the public interest.

RECOMMENDS DENIAL OF NEW STATION

Arthur H. Groghan applied to the Federal Communications Commission for a construction permit for the erection of a new station at Minneapolis, Minn., to use 1310 kilocycles, 100 watts power and daytime operation.

Examiner Melvin H. Dalberg in Report No. I-394 recommended that the application be denied. He found that it is doubtful if the applicant would be able financially to continue the operation of the proposed station “in the event that the same should not operate at a profit over an appreciable period of time.” The Examiner stated also that the evidence failed to disclose a need for the establishment of a new station at Minneapolis and that it would not be in the public interest.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them:

No. 3103. Use of unfair methods of competition, in violation of Section 5 of the Federal Trade Commission Act, is alleged in a complaint issued against 

Lawton V., and Henry F. Crocker, Chester, Vt., engaged in publishing and selling advertising folders and maps in interstate commerce.

Trading as The National Survey Co., The National Survey, and National Survey, the respondents are said to represent their maps as being “official” when, according to the complaint, they are not “official” maps.

The respondents allegedly cause one of their trade names to appear on their advertising folders and maps, together with such labels and designations as “Official National Survey Maps”, “Official Map of the World”, “Official Map of the United States”, “Official Map of New England”, and “Official Map of New York”. On some of the maps, the complaint alleges, the respondents make use of the imprint of a state seal together with a designation such as “The Official Map of Maine”.

No. 3104. Misrepresentations in the sale of cosmetics is alleged in a complaint issued against Colonial Dames Co., Ltd., trading also as Colonial Dames, Inc., 4652 Hollywood Blvd., Hollywood, Calif.

Alleging violation of Section 5 of the Federal Trade Commission Act, the complaint charges the respondent company with representing that Colonial Dames Beauty Wash has an instant beautifying effect on the skin, that Colonial Dames Massage Cream will quickly banish all traces of dryness and sluggishness, leaving the skin freshly stimulated and vibrant, and that Colonial Dames Beautifier remains always on the skin surface, thereby preventing pores from becoming clogged and actually building beauty into the skin.

No. 3105. Alleging unfair competition in the sale of hosiery through use of a lottery scheme, a complaint has been issued against Carl Smith, 618 Roscoe St., Chicago, trading as Fashion Silk Co.

The respondent, the complaint charges, distributes through the mails sales outfits, including pushcards and circulars, explaining his plan of selling hosiery and of allotting it and other articles as premiums. Sales of hosiery are made by means of the pushcards and in accordance with instructions printed on the cards, it is alleged. Premiums are awarded to purchasers in accordance with such instructions.

No. 3106. George C. Miller & Co., Inc., 927 Washington St., Boston, is charged, in a complaint, with unfair competition in the sale of candy through use of a sales plan involving a lottery. The lottery was conducted by means of punchboards distributed to dealers with assortments of candy, according to the complaint.

No. 3107. Charged with entering into an unlawful agreement to suppress competition and to create a monopoly in the sale of industrial rivets, 13 companies manufacturing such products, their trade association and its president, are named respondents in a complaint alleging violation of Section 5 of the Federal Trade Commission Act.

Stipulations and Orders

The Commission has issued the following cease and desist orders and stipulations:
Nos. 1963-1964. Under two stipulations entered into, a Chicago mail order house and a St. Louis firm have agreed to discontinue misbranding and misrepresenting turtle oil cream which they sell in interstate commerce.

Chicago Mail Order Co., 511 South Paulina St., Chicago, stipulated that in the sale of a turtle oil cream designated "Vivani", it will cease using the words "turtle oil" as descriptive of a product whose oil content is not composed of turtle oil, and will stop using the words "turtle oil" in any manner so as to imply that the oil content is composed wholly of turtle oil, and will cease using the words "turtle oil" to describe preparations sold under the names "Vivani" and "Amethyst." It agreed also to discontinue the use on labels or in advertising matter of representations to the effect that its so-called "Tissue Cream", when applied externally to the skin, will penetrate clearly that the oil content is composed in part of other oils. The stipulation provides that when the words "turtle oil" are used to describe a product whose content is composed in substantial part of turtle oil, then such words shall be immediately accompanied by other words in type equally conspicuous, so as to indicate clearly that the oil content is composed wholly of turtle oil. The stipulation provides that the words "turtle oil" are used to describe a product whose content is composed in substantial part of turtle oil, then such words shall be immediately accompanied by other words in type equally conspicuous, so as to indicate clearly that the oil content is composed wholly of turtle oil. The stipulation provides that the words "turtle oil" are used to describe a product whose content is composed in substantial part of turtle oil, then such words shall be immediately accompanied by other words in type equally conspicuous, so as to indicate clearly that the oil content is composed wholly of turtle oil.

Benjamin Anebel Co., 6000 Goodfellow Blvd., St. Louis, signed a stipulation to discontinue use of the words "turtle oil" to describe preparations sold under the names "Vivani" and "Amethyst." It also agreed to discontinue the use on labels or in advertising matter of representations to the effect that its so-called "Tissue Cream", when applied externally to the skin, will penetrate or be absorbed by the skin so as to nourish or revitalize impoverished tissues, and thereby prevent cracking, fine lines and wrinkles, or fill in hollows of the neck and arms, when such are not the facts.

No. 1965. Graef & Schmidt, Inc., 456 Fourth Ave., New York, and Utility Blade & Razor Corporation, 200 Burnett Ave., Maplewood, N. J., both engaged in the sale of razor blades, have entered into stipulations to discontinue use of the words "English Razor Steel", as descriptive of blades not made from English steel. The two companies also agreed to cease using the words "English Razor Steel" in any manner implying that the blades to which such words refer are made from English razor steel or manufactured in England from such steel, when such are not the facts.

No. 1967. E. A. Morgan, 622-636 Broadway, Cincinnati, has entered into a stipulation to cease representing in advertising matter, or in any manner, that runs, snags and breaks in silk hosiery and lingerie are prevented by use of two preparations he sells and designates as "Run-safe" and "Runless." Trading as Runsafe Sales Co. and as E. A. Morgan & Co., Morgan also agreed to discontinue the use in advertising matter of pictorial representations purporting to show, in the form of "before" and "after" treatments, the effects of the use of his products on silk hosiery and lingerie, but which pictorial representations are said to be merely the reproduction of incorrect drawings.

No. 2632 and 2325. Prohibiting certain unfair representations in the sale of metal grave vaults, orders have been issued to cease and desist against the Champion Company, Springfield, Ohio, and Perfection Steel Body Company, trading as Perfection Burial Vault Company, Gallion, Ohio. The respondent companies' representations were held to constitute unfair competition in violation of Section 5 of the Federal Trade Commission Act. In the sale and distribution of ferrous metal burial vaults in interstate commerce, the Champion Company is directed to stop the use of representations, in certificates of warranty or guaranty, in advertising, or in any other manner, to the effect that the metal contained in the vaults is able to resist rust or corrosion or the effects thereof, and that the vaults will remain air-tight, vermin-proof or water-proof. The order against the Perfection Company directs it to discontinue making representations, in the same manner, to the effect that the metal of which its vaults are made is able to resist rust or corrosion or the effects thereof, or that the vaults will remain air-tight, vermin-proof or water-proof for 50 years, or for any fixed period after being placed underground.

No. 2644. An order to cease and desist has been issued against Paul Greenberg, trading as Beverly Products Co., 60 Vernon St., Springfield, Mass., prohibiting certain unfair representations in the sale of medicinal preparations advertised as Beverly Femin Tablets and Beverly Menses Tablets. Selling these products in interstate commerce, Greenberg was directed to stop representing Beverly Femin Tablets as an effective, potent and efficient germicide under the conditions of use for feminine hygiene, and Beverly Menses Tablets as a cure, remedy or competent and adequate treatment for women's diseases generally.

No. 2916. Prohibiting unfair competition through sale of candy by methods involving use of a lottery, an order to cease and desist has been issued against Maple City Candy Co., 405 Tyler St., LaPorte, Ind. The respondent company's practices were held to be in violation of Section 5 of the Federal Trade Commission Act.

CASES CLOSED BY FTC

No. 2622. The Federal Trade Commission has issued an order closing its case against C. E. Trees & Co., Inc., Indianapolis, charged with unfair competition in the sale of flavoring extracts.

Closing of the case followed the respondents signing of a stipulation to cease unfair representations in the sale of its product, called "Four Per Cent—the Perfect Mixer". The respondent company agreed to stop describing its product by use of the symbol "4%" or any per cent designation unless such be qualified by use of the phrase "contains no alcohol", in conspicuous type. In closing the case, the Commission reserved its right to reopen it should circumstances warrant.

No. 2632. The Commission has dismissed without prejudice its complaint against Cummer Products Co., Bedford, Ohio, which had been charged with using unfair methods of competition in connection with the sale of a cleaning fluid designated "Energine".

APPLICATIONS GRANTED

KEHE—Evening Herald Publishing Co., Los Angeles, Calif.—Granted voluntary assignment of license from Evening Herald Publishing Co. to Hearst Radio, Inc.; 780 kc., 1 KW night, 5 KW day, unlimited.

WMFN—P. K. Ewing, Grenada, Miss.—Granted modification of C. P. extending commencement date to 4-28-37 and completion date to 10-28-37.

KSUB—Harold Johnson and Leland M. Perry, d/b as Johnson & Perry, Cedar City, Utah.—Granted modification of C. P. to cover new transmitter site; 1310 kc., 100 watts, unlimited time.

WNYC—City of New York, Dept. of Plant and Structures, New York City.—Granted modification of C. P. to extend completion date to 11-15-37.

WDSM—Fred A. Baxter, Superior, Wis.—Granted modification of C. P. approving transmitter site at 38th St. and Tower Ave., Superior, Wis., and studio site at 1507 Tower Ave., Superior, and vertical radiator.

KGER—Consolidated Broadcasting Corp., Ltd., Long Beach, Calif.—Granted license to cover C. P., 1360 kc., 1 KW, unlimited time.

KRMD—Radio Station KRMD, Inc., Shreveport, La.—Granted license to cover C. P., 1310 kc., 100 watts night, 250 watts day, unlimited.

WEBR—WEBR, Inc., Buffalo, N. Y.—Granted license to cover C. P., 1310 kc., 100 watts night, 250 watts day, unlimited time.

WLAP—American Broadcasting Corp. of Kentucky, Lexington, Ky.—Granted license to cover C. P. and modifications thereof; 1420 kc., 100 watts night, 250 watts day, unlimited time.

WJJD—WJJD, Inc., Chicago, Ill.—Granted license to cover C. P., 1360 kc., unlimited.

W2XAX—Columbia Broadcasting System, Inc., New York City.—Granted C. P. for new high frequency broadcast station; frequencies 1646, 2090 and 2830 kc., 175 watts.

KFXM—J. C. Lee and E. W, Lee (Lee Bros. Broadcasting Co.), Santa Barbara, Calif.—Granted C. P. to move transmitter site to South 1000, 1 KW, unlimited time.

KWCO—KWCO, Inc., Mobile, San Juan, P. R.—Granted C. P. for new high frequency broadcast station; 1460 kc., unlimited.

WQBT—WQBT, Inc., Detroit, Mich.—Granted extention of license for the period May 1 to November 1, 1937; 1460 kc., 10 KW night, 25 KW day, unlimited.

ACTION ON EXAMINERS’ REPORTS

WCOA—Ex. Rep. 1-359: Pensacola Broadcasting Co., Pensacola, Fla.—Granted C. P. to make changes in antenna system; move transmitter from San Carlos Hotel, northwest corner Palafox and Garden Sts., Pensacola, to (site to be determined subject to Commission’s approval); and in cases of default application for C. P. for new station to operate on 610 kc., 250 watts night, 500 watts LS, unlimited time. Examiner H. O. Davis, Mobile, Ala.—Denied as in cases of default application for C. P. for new station to operate on 610 kc., 250 watts night, 500 watts LS, unlimited time. Examiner P. W. Seward sustained.

APPLICATION RETIRED TO FILES

1. Granted renewal of license for the period May 1 to November 1, 1937; 1460 kc., 10 KW night, 25 KW day, unlimited.

King Trendle Broadcasting Corp., Detroit, Mich.—Granted extension of authority to transmit programs from Station WXVZ to stations of the Canadian Radio Commission by means of commercial telephone wires of Michigan Bell Telephone Company.

Houston Printing Corp., Houston, Tex.—Granted extension of special temporary authority to operate with power of 5 KW night, for period April 24 to May 23, 1937.

NEW—Radio Air Service Corp., Cleveland, Ohio.—Granted C. P. for new high frequency station, frequencies 31600, 35600 and 11000 kc. on experimental basis and these frequencies subject to change without prior notice or hearing; 50 watts.

WAOR—J. A. Pera, Mobile, San Juan, P. R.—Granted C. P. for relay station, frequencies 1628, 2058, 2150 and 2790 kc., 50 watts. Also granted license covering same.

WEBR—WEBR, Inc., Buffalo, N. Y.—Granted license to cover C. P. for new high frequency broadcast station on experimental basis, 88000, 120000, 240000 and 500000 kc., 500 watts.

W2XAX—Columbia Broadcasting System, Inc., New York City.—Granted C. P. authorizing changes in equipment; increase power of visual broadcast transmitter to 7500 watts power; and move of transmitter to top of Chrysler Bldg., New York City.

APPLICATIONS DISMISSED

The following applications, heretofore set for hearing, were dismissed at request of applicants:

KFXM—J. C. Lee and E. W. Lee (Lee Bros. Broadcasting Co.), San Bernardino, Calif.—C. P., 1210 kc., 100 watts, 250 watts LS, share KPPC.

WAAT—Bremer Broadcasting Corp., Jersey City, N. J.—Modifications of license, 940 kc., 1 KW LS, daytime until 6 p. m., EST.

APPLICATIONS GRANTED

NEW—Crosley Radio Corp., Cincinnati, Ohio.—Granted C. P. for new high frequency station, frequency 2058 kc., 250 watts, 6 a.m. to 6 p.m., unlimited.

NEW—National Broadcasting Co., Inc., Chicago, Ill.—Granted C. P. for new relay broadcast station, frequencies 1646, 2090 and 2830 kc., 175 watts.

NEW—The Crosley Radio Corp., Cincinnati, Ohio.—Granted C. P. for new high frequency broadcast station; frequencies 1420 kc., 100 watts night, 250 watts day, unlimited time.

NEW—Evening Herald Publishing Co., Inc., Chicago, Ill.—Granted license to cover C. P. as modified; 1400 kc., unlimited time.

NEW—National Broadcasting Co., Inc., Chicago, Ill.—Granted C. P. as modified; 1400 kc., unlimited time.

NEW—WABV—Juan Piza, Mobile, San Juan, P. R.—Granted C. P. for new high frequency broadcast station; frequencies 1420 kc., 100 watts night, 250 watts day, unlimited time.

NEW—New Mexico Broadcasting Co., Aubuquerque, N. Mex.—Granted license to cover C. P., 1360 kc., unlimited.

NEW—Ex. Rep. 1-359: Pensacola Broadcasting Co., Pensacola, Fla.—Granted C. P. to make changes in antenna system; move transmitter from San Carlos Hotel, northwest corner Palafox and Garden Sts., Pensacola, to (site to be determined subject to Commission’s approval); and in cases of default application for C. P. for new station to operate on 610 kc., 250 watts night, 500 watts LS, unlimited time. Examiner H. O. Davis, Mobile, Ala.—Denied as in cases of default application for C. P. for new station to operate on 610 kc., 250 watts night, 500 watts LS, unlimited time. Examiner P. W. Seward sustained.

APPROVALS

WCOA—Ex. Rep. 1-359: Pensacola Broadcasting Co., Pensacola, Fla.—Granted C. P. to make changes in antenna system; move transmitter from San Carlos Hotel, northwest corner Palafox and Garden Sts., Pensacola, to (site to be determined subject to Commission’s approval); and in cases of default application for C. P. for new station to operate on 610 kc., 250 watts night, 500 watts LS, unlimited time. Examiner H. O. Davis, Mobile, Ala.—Denied as in cases of default application for C. P. for new station to operate on 610 kc., 250 watts night, 500 watts LS, unlimited time. Examiner P. W. Seward sustained.
ORAL ARGUMENTS GRANTED

NEW—Ex. Rep. 1-373: J. L. Statler, d/b as Baker Hospital, Muscatine, Iowa.—Granted oral argument to be held May 20, 1937.
NEW—Red Lands Broadcasting Assn., Ben T. Wilson, Pres., Lufkin, Tex.—Granted oral argument to be held May 20, 1937.
NEW—Virgil V. Evans, Gastonia, N. C.—Granted oral argument to be held May 27, 1937.

EFFECTIVE DATE EXTENDED

NEW—Power City Broadcasting Corp., Niagara Falls, N. Y.—Effective date of order extended to May 15, 1937.
WSBT—Ex. Rep. 1-315: The South Bend Tribune, South Bend, Ind.—Effective date of order extended from April 20 to April 27, 1937.
WEMP—Milwaukee Broadcasting Co., Milwaukee, Wis.—Effective date of order extended from April 20 to April 27, 1937.

RENEWAL OF LICENSES

The following stations were granted renewal of licenses for the regular period:

KGNO, Dodge City, Kans.; WBNX, New York City; WFAQ, New York City; WFBP, Syracuse, N. Y.; WHAZ, Troy, N. Y.; WSBT, South Bend, Ind.; WTAQ, Green Bay, Wis.
KOAC—Oregon State Agricultural College, Corvallis, Ore.—Granted renewal of license for the period ending September 1, 1937.
KGGM—New Mexico Broadcasting Co., Albuquerque, N. Mex.—Granted renewal of license for the period ending October 1, 1937.

SET FOR HEARING

NEW—State Broadcasting Corp., New Orleans, La.—C. P. for new station, 1370 kc., 100 watts, unlimited time. Exact site to be determined with Commission's approval.
NEW—Zenith Radio Corp., Chicago, Ill.—C. P. for new television broadcast station at Chicago, on an experimental basis under the provisions of Rules 1031, 1033 and 1034; frequencies 42000-55000 and 60000-86000 kc., visual power 1000, aural power 1000 watts, unlimited time.
WRVA—Larus & Bros. Co., Inc., Richmond, Va.—C. P. to move transmitter site 15 miles southeast of Richmond, Va.; install new equipment and a directional antenna system for day and night operation, and increase power from 5 kW to 150 kW.
KGB—Don Lea Broadcasting System, San Diego, Calif.—C. P., already in hearing docket, amended so as to request change in transmitter site locally to site to be determined; install new equipment and vertical radiator; and increase power from 1 kW to 5 kW, unlimited time. To be heard before the Broadcast Division.
KJBS—Julius Brunton & Sons Co., San Francisco, Calif.—Modification of license to change frequency from 1070 kc. to 1080 kc., and change hours of operation from limited time to specified hours as follows: 6 a. m. to 6:30 p. m. and 9 p. m. to midnight, PST, daily. To be heard before the Broadcast Division.
NEW—Arbor Broadcasting Co., Inc., Ann Arbor, Mich.—C. P., already in hearing docket, amended to request new special broadcast station; 1350 kc., 1 kW, unlimited time, using directional antenna system at night to protect WQXR. Hearing scheduled for April 23.
KFNF—KFNF, Inc., Shenandoah, Iowa.—Application for C. P. amended to request move of transmitter locally; install directional antenna for night-time operation, and new equipment; increase night power to 1 kw, day power to 5 kw.
KRKD—Radio Broadcasters, Inc., Frank P. Doherty, Los Angeles, Calif.—Authority to transfer control of corporation from Frank P. Doherty to J. F. Burke, Sr., and Loyal K. King. Operates on 1120 kc., 500 watts night, 3 1/2 kw day, S-KFSG.
NEW—Summit Radio Corp., Akron, Ohio.—C. P. amended to request application for new station to operate on 1530 kc., 1 kw, unlimited time, using directional antenna system for night-time operation to protect stations WBYR and KXXY. Transmitter site adjacent to Manchester Road, south of Akron city limits, near Akron; studio to be determined in business district of Akron.
NEW—El Paso Broadcasting Co., El Paso, Tex.—Application for C. P. amended to request 940 kc., 1 kw, unlimited time; approval of transmitter site at 2250 ft. South Spruce Street, extended southward, El Paso, Tex.
NEW—W. W. Luce, Lauderdale, Fla.—Application for C. P. amended to request 1050 kc., 1 kw, daytime only, exact transmitter and studio sites and type of antenna to be determined with Commission's approval.
WMAL—National Broadcasting Co., Inc., Washington, D. C.—Application for modification of license to increase night power from 250 to 500 watts; 630 kc.
NEW—Fall River Herald News Publishing Co., Fall River, Mass.—Application for C. P. amended to request 1210 kc., 100 watts night, 250 watts day, unlimited time, exact transmitter site and type of antenna to be determined with Commission's approval.
NEW—Centennial Broadcasting Corp., Dallas, Tex.—C. P. for new station, 1500 kc., 100 watts, daytime only, exact transmitter site to be determined with Commission's approval.
NEW—Thomas J. Watson, Endicott, N. Y.—Application for C. P. for new station, 1240 kc., 1 kw, unlimited time, using directional antenna system for night-time operation.
NEW—F. B. Clements & Company, a co-partnership consisting of F. Braden Clements, Clara D. Clements, and C. C. Clements, d/b as Southern Minn. Supply Co., Mankato, Minn.—Application for C. P. for new station, 1500 kc., 100 watts night, 250 watts day, unlimited time, exact transmitter site to be determined with Commission's approval.

EXAMINERS' REPORTS RELEASED

WCOP—Ex. Rep. 1-380: Massachusetts Broadcasting Corp., Boston, Mass.—Examiner George H. Hill recommended grant of license to change frequency from 1120 kc. to 1130 kc., and hours of operation from daytime to limited time until local sunset at Salt Lake City.
WMBD—Ex. Rep. 1-382: Peoria Broadcasting Co., Peoria, Ill.—Examiner Hill recommended grant of C. P. to increase power from 500 watts night, 1 kw LS, to 1 kw night; 5 kw LS.
NEW—The Escanaba Daily Press Co., Escanaba, Mich.—Examiner Hyde recommended dismissal of application for C. P. on 1500 kc., 100 watts, daytime.
KYN—Ex. Rep. 1-386: Edwin A. Kraft, Juneau, Alaska.—Examiner Hyde recommended denial of C. P. requesting change in frequency from 1430 kc. to 1430 kc., and increase in power from 100 to 250 watts.
NEW—Ex. Rep. 1-387: Johnson City Broadcasting Co., Johnson City, Tenn.—Examiner Hill recommended grant of C. P. for new station to operate on 1290 kc., 100 watts night, 250 watts local sunset, unlimited time.

NEW—Richard M. Casto, Johnson City, Tenn.—Examiner Hill recommended denial of C. P. for new station to operate on 1200 kc., 100 watts time, 250 watts LS, unlimited time.

NEW—Ex. Rep. 1-390: Richard S. Gazzardi, d/b as The Oak Cliff-Dallas County Broadcasting Co., Dallas, Tex.—Examiner R. L. Irwin recommended denial of application for facilities of WLS, daytime, 100 watts; 250 watts LS, unlimited time.

NEW—A. L. Chilton, Dallas, Tex.—Examiner Irwin recommended denial of application for C. P., 1500 kc., 100 watts, daytime, if Commission grants applications of Dallas Broadcasting Co. and Centennial Broadcasting Co., and grant if Commission denies either the application of the Dallas Broadcasting Co. or the Centennial Broadcasting Co.

NEW—Ex. Rep. 1-391: Frontier Broadcasting Co., Cheyenne, Wyo.—Examiner P. W. Seward recommended suspension until the final disposition by the courts of the application of P. W. Seward for authority to construct a radio broadcasting station in Cheyenne. In event the decision of the Commission be sustained by the courts, then it is recommended that application of the Frontier Broadcasting Co. for C. P. to operate on 1420 kc., 100 watts night, 250 watts LS, unlimited time, be granted.

NEW—Twin City Broadcasting Co., Inc., Lewiston, Me.—Examiner Dalberg recommended denial of C. P. for new station to operate on 1210 kc., 100 watts, unlimited time.

NEW—Philip J. Wiseman, Lewiston, Me.—Examiner recommended dismissal of application as in cases of default, same facilities as above.

NEW—Harriet M. Allaman and Helen M. MacLellan, d/b as Cape Cod Broadcasting Co., Barnstable, Mass.—Examiner Dalberg recommended grant of C. P. for new station to operate on 1210 kc., 100 watts night, 250 watts LS, unlimited time.

NEW—Harriet M. Allaman, Kennebunkport, Mass.—Examiner recommended dismissal as in cases of default application for same facilities as above.

NEW—Arthur E. Seagrave, Lewiston, Me.—Examiner recommended denial of application for C. P., same facilities as above.

**MISCELLANEOUS**

KLZ—KLZ Broadcasting Co., Denver, Colo.—Dismissed without prejudice application for C. P. to erect new broadcast station at Denver to operate on 1280 kc., 100 watts night, 250 watts LS, unlimited time. Dismissed petition of Colorado Radio Corporation to intervene in hearing of above application.

NEW—William F. Maag, Youngstown, Ohio.—Denied petition to intervene at hearing of application for C. P. to erect a new radio broadcasting station at Youngstown, Ohio, to operate on 1350 kc., 1 kw, unlimited. Petition filed only four days before hearing scheduled for April 19, 1937. Rule 105.20 requires that petitions to intervene be filed 10 days in advance of hearing.

WBAX—John H. Stenger, Jr., Wilkes Barre, Pa.—Denied petition asking Commission for special temporary authority to operate unlimited time beginning April 15, pending action on application for full time authorization.

KGB—Honolulu Broadcasting Co., Ltd., Honolulu, T. H.—Denied petition asking Commission to reconsider its action of March 10, 1936, in designating for hearing application for consent to transfer control of stations KGMB, Honolulu, and KHBC, Hilo, to the appearance of Carolina Radio, Inc., applicant for C. P. to erect a new station at Charlotte, N. C., to operate on 880 kc., 500 watts night, 1 kw, LS, unlimited time, and to grant the same. Also denied request for further extension of effective date.

WBB—WBB Broadcasting Co., Kansas City, Mo.—Denied petition for review and reversal of decision of Broadcast Division denying application to install new equipment, change frequency from 860 to 1120 kc., change hours of operation from daytime to unlimited, with 500 watts power at night and 1 kw day, and employing a directional antenna system during nighttime operation. Also denied alternative proposal for rehearing and stay of effective date of order fixed as April 15, 1937.

WNNY—Black River Valley Broadcasts, Inc., Watertown, N. Y.—Denied petition requesting Commission to reconsider and set aside its action of December 2, 1936, in which it reversed the order of Broadcast Division of September 22, 1936, which granted an application for C. P. for a new station at Watertown, N. Y., to operate on 1420 kc., 100 watts night, 250 watts day, unlimited time.

**SPECIAL AUTHORIZATIONS**

WBAA—Purdue University, West Lafayette, Ind.—Granted special temporary authority to operate from 5 to 6 P. M., C. S. T., April 30, in order to broadcast college football game and President’s banquet; 12 noon to 2 P. M., May 2, Loyalty Luncheon, and from 4 to 6 P. M., May 2, to broadcast Purdue band concert.

WCAU—St. Lawrence University, Canton, N. Y.—Granted special temporary authority to operate from 2:45 to 4:15 P. M., E. S. T., May 9, (instead of May 2, 1937, as granted in minutes of April 2, 1937), in order to observe Charter-Day College Holiday.

WKAR—Michigan State College, East Lansing, Mich.—Granted special temporary authority to operate with reduced power for a period not to exceed 10 days while installing new transformers.

WSMK—WXK, Inc., Dayton, Ohio.—Granted special temporary authority to operate simultaneously with KQV from 7:15 to 7:30 P. M., E. S. T. (Sundays), April 18 and 25.

WICA—C. A. Rowley, AshTabula, Ohio.—Granted special temporary authority to operate a 50 watt test transmitter on 940 kc., during daytime hours for a period April 15 to
May 14, 1937 in order to test for transmitter sites near Ash-Tabula. However, such tests not permitted during hours prescribed for Commission monitoring schedule, during experimental period except from 5:10 to 5:30 A.M., May 11.

WBZ—General Electric Co., Boston, Mass.—Granted special temporary authority to operate a 500 watt radio transmitter at and near the site specified in application for C.P. on frequency 1020 kc., between hours of 1 and 6 A.M., E. S. T., for period April 25 to May 6, 1937, inclusive, to make measurements of radio frequency harmonic radiation.

WBZ—Westinghouse Electric & Manufacturing Co., Boston, Mass.—Granted special temporary authority to operate from 5 to 6 A.M., C. S. T., for period of 30 days, in order to reach farmers in the territory surrounding station WBZ who are in their fields during the summer months by 5 A.M.

WBC—Olaf College, Northfield, Minn.—Granted special temporary authority to operate from 2 to 3 P.M., C. S. T., the following Sundays: April 25, May 2, 9, 16, 23 (provided WTCN remains silent), in order to continue to schedule NBC programs with commencement of daylight saving time in New York City.

WTCN—Minnesota Broadcasting Corp., Minneapolis, Minn.—Same as above except from 3 to 4 P.M., C. S. T., provided WCAL remains silent.

WFIL—WFIL Broadcasting Co., Philadelphia, Pa.—Granted extension of temporary authority to operate on 580 kc. for period of 30 days, in order to broadcast special programs and the balance of the time to broadcast transcription program utilizing music of World Sustaining Library.

WHDF—The Upper Michigan Broadcasting Co., Calumet, Mich.—Granted special temporary authority to operate from 10:30 A.M. to May 1, inclusive, in order to broadcast (first fifteen minutes) Magic Hour Programs and the balance of the time to broadcast transcription program utilizing music of World Sustaining Library.

KOY—Universal Broadcasting Corp., Pine Bluff, Ark.—Granted special authority to operate 7:30 to 10:30 P.M., C. S. T., April 12, 13, 16, 17 to 21 inclusive, in order to broadcast night baseball games.

KFRO—Voice of Longview, Longview, Texas.—Granted special temporary authority to operate from local sunset (May 22, 8:15 M. T. to 8 P.M., C. S. T., using power of 100 watts, on Sundays, May 2, 9, 16, 23 and 30, in order to broadcast church services of the Kelly Memorial Methodist Church of Longview.

WEST—Associated Broadcasters, Inc., Easton, Pa.—Granted special temporary authority to operate simultaneously with station WBKB from 10 to 11 A.M. and 5 to 6 P.M., E. S. T., for period April 25 to May 24, 1937, due to adoption of Daylight Saving Time in Easton, Pa.

WBQG—Havens & Martin, Inc., Richmond, Va.—Granted extension of special temporary authority to operate from 5:30 to 7 P.M., E. S. T., on Sundays from May 1, 1937, to May 31, 1937, inclusive (provided WBBL remains silent), in order to broadcast special programs.

WFB—The Baltimore Radio Show, Inc., Baltimore, Md.—Granted special temporary authority to operate a 50 watt portable transmitter between the hours 1 and 6 A.M., E. S. T., for the period April 21 to May 20, 1937, in order to conduct a location survey in and around Baltimore. However, such tests not permitted during those hours prescribed for Commission monitoring schedule.

RCA Communications, Inc., Bolinas, Calif.—Granted special temporary authority to operate point-to-point telegraph stations KEQ on frequency 11950 kc., KEW on 7715 kc., and KEG on 5110 kc., to communicate with relay broadcast station aboard plane of United Air Lines Transport Corp. under call letters KHAZT, for period April 19 to May 30, 1937, for the purpose of maintaining contact-control communications connection with reception of preliminary test schedules incidental to reception of one-half-hour programs to be broadcast from NBO on April 16, 16, 17 and 30.

W3XDS—RCA Communications, Inc., Camden, N. J.—Granted special temporary authority to operate with power of 5 KW on 590 kc. during broadcast experimental hours from 1 to 6 a.m., EST, for period not to exceed 10 days, provided schedule so arranged as to make measurements of radio frequency harmonic radiation.

KGDY—Voice of South Dakota, Huron, S. Dak.—Granted extension of special temporary authority to remain silent for the period April 16 to May 1, 1937, for the purpose of rebuilding transmitter to comply with Rule 132. Provided, this authority shall not be construed as a finding by the Commission with respect to any application of KGDY pending before it, particularly the renewal application or upon any issues raised thereby. Also that station shall not resume operation until such time as photographs and other necessary evidence are submitted showing equipment is in entire agreement with all requirements of rules and regulations prescribed for Commission monitoring schedule.

WJBD—Chas. C. Carlson, New Orleans, La.—Granted special temporary authority to remain silent if necessary for a period not to exceed 15 days pending necessary repairs.

**RATIFICATIONS**

The Division ratified the following acts authorized on the dates shown:

- **KABE-KIGA**—National Battery Broadcasting Co., St. Paul, Minn.—Granted authority to operate as licensed on Thursdays for period of 30 days from April 22, relaybroadcast from University of Minnesota Farm School instead of authority granted by wire on April 14. Also granted authority to operate as licensed on April 20 relaybroadcast from University of Minnesota Mechanical Engineering Bldg.

- **W8XK**—Crosley Radio Corp., Cincinnati, Ohio.—Granted authority to operate as licensed April 20 relaybroadcast interviews of early arrivals opening ball game on 4-20 or 4-21, relaybroadcast from Keeneeland Race Track.

- **W8XHV**—The Evening News Assn., Inc., Detroit, Mich.—Granted authority to operate as licensed 4-24 relaybroadcast program connection opening trout fishing season in Michigan.

- **W10XDK**—National Broadcasting Co., Inc., New York City.—Granted temporary authority to operate as licensed April 22, 23 and 24 relaybroadcast description intercollegiate track meet, Philadelphia.

- **W9XPN**—American Broadcasting Corp. of Kentucky, Lexington, Ky.—Granted temporary authority to continue use of present transmitter until not later than midnight April 30, that is Rule 152 waived until that date. Authority granted change coupling system as necessary to match new transmitter; however, if necessary, change antenna system, necessary submit details which must comply with Rule 131. Above authority shall not be construed as acceptance of explanation of discrepancy report. Use new equipment must comply Rules 164 and 165.

- **WJEP**—Stromberg-Carlson Tel. Mfg. Co., Rochester, N. Y.—Granted temporary authority to operate relay station WJEP as licensed, April 16 to April 25, 1937, to relay broadcast of safety campaign in Rochester.

- **W4XBT**—Radio Station WSOIC, Inc., Charlotte, N. C.—Granted temporary authority to operate as station licensed, for period April 15 to 17, 1937, inclusive, to relay broadcast from Carnival Grounds, provided no wire lines available.

- **WGBR**—Broadcasting Co. for a C. P. to erect a broadcast station at Cleveland, Ohio. Docket 4436. Granted petition of WGBR Broadcasting Co. for a C. P. to erect a broadcast station at Youngstown, Ohio. Docket 4066. Granted petition of WGBR Broadcasting Co. to intervene in the proceedings on the application of Valley Broadcasting Co. for a C. P. to erect a broadcast station at Youngstown, Ohio. Docket 4436.

- **WFD**—Denied petition of Isle of Dreams Broadcasting Corp. (WIOD-WMBF), Miami, Fla., requesting that the Commission reconsider its action of February 9, 1937 in designating for hearing its application for modification of license, Docket No. 4425, and grant same without a hearing.

- **WGBR**—Granted petition of the Great Lakes Broadcasting Corp. to intervene in the proceedings on the application of the Food Terminal Broadcasting Co. for a C. P. to erect a broadcast station at Cleveland, Ohio. Docket 4436.

- **W4XBT**—Granted the petitions of the Pennsylvania Broadcasting Company (WIP), the Seaboard Radio Broadcasting Corp. (WIBG), and WDAS Broadcasting Station, Inc. (WDAS), to intervene in the proceedings on the application of the Philadelphia Radio Broadcasting Co. for a C. P. to erect a broadcast station in Philadelphia, Pa. Docket 4439.

- **KVB**—Denied petition of R. E. Buelben, Great Bend, Kan.—Granted extension of program test period for period of 30 days from April 8, 1937.
Applications Received

First Zone

NEW—Colonial Broadcasting Co., Morristown, N. J.—Construction permit for a new station to be operated on 620 kc., 1 kW, unlimited time. Amended to specify directional antenna for day and night use and give transmitter site as near Whippney, N. J.

NEW—The Yankee Network, Inc., Quincy, Mass.—Construction permit for a new facsimile broadcast station to be operated on 4100 kc., 500 watts.

NEW—The Yankee Network, Inc., Quincy, Mass.—License to cover above.

NEW—City of New York, Dept. of Plant and Structures, New York, N. Y.—Construction permit for a new relay broadcast station to be operated on 1622, 2058, 2150, 2790 kc., 40 watts.

Second Zone

WFIL—WFIL Broadcast Co., Philadelphia, Pa.—Modification of construction permit (B2-P-1085) for changes in equipment, new antenna, increase in power, and move of transmitter, furthermore requesting authority to install new transmitter, directional antenna for day and night use, increase power from 1 KW to 5 KW, move transmitter from 1500 feet north of Monument and City Line Ave., Merion Twp., Pennsylvania, to 63rd Street and Schuykill River, Pennsylvania, due to change in equipment and completion dates.

WHKC—Associated Radiocasting Corp., Columbus, Ohio.—Construction permit to install a new transmitter; increase power from 500 watts to 1 KW night, 5 KW day; change hours of operation from limited time to unlimited time; make changes in antenna and move transmitter from Sharon Road (10 miles north), Columbus, Ohio, to 70th Avenue way 45 North, 1.3 miles north of city limits, Columbus, Ohio.

NEW—Geneec Radio Corporation, Flint, Mich.—Construction permit for a new station to be operated on 1500 kc., 100 watts night, 250 watts day, specified hours.

Third Zone

KMB—Liner’s Broadcasting Station, Inc., Monroe, La.—Construction permit for a new station to be operated on 1310 kc., 150 KW, daytime. Amended to request for unlimited night time.

NEW—Ward Optical Co., Dr. T. B. Ward, Owner, Fayetteville, Ark.—Construction permit for a new station to be operated on 1420 kc., 100 watts, daytime, unlimited time. Amended: To change power and number of hours of operation from daytime and limited time to unlimited time, move transmitter, and make changes in equipment and give transmitter and studio sites as Wolf Building on West Mt. St., Fayetteville, Ark.

NEW—Burl Vance Hedrick, Near Salisbury, N. C.—Construction permit for a new station to be operated on 1310 kc., 250 watts daytime.

NEW—Burl Vance Hedrick, Near Salisbury, N. C.—Construction permit for a new station to be operated on 1340 kc., 1 KW, daytime.

WATL—J. W. Woodruff, tr. as Atlanta Broadcasting Co., Atlanta, Ga.—License to cover construction permit (B3-P-1228) as modified, for new transmitter and antenna, increase in power and move of transmitter and studio.

NEW—Brenau College, Gainesville, Ga.—Construction permit for a new station to be operated on 1290 kc., 100 watts night, 250 watts daytime, unlimited time.

NEW—Station WTS, Incorporated, Columbia, S. C.—Construction permit for a new relay broadcast station to be operated on 31100, 34600, 37600, 40600 kc., 2 watts.

W4XCA—Memphis Commercial Appeal Co., Memphis, Tenn.—Construction permit to change location of station from Madison & Third Streets to 139 S. Main St., Memphis, Tenn.

W5XCI—Tulsa Broadcasting Co., Inc., Tulsa, Okla.—License to cover construction permit for a new relay broadcast station.

W5XR—Tulsa Broadcasting Co., Inc., Tulsa, Okla.—License to cover construction permit for a new relay broadcast station.

Fourth Zone

KFRU—KFRU, Inc., Columbia, Mo.—Construction permit to make changes in transmitting equipment, install a vertical antenna, increase power from 500 watts, 1 KW day, to 5 KW, and move transmitter from 1200 Broadway to site to be determined, Boone County, Missouri.

WBBM—Columbia Broadcasting System, Inc., Chicago, Ill.—Modification of license to change hours of operation from simultaneous daytime and night time to experimental (experimentally) night with KFAB, to unlimited (contingent upon KFAB being granted change in frequency).

KFAB—KFAB Broadcasting Co., Lincoln, Nebr.—Construction permit to install a new transmitter and directional antenna for night use; change frequency from 720 kc. to 1080 kc., power from 10 KW to 50 KW, hours of operation from simultaneous day, share WBBM night, to unlimited time; and move transmitter from 17th and Holdredge Streets, Lincoln, Nebr., to Range 7 E. N. W. 1/4 Sec. 4, Twp. 12, N. Lancaster County, Nebraska.
KRMC—Roberts-MacNab Co. (Arthur L. Roberts, R. B. Mac-Nab, A. J. Breitbach, Gen. Mgr.), Jamestown, N. Dak.—Modification of license to change frequency from 1310 kc. to 1370 kc., and change hours of operation from simultaneous day KVOX, share KVOX night, to unlimited time.

WSAU—Northern Broadcasting Co., Inc., Wausau, Wis.—Authority to make changes in automatic frequency control equipment.

NEW—Curtis Radiocasting Corp., Richmond, Ind.—Construction permit for a new station to be operated on 1420 kc., 100 watts night, 250 watts day, unlimited time.

NEW—The Champaign News-Gazette, Inc., Champaign, Ill.—Construction permit for a new relay broadcast station to be operated on 39700, 39900, 40800, 41400 kc., 10 watts.

NEW—The Champaign News-Gazette, Inc., Champaign, Ill.—Construction permit for a new relay broadcast station to be operated on 39700, 39900, 40800, 41400 kc., 2 watts.

Fifth Zone

KQW—Pacific Agricultural Foundation, Ltd., San Jose, Calif.—Construction permit to install a new transmitter, erect a vertical antenna, increase power from 1 KW to 1 KW night, 5 KW day, and move transmitter from 87 East San Antonio Street, San Jose, Calif., to site to be determined, Santa Clara County, California.

KOOS—Pacific Radio Corp., Marshfield, Ore.—Modification of license to change hours of operation from daytime to unlimited time, using 100 watts night, 250 watts daytime. Amended to install vertical antenna.

KSUB—Harold Johnson and Leland M. Perry, d/b as Johnson & Perry, Cedar City, Utah.—Modification of construction permit (B5-P-841) as modified for a new station, requesting changes in authorized equipment.

KIDO—Frank L. Hill and C. G. Phillips, d/b as Boise Broadcast Station, Boise, Idaho.—Construction permit to make changes in equipment and increase power from 1 KW night, 2½ KW day, to 5 KW night and day. Amended to omit request for increase in night power.

KPO—Wescoast Broadcasting Co., Wenatchee, Wash.—Construction permit to install a new transmitter and change frequency from 1500 kc. to 1350 kc., change power from 100 watts night, 250 watts day, to 1 KW.

KGER—Consolidated Broadcasting Corp., Ltd., Long Beach, Calif.—License to cover construction permit (B5-P-1483) for changes in equipment.

KSLM—Oregon Radio, Inc., Salem, Ore.—Construction permit to change frequency from 1370 kc. to 1360 kc., install a new transmitter, make changes in antenna, and increase power from 100 watts to 500 watts.

KAWM—A. W. Mills, Gallup, N. Mex.—License to cover construction permit (B5-P-601) as modified for a new station.
SLOWIE APPOINTED FCC SECRETARY

Thomas J. Slowie, 41, of Clinton, Iowa, was appointed yesterday as secretary of the Federal Communications Commission. The appointment was made by the members of the FCC sitting en banc.

Mr. Slowie was educated in the public schools of Clinton, Iowa. He first came to Washington in 1930 as secretary to Representative P. M. Jacobsen of the Second Congressional District of Iowa, remaining in that position until Mr. Jacobsen's death in 1936. Representative Jacobsen was succeeded by his son, W. M. Jacobsen, who retained Mr. Slowie as secretary up to the present time.

Mr. Slowie was in the army during the World War, and at various times has served as City Auditor and City Clerk of Clinton. He was also in the insurance business for several years.

Insofar as it could be learned late yesterday Mr. Slowie has not had any radio experience. Mr. Slowie succeeds Herbert L. Petteway, who resigned the place several months ago.

ANOTHER COPYRIGHT BILL

Senator Guffey, of Pennsylvania, has introduced a bill (S. 2240) to amend and consolidate the copyright act of March 4, 1909. The bill has been referred to the Senate Committee on Patents and is identical with H. R. 5275 which Representative Daly introduced on March 3.

FCC GRANTS NEW STATION

H. W. Wilson and Ben Farmer were granted a construction permit this week by the Federal Communications Commission for the construction of a new broadcast station at Wilson, N. C., to use 1310 kilocycles, 100 watts power daytime operation. The order is effective on June 1 and sustains the recommendation of Examiner P. W. Seward.

WARING VS. WDAS

The appeal by radio station WDAS to the Supreme Court of Pennsylvania from the adverse decision of the Court of Common Pleas of Philadelphia in the case brought by Fred Waring to enjoin the broadcasting of phonograph records was argued in Philadelphia on April 21. Former Attorney General William A. Schnader argued the case for the station and Maurice J. Speiser presented the case for Waring. The decision was reserved by the Court of seven Judges—Chief Justice Kaphart, Stern, Drew, Shaffer, Maxey, Linn and Barnes. No decision is likely before May 24, when the Court reconvenes at Harrisburg.

Mr. Schnader commenced his argument by reading the pleadings and showing the narrow issues involved. He then referred to the hearing before Judge McDevitt of Common Pleas which he characterized as being far more unique than Waring's performances and in which the rules of evidence were suspended for the day. After discussing the testimony, he stated that the findings of Judge McDevitt were based upon evidence which should have been excluded as having no bearing on the issues in the case, pointing out, among other things, that the defendant's name or the name of its station was mentioned only once throughout the entire hearing by the plaintiff and the plaintiff's witnesses. He then referred to the

failure of Judge McDevitt to find certain facts which were admitted by the pleadings or by the evidence, following which the station filed 137 exceptions to the decision of the court below. The exceptions, he said, were argued before Judge McDevitt and another Judge instead of before three judges, Judge Kun sitting with Judge McDevitt disagreeing vigorously on the argument with Mr. Speiser's contentions and the decision of the court. After a couple of months a unanimous decision came down, however, dismissing the 137 exceptions without assigning any reason or rendering any opinion.

Mr. Schnader then briefly discussed the law involved and argued that there was no authority in any of the English-speaking countries for giving a common law right of property in the manner in which a performer rendered a selection which he did not own. He next argued that if there was any property right in Waring, that he had lost that right when he published the records by allowing the phonograph manufacturers to market them. He explained that the legend on the record "Not licensed for radio broadcasting" did not refer to Waring at all and could only refer to a copyright license from the copyright owners of the song to broadcast that song and that since the station had a license from ASCAP, the legend was of no significance. He further stated that under the many decisions of the United States Supreme Court and other Federal courts, it was impossible for the seller of an article to restrict the use of that article after its outright sale. As to unfair competition, Mr. Schnader said that the plaintiff had not even pleaded such a cause of action.

Mr. Speiser argued at considerable length claiming that there was a common law right of property, that band leaders all over the country were suffering from the broadcasting of phonograph records and claimed that Waring had made an agreement with the R. C. A. Victor Company, in which the records were agreed not to be used for broadcasting and that their use was to be restricted to the homes. He referred to what he called other broadcasting stations were doing in the way of announcements to deceive the public into thinking that the artist himself was in the studio, but had to admit that such practices did not apply to station WDAS. He claimed, however, that the chancellor was entitled to take into consideration what was being done by other stations and stated that none of the findings of Judge McDevitt was based upon what other stations did. He argued that the records made a number of years ago were not up to Waring's present standards and that this was interfering with his activities and that, furthermore, Waring had an exclusive contract with a radio advertiser which the defendant was interfering with by broadcasting Waring's records.

Various members of the court evidenced their interest in the issues involved by their questions to counsel. One Judge asked if Sarah Bernhardt had spoken lines of a play in a certain way, if that would prevent someone else from speaking it the same way and it was pointed out that it was the contention of Waring that this was so. Another Judge inquired of Mr. Speiser if Waring should have performed "Annie Laurie," which was presumably in the public domain, if he could prevent someone else from performing "Annie Laurie" the same way. Mr. Speiser said that he believed that Waring should be able to prevent this being done. Still another Judge inquired if somebody happened to read Shakespeare aloud in a certain manner if that person could prevent other persons from reading Shakespeare in that identical fashion and Mr. Speiser replied that that was his contention.

It was brought out during the argument that even if a contract did exist between Waring and the phonograph company of the nature claimed by Waring, that the station knew nothing whatever about it and that certainly it could not be bound to observe contracts of which it knew nothing. Mr. Speiser also argued that Waring's right of privacy was violated by using phonograph records. One of the Judges inquired if the station did not use the name of Waring if then there could be no claim of violation of the right of privacy. Mr. Speiser, however, contended that it would make little or no difference if the name were used, that the thing that Waring complained about was the use of his personal performance.

**SECURITIES ACT REGISTRATIONS**

The following companies have filed registration statements with the Securities & Exchange Commission under the Securities Act:

Apex Gold Mines, Ltd., Vancouver, B. C. (2-2978, Form A-1)

RECOMMENDS AGAINST KSFO TRANSFER

The Associated Broadcasters, Inc., licensee of station KSFO, San Francisco, Cal., and Western Broadcast Company (now incorporated as Columbia Broadcasting System of California, Inc.) applied to the Federal Communications Commission for consent to the assignment of the license of KSFO to the latter corporation.

Examiner R. H. Hyde, in Report No. I-399 recommended that the application be denied. In connection with the recommendation the Examiner says that:

Examination of the contract, consideration of the evidence regarding the properties proposed to be leased and then immediately replaced for the most part by the lessee, and examination of the business of the station, likewise proposed to be leased and then replaced for the most part, indicates that the chief consideration for the "rental" agreed upon is the use or opportunity to use the operating assignment of Station KSFO, subject to the approval of the Commission. The sums proposed to be paid for this privilege and the other conditions of the so-called lease are matters determined by agreement between the applicants, with notice of, and of course subject to, any laws applicable thereto. Nothing in the contract, in the absence of some affirmative action by the Commission, could possibly change the terms of the station license, which, it may be noted, runs for only a fraction of the time period covered in the contract; no rights to the operating assignment in question or any of the privileges for which a license is required by the Communications Act of 1934 could be established against the regulatory power of the Commission by any agreement between these parties or by any payments which one may make to the other as consideration to stand aside or vacate an operating assignment in favor of the second party. But the terms, including payments proposed to be made in a transaction of this character, are nevertheless considered material to the question as to whether or not approval of a transfer of license would be in the public interest.
The payments proposed to be made in this case by the assignee do not appear to be out of line with the usefulness and value the KSFO operating assignment would have to the assignee. On the other hand, it is obvious that the assignor is requiring payments in amounts which can be explained only by the fact that it has a license from the government giving it exclusive privileges as to the use of the operating assignment desired by the assignee. This use of the privileges granted in the station license does not appear consistent with the condition imposed by law and included in each license; that the licensee use the privileges conferred to the full extent thereof to serve the public interest.

It appears that the acquisition of control of Station KSFO by the assignee would result in improvements to the service of the station in the technical quality of its broadcasts and with respect to the quality of the programs provided for the interest of the public. Also, it is apparent that the acquisition of control of Station KSFO by the assignee would contribute to the further development and maintenance of the national network broadcast system represented by the assignee, and be advantageous to the promotion of the interests of that system. But it does not appear from anything in the evidence regarding this particular system, or regarding the requirements of network broadcasting, that there is any necessity for the acquisition of control of this station by the same interests now controlling a number of other stations.

The applicants have not shown that the granting of the application would serve the public interest, convenience or necessity.

**NEW FLORIDA STATION RECOMMENDED**

The Metropolis Company applied to the Federal Communications Commission for a construction permit for the erection of a new broadcast station at Jacksonville, Florida, to use 1290 kilocycles, 250 watts and unlimited time on the air.

Examiner Melvin H. Dalberg in Report No. I-397 recommended that the application be granted. He found that the proposed station would not cause any objectionable interference. The Examiner states that most of the programs on the existing stations is devoted to chain programs. He feels that the application would be in the public interest.

**RECOMMENDS AGAINST IOWA STATION**

The Rapids Broadcasting Company applied to the Federal Communications Commission for a construction permit for the erection of a new broadcasting station at Cedar Rapids, Iowa to use 1310 kilocycles, 100 watts power and daytime operation.

Examiner George H. Hill in Report No. I-398 recommended that the application be denied. He found that the operation of the proposed station would result in mutual interference between station KROC and the proposed station. It would also cause interference in the daytime with KRNT and the Examiner states that Cedar Rapids “appears to be receiving ample radio service from existing stations.”

**CHANGES RECOMMENDED FOR KLPM**

Broadcasting station KLPM, Minot, N. D., applied to the Federal Communications Commission to change its frequency from 1240 to 1360 kilocycles, its power from 250 watts to 500 watts night and 1,000 watts day and from sharing time to unlimited time.

Examiner John P. Bramhall in Report No. I-400 recommended that the application be granted. He states that the proposed changes will not adversely affect the interests of WGES, WSBT and KCRC. The Examiner states that granting the application would be in the public interest.

**NEW STATION RECOMMENDED**

Walter H. McGenty, applied to the Federal Communications Commission for a construction permit for the erection of a new station at Rice Lake, Wis., to use 1210 kilocycles, 250 watts and daytime operation.

Examiner John P. Bramhall in Report No. I-401 recommended that the application be granted. He states that there is a definite need for daytime service in the area proposed to be served, and that the proposed station will not cause any interference with any existing station or proposed one and that the application will serve the public interest.

**RECOMMENDS DENYING GEORGIA STATION**

The North Georgia Broadcasting Company applied to the Federal Communications Commission for a construction permit for the erection of a new station at Rossville, Ga., to use 1200 kilocycles; 100 watts power and daytime operation.

Examiner P. W. Seward in Report No. I-396 recommended that the application be denied. He found that the applicant is not “financially qualified to construct and operate the proposed station”, also he states that “the evidence adduced at the hearing does not show that a need exists for additional radio service in the area proposed to be served.”

**FEDERAL TRADE COMMISSION ACTION**

**Complaints**

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The
respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them:

Nos. 3108-3109. Alleging unfair competition through use of lottery methods in the sale of candy, complaints have been issued against Unique Novelties, Inc., and Winthrop Novelty Co., Inc., both of 35-37 Claver Place, Brooklyn.

The complaint against Unique Novelties, Inc., charges use of a game of chance in the distribution of candy. In this contest, winners are given free to purchasers procuring caramels having a certain colored center.

The complaint against Winthrop Novelty Co., Inc., charges use of a game of chance in the distribution of caramels together with small and large pennants which allegedly are distributed free to purchasers procuring caramels of a certain color. This company also has advertised its large and small caramels by a lottery method in which felt pennants were distributed.

No. 3110. Reliable Typewriter & Adding Machine Co., 303 West Monroe St., Chicago, is charged with unfair competition in the sale of its products, in a complaint.

Representations of the respondent company are alleged to mislead customers into believing that the company’s small size adding machine will take the place of large and expensive machines; that its machines are accurate and easy to operate, and that the respondent company manufactures its products and wholesales them at $1.95 each, when, according to the complaint, these are not the facts.

The complaint alleges that the respondent company’s adding machines are not comparable and equivalent to the large and more expensive machines in performance and special features; that the company wholesales its adding machines at less than $1.95 a unit, and that it does not manufacture its products, nor own a factory, but has its machines made by an independent establishment.

Nos. 3111-3112. Complaints alleging unfair methods of competition in the sale of candy by means of lottery methods have been issued against Lechler Confectionery Co., 134 Cambridge St., Cambridge, Mass., and Keeley’s, Inc., 258 South State St., Salt Lake City.

Under the sales plan used by the Cambridge concern, it is charged that purchasers who select certain pieces of candy from an assortment receive a package or box of candy free.

The plan employed by Keeley’s, Inc., is alleged, involves use of a punch board, certain numbers on which entitle customers to a prize of a box or package of candy.

No. 3113. Charging unfair competition in the sale of cosmetics and toiletries, a complaint has been issued against Woodbury Sales Co., Inc., 347 Fifth Ave., New York, and William A. Woodbury, Richard Pecard and Arthur Baum, individually and as officers of the company.

Alleging violation of Section 5 of the Federal Trade Commission Act, the complaint, with use of the words “turtle oil cream” in labels attached to containers of a product comprising an emulsion of oils and fats, the major portion of which preparation is allegedly not turtle oil, the complaint points out that many purchasers prefer facial creams with a turtle oil base.

In selling face creams, shaving creams, tooth pastes and other cosmetics and dentifices, the respondents are alleged to have had printed on their cartons: “Prepared by William A. Woodbury Corporation.” This and other similar designations allegedly serve as representations that William A. Woodbury Sales Co., Inc., is a manufacturer and that it manufactures and packages the products sold by the respondents, when, according to the complaint, this company operates no factory and is not a manufacturer of such articles.

No. 3115. Lechler Laboratories, Inc., 334 Audubon Ave., New York, is charged in a complaint with unfair competition in the interstate sale of its “Lechler ‘569’ Instantaneous Hair Lightener.”

The respondent company is alleged to have represented, either directly or by implication, that its hair lightener requires no peroxide; that the preparation does not contain peroxide and is superior to products which do contain it.

According to the complaint, the respondent company’s article is composed of such ingredients that its bleaching action is actually accomplished by hydrogen peroxide. Allegedly it does contain peroxide, and its bleaching action is not substantially different from other products of which peroxide is a part.

Stipulations and Orders

The Commission has issued the following cease and desist orders and stipulations:

No. 1902. An order has been issued vacating and setting aside an order to cease and desist entered April 3, 1934, against National Candy Co., Inc., St. Louis, prohibiting unfair competition in the sale of candy by methods involving a lottery or game of chance.

The complaint charging this company with practices similar to those alleged in the former complaint, namely, distributing to dealers candy so packed and assembled as to involve use of a lottery scheme when sold to consumers, according to the amended complaint, was affected through use of assortments of uniform sized candies, a small number of which had centers of a different color. Buyers drawing the pieces of different color or the last piece in the assortment, received a prize, according to the amended complaint.

No. 1968. Stark Calendars, Inc., 206 South Dearborn St., Chicago, agreed to cease using in catalogues or on letterheads such words as “Manufacturers” or “Manufactured By” so as to imply that it makes the calendar pads and stands it sells, or that it owns or controls a plant where such products are manufactured. The corporation also will stop stamping its products with the phrase “Pat. Appl’d For,” when, in fact, application for a patent has not been made.

No. 1969. Henry F. Martinat, trading as Martinat Hosley Mills, Valdese, N. C., agrees to stop using the phrase “Pure Thread Silk Reinforced with Art Silk,” to designate hosiery not composed of silk, and from use of the word “Silk,” alone or with other words, to imply that the products so referred to are made of silk. The stipulation provides that should such articles be composed in substantial part of silk, that word, if used to describe such silk content, shall be accompanied by other words in equally bold type to show that the articles are not made altogether of silk.

No. 1970. Eddie Manufacturing Co., 9 West Illinois St., Chicago, will discontinue as a trade name or brand for its radio dials the name “Majestic,” either alone or with the words “Radio Corporation” or with any other words so as to create the impression that the dials or the radio sets to which they are attached are manufactured by Grigsby-Grunow Company or its successor in business, Majestic Radio and Television Corporation of Chicago, when such is not the case. Also, according to the stipulation, the right to use the name “Majestic” is vested in the latter corporation.

No. 1971. Under a stipulation entered into, Perey S. Lucas and Gerald A. Rice, trading as Edison Electrical Schools, 1740 University Ave., Berkeley, Calif., will cease using certain unfair methods of competition in connection with the sale of correspondence courses in Diesel and radio engineering.

They agreed to discontinue use of representations in advertisements which may tend to confuse or mislead applicants for employment into the erroneous belief that they are in a position to offer employment to men mechanically inclined. They also will stop advertising their business in newspapers under the classification heading “Help Wanted—Men” or “Reliable Men Wanted,” when, in fact, the purpose of such advertising is not to obtain male help but to enroll students for a course of instruction.

No. 1974. H. O. Schmidt and R. C. Kruger, trading as The Plate Manufacturing Co., 1328 Broadway, New York, in selling a powdered ammonia alum product, originally under the trade name “Kant-Run” but more recently as “HoSaver,” stipulate that they will desist from use in advertisements of the representation “Protects lingerie and silk and rayon hose against runs, rips, snags and breaks” or of other assertions of like meaning when the preparation will not accomplish the results claimed.

No. 1975. M. and R. J. Plate, trading as The Plate Manufacturing Co., 1328 Broadway, New York, in selling a powdered ammonia alum product, originally under the trade name “Kant-Run” but more recently as “HoSaver,” stipulate that they will desist from use in advertisements of the representation “Protects lingerie and silk and rayon hose against runs, rips, snags and breaks,” or of other assertions of like meaning, when the preparation will not accomplish the results claimed.
of "only the finest woods" or entirely of quartered oak, when such are not the facts.

No. 1975. Dunham Co., Berea, Ohio, selling farm machinery, agreed to cease representations in advertising matter to the effect that throughout the world at the present time there are 450,000 Dunham machines in use, and that such machines work and re-work 110,000,000 acres every year. According to the stipulation, the representations as to the number of machines in operation and the acreage on which such machines are used are not warranted as they are not properly based on accurately compiled facts.

No. 1976. J. P. Smith Shoe Co., 671 Sangamon St., Chicago, according to its stipulation, will stop using the words "British Walkers" to imply that its shoes are of British origin or made in Great Britain, and, if such a phrase is used as a trade name, brand or label for its shoes, it will be accompanied by equally large type by other words clearly showing that such shoes are not of British origin or made in Great Britain. The stipulation points out that at a time subsequent to its use of the foregoing practice the respondent company caused the phrase "Made in U. S. A." to be stamped below the words "British Walkers," but in comparatively small and inconspicuous type.

No. 1977. Herbert R. Johnson, 4534 Broadway, Chicago, trading as Johnson's Battery Process Co., and selling a battery solution, will discontinue in his advertising matter representations to the effect that his product will counteract the corrosive elements of storage battery electrolyte, restore the efficiency of used batteries, remove sulphate from the plates, or give batteries longer life and superior performance, when such are not the facts. Johnson also stipulated that he will stop using the words "Automotive Test Laboratories of America" on his so-called certificates of merit and the phrase "Johnson's Process" or "Johnson's More Power," will not in any manner change the performance of or be beneficial to a battery, nor has it been tested by an accredited testing laboratory, when such is not a fact. According to the stipulation, Johnson's product, known as "Johnson's Battery Process" or "Johnson's More Power," will not in any manner change the performance of or be beneficial to a battery, nor has it been tested by an accredited testing laboratory.

No. 2852. I. B. Kleimert Rubber Co., 485 Fifth Ave., New York, has been ordered to cease and desist from representing in advertising matter that a baby garment it sells in interstate commerce under the trade name "Softex," or any other trade name, is free from latex or any other form of gum rubber, or is rubberless, when, in fact, some parts of the garment contain latex or another form of rubber. The respondent company's representations were found to constitute unfair methods of competition, in violation of Section 5 of the Federal Trade Commission Act.

No. 2853. Zion Holy Spiritual Mission and Enflecce N. French, trading as Zion Holy Spiritual Mission Laboratories, 3338 South State St., Chicago, have been directed to discontinue unfair methods of competition in connection with the interstate sale of medicinal products. Specifically, the respondents are ordered to cease and desist from representing in advertising matter, through the use of the words "laboratories" and "manufacturers," alone or with other words, or through any other means, that they compound or manufacture their medicinal products, until and unless they own and operate or control a laboratory or plant wherein such products are made.

No. 2975. Olson Rug Co., 2800 North Crawford Ave., Chicago, has been ordered to cease and desist from using unfair methods of competition in connection with the interstate sale of rugs which it manufactures from old materials, such as used rugs, carpets and clothing. Findings in the case are that advertisements in newspapers, catalogues, sample books and other advertising matter contained representations tending to cause a part of the purchasing public to form the mistaken belief that the rugs which the respondent company sells are made from the identical materials sent to it by each customer, together with other materials furnished by the respondent company, such as new wool. It was found that the Olson Rug Company does not manufacture such rugs in its manufacturing plants, even though the rugs it delivers to customers from the specific materials they send in, but makes them from old materials previously sent in by other customers.

Nos. 3048 and 3080. Orders to cease and desist have been issued against a Chicago distributor of a foot treatment and a New York manufacturer of a skin treatment, directing those companies to stop representing the health values and the healing powers of their products, respectively. Pedodyne Co., Inc., 180 North Wacker Drive, Chicago, is ordered to stop asserting that "Pedodyne," sold as a bunion treatment, will banish, cure or heal bunions or give perfect foot comfort, or that it will end bunion torture, give permanent relief, penetrate beneath the outer skin, and is a scientific or recent discovery.

No. 3056. Winifred Sorenson and Edward Beales, trading as Sorenson-Beales Candy Co., 1114 Fifth St., Sioux City, Iowa, have been ordered to cease and desist from selling and distributing in interstate commerce candy so packed and assembled that sales to the public are to be made, or may be made, by means of a lottery scheme.

Findings are that the respondents distributed to wholesalers and jobbers certain assortments of candy together with pushcards. The Commission's order directs that the respondents discontinue supplying dealers with such pushcards, either with assortments of candy or separately, for use in the sale of candy to the purchasing public.

No. 3066. An order to cease and desist has been issued against Russell's Fifth Avenue, Inc., Fifth Avenue at Thirty-Sixth St., New York, directing discontinuance of certain unfair methods of competition in the sale of dress goods and garments. Such merchandise is not to be described as silk, according to the order, when not composed entirely of silk, and the word "satin" is not to be used, alone or with other words, to refer to the fabric of merchandise, dress goods or garments not made wholly from silk.

FTC CLOSES CASES

No. 3270. The Federal Trade Commission has closed its case against W. H. Charleston, who traded as Marajah & Co., and as Kala Products Co., at 5930 South Parkway, Chicago. The case was closed for the reason that the respondent is no longer engaged in the sale of cosmetics and medicinal preparations, and therefore has discontinued the practices alleged in the complaint which the Commission issued against him, and which alleged the use of unfair methods of competition. The case was closed without prejudice to the Commission's right to reopen it should circumstances warrant.

The Commission also dismissed its complaint against the Chilean Nitrate Sales Corporation and the Chilean Nitrate Educational Bureau, Inc., a subsidiary, New York corporations with offices at 120 Broadway, New York City.

The complaint was dismissed upon execution of a stipulation with the Commission by the respondent corporations.

FEDERAL COMMUNICATIONS COMMISSION ACTION

Hearing Calendar

The following broadcast hearings are scheduled at the Commission for the week beginning Monday, May 3:

Monday, May 3

HEARING BEFORE AN EXAMINER

(Broadcast)

NEW—J. Leslie Doss, Sarasota, Fla.—C. P., 1390 kc., 250 watts, daytime.
NEW—KLZ Broadcasting Co., Denver, Colo.—C. P., 1210 kc., 100 watts, 250 watts LS, unlimited.
WPEN—Wm. Penn Broadcasting Co., Philadelphia, Pa.—Modification of license, 920 kc., 1 KW, share WRAX day and night. Present assignment: 920 kc., 250 watts, 500 watts LS, share WRAX.
WPEN—Wm. Penn Broadcasting Co., Philadelphia, Pa.—Modification of license, 920 kc., 1 KW, share WRAX day and night. Present assignment: 920 kc., 250 watts, 500 watts LS, share WRAX.
WRAX—WRAX Broadcasting Co., Philadelphia, Pa.—Authority to transfer control of corporation to John Iraci; 920 kc., 250 watts, 500 watts LS, share WRAX.
WRAX—WRAX Broadcasting Co., Philadelphia, Pa.—Authority to transfer control of corporation to John Iraci; 920 kc., 250 watts, 500 watts LS, share WRAX.
WRAX—WRAX Broadcasting Co., Philadelphia, Pa.—Authority to transfer control of corporation to John Iraci; 920 kc., 250 watts, 500 watts LS, share WRAX.
**Tuesday, May 4**

**HEARING BEFORE AN EXAMINER (Broadcast)**

NEW—Clarence A. Berger and Saul S. Freeman, Coeur d'Alene, Idaho.—C. P., 1200 kc., 100 watts, daytime.

KGO—Wichita Falls Broadcasting Co., Wichita Falls, Tex.—Modification of C. P., 570 kc., 1 KW, 5 KW LS, unlimited time (directional antenna). Present assignment: 570 kc., 250 watts, 1 KW LS, unlimited time.

WSAJ—Grove City College, Grove City, Pa.—Renewal of license, 1310 kc., 100 watts, specified hours.

**Wednesday, May 5**

**HEARING BEFORE AN EXAMINER (Broadcast)**

WLB—University of Minnesota, Minneapolis, Minn.—C. P., 750 kc., 1 KW, 5 KW LS, S-WCAL (½ daytime). Present assignment: 1250 kc., 1 KW S.H.

WCAL—St. Olaf College, Northfield, Minn.—C. P., 760 kc., 1 KW, 5 KW LS, S-WLB (½ daytime). Present assignment: 1250 kc., 1 KW, 2½ KW LS, specified hours.

**Thursday, May 6**

**ORAL ARGUMENT BEFORE THE BROADCAST DIVISION**

Examiner's Report No. 1-336:

NEW—Fred J. Hart, Honolulu, T. H.—C. P., 600 kc., 250 watts, unlimited time.

Examiner's Report No. 1-360:

NEW—Central States Broadcasting Co., Council Bluffs, Iowa.—C. P., 1500 kc., 100 watts, unlimited time.

Examiner's Report No. 1-361:

WLLH—Merrimac Broadcasting Co., Inc., Lawrence, Mass.—Special experimental authority, 1370 kc., 10 to 100 watts, unlimited time, synchronously with WLLH. Present assignment: 1370 kc., 100 watts, 250 watts LS, unlimited time.

Examiner's Report No. 1-362:

NEW—Sioux City Broadcasting Co., Sioux City, Iowa.—C. P., 1310 kc., 100 watts, 250 watts LS, unlimited time.

NEW—C. W. Corkhill, Sioux City, Iowa.—C. P., 1420 kc., 100 watts, unlimited time.

**Friday, May 7**

**HEARING BEFORE AN EXAMINER (Broadcast)**

NEW—W. E. Whitmore, Hobbs, N. Mex.—C. P., 1500 kc., 100 watts, daytime.

**APPLICATIONS GRANTED**

KIDO—Frank L. Hill and C. C. Phillips, d/b as Boise Broadcast Station, Boise, Idaho.—Granted amended C. P. covering changes in equipment and increase in day power from 2½ to 5 KW.

WTMJ—The Journal Co. (The Milwaukee Journal), Milwaukee, Wis.—Granted C. P. to install new equipment.

KGCC—The Golden Gate Broadcasting Co. (Robert J. Craig), San Francisco, Calif.—Granted C. P. approving transmitter site and vertical radiator.

KAWM—A. W. Mills, Gallup, N. Mex.—Granted license to cover C. P. as modified, 1500 kc., 100 watts, unlimited time.

WCPA—Continental Radio Co., Cincinnati, Ohio.—Granted license to cover C. P., 1500 kc., 100 watts night, 250 watts day, unlimited time.

WCAX—Burlington Daily News, Inc., Burlington, Vt.—Granted license to cover C. P., 1200 kc., 100 watts night, 250 watts day, specified hours.

WTRA—Puerto Rico Advertising Co., Mayaguez, P. R.—Granted modification of C. P. covering authority to install apparatus other than that previously approved and extend commencement date to 30 days after grant and completion date to 90 days after grant.

WSAU—Northern Broadcasting Co., Inc., Wausau, Wis.—Granted authority to make changes in automatic frequency control equipment.

WWJ—The Evening News Assn., Inc., Detroit, Mich.—Granted extension of present license for a period of 1 month.

WSAN—WSAN, Inc., Allentown, Pa.—Granted renewal of license on a temporary basis, pending hearing on renewal application.

WCBA—B. Bryan Musselman, Allentown, Pa.—Granted renewal of license on a temporary basis, pending hearing on renewal application.

KDAL—Red River Broadcasting Co., Inc., Duluth, Minn.—Granted renewal of license on a temporary basis, pending hearing on renewal application.

WNBR—Memphis Broadcasting Co., Memphis, Tenn.—Granted extension of present license for a period of 1 month.

WTNJ—WOAX, Inc., Trenton, N. J.—Granted extension of present license for a period of 1 month.

KGBM—Honolulu Broadcasting Co., Ltd., Honolulu, T. H.—Granted renewal of license on a temporary basis and application for renewal set for hearing.

KHBC—Honolulu Broadcasting Co., Ltd., Hilo, T. H.—Granted renewal of license on a temporary basis and application for renewal set for hearing.

KXCJ—Honolulu Broadcasting Co., Ltd., Mobile, Ala.—Same, except experimental relay broadcast station.

KFDY—South Dakota State College, Brookings, S. Dak.—Granted special temporary authority to operate 8:45 to 9:45 p. m. CST, April 28, 1937, to broadcast debate between South Dakota State College and Yankton College.

**SET FOR HEARING**

NEW—Continental Radio Company, Denver, Colo.—Application for C. P. for new station to operate on 620 kc., 500 watts night, 1 KW day, unlimited time, exact transmitter and studio sites to be determined with Commission's approval.

NEW—Floyd A. Parton, San Jose, Calif.—Application for C. P. for new station to operate on 1150 kc., 250 watts day, only, exact transmitter site to be determined with Commission's approval.

NEW—William F. Maag, Jr., Youngstown, Ohio.—Application for C. P. for new station to operate on 1420 kc., 100 watts, daytime only, exact transmitter and studio sites and type of antenna to be determined with Commission's approval.

NEW—M. Havens & Martin, Inc., Petersburg, Va.—Application for C. P. for new broadcast station to operate on 1210 kc., 100 watts night, 250 watts day, specified hours as follows: unlimited, except Sundays, 10:30 a.m. to 1:30 p.m.; 5:30 to 9:30 p.m., EST; transmitter and studio sites to be approved. (Applicant requests facilities of WMBG when that station changes frequency from 1210 kc. to 1350 kc.)

NEW—Arthur Lucas, Savannah, Ga.—Application for C. P. for new station to operate on 1240 kc., 100 watts night-day, unlimited time, exact transmitter and studio sites and type of antenna to be determined subject to Commission approval.

NEW—The Hampden-Hampshire Corp., Holyoke, Mass.—Application for C. P. for new station to operate on 1310 kc., 100 watts night-day, 1 KW unlimited time, using directional antenna system for both day and night-time operation.

NEW—E. B. McChristy, Brownwood, Tex.—Application for C. P. for new station to operate on 630 kc., 250 watts day, exact transmitter and studio sites to be determined subject to Commission approval.
NEW—Utica WUTK, Inc., Utica, Oneida Co., N. Y.—Application for C. P. for new station to operate on 1420 kc., 100 watts, unlimited time, exact transmitter site to be determined with Commission's approval.

KATE—Albert Lea Broadcasting Corp., Albert Lea, Minn.—Application for modification of C. P. for change in studio location locally; install new equipment; change frequency from 1200 kc. to 1420 kc.; increase power from 100 watts to 250 watts, dateline only.

WHKC—Associated Broadcasting Corp., Columbus, Ohio.—Application for renewal of license on a temporary basis only for the period May 1, 1937, to May 1, 1938, in exact conformity with existing license.

NEW—Utica WUTK, Inc., Utica, Oneida Co., N. Y.—Application for C. P. for new station to operate on 1420 kc., 100 watts, unlimited time, exact transmitter site to be determined with Commission's approval.

KATE—Albert Lea Broadcasting Corp., Albert Lea, Minn.—Application for modification of C. P. for change in studio location locally; install new equipment; change frequency from 1200 kc. to 1420 kc.; increase power from 100 watts to 250 watts, dateline only.

WHKC—Associated Broadcasting Corp., Columbus, Ohio.—Application for renewal of license on a temporary basis only for the period May 1, 1937, to May 1, 1938, in exact conformity with existing license.

KATE—Albert Lea Broadcasting Corp., Albert Lea, Minn.—Application for modification of C. P. for change in studio location locally; install new equipment; change frequency from 1200 kc. to 1420 kc.; increase power from 100 watts to 250 watts, dateline only.

WHKC—Associated Broadcasting Corp., Columbus, Ohio.—Application for renewal of license on a temporary basis only for the period May 1, 1937, to May 1, 1938, in exact conformity with existing license.

KATE—Albert Lea Broadcasting Corp., Albert Lea, Minn.—Application for modification of C. P. for change in studio location locally; install new equipment; change frequency from 1200 kc. to 1420 kc.; increase power from 100 watts to 250 watts, dateline only.

WHKC—Associated Broadcasting Corp., Columbus, Ohio.—Application for renewal of license on a temporary basis only for the period May 1, 1937, to May 1, 1938, in exact conformity with existing license.

KATE—Albert Lea Broadcasting Corp., Albert Lea, Minn.—Application for modification of C. P. for change in studio location locally; install new equipment; change frequency from 1200 kc. to 1420 kc.; increase power from 100 watts to 250 watts, dateline only.

WHKC—Associated Broadcasting Corp., Columbus, Ohio.—Application for renewal of license on a temporary basis only for the period May 1, 1937, to May 1, 1938, in exact conformity with existing license.

KATE—Albert Lea Broadcasting Corp., Albert Lea, Minn.—Application for modification of C. P. for change in studio location locally; install new equipment; change frequency from 1200 kc. to 1420 kc.; increase power from 100 watts to 250 watts, dateline only.

WHKC—Associated Broadcasting Corp., Columbus, Ohio.—Application for renewal of license on a temporary basis only for the period May 1, 1937, to May 1, 1938, in exact conformity with existing license.

KATE—Albert Lea Broadcasting Corp., Albert Lea, Minn.—Application for modification of C. P. for change in studio location locally; install new equipment; change frequency from 1200 kc. to 1420 kc.; increase power from 100 watts to 250 watts, dateline only.

WHKC—Associated Broadcasting Corp., Columbus, Ohio.—Application for renewal of license on a temporary basis only for the period May 1, 1937, to May 1, 1938, in exact conformity with existing license.

KATE—Albert Lea Broadcasting Corp., Albert Lea, Minn.—Application for modification of C. P. for change in studio location locally; install new equipment; change frequency from 1200 kc. to 1420 kc.; increase power from 100 watts to 250 watts, dateline only.

WHKC—Associated Broadcasting Corp., Columbus, Ohio.—Application for renewal of license on a temporary basis only for the period May 1, 1937, to May 1, 1938, in exact conformity with existing license.

KATE—Albert Lea Broadcasting Corp., Albert Lea, Minn.—Application for modification of C. P. for change in studio location locally; install new equipment; change frequency from 1200 kc. to 1420 kc.; increase power from 100 watts to 250 watts, dateline only.

WHKC—Associated Broadcasting Corp., Columbus, Ohio.—Application for renewal of license on a temporary basis only for the period May 1, 1937, to May 1, 1938, in exact conformity with existing license.

KATE—Albert Lea Broadcasting Corp., Albert Lea, Minn.—Application for modification of C. P. for change in studio location locally; install new equipment; change frequency from 1200 kc. to 1420 kc.; increase power from 100 watts to 250 watts, dateline only.

WHKC—Associated Broadcasting Corp., Columbus, Ohio.—Application for renewal of license on a temporary basis only for the period May 1, 1937, to May 1, 1938, in exact conformity with existing license.

KATE—Albert Lea Broadcasting Corp., Albert Lea, Minn.—Application for modification of C. P. for change in studio location locally; install new equipment; change frequency from 1200 kc. to 1420 kc.; increase power from 100 watts to 250 watts, dateline only.

WHKC—Associated Broadcasting Corp., Columbus, Ohio.—Application for renewal of license on a temporary basis only for the period May 1, 1937, to May 1, 1938, in exact conformity with existing license.

KATE—Albert Lea Broadcasting Corp., Albert Lea, Minn.—Application for modification of C. P. for change in studio location locally; install new equipment; change frequency from 1200 kc. to 1420 kc.; increase power from 100 watts to 250 watts, dateline only.

WHKC—Associated Broadcasting Corp., Columbus, Ohio.—Application for renewal of license on a temporary basis only for the period May 1, 1937, to May 1, 1938, in exact conformity with existing license.

KATE—Albert Lea Broadcasting Corp., Albert Lea, Minn.—Application for modification of C. P. for change in studio location locally; install new equipment; change frequency from 1200 kc. to 1420 kc.; increase power from 100 watts to 250 watts, dateline only.

WHKC—Associated Broadcasting Corp., Columbus, Ohio.—Application for renewal of license on a temporary basis only for the period May 1, 1937, to May 1, 1938, in exact conformity with existing license.
EXAMINERS' REPORTS RELEASED SINCE APRIL 20, 1937

WMEX—Ex. Rep. 1-392: The Northern Corporation, Boston, Mass.—Examiner John P. Bramhall recommended grant of application for C. P. to change frequency from 1500 kc. to 1470 kc., and power from 100 watts, 250 watts LS, to 5 KW. 1570 kc., 1 KW, unlimited.

WFLA-WSUN—Clearwater Chamber of Commerce and St. Petersburg Chamber of Commerce, Clearwater, Fla.—Granted special temporary authority to rebroadcast over radio station WFLA-WSUN, Clearwater, Fla., for period not to exceed 30 days.

WKBW—The Gable Broadcasting Co. (Lessee), Altoona, Pa.—Granted special temporary authority to operate new WE 100-watt test transmitter on 1290 kc., for period not to exceed 30 days, pending receipt and action on application for C. P.

KDDY—Intermountain Broadcasting Corp., Salt Lake City, Utah.—Granted special temporary authority to operate a 100 watt portable test transmitter on 1290 kc., between the hours of 1 and 5 a.m., MST, for the period ending in no event later than May 10, in order to conduct location survey.

KRMJ—Roberts-MacNab Co., Jamestown, N. Dak.—Granted special temporary authority to rebroadcast over radio station WFLA-WSUN, Clearwater, Fla., for purpose of sending aboard the Yacht IORANO for a period not to exceed 30 days.

WKAR—Ex. Rep. 1-393: Arkansas Radio & Equipment Co., Little Rock, Ark.—Examiner Bramhall recommended grant of modification of C. P. to change power from 500 watts, 1 KW LS, to 1 KW, unlimited.

NEW—Mid-Atlantic Corp., Washington, D. C.—Examiner H. W. Sward recommended denial of application for C. P. for new station to operate on 1370 kc., 100 watts, daytime.

NEW—Ex. Rep. 1-396: F. M. Gleason, d/b as North Georgia Broadcasting Co., Rossville, Ga.—Examiner P. W. Seward recommended denial of application for C. P. for new station to operate on 1320 kc., 100 watts, daytime.

NEW—Ex. Rep. 1-398: Stanley Reid and Chas. Withnell Boegel, Jr., d/b as The Rapids Broadcasting Co., Cedar Rapids, Iowa.—Examiner Geo. H. Hill recommended grant of application for C. P. for new station to operate on 1310 kc., 100 watts, unlimited time.

APPLICATION DENIED

NEW—Scott M. Matheson, d/b as Provo Broadcast Co., Provo, Utah.—Denied as in cases of default for failure to file an appearance in accordance with Rule 104.6(c) application for C. P. for 1210 kc., 100 watts, 100 watts LS, unlimited time.

APPLICATION RETIRED TO FILES

WLBI—State of Wisconsin, Wisconsin Department of Agriculture and Markets, Stevens Point, Wis.—Application for 800 kc., 5 KW LS, specified hours, retired to files, inasmuch as a succeeding application to move transmitter, install new equipment and antenna, increase power to 5 KW, and change hours of operation from specified to daytime only, was granted without a hearing on September 22, 1936.

MISCELLANEOUS

KUJ—KUJ, Inc., Walla Walla, Wash.—Denied petition asking Commission to reconsider action denying application in Docket No. 3187, and to remand application to docket section for further hearing.

This is in application for modification of license to install new equipment, move transmitter locally, change frequency from 1370 kc. to 1250 kc., and to increase power from 100 watts, unlimited, to 250 watts, unlimited.
WSOC—WSOC, Inc., Charlotte, N. C.—Denied petition to intervene in hearing on application of Carolina Radio, Inc., for C. P. to erect new broadcast station at Charlotte, N. C., to operate on 880 kc., 500 watts night, 1 KW LS, unlimited time (Docket 4488).

Columbia Radio Co., Inc., Columbia, S. C.—Granted petition for continuance of hearing on application of Carolina Advertising Corp. Hearing scheduled for May 10, 1937, now fixed for May 24, 1937. This application by Carolina Advertising Corp. is for C. P. to erect new broadcast station at Columbia, S. C., to operate on 1370 kc., 100 watts night, 250 watts day, unlimited time.

NEW—Capitol Broadcasting Co., Inc., Raleigh, N. C.—Denied petition asking Commission to reconsider its action of April 9, 1937, in designating for hearing application for new broadcast station at Raleigh, N. C., to operate on 1210 kc., 250 watts, daytime only, and to grant the same without hearing.

KHUB—F. W. Atkinson, Licensee, Watsonville, Calif.—Granted further extension for 60 days of temporary authority to Anna Atkinson, widow of F. W. Atkinson, who died April 3, 1937, to operate station pending filing of formal application looking toward transfer of license to the widow, sole beneficiary under will.

Robert Raymond McCulla, Oak Park, Ill.—Granted petition asking Commission to continue for 30 days hearing upon application for C. P. to authorize establishment of new broadcast station at Oak Park, Ill., upon frequency 1500 kc., 100 watts, daytime (Docket No. 3647).

WSPR—Quincy A. Brackett et al., d/b as Connecticut Valley Broadcasting Co., Springfield, Mass.—Granted petition to intervene in hearing of application of Westinghouse Electric & Manufacturing Co. (licensee WBZA, Springfield), for C. P. specifying 550 kc., 1 KW, unlimited time (Docket 4120).

WHDH—Matheson Radio Co., Inc., Boston, Mass.—Granted petition to intervene in proceedings upon application of Radio Broadcasting Service Organization, Inc. (WORL), Boston, for C. P. specifying the operating assignment of 920 kc., 1 KW, unlimited time (Docket 4206).

WOAI—Southland Industries, Inc., San Antonio, Tex., and Columbia Broadcasting System.—Granted 60-day postponement of oral argument (now scheduled for April 29) upon pending application for consent to transfer control of WOAI to the Columbia Broadcasting System.

WSAU—Northern Broadcasting Co., Inc., Wausau, Wis.—Hearing on application for modification of C. P. reopened. Further hearing is to determine stock ownership of applicant corporation.

**EFFECTIVE DATES EXTENDED**

NEW—Americus Broadcast Corp., Albany, Ga.—Effective date of order extended to May 4, 1937.

WEMP—Milwaukee Broadcasting Co., Milwaukee, Wis.—Effective date of order extended to May 11, 1937.

**RATIFICATIONS**

The Division ratified the following acts authorized on the dates looking toward transfer of license to the widow, sole beneficiary under will.

December, 1936, inasmuch as WILL has been authorized to commence program tests on 520 kc., effective 4/19.

KUSD—University of South Dakota, Vermillion, S. D.—Granted authority commence operation under terms of license granted July 22, 1936, in accordance with revised time sharing agreement submitted by KFNF in December, 1936, inasmuch as WILL has been authorized to commence program tests on 580 kc., effective April 19.

WSBC—WSBC, Inc., Chicago, Ill.—Granted special temporary authority to use the facilities of WEDC beginning 6 a. m., CST, April 20, and ending no later than April 29, 1937, during equipment tests.

KSRO—Press Democrat Publishing Co., Santa Rosa, Calif.—Granted special temporary authority to operate a 100-watt test transmitter between 12 midnight and 6 a. m., PST, for period April 25 to May 4, in order to make field intensity survey tests.

WSVS—Elsie S. Pierce, Principal, Seneca Vocational High School, Buhlao, N. Y.—Granted special temporary authority to operate from 8:30 to 10 a. m. and from 2 to 3 p. m., EDST, instead of EST, from April 25 to June 30, 1937, provided WBNS remains silent.

Granted petition of WRBL Radio Station, Inc., to intervene in proceedings upon application of John C. Hughes for C. P. to erect new station at Phenix City, Ala., and denied petition of WRBL Radio Station, Inc., to postpone the hearing upon the application until April 15, 1937, as it might be heard simultaneously with the application of the petitioner.

Granted petition of WIFTC, Inc., to intervene in proceedings upon application of Robert Raymond McCulla for C. P. for new broadcast station at Oak Park, Ill. (Docket 3647).

The Broadcast Division approved a letter to be sent to the licensees of all stations under the jurisdiction of the Broadcast Division requesting the submission immediately to the Commission properly certified copies of all contracts entered into since July 15, 1934 (not previously furnished), which may in anywise affect control of the station.

**ACTION ON EXAMINERS' REPORTS**

WKZO—Ex. Rep. 1-306: WKZO, Inc., Kalamazoo, Mich.—Granted C. P. to move transmitter from Nichol's Road, west of Kalamazoo, to (site to be determined, subject to Commission's approval), Kalamazoo Twp.; make changes in equipment; change power from 1 KW day to 250 watts night, 1 KW day; and change hours of operation from daytime to unlimited; 590 kc. Examiner Geo. H. Hill sustained. Order effective June 8, 1937.

WGBI—Ex. Rep. 1-342: Scranton Broadcasters, Inc., Scranton, Pa.—Granted application for modification of license to increase power from 500 watts to 500 watts night, 1 KW day, 800 kc., share with WQAN, Examiner John P. Bramshall sustained. Order effective May 24, 1937.

KALB—Ex. Rep. 1-348: Alexandria Broadcasting Co., Inc., Alexandria, La.—Granted modification of license to change frequency from 1430 kc. to 1210 kc.; increase power from 100 watts day to 100 watts day and night; change hours of operation from daytime to unlimited; Examiner John P. Bramshall sustained. Order effective June 15, 1937.

**ORAL ARGUMENT**

NEW—Lawrence K. Miller, Pittsfield, Mass.—Granted oral argument to be held May 27, 1937.

**APPLICATIONS RECEIVED**

First Zone

WORL—Broadcasting Service Organization, Inc., Boston, Mass.—Granted petition to the Commission for special extension to change power from 1 KW day to 1 KW LS, unlimited time (Docket 4488).

2072

WTNJ—WOAX, Inc., Trenton, N. J.—Construction permit to install a new transmitter.

WQXR—Interstate Broadcasting Co., Inc., New York, N. Y.—Construction permit for a new experimental broadcast station (on board U. S. S. Avocet) to be operated on 6425, 8655, 12862.5, 17310 kc., 1000 watts. Amended to change class of service from relay to experimental broadcast.

NEW—National Broadcasting Co., Inc., vicinity of Canton and Enderbury Islands.—License to cover above.

Second Zone

WQAN—The Scranton Times (copartnership), E. J. Lynett, Wm. 880 R. Lynett, Elizabeth R. Lynett and Edward J. Lynett, Scranton, Pa.—Modification of license to use WGBI's transmitter as WQAN's main transmitter and increase power from 250 to 500 watts.

WGBI—Scranton Broadcasters, Inc., Scranton, Pa.—License to use the present transmitter of WQAN as an auxiliary transmitter for WGBI. Contingent upon the granting of application for modification of license to use WGBI's transmitter as WQAN's main transmitter and increase power.

WQAN—The Scranton Times (copartnership), E. J. Lynett, Wm. 880 R. Lynett, Elizabeth R. Lynett and Edward J. Lynett, Jr., Scranton, Pa.—License to use present main transmitter as an auxiliary transmitter. Contingent upon the granting of application to use WGBI's transmitter as WQAN's main transmitter and increase power.

KYW—Westinghouse Electric & Manufacturing Co., Philadelphia, Pa.—Construction permit to make changes in equipment and increase power from 10 KW to 50 KW. Amended to make changes in directional antenna.

WKOK—Sunbury Broadcasting Corp., Sunbury, Pa.—Modification of license to change hours of operation from specified hours to unlimited time.

WBLY—Herbert Lee Blye, Lima, Ohio.—Construction permit to make changes in transmitter and increase power from 100 watts to 250 watts.

WBLK—The Exponent Co., Clarksburg, W. Va.—License to cover construction permit for a new high frequency broadcast station (B2-P-1127) as modified, for a new station, requesting approval of studio site at Robinson Grand Theatre Bldg., 444½ W. Pike Street, Clarksburg, W. Va.

NEW—Richland Broadcasting Co., Mansfield, Ohio.—Construction permit for a new station to be operated on 1370 kc., 100 watts, daytime. Amended to change name from Frazier Reams to Richland Broadcasting Co.

WSMK—WSMK, Inc., Dayton, Ohio.—Construction permit to install a new transmitter; increase power from 200 watts to 250 watts night, 500 watts day; change hours of operation from simultaneous day, specified hours night, to unlimited time; move transmitter from near Dayton, Ohio, to Montgomery County, Ohio; and install directional antenna for night use. Amended to make changes in directional antenna for night use.

Third Zone

KGKO—Wichita Falls Broadcasting Co., Wichita Falls, Texas.—License to cover construction permit (B3-P-1715) for a new transmitter.

KTUL—Tulsa Broadcasting Co., Inc., Tulsa, Okla.—Construction permit to install a new transmitter, erect a directional antenna for night use, increase power from 500 watts, 1 KW day to 1 KW night, 5 KW day and move transmitter from 39th & Newport Streets, Tulsa, Oklahoma to 6 mi. North of Tulsa, 1½ mi. E. of Turley, Oklahoma.

NEW—A. L. Bearid, Jasper, Ala.—Construction permit for a new station to be operated on 1500 kc., 100 watts, unlimited time.

WKEU—Radio Station WKEU—Griffin, Ga.—Authority to install 1500 automatic frequency control.

NEW—United Broadcasting Co., Tulsa, Okla.—Construction permit for a new special broadcast station to be operated on 1530 kc., 1 KW, unlimited time.

Fourth Zone

NEW—Southern Minnesota Broadcasting Co., Rochester, Minn.—Construction permit for a new broadcast station to be operated on 920 kc., 1 KW night, 5 KW day, unlimited time. To use directional antenna at night. Amended: To make changes in transmitter.

WEAU—Central Broadcasting Co., Eau Claire, Wis.—License to cover construction permit (B4-P-736) as modified, for a new station.

WCBD—WCBD, Incorporated, Chicago, Ill.—Construction permit to install a new transmitter and vertical antenna, and move transmitter from Temple Site, Zion, Illinois to Church Road, Addison Township, Illinois.

NEW—John P. Harris, Hutchinson, Kans.—Construction permit for a new station to be operated on 1200 kc., 100 watts, 250 watts day, unlimited time.

NEW—Decatur Newspapers, Inc., Decatur, Ill.—Construction permit for a new special broadcast station to be operated on 1550 kc., 1 KW, unlimited time.

NEW—Minnesota Broadcast Corp., Minneapolis, Minn.—Construction permit for a new high frequency broadcast station to be operated on 26100 kc., 150 watts. Amended: To delete 26100 kc. and add 26050 kc.

Fifth Zone

None.

Alaskan Zone

KFQD—Anchorage Radio Club, Inc., Anchorage, Alaska—Authority to transfer control of corporation from J. P. Hannon to R. E. McDonald, 166 shares Common Stock.
BUCHAREST DELEGATES NAMED

The State Department has announced that the President has approved the designation of the following delegation to represent the American government in the fourth meeting of the International Radio Consulting Committee, which will be held at Bucharest, Rumania, commencing May 21.

Delegates:

Dr. J. H. Dellinger, Chairman,
Bureau of Standards,
Department of Commerce.

Captain Stanford C. Hooper,
Vice Chairman,
United States Navy.

Lieutenant Colonel D. M. Crawford,
United States Army.

Mr. E. K. Jett,
Federal Communications Commission.

Mr. Gerald C. Gross,
Federal Communications Commission.

Mr. Francis Colt de Wolf,
Treaty Division,
Department of State.

Technical Adviser:

Colonel J. Carroll Cone,
Department of Commerce.

Secretary:

William Walter Schott,
American Legation,
Budapest, Hungary.

McNARY TO REPRESENT NAB

James C. McNary, consulting radio engineer, will represent the National Association of Broadcasters at the fourth meeting of the International Radio Consulting Committee to begin May 21 at Bucharest, Rumania.

PLEASE RETURN DELEGATE CARDS

Members are urged to return promptly the cards furnished to them indicating the names of the delegate and alternate designated to represent the station at the NAB Convention in Chicago, June 20-23, 1937.

BROADCAST ADVERTISING BILL

Representative Martin, of Massachusetts, has introduced a bill in the House (H. R. 4960) to regulate advertising of imported articles. The bill has been referred to the House Committee on Interstate and Foreign Commerce. Section 3 is devoted to broadcast advertising and is as follows:

"Sec. 3. In radio broadcasting where commercial broadcasting is used in the promotion of and to advertise for sale in the United States any imported article or material, a broadcasting announcer shall, at the beginning and end of each broadcast period, clearly state the name of the country of origin of the article or material advertised."

J. J. MOORE—NATIONAL FEATURE SERVICE COMPANY

Quincy A. Brackett, Radio Station WSPR, Springfield, Mass., is anxious to learn the whereabouts of one J. J. Moore and one M. V. Watson, recently operating as the National Feature Service Company of Indianapolis, Indiana. Mr. Brackett requests that members notify him immediately should they be able to assist him in locating Moore or Watson.

UNEMPLOYMENT INSURANCE

The Pennsylvania Unemployment Compensation Division in an official analysis of the State Unemployment Compensation Law stated in question and answer form as follows:

"Q. Hotels, restaurants, and clubs frequently engage the services of orchestras, entertainers and other artistic talent. Are they considered the employers of such talent?"

"A. If the hotel, restaurant or club directs and controls the activity of the entertainers, in addition to paying their salaries, they are the employers. If the hotel, restaurant or club enters into a contract with a director or agent of the entertainers and if the latter controls and pays the entertainers, then the director or agent is the employer."

(See Prentis-Hall Labor and Unemployment Insurance Service, p. 29,537 (.031); Page Pa. 29,519, 4-28-37.)

SECURITIES ACT REGISTRATIONS

The following companies have filed registration statements with the Securities and Exchange Commission under the Securities Act:

- Michigan Bumper Corporation, Grand Rapids, Mich. (2-2534, Form A-1)
- Ray Airconditioning Corp., New York City. (2-2642, Form A-1)
- Mexican Quicksilver Company, Wilmington, Del. (2-3073, Form A-1)
- Herman Hanson Oil Syndicate, Turtle Lake, N. Dak. (2-3074, Form A-2)
- U. S. Realty & Improvement Co., New York City. (2-3075, Form A-2)
- Strouss-Hirshberg Company, Youngstown, Ohio. (2-3076, Form A-2)
- Shelker Manufacturing Corp., Portland, Ind. (2-3077, Form A-2)
- Gardner Aircraft, Inc., Wilmington, Del. (2-3077, Form A-1)
- Interstate Department Stores, Inc., New York City. (2-3080, Form A-2)
- Naybob Gold Mines, Ltd., Toronto, Canada. (2-3032, Form A-1)
- Boulder Dam Hotel Corp., San Diego, Calif. (2-3083, Form A-1)

- Inland Steel Company, Chicago, Ill. (2-3096, Form A-2)
- Central Ohio Light & Power Co., Findlay, Ohio. (2-3097, Form A-2)
- Professional Insurance Corp., Jacksonville, Fla. (2-3098, Form A-1)
- C. A. Antrim et al., St. Louis, Mo. (2-3099, Form F-1)

RECOMMENDS POWER INCREASE FOR WJAR

Broadcasting station WJAR, Providence, R. I., applied to the Federal Communications Commission to increase its daytime power from 1,000 to 5,000 watts. The station now operates full time on 890 kilocycles.

Examiner Ralph L. Walker in Report No. I-404 recommended that the application be granted. He states that the record disclosed the need for additional service in the area proposed to be served. Also the increased power will not cause interference with any existing stations, and it would be in the public interest.

CHANGES RECOMMENDED FOR KDON

Broadcasting station KDON, Del Monte, Cal., applied to the Federal Communications Commission to change its frequency from 1210 to 1400 kilocycles, and to increase its power from 100 watts to 250 watts and 1,000 watts LS. It operates unlimited time. Also the Salinas Newspapers Inc., of Salinas, Cal., applied to the Commission for a construction permit for the erection of a new station at that place to use 1390 kilocycles, 250 watts and daytime operation.

Examiner P. W. Seward in Report No. I-405 recommended that the KDON application be granted and that the other application be denied. The Examiner found that only one of these applications could be granted. He states that the present station is rendering a superior service and considered that in the public interest its application should be granted.

RECOMMENDS ASSIGNMENT FOR KFXR

Broadcasting station KFXR, Oklahoma City, Okla., applied to the Federal Communications Commission for a license renewal and the station and the Plaza Court Broadcasting Company applied to the Commission for consent to assignment of the station license to the latter named company. The station uses 1310 kilocycles, 100 watts and 250 watts LS and unlimited time on the air.

Examiner Robert L. Irwin in Report No. I-402 recommended that both applications be granted. He found that the granting of the application would be in the public interest.
BROADCAST ADVERTISING IN MARCH

HIGHLIGHTS OF THE MONTH

Total broadcast advertising in March amounted to $11,628,154, an increase of 14.2% over the February level and a gain of 24.6% over the level of last March. Gross time sales for the month were the greatest in history, being slightly greater than the total recorded for last October. Advertising in all portions of the medium increased in volume as compared to last month, with national non-network business registering the greatest gain. Total broadcast advertising for the first three months of 1937 amounted to $32,180,035, a gain of 26.1% as compared to the corresponding period of 1936. Radio broadcast advertising seems to be headed for another record-breaking year.

Although advertising in national magazines and newspapers increased to a greater extent than radio as compared to last month, radio broadcasting continued to show the greatest increase in advertising volume as compared to corresponding periods of last year. Whereas radio showed a gain of 24.6% in volume over last March, national magazine volume increased 15.6%, national farm paper volume 7.1%, and newspaper volume 4.1%.

Continuing the seasonal trend, non-network advertising increased 18.5% over February and 35.6% over last March. Although all sizes of stations registered substantial gains, the greatest increase occurred in the regional station group. Advertising in this group rose 23.5% over February. The New England-Middle Atlantic Area led all geographical districts in increased volume, both as compared to last month and as to March 1936.

Transcription volume showed the greatest gain of any type of rendition as compared to last month, rising 31.2%. As against last March, announcements showed the greatest increase but was seconded by transcriptions. Transcriptions in the national non-network field and announcements in the local field experienced the most important increases over February. All types of rendition in the local field, with the exception of records, were ahead of last March levels.

The principal gains over last month among the sponsor groups were as follows: national network household equipment and soap and kitchen supply, regional network drug and household equipment, national non-network automotive and local tobacco and confectionery advertising. Compared to last March, national network radio set and household equipment, regional network clothing and financial, national non-network beverage, soap and kitchen supply and tobacco, and local confectionery and tobacco advertising registered the principal gains. Total retail broadcast advertising increased 21.0% over last month and 20.8% over March 1936.

TOTAL BROADCAST ADVERTISING

Total broadcast advertising for the month of March is found in Table I.

Total broadcast advertising for the month increased 14.2% over the level of February, with all portions of the medium registering gains. National non-network business increased to the greatest extent, rising 20.6%. Local business increased 15.6%, national network volume 11.0% and regional network volume 5.7%.

Compared to the corresponding month of last year, broadcast advertising showed an increase of 24.6% in volume. National non-network business also showed the greatest gain when compared to last March, increasing 44.8%. Local volume rose 24.5% and national network volume 17.4%. Regional network business declined 9.4%.

COMPARISON WITH OTHER MEDIA

Advertising in national magazines showed the greatest gain of any major medium as compared to last month, rising 22.9%. However, newspaper advertising recorded a gain of 22.3%. Farm paper volume declined 1.0% as compared to February.

Continuing the trend of the last two months, radio broadcasting showed the greatest gain in advertising volume of any major medium as compared to the corresponding month of last year. Compared to the 24.6% gain for radio over last March, national magazine volume increased 15.6%, national farm paper volume 7.1% and newspaper volume 4.1%.

Advertising volume by major media is shown in Table II.

NON-NETWORK ADVERTISING

Total non-network broadcast advertising showed an 18.5% gain in volume as compared to February and a 35.6% increase compared to March of 1936. Regional station volume showed the greatest increase both as compared to February of the current year and March 1936. Advertising over clear channel and high-powered regional stations increased 13.1% over February. Regional station volume increased 23.5% and local station volume 20.9%. As compared to March 1936, clear channel and high-powered regional station volume rose 22.7%, regional station volume 54.7% and local station volume 25.2%.

Broadcast advertising by power of station is found in Table III.

SPONSOR TRENDS IN MARCH

With the exception of beverage, confectionery and miscellaneous advertising, all sponsor groups showed gains in the national network field as compared to last month. Gains were general, with the greatest increases being recorded in the household equipment, soap and kitchen supply, accessory, tobacco and cosmetic sponsor groups. In the regional network field, household equipment and
miscellaneous advertising doubled, while drug and tobacco advertising also enjoyed substantial gains. Accessory and cosmetic advertising declined materially. Automotive advertising nearly tripled in the national non-network field and clothing, beverage and household equipment advertising increased materially. In the local field, clothing, confectionery and tobacco advertising increased in volume to the greatest extent. Only amusement and drug volume showed a decrease in the local field.

Household equipment, soap and kitchen supply, financial, radio set and automotive advertising showed the most substantial gains in the national network field as compared to last March. Work business declined 12.3% and local advertising 7.8%. As against March of 1936, national network volume rose 31.7% and regional network volume more than doubled.

Broadcast advertising during March by major product and sponsor groups is shown in Table VI.

Details as to trends in the various fields of sponsorship are as follows:

1a. **Amusements.** National non-network volume down 62.1% and local business 8.7% as compared to February. National non-network volume 82.8% lower than during March 1936. Local business rose 6.4% over last March.

1. **Automotive.** Compared to February, gains as follows: national network 10.2%, local 21.1%, and national non-network almost three times as great. Compared to last March, national network volume rose 41.8%, while national non-network and local advertising remained approximately the same.

2. **Gasoline and accessories.** As against last month, national network volume up 16.7%, national non-network business 14.9%, and local advertising 9.5%. Regional network volume declined 42.5%. National network and national non-network increased 8.1% and 6.5%, respectively, as compared to last March, while regional network and local advertising declined 16.5% and 22.4%, respectively.

3. **Clothing.** Gains over February as follows: national networks 3.9%, regional networks 3.8%, national non-network 41.2%, and local 34.2%. Compared to March of the preceding year, national network volume declined 40.5%, while national non-network and local advertising rose 18.1% and 22.0%, respectively, and regional network volume more than doubled.

4. **Drugs and pharmaceuticals.** National network volume up 3.6% and regional network volume 54.2% as compared to February. National non-network business declined 13.2% and local advertising 7.8%. As against March 1936, national network volume rose 31.7% and regional network volume 5.3%, while national non-network business declined 12.3% and local advertising 24.4%.

5. **Toilet goods.** National network volume up 16.1% as compared to February. National non-network volume increased 17.4% and local advertising remained the same. Regional network volume declined 76.9%. Compared to last March, national network volume increased 0.8%, national non-network business 28.3%, and local advertising remained the same. Regional network volume declined 50.4%.
6. **Foodstuffs.** Gains over February as follows: national networks 11.3%, regional networks 4.8%, national non-network 23.1%, and local 18.7%. Gains as compared to March of the preceding year as follows: national networks 27.3%, regional networks 8.6%, national non-network 70.0%, and local 44.1%.

7. **Beverages.** National network volume dropped 9.7% as compared to February and regional network volume declined 21.9%. National non-network volume increased 48.4% and local advertising rose 14.5%. Compared to last March, national network volume declined 14.1%, while regional network volume increased 9.1%, local advertising increased 40.1%, and national non-network volume tripled.

8. **Confectionery.** Compared to February, national network volume declined 5.4%, regional network volume 20.9%, and national non-network business 9.9%. Local advertising increased 52.9%. As against last March, national network volume declined 1.2%, regional network volume 67.2%, and national non-network business 3.3%. Local advertising tripled in volume.

9. **Household equipment.** As against February, national network volume increased 37.4%, national non-network business 64.0%, and local advertising 14.6%. Regional network volume doubled. National network volume three times as great as during March 1936. Regional network volume declined 50.4% and national non-network and local advertising increased 44.8% and 8.3%, respectively.

10. **Soap and kitchen supplies.** Gains compared to February as follows: national networks 26.8%, regional networks 23.0%, national non-network 13.7%, and local 3.1%. Compared to March 1936, national network volume increased 61.3% and national non-network business more than tripled. Regional network business declined materially, while local advertising dropped 20.2%.

11. **Insurance and financial.** As against February, national network volume increased 10.5%, regional network volume 21.0%, and local advertising 14.9%. National non-network volume declined 14.9%. National network volume 43.2% ahead of last March. Regional network volume increased four times and local advertising remained the same. National non-network volume declined 29.8%.

12. **Radio.** National network advertising 3.4% ahead of February. Local advertising increased 12.2%, while national non-network advertising dropped 14.6%. National network volume doubled as compared to March of 1936, while national non-network advertising declined 53.2%. Local advertising increased 17.5%.

13. **Department and general stores.** Compared to February, national non-network advertising increased 21.2% and local advertising 19.8%. As against last March, national non-network advertising rose 39.9% and local business 44.5%.

14. **Tobacco products.** Gains over February as follows: national networks 16.8%, regional networks 33.3%, national non-network 30.1%, and local 70.7%. Compared to last March, national network volume increased 34.0% and regional network volume 42.8%. National non-network volume more than tripled, while local advertising doubled in amount.

15. **Miscellaneous.** Whereas national network volume declined 8.6% as compared to February, regional network volume doubled, national non-network business increased 21.3%, and local advertising rose 11.0%. Compared to last March, national network volume dropped 51.6% and regional network volume 8.4%. National non-network volume rose 93.0% and local advertising 41.4%.

**RETAIL BROADCAST ADVERTISING**

Total retail broadcast advertising increased 21.0% as compared to the preceding month and exceeded the level of March of 1936 by 20.8%. Compared to February, the principal gains occurred in the clothing, drug, grocery store, restaurant, household equipment, hardware and department store advertising groups. Beauty parlor, furniture store and radio set advertising declined. As against last March, principal gains were recorded in the drug, restaurant, beverage, confectionery, household equipment, hardware store and department store advertising fields. Automotive, gasoline station, and grocery store advertising declined as compared to last March.

Broadcast advertising by retail establishments will be found in Table VII.

15. **Miscellaneous.**
FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them:

No. 3114. Germania Tea Co., 608 First Ave., Minneapolis, and Consolidated Drug Trade Products, Inc., 544 South Wells St., Chicago, are named respondents in a complaint alleging unfair competition in the sale of Germania Herb Tea and Germania Orange Peloce Tea.

In this matter, on labels and over the radio, the respondent companies allegedly represent that the two products, when used in connection with a designated reducing diet, have a substantial therapeutic value in the treatment of obesity.

According to the complaint, the products are of no value as a remedy for obesity, neither plays any important part in reducing weight when used in connection with a designated reducing diet, and they might prove harmful to a substantial portion of persons using them continuously without the direction or supervision of a doctor.

No. 3116. False and misleading representations in connection with the sale of soap, in violation of Section 5 of the Federal Trade Commission Act, are alleged in a complaint issued against Wolf Creek Soap Co., North Western Ave., Dayton, Ohio.

Certain brands of the respondent company's soap allegedly are marked to retail at from 50 cents to $1 a unit, when, in fact, the complaint charges, they are sold to retail dealers for 8 cents each, are made from cheap and inferior ingredients, and are not of such quality as to justify a retail price in any way closely approximating the retail price or value represented. The prices at which these soaps are actually sold to customers do not appear on the containers, according to the complaint.

No. 3118. Continental Briar Pipe Co., Inc., 80 York St., Brooklyn, is charged in a complaint with using unfair methods of competition in the interstate sale of tobacco pipes.

The respondent company sells two of its products under the names "Doctor Pipe" and "Doctor Pipe", the word "Doctor" being stamped on each pipe. By means of such designation and through the use of certain assertions in advertising matter, the company allegedly makes representations to the effect that such pipes and the filters in them have been designed by or are made under the direction of doctors and tested by doctors and others in laboratories; that they have special qualities not possessed by similar products, and furnish a filtered and sanitary smoke.

No. 3119. New York Pattern Co., Inc., Fashion Institute, Inc., and John Hovie Wright, who is said to control the two organizations, are named respondents in a complaint alleging unfair competition and unfair methods of competition in the interstate sale of Vogue patterns.

Disparagement of the products and business of their competitor, Hollywood Pattern Co., controlled by Conde Nast Publications, Inc., is alleged in the complaint. The respondents, distributors of low-priced style patterns, are charged with circulating among retail stores where the Hollywood Pattern Company's low-priced patterns are sold, various false and deceptive assertions regarding the latter's salability, the quality and workmanship of the higher priced patterns sold by the Nast company that appeared in Vogue magazine, and the financial standing and ability of Conde Nast Publications, Inc.

The respondents are also charged with imitating the design and color of the Hollywood Pattern Company's counter display books.

Fashion Institute, Inc., through use of the word "institute", is alleged to have represented itself to retailers as an impartial and reliable agency for dissemination of fashion news and information, when, in fact, according to the complaint, it is a private organization manufacturing low-priced paper dress patterns and selling these and fashion news and information for private gain.

No. 3120. Use of fictitious price markings and of other false representations in connection with the interstate sale of various articles of merchandise is alleged in a complaint issued against Gotham Sales Co., Inc., and Harry J. Alfred, Max Martin and Alexander Gottsegan, having their principal place of business at 57 Union Square, New York, and branch offices in Chicago, New Orleans, and San Francisco.

The respondents are wholesalers of peddlers' and retail dealers' supplies, including cosmetics, perfumes, dental and shaving creams, toilet accessories, spices, extracts, and other household products and notions. They trade under the names Universal Merchandise Co., Tip Top Laboratories, Scientific Food Products Co., Prize Medal Laboratories, Scientific Laboratories, and Lady Fair Laboratories. The Gottsegens are officers of Gotham Sales, Inc.

Retail prices stamped on certain of the respondents' products and advertised in catalogues and other printed matter, the complaint alleges, are greatly in excess of their true prices and actual values. The retail prices so marked are described as being false and fictitious, and in no sense representing either the true values or true selling prices of the articles so price-marked.

Stipulations and Orders

The Commission has issued the following cease and desist orders and stipulations:

No. 01561. The Kalo Co., Quincy, Ill., agreed to cease representing that its product, designated "Kalo Spray", has been officially approved by the United States Department of Agriculture or by the State College of Washington; that its use instead of lead arsenate will produce any increase in production of sound fruit or improvement in color unless such results are substantiated by competent scientific experiments conducted under all climatic conditions; that Kalo Spray combined either with fish oil or summer oil emulsion, as a substitute for lead arsenate, will obviate the necessity of washing the fruit before it; that the amount of the product used in any State or locality is greater than the amount actually sold in that particular State or locality.

No. 01571. Albert L. Edelman, trading as The Marvel Wash Co., 623 West Vine St., Milwaukee, and Merchants Grocery Co. of Green Bay, Inc., 113 Stuart St., Green Bay, Wis., agreed to cease representing that their solution, called "Marvel Wash", will remove all stains and destroy all odors, and that it will disinfect certain articles or places, unless they indicate that such articles or places should be washed before application of the disinfectant.

No. 1919. Capital Bakers, Inc., 58 North Thirteenth St., Harrisburg, Pa., has entered into a stipulation to discontinue advertising to the effect that its "El Aguinaldo Cuban Honey Bread" contains certain health-producing properties, when, in fact, according to the stipulation, the results obtained from its consumption are not equal to those obtainable from use of any ordinary type of bread containing honey.

The honey content of this bread had been represented as producing remarkable results in all forms of stomach ailments, colds, coughs, and constipation, the product's health-giving benefits having been advertised as "boundless", according to the stipulation.

No. 1937. American Surveys, Inc., 180 North Michigan Ave., Chicago, has entered into a stipulation to discontinue unfair methods of competition in the interstate sale of a set of books entitled "Library of Knowledge Encyclopedia".

In the stipulation, the respondents agreed that certain prospective purchasers, as a selected group of business or professional men, are being offered the books at a special price, when, in fact, the price asked is not special but is the regular price asked of any and all persons who could be induced to purchase the books.

No. 1972. M. Epstein & Sons Co., Inc., 207 West Baltimore St., Baltimore, distributor of hats and caps, has entered into a stipulation to discontinue use of certain representations which imply that it manufactures the products it sells, or owns a plant or factory in which they are made, when, these are not the facts.

In the stipulation, the company used the phrase "Manufacturers of Vanity Club Hats and Caps", to be printed in connection with its corporate name on stationery, billheads and invoices.

No. 2608. Prohibiting certain unfair representations in the sale of a cosmetic product, an order has been entered to cease and desist against Hec Barth, trading as Hec Barth Laboratories and Dark-Eyes Laboratories, 412 Orleans St., Chicago.

In the sale of an eyelash darkener known as "Dark Eyes", the respondent is directed to cease asserting that the use of this product
The respondents also are ordered to cease representing through use of the word “Sunlife”, alone or with other words in their trade name or in any manner, that their product contains any beneficial elements of the natural rays of the sun or that it will bring the beneficial effects of sunshine to users.

No. 2812. Millinery Quality Guild, Inc., 711 Fifth Ave., New York, and 24 member and affiliate companies manufacturing high quality women's hats and credited with being a substantial majority of the originators of leading styles and designs used in their classes of trade, are named respondents in an order to cease and desist.

These companies, through their guild, effected a cooperative plan which had a tendency unduly to hinder competition and create a monopoly in interstate commerce in violation of Section 5 of the Federal Trade Commission Act, according to findings in the case.

The order is directed against two companies and 1600 high grade retailers in several States, who, according to findings, agreed to promote and observe the guild rules intended to prevent piracy of styles and designs originated by the company members and to restrict the sale of high grade millinery to models originated by such members.

No. 2886. Discontinue of false advertising in the sale of baby chicks has been directed in an order entered against Gusta Atz, Milltown, Ind., trading as Atz's Hatchery, Atz's Blue Mount Hatchery and Atz's Mannamooth Hatchery.

The respondent was ordered to cease and desist from representing that baby chicks hatched from pullet eggs are hatched from hen's eggs or from old hens' eggs, or that baby chicks are from eggs of flocks 100 per cent blood-tested, when they are from flocks over which the respondent has not had continuous control and supervision since such eggs were hatched.

No. 2899. Engaged in the interstate sale of a liquid finish for shoes and certain other articles, designated “Sav-An-Upper”, Perfect Manufacturing Co., 3325 Madison Road, Cincinnati, has been ordered to cease and desist from exaggerating the earnings agents may realize through selling the preparation and from misrepresenting its qualities and the results which may be obtained from its use.

Findings in the case are that the respondent company advertised that its product has unusual sales appeal and that large sums of money may easily be made by agents, one representation being to the effect that earnings up to $5,000 a year should be reached by quite a few salesmen.

No. 3013. Trading as American Remedy Co., 301 Green St., Philadelphia, Jean G. Subin, Israel Subin and John N. Kinderman have been ordered to cease and desist from false representations in connection with the sale of “American Purest Aspirin”, which they distribute in interstate commerce.

The respondents are ordered to discontinue advertising that their product is registered in the United States Patent Office, that it is the purest aspirin in America and superior to other products composed of similar ingredients, and that it is a cure for colds and a convenient and effective treatment or palliative for all aches and pains.

PTC CLOSES CASE

No. 2649. The Federal Trade Commission has issued an order closing its case against M. Swift & Sons, Inc., of Hartford, Conn., charged with unfair competition in the sale of gold leaf of the type used for gold lettering on signs and for gilding articles like badges and lead pencils. The Commission reserved the right to resume prosecution should the facts so warrant. The complaint alleging these practices was issued December 7, 1935.

FEDERAL COMMUNICATIONS
COMMISSION ACTION

Hearing Calendar

The following broadcast hearings are scheduled at the Commission for the week beginning Monday, May 10:

Hearing Before an Examiner
(Broadcast)

NEW—T. E. Kirksey, Waco, Tex.—C. P., 930 kc., 250 watts, 500 watts LS, unlimited time.

NEW—The Louisville Times Co., Louisville, Ky.—C. P., 1210 kc.

NEW—Earle Yates, Las Cruces, N. Mex.—C. P., 930 kc., 500 watts, daytime.

KGLO—Mason City Globe Gazette Co., Mason City, Iowa.—C. P., 1210 kc., 100 watts, 250 watts LS, unlimited. Present assignment: 1210 kc., 100 watts, unlimited time.

Tuesday, May 11

HEARING BEFORE AN EXAMINER

(Broadcast)

KFUO—Evangelical Lutheran Synod of Missouri, Ohio and other states, Rev. R. Kretzschmer, Chairman, Board of Control, Concordia Seminary, Clayton, Mo.—C. P., 550 kc., 1 KW, 5 KW LS, one-half time (requests facilities of KSD). Present assignment: 550 kc., 500 watts, 1 KW LS, share-KSD.

KSD—The Pulitzer Publishing Co., St. Louis, Mo.—Renewal of license, 530 kc., 1 KW, 5 KW LS, share-KFUO.

Wednesday, May 12

HEARING BEFORE AN EXAMINER

(Broadcast)

NEW—Young People's Association the Propagation of the Gospel, Shark River Bay, N. J.—C. P., 640 kc., 5 KW, daytime to LS at KFI.

Thursday, May 13

ORAL ARGUMENT BEFORE THE BROADCAST DIVISION

Examiner's Report No. 1-341:

NEW—Dallas Broadcasting Co., Dallas, Tex.—C. P., 1500 kc., 100 watts, daytime.

Examiner's Report No. 1-358:

NEW—Loyal K. King, Pasadena, Calif.—C. P., 1480 kc., 250 watts, daytime.

Examiner's Report No. 1-363:

NEW—State Capitol Broadcasting Assn., R. B. Anderson, President, Austin, Tex.—C. P., 1120 kc., 500 watts, 1 KW LS, specified hours (all hours not used by WTAW).

Examiner's Report No. 1-365:

WMIN—Lincoln Memorial University, Middlesboro, Ky.—C. P., 1210 kc., 100 watts, unlimited time.

Friday, May 14

HEARING BEFORE AN EXAMINER

(Broadcast)

NEW—The Louisville Times Co., Louisville, Ky.—C. P., 1210 kc., 100 watts, unlimited time.

KRKD—Frank P. Doherty, Transferor, and J. J. Burke, Sr., and Loyal K. King, Transferees, Los Angeles, Calif.—Authority to transfer control of corporation; 1120 kc., 500 watts, 2½ KW LS, share-KFSG.

APPLICATIONS GRANTED

KELO—Sioux Falls Broadcast Assn., Inc., Sioux Falls, S. Dak.—Granted modification of C. P. approving transmitter site and studio site, installation of new equipment, and present antenna system of KSOO to be used for KELO.

KGU—Marion A. Mulroney & Advertiser Publishing Co., Ltd., Honolulu, T. H.—Granted modification of C. P. extending commencement date to June 4, 1937.

WEAU—Central Broadcasting Co., Eau Claire, Wis.—Granted license to cover C. P. and modifications thereof; 1050 kc., 1 KW, daytime only.

WRBL—WRBL Radio Station, Inc., Columbus, Ga.—Granted license to cover C. P. and modifications thereof; 1290 kc., 100 watts night, 250 watts day, unlimited.

KORE—Eugene Broadcast Station, Eugene, Ore.—Granted license to cover C. P., 1420 kc., 100 watts, unlimited time.

WSBC—WSBC, Inc., Chicago, Ill.—Granted license to cover C. P., 1210 kc., 100 watts, 250 days night, specified hours.

WBLK—The Exponent Company, Clarksburg, W. Va.—Granted license to cover C. P., 1370 kc., 100 watts, daytime only.

KGKO—Wichita Falls Broadcasting Co., Wichita Falls, Tex.—Granted license to cover C. P., 570 kc., 250 watts, 1 KW day, unlimited time.

WKEU—Radio Station WKEU, Griffin, Ga.—Granted authority to install automatic frequency control.

Mutual Broadcasting System, Inc., Chicago, Ill.—Granted extension of authority to exchange programs with Station CKLW, Windsor, Ontario, and through the telegraph office of the Canadian Pacific Railway at Windsor, with the Canadian Broadcasting Corp., for the period June 1 to December 1, 1937.

KIUP—C. Guy Shepard, Durango, Colo.—Granted voluntary assignment of license to San Juan Broadcasting Co.; 1370 kc., 100 watts, unlimited time.

WFIL—Litt Bros. Broadcasting System, Inc., Philadelphia, Pa.—Granted authority to transfer control of corporation to Lit Brothers; 560 kc., 500 watts night, 1 KW day, unlimited time.

WFIL—WF1 Broadcasting Co., Philadelphia, Pa.—Granted authority to transfer control of corporation to Strawbridge and Clothier; 500 kc., 500 watts night, 1 KW day, unlimited time.

WLWL—Missionary Society of St. Paul the Apostle, New York City.—Granted voluntary assignment of license to Arde Bulova; 1100 kc., 5 KW, specified hours.

NEW—The Crosley Radio Corp., Mobile (Cincinnati, Ohio).—Granted C. P. for new relay broadcast station, frequencies 1606, 2022, 2102 and 2758 kc., 50 watts.

NEW—City of New York, Dept. of Plant and Structures, Mobile (New York City).—Granted C. P. for new relay broadcast station, frequencies 1622, 2058, 2130 and 2720 kc., 40 watts.

NEW—Station WIS, Inc., Mobile (Columbia, S. C.).—Granted C. P. for new relay broadcast station, frequencies 31100, 34600, 37600 and 40600 kc., on an experimental basis; 2 watts.

NEW—Oregonian Publishing Co., Mobile (Portland, Ore.), 2 applications.—Granted C. P. for new relay broadcast station, frequencies 31100, 34600, 37600 and 40600 kc., on an experimental basis; 2 watts.

NEW—The Champaign News Gazette, Inc., Mobile (Champaign, Ill.), 2 applications.—Granted C. P. for new relay broadcast station, frequencies 39700, 39900, 40800 and 41100 kc., on an experimental basis; 10 watts.

W3XGN—Berks Broadcasting Co., Reading, Pa. (Mobile).—Granted modification of C. P. extending commencement date to 5-1-37 and completion date to 11-1-37.

W3XJM—WJR, The Goodwill Station, Detroit, Mich. (Mobile).—Granted modification of C. P. extending commencement date to 5-29-37 and completion date to 8-29-37.

W3XGN—Berk's Broadcasting Co., Reading, Pa. (Mobile).—Granted modification of C. P. extending commencement date to 5-1-37 and completion date to 11-1-37.

SET FOR HEARING

NEW—The Colonial Network, Inc., Providence, R. I.—Amended C. P. so as to request new station to operate on 720 kc., 1 KW, limited time, and to change name from Bay State Broadcasting Corp. to The Colonial Network, Inc. Original application already in hearing docket.

NEW—WDSU, Inc., New Orleans, La.—Application for C. P. for new station, 1500 kc., 100 watts day, 250 watts day, unlimited time. Approval of transmitter and studio sites at 214 Royal St., New Orleans.

WBLY—Herbert Lee Blye, Lima, Ohio.—Application for C. P. to make changes in equipment and increase day power from 1200 watts to 2500 watts; 1210 kc.

KPO—Wescon Broadcasting Co., Washatche, Wash.—Application for C. P. to install new equipment; change frequency from 1500 kc. to 1360 kc.; and increase power from 100 watts night, 250 watts day, unlimited time, to 1 KW, unlimited time; also extend commencement date to 30 days after grant and completion date to 90 days thereafter.

WMIN—Edward Hoffman, St. Paul, Minn.—Application for modification of licenses, already in hearing docket, amended to request change in frequency to 1400 kc., and increase in night power to 250 watts (present assignment: 1370 kc., 100 watts night, 250 watts day, unlimited).
WFAS—Westchester Broadcasting Corp., White Plains, N. Y.—Application for special experimental authority to change time of operation from sharing with WGNY, WGBB and WRBR to simultaneous with WRBR and sharing with WGNY and WGBB for regular license period.

SPECIAL AUTHORIZATIONS

WNYC—City of New York, Dept. of Plant and Structures, New York City.—Granted special temporary authority to operate from 5 to 7 a. m., EDST, Wednesday, May 12, in order to broadcast Coronation Ceremonies.

WMEF—National Broadcasting Co., Inc., Mobile—Granted special temporary authority to operate from 5 to 7 a. m., without an approved modulation or frequency monitor.

W3XDS—RCA Mfg. Co., Inc., Camden, N. J.—Granted special temporary authority to operate from 5 to 7 a. m., in order to broadcast the Annual Senior Day for the various high schools.

WNYC—City of New York, Dept. of Plant and Structures, New York City.—Refused petition asking Commission to reconsider action in denying application for modification of license seeking authority to use time now used by station WMBQ on 1500 kc., 100 watts, specified hours, and denial as in cases of default of application for C. P.

APPLICATIONS DISMISSED

APPLICATIONS DENIED

WSAY—Brown Radio Service & Lab., Rochester, N. Y.—Denied special temporary authority to operate on 1520 kc., 100 watts, 250 watts, unlimited time.

APPLICATIONS DISMISSED

The following application, heretofore set for hearing, was dismissed at request of applicant:

NEW—W. R. Page, Corp., Phenix City, Ala.—1240 kc., 250 watts, unlimited time.

The following application, heretofore set for hearing, was dismissed with prejudice, inasmuch as applicant's request for withdrawal was received less than 30 days prior to hearing scheduled thereon:

WKOK—Sunbury Broadcasting Corp., Sunbury, Pa.—1210 kc., 100 watts, 250 watts LS, specified hours.

MISCELLANEOUS

KGNC—Plains Radio Broadcasting Co., Amarillo, Tex.—Granted petition to intervene in proceedings relative to application of John M. Martin for C. P. to authorize establishment of a new station in Amarillo, to operate on 1130 kc., 250 watts, specified hours (Docket 4532).

WJ—Evening News Assn., Inc., Detroit, Mich.—Granted increase in night power to 5 kw for 30 days on a temporary basis, subject to revocation without notice and hearing.

Big Spring Herald Broadcasting Co., Big Spring, Tex.—Granted petition to intervene in the hearing on the application of G. Kenyon Miller for new broadcast station at Tulsa, Okla., to operate on 1310 kc., 250 watts, daytime only (Docket 4446).

WMMN—Monongahela Valley Broadcasting Co., Fairmont, W. Va.—Denied petition to intervene in the hearing on application of the Exponent Co. (Station WBLK, Clarksburg, W. Va.), for modification of C. P. to operate on 1370 kc., 100 watts, unlimited time (Docket 4538).

NEW—Ex. Rep. 1-245: W. P. Stuart, Prescott, Ariz.—Granted petition to rehear and review the order granting the application of the Southwest Broadcasting Co., Prescott, Ariz. (Ex. Rep. 1-245), requesting a C. P. to establish a new station in Prescott, Ariz. to operate on 1500 kc., 100 watts night, 250 watts day, unlimited time. This application was granted by the Commission on December 1, 1936, at which time the application to W. P. Stuart to establish a station in Prescott, utilizing 1500 kc., 100 watts, unlimited time was denied.

WTJS—The Sun Publishing Co., Inc., Jackson, Tenn.—Denied petition asking Commission to reconsider action in denying C. P. to change frequency from 1210 kc. to 920 kc., and increase power from 100 watts night, 250 watts LS to 250 watts night, 500 watts LS, and to grant the same.

KGB—Don Lee Broadcasting System, San Diego, Cal.—Granted petition to intervene in hearing on application of Warren E. Mercer, San Diego, Cal., for a C. P. to authorize establishment of new broadcast station in San Diego to use frequency of 1400 kc., 250 watts, 1 kw LS, unlimited time (Docket 4531).

WSAN—WSAN, Inc., Allentown, Pa.—Denied petition asking Commission to reconsider and grant applications, designated for hearing, in Dockets 4514 and 4515. These are applications of WSAN for Voluntary Assignment of station license of WSAN (Incorporated) a Delaware Corporation to WSAN.
WHAT—New—John Stewart Bryan, Petersburg, Va.—Accepted answer as
WILM—Delaware Broadcasting Co., Inc., Wilmington, Del.—

WRC—National Broadcasting Co., Washington, D. C.—Reconsid¬
NEW—Young People's Assn, for the Propagation of the Gospel, Shark River Bay, N. J.—Denied petition asking continuance of hearing, now scheduled for May 12, 1937, on application for C. P. to erect new broadcast station to operate on 1210 kc., 100 watts, 3:00 P.M. to 7:00 P.M., weekdays, and 100 watts day power from 1 KW to 5 KW and granted the same.
WRC—National Broadcasting Co., Washington, D. C.—Reconsid¬
NEW—John Stewart Bryan, Petersburg, Va.—Accepted answer as respondent in re application of Petersburg Newspaper Corp., for C. P. for new station at Petersburg, to operate on 1210 kc., 100 watts night. 250 watts—LS (specified hours on Sunday), scheduled to be heard June 1, 1937. Rule 104.6(b) waived.
NEW—Albert Lea Broadcasting Corp., Albert Lea, Minn.—Reconsid¬
NEW—Ex. Rep. 1-257: Ted R. Woodard, Kingsport, Tenn.—De¬
NEW—Ex. Rep. 1-257: Ted R. Woodard, Kingsport, Tenn.—Den¬
NEW—Ex. Rep. 1-356: Beverly Hills Broadcasting Corp., Beverly Hills, Cal.—Granted authority to transfer control of cor-
NEW—Ex. Rep. 1-371—John H. Stenger, Jr., Wilkes-Barre, Pa.—Remanded to docket for further hearing on engineering feature, application for modification of license to change hours of operation from specified to unlimited time. 1210 kc., 100 watts.

RATIFICATIONS

The Broadcast Division ratified the following acts authorized on the dates shown:

KFXR—Exchange Avenue Baptist Church of Oklahoma City, Okla.—Granted extension of program period 30 days from April 20, 1937.
WAAU-WIEK—Columbia Broadcasting System, Inc., New York City.—Granted authority to operate as licensed April 29 to May 4, inclusive, relaybroadcast program from University of Kentucky.
WJEP—Stromberg-Carlson Tel. Mfg Co., Rochester, N. Y.—Granted authority to operate as licensed April 25 to May 4, inclusive, relaybroadcast Safety Campaign in Rochester, N. Y. Also granted authority to operate as licensed May 5, relaybroadcast Hoyt Scout Camp meeting and arrival Rochester Ball Team.
WAAK—W4XBT-W4XBJ—Radio Station WSOIC, Inc., Charlotte, N. C.—Granted authority to operate as licensed May 1 through 15th, relaybroadcasting open airport, May 20, dedicated as Municipal Stadium; also to operate Tuesdays for period April 27 to May 25, inclusive, relaybroadcast from industries and other points. Action taken 4-23. Also granted authority to operate as licensed May 7, relaybroadcast 50th Anniversary, Thompson Orphanage, provided no wire lines available.
WIXGO-W4XGP—Baltimore Radio Show, Inc., Baltimore, Md.—Granted authority to operate as licensed April 29 to May 15, inclusive, relaybroadcast interviews and scenes at Pimlico. Action taken 4-27.
W10XFR—National Broadcasting Co., Inc., New York City.—Granted authority to operate as licensed April 27th.
W10XX—W10XAK-W10XKN—National Broadcasting Co., Inc., New York City.—Granted authority to operate as licensed period May 4 to 8, inclusive, connection with tests and relaybroadcast description of Kentucky Derby.
W10XPH—National Broadcasting Co., Inc., New York City.—Granted authority to operate as licensed period May 10 to June 10, relaybroadcast description in re solar eclipse from Canton and Enderby Islands.
W9XPN-W9XPF—WDZ Broadcasting Co., Tuscola, Ill.—Granted authority to operate as licensed period 30 days beginning May 4, relaybroadcast from Douglas County Farms Schools and WPA projects, provided no wire lines available.
KABE—National Battery Broadcasting Co., St. Paul, Minn.—Granted authority to operate May 4, relaybroadcast from University of Minnesota Pharmacy Building, description of the Pharmacy work.
W9XSB—South Bend Tribune, South Bend, Ind.—Granted author¬ity to operate as licensed May 3, 4 and 5, relaybroadcast Indiana PGA Golf Tournament.
WSRA—Radio Station WSRA, Spartanburg, S. C.—Granted author¬ity to operate with reduced power period not to exceed 10 days, in accordance with Rule 142, pending installation of new transmitter.
WSBA—Voice of South Carolina, Spartanburg, S. C.—Granted special temporary authority to operate from local sunset (April, 7 p. m.) to 12 midnight, EST, April 27; and from local sunset (May, 7:30 p. m.) to 12 midnight, EST, May 4, 1937, in order to broadcast primary election returns, using 500 watts power.

Granted petition of Michigan Broadcasting Co. (WMBC), Det¬roit, to intervene in the proceedings upon the application of Voice of Detroit, Inc., to erect a new station at Detroit (Docket 3998).
Granted petition of The Good Will Station (WJR), Detroit, to intervene in the proceedings upon the application of The Voice of Detroit, Inc., for C. P. for new station (Docket 3998).

Denied motion of the Matheson Radio Co., Ltd. (WHDH), Boston, Mass., for reconsideration of Examiner's Report No. 1-380, covering application of the Massachusetts Broadcasting Corp. (WCON), Boston, for modification of license (Docket 3332), and directed that date of further hearing upon application of Northern Broadcasting Co., Inc. (WSAU), Portland, Me.; KOIN, Inc., Portland, Ore.; and Bremer Broadcasting Co., Wausau, Wis., Docket 4374, be advanced from 10 a.m. on July 2 to 10 a.m. on April 30.

Granted joint motion of Wave, Inc. (WAVE), Louisville, Ky.; WDIA, Inc., Farro, N. Dak.; Congress Square Hotel Co. (WCSV), Portland, Me.; Koin, Inc., Portland, Ore.; and Bremer Broadcasting Co. (WAAI), Jersey City, New Jersey, respondents, for postponement of hearing upon application of World Publishing Co., Tulsa, Okla., Docket 4185, and KGKL, Inc., San Angelo, Tex., Docket 4479, for C. P.'s, now scheduled for May 18, and further directed that these applications be heard together with the applications of El Paso Broadcasting Co., El Paso, Tex., and the Tribune Co., St. Paul, Minn., respectively, on June 16, 1937.

Granted petition of National Battery Broadcasting Co. for authority to announce Station KSTP as being located at St. Paul and Minneapolis, using the following announcement: "This is Station KSTP with studios in St. Paul and Minneapolis." The Broadcast Division also granted authority to Minnesota Broadcasting Corp. (WTCN) and Columbia Broadcasting System, Inc. (WCCO), to make similar announcements, and approved the statement of same.

NEW—F. W. Borton, Coral Gables, Fla.—Dismissed, at request of W. F. Borton, Gables, Fla.

APPLICATIONS RECEIVED

First Zone

WJTN—James Broadcasting Co., Inc., Jamestown, N. Y.—License to cover construction permit (B1-P-1511) for a new transmitter and antenna, increase in power, and move of transmitter and studio.

NEW—Platt & Platt, Inc., Pittsburgh, Pa.—Construction permit for a new station to be operated on 1560 kc., 100 watts, night time.

WNBH—Howitt-Wood Radio Co., Inc., Binghamton, N. Y.—License to cover construction permit (B1-P-1642) for changes in equipment and increase in power.

W2XK—Columbia Broadcasting System, Inc., Wayne, N. J.—License to cover construction permit (B1-PA-12) for a new transmitter and increase in power.

WJEN—Stromberg-Carlson Telephone Manufacturing Co., Rochester, N. Y.—License to cover construction permit for a new relay station.

Second Zone

WFIL—WFIL Broadcasting Co., Philadelphia, Pa.—Modification of construction permit (B2-P-1085) for changes in equipment, vertical antenna, increase in power, and move of transmitter, further requesting changes in antenna and move of transmitter from 1500 feet north of Monument and City Line Avenue, Merion Twp., Pennsylvania, to 63rd Street and Schuykill River, Philadelphia, Pa., and extend commencement and completion dates.

WFIL—WFIL Broadcasting Co., Philadelphia, Pa.—Modification of construction permit (B2-P-1085) for new equipment, increase in power, new antenna, and move of transmitter, requesting extension of commencement and completion dates.

WFIL—WFIL Broadcasting Co., Philadelphia, Pa.—Modification of construction permit (B2-P-1085) for new equipment, change in day and night use, increase power from 1000 watts to 5000 watts, and move transmitter from 1500 feet north of Monument and City Line Avenue, Philadelphia, Pa., to 63rd Street and Schuykill River, Philadelphia, Pa., License to cover construction permit (B2-P-1368) for a new transmitter.

WFBG—The Gable Broadcasting Co. (Lessee), Altoona, Pa.—Modification of construction permit (B2-P-1367) for a new transmitter, requesting change in power from 100 watts to 250 watts, day time, and 100 watts to 250 watts, night time.

WBRE—Louis G. Baltimore, Wilkes-Barre, Pa.—Modification of construction permit (B2-P-1708) to make changes in transmitting equipment and increase power from 100 watts to 100 watts, night time, and 250 watts, day time, and extend commencement and completion dates.

WHDF—Upper Michigan Broadcasting Co., Calumet, Mich.—License to cover construction permit (B2-P-1376) for a new transmitter.

W5XLT—Leo J. Omelian, Erie, Pa.—License to cover construction permit for a new relay broadcast station.

NEW—KQV Broadcasting Co., Pittsburgh, Pa.—Construction permit for a new relay broadcast station to be operated on 31100, 34600, 37600, 40600 kc., 5 watts.

NEW—KQV Broadcasting Co., Pittsburgh, Pa.—License to cover above.

Third Zone

NEW—Carolinas Radio, Inc., Charlotte, N. C.—Construction permit for a new station to be operated on 880 kc., 500 watts, day time, unlimited time. Amended: To change power from 500 watts to 1000 watts, day time, unlimited time.

WTOC—Savannah Broadcasting Co., Inc., Savannah, Ga.—Construction permit to install a new transmitter and increase power from 1000 watts to 1000 watts, day night.

KLRV—Arkansas Broadcasting Co., Little Rock, Ark.—Authority to determine operating power by direct measurement of antenna.

NEW—Meno Schoenbach, Woodward, Okla.—Construction permit for a new station to be operated on 1500 kc., 100 watts, unlimited time.

NEW—George H. Evans & Davis O. Vandiver, d/b as The 1500 Chickasha Daily Express, Chickasha, Okla.—Construction permit for a new station to be operated on 1500 kc., 250 watts, day time. Amended: To give name of applicant as George H. Evans & Davis O. Vandiver, d/b as The Chickasha Daily Express.

NEW—The Armorelle Publishing Co., Inc., Ardmore, Okla.—Construction permit for a new relay broadcast station to be operated on 31100, 34600, 37600, 40600 kc., 2 watts.

WBPA—the National Life and Accident Insurance Co., Inc., Nashville, Tenn.—License to cover construction permit for a new relay broadcast station.

Fourth Zone

WILL—University of Illinois, Urbana, Ill.—License to cover construction permit (B4-P-1219) as modified, for directional antenna and move of transmitter.

NEW—Julie B. Rubens, Aurora, Ill.—Construction permit for a new station to be operated on 1040 kc., 250 watts, day time.

WSBC—WSBC, Incorporated, Chicago, Ill.—License to cover construction permit (B4-P-1506) for new equipment and increase in power.

KGBX—Springfield Broadcasting Co., Inc., Springfield, Mo.—Modification of license to make changes in directional antenna.

NEW—Martin R. O'Brien, Aurora, Ill.—Construction permit for a new station to be operated on 1500 kc., 250 watts, day time.

WXXA—The Milwaukee Journal Co. (The Milwaukee Journal), Milwaukee, Wis.—Construction permit to increase power from 1500 watts to 30 watts.

WJER—The Journal Co. (The Milwaukee Journal), Milwaukee, Wis.—License to cover above.

Fifth Zone

KEHE—Heath Radio, Inc., Los Angeles, Calif.—Construction permit to erect an auxiliary transmitter at KEHE's present site to operate on 1 kw power for emergency purposes only.
NEW—Dickmar Broadcasting Co., San Diego, Calif.—Construction permit for a new station to be operated on 890 kc., 1 KW night, 5 KW day, unlimited time. Amended: To change name of applicant from R. M. Dickinson to Dickmar Broadcasting Co.

NEW—Richard Field Lewis, Oakland, Calif.—Construction permit for a new station to be operated on 1160 kc., 1 KW, daytime.

KPFA—The Peoples Forum of the Air, Helena, Mont.—Modification of construction permit (B5-P-1577) for a new station, requesting changes in authorized equipment and for approval of transmitter and studio sites at 1800 E. 11th, Helena, Montana. Amended: Changes in equipment, increase power from 100 watts to 100 watts night, 250 watts day and approval of transmitter and studio at 11th Street near Intermountain College, Helena, Montana.

NEW—Sims Broadcasting Co., Bartley T. Sims, Mgr., Globe, Ariz.—Construction permit for a new station to be operated on 1210 kc., 100 watts night, 250 watts day, unlimited time.

KYA—Hearst Radio, Inc., San Francisco, Calif.—Modification of construction permit (B5-P-328) for new equipment, increase in power and move of transmitter, requesting extension of completion date from 5-15-37 to 7-15-37.

KMED—Mrs. W. J. Virgin, Medford, Oregon.—License to cover construction permit (B5-P-1194) for changes in equipment, change in hours of operation and move of transmitter.

KGAR—Tucson Motor Service Co., Tucson, Arizona.—Construction permit to change frequency from 1370 kc. to 1340 kc., change power from 100 watts night, 250 watts day to 250 watts, install a vertical antenna and move transmitter from Sixth Avenue & 12th Street, Tucson, Arizona to N. W. corner of Prince Road & N. First Avenue, Tucson, Arizona.

Hawaiian Zone

KGU—Marion A. Mulroney and Advertiser Publishing Co., Ltd., Honolulu, T. H.—Modification of construction permit (B-P-1312) for changes in equipment, requesting extension of completion date.
KENNETH HOUSEMAN

Members contemplating employing Kenneth Houseman should first communicate with Harold F. Gross, Radio Station WJIM, Lansing, Michigan. Mr. Gross will appreciate any information concerning this man's whereabouts.

SENATOR DUFFY ON COPYRIGHTS

Senator Duffy of Wisconsin, made a speech recently before the Section of International and Comparative Law of the American Bar Association on the convention for the protection of literary and artistic works. Anyone interested in the speech will find it reprinted in the May 6th issue of the Congressional Record.

BROADCASTING COPYRIGHT MUSIC

The following statement was issued recently by the Performing Right Society of Great Britain:

"The license granted by the Performing Right Society for the broadcasting of the copyright music it controls by the British Broadcasting Corporation having expired on December 31 last, both bodies agreed that the terms of payment for a further license should be settled by voluntary arbitration. The arbitrators (A. T. Miller, K. C., Chairman; Sir Harold Gibson Howitt; and Sir William Jarratt) whose hearings extended over thirteen days, have now issued their Award. This provides for payment to the Society in respect of the Home broadcasting stations of a sum calculated at the rate of 7d. per listener's license, such payment to be made monthly on the basis of the number of licenses in force at the end of the preceding month. In addition, payment is to be made in respect of the Empire service at the rate of one-tenth of the amount payable for the Home stations."

The Award is for a period of two years from January 1, 1937.

IOWA LEGISLATURE PASSES RADIO LIBEL BILL

The General Assembly of the State of Iowa has enacted the following law in respect of libel by broadcasting:

An Act in relation to the civil liability of owners, lessees, licensees and operators of radio broadcasting stations and the agents and employees of any such owner, lessee, licensee or operator, for radio defamation.

Be It Enacted by the General Assembly of the State of Iowa:

Section 1. The owner, lessee, licensee or operator of a radio broadcasting station, and the agents or employees of any such owner, lessee, licensee or operator, shall not be liable for any damages for any defamatory statement published or uttered in or as a part of a radio broadcast, by one other than such owner, lessee, licensee or operator, or agent or employee thereof, if such owner, lessee, licensee, operator, agent or employee, shall prove the exercise of due care to prevent the publication or utterance of such statement in such broadcast.

Section 2. This act shall not be applicable to or affect any cause of action existing at the time this act becomes effective.

STATUS OF PENDING RADIO LITIGATION

Following are the radio cases now pending in the United States Court of Appeals for the District of Columbia:

Make Your Plans Now to Attend the NAB Convention at Hotel Sherman, Chicago, June 20-23, 1937
Mr. Hanna: Do you believe in advertising support in radio?

Comm. Brown: There is only one other alternative—radio set taxes such as the British and most European countries impose. But, over there the Governments manage the radio, which manifestly means that the parties in power could control it. I think our American system is superior in that it is kept free from political control just like our newspapers. There must always be freedom of speech on the radio just as there is freedom of the press.

Mr. Hanna: We all know, Commissioner Brown, that great strides in broadcasting have been made the past few years from the cumbersome experimental sets to the splendid reception of today. I am sure that the Commission has done many things to bring this about. What do you think the average listener may expect in radio within the next few years?

Comm. Brown: That is a large order indeed, Mr. Hanna. The experiences of the past teach us to be cautious in making any statements concerning the future. So fantastic have the accomplishments of the past been that the things which are to come truly stagger the imagination.

Radio continues to play an important part in many varied fields of endeavor besides that of broadcasting. Daily it expands the communication frontiers to the farthest corners of the world. These strange voices from the fringes of the earth are the foes of silence and of distance and of time. We hear it reliably said that a day will come when your radio receiver will print your newspaper in your home, bring you actual pictures of events and reproduce sound with absolute fidelity.

Mr. Hanna: It would seem from all this then, Commissioner Brown, that radio touches the lives of all of us and that the Communications Commission has an extremely important function to perform.

Comm. Brown: That is correct, Mr. Hanna. It is extremely difficult to estimate the true effect upon the American people of radio broadcasting today. Radio, like the newspaper, is preacher, teacher, father, counsellor, entertainer, informer and helper. Every morning it, figuratively speaking, starts the cycle of life, then every evening banks the fire and winds the clock. The waking hours of millions of Americans are paced to the tempo of the radio. There is no escaping its influence.

The world of radio touches the life and the thought of practically every citizen in the nation. There is not a man, woman, or child within the sound of our voices or anywhere in these United States whose welfare and future are not going to be affected by radio. That being so, it devolves upon the Communications Commission to make
these instruments of communication more effective in order that they may contribute as much as possible to the life and the culture and the development of the American people.

RECOMMENDS DENIAL OF NEW STATION

Leonard A. Versluis applied to the Federal Communications Commission for a construction permit for the erection of a new station at Grand Rapids, Mich., to use 830 kilocycles, 500 watts and daytime operation.

Examiner Ralph L. Walker in Report No. I-406 recommended that the application be denied. He found that "operation of a station as proposed will cause objectionable interference within the normally protected service area of one existing station, namely WKAR, at East Lansing, Mich."

NEW PUERTO RICAN STATION RECOMMENDED

Juan Piza, applied to the Federal Communications Commission for a construction permit for the erection of a new station at San Juan, Puerto Rico, to use 1500 kilocycles, 100 watts night and 250 watts until local sunset and unlimited time on the air.

Examiner P. W. Seward in Report No. I-407 recommended that the application be granted. He found that a need does exist for the additional radio service proposed in the area. The Examiner states that granting of the application would be in the public interest.

RECOMMENDS AGAINST POWER INCREASE

Broadcasting station WHOM, Jersey City, N. J., operating on 1450 kilocycles, 250 watts unlimited time applied to the Federal Communications Commission to increase its daytime power to 1,000 watts.

Examiner R. H. Hyde in Report No. I-410 recommended that the application be denied. He found that the applicant "has not shown a public need for additional daytime facilities in the area proposed to be served such as would warrant the increase in power proposed herein with the resultant increase in interference conditions which the evidence indicates would be likely to follow."

RECOMMENDS KGFF APPLICATION DISMISSED

Broadcasting Station KGFF, Shawnee, Okla., operating on a frequency of 1420 kilocycles, 100 watts and 250 watts LS and unlimited time applied to the Federal Communications Commission to change its frequency to 1430 kilocycles, and its power to 250 watts, all time.

When the matter came on for hearing the applicant requested permission to withdraw the application without prejudice.

Examiner P. W. Seward in Report No. I-409 recommended that the application be dismissed without prejudice.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them:

No. 3121. Misrepresentation of the curative value of a preparation known as "A & O", offered as an effective treatment for colds, is alleged in a complaint issued against Joe Anderson, trading as The A & O Company, New Bern, N. C.

In advertising matter and radio broadcasts, the respondent allegedly makes representations to the effect that his product relieves and cures the most stubborn colds when other treatments fail, giving relief with the first dose; that it checks fever, strengthens the system to normal, and protects one from influenza, pneumonia or serious lung trouble; that it is a secret combination of ingredients which doctors prescribe for colds, and is entirely different from any other known preparation.

No. 3122. Alleging use of unfair methods of competition in the sale of a preparation known as "Radio Active Hair Restorer," a complaint has been issued against Mary Mauthe, trading as Mauthe & Son Remedy Co., 923-927 Twenty-third St., Denver, Colo.

The respondent allegedly represents in advertising matter and in radio broadcasts that her preparation is not a dye and is harmless to the most delicate scalp and hair; that it will effectively restore the natural color of the hair and bring to gray hair a lustrous, youthful and permanent color, and that it will stop falling hair, promote growth of the hair, and do away with dandruff.

No. 3123. Alleging use of unfair methods of competition in the sale of medicinal products, a complaint has been issued against The A & O Company, trading under the names Purity Products Co. and BX Laboratories.

The complaint charges violation of Section 5 of the Federal Trade Commission Act, through unfair competition in the sale of feminine hygiene products.

These preparations, sold under the names "Minex", "Hygeen Tablets", and other names, allegedly were advertised as competent and reliable treatments or remedies, when, in fact, according to the complaint, they were not effective as treatments for the ailments or conditions designated.

No. 3124. Alleging unfair competition in the sale of medical products, a complaint has been issued against Wolf Drug Company, 683 Broad St., Newark, N. J., and certain other affiliated firms and individuals with headquarters in Newark and New York.

As a part of their advertising and sales promotion plans, the respondents, according to the complaint, have registered with the United States Patent Office the trade name "Health Institute, Battle Creek, Michigan", thus representing that they conduct a place of business at Battle Creek and that they are an "institute". The complaint alleges that no clinic is maintained nor are any research work, experiments or analyses performed by these respondents, and that they do not operate laboratories in Battle Creek or anywhere, but have merely a Battle Creek mailing address.

No. 3125. Kelvinator Corporation, 14250 Plymouth Road, and Ross Roy Service, Inc., charging unfair competition through cooperating to disparage the products of Kelvinator’s competitors.

Ross Roy Service, Inc., is alleged to have published statistical data regarding mechanical refrigerators in "The Ross Roy Comparative Hard-Book", and in a series of bulletins, such publications allegedly having been issued in cooperation with Kelvinator Corporation, which gave financial assistance although, according to the complaint, no connections between Kelvinator and Ross Roy were indicated. These publications were distributed to approximately 5,000 dealers in and distributors of Kelvinator refrigerators, who are alleged to have paid Ross Roy Service, Inc., substantial amounts for them.

The respondents are charged with representing that the material in the statistical hand-book and other literature was accurate,
authoritative and unbiased, and that it was published entirely independent of all manufacturers, when, according to the complaint, these were not the facts. The respondents can or do make dental plates that are not double tested; that the dental plates they produce are better than those made by dental practitioners; that impressions made by their operators are not as accurate as those made by operators of dental practitioners; and that their dental plates can always be relied upon, and other similar representations. In their stipulation the respondents admit, among other things, that dental plates or false teeth made from impressions self-taken by persons with whom the dentist has had no personal contact, are not better than those made by dentists from the impressions they take directly from the patients.

No. 01568. Wyeth Chemical Co., 691 Larned St., Detroit, agrees to stop advertising that use of Hill's Cold Tablets affords a fast or effective method of combating a cold and that any doctor will tell you that nothing is so effective as Hill's Cold Tablets; and that "your vitality returns" through use of the preparation.

No. 01569. C. O. Selig, 401 N. W. Fifth Ave., Fort Lauderdale, Fla., stipulates that he will cease advertising Selig's Stopitch as a competent treatment for all types of athlete's foot and for tropical sores, skin eruptions and other similar afflictions, and that the statement that "your vitality returns" through use of the preparation as a fact may result from use of an antiseptic. The respondent will stop representing that the idea that a lovely complexion is a gift of nature is a fallacy, or that by the Cleartone preparation a one may have a youthful or healthy complexion.

No. 01570. John T. Kennedy Sales Co., 2359 Southwest Blvd., Kansas City, Mo., trading as Givens Chemical Co., will bar use of the assertion that its Cleartone preparation is a competent remedy in the treatment of pimples or other skin afflictions, unless the reference is limited to superficial disorders and to such relief as may result from use of an antiseptic. The respondents are engaged in the interstate sale of a device designated as a "Vaporizer and Carbonizer" for use on automobiles.

The respondents had stipulated as to the facts involved in the case and agreed that the Commission might state its findings as to the facts and enter an order directing them to cease and desist from making certain false and exaggerated representations as to the increased motor power, saving of gasoline and other beneficial results accomplished by use of their product.

No. 01571. Trav-Ler Radio & Television Corporation, 1028 West Van Buren St., Chicago, stipulates that it will cease using as a trade name or brand for its radio sets the word "Majestic," alone or in connection with the words "Radio Corp.," or with other words so as to imply that its sets are made by Grigsby-Grunow Company, Chicago, originally the manufacturer of Majestic sets, or by its successor, Majestic Radio & Television Corporation, Chicago, when such is not a fact.

No. 1942. Wohlfelder & Schlain, Inc., 133 Wooster St., New York, luggage manufacturer and dealer, agrees to ban use of the word "cowhide," alone or in conjunction with the phrase "wool-felted genuine," or with other words so as to imply that its sets are made by Grigsby-Grunow Company, Chicago, originally the manufacturer of Majestic sets, or by its successor, Majestic Radio & Television Corporation, Chicago, when such is not a fact.

No. 1945. Phil Bobsy Co., Inc., 725 Seventh St., N. W., Washington, retailer of wearing apparel on a credit basis, agrees to cease describing furs in any other way than by use of the words "warranted genuine," or with other words so as to imply that the fur is the last word of the description. The respondent also agrees that when any dye or blend is used to simulate another fur, the true name of the fur, appearing as the last word of the description, shall be immediately preceded by the word "dyed" or "blended," compounded with the name of the simulated fur, as thus: Northern Sealine—Dyed Rabbit; Beaverette—Dyed Rabbit; or French Beaver—Dyed Rabbit.

The respondent stipulates that he will discontinue use of the word "free" in describing alleged gift articles, when in fact they are not given free but as a consideration for services performed, such as the bringing in of new customers. The company also will ban use of the word "free" to describe articles represented to be given without cost with the purchase of other merchandise, when, in fact, the cost of such alleged free articles is included in the selling price of the merchandise.

No. 1946. A. B. Thomas Co., 1226 California St., Denver, Colo., has entered into a stipulation to discontinue unfair methods of competition, in violation of Section 5 of the Federal Trade Commission Act, in selling a correspondence course in forestry.
Under the stipulation, Thomas agreed to cease making representations implying that students having no more than a high school education, upon completion of the course, would be eligible to take and pass a United States Civil Service examination for positions in the Government Forest Service, and would have the necessary education and experience to warrant the acceptance of their applications for such positions by the Civil Service Commission.

No. 2726. Food Display Machine Corporation, 325 West Huron St., Chicago, has been ordered to discontinue unfair methods of competition in connection with the sale of potato chip machines in interstate commerce.

According to findings in the case, the respondent company advertised that its machines make "as much as $23 a day," "up to $117 a week," and other exaggerated amounts.

No. 3042. Gynex Corporation, having places of business at 211 East 19th St. and 301 Madison Ave., New York, has been ordered to cease and desist from misrepresenting the therapeutic value and effectiveness of certain feminine hygiene preparations and appliances, some of which it sells under the names "Gynettes," "Gyn-o-sol," "Gynex Tablets" and "Viornette."

The respondent corporation is directed to discontinue advertising its products as competent and effective treatments or cures for the ills and diseases peculiar to women, and that such products may be used with safety and without deleterious effects.

FEDERAL COMMUNICATIONS COMMISSION ACTION

Hearing Calendar

The following broadcast hearings are scheduled at the Commission for the week beginning Monday, May 17:

Monday, May 17

HEARING BEFORE AN EXAMINER

(new)广播

NEW—N. B. Egeland, Roland, Iowa.—Construction permit for a new station to be operated on 1500 kc., 100 watts night, 250 watts day, specified hours.

Alaskan Zone

KGBU—The Alaska Radio & Service Co., Inc., Ketchikan, Alaska.—Modification of construction permit (B-P-537) for new equipment and increase in power, requesting changes in authorized transmitting equipment, change power from 1 KW, 5 KW day, to 1 KW, for approval of vertical antenna and move of transmitter from 107 Front Street, Ketchikan, Alaska, to Block 27, Sections 5, 6 and 7, corner East and Stedman Streets, Ketchikan, Alaska.
NOTICE OF AMENDMENT

To All Members:

In pursuance of the provisions contained in By-Law 17 of the Constitution and By-Laws of the National Association of Broadcasters, Inc., notice is hereby given that a certain amendment to the Constitution and By-Laws of the National Association of Broadcasters, Inc., as hereinafter described, will be presented for consideration at the annual membership meeting in Chicago, Illinois, June 20-23, 1937.

The Board of Directors, by a majority vote, propose the following amendment to the By-Laws of the National Association of Broadcasters, Inc.:

By-Law No. 1.

Strike out all of the first paragraph and insert in lieu the following:

“Effective September 1, 1937, bi-monthly dues of active members shall be payable January 1, March 1, May 1, July 1, September 1, and November 1, on the following basis.”

COMMISSION GRANTS NEW STATION

The Federal Communications Commission this week granted a construction permit for a new broadcasting station at Greenville, Texas, to the Hunt Broadcasting Company to operate on 1200 kilocycles, 100 watts daytime. The order is effective July 13.

RADIO OPERATORS MINIMUM AGE BILL

U. S. Senator Sheppard of Texas has introduced a bill (S. 2407) to make 21 years the minimum age for radio operators. It has been referred to the Senate Committee on Interstate Commerce. The bill is as follows:

That section 303 (e) of the Communications Act of 1934 (U. S. C., 1934 edition, title 47, sec. 303), is amended by inserting the words “who are twenty-one years of age or over” after the words “United States”, and adding the words “: Provided, That the Commission may waive the age-limit provisions of this paragraph insofar as the issuance of licenses to amateur operators is concerned,” after the words “finds qualified”, so that the amended paragraph will read:

“(e) Have authority to prescribe the qualifications of station operators, to classify them according to the duties to be performed, to fix the forms of such licenses, and to issue them to such citizens of the United States who are twenty-one years of age or over as the Commission finds qualified: Provided, That the Commission may waive the age-limit provisions of this paragraph insofar as the issuance of licenses to amateur operators is concerned”.

DEVELOPMENTS ON COPYRIGHT LEGISLATION

Developments on state copyright legislation, since the last report in the April 1st issue of NAB Reports, include: Nebraska’s legislature passed an anti-monopoly music copyright bill which was approved by the Governor on May 17th. In Wisconsin the Senate on May 12th passed a joint resolution which memorializes Congress to

Make Your Plans Now to Attend the NAB Convention at Hotel Sherman, Chicago, June 20-23, 1937
enact legislation prohibiting racketeering on copyrighted music. A copyright bill similar to the Montana and Washington state laws was introduced in Tennessee and was passed by both the House and Senate. Copyright legislation has also been introduced in the Florida legislature. The legislatures of Iowa, Ohio and Minnesota adjourned without acting on pending copyright bills.

In Washington, D. C., the Senate Patents Committee has decided to schedule hearings within the next 30 days on the copyright bills introduced by Senators Duffy, Sheppard and Guffey. The House Patents Committee which also has three copyright bills pending has not reached any decision with respect to setting dates for hearings.

The text of the Nebraska law as approved by the Governor is as follows:

NEBRASKA
(Bill No. 478.)
(Regular Session.)

An Act relating to monopolies; declaring to be an unlawful monopoly and its purposes to be in restraint of trade, any combination of persons, firms or corporations which fixes and determines the amount of money to be paid to it or to its members for the privilege of rendering privately or publicly for profit within this state copyrighted vocal or instrumental musical compositions, when such combination is composed of a substantial number of all musical composition copyright owners or their heirs, successors or assigns; to require each composer and each author of vocal or instrumental copyrighted musical compositions to act independently of each other and of any combination as herein declared unlawful in determining license fees and other rights within this state; to require the author, composer, printer and publisher to specify upon the musical composition the selling price thereof for all uses that may be made thereof including public performance for profit within this state; to declare that any purchaser thereof, who pays such price therefor, shall have the right to render such music privately or publicly for profit within this state; to declare that any agreement requiring license fees or other exactions for the privilege of rendering copyrighted musical compositions publicly for profit within this state with any combination of persons, firms or corporations herein declared unlawful to be void and nonenforceable; to permit the present owners, possessors and users of such copyrighted music to render the same privately or publicly for profit within this state without interference by such unlawful combination; to provide for the appointment of a receiver and injunctive relief and the dissolution of such combination as here declared unlawful; to determine in such action the legal owner of such copyrighted musical compositions; to adjust and fix in such action the license fee to be paid, if any, and the terms for the use of such musical compositions in this state; to provide for the protection of theatres, moving picture houses, hotels, places for education and public performance or amusement, radio broadcasting, radio receiving and radio re-broadcasting stations affiliated with other persons, firms or corporations outside the State of Nebraska against the collection of license fees or other exactions by such out-of-the-state affiliates for or on account of any combination declared unlawful under Section 1 hereof; to provide that the responsibility and all liability for any infringement of copyrighted musical compositions conveyed by radio broadcast, air, wire, electrical transcription, or sound production apparatus, or by personal performance coming from outside this state, and used herein, to rest entirely with the out-of-the-state person, firm or corporation originally emanating or sending the same into this state for use herein; to provide penalties for the violation hereof; to empower the County Attorneys and the Attorney General, upon complaint of any party aggrieved by any violation hereof, to proceed to enforce the penalties hereof against such combination and any of its representatives, members or agents, and against the property of such unlawful combination within this state; to define the method of service of process upon such combination as herein declared illegal; to empower any party aggrieved by any violation hereof to proceed in his own right hereunder; to define the legal procedure required to carry out the provisions hereof; to provide for the recovery of costs, expenses and attorney's fees; to provide for the filing of each said composition in the office of the Secretary of State before selling or disposing of the same, together with the amount of filing fee therefor; to provide that the terms of this Act shall be cumulative; to provide that any part of this Act declared illegal shall not affect the validity of the remaining parts hereof; and to declare an emergency.

Be it enacted by the People of the State of Nebraska:

Section 1. It shall be unlawful for authors, composers, proprietors, publishers, owners, or their heirs, successors or assigns, of copyrighted vocal or instrumental musical compositions to form any society, association, club, firm, partnership, corporation, or other group or entity, called herein a combination, either within this state or outside thereof, when the members, stockholders, or interested parties therein constitute a substantial number of the persons, firms or corporations within the United States who own or control copyrighted vocal or instrumental musical compositions, and when at least one of the objects of any such combination is the determination and the fixation of license fees or other exactions re-
quired by such combination for itself or its members, stockholders or other interested parties for any use or rendition of copyrighted vocal or instrumental musical compositions for private or public performance for profit within this state for the purpose of preventing free competition among or with different and competing copyright owners or among or with persons, firms, corporations or associations in this state using or rendering such copyrighted matter by public performance for profit; or for the purpose of dividing among them the proceeds of the earnings of such copyright owners; or for the purpose of fixing the exactions and fees for the rendition or use of copyrighted matter which any copyright owner must charge; and the collection or attempted collection within this state of such license fee or other exaction so fixed and determined, by any member, agent or representative of any such combination herein declared unlawful, from any person, firm, corporation or association within this state, including theatres, radio receiving, radio broadcasting and radio re-broadcasting stations, moving picture houses, athletic associations, hotels, cafes, restaurants, clubs, dance halls, recreation rooms, amusement parks, pavilions, churches, colleges, schools, universities, or the officers, directors, proprietors, managers, owners or representatives thereof, who render or cause to be rendered, or permit to be rendered, such copyrighted vocal or instrumental musical compositions privately or publicly for profit within this state through personal performance, or through radio, or any instrumentality or sound producing apparatus, shall be and the same is hereby declared unlawful and illegal; and such license fees or other exactions shall not be collected in any court within the boundaries of this state; and each collection or attempted collection of such license fee or other exaction by such combination or its agents, representatives, members, stockholders or interested parties shall be a separate offense hereunder; and any such combination of authors, composers, publishers, or their heirs, successors or assigns, as herein defined, is hereby declared to be an unlawful monopoly in this state; and such fixing of prices for use or rendition of copyrighted musical compositions within this state by such unlawful combination and the collecting or attempting to collect such license fees or other exactions by it or for its stockholders, members or other interested parties within this state is hereby declared illegal and in restraint of trade, and such collection or attempted collection thereof is declared to be an illegal intrastate transaction within this state and shall be subject to the terms and penalties of this Act. In any action, civil or criminal, instituted under the provisions of this Act, it shall be prima facie evidence against any party to such action of the existence of such unlawful combination for the purposes in this Act enumerated, if a substantial number of all authors, composers, proprietors, publishers, owners or their heirs, successors or assigns of copyrighted vocal or instrumental musical compositions in the United States, are shown to be members of any society, association, club, firm, partnership, corporation, group or entity.

Section 2. (A). All authors and composers, and their heirs and assigns, shall have within this state all the benefits conferred by the Copyright Laws of the United States, being the Act of March 4, 1909, c. 320 Section 1 (e), 35 Stat. 1073, Title 17, U. S. C. A. Each author, composer and publisher shall act independently of any and all substantial number or numbers of other authors, composers and publishers, and also independently of any such combination as in Section 1 hereof declared unlawful, in determining and fixing the price to be charged for the use or rendition of his copyrighted musical compositions within this state, and the author, composer or publisher, or his, her, or its heirs, successors or assigns, shall specify or cause to be specified legibly upon the musical composition, in whatever form the same may be published, printed, manufactured or otherwise prepared for use or rendition within this state, the selling price thereof for private rendition or public rendition for profit if made available for such public rendition so arrived at and determined for all uses and purposes; and when any purchaser or user acquires the same within this state and pays the selling price so specified thereon to the seller or publisher of said copyrighted musical composition, then said purchaser or user may use or render, or cause or permit to be used or rendered within this state, the said copyrighted musical composition by persons individually or with other performers, actors and singers, or by an individual instrument player, or by orchestras and bands, or over or through or by means of radios, loud speakers, radio receiving, radio broadcasting and radio re-broadcasting stations, electrical transcriptions, musical records, sound apparatus or otherwise within this state, and the same may be so rendered either privately or publicly for profit when so purchased and paid for without further license fees or other exactions; and such copyright owner or proprietor, in the event of such payment, shall be deemed to have received full compensation for the rendition and all uses of such musical compositions for private purposes or for public performance for profit by such purchaser within this state.

(B). In the event any author, composer or publisher, or any of his heirs, successors or assigns, fails or refuses to affix on the musical composition the selling price, and collect the same, for private and public performances for profit, at the time and in the manner specified in this Act, then any person, firm or corporation in this state who may have purchased and paid for such copyrighted musical composition may use the same for private or public performance for profit within this state without further license fee or other exaction; and such person, firm or
corporation so using or rendering the same shall be free from any and all liability in any infringement or injunction suit, or in any action to collect damages, instituted by such copyright proprietor or owner in any court within the boundaries of this state.

(C). Nothing in this section, or this Act, shall be construed to give to any purchaser of copyrighted music compositions, as herein provided, the right to resell, copy, print, publish, or vend the same.

(D). Any composer, author or publisher of vocal or instrumental copyrighted musical compositions, or any person, firm or corporation controlling the sale or distribution of said compositions, whether or not within the purview of the combination described in Section 1 of this Act, shall, before selling or disposing of any such composition in this state, file in the office of the Secretary of State a copy of each said composition upon which shall be written, printed or typed over his or its signature a statement to the effect that he or it controls the sale or disposition of such composition; and provided further, said person, firm or corporation who shall make such filing shall accompany the same with a fee of Twenty-five Cents (25¢) with each copy of said composition so filed to reimburse the Secretary of State for keeping in current and convenient form, easily accessible to the public, the titles of said compositions and the names of the persons, firms or corporations who shall file said copies from time to time; and provided further, said Secretary of State shall deposit all the fees received hereunder weekly with the state Treasurer who shall credit said fees to the general fund of the state.

Section 3. All existing contracts, agreements, licenses or arrangements now existing within this state made by any person, firm or corporation with any combination, declared unlawful under Section 1 hereof, are hereby declared void and non-enforceable in any court within the boundaries of this state, and are hereby declared to have been entered into as intrastate transactions with such unlawful combination and in restraint of trade; and further, all such contracts, agreements, licenses, arrangements and the attempted enforcement thereof within this state, may be enjoined by any person, firm or corporation sought to be bound thereby; and any member, representative or agent of such unlawful combination enforcing or attempting to enforce the terms of such existing contract, license or arrangement within this state shall be guilty of a violation of the terms of this Act, and for each such collection or attempted collection shall be subject to the penalties hereinafter provided.

Section 4. (A). Any person, firm or corporation who owns, leases, operates or manages a radio broadcasting, radio receiving or radio re-broadcasting station within this state, shall be and is hereby authorized to receive, broadcast and re-broadcast copyrighted vocal or instrumental musical compositions within this state, the copyrights of which are owned or controlled by any such combination declared unlawful by Section 1 hereof, without the payment, to such combination or to its agents, representatives or assigns, of any license fee or other exaction declared illegal and non-collectible by the terms hereof.

(B). When such radio receiving, radio broadcasting or radio re-broadcasting station is affiliated with any other person, firm or corporation owning, leasing or operating a radio broadcasting station outside this state from whence copyrighted vocal or instrumental musical compositions originate or emanate, and which are received, used, broadcast or re-broadcast within this state, in accordance with the terms of any affiliation agreement or other contract, then such person, firm or corporation owning, leasing, operating or managing a radio broadcasting station outside this state, shall be and is hereby prohibited from in any manner charging or attempting to charge, or collecting or attempting to collect, from any person, firm or corporation with any combination, or corporations who shall file said copies from time to time; and provided further, said Secretary of State shall deposit all the fees received hereunder weekly with the state Treasurer who shall credit said fees to the general fund of the state.
....
(B). Furthermore, any person or persons who negotiates for, or collects within this state, or attempts to collect license fees or other exactions, or who acts as the representative or agent for any combination declared unlawful in Section 1 hereof, shall, for the purpose of this Act, be considered as a part of said unlawful combination; and such person, firm or corporation shall be subject to all the penalties in this Act provided for violations thereof.

Section 8. Any combination as in Section 1 hereof declared unlawful and any other person, firm or corporation, acting or attempting to act, within this state in violation of the terms of this Act, or any representative or agent of any person, firm or corporation who aids or attempts to aid any such unlawful combination, as defined in Section 1 hereof, in the violation of any of the terms of this Act in any manner whatsoever within this state shall be deemed guilty of a misdemeanor and shall be fined in any sum not more than $5,000.00 or imprisoned for not more than one (1) year, or both, such fine and imprisonment for each and every violation of the terms hereof.

Section 9. (A). The County Attorney in each county in this state wherein a violation of any of the terms of this Act takes place, in whole or in part, is hereby authorized upon the complaint of any party aggrieved to institute a civil or criminal action, or both, under the terms hereof against any combination declared unlawful as defined in Section 1 hereof, and against any of its members, stockholders or other interested parties, and its agents or representatives as herein defined, and to enforce any of the rights herein conferred, and to impose any of the penalties herein provided.

(B). The Attorney General of the State of Nebraska is hereby empowered to proceed upon the request of any County Attorney to aid and assist, or to take charge of, any prosecution or suit for any violations of any of the terms hereof.

(C). Or, the Attorney General, on the complaint of any party aggrieved, because of the violation of any of the terms of this Act anywhere within this state, shall proceed in the District Court in any county in which all or any part of the offense or violation was committed, to institute action against any combination defined as unlawful by Section 1 hereof, and against the representatives or agents of any such combination, either in a criminal action to enforce the penalties hereof, or in a civil action to enforce all rights hereunder, or to dissolve any such combination as declared unlawful by Section 1 hereof, or he may proceed by both civil and criminal actions; in such action or actions, the plaintiff shall be the State of Nebraska; and any interested party may, upon application, be granted leave to intervene in such a civil action.

(D). The District Court shall, in such dissolution or other civil suit, upon the application and intervention in said action of any member, stockholder or other interested party of said unlawful combination, adjudicate the ownership of any copyrighted vocal or instrumental musical composition theretofore owned or controlled by said unlawful combination; and furthermore, such District Court shall have and is hereby granted the power and authority to appoint a receiver and to issue injunctive and mandatory temporary and permanent orders in reference to any of the issues involved in such action; and any person, firm or corporation within this state who is a user in any manner of any copyrighted vocal or instrumental musical compositions theretofore owned or controlled by such unlawful combination may, upon application, intervene in such action and therein have adjusted, determined and adjudicated all rights for or against the person, firm or corporation whom the Court shall finally determine to be the owner or proprietor of such copyrighted vocal or instrumental musical compositions; and said parties shall be permitted no other remedy in any other court within the boundaries of this State, whether the same be for damages, infringement or otherwise, until final decree has been had in said action determining the ownership and terms for use of such copyrighted musical compositions.

Section 10. (A). Any person, firm or corporation within this state aggrieved by any violation of the terms hereof by any unlawful combination, as defined in Section 1 hereof, or any of its representatives or agents, may proceed in his or its own name and right in the District Court in the county in which the violation, or a part thereof, took place, to recover any right, loss or damage that may have resulted from any violation of the terms hereof; the plaintiff in such action shall be entitled to recover his or its costs and expenses and a reasonable attorney's fee to be fixed by the court in such action.

(B). In the event of the failure or refusal of a County Attorney, or the Attorney General, to promptly act, as herein provided, when requested so to do by any aggrieved party, then such party may institute in his own behalf, or upon behalf of the plaintiff and all others similarly situated, the same civil action as such County Attorney or Attorney General might have instituted under the terms of this Act, and with like procedure, powers, authority, rights, privileges, effect and final decree as the said County Attorney or Attorney General might have done under the terms of this Act.

Section 11. (A). In any action, either civil or criminal, that may be had or instituted under the provisions hereof for any violation of the terms hereof, the plaintiff in any form of action brought hereunder, and in which action any combination declared unlawful, as defined in Section 1 hereof, or the members, stockholders, or other interested parties, or their agents or representatives of such unlawful combination, are defendants, any attorney of
record for the plaintiff may file a request in writing with the Clerk of the District Court in which said action is pending, demanding that the defendant or defendants furnish plaintiff, or file with the Clerk of the Court, in which the action is pending, exact copies of all documentary evidence, facts and figures, records or data in the possession or under the control of the defendant or defendants pertaining to the issues as alleged by the plaintiff to establish or refute any issues in the case; and the District Court, upon the presentation to it of such written demand by the plaintiff, shall thereupon determine that part or all of such evidence which shall be produced, and shall enter an order fixing a time for the defendant or defendants to furnish and file such information as ordered. A copy of said order shall be mailed to each defendant at his or its last known address, which shall be deemed sufficient notice and service upon said defendant or defendants; or the same may be served by mail in the same manner upon each attorney of record for the defendant or defendants, and when so served, the same shall be deemed notice and service upon the defendant or defendants for whom said attorneys appear of record.

(B). If said defendant or defendants shall fail to furnish plaintiff or his or its attorney, or file with the Clerk of the Court in which the action is pending, said copy or copies of said documentary evidence, facts, figures, records, books and data as set forth in said order within the time specified in said order, the Court shall adjudge said defendant or defendants guilty of contempt of court, and the Court shall assess a fine of $100.00 against such of the defendants for each and every day that such defendant or defendants fails to comply with said order; and judgment shall from time to time be rendered therefor, and the plaintiff may collect the same against the defendant or defendants with 6% interest thereon and the costs, including expenses and attorney’s fees to be fixed by the Court, in the same manner as other judgments are collected in this state. The Court shall find and determine when the judgment is rendered what disposition shall be made of the proceeds collected after the payment of costs, expenses and any attorney’s fees that may be allowed.

Section 12. If any section, sub-division, sentence or clause in this Act shall, for any reason, be held void or non-enforceable, such decision shall in no way affect the validity or enforceability of any other part or parts of this Act.

Section 13. Nothing in this Act shall be construed as repealing any other law or parts of laws in reference to any of the matters contained in this Act; and the rights and remedies and provisions herein provided shall be and are hereby declared to be cumulative to all other rights, remedies and provisions now provided under the laws of the State of Nebraska.

Section 14. Whereas an emergency exists, this Act shall be in full force and take effect, from and after its passage and approval.

Approved, May 17, 1937.

RECOMMENDS DENIAL OF TRANSFER

The WREN Broadcasting Company of Lawrence, Kans., applied to the Federal Communications Commission for authority to transfer control to the Kansas City Star Company, Kansas City, Mo. The station (WREN) operates on 1220 kilocycles, 1,000 watts and 5,000 watts LS and shares time with KFKU.

Examiner George H. Hill in Report No. I-421 recommended that the application be denied. Inasmuch as the Kansas City Star owns and operates WDAF the Examiner states that “the result of granting the requested authority would be a step in the direction of monopoly, would place in the hands of the largest newspaper in Kansas City two of the largest stations now serving this area, and would remove from the Kansas City area a formidable competitor.” It is further stated in the report that “the Examiner is of the opinion, after consideration of the entire record, that no satisfactory showing has been made that the transfer of all of the stock of the WREN Broadcasting Company, Inc., to the Kansas City Star Company would serve public interest, convenience and necessity.”

INCREASED TIME RECOMMENDED FOR WSAU

Broadcasting station WSAU, Wausau, Wis., operating on 1370 kilocycles, 100 watts power daytime, applied to the Federal Communications Commission to grant it unlimited time on the air.

Examiner P. W. Seward in Report No. I-420 recommended that the application be granted. He states that the evidence taken in the case indicates a need for additional nighttime radio service in the area proposed to be served and that no objectionable interference would be caused by granting the application.

EXAMINER RECOMMENDS NEW STATION

The Northwestern Publishing Company applied to the Federal Communications Commission for a construction permit for the erection of a new station at Danville, Ill., to use 1500 kilocycles, 250 watts and daytime operation.

Examiner Robert L. Irwin in Report No. I-418 recommended that the application be granted subject to the approval of the transmitter site by the Commission. He found that there is a need for the daytime service proposed to be rendered by the applicant in the area, and the Examiner states that the granting of the application would not cause any objectionable interference.
CHANGES RECOMMENDED FOR WAPO

Broadcasting station WAPO, Chattanooga, Tenn., operating on 1420 kilocycles daytime with 100 watts LS applied to the Federal Communications Commission to grant it unlimited time, and 250 watts daytime and 100 watts night.

Examiner John P. Bramhall in Report No. I-419 recommended that the application be granted. The Examiner states that a need for additional service in the area proposed to be served has been established and that the granting of the application would not adversely affect any other station. He found that the increase would be in the public interest.

DENIAL OF WSOC CHANGES RECOMMENDED

Broadcasting station WSOC, Charlotte, N. C., operating on 1210 kilocycles, 100 watts and 250 watts LS, unlimited time, applied to the Federal Communications Commission to change its frequency to 600 watts and to change its power to 250 watts and 1,000 watts LS.

Examiner Melvin H. Dalberg in Report No. I-417 recommended that the application be denied. He states that “in view of the service now available in the area involved, there does not appear to be sufficient reason for the granting of this application upon the ground of need for additional service.”

NEW STATION RECOMMENDED

The Sharon Herald Broadcasting Company applied to the Federal Communications Commission for a construction permit for the erection of a new station at Sharon, Pa., to use 780 kilocycles, 250 watts and daytime operation. Also Allen T. Simmons applied to the Commission for a construction permit for a station at Mansfield, Ohio, to use 780 kilocycles, 1000 watts and daytime operation.

Examiner Melvin H. Dalberg in Report No. I-411 recommended that the Simmons application be granted and that the Herald Company be denied. He states that “it is obvious that there is a greater need for broadcast facilities at Mansfield, Ohio, than at Sharon, Pa.” The Examiner states also that program material is more available to Simmons and “the persons now in his employ are more experienced in the operation of a broadcast station than is the applicant Sharon Herald Broadcasting Company.”

SUGGESTS NEW STATION GRANT

The General Broadcasting Corporation filed an application with the Federal Communications Commission asking for a construction permit for the erection of a new broadcasting station at Centralia, Wash., to use 1440 kilocycles, 500 watts and unlimited time on the air.

Examiner John P. Bramhall in Report No. I-414 recommended that the application be granted. He states that a definite need for a local radio station in the area proposed to be served has been established. The Examiner also found that granting the proposed application would not cause any interference and its grant would be in the public interest.

INCREASED OPERATING TIME RECOMMENDED

Broadcasting station KADA, Ada, Okla., operating on 1200 kilocycles, with 100 watts power, applied to the Federal Communications Commission to increase its operating time from daytime only to unlimited time.

Examiner P. W. Seward in Report No. I-416 recommended that the application be granted. He stated that the evidence in the case brought out the fact that there is a need in the area proposed to be served for additional nighttime service, and the interests of no other station would be adversely affected by such a grant. Also, the Examiner found that no applications for radio facilities now pending at the Commission would involve a question of interference if the application is granted.

NEW STATION GRANT RECOMMENDED

The Okmulgee Broadcasting Corporation applied to the Federal Communications Commission for a construction permit for the erection of a new station at Okmulgee, Okla., to use 1210 kilocycles, 100 watts and daytime operation. This application was granted at one time by the Commission but later the decision was reversed and set for a further hearing before an Examiner.

Examiner P. W. Seward in Report No. I-412 as the result of the further hearing recommended that the previous grant allowed by the Broadcast Division of the Commission be affirmed, and the application granted. The Examiner found that “the evidence indicates there is a need for additional daytime radio service in the area proposed to be served”. Smith, Keller & Cole intervened at the hearing but the Examiner states that “there seems to have been no material change between the dates of the former hearing, the two occasions when the application was granted by the Commission, and the instant hearing.” He found that granting of the application to the Acceptance Corporation would be in the public interest.
Examiner P. W. Seward in Report No. I-415 recommended that the application be granted. He states that the evidence shows there is need for additional daytime service in the area proposed to be served by the station. Pending applications for authority to construct a station at the same place have been dismissed by the Commission and the Examiner found that granting the application would be in the public interest.

NEW CAROLINA STATION RECOMMENDED

The Asheville Daily News applied to the Federal Communications Commission for a construction permit for the erection of a new station at Asheville, N. C., to use 1370 kilocycles, 100 watts and unlimited time.

Examiner George H. Hill in Report No. I-415 recommended that the application be granted. He states that from a consideration of the testimony taken at a further hearing in this case, he is of the opinion that nothing new has been developed that would justify a change in the recommendation made after the first hearing in the matter which suggested that the application be granted.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

No. 3127. Five companies manufacturing concrete pipe and other concrete products in the Eastern Seaboard area, including Virginia, Maryland and the District of Columbia, in a complaint are charged with practices tending to create monopoly and restrain trade.

These companies, said to be sufficiently powerful to influence and control trade in their type of products in their territory, and certain individuals also named respondents in the case, are: Lock Joint Pipe Co., 150 Rutledge Ave., East Orange, N. J.; F. B. and J. H. Gray, trading as Gray Concrete Pipe Co., Thomasville, N. C., Baltimore and Hagerstown, Md.; Concrete Pipe & Products Co., Richmond, Va.; MidAtlantic Concrete Pipe & Products Co., Norfolk, Va., and Dover, Del.; Arlington Concrete Pipe Corporation, South Washington, Va.; and Jack M. Parrish, Harry W. Easterly and J. Scott Parrish, Richmond, Va., owners of the capital stock of Concrete Pipe & Products Co. and of 67 shares of Arlington Concrete Pipe Corporation stock originally owned by Concrete Pipe and Products Co.

No. 3128. Merrill Candy Company, 1215-17 East Main St., Merrill, Wis., is charged in a complaint with unfair competition in the sale of candies so packed and assembled as to involve use of a lottery scheme when such products are resold to ultimate consumers.

The lottery element is alleged to be supplied by pushcards disclosing numbers to be drawn by purchasers.

No. 3129. Alleged violation of Section 5 of the Federal Trade Commission Act. Twenty days from service of the complaint are allowed the respondent company to file answer to the charges.

No. 3129. A complaint has been issued alleging violation of the brokerage section of the Robinson-Patman Anti-Price Discrimination Act by Reeves, Parvin & Co., wholesale grocers, Tri-State Brokerage Co., and their president, Francis B. Reeves, Jr., all of 400 Chestnut St., Philadelphia, and a group of corporations engaged in the interstate sale of foodstuffs.

Reeves is said to be a director and president of both Reeves, Parvin & Co. and of Tri-State Brokerage Co., owning 55 per cent of the capital stock of the former company, all of the capital stock of the latter, and controlling the activities of each.

According to the complaint, Tri-State Brokerage Co. is the purchasing agent and corporate affiliate of Reeves, Parvin & Co., the two companies having the same officers and employees, and between June 19, 1936, and January 1, 1937, 96 per cent of the business of the brokerage firm consisted of orders for the purchase of merchandise placed with it by Reeves, Parvin & Co.

In making purchases for Reeves, Parvin & Co., the complaint alleges, Tri-State company collected brokerage fees from 1 to 5 per cent from certain selling concerns, which fees, minus expense of operation, it transmitted to Reeves, Parvin & Co. by means of dividend payments to the respondent Reeves. These dividend payments allegedly were paid over by Reeves to Parvin & Co. No. 3133. A complaint has been issued charging Elizabeth Arden, Inc., New York cosmetics manufacturer, with violation
of the Robinson-Patman Anti-Price Discrimination Act. Elizabeth Arden Sales Corp., a subsidiary company, is also named a respondent in the case.

Principal charges are: (1) Price discrimination among dealers purchasing Elizabeth Arden products of like grade and quality by giving one or more such dealers or classes of dealers terms or conditions of sale different from those given to others competitively engaged in the resale of such preparations; (2) discrimination by paying certain customers for advertising services furnished by them in connection with their sale of Elizabeth Arden products, without making such advertising allowances available to all other competing customers on proportionately equal terms, and (3) discrimination in furnishing certain purchasers with services or facilities in connection with their sale of Arden preparations and on terms not accorded proportionately to all such customers.

Price discrimination is alleged to have been practiced by the respondents, through selling their products to customers at prices reduced below the prices charged the general public, and maintaining the lower prices for longer periods of time than $200 worth a year. A discount of 40 per cent off the list price for customers whose annual purchases total between $200 and $3,000, and 25 per cent off list price for those who buy less than $200 worth a year has been accorded customers whose annual purchases total between $200 and $3,000, and 25 per cent off list price for those who buy less than $200 worth a year.

Stipulations and Orders

The Commission has issued the following cease and desist orders and stipulations:

No. 1978. Vapoo Products Co., Inc., 1775 Broadway, New York, agrees to stop labeling its "Vapoo" rug and carpet cleaning preparations with the expressions "highest award 1934" or "Gold Seal Award Chicago 1934," in connection with the phrase "Century of Progress International Exposition," so as to imply that the product received an award at that exposition, when such is not a fact.

No. 1979. United Asbestos Pad Corporation, 139 North State St., Chicago, selling table pads, iron stands, and hot dish pads, stipulates that it will quit using in advertising matter or otherwise the words "Special Sale," or "Half Price Sale," either independently or in connection with the phrase "For three days only," or with other words so as to imply that the price at which the articles are offered is other than the regular price at which they are sold without limitation of time in the usual course of business. The respondent corporation will stop using the word "Asbestos" as part of its corporate or trade name or in any way to describe those of its products not composed of or made with asbestos. The stipulation provides that if any of its products are made in substantial part with asbestos, and that word is used to describe such part, it shall be accompanied by other words in conspicuous type to clearly show that the articles described are composed of materials other than asbestos.

No. 1980. Metropolitan Radio Co., Inc., 940 F St., N. W., Washington, agreed to cease representing in advertising or in any other manner that its radio sets have a designated "regular price" or "former price," when, in fact, such designated price is fictitious and much in excess of the price at which the sets are regularly sold in the usual course of trade. The company also will stop using the words "half-price sale" to imply that the radio sets to which the words refer are offered for sale at a price but one-half that at which the sets are usually sold, when such is not a fact.

No. 1981. Karl W. Lambooy, Kalamazoo, Mich., trading as Robert Frank Needlework Supply Co., in the sale of quilting pieces or patches and designs for making bed quilts, will cease using in advertising matter statements in the form of testimonials or endorsements purportedly referring to his products, when, in fact, according to the stipulation, they are not prepared by users of the products sold by Lambooy and do not refer to Lambooy's products. The respondent also agrees to discontinue employing the phrase "old, established firm" or other words of similar import to describe the business he conducts, when in fact, according to the stipulation, they are not prepared by users of the products sold by Lambooy.

No. 1982. Tailored Woman, Inc., 729 Fifth Ave., New York, agreed to discontinue advertising as "silk jersey" certain dresses not composed of silk, and to cease using the word "silk," either alone or with other words, so as to imply that the products to which the words refer are composed of silk, when such is not a fact.

No. 1983. Bradley Boston, Inc., Newton, Mass., jewelry dealer, has entered into a stipulation to discontinue certain unfair representations in the interstate sale of its products in violation of Section 5 of the Federal Trade Commission Act. In its stipulation, this company agrees to quit using in its advertising matter the words "Facsimile Diamond" to describe products made of glass, and to stop employing the word "Diamond," alone or in combination with any other word, to describe those of its products to which such words refer are other than imitations of diamonds.

No. 1984. Boyd W. Doyle, trading as Doyle Packing Co., Monee, Ill., also operating packing plants at Los Angeles and at Newark, N. J., has entered into a stipulation to cease using unfair representations in the sale of his products in violation of Section 5 of the Federal Trade Commission Act.

Doyle, a manufacturer of canned foods for dogs and cats, agrees to cease use in his advertising matter or on labels affixed to his products of representations to the effect that the dog food he sells contains 15 per cent of a product which is at all times of the highest grade possible or that the respondent's product could not be improved even if double the price were charged. He agrees also to cease making assertions to the effect that the product is a result of five years' experience and hundreds of feeding tests or has been recommended or endorsed by leading veterinarians all over the country.

No. 2881. Under an order to cease and desist, the Hogan Advertising Company, trading as The Sendol Company, 129 Coates Building, Kansas City, Mo., is prohibited from making certain misrepresentations in the sale of medicines, in violation of section 5 of the Federal Trade Commission Act.

Held to constitute unfair methods of competition, the practices prohibited are as follows: Representation that "Sendol" is a safe medicine in all cases, including children's ailments; that it is effective and reliable for treating muscular, rheumatic or neuralgic aches and pains, and that it affords quick relief for headaches, colds, aches or pains and is an effective remedy for nervous exhaustion.

No. 2952. Maurice Willens, trading as Mushroom Growers of America, 431 North Clark St., Chicago, has been ordered to cease and desist from unfair methods of competition, violative of Section 5 of the Federal Trade Commission Act, in the sale of mushroom spawn in interstate commerce.

Representations to be discontinued by Willens are that mushrooms may be easily grown in any idle space in or about the home and that their cultivation is a simple and highly remunerative industry; that any person can successfully grow mushrooms for profit without previous experience or technical skill, and that there is a shortage of mushrooms on the market.

No. 3063. A cease and desist order has been issued against Standard Distributors, Inc., and its president, Louis H. Gellar, both of 114 East Thirty-second St., New York, prohibiting certain unfair methods of competition in violation of Section 5 of the Federal Trade Commission Act.

In the sale of radios, food beaters, food mixers, or other articles, the respondents are directed to stop furnishing or selling any radio or similar article which may be used in the distribution of such articles by means of a lottery scheme, lottery sales plan, game of chance, or gift enterprise.

In connection with the sale of such merchandise, the respondents are also ordered to cease supplying or selling to retail merchants paraphernalia and devices, a part of which are a large number of keys and a padlock, for use in the following manner: One key to the padlock are entitled to receive, without additional charge, a radio, food mixer, food beater or other article.

FEDERAL COMMUNICATIONS COMMISSION ACTION

Hearing Calendar

The following broadcast hearings are scheduled at the Commission for the week beginning Monday, May 24.

Monday, May 24

FURTHER HEARING BEFORE AN EXAMINER (Broadcast)

HEARING BEFORE AN EXAMINER

Wednesday, May 26

HEARING BEFORE AN EXAMINER

NEW—Nathan N. Bauer, Miami, Fla.—C. P., 1420 kc., 100 watts, unlimited time.

HEARING BEFORE AN EXAMINER

KOOS—Pacific Radio Corp., Marshfield, Ore.—Voluntary assignment of license to KOOS, Inc., 1200 kc., 500 watts, daytime.

NEW—John W. Haigis, Greenfield, Mass.—C. P., 1210 kc., 250 watts, daytime.

NEW—Nathan N. Bauer, Miami, Fla.—C. P., 1420 kc., 100 watts, unlimited time.

WSMB—WSMB, Inc., New Orleans, La.—C. P., 1320 kc., 1 KW, unlimited time.

NEW—Virgil V. Egans, Gastonia, N. C.—C. P., 1420 kc., 100 watts, unlimited time.

NEW—K. E. Schonert, d/b as Schonert Radio Service, Harrisburg, Pa.—C. P., 1290 kc., 250 watts, daytime.

WQAN—The Scranton Times, Scranton, Pa.—Granted modification of license to use present transmitter of station WQAN as WGBI's auxiliary transmitter for emergency purposes only.

WPRO—Cherry & Webb Broadcasting Co., Providence, R. I.—Modification of license to increase power and time of operation from 1 KW daytime only to 1 KW unlimited time. Present assignment, 900 kc., 1 KW, daytime only.

NEW—A. L. Beard, Jasper, Ala.—C. P. for new station; 1500 kc., 100 watts, unlimited time. Site to be determined.

NEW—Airfan Radio Corp., Ltd., San Diego, Calif.—C. P. for new station; 1420 kc., 100 watts, unlimited time. Site to be determined.

NEW—Willwood Warwick Lippington, Inc., Bend, Oregon.—C. P. for new station (amended 4-2-37). Move transmitter site locally to Town 2, Range 7, MRS of Madriver Twp., Montgomery County, Ohio; install new equipment and directional antenna system for nighttime use; increase power from 200 watts night and day, simultaneous day and specified hours night, to 250 watts night, 500 watts day, unlimited time. Present assignment, 1380 kc., 200 watts night and day, simultaneous day and specified hours night.

APPLICATIONS GRANTED

WPRO—Cherry & Webb Broadcasting Co., Providence, R. I.—Granted license to cover C. P. as modified covering authority to make changes in transmitting equipment and increase power from 5 to 10 KW night and day.

W6XAO—Don Lee Broadcasting System, Los Angeles, Calif.—Granted C. P. and license to add aural transmitter to television station; 150 watts power on same frequencies with A3 emission.

SET FOR HEARING

NEW—George H. Evans & Davis O. Vandiver, d/b as The Chickasha Daily Express, Chickasha, Okla.—C. P. for new station; 1500 kc., 250 watts, daytime only. Exact transmitter site to be determined.

NEW—Black Hills Broadcast Company of Rapid City, S. Dak.—Voluntary assignment of license to use present main transmitter as an auxiliary transmitter for emergency purposes only.

NEW—Broadcasters, Inc., Gastonia, N. C.—C. P. for new station; 1420 kc., 100 watts night, 250 watts day. Unlimited time. Exact site to be determined, also type of antenna.

NEW—Curtis Radiocasting Corp., Richmond, Ind.—C. P. for new station; 1420 kc., 100 watts night, 250 watts day, unlimited time. Site to be determined.

NEW—United Broadcasting Co., Tulsa, Okla.—C. P. for new special broadcast station; 1550 kc., 1 KW night and day, unlimited time. Exact transmitter site to be determined.

NEW—Decatur Newspapers, Inc., Decatur, Ill.—C. P. for new special broadcast station; 1550 kc., 1 KW night and day, unlimited time. Exact site to be determined.

WQXR—Interstate Broadcasting Co., Inc, New York City.—C. P. to make changes in equipment (install new transmitter), increase power from 1 KW to 5 KW, and move transmitter to a new site to be determined subject to Commission approval. To be heard before the Broadcast Division.

KOBH—Black Hills Broadcast Co. (Robert Lee Dean, Executive Pres.), Rapid City, S. Dak.—Voluntary assignment of license to the Black Hills Broadcast Company of Rapid City.

WTAD—Illinois Broadcasting Corp., Quincy, Ill.—Modification of license to increase power and time of operation from 1 KW daytime only to 1 KW unlimited time. Present assignment, 900 kc., 1 KW, daytime only.

NEW—Carolinas Radio, Inc., Charlotte, N. C.—C. P. for new station (amended 4-22-37); 850 kc., 1 KW, unlimited time; exact transmitter and studio sites to be determined with Commission's approval.

WSMK—WSMK, Incorporated, Dayton, Ohio.—C. P. (amended 4-2-37). Move transmitter site locally to Town 2, Range 7, MRS of Madriver Twp., Montgomery County, Ohio; install new equipment and directional antenna system for nighttime use; increase power from 200 watts night and day, simultaneous day and specified hours night, to 250 watts night, 500 watts day, unlimited time. Present assignment, 1380 kc., 200 watts night and day, simultaneous day and specified hours night.

SPECIAL AUTHORIZATIONS

WFIL—WFIL Broadcasting Co., Philadelphia, Penna.—Granted extension special temporary authority to operate on 560 kc., with power of 1 KW at night, for the period beginning June 1, 1937 and ending in no event later than June 30, 1937, inclusive, pending filing of construction permit for this authority.

WMBG—Haverst for Martin, Inc., Richmond, Va.—Granted extension special temporary authority to operate from 5:30 p. m. to 7 p. m., EST, on Sundays, from June 1, 1937 to June 30, 1937, inclusive (provided WBBM remains silent), in order to broadcast special programs.

KIT—Carl E. Raymond, Yakima, Wash.—Granted special temporary authority to operate a 75 watt portable transmitter on 1250 kc., between the hours of 1 a.m. and 6 a.m., PST, for a period not to exceed thirty days, in order to select a suitable transmitter site. However, such operation not permitted during those hours prescribed for Commission monitoring schedule.
WDZ—WDZ Broadcasting Co., Tuscola, Ill.—Granted extension special temporary authority to operate from 5 a.m. to 6 a.m. EST, for the period beginning May 16, 1937, and ending in no event later than May 27, 1937, in order to reach the farmers in the territory surrounding station WDZ who are in their fields during the summer months by 5 a.m.

WOE—National Broadcasting Co., Inc., New York, N. Y.—Granted special temporary authority to operate relay broadcast station WOE for the period beginning May 29, 1937, and ending in no event later than June 7, 1937, utilizing the frequencies 4797.5, 6425, 8655 and 12862.5 kc., in addition to the licensed frequencies of WOE, for relay broadcast from aboard IMPERIAL Airways Ltd., seaplane CAVALIER program material during initial flight inaugural of the New York-Pittsburgh service. Program to be rebroadcast by National Broadcast Company over a network of affiliated broadcast stations.

WCAD—St. Lawrence University, Canton, New York—Granted special temporary authority to operate from 9 a.m. to 11:30 a.m., EST, Saturday, May 22, 1937, in order to broadcast the Cavalier program material during initial flight inaugural of the New York-Pittsburgh service.

KWS—State College of Washington, Pullman, Wash.—Granted special temporary authority to operate a 50 watt transmitter on 880 kc., between hours of 1 a.m. and 6 a.m., EST, for a period not to exceed thirty days, for the purpose of making a site survey in the vicinity of Richland, Va. However, such operation not permitted during those hours prescribed for Commission monitoring schedule.

KDB—Santa Barbara Broadcasters, Inc., Santa Barbara, Calif.—Granted special temporary authority to operate a 100-watt portable test transmitter between the hours of 12 midnight and 6 a.m. PST, for a period not to exceed thirty days, in order to make field intensity survey tests in the City of Santa Barbara and the immediately surrounding territory to locate a suitable new transmitter site for KDB. However, such tests not permitted during those hours prescribed for Commission monitoring schedule.

KFRO—Voice of Longview, Longview, Tex.—Granted special temporary authority to operate from local sunset (June 13, 1937, 7:30 p.m. CST) to 10 p.m., Thursday, May 27, 1937, and ending in no event later than midnight, September 30, 1937.

KWSC—State College of Washington, Pullman, Wash.—Granted special temporary authority to waive the requirements of Rule 151 and reduce hours of operation to the following specified hours: daily, except Sundays and holidays, from 6 a.m. to 10 p.m., Thursday, May 27, 1937, and ending in no event later than midnight, September 30, 1937.

WFLA—Clearwater Chamber of Commerce, Clearwater, Fla.—Granted special temporary authority to operate a 50 watt transmitter on 1450 kc. between hours of 1 a.m. and 6 a.m., CST, for the period beginning May 18, 1937, and ending in no event later than May 24, 1937, in order to make measurements for the selection of a transmitter site. However, such operation not permitted during those hours prescribed for Commission monitoring schedule.

APPLICATION DENIED

Wow—Woodmen of the World Life Insurance Association, Omaha, Neb.—Denied special temporary authority to operate with power of 5 kw at night for the period beginning May 27, 1937, and ending in no event later than June 25, 1937. (Commissioner Sykes dissented.)

EXAMINER REPORTS RELEASED SINCE MAY 11, 1937

KGFF—Ex. Rep. 1-409: KGFF Broadcasting Co., Inc., Shawnee, Okla.—Examiner P. W. Seward recommended that the petition to withdraw application of KGFF for modification of license to change frequency from 1120 kc. to 1430 kc., power from 100 watts, 250 watts LS, to 250 watts, be granted, and that application be dismissed without prejudice.

WHOM—Ex. Rep. 1-410: New Jersey Broadcasting Corp., Jersey City, N. J.—Examiner R. H. Hyde recommended that application for C. P. to increase power from 250 watts to 250 watts night, 1 kw daytime, be denied.

NEW—Ex. Rep. 1-411: Sharon Broadcasting Co., Sharon, Pa.—Examiner M. H. Dalberg recommended that application for C. P. for new station to operate on 780 kc., 250 watts, daytime, be denied; and

NEW—Allen T. Simmons, Mansfield, Ohio.—That application for C. P. of Allen T. Simmons to operate new station on 780 kc., specified hours: daily, except Sundays and holidays, from 6 a.m. to 10 p.m., Thursday, May 27, 1937, and ending in no event later than June 7, 1937, utilizing the frequencies 4797.5, 6425, 8655 and 12862.5 kc., in addition to the licensed frequencies of WOE, for relay broadcast from aboard IMPERIAL Airways Ltd., seaplane CAVALIER program material during initial flight inaugural of the New York-Pittsburgh service. Program to be rebroadcast by National Broadcast Company over a network of affiliated broadcast stations.

WADC—St. Lawrence University, Canton, New York—Granted special temporary authority to operate a 50 watt transmitter on 880 kc., between hours of 1 a.m. and 6 a.m., EST, for a period not to exceed thirty days, for the purpose of making a site survey in the vicinity of Richmond, Va. However, such operation not permitted during those hours prescribed for Commission monitoring schedule.

WAP—Ex. Rep. 1-418: Northwestern Publishing Co., Danville, Ill.—Examiner John P. Bramhall recommended that application for C. P. to change power from 100 watts LS to 250 watts, daytime, be granted.

APPLICATIONS RETRIED TO FILES

KBOH—Black Hills Broadcast Co. of Rapid City, Rapid City, S. Dak.—Application for construction permit (B4-P-1631) to install new equipment and increase day power from 100 watts, 250 watts LS, to 250 watts, unlimited time, be denied.

NEW—Ex. Rep. 1-418: Northwestern Publishing Co., Danville, Ill.—Examiner P. W. Seward recommended that application for C. P. for new station to operate on 1500 kc., 250 watts, daytime, be granted, subject to Commission's approval of transmitter site.

APPLICATIVE DISMISSED

The following application was dismissed at the request of the applicant:

WSJS—Winston-Salem Journal Co., Winston-Salem, N. C.—Application for construction permit (B3-P-1397) for 1250 kc., 1 kw night, 1 kw LS, unlimited time.

MISCELLANEOUS

WDNC—Durham Radio Corp., Durham, N. C.—Granted petition for continuance of hearing on its application for C. P. for new station to operate on 600 kc., specified hours: daily, except Sundays and holidays, from 6 a.m. to 10 p.m., Thursday, May 27, 1937, in order to broadcast the Coronation Ceremonies from London, England.

APPLICATION DISMISSED

The following application was dismissed at the request of the applicant:

WSJS—Winston-Salem Journal Co., Winston-Salem, N. C.—Application for construction permit (B3-P-1397) for 1250 kc., 1 kw night, 1 kw LS, unlimited time.
J. K. Patrick & Co., Athens, Ga.— Granted petition to intervene in the proceedings on the application of Athens Times, Inc., for new station at Athens, Ga., to use 1210 kc., 100 watts night, 250 watts day, unlimited time (Docket No. 4534).

Martin R. O'Brien, Kankakee, Ill.— Granted petition to intervene in the matter of the application of Key City Broadcasting Co. for a new station at Kankakee, Ill., to use 1500 kc., 100 watts night, unlimited time (Docket No. 4545).

NEW—Ben B. Shields, Provo, Utah.—Granted petition to accept applicant's answer in the matter of the application for a new station at Provo, Utah, to use 1210 kc., 100 watts, unlimited time (Docket No. 4545).

NEW—Thomas J. Watson, Endicott, N. Y.— Granted motion for continuance of the hearing date upon his application for a new station at Endicott, N. Y., to use 1230 kc., 1 kw., unlimited time (Docket No. 4550).

WCAO—Monumental Radio Co., Baltimore, Md.— Granted motion for continuance of the hearing upon the application for a new station at Albany, N. Y., to use 1290 kc., 1 kw., unlimited time (Docket No. 2900).

Citizens Broadcasting Corp., Schenectady, N. Y.— Granted petition for continuance of hearing date upon application for a new station at Schenectady, N. Y., to use 1240 kc., 1 kw., unlimited time (Docket No. 4508).

The Commission decided a hearing date subsequent to September 6, 1937, be fixed for the three above applicants.

KGA—Louis Wasmers, Spokane, Wash.— Granted petition for a continuance of the hearing on his application for modification of license to use 950 kc., 1 kw. night, 5 kw. LS, unlimited time; a new hearing date subsequent to September 6, 1937, will be fixed. Present assignment: 5 kw., 1470 kc., unlimited time.

WCAO—Monumental Radio Co., Baltimore, Md.—Granted motion for acceptance of answer filed three days late as respondent in the application for new station (WDNC), Durham, N. C., for a C. P. specifying 600 kc., 1 kw., unlimited time (Docket No. 4525).

KJL—McClatchy Broadcasting Co., Fresno, Calif.— Granted application for modification of license to increase night power from 500 watts to 1 kw. Reconsidered action of March 9, 1937, in designating said application for hearing.

NEW—C. P. Sudweeks, Spokane, Wash.—Hearing date on application for a new station at Spokane, Wash., to use 550 kc., 500 watts night, 1 kw. day, unlimited time, continued from June 11, 1937, until a date after August 1, 1937, to be fixed by the Docket Section.

NEW—Vancouver Radio Corp., Vancouver, Wash.—Granted petition for indefinite continuance of hearing on application for new station at Vancouver, Wash., to use 880 kc., 250 watts, daytime only (Docket No. 4388).

Port Arthur College, Port Arthur, Texas— Granted petition to intervene in the proceeding upon the application of the Enterprise Company for a new station at Beaumont, Texas, to use 1400 kc., 500 watts, unlimited time (Docket 4513).

Sabine Broadcasting Co., Beaumont, Texas.— Granted petition to intervene in the proceeding upon the application for a new station at Beaumont, Texas, to use 1400 kc., 500 watts, unlimited time (Docket 4513).

Magnolia Petroleum Company, Dallas, Texas.— Granted petition to intervene in the proceeding upon the application of the Enterprise Company for a new station at Beaumont, Texas, to use 1400 kc., 500 watts, unlimited time (Docket 4513).

WMEX—Northern Corporation, Boston, Mass.— Dismissed opposition to a continuance of the hearing of the application of WLAC, Nashville, Tenn., for an increase in power from 500 watts to 5 kw., unlimited time (Docket 4137).

WLAC— WLAC, Inc., Nashville, Tenn.— Granted petition for postponement of hearing on application for C. P. to increase power from 5 kw. to 50 kw. (Docket 4137). Case to be continued for period of 6 months from June 16, 1937, the new hearing date to be fixed at the convenience of the Docket Section.

WOAI—Southland Industries, Inc., San Antonio, Texas.— Denied petition to withdraw without prejudice application for consent to transfer control of station WOAI to Columbia Broadcasting System, Inc. (Docket 4238). Permitted application to be withdrawn “with prejudice.”

WIRE—Indianapolis Broadcasters Inc., Indianapolis, Ind.— Granted petition to accept answer to the appearance of the applicant in the matter of Westinghouse Radio Stations, Inc. (WGL), Fort Wayne, Ind., to increase daytime power from 100 watts to 250 watts, 1570 kc., unlimited time (Docket 4522).

Leon M. Eisdell, Burlington, Iowa.— Granted petition for continuance of hearing date upon application for new station at Burlington, Iowa, to use 1310 kc., 100 watts, unlimited time (Docket 4502). Hearing continued to a date subsequent to June 24, 1937.

WJDX—LaMar Life Insurance Co., Jackson, Miss.— Granted petition to intervene in the matter of the application of Standard Life Insurance Co. of the South for a new station at Jackson, Miss., to use 1420 kc., 100 watts night, 250 watts day, unlimited time (Docket 4510).

Wichita Broadcasting Co., Wichita Falls, Texas— Denied motion for a continuance of the hearing upon the application of Tri-State Broadcasting System, Inc. (KTBS), Shreveport, La., for modification of license to use 620 kc., 500 watts night, 1 kw. day, unlimited time. Hearing scheduled for June 21, 1937.

KTHS—Hot Springs Chamber of Commerce, Hot Springs, Arkansas.— Granted petition for indefinite postponement of hearing on application for voluntary assignment of license.

ORAL ARGUMENTS GRANTED

NEW—Ex. Rep. 1-396: F. M. Gleason, d/b as North Georgia Broadcasting Co., Rossville, Ga.— Granted oral argument to be held July 1, 1937.

NEW—Ex. Rep. 1-398: Stanley Reid and Charles Whittell Boege, Jr., d/b as The Rapids Broadcasting Co., Cedar Rapids, Iowa.— Granted oral argument to be held July 1, 1937.

ACTION ON EXAMINERS' REPORTS

WMED—Ex. Rep. I-383: Peoria Broadcasting Co., Peoria, Ill.— Granted C. P. to install new transmitter and increase power from 500 watts night, 1 kw. day, to 1 kw. night, 5 kw. day; 1440 kc., unlimited time. Examiner George H. Hill sustained. Order effective July 6, 1937.

KGGC—Ex. Rep. I-104: The Golden Gate Broadcasting Co., San Francisco, Calif.— Granted modification of license to change hours of operation from specified hours to unlimited time; 1230 kc., 100 watts (Examiner George H. Hill sustained).

WTH—Ex. Rep. I-305: The Hartford Times, Inc., Hartford, Conn.— Granted modification of C. P. (B1-P-360) for change in hours of operation from daytime to unlimited.
Requests facilities of WNRI, 1200 kc., 100 watts (Examiner R. H. Hyde sustained). Order effective July 6, 1937.

KFP—Ex. Rep. 1-323: Voice of Greenville, Greenville, Tex.—Denied C. P. to make changes in equipment; change frequency from 1310 kc. to 1140 kc.; increase power from 50 watts to 100 watts; change hours of operation from specified to daytime; move transmitter from 2109 Park St. (rear), Greenville, Tex., to site to be determined, subject to Commission's approval (Examiner P. W. Seward sustained). Order effective July 13, 1937.

WAAB—Ex. Rep. 1-355: The Yankee Network, Inc., Boston, Mass.—Granted modification of license to increase day power from 500 watts to 1 KW; 1110 kc., 500 watts night, 1 KW day, unlimited time (Examiner Robert L. Irwin, sustained). Order effective July 13, 1937.

KWBG—Ex. Rep. 1-357: The Nation's Center Broadcasting Co., Inc., Hutchinson, Kans.—Denied C. P. to make changes in equipment and antenna (using directional antenna night); move transmitter from 101 E. Avenue A, Hutchinson, Kans., to approximately 3 miles southeast of present transmitter location; change frequency from 1420 kc. to 550 kc.; and increase power from 100 watts to 250 watts, unlimited time (Examiner Melvin H. Dalberg sustained). Order effective July 13, 1937.

APPLICATIONS RECEIVED

**First Zone**

NEW—Heard Radio, Inc., Washington, D. C.—Construction permit for a booster station on 1310 kc., 250 watts to operate synchronously with main transmitter of proposed broadcast station during specified hours, in or near Washington, D. C. Requests facilities of WOL, contingent on the granting of WOL's application for change in frequency. (Request of attorney.)

NEW—Heard Radio, Inc., Washington, D. C.—Construction permit for a booster station on 1310 kc., 250 watts, to operate synchronously with main transmitter of proposed broadcast station daytime only, in or near Washington, D. C. Requests facilities of WOL, contingent on the granting of WOL's application for change in frequency. (Request of attorney.)

W6XAO—Don Lee Broadcasting System, Los Angeles, Calif.—Construction permit to add aural transmitter to television equipment.

W6XAO—Don Lee Broadcasting System, Los Angeles, Calif.—License to cover above.
STEWART TO LEAVE FCC

Dr. Irvin Stewart, a member of the Federal Communications Commission, whose term expires on June 30, has notified the President that he will not be a candidate for reappointment to the Commission.

He will retire from the Commission to become director of a new Committee on Scientific Aids to Learning of the National Research Council. In connection with this step the Chairman of the National Research Council and Dr. Stewart on Wednesday, issued the following statement.

A Committee on Scientific Aids to Learning has been appointed by National Research Council. The members are:

James B. Conant, President, Harvard University, Chairman.
Vannevar Bush, Vice President and Dean of the School of Engineering, Massachusetts Institute of Technology.
L. D. Coffman, President, University of Minnesota.
Frank B. Jewett, Vice President, American Telephone and Telegraph Company; President, Bell Telephone Laboratories, Incorporated, 195 Broadway, New York, N. Y.
Ben D. Wood, Associate Professor of Collegiate Educational Research, Columbia University.
Bethuel M. Webster, Attorney and Counselor at Law, Webster & Garside, 15 Broad Street, New York, N. Y., Secretary.
Ludvig Hektoen, Chairman, National Research Council, ex officio.

The director in immediate charge of the activities of the Committee will be Irvin Stewart, at present vice chairman of the Federal Communications Commission and Chairman of the Telegraph Division of the Commission. Dr. Stewart has informed President Roosevelt that he will not be a candidate for reappointment to the Communications Commission when his term expires on June 30; that he will give all of his time to his new duties after that date.

The purpose of the Committee is to canvass, and to report to National Research Council, the extent to which and means by which certain methods, data, materials and products of science are and may be applied to learning.

Experts will be retained from time to time to make special studies under the direction of the Committee in the fields of radio, sound recording and reproduction, motion pictures, photography, etc. They will be known as Reporters.

The Committee will invite a number of distinguished persons to serve as Consultants. The Consultants will be so selected from time to time as to insure the effective cooperation of Government, the schools, scientific societies, research establishments, the professions, industry and the press.

The Committee will maintain its office in New York City.

It is understood that the Committee will undertake at once to survey the work and experience of National Advisory Council on Radio in Education.

FCC MOVES TO DISBAR ATTORNEYS

The Federal Communications Commission has issued the following press release (21416):

"May 20, 1937.

"On March 10, 1937, the Federal Communications Commission appointed a special committee, consisting of Commissioner George Henry Payne, Chairman, Commissioner Thad H. Brown, and Commissioner Paul A.

Make Your Plans Now to Attend the NAB Convention at Hotel Sherman, Chicago, June 20-23, 1937
Walker, to reopen and further investigate the case of George S. Smith, and any other incidents of similar character. This Committee has met and held hearings frequently and has yesterday submitted a report to the Commission. Based upon this report the Commission has issued the following order which has been served today, calling upon George S. Smith and Paul M. Segal to show cause why they should not be suspended, disbarred, their right to practice before the Commission revoked, or their further appearance as before this Commission prohibited:

Order

“In a regular meeting of the Federal Communications Commission, May 19, 1937:

Whereas, The Commission having conducted an investigation into the facts and circumstances concerning the alleged unauthorized and unlawful interpolation of documents into the records of the Commission in the case of Richard M. Casto, Docket 4212, and having inquired into the demeanor, good faith and conduct of Paul M. Segal and George S. Smith, attorneys for the said Richard M. Casto, in the making and prosecution of the application in the said case: and

Whereas, The Commission having further inquired into the demeanor, good faith and conduct of said Paul M. Segal and George S. Smith in connection with the organization of and filing of applications with the Commission by or for the Palmer Broadcasting Syndicate, Inc., and the alleged concealment in obtaining admission to practice before this Commission of material facts with reference to their legal qualifications, professional standing, character or integrity; or for the alleged violation of their oaths taken upon admission to practice before the Federal Communications Commission, that they would demean themselves as practitioners before the Commission uprightly and according to law, that they would support the Constitution of the United States and would conform to the Rules and Regulations of the Commission, in the following particulars, to wit:

1. That the said Paul M. Segal and George S. Smith did, on or about the 9th day of December 1936, knowingly and with intention to deceive, interpolate, or aid and abet in the interpolation of, certain signed and notarized depositions into the files of the Commission in the case of Richard M. Casto, Docket 4212, contrary to the Rules and Regulations of the Commission.

2. That the said Paul M. Segal and George S. Smith did represent said Richard M. Casto in the preparation and filing of his application for a radio station construction permit and in hearings before this Commission on such application, all of which was done with the knowledge that the said Richard M. Casto was not the true applicant, that he did not own the funds as represented, and that he was a subterfuge or dummy applicant for another person, or persons, all of which was done to deceive and mislead the Commission in its consideration of the said application and other applications; and to hinder and delay other applicants from obtaining or operating under authorizations of this Commission.

3. That the said Paul M. Segal and George S. Smith did conceive, organize and cause to be charted the Palmer Broadcasting Syndicate, Inc., for the purpose of using said Palmer Broadcasting Syndicate, Inc., as a dummy applicant for authorizations from the Commission, and for the purpose of deceiving and misleading this Commission in its consideration of applications to be filed by the Palmer Broadcasting Syndicate and applications of other applicants, and to hinder and delay other applicants in obtaining or operating under authorizations of this Commission.

4. That the said Paul M. Segal and George S. Smith did knowingly and with the intention to deceive have the said Palmer Broadcasting Syndicate, Inc., file applications before the Commission for stations or construction permits at Portland, Maine, Lewiston, Maine, and Cheyenne, Wyoming, for the purpose of deceiving and misleading the Commission in its consideration of said applications and applications of other applicants, and to hinder and delay
other applicants in obtaining or operating under authorizations of this Commission.

It is further ordered, That the said Paul M. Segal and George S. Smith shall file with the Commission within thirty-one days from the date hereof their several answers under oath to the foregoing charges, which shall include a statement as to whether they wish to appear and be heard thereon.

It is further ordered, That the Commission enter upon a hearing, at a time and place hereafter to be fixed, to determine the truth or falsity of the said charges, and to determine whether the said Paul M. Segal and George S. Smith and each of them should be suspended, disbarred, their right to practice before the Commission revoked, or their further appearance as attorneys before this Commission prohibited.

A copy of this order shall be forthwith served upon the said respondents, Paul M. Segal and George S. Smith.

By the Commission,
T. J. Slowie,
Secretary.

Segal Issues Statement

In connection with the Commission’s statement Mr. Segal has made the following statement:

“May 20, 1937.

‘Telegraph Commissioner George H. Payne after a preliminary investigation of which he had charge has requested that the Federal Communications commission hear evidence on charges of improprieties on the part of my associate George S. Smith and myself.

‘Of course, the commission in the face of such charges owes it to itself to hear the testimony and find out the facts. The proceeding by way of citation for disbarment is the only formal proceeding available for this purpose under the commission’s regulations.

‘Both Mr. Smith and I are confident that our conduct as practitioners and lawyers will bear any scrutiny by the commission or by any of the courts before which we have practiced for many years. We also feel certain that Commissioner Payne’s colleagues on the Federal Communications commission will give us a prompt and fair hearing and the vindication to which we are entitled. We intend to give every cooperation.

‘In the instance of Mr. Smith, matters of which he is accused have been thoroughly investigated in a previous informal proceeding by the full commission, after which a letter was written him which, although it reprimanded him, said in part:

‘‘...we do not find that you should be cited to show cause why you should not be disbarred or suspended from practice before this Commission.’

‘As for the accusation against me, my conduct in connection with the matter has been entirely proper and consistent with a sound administration of law. The most simple explanation on my part will show this. I can only express regret—and I feel that Commissioner Payne’s colleagues have not been told—that I have had no opportunity to relate the facts to the investigating committee headed by Commissioner Payne prior to the recent and present publicity. Had I been extended an opportunity to clear up the facts for the committee I am sure the disbarment proceedings would not have been brought.

‘On May 3, 1937, a commission attorney told me over the telephone that I would be given an opportunity to appear before Commissioner Payne’s committee; he agreed to telephone back to make definite arrangements for my appearance; I have not heard from him.’

NEW TROY STATION RECOMMENDED

The Troy Broadcasting Company, Inc., applied to the Federal Communications Commission for a construction permit for the erection of a new broadcasting station at Troy, N. Y., to use 950 kilocycles, 1,000 watts and daytime operation.

Examiner George H. Hill in Report No. I-422 recommended that the application be granted. He states that the evidence indicates that there is need for the service proposed to be rendered by the applicant and that the granting of the application would not cause any objectionable interference.

RECOMMENDS NEW MARYLAND STATION

Frank M. Stearns of Washington, D. C., filed an application with the Federal Communications Commission for a construction permit for the erection of a new station at Salisbury, Md., to use 1200 kilocycles, 250 watts and daytime operation.

Chief Examiner Davis G. Arnold in Report No. I-423 recommended that the application be granted “subject to the condition that the transmitter site be approved by the Commission before construction is undertaken.” He found that there is need for daytime service in the area proposed to be served and the Examiner found that “the interests of Station WCAU will not be affected by reason of interference.” The Examiner states that the granting of the application would be in the public interest.

VOLUNTARY ASSIGNMENT OF LICENSE RECOMMENDED

The Selma Broadcasting Company, licensee of broadcasting station WHBB, Selma, Ala., applied to the Federal Communications Commission to voluntarily assign the license to the Selma Broadcasting Company, Inc., the station operates on 1500 kilocycles, 100 watts daytime.

Examiner P. W. Seward in Report No. I-425 recommends that the assignment be granted. He states that
the assignee in all ways qualified and able to operate the station and the granting of the application would be in the public interest.

In another case involving the same station the same Examiner in Report No. I-424 recommended that the application of the station to use unlimited time instead of daytime be granted. In this case the Examiner found that the evidence showed the need for additional nighttime service for the area proposed to be served, and that the nighttime service of the station would not be expected to result in interference to any present operating stations.

RECOMMENDS DISPOSING OF THREE CASES

The Delaware Broadcasting Company, Station WILM, Wilmington, Del., applied to the Federal Communications Commission to move to Chester, Pa. It operates on 1420 kilocycles, 100 watts and shares time with WAZL.

Examiner R. H. Hyde in Report No. I-426 states that following a hearing the applicant asked to withdraw the application. He recommends that all material be deposited in the closed files of the Commission.

J. Leslie Doss applied to the Commission for a construction permit for the erection of a new station at Sarasota, Florida, to use 1390 kilocycles, 250 watts and daytime operation.

Examiner Tyler Berry made Report No. I-427. At a hearing the applicant did not appear but asked that the decision be based on a letter filed. It was not admissible as evidence and the Examiner recommended that the application be denied.

The Northern Broadcasting Company applied to the Commission for a construction permit for the erection of a new station at Traverse City, Mich., to use 830 kilocycles, 500 watts, daytime operation.

Examiner Tyler Berry made Report No. I-428. No appearance was made for the applicant when the hearing came on and recommendation was made that the case be denied because of default which the Examiner recommends be done.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

Nos. 3130-3132. Complaints have been issued against two companies charged with unfair methods of competition in selling to dealers assortments of candy so packed that use of a lottery scheme is involved when the candy is resold to ultimate consumers. The respondent companies are Idaho Candy Co., 412 South Eighth Street, Boise, Idaho, and Miss Morris Candles, Inc., 517-19 Third St., North, Minneapolis.

According to the complaints, the assortments include punchboards or pushcards by means of which lottery schemes may be conducted in the sale of candy. Idaho Candy Co., the complaint charges, sells articles of novelty merchandise, as well as candy by use of the punchboard or pushcard methods.

No. 3131. Charging unfair competition in the sale of fountain pens through the marking thereon of excessive retail prices, a complaint has been issued against Robert Morris, trading as D. F. Pen Co., Bordentown, N. J. Morris' price marking practices are alleged to have had the effect of misleading buyers into believing that the pens he sold were superior products, manufactured for sale at retail prices closely approximating the prices stamped thereon, when in fact, according to the complaint, the merchandise sold by the respondent was not of a superior grade normally sold at the prices marked thereon or for any figure even closely approaching such price.

No. 3134. Hershey Chocolate Corporation, Hershey, Pa., Peter Cailler Kohler Swiss Chocolates Co., Inc., Fulton, N. Y., and five other companies, are named respondents in a complaint, charging combination and conspiracy to control trade in a special chocolate bar manufactured by the Hershey and Kohler companies, for sale in vending machines in theaters and other public places.

Other respondents are: Chocolate Sales Corporation, Hershey, Pa., distributor of Hershey products; Lamont, Corliss & Co., 60 Hudson St., New York, distributor of Kohler products; Sanitary Automatic Candy Corporation, 235 West Twenty-third St., New York; Berio Vending Co., 1518 North Broad St., Philadelphia, and Confection Cabinet Co., 315 Clinton Ave., Newark, N. J. The last four companies are distributors of confectionery through vending machines.

A complaint charges that about October, 1935, the respondents conspired and united in a concerted undertaking among themselves to close the source of supply of a special chocolate bar manufactured by Hershey and Kohler for the vending machine trade to all members of the trade other than the respondents, Sanitary, Berio and Cabinet companies.

The program is alleged to have been made effective by the respondents establishing the Sanitary company as purchasing agent or representative for the three respondent vending machine organizations, and causing contracts or agreements to be entered into, providing that no sales of the special chocolate bar manufactured by Hershey and Kohler for the vending machine trade would be made to any member of such trade other than the respondents, Sanitary, Berio and Cabinet companies.

No. 3136. Unfair methods of competition in violation of Section 5 of the Federal Trade Commission Act are alleged in a complaint issued against Bernard Goldberg, trading as Bernie's Quality Clothes, 713 Seventh St., N. W., Washington, D. C.

Engaged in the retail sale of men's and women's wearing apparel, the respondent is said to have advertised in newspapers and handbills that "Bernie offers a wide choice of Xmas gifts free" with merchandise purchases of certain amounts, and that to purchasers of a dress would give another dress free.

Stipulations and Orders

The Commission has issued the following cease and desist orders and stipulations:

The following firms have signed stipulations with the Commission:

No. 01572. Harry Lloyd, trading as Shaw Products, 4064 Bronx Boulevard, New York; "Shaw's Tablets" for indigestion, nervousness and stomach distress.

No. 01573. Mrs. Mary A. Summers and Mrs. Alice Aylin, trading as Summers Medical Co., 127 East Washington St., South Bend, Ind.; "Mrs. Summers' Home Treatment" and "Mrs. Summers' W. O. K. Tablets", for ailments peculiar to women.

No. 01574. T. R. Ellard, trading as Copinol Co., 700 South Main St., Los Angeles; "Copinol" for cataract, sinus trouble, colds and enlarged tonsils.

No. 01575. Arrow Press, Inc., Product Exchange Building, Minneapolis, will stop representing that it furnishes Hammermill Bond paper in orders for printed stationery at the same price at which it supplies its cheaper grade known as Arrow Bond paper, and will cease making unmodified claims of earnings for prospective salespersons in excess of the average earnings achieved by its salespersons who follow the respondent company's sales plan under normal business conditions.
George W. and Sherman H. Thompson, trading as The Redwood Perfume & Chemical Co., Eureka, Calif.; treatment for bronchial diseases, tuberculosis, cancer, ulcers, skin diseases, and other ailments.

Dr. W. E. Williams, 1003 Krasue Building, Tampa, Fla., has entered into a stipulation to discontinue false advertising in connection with his mail order business in the sale of artificial teeth.

Dr. W. E. Williams agreed to cease representing that artificial teeth purchased from him by mail order are better or are the only means to obtain "your real individuality" or to procure teeth "exactly the way you want them"; that his plates are constructed in a better manner, and that youthful expression can be restored by the use of artificial teeth purchased through the mail.

Wylie Ave., Washington, Pa., trading as the Fertile Co., has entered into a stipulation to discontinue false advertising in connection with his mail order business in the sale of artificial teeth purchased through the mails.

"Liquid Shumake" for backache, dizziness and kidney ailments.

"F & F Cough Lozenges," for coughs, colds and sore throats.

"Camphorole" for foot troubles, croup, asthma, tonsillitis, sinus trouble, bronchitis, and colds of the head or chest.

"Freckle Ointment" for freckles and skin blemishes.

"Calcium Wafer Compound" to designate its product, until such time as there may be sufficient calcium content, according to medical standards, to justify the designation.

"O. B. C. Chemical Co.,” for skin diseases, carbuncles and ivy poisoning.

"Pink Ointment" for athlete’s foot, ringworm, and eye infections.

"Camphorole" for foot troubles, croup, asthma, tonsillitis, and skin diseases.

"Orine" for ear ailments and catarrh.

"S. Alkmol’s Pharmacy, Cooperstown, N. Dak.; "X. E. M. Salve", and "Iitch Specific" for skin irritations.

No. 10580. James C. and Samuel R. Marasco, 4 West Wylie Ave., Washington, Pa., trading as the Fertile Co., in the sale of Fertile Jolly Ton Cream, will stipulate that this product will give permanent relief for dryness and brittleness of the hair or will preserve permanent waves.

No. 10583. J. F. Hightower, trading as The Shumake Co., Fort Worth, Tex.; "Liquitum Shumake" for backache, dizziness and kidney ailments.

No. 10584. D. W. Chapman, 265 West Wallow Dr., Chicago, trading as Eptol Beauty Cream, stipulates that he will cease and desist from using his Eptol Beauty Cream as being capable of removing or preventing wrinkles, lines or crowfeet; it renders greater protection than any other similar product.

No. 10586. David R. Siegel, trading as Bedevere Products Co., Box 23, Madison Square Station, New York, in selling a so-called crucifix ring, agreed to discontinue advertising that such ring is capable of giving the purchaser health or beauty, or of increasing the purchaser’s weight.

No. 10587. Earl Hall, trading as United Watch Co., St. Anthony Falls Station, Minneapolis, stipulated that he will cease using the words "railroad," "jewed" and "gold-plated" as descriptive of his watches, which, respectively, are not of the type possessing the accuracy and durability generally required of watches used by railroad workers; do not contain jewels or the number of jewels indicated, and have a plating of gold of a thickness less than .0001 of an inch on the outside of the face or on the inside.

No. 10590. F. F Laboratory, 3501 West 48th St., Chicago; "F & F Laboratories," for colds and sore throats.

No. 10595. Loye Distributing Co., 420 McGee St., Kansas City, Mo.; "Hawley’s Creme," and "Hawley’s Crystals" for rheumatism, lumbago, chronic gall bladder disturbances, high or low blood pressure, nervous indigestion, and dyspepsia.

No. 10596. John B. Armstrong, M. D., trading as Pink Ointment Co., Topeka, Kansas; "Pink Ointment" for athlete’s foot and other skin diseases.

No. 10597. Jacob C. Gernard and Stephen J. Barzso, trading as Myona Salve Co., 279 Grace Ave., Elmhurst, Ill.; "Myona Salve" for skin diseases, carbuncles and ivory poisoning.

No. 10598. Oakland Chemical Co., 59 Fourth Ave., New York, in advertising ivory powder, will quit representing that it will quickly refine the open pores of the skin, prevent sallow or muddy complexion, or give natural color to sallow or muddy complexion, and other similar assertions.

No. 10599. Campphorole, Inc., 3201 Atlantic Ave., Atlantic City, N. J.; "Campphorole," for foot troubles, croup, asthma, tonsillitis, sinus trouble, bronchitis, and colds of the head or chest.

No. 10600. Aurine Co., Inc., Hawthorne Station, Chicago; "Orine" for ear ailments and catarrh.

No. 10604. J. M. Naylor, trading as Slendabalm Laboratories and S. B. L. Laboratories, Salina, Kansas; "Slendabalm" for obesity.

No. 10608. Mrs. E. M. Dyck, trading as Arnold Laboratories, 14 North Jackson St., Glendale, Calif.; "Aford Tablets," for sinusitis.

No. 10615. Eva and F. F. Hopkins, trading as The House of Hopkins, Shenandoah, Iowa, will cease advertising that Eva Hopkins Marvel Creme Powder will protect the skin against sun, wind and dust, or give absolute protection to the skin, and that it renders greater protection than any other similar product.

Nos. 1957-1958-1959-1960. Six New York companies dealing in dresses and other wearing apparel for women have entered into stipulations in the Federal Trade Commission in the sale of their products, such representations involving use of the word "silk" to describe articles not made of that material.

Four of the respondent companies are department stores, as follows: Stern Bros., 41 West Forty-second St., Arnold, Constable & Co., Inc., Fifth Avenue and Fortieth St., Bonwit Teller Inc., Fifth Avenue and Fifty-sixth St., and Melodine Products Corporation, 1400 Broadway, New York.

The representations to be discontinued by these companies in their advertising were deemed to constitute unfair methods of competition in violation of Section 5 of the Federal Trade Commission Act.

Generally, the stipulations require discontinuance in advertisements of use of one or more of the words "silk," "satin," "taffeta" or "crepe," alone or with other words, to imply that the products to which such words referred were composed of silk, when in fact they were made of materials other than silk.

Brock stipulates that he will discontinue using in advertising or as a stamp on his spectacle frames the term "1/10-12K," alone or in connection with the initials "G. F." (meaning gold-filled), or in any manner, when, in fact, the gold content is other than that represented by such stamp and it assays other than 45/1000 fine gold or better.
no. 1987. Joseph Dixon Crucible Co., 167 wayne st., Jersey City, N. J., has entered into a stipulation to cease certain unfair representations in the sale of wax crayons, in violation of section 5 of the Federal Trade Commission Act. Manufacturing pencils, pressed crayons, penholders and pencil sharpeners the respondent company, according to the stipulation, sold waxed crayons manufactured by another corporation. Under the stipulation, use by the respondent company of the term "made in U. S. A." by Joseph Dixon Crucible Co., Jersey City, New Jersey," as a mark or brand for its wax crayons, when in fact it does not make such products, will be discontinued.

no. 2466. Hirsch Distilling Co., 414 Delaware st., Kansas City, Mo., has been ordered to cease and desist from representing that it is a distiller of whiskies, gins or other spirituous beverages, that it manufactures such products through the process of distillation, or that it owns or operates a distillery, unless and until it does own or operate such a place.

no. 2580. Prohibiting false and misleading representations in advertising concerning the therapeutic value of a proprietary preparation generally designated as "Germex," an order has been entered to cease and desist against Tyrrell H. Duncombe, trading as Duncombe Research Laboratory, 14049 Woodward Ave., Highland Park, Mich.

Findings are that in the case are respondents advertised to the public as a distiller of a safe, non-poisonous antiseptic and as a cure or remedy for numerous dangerous and malignant diseases, including some regarded as incurable.

no. 2636. Prohibiting unfair competition in the sale of leather goods, an order has been issued to cease and desist against Joseph H. Seld, of Gloversville, N. Y., trading as Seld Leather.

Seld is directed to stop using the word "chamois," alone or with other words, to describe leather products not made from the skin of the Alpine antelope or chamois, or from the fleshers or under-skin of sheepskin, oiled and suede-finished. Provision is made that later on, if chamois made from sheepskin or under-skin of sheepskin, tanned by a formaldehyde and salt process, may be designated "white chamois."

no. 2654. An order has been issued requiring LaSalle Extension University, Chicago, to cease and desist from certain unfair representations in violation of section 5 of the Federal Trade Commission Act.

The respondent, engaged in the correspondence school business, is directed to stop representing, directly or indirectly, through use of the term "extension university" or the word "university" in its corporate name, or in any other manner, that it is or conducts a university or extension university. Findings are that the respondents are said to dominate their industry in the United States.

no. 2656. A group of manufacturers of an dealers in radio sets and radio parts, located principally in Washington, Philadelphia and in New York and vicinity, has been ordered to cease and desist from unfair methods of competition in the interstate sale of water gate valves, hydrants, fittings and similar products used to fix and maintain uniform delivered prices, in the interstate sale of water gate valves, hydrants, fittings and similar products used for water supply systems.

The order also is directed against The Water Works Valve and Hydrant Group of the Valve and Fittings Institute, New York, N. Y., its officers, and two officers of the institute, George V. Denny, president, and Samuel G. Moyer, assistant secretary. All but one of the respondent companies are members of the Water Works Valve and Hydrant Group.

Selling their products principally to municipalities and to divisions and institutions of the Federal and State governments, the respondents are said to dominate their industry in the United States.

According to findings in the case, the respondents filed answers not constituting an admission of any conclusions of law or in any other manner, that the respondent's product will cure stomach ulcers, gastritis, indigestion, dyspepsia and various other stomach ailments and diseases, including those caused or reputed to be caused by hyperacidity.

no. 2958. An order has been entered directing 33 companies and their officers to cease and desist from combining and conspiring to establish the allegations made against them: Etched Products Corporation, 19th and Market St., Philadelphia, and four other officers and directors; Franklin Sales and Distributing Co., Inc., 205 East 42nd St., New York, and two officers; Harry B. Smith, 1901 South 10th St., Philadelphia, and two officers; H. L. Dreyfus, 322 North 10th St., Philadelphia, and two officers; Electro Chemical Engineering Co., 1100 Brook Ave., New York, and four officers; American Water Works Company, 1749 Grace St., Chicago, and its officers, E. C. Davis, president, to establish the allegations made against them: Etched Products Corporation, Franklin Sales and Distributing Co., Inc.; and H. L. Dreyfus, electrochemical engineering co., American Water Works Company.

The complaint was dismissed as to the following respondent companies and their officers for the reason that there was no evidence to establish the allegations made against them: Studebaker Corporation, Franklin Sales and Distributing Co., Inc., and Studebaker Corporation, Franklin Sales and Distributing Co., Inc., and Franklin Sales and Distributing Co., Inc.
The order prohibits representation, through use of phrases such as “England's Most Popular Sweet,” or of other words of similar import or through any other means, that the respondent company's toffee products are made in England or in any other foreign country or are imported into the United States.

FEDERAL COMMUNICATIONS COMMISSION ACTION

HEARING CALENDAR

The following broadcast hearings are scheduled at the Commission for the week beginning Monday, May 31:

Thursday, June 3

HEARING BEFORE AN EXAMINER

NEW—Clarence A. Berger and Saul S. Freeman, Coeur d'Alene, Idaho.—C. P., 1200 kc., 100 watts, daylight.

ORAL ARGUMENT BEFORE THE BROADCAST DIVISION

Examiner’s Report No. 1-379:
WATR—The WATR Company, Inc., Waterbury, Conn.—C. P., 1290 kc., 250 watts, unlimited time.

Examiner’s Report No. 1-588:
NEW—Cumberland Broadcasting Co., Inc., Portland, Me.—C. P., 1210 kc., 100 watts, unlimited time.
NEW—Twin City Broadcasting Co., Inc., Lewiston, Me.—C. P., 1210 kc., 100 watts, unlimited time.

NEW—Philip J. Wiseman, Lewiston, Me.—C. P., 1210 kc., 100 watts, unlimited time.
NEW—Harriet M. Blendom and Helen W. MacLellan, d/b/a Cape Cod Broadcasting Co., Barnstable, Mass.—C. P., 1210 kc., 100 watts, 250 watts LS, unlimited.
NEW—George M. Hankins, Hyannis, Mass.—C. P., 1210 kc., 100 watts, 250 watts LS, unlimited.
NEW—Arthur E. Seagrave, Lewiston, Me.—C. P., 1420 kc., 100 watts, 250 watts LS, unlimited.

Friday, June 4

HEARING BEFORE AN EXAMINER

APPLICATIONS GRANTED

KRIS—Gulf Coast Broadcasting Co., Corpus Christi, Texas. Granted modification of C. P. to increase night power from 250 to 500 watts; 1350 kc., 500 watts day, unlimited.
KFOY—Plains Radio Broadcasting Co., Lubbock, Texas. Granted license to cover C. P., 1410 kc., 1 KW night, 1/2 KW day, unlimited. Same conditions as above.
KPLT—North Texas Broadcasting Co., Paris, Texas. Granted license to cover C. P., 1500 kc., 250 watts, daytime only.
WWJ—The Evening News Assn., Inc., Michigan, City of Detroit. Granted renewal of license for the period ending September 1, 1937.
WTNJ—WOAX, Inc., Trenton, N. J. Granted extension of existing license for period of 2 months.
WMBO—Havens & Martin, Inc., Richmond, Va. Granted renewal of license for the period June 1 to December 1, 1937. Also same for auxiliary transmitter.
WHO—Miami Valley Broadcasting Corp., Dayton, Ohio. Granted renewal of license for the period ending October 1, 1937.
KCRJ—Charles C. Robinson, Jerome, Ariz. Granted C. P. to move transmitter locally to Lower Hogback, install vertical radiator, make changes in equipment, increase day power to 250 watts and time of operation to unlimited.
WBTM—Piedmont Broadcasting Corp., Danville, Va. Granted license to cover C. P., 1570 kc., 100 watts night, 250 watts day, unlimited time.
WSAJ—Grove City College, Grove City, Pa. Granted license to cover C. P., 1310 kc., 100 watts, specified hours.
WAEB—Southeastern Broadcasting Co., Inc., Mobile (Macon, Ga.). Granted license to cover C. P. for a relay broadcast station, frequencies 1622, 2058, 2150 and 2790 kc., 20 watts.
KPFA—The Peoples Forum of the Air, Helena, Mont. Granted modification of C. P. authorizing installation site and studio locally, install new equipment and vertical radiator, and increase power from 100 to 250 watts; 1210 kc., unlimited time.
KXYZ—Harris County Broadcast Co., Houston, Tex. Granted renewal of license for the period ending November 1, 1937.
WNBR—Memphis Broadcasting Co., Memphis, Tenn. Granted renewal of license for the period ending November 1, 1937.
KONO—Mission Broadcasting Co., San Antonio, Texas. Granted voluntary assignment of license to Eugene J. Roth, trading as Mission Broadcasting Co.; 1370 kc., 100 watts, shares equally with KMAC.
NEW—Minnesota Broadcasting Corp., Rose Township, Minn. Granted C. P. for new high frequency broadcast station, frequency 2600 kc., on an experimental basis, 150 watts.
NEW—Iowa Broadcasting Co., Des Moines, Iowa.—Granted C. P. for new high frequency broadcast station to licensee of KSO; frequency 2650 kc., 100 watts, experimentally.

W9XBS—National Broadcasting Co., Inc., Chicago, Ill.—Granted C. P. to make changes in equipment and decrease power to 50 watts.

W2XJF—Bamberger Broadcasting Service, Inc., New York City.—Granted modification of C. P. extending commencement date to 5-1-37 and completion date to 11-1-37.

W4XCA—Memphis Commercial Appeal, Inc., Memphis, Tenn.—Granted renewal of license for high frequency broadcast station for the period June 1, 1937, to April 1, 1938.

SET FOR HEARING

NEW—Meno Schoenbach, Woodward, Okla.—C. P. for new station to operate on 1510 kc., 100 watts, unlimited time, exact transmitter and studio sites to be determined with Commission's approval.

KFOR—Cornbelt Broadcasting Corp., Lincoln, Nebr.—C. P. to change transmitter site locally, install new equipment and directional antenna system for night-time operation, change frequency from 1210 kc. to 1450 kc., and increase power from 100 watts night, 250 watts day, to 1 KW night, 5 KW day.

WDSU—WDSU, Inc., New Orleans, La.—C. P. to install new equipment and vertical radiator and increase power from 1 to 5 KW. To be heard before the Broadcast Division.

The following stations were granted extensions of present licenses on a temporary basis only for period ending July 1, 1937, pending receipt and action on renewal applications:

KPDN, Pampa, Tex.; KPMC, Bakersfield, Calif.; KVSO, Ardmore, Okla.; WBBZ, Ponca City, Okla.; WCPO, Cincinnati; WJT, Jamestown, N. Y.; WSAJ, Grove City, Pa.; WTL, Tallahassee, Fla.

SPECIAL AUTHORIZATIONS

WJSY—Columbia Broadcasting System, Inc., Washington, D. C.—Granted special temporary authority to operate a 100-watt portable transmitter on 1510 kc., on an experimental basis, between 8 a.m. and 6 p.m., EST, May 24 to June 2, 1937, within area contiguous to metropolitan Washington, for purpose of testing sites for location of new transmitter.

WEST—Asso. Broadcasters, Inc., Easton, Pa.—Granted extension of special temporary authority to operate simultaneously with station INN at 1310 kc., from 10 to 11 a.m. and from 5 to 6 p.m., EST, for period May 25 to June 22, 1937, due to adoption of daylight saving time in Easton.

WMFR—Radio Station WMFR, Inc., High Point, N. C.—Granted special temporary authority to operate from local sunset (May sunset, 7:15 p. m.) to 10 p.m., EST, Friday, May 28, in order to broadcast a program consisting of features originating in an auxiliary studio to be opened at Thomasville, about 6 miles from High Point.

KOTN—Universal Broadcasting Corp., Pine Bluff, Ark.—Granted special temporary authority to operate from 7:30 to 10:30 p.m., EST, May 29, 30, June 1, 2, 3, 19, 21, 24, 25, 26, 1937, in order to broadcast night baseball games played by home team out of town.

WSUI—State University of Iowa, Iowa City, Iowa.—Granted special temporary authority to operate a minimum of 6 hours daily, instead of unlimited time, for period June 1 to June 30, 1937, inclusive, in order to observe summer vacation period at State University.

WMBQ—Joseph Husid, Receiver for Metropolitan Broadcasting Corp., Brooklyn, N. Y.—Granted extension of special temporary authority for Joseph Husid, Receiver for Metropolitan Broadcasting Corp., to operate station for period June 1 to July 1, 1937, pending action on applications affecting station WMBQ.

WCAD—St. Lawrence University, Canton, N. Y.—Granted special temporary authority to operate from 1:30 to 5 p. m. and 4 p. m. to local sunset (June 1, 1937, 7:45 p. m.) EST, June 12, in order to broadcast baseball game; from 2:30 to 4:30 n. m., EST, June 13, in order to broadcast a broadcast; from 10 a. m. to 12 noon and 1:30 to 3 p. m., EST, June 14, in order to broadcast Commencement services and luncheon.

KQV—KQV Broadcasting Co., Pittsburgh, Pa.—Granted special temporary authority to operate simultaneously with WSMK from 10 p. m. to 12 midnight, Wednesday, June 16, for purpose of broadcasting the Brooklyn at Cincinnati night game.

WHD—The Upper Michigan Broadcasting Co., Calumet, Mich.—Granted special temporary authority to operate from 12:30 p. m. to 1:00 p.m., CST, June 2, 9, 16, 23 and 30, 1937, in order to continue weekly broadcasts of Calvary Northland Missions Stations under direction of Rev. John Vanderschrie.
APPLICATIONS DISMISSED

The following applications heretofore set for hearing, were dismissed at request of applicants:

WHKC—Associated Radiocasting Corp., Columbus, Ohio. —640 kc., 1 kw. 5 kw. LS, limited time (local sunset at Los Angeles).

EXAMINERS’ REPORTS RELEASED SINCE MAY 18, 1937

WSAU—Ex. Rep. 1-430; Northern Broadcasting Co., Wausau, Wis.—Examiner P. W. Seward recommended grant of modification of license to change hours of operation from daytime unlimited.

WHBB—Ex. Rep. 1-424; W. J. Reynolds, Jr., J. C. Hughes, and J. S. Allen, d/b as Selma Broadcasting Co., Selma, Ala.—Examiner Davis G. Arnold recommended grant of C. P. to waive requirements of Rule 156, for period May 23 to June 1, 1937, to broadcast transmitter on frequencies 31100, 34600, 37600 and 40600 kc., using 30 watts power, for period of 30 days from May 23 to June 1, 1937, for relay broadcast of Sundays, June 6, 13, 20 and 27, in order to broadcast programs now heard Sunday p. m. due to belief that audience is larger during mornings than during evenings.

WBAP—Carter Publications, Inc., Fort Worth, Tex.—Granted special temporary authority to use joint call letters WBAA-WBAP and waive requirements of Rule 156, for period beginning June 12 and ending in no event later than 3 a. m., EST, August 1, 1937, in order to broadcast program of the Central Exposition of the Texas Centennial Celebration in Dallas.

WBBD—WCBD, Inc., Chicago, Ill.—Granted extension of special temporary authority to operate relay broadcast station, May 28, 1937, to relay broadcast program opening of Golden Gate Bridge, San Francisco, on frequency 2375 kc., for relay broadcast over NBC network; also relay broadcast program describing arrival of U. S. Fleet at San Francisco on frequency 2750 kc., for relay broadcast over NBC network.

WQPV—Stack Comunications, Inc., Rocky Point, N. Y.—Granted special temporary authority for point-to-point uncontrolled telegraph stations in addition to the authorization contained in present licenses covering operation of these stations, to communicate with relay-broadcast stations WEHE located on Imperial Airways seaplane Cavalier and WIEO on Pan American seaplane USA-Bermuda Clipper, to provide contact control communication service to facilitate reception of program material through the Riverhead, N. Y., receiving station for delivery to the NBC network, for period June 1 to 10, 1937, conditionally.

APPLICATIONS DENIED

The following applications, heretofore set for hearing, were denied as in cases of default for failure to file appearances and statement of facts in accordance with Rule 104.6 (c):

NEW—G. Kenneth Miller, Tulsa, Okla.—1310 kc., 250 watts, daytime.

NEW—W. W. Hunt, J. B. DeMotte and F. H. Miller, d/b as The Ocala Broadcasting Co., Ocala, Fla.—1500 kc., 100 watts, 250 watts LS, unlimited.

NEW—B. J. Hecker, Salem, Ore.—1330 kc., 500 watts, 700 watts LS, unlimited.

WGR—North Side Broadcasting Corp., New Albany, Ind.—Denied special temporary authority to operate 12 midnight to 2 a. m., CST, period not exceeding 30 days, broadcast commercial program consisting high class dance music.

NEW—John W. Heiser, New York City.—Denied application for C. P. for authority to operate with 5 kw. on 970 kc., limited time, and until sunset at Chicago.

Granted petition of Commodore Broadcasting, Inc., to intervene in the proceedings upon the application of Glenn E. Webster for a new station at Decatur, Ill. Docket 4503.

Granted petition of WDZ Broadcasting Co. to intervene in the proceedings upon the application of Glenn E. Webster for a new station at Decatur, Ill.

Granted petition of Decatur Newspapers, Inc., to intervene in the proceedings upon the application of Glenn E. Webster for a new station at Decatur, Ill.

Granted petition of KLO, Interstate Broadcasting Corp., Ogden, Utah, in so far as it relates to the acceptance of the amendment to its application for C. F., and denied that part of the petition requesting that the application as amended be heard on June 4, 1937, as at present scheduled.

Granted petition of KCMA Broadcasting Co., Kansas City, Mo., for a supplemental order to take depositions of additional witnesses on behalf of its application. Docket No. 4485.

NEW—Power City Broadcasting Corp., Niagara Falls, N. Y.—Effective date of order extended to June 8, 1937.

APPLICATIONS RECEIVED

First Zone

WGAN—Portland Broadcasting System, Inc., Portland, Maine.—Modification of construction permit (1-P-B-3180) for a new station, requesting extension of commencement and completion dates from 11-22-36 and 5-22-37 respectively to 5-22-37 and 11-22-37.

NEW—Tri-City Broadcasting Co., Inc., Schenectady, New York.—Construction permit for a new station to be operated on 950 kc., 1 KW, unlimited time. To use directional antenna day and night.

WMEM—National Broadcasting Co., Inc., Mobile.—Construction permit to install a new transmitter and decrease power from 150 watts to 100 watts.

WMEF—National Broadcasting Co., Inc., Mobile.—Construction permit to install a new transmitter and move transmitter from Virginia Beach Blvd. 1.7 miles from Norfolk.

NEW—Paul F. Godley, Montclair, N. J.—Construction permit for a new high frequency broadcast station to be operated on 41800 kc., up to 5 KW power.

KCMO—Broadcasting Co., Kansas City, Mo.—Authority to install automatic frequency control equipment.

NEW—C. G. Hill, George D. Walker, Susan H. Walker, Mobile (Winston-Salem, N. C.)—Construction permit for a new relay broadcast station to be operated on 31100, 31600, 37600, 40000 kc., 5 watts.

NEW—WKY Radiophone Co., Mobile (Oklahoma City, Okla.)—Construction permit for a new relay broadcast station to be operated on 1622, 2058, 2150, 2790 kc., 200 watts.

NEW—The Birmingham News Co., Birmingham, Ala.—Construction permit to cover construction permit (B3-PRE-13) as modified.

W5XAB—Fort Worth Broadcasters, Inc., Fort Worth, Texas.—Modification of construction permit to reduce power from 5 watts to 2 watts. Amended: To make changes in equipment.

W5XAB—Fort Worth Broadcasters, Inc., Fort Worth, Texas.—License to cover construction permit (B3-PRE-13) as modified.

Fourth Zone

WBAA—Purdue University, W. Lafayette, Ind.—Construction permit to install new transmitter; make antenna changes; change power from 500 watts night, 1 KW day, to 5 KW daytime; change hours of operation from specified hours to daytime only; and move transmitter 1/2 mile on Northwestern Avenue, West Lafayette, Ind. (same address). Amended to change transmitter site on Northwestern Ave., W. Lafayette, Ind. (different geographical site).

WTAD—Illinois Broadcasting Corp., Quincy, Ill.—Authority to install new automatic frequency control equipment.

KFJB—Marshall Electric Co., Inc., Marshalltown, Iowa.—License 1200 kc. to cover construction permit (B4-P-1054) as modified for changes in equipment, new antenna, and move of transmitter.

WJBL—Commodore Broadcasting, Inc., Decatur, Ill.—Modification of license to change hours of operation from share WJBC to unlimited time, and frequency from 1290 kc. to 1370 kc. Amended to change requested frequency from 1370 kc. to 1310 kc., contingent upon the granting of WBOW's application for change in frequency to 1290 kc.

KWNW—Winona Radio Service (a partnership), Harry Dahl, Otto 1200 M. Schlabach, Maxwell H. White and Hermann R. Weecking, Winona, Minn.—Modification of construction permit (B4-P-983) for a new station, requesting changes in equipment, installation of vertical antenna, and approval of transmitter and studio sites at 110 Main Street, Winona, Minn.

KWOS—Tribune Printing Co., Jefferson City, Mo.—Construction permit to make changes in equipment; increase power from 100 watts to 100 watts night, 250 watts day; and change hours of operation from daytime to unlimited time. Amended to change frequency from 1310 kc. to 1210 kc.

WIBU—Wm. C. Forrest, Poynter, Ohio.—Authority to install new 1210 automatic frequency control equipment.

NEW—Martin R. O'Brien, Aurora, Ill.—Construction permit for a new station to be operated on 1500 kc., 250 watts, daytime. Amended to change frequency from 1500 kc. to 1540 kc.; change transmitter site from corner Main Street and Island Avenue, Aurora, Ill., to site to be determined, Aurora, Ill.

KMGU—Mandan Radio Assn., Inc., Mandan, N. Dak.—Modification of license to change hours of operation from specified hours to unlimited time. Contingent upon the granting of KLPD's application for a new frequency.

KGNO—Dodge City Broadcasting Co., Inc., Dodge City, Kans.—Construction permit to install a new transmitter, erect a vertical antenna, and increase power from 250 watts to 1 KW.

WGRG—Northside Broadcasting Corp., New Albany, Ind.—Construction permit to make changes in equipment; vertical antenna, and increase power from 380 kw. to 880 kw.; change hours of operation from daytime to unlimited time, using 250 watts power and install directional antenna for night use.
WHLB—Head of the Lakes Broadcasting Co., Virginia, Minn.—
Construction permit to make changes in equipment and increase power from 100 watts to 100 watts night, 250 watts day.

W9XBS—National Broadcasting Co., Inc., Chicago, Ill.—License to cover construction permit (B4-PHP-35) for a new transmitter and reduction in power.

W10XDD—Evansville on the Air, Inc., Mobile.—License to cover construction permit (B4-PE-205) for changes in equipment and increase in power.

NEW—National Battery Broadcasting Co., St. Paul, Minn.—Construction permit for a new high frequency broadcast station to be operated on 25950 kc., 1 KW.

Fifth Zone

KSEI—Radio Service Corp., Pocatello, Idaho.—Modification of license to change power from 250 watts night, 500 watts day, to 250 watts night, 1 KW day.

NEW—Earl A. Nielsen, Phoenix, Ariz.—Construction permit for a new station to be operated on 1210 kc., 100 watts, unlimited time.

KYA—Hearst Radio, Inc., San Francisco, Calif.—License to cover construction permit (B5-P-328) as modified for new equipment, increase in power, and move of transmitter.

KYA—Hearst Radio, Inc., San Francisco, Calif.—Authority to determine operating power by direct measurement of antenna.

NEW—Tom Olsen, Port Angeles, Wash.—Construction permit for a new station to be operated on 1420 kc., 100 watts, unlimited time.

NEW—The Hebrew Evangelization Society, Inc., Los Angeles, Calif.—Construction permit for a new special broadcast station to be operated on 1570 kc., 1 KW, unlimited time.

W6XCI—Earle C. Anthony, Inc., Los Angeles, Calif.—License to cover construction permit (B5-PRE-16) as modified for a new relay broadcast station.

NEW—Church of Jesus Christ of Latter Day Saints, Salt Lake County, Utah.—Construction permit for a new international broadcast station to be operated on 6080, 11830, 17780 kc., 50 KW. Amended to make changes in equipment and change frequencies from 6080, 11830, 17780 kc. to 15250 and 21460 kc.

NEW—Harrisburg Broadcasting Co., Harrisburg, Ill.—Construction permit for a new relay broadcast station to be operated on 31100, 34600, 37600, 40600 kc., 10 watts.

NEW—Earle C. Anthony, Inc., Los Angeles, Calif.—Construction permit for a new relay broadcast station to be operated on 1606, 2023, 2102, 2758 kc., 100 watts.

W6XCI—Earle C. Anthony, Inc., Los Angeles, Calif.—Modification of construction permit for a new relay broadcast station, requesting changes in equipment and to reduce power from 25 watts to 2 watts, and extend completion date.

KALO—Intermountain Broadcasting Corp., Mobile.—Modification of construction permit for a new relay broadcast station, requesting extension of completion date from 5-29-37 to 6-29-37.
NOTICE OF AMENDMENTS

In pursuance of the provisions contained in Article IX of the Constitution and By-Laws of the National Association of Broadcasters, Inc., notice is hereby given that certain amendments to the Constitution and By-Laws of the National Association of Broadcasters, Inc., as hereinafter described, will be presented for consideration at the annual membership meeting in Chicago, Illinois, June 20-23, 1937.

These amendments are as follows:

Article III

April 27, 1937.

"Mr. James W. Baldwin, Managing Director,
National Association of Broadcasters,
National Press Building,
Washington, D. C.

Dear Mr. Baldwin:

"It has come to my attention that certain owners of more than one broadcasting station have attempted to ride along in the NAB carrying a membership in only one station. This I feel might become a constantly increasing evil practice, which I am sure neither such owners as referred to would, upon careful thought, wish to continue nor members owning only one station would tolerate. I, therefore, wish to offer a resolution to be presented and acted upon in conformity with the NAB Constitution and By-Laws. The resolution is as follows:

"RESOLVED, that the Constitution and By-Laws of the National Association of Broadcasters shall be amended as follows:

"Under Article Three, Section (b), add the following:

"Provided, however, that no person, firm or corporation having ownership or control of more than one broadcasting station, otherwise qualified for membership, shall be eligible for membership unless memberships shall be held for each and every station of said member.'

Sincerely yours

(Signed) Arthur B. Church" (KMBC).

Article V

April 24, 1937.

"Mr. James W. Baldwin, Managing Director,
National Association of Broadcasters,
National Press Building,
Washington, D. C.

Dear Mr. Baldwin:

"For sometime I have felt that the NAB Constitution should be amended to provide that the Association shall benefit by the experience of its out-going President, by providing that he shall automatically become a director for a term of three years. In discussing this with quite a number of NAB members all have concurred with me. To date no one has done anything about it. I therefore propose the following resolution which I ask to be distributed among members of the Board of Directors and/or members of the Association, as provided in the By-Laws—this resolution to be acted upon at the 1937 Annual Convention:

IN THIS ISSUE

Notice of Amendments 2127
Avery Calls Sales Managers Meeting 2128
FCC Opposes Five Year Licenses 2128
Baldwin To Attend Texas Meeting 2128
FCC Appoints Special Attorney in Disbarment Proceedings 2128

Commission Grants New Station 2130
Missouri Station Recommended 2130
Federal Trade Commission Action 2132
FTC Closes Case 2132
Federal Communications Commission Action 2132

Make Your Plans Now to Attend the NAB Convention at Hotel Sherman, Chicago, June 20-23, 1937
"RESOLVED, That Article Five shall be changed as follows:

"Add to Section 'C' the following:

"'Except that the out-going President shall automatically become a Director for a term of three years.'

"This amendment shall become effective with the retirement of the out-going President at the 1937 Annual Convention.

Sincerely yours,

(Signed) Arthur B. Church" (KMBC).

Attention also is called to the proposed amendment to By-Law No. 1 notice of which appears in NAB Reports dated May 20, 1937.

AVERY CALLS SALES MANAGERS TO MEET AT NAB CONVENTION

Lewis W. Avery (WGR, Buffalo), Acting Chairman of the Sales Managers Division, requests Sales Managers of stations to attend meetings of the Sales Managers Division at 3:00 P.M. Monday, June 21, and Tuesday, June 22, Hotel Sherman.

FCC OPPOSES FIVE-YEAR LICENSES

The Federal Communications Commission having been asked for its opinion on H. R. 5038, introduced by Representative Anderson, which provides for a five-year licensing period for broadcasting stations, has sent an answer to Representative Lea, Chairman of the House Committee on Interstate Commerce, in which it states definitely that it opposes such legislation. The letter, which was signed by Commissioner Prall, as chairman, is as follows:

"In further reply to your letter of February 24, 1937, asking us for comments on H. R. 5038, a bill to prescribe five-year minimum terms for broadcasting stations, I beg leave to state that:

"No legislation similar to that proposed in H. R. 5038 has received the approval of a House or Senate Committee and the Commission heretofore has made no recommendation on the question. Section 9 of the Radio Act of 1927 provided that 'No license granted for the operation of a broadcasting station shall be for a longer term than three years and no license so granted for any other class of station shall be for a longer term than five years. . . .'. This three-year limitation on broadcasting licenses was continued in the Communications Act of 1934 (Sec. 307/d/). The Senate, however, in acting upon its draft of the Communications Act (S. 3285) reduced the maximum terms of broadcasting licenses from three years to one year and for other licenses from five years to three years. The Senate Report on S. 3285 stated, 'Reduction of the maximum term of licenses will assist the Government in retaining control over these valuable privileges. This was passed by the Senate and House in H. R. 7716.' The conferees appointed to consider S. 3285 agreed to leave the maximum term of licenses in status quo. The Conference Report submitted by Mr. Rayburn on June 8, 1934, was adopted and accordingly the provisions of the Radio Act relating to maximum terms of licenses were continued in the Communications Act. This is the latest expression of Congress upon the subject.

"At the present time the Commission has no authority to suspend licenses or impose penalties for violations of its rules. The only punitive action available is revocation, deletion through denial of a renewal of license or recourse to criminal proceeding. These measures have been found to be too severe in most instances of delinquency. The Commission, however, has been able to exercise a degree of control through consideration of application for renewal of license every six months. There is thus constantly present a means of checking the technical operation and program service of stations.

"The art of radio broadcasting is rapidly changing. At a later date conditions in the industry may become more stable. It is conceivable that the adoption of the bill would tend to 'freeze' existing conditions. Adoption of a five-year minimum license period would recognize in principle that the allocation of frequencies has achieved a proper equilibrium. It has been the experience of the Commission that changes in the allocation of frequencies may be expeditiously accomplished under the short term licenses.

"It will be observed that the existing law authorizes the Commission to extend the term of broadcast licenses up to three years. If there exist sound reasons for extension of the term, it would seem preferable that the Commission try a longer term of licenses before the statute is changed to make such action mandatory.

"The power to suspend a license for short periods of time or to assess a penalty for violation of rules is definitely associated with the problem presented by the proposed legislation. The Commission may desire to suggest the inclusion of such authority in the proposed amendment."

BALDWIN TO ATTEND TEXAS MEETING

James W. Baldwin, NAB Managing Director, will attend the meeting of the Texas Broadcasters Association, at Houston, Texas, on June 5.

FCC APPOINTS SPECIAL ATTORNEY IN DISBARMENT PROCEEDINGS

The Federal Communications Commission sitting en banc on Wednesday, June 2, appointed Samuel F. Kaufman of New York City to represent the Commission as special counsel in the matter of disbarment proceedings.
brought against Paul M. Segal and George S. Smith. Mr. Kaufman, it is understood, is a noted trial lawyer, having formerly been Special Assistant to Attorney General Homer S. Cummings in the prosecution of immigration fraud cases in New York.

FEDERAL COMMUNICATIONS BAR ASSOCIATION TIGHTENS ETHICS TO OUTLAW CLAIMS OF POLITICAL INFLUENCE

Louis G. Caldwell, President of the Federal Communications Bar Association, last week advised Chairman Prall of the Federal Communications Commission that the Executive Committee had unanimously adopted an amendment to the Association’s Canons of Ethics which was designed to outlaw claims of political influence by its members.

The text of Mr. Caldwell’s letter and the amendment is as follows:

“Enclosed is an amendment to the Canons of Ethics of the Federal Communications Bar Association, consisting of a fourth paragraph to be added to Canon No. 2.

“This amendment was unanimously adopted by the Executive Committee on the recommendation of the Association’s Committee on Professional Ethics and Grievances, at a meeting held last night, May 24th. I may add that it was the sense of those present that the subject matter of the amendment was already covered by certain of the general provisions in the Canons as previously adopted and that it certainly was the intent that it should be so covered. In order to eliminate any doubt, however, it has been deemed advisable to cover the matter specifically.”

Amendment to Canons of Ethics of Federal Communications Bar Association

(Adopted by the Executive Committee May 24, 1937)

Amend Canon No. 2 by adding the following as a fourth paragraph:

“It is improper for a lawyer to represent, or cause to be represented, or knowingly to permit any other person to make such representation in his behalf, that he is able, or, if employed, intends, to secure favorable action from the Commission or any division, member or employee thereof, on a basis other than on the merits of the case to be presented and in accordance with the rules, regulations and practices governing presentation to or action on such cases, whether because of such attorney’s prior employment by or other connection with the Commission or because, for any other reason whatsoever, he is in a position to exert, or to cause to be exerted, influence calculated or intended to bring about such action.”

ARNOLD RESIGNS FROM FCC

Carl F. Arnold, assistant general counsel of the Federal Communications Commission in charge of telegraph, has tendered his resignation to become effective July 1. Mr. Arnold, who has been on leave of absence from the University of Wyoming, will return to his former post as dean of the law school.

GAMES OF CHANCE

Broadcasters should review carefully the several “games” which currently are being circulated among stations and which are comparable to the game of “Bingo.” It is practically impossible to obtain any advance ruling from the Federal Communications Commission on such matters. In the absence of such ruling it is our belief that the games such as “Jubilo” and “Credit” recently sent to us by member stations should not be used.

EDGAR DUDLEY

NAB headquarters has the following statement from Don Hastings, manager of Station KDB:

“If any radio station manager is approached by one Edgar Dudley or his manager, William Jobelman, please get in touch immediately with Don Hastings, manager of KDB, in Santa Barbara, Cal. Dudley is purported to be an ex-G man and has a book entitled ‘Racket-Ridden America’ that is sold after his talks with various organizations. He will no doubt try to tie in these talks with the radio station.”

CANADA TO BUILD NEW BROADCASTING STATIONS

Plans for the immediate construction of two 50,000 watt transmitters near Montreal and Toronto have been announced by the Canadian Broadcasting Corporation. It is expected that the two stations will commence operating about October 1, according to Assistant American Trade Commissioner Avery F. Peterson, Ottawa, in a report to the Department of Commerce.

The sites for the location of the stations have been selected because of their proximity to the Dominion’s two principal cities and centers of broadcasting activities, the report states.

The construction plans include the proposed erection within two or three years of other high-powered outlets in the maritime provinces and in Western Canada. It is also expected that a high-powered shortwave station will soon be in operation in the Dominion to permit overseas broadcasts, it was stated. New exchange programs with Great Britain, the United States and France will be sought according to the report.
COMMISSION GRANTS NEW STATION

The Federal Communications Commission this week granted a construction permit for the erection of a new broadcasting station to the Lincoln Memorial University, at Middlesboro, Ky., to use 1210 kilocycles, 100 watts and unlimited time on the air.

MISSOURI STATION RECOMMENDED

Charles Porter and Edward T. Eversole applied to the Federal Communications Commission for a construction permit for the erection of a new station at Festus, Mo., to use 1420 kilocycles, 100 watts and daytime operation.

Examiner P. W. Seward in Report No. I-408 recommended that the application be granted “conditioned upon compliance with the rules and regulations relating to marking and lighting the antenna towers.” The Examiner found that there is a need for daytime service in the area proposed to be served, and he states that granting of the application would be in the public interest.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

No. 3135. Charging unfair competition in the sale of engraved stationery products through false disparagement of competitors' products and other practices a complaint has been issued against a Birmingham, Ala., engraver, Ralph Dewberry, trading as Dewberry Engraving Co. and The National Engraving Co.

The respondent is alleged to have violated Section 5 of the Federal Trade Commission Act.

In his sale of engraved stationery, business and social cards and allied products, the respondent is charged with making representations to the effect that prices charged by competitors for engraving work were high because they had out-of-date equipment and were forced to charge such prices whereas the respondent had the most modern plant in the country and could charge lower prices.

No. 3137. Alleging unfair representations in the sale of a medicinal product, in violation of Section 5 of the Federal Trade Commission Act a complaint has been issued against J. A. Boos, Mt. Vernon, N. Y., trading as Winchester & Co.

Engaged in the sale of "The Specific Pill," the respondent Boos is alleged to have advertised that the preparation will cure or relieve or be beneficial in the treatment of various ailments including nervous debility, neuritis, insomnia, and bladder and urethra irritation. His use of the designation, "The Specific Pill," is alleged to have served as a representation that his article is a specific cure or has direct curative properties with respect to one or more of the diseases named.

No. 3139. Charging unfair competition in the interstate sale of a reference book entitled The Volume Library a complaint has been issued against Educators Association, Inc., 307 Fifth Ave., New York, certain of its officers, and 13 individual respondent representatives of the corporation, trading under the name Educators Association.

Alleging the use of false and misleading representations, the complaint charges the respondents with inserting in newspaper "Help Wanted" columns such advertisements as the following: "College student or teacher, travel for summer for healthful work, $270 for ninety days", "Lady with ability and refinement, ex-teacher preferred, permanent advancement, four months' trial $300, Box——", and "Vacation position for college student or teacher, splendid experience, pleasant work."

This type of advertisement is alleged to lead applicants into the belief that the work offered consists of good salaried positions connected with teaching work; while in fact, according to the complaint, the work is actually the sale of The Volume Library from house to house and cannot be entered upon without the applicants first making a required deposit. The complaint alleges that the terms of the contract required are so difficult that persons selling the book and it a physical impossibility to comply, and that, because of such inability to comply, salespersons find that they have forfeited their deposit, and payment of the difference between the commissions earned and the minimum amount contracted for is refused by the respondents.

Stipulations and Orders

The Commission has issued the following cease and desist orders and stipulations:

No. 01579. Jay Clifford and Leonard Praeger, trading as North American Mate Co., 120 Grandview St., New York, stipulated that they will cease representing that their Angela Mate is a health tea having food value, and that it is an effective remedy for anemia, malnutrition, rheumatism, stomach and nervous disorders, or eye trouble. The respondents admit that Angela Mate is a beverage partaking of the elements of Japanese tea and coffee, and that it is a diuretic, and a stimulant to the brain and muscles.

No. 01581. SunTex Chemical Co., American and York Sts., Philadelphia, agreed to cease advertising that SunTex sterilizes; that it disinfects, unless such representation is limited to indicate that the product is a preservative agent when used as directed, and to stop representing that its use for laundering purposes obviates the necessity for rubbing the clothes laundered.

No. 01585. Borg-Warner Corporation, Chicago, selling the Norge Rollator Refrigerator, agreed to cease representing that tests of such refrigerators, conducted by Norge employees, were all under the supervision of public officials; that the benefits and savings of a Norge refrigerator are as great during cold winter months as in summer, and that the mechanism of the Norge improves with use, unless such representation is limited to the three moving parts of the Rollator alone and does not refer to all the mechanism of the refrigerator.

No. 01590. Luigi Rosati, trading as Wonder Chemical Co., 1450 High St., Bethlehem, Pa., stipulated that in the sale of Bleach-Ox he will discontinue representing that the product is a sterilizer, a germicide and harmless, and that it is a disinfectant, unless, in the latter instance, specific instructions are given to indicate that the places or objects to be disinfected are to be cleansed before application of the solution.

No. 01592. Home Diathermy Co., Inc., 1776 Broadway, New York, agreed in connection with the sale of its Home Therapeutic Instrument, agrees to stop asserting that use of the device will eliminate pain, give lasting relief, free one of the ravages of neuritis, sciatica, arthritis, lumbago or rheumatism, and will increase oxidation, nutrition and elimination of waste and toxic poisons.

No. 01595. Uncle Sam Laxative Breakfast Food Co., Omaha, Nebr., agreed to stop representing generally that Uncle Sam Laxative Breakfast Food relieves a constipated condition without weakening the digestive organs or causing dangerous after effects, that it is good for a poor complexion caused by a sluggish system, and that use of the product would be of any material benefit when one feels run down or peepless.

No. 01594. The American Athletic Appliance Co., Inc., 4321 Paul St., Philadelphia, stipulates that it will discontinue advertising its German Iron Shoe Muscle Builder as the greatest exerciser made; that it is the choice of champions and the emblem of power; that it quickly stimulates natural muscular growth, and that by its use one can “pack a 16-inch arm in his sleeve” and duplicate the chain-breaking or iron-bending feats of Breithart, Marx, Sandow, Moerki, Travis or Nordquist, and other similar representations.

No. 01602. Charles W. Furst and Fred G. Thomas, trading as Furst & Thomas, Freeport, Ill., will cease representing that in the sale of certain household products exceptional salesmen have made $75 and more a week, or that energetic salesmen will earn $150 and more a week, or that they will sell two publications called "Illustrated Price Catalog of Old Books Wanted." They stipulated that they will cease advertising...
that their catalog is huge, has other than a limp binding or is poorly
fusely illustrated, until it is printed in a manner to justify such
description; that their price list selling for 10 cents is a "big" list;
that a fortune or any considerable sum will be paid for books
published as late as 1927 when the number of books regarded as
having more than a nominal value is unlimited, and that their
company is the largest of its kind in the United States.

No. 01606. The Hilex Co., 319 East Kellogg Boulevard,
St. Paul, Minn., selling Hi-Lex, will discontinue assertions that
the product disinfects, unless directions are given to first cleanse
the surface to be disinfected; that it removes stains, unless this claim
is limited to most stains or certain indicated stains, and that it
destroyes odors, unless such representation is qualified to mean the
destruction of odors by application to the product at the source of
the odor, unless the object from which the odor emanates.

No. 01609. William R. and Mary L. Dewhurst, trading as
The Double DD Products Co., 2205 Union Ave., Wesleyville, Pa.,
agreed to stop advertising that when their product Snowhite
is used "stains are no longer stains," unless such representation is
limited to removable stains and refers only to cotton and linen
fabrics; that the product contains no harmful ingredients, and that
it is effective when used for hygienic purposes on nursery utensils,
general household ware, tile, enamel, linoleum and woodwork,
unless directions are given for first cleansing the surface of the article
before Snowhite is applied.

No. 01611. Atlantic Macaroni Co., Inc., Vernon Building,
Long Island City, N. Y., will discontinue representations that
Caruso Spaghetti or Caruso Noodles contain certain vitamins in
sufficient quantities to be of substantial benefit, and that Pastina
Carusos of benefit to persons who have weak stomachs or
digestion.

No. 01612. Wong Sun and Louie Sun, trading as Wong Sun
Chinese Herb Co., Billings, Mont., stipulated that in the
sale of their Chinese Herb Tea they will no longer represent that
Chinese herbs have been used for centuries in curing ailments
and promoting health and that the respondents' Chinese herb medicines
are a competent remedy in the treatment of skin, liver, kidney,
stomach, heart and nervous disorders.

No. 01620. Welch Grape Juice Co., Westfield, N. Y.,
agreed to discontinue advertising inferentially or otherwise that
Welch's Grape Juice is a cure for excess weight and that the
product alone or in connection with any system of exercise and
diet will enable one to control one's weight; that it protects one
against anemia, will correct acidosis, and is the only grape juice that
is certified as pure and pasteurized.

No. 01621. Anna L. Austin, Sixth St. and Broadway, Los
Angeles, trading as Prof. John H. Austin, stipulates that in the
sale of a hair application called Co-Lo, she will cease advertising
it as a scientific preparation discovered by Prof. Austin and capable of
removing hair color by a harmless process; that it removes hazy shades of blonde, brown or black,
or to its natural color.

No. 01622. J. C. Kenyon, Owego, N. Y., trading as J. C.
Kenyon, Druggist, agrees to stop representing Kenyon's Tablets as
a remedy for rheumatism, arthritis or neuritis, or as capable of
relieving pain or to its natural color. The respondent admits that
charts that such tablets are not such a remedy nor will they relieve
lameness or do any more than relieve pain of moderate intensity.

No. 01623. J. T. 's Flat Wheat Co., 64 Jones St., Newark,
N. J., trading as Dr. Tugiledzow & Sons, Flat Wheat Co., and
Joseph Tugiledzow & Sons, stipulates that it will stop asserting
that J. T. 's Flat Wheat is unequalled for building energy and
health, and, inferentially or otherwise, that it contains all the
minerals or vitamins for building sound teeth and bones or for
normal growth.

In its stipulation, the respondent admitted that it published misleading statements which implied certain
vitamins are more necessary to the human diet than others, when, according to scientific authority, other vitamins are equally
essential to the diet as those mentioned.

No. 01624. Under a stipulation the Florida Industries, Inc.,
Adrian, Mich., has agreed to cease using false and misleading
advertising in connection with the sale of novelties and of a home
study course of instruction in decorating novelties and other
articles.

That it merely acts as an advisor on sales problems, the
respondent corporation stipulated that it will discontinue ad-
vertising inferentially that it purchases from other for brochures
or users using its course the articles they decorate, or that it acts
as their sales agent.

No. 01625. B. M. Keene and B. M. Keene, Jr., Board of
Trade Bldg., Indianapolis, trading as The Keene Drug
Co., the Keene Pharmacal Co., and B. M. Keene Co., agree to cease
using the word wintergreen to designate tablets in which winter-
green is not the dominant ingredient; to stop representing that the
wintergreen in Keene's Wintergreen Tablets will afford relief from
pain and discomfort due to rheumatism, muscular lumbar and
kindred ailments; and to discontinue employing the word Bilezyme,
or any other word containing the word bile as a component part
thereof, to designate, or imply the use of ingredients of which will
not serve as a component treatment for liver and bile disorders.

No. 01626. Myl Laboratories, Inc., 1034 Lovell St., New
York, according to its stipulation, will stop advertising that use
of Complexion Treatment will leave the face soft, smooth or
fine, that the product is a perfect table for the choicest cold, and
that the user is able in nine months or any other like period
to get rid of coarse pores, blackheads, spots, wrinkles or sallow
skin.

No. 01627. Dr. W. D. Stokes, Baton Rouge, La., dealer in
Lon-Gre-Mo, a proprietary remedy, agrees to cease representing
this product as a competent treatment for bronchial congestion
and stubborn colds or as absolutely safe and harmless, the
respondent admitting, according to its stipulation, that although scientific
opinion shows Lon-Gre-Mo to have certain virtues in treating
colds and coughs due to colds, it cannot be recommended as a
competent treatment for bronchial congestion and stubborn colds.
The respondent also admits that although the preparation may be
used by laymen occasionally, it is not considered as a safe and
harmless preparation for indiscriminate use.

No. 01628. The Mercirex Co., Milford, Del., selling Mercirex
Cream and Mercirex Soap, will stop asserting that its products are
competent for treating psoriasis, eczema, acne, external rashes and
other skin disorders and that it will help restore the skin to a
normal, healthy condition. In its stipulation, the respondent
admits that it represents that it is a palliative to relieve irritations asso-
ciated with psoriasis and certain other skin conditions, it is not
relied upon as a competent treatment for such conditions proper
or for their cause.

No. 01629. Frank A. Todd and Roger D. Brown, 1168
Main Ave., Plattsburgh, N. Y., trading as Pillsbury Chemical Co.,
and engaged in the sale of Pilsbury Flours, XLTNT Washing Fluid, and
Brown's Best Washing Fluid, stipulate that they will cease advertising that their products are
beneficial to the hands or that either preparation removes stains, unless, in
the latter instance, the assertion is specifically limited to "most"
stains or to certain specified stains of similar limited import are employed.
Other representations to be discontinued are that either fluid can be depended upon as a disinfectant for
personal uses, or to heal chapped hands or destroy odors, unless, in
the latter instance, the representation is limited to destruction of
odors by application at the source of the odor or upon the
object from which it emanates.

No. 01630. Impoll Co., Inc., Denville, N. J., selling Impoll,
a graphite lubricant, stipulates that it will cease asserting that the
graphtite powder in Impoll are ultra-microscopic in size and will pass
through the smallest pores of any material, and that Impoll insures elimination of carbon from motor parts and
will cause such parts to be self-lubricated, and that it will cause automobiles to start instantly at sub-zero temperatures. In its
stipulation, the respondent company admits that although the
graphtite powder in Impoll are very small, they cannot be repre-
sented as ultra-microscopic and capable of passing smoothly
through the smallest crevices, and that although scientific opinion
furnished the Commission shows that Impoll may adhere to the
surface of various motor parts and somewhat retard carbon formation,
it cannot be represented as insuring carbon elimination or causing
surfaces of various motor parts to be self-lubricated. According to
the stipulation, the respondent company admits that although Impoll
may aid in reducing friction, it will not effectively enable cars to start at sub-zero temperatures.

No. 01631. Schoonmaker Laboratories, Inc., Caldwell, N. J.;
"V-E-M" and "Zyl", for colds, catarrh, sinus trouble and hay
fever.

No. 01632. R. O. Murphy, trading as The Stillwater Co., Still-
water, Minn., selling "Hay Fever Treatment", for hay fever, asthma,
bronchitis, colds and catarrh.

No. 01633. Van Patten Pharmaceutical Co., trading as Drugless
Products, 54 West Illinois St., Chicago; "Allimin Essence of Garlic-
Parsley Tablets," for arteriosclerosis or the other conditions which may cause such blockage.

No. 01634. H. Voightlander, trading as Educational Products

No. 01635. Mrs. T. D. Robinson, Elgin, Tex., No. 01635. Mrs. T. D. Robinson, Elgin, Tex.,
No. 01631. Schoonmaker Laboratories, Inc., Caldwell, N. J.;
No. 01632. R. O. Murphy, trading as The Stillwater Co., Still-
water, Minn., selling "Hay Fever Treatment", for hay fever, asthma,
bronchitis, colds and catarrh.

No. 01633. Van Patten Pharmaceutical Co., trading as Drugless
Products, 54 West Illinois St., Chicago; "Allimin Essence of Garlic-
Parsley Tablets," for arteriosclerosis or the other conditions which may cause such blockage.

No. 01634. H. Voightlander, trading as Educational Products

No. 01635. Mrs. T. D. Robinson, Elgin, Tex., selling a certain
device for cutting metals and minerals, agrees to stop representing
that use of these instruments will enable one to locate gold, silver,
lead and certain other minerals or underground wealth, and that the instruments are sufficiently sensitive to register metal or mineral
attractions irrespective of the depth at which they may be located in the earth.
spondent company also agrees to cease representing that suits or topcoats are given salesmen or agents free, and that suits or topcoats make up to $10 a day without canvass¬
ing and that suits or topcoats are given salesmen or agents free, and in fact such purported gifts are bought and paid for through the services performed by the agents in selling the respondent company's merchandise.

No. 01638. G. S. McDonald, trading as O-Poi-Zo Laboratories, Paragould, Ark.; “O-Poi-Zo,” for boils, carbuncles, erysipelas, athlete’s foot, or any skin disease. The respondent will cease using the word “Laboratory” as part of his trade name until he main¬
tains an establishment where scientific experiments are conducted.

No. 01639. Western Reeling Co., Inc., trading as Le Du Sales Co., 205 Middlesex St., Lowell, Mass.; “Cote French Tonic Tablets,” for use as a tonic or nerve stimulant. The respondent company also agrees to discontinue representations that sale¬
handling its products may make up to $10 a day without canvass¬
ing and that suits or topcoats are given salesmen or agents free, and in fact such purported gifts are bought and paid for through the services performed by the agents in selling the respondent company’s merchandise.

No. 01640. Adolph F. Lonk, Palatine, Ill., trading as Lonk Institute of Hypnotism, stipulates that he will stop advertising that the science of hypnotism can be taught successfully by corre¬
respondence and that by a study of Lonk’s course of instruction a person may become able to hypnotize others instantaneously. Other representations to be discontinued are that the science of hypnotism leads to success, health, fortune or happiness; that a hypnotist can help others to get rid of their “blues” and bad habits; that the science is easily mastered and that everyone can be hypnotized, even against their wills. In his stipulation, the respondent ad¬
mitted that, according to scientific opinions given by eminent and qualified psychologists, the power of hypnotism is not possessed by all people; that generally no one can be hypnotized against his will; that the science is not easily mastered, and a hypnotist cannot cure organic ills, but, on the contrary, that relief is limited to functional ailments, and that they are usually rare.

No. 01642. The Tartaroff Co., 1640 Fulton St., Chicago, agrees to stop asserting in advertising that Tartaroff is a new, amazing, liquid discovery that whitens teeth instantly or is a new, secret formula that makes teeth pearly white and sparkling in¬
stantly, and other similar representations. In its stipulation, the respondent company expressly disclaims any representation that Tartaroff removes tartar deposits or that Tartaroff is a dye, and its use may result in harm to the user.

No. 01643. Bob Cohen, Cleveland Heights, Ohio, trading as M. Arcy Coin & Stamp Co., and as American Coin Co., in the sale of the Bob Cohen Coin Book, agrees to stop asserting that he will purchase and pay for specified coins which are in fact non¬
existent or non-available; that by use of the respondent’s coin book a person may keep posted on rare coins and their values, unless this statement is distinctly qualified to include only the rare coins listed therein, and that the respondent pay any stated minimum amount for a coin or coins, unless it is also explained that only coins of a certain date and in specified condition will be purchased at the prices noted.

No. 1923. Paul Thomas Schwyer, 524 South Spring St., Los Angeles, trading as Natural Laboratories, has entered into a stipulation to discontinue certain false and misleading representa¬
tions in connection with the sale of Natural, a hair preparation.

Schwyer stipulates that he will stop using representations on labels or in advertisements implying that use of this preparation will restore to its original or natural color hair which has become gray, faded or streaked, or that the product is not a dye or will not have harmful effects. According to the stipulation, the product is a dye, and its use may result in harm to the user.

No. 2787. Bernard Licht, trading as Licht’s Fur Factory, 102 West Twenty-Ninth St., New York, has been ordered to cease and desist from making certain false and misleading representa¬
tions, by means of radio broadcasts or otherwise, in connection with the interstate sale of furs and fur garments.

The order directs Licht to discontinue advertising that he is in position to offer for sale “thousands” or any other number of furs and fur garments substantially in excess of his actual stock; that a saving of 50 per cent or any other saving can be effected by purchasing his products; that all the fur products sold by him are made from new skins not previously used or worn, and that he owns the building in which his business is operated.

FEDERAL COMMUNICATIONS COMMISSION ACTION

Hearing Calendar

ORAL ARGUMENTS

ACTION ON EXAMINERS’ REPORTS

NEW—Ex. Rep. 1-365: Lincoln Memorial University, Middlesboro, Ky.—Granted petition for new broadcast station to operate on 1210 kc., 100 watts, unlimited time.

WLMU—Lincoln Memorial Univ., Middlesboro, Ky.—Granted modification of C. P. to make changes in equipment and increase power from 100 watts to 250 watts day; 1210 kc., unlimited time. Examiner P. W. Seward sustained. Order effective July 20, 1937.

EXAMINER REPORT RELEASED SINCE MAY 25, 1937

NEW—Ex. Rep. 1-408: Charles Porter & Edward T. Eversole, Festus, Mo.—Examiner P. W. Seward recommended grant conditionally, of C. P. for new station to operate on 1420 kc., 100 watts, daytime.

MISCELLANEOUS

Lamar Life Ins. Co., Jackson, Miss.—Granted petition to postpone hearing date on application of Standard Life Ins. Co., of the South for new station at Jackson, Miss., to use 1420 kc., 100 watts night, 250 watts day, unlimited time, from July 7, to a date to be fixed by the Docket Section sometime later in July.

KRKO—Lee E. Hudgett, Everett, Wash.—Granted petition to continue hearing on application for C. P. to use 1420 kc., 100 watts night, 250 watts LS, unlimited time, from June 28 to a new date after September 1, 1937, exact time to be fixed at convenience of Docket Section.

NEW—Brenau College, Gainesville, Ga.—Denied petition requesting that action on application of WAPO, Chattanooga, Tenn., to use 1420 kc., 100 watts night, 250 watts day, unlimited time (Ex. Rep. 1-419), be deferred until decision on pending application of Brenau College to use frequency 1420 kc., 1937 watts n. 250 watts LS, unlimited.

WTAW—WHBY, Inc., Green Bay, Wis.—Granted indefinite continuance of hearing on application now scheduled for June 18, for C. P. to use 1330 kc., 1 KW night, 5 KW day, unlimited time. (Docket 4216.)

WCCH—Charleston Broadcasting Co., Charleston, W. Va.—Granted continuance of hearing on application for C. P. to use 580 kc., 1 KW, unlimited time (Docket 4420), to a date subsequent to September 6, 1937.

Kenneth Baker, Hartwell Gaus, V. A. Bernier, d/b as Key City Broadcasting Co., Kankakee, Ill.—Denied petition for continuance of hearing on application for new station to use 1500 kc., 100 watts, unlimited time, now scheduled for June 15, 1937.

KGA—Louis Wassmer, Spokane, Wash.—Denied continuance of deposition session relative to application of C. P. Sudweeks for C. P. for new station at Spokane, Wash., to use frequency of 950 kc., 500 watts n. 1 KW LS, unlimited time, now scheduled for June 10. Also denied petition for continuance of Deposition Session in the same case.

KOLO—Mason City Globe Gazette Co., Mason City, Ia.—Granted petition to reconsider action of January 12, 1937, designating for hearing the application of Mason City Globe Gazette Co. for change in equipment and authority to increase daytime power from 100 to 250 watts, and granted same without hearing.

NEW—Robert Raymond McCulla, Oak Park, Ill.—Denied motion to continue hearing, now scheduled for June 15, 1937, on application for C. P. to erect a new station to operate on frequency of 1500 kc., 100 watts daytime only.

NEW—El Paso Broadcasting Co., El Paso, Tex.—Denied motion to reconsider supplemental request to take depositions in connection with its application for C. P. to erect a new station at El Paso, to operate on 940 kc., 1 KW, unlimited time.

NEW—Robert E. Clements, Huntingdon Park, Calif.—Denied request for postponement of hearing on application for new station to operate on frequency of 1160 kc., 250 watts, daytime (Docket 4505), now scheduled for June 15.

NEW—Monocacy Broadcasting Co., Rockville, Md.—Denied petition for an indefinite continuance of the hearing date on application for C. P. to use 1310 kc., 100 watts, unlimited time, Docket 4502, now scheduled for June 9.

NEW—Harold F. Gross, Lansing, Mich.—Granted request for continuance of hearing now scheduled for July 1, to a new date in September to be fixed at the convenience of the Docket Section, on application to use 580 kc., 500 watts night, 1 KW day, unlimited time, Docket 4604.

WBNQ—Coliseum Place Baptist Church, New Orleans, La.—The Commission, on its own motion, continued the hearing date on the application of WBNQ for C. P. to use 1420 kc., 100 watts night, 250 watts LS, unlimited time, Docket 4560, to be heard on the same date as the application of Standard Life Ins. Co. of the South, which involves the use of the same frequency.

NEW—Continental Radio Co., Denver, Colo.—Denied petition for an indefinite continuance of the hearing date on application of Colo. Radio Corp. (KVOD), Docket No. 4527, now scheduled for June 23. The application of KVOD is for C. P. to use 650 kc., 1 KW, unlimited time.

Tri-State Broadcasting System, Inc. (KTBS), Shreveport, La.—Denied petition for continuance of hearing date upon application of Tri-State Broadcasting System, Inc.(587,786),(994,812) for C. P. to use 1310 kc., 1 KW, unlimited time, Docket 4545.

WSAN—WSAN, Inc., Allentown, Pa.; and WCB—B. Bryan Musselman, Allentown, Pa.—Granted applicants’ joint motion to continue hearing now scheduled for June 14, to a date subsequent to September 6, 1937, on application of WSAN for voluntary assignment of license (Docket 4514), and application of voluntary assignment of license of WCB. (Docket 4515.)

NEW—Monocacy Broadcasting Co., Rockville, Md.—Granted petition to intervene in the proceedings upon the application of the El Paso Broadcasting Co. (Docket 4545).

WSAN—WSAN, Inc., Allentown, Pa.; and WCB—B. Bryan Musselman, Allentown, Pa.—Denied petition for reconsideration of action of the Broadcast Division denying its application for C. P. to authorize changes in equipment of station WHAT whereby operation will be permitted on frequency of 1250 kc., with 1 KW, unlimited time (Docket 3798), and grant said application in part, to authorize the aforementioned equipment changes and operation of the station during daytime hours.

NEW—Evening News Press, Inc., Fort Angeles, Wash.—Construction permit 1400 for a new station to be operated on 1400 kc., 100 watts, unlimited time. Amended to change requested frequency from 1425 kc. to 1400 kc.

KRLC—H. E. Studebaker, Lewiston, Idaho.—License to cover construction permit 1420 for a new station to be operated on 1420 kc., 100 watts, unlimited time. Amended to change requested frequency from 1425 kc. to 1400 kc.

KRLC—H. E. Studebaker, Lewiston, Idaho.—License to cover construction permit 1420 for a new station to be operated on 1420 kc., 100 watts, unlimited time. Amended to change requested frequency from 1425 kc. to 1400 kc.

NEW—David G. Adams (Adams Recording Studio), San Diego, Calif.—Authority to make electrical transcriptions and manufacture records for stations XEBG and XEMO at Tia Juana, Mexico.
To refresh the memories of the older members and to inform the newer members, there are reproduced herein those Resolutions touching upon commercial practices which were adopted at the last three annual membership meetings.

Resolution No. 5 (1934)

RESOLVED, That the National Association of Broadcasters hereby pledges its full cooperation to the Federal Trade Commission in its efforts to safeguard the people of the United States against all forms of fraudulent, untruthful or willfully misleading advertising, and urges upon every broadcaster the necessity for maintaining a standard of advertising truthfulness which will justify and strengthen the faith of the public in the dependability of radio advertising.

Resolution No. 7 (1934)

RESOLVED, That the National Association of Broadcasters hereby recommends that the Cost Accounting Committee appointed for the past year by President McCosker be continued with the same personnel until the completion of the standard accounting system which it now has in hand, and that this system be completed, if possible, not later than November 1, 1934.

That on the completion of this standard accounting system, the Managing Director is hereby directed to have copies thereof prepared and sent to all member stations, if possible not later than December 1, 1934.

That all member stations are advised to make the necessary adjustments in their accounting methods, so far as such adjustments may be found practicable, to bring their methods into conformity with the proposed standard systems.

Resolution No. 9 (1934)

RESOLVED, That the National Association of Broadcasters hereby directs the chairman of its Commercial Section to appoint a committee of five to study what is pertinent information for the advertising agencies and the advertisers who are buyers of radio advertising, and to invite discussions with representatives of the American Association of Advertising Agencies and the Association of National Advertisers, with a view to setting up a bureau for advertising, and to invite discussions with representatives of the broadcasting industry, such committee to report with recommendations to the Board of Directors for action as quickly as possible.

Resolution No. 10 (1934)

WHEREAS, there is a need in the broadcasting industry for further standardization of units of sale and rate card practices, be it, therefore,

RESOLVED, That the National Association of Broadcasters hereby authorizes the Commercial Committee to publish as the recommendations of said committee, the following:

1. That units of sale be standardized as follows: One hour, one-half hour, quarter hour, five minutes, one minute transcriptions, one hundred words, half minute transcriptions, fifty words or less.

2. That all quantity discounts be given within a period of one year, with discounts retroactive to the first broadcast within that year, discounts to apply within the same time classifications.

3. That operating companies or holding companies operating more than one subsidiary be permitted to buy under a group plan allowing discounts for each of the separate companies under a blanket order to apply even if more than one agency is involved in placing time.

4. That all stations put on their rate cards, in addition to the regular standard units of time, under a separate heading called—“special service features,” such features as time signals, weather reports, sports events, participation programs and any other service features, with an adequate description of what the individual station allows.

5. That no station quote quantity discounts on consecutive times other than 13, 26, 52, 100, 150 and 300.

Resolution No. 12 (1934)

RESOLVED, That the National Association of Broadcasters hereby reaffirms the resolution adopted at its 1933 annual meeting referring to the elimination of announcements for electrical transcription programs made especially for broadcasting be so announced. * * *

RESOLVED, That the National Association of Broadcasters hereby reaffirms the following resolution adopted at its 1933 annual meeting:

WHEREAS, The use of the electrical transcription method of broadcasting programs is generally accepted by both stations and listeners and has become an important economic factor in the operation of broadcasting stations; and

"WHEREAS, There is definite evidence of serious loss in income to stations because of existing requirements that electrical transcription programs must be announced; and

"WHEREAS, There has been sufficient progress in the manufacture of electrical transcription programs that the reproduction of the majority of such programs are now generally considered as excellent; and

"WHEREAS, The broadcasting industry would be greatly benefited by the removal of existing restrictions, therefore, be it

"RESOLVED, That the National Association of Broadcasters hereby respectfully urges the Federal Radio Commission to alter the existing regulations requiring that electrically transcribed programs made especially for broadcasting be so announced." RESOLVED, FURTHER: That the National Association of Broadcasters hereby directs its officers to bring this resolution, without delay, to the attention of the Broadcasting Division of the Federal Communications Commission, and to take whatever steps...
may be necessary and practicable to secure prompt revision of the regulations in accordance with this resolution.

Resolution No. 15 (1934)
WHEREAS, The National Association of Broadcasters recognizes that merchandising of radio programs and assistance in merchandising of the products of advertisers stimulate the use of broadcasting as an advertising medium and enhance the value of the medium, be it, therefore,
RESOLVED, That the National Association of Broadcasters hereby urges the fullest possible cooperation in merchandising requirements of advertisers which would commonly be regarded as offensive.

Resolution No. 13 (1935)
RESOLVED, That the Managing Director be instructed to proceed immediately with the creation of a bureau of agency recognition in accordance with the plan approved and recommended by the Commercial Committee, with the understanding that the said bureau will be finally established only if the cost of its first year of operation is underwritten by the stations proposing to avail themselves of its services.

Resolution No. 14 (1935)
WHEREAS, the 1934 convention of the National Association of Broadcasters directed the chairman of the Commercial Section to appoint a committee of five of good business practices; but since the merchandising requirements of advertisers are wholly lacking in uniformity the Association recommends, in fairness to all advertisers, that the cooperation of the stations be limited to such activities as do not entail direct expense, and that where any direct expense is involved such costs be borne by the advertiser.

Resolution No. 16 (1935)
RESOLVED, That the National Association of Broadcasters hereby adopts the revised code of ethics as presented in the report of the chairman of the Commercial Committee.

REVISED NAB CODE OF ETHICS

The following is the revised Code of Ethics adopted by the Thirteenth Annual Convention of the NAB. The code incorporates the principal trade practice provisions of the radio broadcasting code which were found to be of benefit to the industry. Other than this it remains substantially the same as the code adopted in 1929.

CODE OF ETHICS

1. Recognizing that the radio audience includes persons of all ages and all types of political, social and religious belief, each member station will endeavor to prevent the broadcasting of any matter which would commonly be regarded as offensive.
2. When the facilities of a member station are used by others than the owner, the member shall ascertain the financial responsibility and character of such client, that no dishonest, fraudulent or dangerous person, firm or corporation may gain access to the radio audience.
3. Matter which is barred from the mails as fraudulent, deceptive or obscene shall not be broadcast by a member station.
4. Each member station shall refuse any advertising matter regarding products or services injurious to health.
5. Each member station shall maintain a public record of its current rates charged to advertisers for the use of broadcasting time together with all discounts, rebates, refunds and agency commissions which shall be allowed to the users of such time or to their recognized agents.
6. Each member station shall refuse to accept any business on a cost per inquiry, contingent, or percentage basis, or to accord free time for commercial use.
7. No member station shall permit the broadcasting of advertising statements or claims which he knows or believes to be false, deceptive or grossly exaggerated.
8. No member station shall defame or disparage a competitor, directly or indirectly, by words or acts which untruthfully call in question such competitor's business integrity, ability to perform contracts, credit standing or quality of service.
9. No member station shall make or claim for its service a character, scope or quality which cannot be substantiated, nor shall it claim as regular characteristics of its service features which it knows to be purely temporary or accidental.
10. Where charges of violation of any article of the code of ethics of the National Association of Broadcasters are filed in writing with the Managing Director, the Board of Directors shall investigate such charges, give opportunity for hearing and afterwards notify the station of its findings.

Resolution No. 9 (1936)
RESOLVED, That the Managing Director be instructed to proceed immediately with the creation of a bureau of agency recognition in accordance with the plan approved and recommended by the Commercial Committee, with the understanding that the said bureau will be finally established only if the cost of its first year of operation is underwritten by the stations proposing to avail themselves of its services.

Resolution No. 14 (1936)
RESOLVED, That the Committee on Radio Research for the year 1936-1937 consist of seven members appointed by the president, so as to represent the following groups, in addition to the Managing Director: (1) each major network contributing to the project; (2) local stations; (3) regional stations; and (4) clear channel or high powered stations.

BE IT FURTHER RESOLVED, That the committee be empowered to select five of its membership to represent the broadcasting industry on the Joint Committee on Radio Research.

RESOLVED, That this convention approve the activities of the NAB Radio Research Committee during the past year, and that it commend the excellent progress made by the Joint Committee on Radio Research sponsored by the National Association of Broadcasters, Association of National Advertisers, and American Association of Advertising Agencies.

RESOLVED, That the Board of Directors of the National Association of Broadcasters be empowered to devote for exploratory purposes upon recommendation of the NAB Radio Research Committee the sum of $10,000.00, and that additional funds be devoted to the project if necessary, and if, in the opinion of the Board, this can be done without impairing the financial position of the Association.

Resolution No. 19 (1936)
WHEREAS, it is the sense of this convention that the interests of those attending are becoming more and more varied and WHEREAS, there has been an ever increasing tendency toward the formation of smaller groups within the Association, and WHEREAS, experience has proven this to be a healthy development, tending to interest a greater number of individuals in the work of the Association, and WHEREAS, the sales promotion problems of the industry and individual stations both are becoming increasingly important NOW THEREFORE BE IT RESOLVED, That
1. This Association favors the formation of a Sales Managers Section of the NAB, to be affiliated with the Commercial Committee.
2. This Association recommends to the Board of Directors their approval of this project, and recommends that the Board authorize the Managing Director to pay such incidental expenses as are necessary for postage, printing and similar items out of funds of the Association.
CONVENTION PLANS COMPLETED

The Program of the Fifteenth Annual Convention of the National Association of Broadcasters follows:

Monday, June 21, 1937

9:30 A. M.

Call to Order
Address of Welcome:
Hon. Edward J. Kelly, Mayor, City of Chicago
Address of the President:
Mr. C. W. Myers, KOIN, KOIN, Incorporated, Portland, Oregon
Address of the Chairman, Broadcast Division of the Federal Communications Commission:
Judge Eugene Octave Sykes, Washington, D. C.
The Duty and Responsibility of The Broadcaster.
Address of the Treasurer:
Mr. Harold Hough, WBAP, Carter Publications, Inc., Fort Worth, Texas
Report of the Managing Director:
Mr. James W. Baldwin, National Association of Broadcasters, Washington, D. C.

SYKES WILL ADDRESS NAB CONVENTION

Judge Eugene O. Sykes, Chairman, Broadcast Division of the Federal Communications Commission, will address the Fifteenth Annual Convention of the National Association of Broadcasters. The subject of Judge Sykes' address will be: "The Duty and Responsibility of The Broadcaster."

PRESIDENT APPOINTS LOCAL CONVENTION COMMITTEE

C. W. Myers, NAB President, has appointed the following Local Convention Committee:

Glenn Snyder, Chicago, Illinois, Chairman
H. Leslie Atlass, Chicago, Illinois
Ralph L. Atlass, Chicago, Illinois
H. C. Crowell, Chicago, Illinois
Gene T. Dyer, Chicago, Illinois
W. E. Hutchinson, Chicago, Illinois
Quin A. Ryan, Chicago, Illinois
F. A. Stanford, Chicago, Illinois
Niles Trammel, Chicago, Illinois
Clinton R. White, Chicago, Illinois

DECISION IN PHONOGRAPH RECORD CASE

DISTRICT COURT OF THE UNITED STATES
DISTRICT OF MASSACHUSETTS

Equity No. 4418

RAY NOBLE
v.
ONE SIXTY COMMONWEALTH AVENUE, INC.

Memorandum
(Show 4, 1937)

Sweeney, J. This suit in equity is before me on the defendant's motion to dismiss. Among the grounds assigned by the defendant for its motion is the allegation that the plaintiff has no cause of action against this respondent.

Statements of fact herein are intended as findings of fact, and statements of legal conclusions, as rulings of law, under the Equity Rules.

The plaintiff is an orchestra leader of substantial reputation, and under a contract with RCA Manufacturing Company, Inc., dated January 14, 1935, made twenty-four phonograph recordings which consisted of the plaintiff's interpretations of musical compositions written by others. Under his agreement the plaintiff surrendered to the RCA Manufacturing Company "the right to sell, lease or otherwise dispose of, or to refrain, therefrom, throughout the world, records embodying the performances to be recorded hereunder upon such terms as the Company may approve", and "all rights in and to the matrices and records upon which are reproduced the performances to be made hereunder."
Compensation was provided for the plaintiff and his orchestra for the making of the records, and a royalty of five per cent of the sale price of all records was reserved to the plaintiff.

The defendant is a corporation engaged in running the Hotel Vendome in this city, and in connection therewith is the owner and operator of the Nippon Room which is described in the plaintiff's bill as a restaurant and beverage room. At each table in the Nippon Room, the defendant provides a telephone by which patrons may make known their desire to have certain phonograph records played. In its Wine and Music List the defendant lists records containing the plaintiff's renditions or recordings. In practice when a patron of the Nippon Room desires to have one of the plaintiff's pieces played on a phonograph, he indicates his selection through the telephone on his table, and in due course of time the piece requested is played. The phonograph is not located in the Nippon Room, and the sounds are transmitted through loudspeakers.

The plaintiff seeks to enjoin further use by the defendant of his records under the theory that he has a property right in the rendition and interpretation of the compositions that he recorded, and that the defendant violates this right. In paragraph 15 of his bill, he says:

"That all of the rights and property in and to said performances, recordings and interpretations, including the common law right of property therein are the property of, and belong to, the plaintiff herein, with the exception of the right to sell and the right to perform said records on home phonographs for private purposes only."

Looking to the contract between the plaintiff and the RCA Manufacturing Company, it is clear that there is no reservation contained in that contract of any rights by the plaintiff. He gave to the RCA Manufacturing Company "the right to sell, lease or otherwise dispose of" his recordings.

This case on the pleadings differs greatly from Waring v. WDAS Broadcasting Station, Inc. (No. 9053, Court of Common Pleas No. 1, County of Philadelphia). RCA-Victor Company had stipulated with Waring that the records which he made would not be sold for broadcasting purposes. The records as made by the RCA-Victor Company contained a stamped restriction against such use on each record. When Waring sought to enjoin the broadcasting company from the use of his records, the court held that he was entitled to injunctive relief on the theory that Waring had not parted with his right to the control of the records for radio broadcasting, and that the defendant broadcasting company violated the express restriction stamped upon the record and reserved by Waring.

Considering the contract between Noble and RCA Manufacturing Company, it is apparent that Noble for a consideration granted to the company the absolute right to "sell, lease or otherwise dispose of" his records through-out the world. This is a broad and all-inclusive grant. Had the recording company seen fit to limit the use of its records to home use it might have acquired rights which it could protest as against this defendant. No such limitations having been made by RCA, to whom Noble had granted all rights, this plaintiff has no standing to question the use by this defendant of the records in the manner indicated in the bill.

The defendant's motion to dismiss is therefore allowed.

INCREASED POWER RECOMMENDED FOR KIEM

Broadcasting Station KIEM, Eureka, Calif., applied to the Federal Communications Commission to increase its power from 500 to 1,000 watts. The station operates unlimited time on 1450 kilocycles.

Examiner P. W. Seward, in Report No. I-429, recommended that the application be granted "if the applicant will select a proper transmitter and antenna site, subject to the approval of the Engineering Department of the Commission." The Examiner found that a need exists for additional radio service in the area proposed to be served. The hearings indicated, the Examiner states, that the present and proposed site for the transmitter and antenna "seems to be too near the city of Eureka, and, operating as proposed, would include a greater percentage of the population within the blanketing area than is permitted by the rules."

RECOMMENDS AGAINST CONTROL CHANGE

Roy L. Albertson applied to the Federal Communications Commission to transfer station WMBO, Auburn, N. Y., to the Auburn Publishing Company. The station operates on 1310 kilocycles, 100 watts, unlimited time.

Examiner P. W. Seward, in Report No. I-430, recommended against the application to transfer. He states in his report that the granting of the application would be in conflict with the provisions of Section 310 of the Communications Act of 1934. He found that the proposed sale price "is far in excess of the valuation of the properties proposed to be transferred as a going concern.* * * The spread between the value of the properties and the sale price appears to be consideration for the transfer of the frequency involved."

NEW OREGON STATION RECOMMENDED

The Bend Bulletin applied to the Federal Communications Commission for a construction permit for a new station at Bend, Ore., to use 1310 kilocycles, 100 watts night and 250 watts LS, and unlimited time on the air.

Examiner George H. Hill, in Report No. I-432, recommended that the application be granted "subject to the
The Examiner states that there is a definite need for the services proposed to be rendered by the applicant and no interference would be caused by granting the application.

RECOMMENDS AGAINST TIME CHANGES FOR WKBV

The Curtis Radiocasting Corporation applied to the Federal Communications Commission for a construction permit for the erection of a new station at Indianapolis, Ind., to use 1500 kilocycles, 100 watts night and 250 watts LS, and specified time. Also Station WKBV, Richmond, Ind., operating on 1500 kilocycles, 100 watts, and specified hours, asked that it be granted unlimited time on the air.

Examiner Robert L. Irwin, in Report No. I-431, recommended that both of the applications be denied. He found that there is no need for additional radio service at Indianapolis and the operation of the proposed new station would cause interference with WCKY during daytime operation. He found also that granting WKBV unlimited time on the air would cause objectionable interference to several stations.

TEXAS APPLICATION RECOMMENDATIONS

Applications were made to the Federal Communications Commission by the West Texas Broadcasting Company for a construction permit for a new station at Wichita Falls, Texas, to use 1380 kilocycles, 1,000 watts and unlimited time on the air. Also by the Wichita Broadcasting Company for a construction permit for a new station at Wichita Falls, Texas, to use 620 kilocycles, 250 watts and 1,000 watts LS and unlimited time; and the Faith Broadcasting Company to erect a new station also at Wichita Falls, Texas, to use 1380 kilocycles, 1,000 watts and 5,000 watts LS and unlimited time. Also C. C. Baxter of KFPL, Dublin, Texas, asked to voluntarily assign the station to WFTX, Inc. Also WFTX, Inc. (KFPL), asked to change the frequency from 1310 kilocycles to 1500 kilocycles, and its power to 100 watts and 250 watts LS.

Examiner John P. Bramhall in Report No. I-435 made the following recommendations:

1. That the application of the West Texas Broadcasting Company be granted upon condition that a site be specified which meets the requirements of the Commission and the Aeronautical Division of the Department of Commerce.

2. That the application of the Wichita Broadcasting Company is denied.

3. That the application of the Faith Broadcasting Company, Inc., be denied.

4. That the application of C. C. Baxter (KFPL) be dismissed, as provided in Rule 103.8.

5. That the application of WFTX, Incorporated, (KFPL) be dismissed, as provided in Rule 103.8.

RECOMMENDS NO CHANGES FOR WMBH

Broadcasting station WMBH, Joplin, Mo., operating on 1420 kilocycles, 100 watts night and 250 watts LS, unlimited time, applied to the Federal Communications Commission to change its frequency to 1380 kilocycles and to increase its power to 500 watts all time.

Examiner P. W. Seward in Report No. I-434 recommended that the application be denied. He found that with the changes suggested the station would reach fewer listeners than it does now. The Examiner stated that "the only benefit that might accrue would be to the applicant corporation by granting it the use of a regional frequency upon which it expects to predicate increased advertising rates, when in fact the service area will not be increased."

IDAHO STATION RECOMMENDED

Clarence A. Berger and Saul S. Freeman applied to the Federal Communications Commission for a construction permit for the erection of a new broadcast station at Couer d'Alene, Idaho, to use 1200 kilocycles, 100 watts and daytime operation.

Examiner P. W. Seward in Report No. I-436 recommended that the application be granted "subject to the approval of the Engineering Department of the antenna and transmitter site." He found that there is a need for additional daytime service in the area proposed to be served and "that the operation of the proposed station would not be expected to interfere with the efficient operation of an existing radio broadcast station."

RECOMMENDS NEW TEXAS STATION

The Beaumont Broadcasting Association applied to the Federal Communications Commission for a construction permit for the erection of a new station at Beaumont, Texas, to use 1420 kilocycles, 100 watts unlimited time.

Examiner Melvin H. Dalberg in Report No. I-433 recommended that the application be granted. The Examiner found that the proposed new facilities are needed, and that the proposed station would cause no objectionable interference with any existing station. It would be in the public interest he states.
BROADCAST ADVERTISING
IN APRIL
HIGHLIGHTS OF THE MONTH

Total broadcast advertising during the month of April amounted to $11,309,319. Gross time sales for the month were 2.7% below the level recorded for last month, the usual seasonal decline. While national network and national non-network business showed declines in volume, regional network and local advertising experienced gains. Total sales were 28.1% ahead of the level as registered during April of 1936. The principal gain over last year occurred in the national non-network field, the volume of sales in this portion of the medium rising 53.8%.

As compared to last month, other major media followed the usual seasonal tendencies in experiencing slight increases in advertising volume. As against last April, national magazine volume increased 17.6%, national farm paper volume 11.8%, and newspaper lineage 3.4%. These increases compare to the 28.1% gain experienced by broadcast advertising.

Non-network broadcast advertising remained at approximately the same level as was recorded for March. Local station volume showed the only increase, rising 5.5%. All sizes of stations showed marked increases as compared to last April, the principal increase being a 47.2% gain recorded by regional stations. Of the geographical districts, the South Atlantic-South Central Area showed the only increase of any importance as compared to last month. All sections of the country recorded gains in business as against last April.

Electrical transcriptions continued to show the principal gains of any type of rendition as compared to the preceding month. Transcriptions rose 8.0% in the national non-network field and 9.3% in the local field. Compared to last April, live talent business rose 45.1%, announcements 25.3%, transcriptions 24.1%, and records 12.5%.

The following sponsor groups showed the principal gains as compared to last month: national network soap and kitchen supplies and tobacco advertising, regional network toilet goods and financial advertising, national non-network tobacco advertising, and local household equipment advertising. As against last April, principal increases occurred in the following groups: national network household equipment, financial, soap and kitchen supplies; regional network drug and clothing; national non-network foodstuffs, beverage, and confections; and local foodstuffs, department store and tobacco advertising. Retail broadcast advertising amounted to $1,252,430, an increase of 6.4% in volume over last month and a gain of 14.5% as compared to April of 1936.

TOTAL BROADCAST ADVERTISING

Total broadcast advertising for the month of April is found in Table I.

Total broadcast advertising experienced the usual seasonal decline, dropping 2.7% from the level of the preceding month. National network volume declined 5.2%, while national non-network advertising decreased 1.8%. Regional network volume increased 10.7% over the level of March. Local business followed the usual seasonal upswing in rising 2.6% in volume.

Compared with the corresponding month of last year, gross time sales of the medium increased 28.1% in volume. While regional network volume remained at approximately the same level, national network volume rose 24.4%, national non-network business 53.8%, and local advertising 12.9%.

COMPARISON WITH OTHER MEDIA

National magazine volume gained 9.6% as compared to the level of March. Newspaper lineage increased 3.9% and national farm paper volume rose nearly 1.0%. These increases are normal seasonal tendencies.

Radio broadcasting continued to show the greatest gain in advertising volume of any major medium as compared to the corresponding month of last year. Compared to the 28.1% gain in broadcast advertising, national magazines rose 17.6%, national farm papers 11.8%, and newspapers 3.4%.

Advertising volume by major media is shown in Table II.

NON-NETWORK ADVERTISING

Total non-network broadcast advertising remained at approximately the same level as was recorded for last month. Local station volume registered the only in-
crease, rising 5.5%. Advertising over clear channel and high-powered regional stations declined 1.7%, while regional station volume remained the same.

With total non-network advertising volume increasing 33.4% over last April, all sizes of stations registered important gains. Advertising over clear channel and high-powered regional stations rose 23.6%, over regional stations 47.2%, and over local stations 24.9%.

Broadcast advertising by power of station is found in Table III.

Compared to March, non-network advertising in the South Atlantic-South Central Area rose 7.8% and in the North Central Area slightly less than 1.0%. Non-network advertising in the New England-Middle Atlantic and in the Pacific and Mountain Areas declined 4.8% and 2.7%, respectively.

All sections of the country enjoyed marked increases in non-network advertising volume as compared to last April. The greatest increase occurred in the New England-Middle Atlantic Area, non-network advertising in this region increasing 51.7%. Non-network advertising in the South Atlantic-South Central Area rose 30.3%, in the North Central Area 25.6%, and in the Pacific and Mountain Area 31.4%.

Non-network advertising by geographical districts is shown in Table IV.

**NON-NETWORK ADVERTISING BY TYPE OF RENDITION**

Electrical transcriptions registered the principal increase during the month, total volume rising 8.2% above March. Record business, although much smaller in volume, recorded the greatest gain in rising 13.1%. Total live talent volume dropped 2.6% and announcements declined 3.8%. Compared to last April, live talent business rose 45.1%, announcements 25.3%, transcriptions 24.1%, and records 12.5%.

In the national non-network field, transcriptions rose 8.0% in volume over last month and records gained 16.1%. Live talent business declined 6.3% and announcements 10.1%. As against April 1936, records more than doubled, transcriptions rose 34.6%, live talent 65.5%, and announcements 76.0%.

All types of rendition in the local field increased in volume over last month. Transcriptions rose 9.3%, live talent 1.6%, records 12.1%, and announcements 1.4%. When compared to last April, transcriptions declined 10.4% and records 6.1%, while live talent business and announcements increased 28.2% and 3.3%, respectively.

Non-network advertising by type of rendition is found in Table V.

**SPONSOR TRENDS IN APRIL**

Compared to March, declines were fairly general in the national network field, clothing and radio set advertising declining to the greatest extent. Soap and kitchen supplies and tobacco advertising registered the principal gains. In the regional network field, toilet goods and financial advertising showed the greatest increases. Most important changes in the national non-network field were a 26.8% drop in the automotive group and a gain of 20.1% in tobacco advertising. Gains were fairly general in the local field, with household equipment advertising recording the greatest gain.

In the national network field, principal increases occurred in the household equipment, soap and kitchen supplies, and financial advertising as compared to last
April. Drug and clothing volume led the other sponsor groups in the regional network field. Gains were general in the local and national non-network fields, with local foodstuffs, department store and tobacco advertising and national non-network foodstuffs, beverage and confectionery advertising recording substantial gains.

Broadcast advertising during April by major product and sponsor groups is shown in Table VI.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

Nos. 3138 and 3140. Alleging unfair competition in the sale of candy complaints have been issued against Ira W. and Clayton A. Minter, trading as Minter Brothers and as Douglass Candy Co., 3917 Lancaster Ave., Philadelphia, and against Peck-O-Fun Co., 1428 West Thirty-seventh St., Chicago.

The complaint against the Minter firm charges the respondents with selling to wholesalers and retailers certain assortments of candy so packed and assembled as to involve, or which are designed to or may involve, the use of a lottery scheme when such products are distributed by retail dealers.

No. 3141. Charging use of unfair methods of competition in selling dresses which allegedly were falsely advertised as being composed of "Soft, silky Seal crepe woven from Enka yarns," and as being "made from Seal crepe."

2148
No. 3142. Four New York companies selling cosmetics, perfumes and drug notions to the retail and peddler trade, and certain of their officers, are charged with unfair competition in violation of Section 5 of the Federal Trade Commission Act, in a complaint issued by that Commission.

The Corporate respondents are: National Optical Stores Company and Dr. Ritholz Optical Company, 1148-1160 West Chicago Ave., Chicago.

The individual respondents, engaged in the interstate sale of optical goods, are: K. A. Urban, trading as Close Co., 2021 Fulton St., Chicago, and Daniel M. S. Hagen, trading as manufactured and/or advertised in a false and misleading manner.

Various items of merchandise described in their price lists and other printed matter are alleged to have been represented as of superior value because of the excessive fictitious prices marked thereon, when in fact, such articles were of values lower and had actual selling prices lower than the prices marked thereon would indicate to buyers, according to the complaint.

Nos. 3144 and 3145. Complaints have been issued against a Chicago candy company and a Detroit chewing gum manufacturer, alleging the use of lottery methods in the sale of their products. The respondents are: Frank, George A., and E. T. Urban, trading as Cosray Products Co., 617 East First St., Detroit, and Wolverine Gum, Inc., 5625 Lauderdale Ave., Detroit.

The Chicago candy company is charged with selling assortments of uniformly sized candies, together with other articles of merchandise to be given as prizes to purchasers. The Detroit company is alleged to sell chewing gum with wrappers of differing colors or size, so that customers drawing chewing gum with wrappers different from the majority of wrappers receive a prize.

No. 3146. Charging unfair competition in the sale of "Cosray Vitamin D Soap", a complaint has been issued against Los Angeles Soap Co., trading as Cosray Products Co., 617 East First St., Los Angeles.

Advertising in newspapers, over the radio and in pamphlets, the respondents are alleged to have represented that the Vitamin D in its soap is a wonderful discovery of science to increase the body's vitality, to reduce large pores, to eliminate blackheads and pimples, to correct asthma, nervousness, and liver and stomach disorders.

No. 3147. Henry and Sigmund Sacks, trading as Metal Cast Products Co., 1696 Boston Road, New York, agreed to discontinue advertising that they are the "only dealers" in casting molds for manufacturers, that they sell the molds on a half-cost basis or for any amount less than the regular price, and that the stated prices advertised were much less than the actual selling price, and the study of any of the correspondence courses he sells will enable one to play any musical instrument within any definite period of time, or that any article is offered free to the purchaser of a course, when the cost of the article is included in the purchase price of the course.

No. 3150. The Sparks-Withington Co., Jackson, Mich., engaged in the sale of Sparton radios, will discontinue representations that Sparton radio tone control makes reception possible under any condition, and that by use of the Sparton, programs are received clearly and distinctly from American stations or from various foreign countries or from outostation stations in remote parts of the world.

No. 3151. Wilhelmina Wittgeschleger, trading as Indian Root & Herb Co., 150 N. E. Third St., Miami, Fla., will discontinue representations that she made the trade name of any of the various medicinal preparations she sells. She also will cease certain false representations as to the therapeutic value of preparations recommended as treatments for the nose and throat, rheumatism, skin ailments, high blood pressure, nervousness, and liver and stomach disorders.

No. 3152. Charles B. French Lick, Ind., agreed to cease advertising that Pluto Water is the "only laxative" and will correct constipation, unless the latter representation is limited to indicate acute constipation; that it is of itself a competent treatment for gall bladder and liver troubles, and that it provides a sure way of cleansing the system of health destroying poisons, unless such claim is limited to the intestinal tract.

No. 3156. Willard Mathias Moore, trading as Moore-made, 77 Turrill Ave., Lapeer, Mich., selling plans for an amusement park device, methods of engaging in mail order business, and other money-making schemes, stipulates that he will cease advertising that his plan for making money enabled him to accumulate $40,000, and that such plan will make easy money for anyone. Moore agrees to stop asserting that "Celebrated Magic Cologne" is in universal demand; that several hundred dollars' worth of "Magic Cheese Eradicator" can be sold in a single town per month, in a week's time; that "The Roadman's and Streetman's Guide" contains real plans for making big money, and that the book "Famous Secret Formulas", will enable one to clear $20 a day, and contains formulas for various accomplishments such as making inkless pens, an everlasting black ink, and a preparation that will cure all habits.

No. 3157. The Institute on Mentalphysics, Second St. at Hobart Blvd., Los Angeles, in the sale of correspondence courses, books and other literature on "Mentalphysics", agrees to cease the representation that the institute's founder was taught by masters of the Far East in Tibet, and is today an authoritative interpreter of the ancient wisdom. The respondent also agrees to cease representing that it offers a secret method of the actual technique of rejuvenation; that old age is only a chemical change which the respondent is able to instruct its students to overcome; that "Mentalphysics" enables one to cure appendicitis, sinus trouble and certain other ailments, and to attain a perfect supply of the right kind of food.

No. 3158. Jim Bourland, trading as Star Products Co., 1901 Runnels St., Houston, Tex., will cease making assertions in advertising that his Blue Star Ointment is a positive relief for itchy skin, will penetrate the pores or will kill common itch, tetter, eczema, foot itch or ringworm.

No. 3159. Red Sea Balsam Co., Inc., 450 Broadway, Taunton, Mass., stipulated that it will cease advertising Red Sea Balsam as competent in the treatment of bruises, sprains, burns and sunburn, or that it is an effective remedy for colds, unless limited to the treatment of colds.

No. 3160. Crown Products Corporation, 1337 Minnesota St., San Francisco, agreed to discontinue advertising that Saniclor kills germs, is a sterilizer, or destroys odors, unless the latter representation is limited to the destruction of odors by application at the source of the odor or upon the object from which it emanates. The corporation also will cease representing that Saniclor kills germs, is a sterilizer, or destroys odors, unless the latter representation is limited to the destruction of odors by application at the source of the odor or upon the object from which it emanates. The corporation also will cease representing that Saniclor kills germs, is a sterilizer, or destroys odors, unless the latter representation is limited to the destruction of odors by application at the source of the odor or upon the object from which it emanates.
Clor is a disinfectant, unless directions are given for first cleansing the surface to be disinfectted, and then thoroughly wetting such surface with a proper solution of the product.

No. 1661. G. H. Gittske, trading as Ulgo Co., 125 Wirthman Building, Kansas City, Mo., for advertising that Ulgo is a competent remedy in the treatment of leg or arm sores, or that it does other than control, but not cure, some cases of leg sores when caused by trichophyton tinea germs.

No. 1662. Dr. A. L. Barth, trading as Central Laboratory and as Dr. L. Wolff, 2817 East 13th St., Pittsburgh, Pa., is engaged in the sale of a health service which includes his analysis of a body excretion as a means of diagnosing certain diseases. He agreed to cease representing that the findings of his analysis are an index to the state of one's health or indicate whether all the vital organs are performing their work properly or require attention, and that by that means he diagnoses the causes of dropsey, tonsillitis, tumours, goiter, indigestion and other ailments may be determined and the conditions relieved.

No. 1663. James Austin Co., Greenfield Ave. and Raercher St., Pittsburgh, Pa., will stop representations that Austin's A-1 Solution will disinfect cuts, wounds, and insect bites; that when used for laundering clothes the use of bluing will not be necessary, and that the product will serve as a disinfectant for household purposes, unless such claim is qualified by the direcction that the articles to be disinfectted must be thoroughly washed or cleansed before application of the solution.

No. 1664. Forrest H. Products Co., 2637 Randolph St., Lincoln, Nebr., will stop asserting that its Ex-Tone Poultry Worm Tablets or Ex-Tone Poultry Worm Powder will, alone or in combination with other products, constitute a competent treatment or an effective remedy for worm infestation of chickens or turkeys, or that either of them will prevent the causes of dropsey, tonsillitis, tumours, goiter, indigestion and other ailments.

No. 1665. James Austin Co., 2147 West Washington Boulevard, Chicago, Ill., will discontinue representing that Entromul is a competent remedy for nervousness and sleeplessness; that Ur-Gard is a Medical Corps prophylactic having properties fully effective for the prevention or treatment of social diseases generally, and that Retardex is a gland tonic, is harmless, and has been used with success where other remedies have failed.

No. 1666. Pacific Coast Borax Co., 510 West 6th St., Los Angeles, selling 20-Mule Team Borax, stipulated that it will desist from representing that the product will destroy all odors, banish insect pests and cure athlete's foot.

No. 1667. Frances Kable, Inc., 400 North Michigan Ave., Chicago, Ill., for distorting representations that the respondent's product, Hollywood Contour Neck Band, is Hollywood's most guarded secret, and is used and endorsed by famous and screen stars, unless such celebrities actually use and endorse it; that the product rebuilds relaxed neck and contour muscles, builds body control, eliminates wrinkles, and makes the neck slimmer.

The respondent corporation also agreed to cease using the word "Hollywood" in designating its product.

No. 1668. Scientiile Medieval Products, Inc., Russ Building, San Francisco, agreed to cease advertising that its product, Slements, will enable one to get rid of fat and that its results are guaranteed. The company also will stop representing, inferentially or otherwise, that the product has been used in the reducing clinic of any hospital, unless such is a fact.

No. 1669. Elizabeth May and George W. Haylings, trading as National Folio Service, Los Angeles, agreed to quit representing that the service is a remarkable plan telling a person how to earn a remarkable wage every week, and that in order to succeed with the business described in this treatise, it is not necessary to canvass and one need work only a few hours each day.

No. 1670. Powertown Studios, Inc., 529 North Michigan Ave., Chicago, agrees to stop advertising that in the sale of its correspondence course in art and commercial drawing, special cash offers are made or prizes are given for promptness, and that as a result of studying the course a person can begin selling his drawings as a small business. The respondent also agrees to discontinue representing that the price of the course is being reduced, and that a reduction in tuition may be obtained by promptness in enrollment, unless such price increase actually takes place.

The respondent admitted in its stipulation that expediting enrollment and as a condition precedent to making the offer of the price increase, was in order to get enrollees to pay in advance, which was not the case.

No. 1671. Paul Gardiner, Newark, Mo., engaged in selling Vitality Tonic, Antiseptic Douch Powder, and roots and herbs, agreed to cease certain false representations concerning the therapeutic value of such products. Gardiner also will stop misrepresenting the results to be obtained from the use of other products he is engaged in selling, including gazing books, booklets and novelties.

The respondent does business under five trade names, each containing the words "Smythe Company."

No. 1672. W. M. Robbins, trading as Ray-Zem Laboratories, St. Paul, Minn., stipulated that in advertising Ray-Zem, a poultry remedy, he will discontinue assertions that the product is poisonous, harmless, and indispensable in making a success of poultry raising.

No. 1673. Hollywood Hygienic Products, Inc., Hollywood, Calif., will discontinue the following representations concerning certain products it sells: That use of Hollywood Dainties gives assurance that fatty oil not found in other preparations for maintaining hygiene, and that its germicidal qualities become active at once; that Glandex is a tonic and a competent remedy for nervousness and sleeplessness; that Ur-Gard is a Medical Corps prophylactic having properties fully effective for the prevention or treatment of social diseases generally, and that Retardex is a gland tonic, is harmless, and has been used with success where other remedies have failed.

No. 1674. H. D. Sandstone, trading as Rol-A-Ray Sales Co., Portland, Ore., stipulated that he will cease advertising that Rol-A-Ray, an electrical appliance, has performed miracles in re-lieving persons who had lost all hope of enjoying normal health; that it gives a miracle electrical massage, and is a competent treatment for anemia, arthritis, paralysis, pneumonia, influenza, ulcers and other ailments.

No. 1675. Illinois Nut Products Co., candy manufacturer, 613 West Lake St., Chicago, has entered into a stipulation to discontinue representing, through use of the words "Havana" or "Habana," alone or with other words, or through use of other representations of similar effect, that cigars not made entirely from tobacco grown in Cuba, are Havana cigars. The use of such representations was held to be in violation of Section 5 of the Federal Trade Commission Act.

According to the stipulation, the company employed a certain punchboard method in promoting the sale of its products, and all of the prizes awarded were given by the purchasing public wholly by lot or chance.

No. 1676. An order to cease and desist has been issued against H. Reuener & Son, Hanover, Pa., cigar manufacturer, requiring it to cease certain misrepresentations in the sale of its products.

The order directs that the respondent company stop representing, through use of the words “Havana” or “Habana,” alone or with other words, or through use of other representations of similar effect, that cigars not made entirely from tobacco grown in Cuba, are Havana cigars. The use of such representations was held to be in violation of Section 5 of the Federal Trade Commission Act.

The respondent company is ordered to discontinue representing, through use of the word "Distilling" in its corporate name, in advertising, on labels, or otherwise, that it is a distiller of whiskies, gins or other spirituous beverages, that it manufactures such products through the process of distillation, or that it owns or operates a distillery, unless and until it does own or operate such a place.

No. 1677. Kolynos Co., New Haven, Conn., has been ordered to cease and desist from making certain false and misleading representations in connection with the interstate sale of Kolynos tooth paste.

Among representations prohibited in advertising are that Kolynos tooth paste conquers bacterial mouth alleged to be caused by germs which attack tooth and gum; cleans and polishes teeth down to the naked white enamel and erases and removes tartar; gives teeth a double cleansing not to be obtained with ordinary or other dentifrices, and restores all teeth to sparkling or natural whiteness.

Nos. 1678 and 1679. Respondents in two cases have been ordered to cease and desist from using lottery methods to promote interstate sale of blankets, bedspreads or other merchandise.

In one case the respondents are William F. Allen, Charles H. Wolf, Edward M. Mullen and Charles H. Clark, individually and as Allen & Mullen, 2150 South 43rd St., Philadelphia; and in the other the respondent is George J. Nothnagel, trading as The Stanley Store, 734 Haddon Ave., Collingswood, N. J.
Findings are that these respondents sold their merchandise, along with their sales plan, to clubs, fraternal organizations, hospitals and charitable institutions, while Miller, Bain, Beyer & Co. sold to wholesalers and retailers as well.

The respondents' method of selling their merchandise is described in the findings as a club plan, the clubs organized having a fixed number of members 60 or 100, each of whom pays weekly dues, generally 25 cents, for a given number of weeks.

FEDERAL COMMUNICATIONS COMMISSION ACTION

Hearing Calendar

The following broadcast hearings are scheduled at the Commission for the week beginning Monday, June 14:

Monday, June 14

FURTHER HEARING BEFORE AN EXAMINER

(Broadcast)

WDEV—Chas. B. Adams, Administrator of Harry C. Whitehill Estate and Executor of Mary M. Whitehill Estate, Waterbury, Vt.—Renewal of license, 550 kc., 500 watts, daytime.

Tuesday, June 15

HEARING BEFORE AN EXAMINER

(Broadcast)

NEW—Robert E. Clements, Huntington Park, Calif.—C. P., 1160 kc., 250 watts, daytime.

NEW—Kenneth Baker, Hartwell Gaus, V. A. Bernier, d/b as Key City Broadcasting Co., Kankakee, Ill.—C. P., 1500 kc., 100 watts, unlimited time.

NEW—Robert Raymond McCulla, Oak Park, Ill.—C. P., 1500 kc., 100 watts, daytime.

NEW—Earle Yates, Las Cruces, N. Mex.—C. P., 930 kc., 500 watts, daytime.

Wednesday, June 16

HEARING BEFORE AN EXAMINER

(Broadcast)

NEW—The Tribune Co., Tampa, Fla.—C. P., 940 kc., 1 KW, 5 KW LS, unlimited time.

Friday, June 18

HEARING BEFORE AN EXAMINER

(Broadcast)

NEW—Clark Standiford, L. S. Coburn, and A. C. Siddner.—C. P., 1370 kc., 100 watts, unlimited time.

WKEU—Radio Station WKEU, Griffin, Ga.—C. P., 1310 kc., 100 watts, unlimited time.

APPLICATIONS GRANTED

WTFI—Liberty Broadcasting Co., Atlanta, Ga.—Granted modification of C. P. to move studio site locally and increase day power from 500 watts to 1 KW.

KSRO—The Press Democrat Publishing Co., Santa Rosa, Calif.—Granted modification of C. P. approving transmitter site at Fresno Ave. and Vallejo St.; extension of commencement date to 60 days after grant and completion date to 180 days thereafter.

KTEM—Bell Broadcasting Co., Temple, Tex.—Granted license to cover C. P., 1370 kc., 250 watts, daytime only.

KCMA—KCMA, Inc., Texarkana, Tex.—Granted license to cover C. P., 1420 kc., 100 watts night, 250 watts day, unlimited time.

KVEC—Christina M. Jacobson, tr/as The Valley Electric Co., San Luis Obispo, Calif.—Granted license to cover C. P. for new station, 1200 kc., 250 watts, daytime only.

WFGB—The Gable Broadcasting Co. (Lessee), Altoona, Pa.—Granted license to cover C. P. as modified, 1310 kc., 100 watts night and day, sharing with WJAC.

KRLC—H. E. Studebaker, Lewiston, Idaho.—Granted license to cover C. P. as modified, 1390 kc., 250 watts, unlimited time.

WKBW—Buffalo Broadcasting Corp., Buffalo, N. Y.—Granted license to cover C. P., 1480 kc., 5 KW, unlimited time. Also granted authority to determine operating power by direct measurement of antenna.

WGR—Buffalo Broadcasting Corp., Buffalo, N. Y.—Granted license to cover C. P. as modified, 550 kc., 1 KW night, 5 KW day, unlimited time. Also granted authority to determine operating power by direct measurement of antenna.

WSIX—Jack M. Draughon and Louis R. Draughon, d/b as 638 Tire & Vulcanizing Co., Nashville, Tenn.—Granted voluntary assignment of license to WSIX, Inc. (1210 kc., 100 watts, unlimited).

NEW—WTAR Radio Corp., Mobile about Norfolk, Va. (2 applications).—Granted C. P. for new high frequency relay broadcast station, frequencies 31100, 34600, 37600 and 40600 kc., 1 watt.

W3XEW—WTAR Radio Corp., Mobile about Norfolk, Va. (2 applications).—Granted license to cover C. P. frequencies 31100, 34600, 37600 and 40600 kc., 5 watts.

NEW—WSOC, Inc., Mobile.—Granted C. P. for new high frequency relay broadcast station; frequencies 31100, 34600, 38600 and 40600 kc., 0.2 watts. Also granted license covering same.

NEW—WJW, Inc., Mobile.—Granted C. P. and license for new high frequency relay broadcast station, frequencies 31100, 34600, 40600 kc., 20 watts.

WAAJ—The Fort Industry Co., Mobile.—Granted modification of original C. P. which expired May 29, 1937, and modifications thereof for changes in equipment and increase in power from 50 to 100 watts.

NEW—WJWI, Inc., Mobile (vicinity of Akron).—Granted C. P. for new high frequency relay broadcast station, frequencies 31100, 34600, 37600 and 40600 kc., 1 watt. Also granted license covering same.

W6XCI—Earle C. Anthony, Inc., Mobile.—Granted modification of C. P. to make changes in equipment and decrease power from 250 watts to 2 watts, and extend completion date to 60 days after grant.

W6XCI—Earle C. Anthony, Inc., Mobile.—Granted license to cover C. P. as modified for new relay station on experimental basis, frequencies in group D of Rule 1093.

SET FOR HEARING

NEW—Southern Broadcasting Corp., Bogalusa, La.—C. P. for new station, 1500 kc., 100 watts night, 250 watts day, unlimited time. Exact site to be determined with Commission's approval.

NEW—Seaboard Broadcasting Corp., Savannah, Ga.—C. P. for new station, 1310 kc., 100 watts night, 250 watts day, unlimited time. Transmitter location to be determined with Commission's approval.
NEW—Martin R. O’Brien, Aurora, Ill.—C. P. for new station, 1240 kc., 250 watts, daytime only. Exact site and type of antenna to be determined with Commission’s approval.

NEW—Tom Olsen, Port Angeles, Wash.—C. P. for new station, 1240 kc., 100 watts, unlimited time. Transmitter site to be determined.

WMAZ—Southeastern Broadcasting Co., Inc., Macon, Ga.—C. P. to make changes in complete equipment and increase day power from 1 to 5 kw.

NEW—State Broadcasting Corp., New Orleans, La.—C. P. for new station, already in hearing, amended so as to request 1500 kc., 100 watts, unlimited time.

NEW—RadioTel Corp., San Diego, Calif.—C. P. for new station, already in hearing, amended so as to request 930 kc., 1 kw, unlimited time.

WNBZ—Earl J. Smith and William Mace, d/b as Smith and Mace, Sarasac Lake, N. Y.—Application for voluntary assignment of license to the Upstate Broadcasting Corporation.

KLRA—Arkansas Broadcasting Co., Little Rock, Ark.—C. P. to suspend operation of station during the college vacation period not to exceed 30 days, in order to broadcast local College commencement program. Also granted authority to erect new station to operate on 620 kc., 250 watts, daytime only. Exact site and type of antenna to be determined.

KFPL—WFTX, Inc., Wichita Falls, Tex.—Examiner Bramhall recommended denial of application for C. P. for a new station to operate on 1420 kc., night, 250 watts LS, unlimited time.

KOAC—Oregon State Agricultural School, Corvallis, Ore.—Granted special temporary authority to operate from 8 a.m. to 2:30 p.m. and from 6:30 to 8 p.m., PST, during months of July and August (instead of unlimited time, as licensed) in order to observe summer vacation.

WFLA-WSUN—Clearwater Chamber of Commerce and St. Petersburg Chamber of Commerce, Clearwater, Fla.—Granted special temporary authority to transmit programs originating aboard the yacht Torano for a period not to exceed 30 days.

W10XGY—Donald Roebling, on board yacht Torano.—Granted special temporary authority to operate general experimental station aboard the yacht Torano as a relay broadcast station to transmit programs, under the sponsorship of the Smithsonian Institution, over broadcast station WFLA-WSUN, for a period not to exceed 30 days.

APPLICATIONS DISMISSED

The following applications, heretofore set for hearing, were dismissed at request of applicants:

NEW—WDCR, Inc., New Haven, Conn.—C. P., 1330 kc., 250 watts, 250 watts LS. To synchronize with WDRC.

WFIL-WFIL Broadcasting Co., Philadelphia, Pa.—560 kc., 5 kw, 5 kw LS, unlimited time.

ORAL ARGUMENTS SCHEDULED

EXAMINERS’ REPORTS RELEASED SINCE JUNE 1

KIEM—Ex. Rep. 1-429: Redwood Broadcasting Co., Inc., Eureka, Calif.—Examiner P. W. Seward recommended grant of application to increase daytime power to 1 kw and to continue operation with 500 watts at night on 1450 kc.

NEW—Ex. Rep. 1-431: Curtis Radiocasting Corp., Indianapolis, Ind.—Examiner R. L. Irwin recommended denial of application for C. P. to erect new station to operate on 1500 kc., 100 watts night, 250 watts LS, specified hours.

WKBV—Knox Radio Corp., Richmond, Ind.—Examiner Irwin recommended denial of application for modification of license to change hours from specified to unlimited time of operation.

NEW—Ex. Rep. 1-432: The Bend Tribune, Bend, Ore.—Examiner George H. Hill recommended grant of application for C. P. to erect a new station to operate on 1310 kc., 100 watts night, 250 watts LS, unlimited time.

WMBF—Ex. Rep. 1-435: Joplhin Broadcasting Co., Joplhin, Mo.—Examiner P. W. Seward recommended denial of application for C. P. to change frequency from 1420 kc. to 1380 kc., power from 100 watts night, 250 watts LS, to 500 watts.

NEW—Ex. Rep. 1-435: West Texas Broadcasting Co., Wichita Falls, Tex.—Examiner John P. Brambah recommended grant of application for C. P. to erect a new station to operate on 1380 kc., 1 kw, unlimited time.

NEW—Wichita Broadcasting Co., Wichita Falls, Tex.—Examiner Brambah recommended denial of application for C. P. for new station to operate on 620 kc., 250 watts, 1 kw LS, unlimited.

NEW—Path Broadcasting Co., Inc., Wichita Falls, Tex.—Examiner Brambah recommended denial of application for C. P. for new station to operate on 1380 kc., 1 kw, 5 kw LS, unlimited.

KFPL—C. C. Baxter, Dublin, Tex.—Examiner Brambah recommended denial of application for voluntary assignment of license to WFTX, Inc.

KFPL—WFTX, Inc., Wichita Falls, Tex.—Examiner Brambah recommended denial of application for C. P. to change frequency from 1310 kc. to 1500 kc.

2152
**MISCELLANEOUS**

**WFMD**—The Monocacy Broadcasting Co., Frederick, Md.—Denied special temporary authority to operate from local sunset (June 7 4:53 p.m.) to 10 p.m., EST, June 8, in order to broadcast election returns in Frederick City Municipal election.

**WRR**—City of Dallas, Tex.—Granted petition to intervene in the hearing on the application of Centennial Broadcasting Corp. for a new station at Dallas, Tex. (Docket 4551.)

**WDAE**—Tampa Times Company, Tampa, Fla.—Granted authority to intervene in the hearing on the application of The Tribune Company for C.P. to erect a new station at Tampa, Fla., to operate on 1420 kc., 250 watts night, 100 watts LS, unlimited time.

**KXA**—American Radio Telephone Company, Seattle, Wash.—Granted request to continue hearing on application for C.P. to make changes in equipment, install vertical antenna, increase power from 250 watts night, 500 watts local sunset to 1 kw limited hours, from June 29, 1937, to the second week of September, 1937, new date to be fixed by the Docket Section.

**NEW**—Richland Broadcasting Co., Mansfield, Ohio.—Denied petition requesting Commission to withhold decision on the application of Allen T. Simmons for C.P. to erect a new station at Mansfield, Ohio, to operate on 780 kc., 1 kw, daytime only, until such time as a hearing is held on petitioner’s application.

**KCRC**—Eaid Radioiphone Company, Enid, Okla.—Granted request to withdraw application for C.P. to use 1360 kc., 500 watts, unlimited time, calendared for hearing on June 22, 1937, without prejudice.

**NEW**—Seaboard Broadcasting Corp., Savannah, Ga.—Denied petition requesting hearing on application of Arthur Lucas for a new station at Savannah, Ga., to use 1310 kc., 100 watts, unlimited time, Docket 4563, be continued until such time as the Commission shall schedule for hearing the application of Seaboard Broadcasting Corp., and that both hearings be consolidated and heard on the same date.

**WXXT**—National Television Corp., New York City.—Denied petition for an amendment and modification of special temporary experimental authorization for the operation of a television broadcast station upon the frequencies 2000-2100 kc., with power of 500 watts, unlimited time. The Commission also entered its final order denying the application of the National Television Corp. for a C.P. (Ex. Rep. 1-125), to establish and operate a visual broadcast station on the frequencies 2000-2100 kc., with power of 500 watts, hours of operation to be determined in accordance with Rule 308.

**NEW**—Seaboard Broadcasting Corp., Savannah, Ga.—Denied petition to intervene in the hearing on the application of Arthur Lucas for a new station at Savannah, Ga., to use 1310 kc., 100 watts, unlimited time, Docket 4553, now scheduled for July 6, 1937.

**NEW**—George H. Payne, San Jose, Cal.—Denied petition to reconsider on application of Arthur Lucas for a new station at San Jose, to use 1440 kc., 500 watts, unlimited time, Docket 4276, and that new hearing date in October, 1937, be fixed at the convenience of the Docket Section.

**NEW**—Kenneth Baker, Hartwell Gaus and V. A. Bernier, Kankaee, Ill.—Denied petition to intervene in the proceedings upon the application of Robert Raymond McCulla (Docket 3647), now scheduled for June 15; for C.P. to use 1300 kc., 100 watts, daytime only.

**NEW**—Gallatin Radio Forum, Gallatin, Mont.—Denied motion to quash an order to take depositions in connection with the application of the Roberts-MacNab Company for C.P. to erect a new station at Bozeman, Mont., to use 1420 kc., 100 watts night, 250 watts LS, unlimited time Docket 4460, and dismissed opposition thereto by Roberts-MacNab Company.

**WOW**—Woodmen of the World Life Ins. Assn., Omaha, Neb.—Denied petition to extend effective date of the Commission’s Order in Docket 2412, granting the application of WKZO, Inc., for C.P. to move transmitter location, install directional antenna and increase hours of operation to unlimited time.

**WAAP**—The Yankee Network, Inc., Boston, Mass.—Denied petition requesting authority to operate station with 1 kw day pending effective date of Commission’s order authorizing such operation. The Commission on May 18 granted application for WAAB for modification of license to increase power from 500 watts to 1 kw daytime.

**WKEU**—Radio Station WKEU, Griffin, Ga.—Denied petition for continuance of hearing now scheduled for June 18, for a period of approximately 4 months, new date to be fixed at the convenience of the Docket Section.

**KGMB**—J. L. P. Robinson, Pacific Theatres & Supply Co., and Fred J. Hart, Honolulu, T. H.—Denied petition for continuance of hearing now scheduled for June 25, 1937, to a date on or about November 1, 1937, in the matter of the applications of Seaboard Broadcasting Co., Ltd. (Docket 3873), and the applications of Honolulu Broadcasting Co., Ltd. (Dockets 4571, 4572, 4590 and 4570).

**WBNO**—Coliseum Place Baptist Church, New Orleans, La.—The Commission, on its own motion, continued the hearings upon the applications of Coliseum Place Baptist Church for voluntary assignment of license and renewal of license (Dockets 4468 and 4008), Charles C. Carlson (WJBB) for C.P. to use 1290 kc., 100 watts night, 250 watts LS, unlimited, and for renewal of license (Dockets 4204 and 4330), and Southern Broadcasting Corp., for a new station to use 1300 kc., 100 watts night, 250 watts LS, unlimited (Docket 3999), be heard upon the same date as the applications of Coliseum Place Baptist Church for C.P. to use 1420 kc., 100 watts night, 250 watts LS, unlimited (Docket 4580), and Standard Life Ins. Co. of the South for a new station to use 1120 kc., 120 watts n, 250 watts LS, unlimited (Docket 4510).

**WRC**—National Broadcasting Co., Washington, D. C.—Denied petition to reconsider and grant without a hearing application to use 5 kw power at night on 950 kc.

**KFBB**—Warning Broadcasting Co., Hollywood, Cal.—Denied petition to reconsider and grant without a hearing application to use 5 kw power at night on 950 kc.

**KMBC**—Midland Broadcasting Co., Kansas City, Mo.—Denied petition to reconsider and grant without a hearing application to use 5 kw power at night on 950 kc.

</table>
tion for C. P. to make changes in equipment and increase day power from 100 to 250 watts, and granted same without a hearing. The Broadcast Division directed further that no order be entered accordingly and forwarded to all interested parties.

WEAU—Central Broadcasting Co., Eau Claire, Wis.—The Broadcast Division, upon consideration of a petition filed on behalf of WEAU, reconsidered its action of December 15, 1936, in designating application for modification of C. P. approving transmitter location and increase in time of operation from daytime to limited, sunset at Abilene, Kans., for hearing, and directed that an order be entered accordingly and forwarded to all interested parties.

NEW—Northwest Research Foundation, Inc., Seattle, Wash.—Dismissed, without prejudice, at request of applicant, application for C. P. for new station, 1350 kc., 1 KW, unlimited time; exact transmitter site in Seattle to be determined, subject to Commission approval.

Granted motion of WCLS, Inc., for continuation of hearing upon its application of modification of license, Docket 4517, and directed that hearing be continued until September 7, 1937.

Granted petition of Athens Times, Inc., for continuance of hearing upon its application for C. P., Docket 4534, until July 9, 1937.

Granted petition of F. B. Clements & Co., d/b as Southern Minn. Supply Co., for continuance of hearing upon its application for C. P., Docket 4539, and directed that said hearing be continued until July 15, 1937.

Reconsidered its action of June 1, 1937, in denying petition of Ashland Broadcasting Co. (WCMF), for continuance of hearing an application for C. P., Docket 4537, and directed that hearing be continued until September 8, 1937.

Denied motion of George W. Taylor Co., Inc., for continuance of hearing upon its application for C. P., Docket 4536, now scheduled for June 4, 1937.

Granted petition of J. K. Patrick, Earl B. Braswell, Tate Wright, C. A. Rowland and A. Lynne Brannen, d/b as J. K. Patrick & Co., for an order to take depositions in support of their application for C. P., for new station at Athens, Ga., Docket No. 4485.

Granted petition of WSMK, Inc., requesting that its application for C. P., Docket 4470, be heard on July 2, 1937, together with application of KQV Broadcasting Co., Docket 4469.

PETITION DENIED

NEW—Saginaw Broadcasting Co., Saginaw, Mich.—Denied petition for rehearing upon its application for C. P. to establish a new broadcast station to operate on frequency 1200 kc., 100 watts, day and 250 watts night; applicant points out that application date from May 29, 1937.

NEW—Colombia Broadcasting Co., Morristown, N. J.—Construction permit for a new station to be operated on 620 kc., 1 KW, unlimited time. Amended to give transmitter site as indicated to Route 10, near Whipppany, N. J.

WDEL—WDEL, Inc., Wilmington, Del.—Authority to transfer control of corporation from Mason Dixon Radio Group, Inc., to J. Hale Steinman and John F. Steinman, 5000 shares common stock.

WJBY—Gadsden Broadcasting Co., Inc., Gadsden, Ala.—Construction permit for a new relay broadcast station to be operated on 1066, 2022, 2102, 2758 kc., 100 watts.

NEW—National Broadcasting Co., Inc., New York, N. Y.—Construction permit for a new relay broadcast station to be operated on 1066, 2922, 2102, 2758 kc., 100 watts.

Second Zone

WPBR—WLBG, Inc., Petersburg, Va.—Construction permit to install a new transmitter, erect a directional antenna for daytime and night use, increase power from 50 watts to 1 KW; and change hours of operation from daytime to unlimited time.

WEST—Associated Broadcasters, Inc., Easton, Pa.—Authority to transfer control of corporation from Mason Dixon Radio Group, Inc., to J. Hale Steinman and John F. Steinman, 5000 shares common stock.

NEW—D. E. Kendrick, Louisville, Ky.—Construction permit for a new station to be operated on 1210 kc., 100 watts night, 250 watts day, unlimited time.

WORK—York Broadcasting Co., York, Pa.—Authority to transfer control of corporation from Mason Dixon Radio Group, Inc., to J. Hale Steinman and John F. Steinman, 5000 shares common stock.

WLVA—Lynchburg Broadcasting Corp., Lynchburg, Va.—Construction permit to change frequency from 1200 kc. to 1390 kc.; make changes in equipment; increase power from 100 watts night, 250 watts day, to 500 watts day and night; and install directional antenna for night use. Amended to change transmitter site from near Lynchburg, Va., to U. S. Highway 29, near Lynchburg, Va.

WAZL—Hazleton Broadcasting Service, Inc., Hazleton, Pa.—Authority to transfer control of corporation from Mason Dixon Radio Group, Inc., to J. Hale Steinman and John F. Steinman, 5000 shares common stock.

WKZB—Karl L. Ashbacker, Muscle Shoals, Ala.—Voluntary assignment of license from Karl L. Ashbacker to Asbacker Radio Corporation.

W8XNC—Allen T. Simmons, Akron, Ohio.—License to cover construction permit for a new relay broadcast station.

W8XK—The Croyle Radio Corp., Cincinnati, Ohio.—Modification of construction permit (B2-PRE-44) to extend completion date from 6-7-37 to 12-7-37.

WATA—Ashland Broadcasting Co., Ashland, Kentucky.—License to cover construction permit (B2-PRY-29) for a new relay broadcast station.

W8XXD—The Fort Industry Co., Mobile—Modification of construction permit to extend completion date from 5-29-37 to 7-29-37.

W8XXK—West Virginia Broadcasting Corp., Mobile—Modification of construction permit (B2-PRE-22) to extend completion date from 5-29-37 to 8-29-37.

Third Zone

WBBZ—Adelaide Lillian Carroll, Rep. of Estate of Charles Lewis—Construction permit (B3-P-1345) for new equipment, changes in antenna, and increase in day power.

WJNO—Hazelwood, Inc., West Palm Beach, Fla.—License to cover construction permit (B3-P-1610) for changes in equipment and increase in day power.

WJBY—Gadsden Broadcasting Co., Inc., Gadsden, Ala.—Construction permit for a new relay broadcast station; will include installation of new equipment, changes in transmitting equipment; install vertical antenna; increase power from 100 watts day to 250 watts day; move transmitter from Anniston Highway, Gadsden, Ala., to 100 Block, Broad Street, Gadsden, Ala., and move studio from 108 South Sixth Street, Gadsden, Ala., to 100 Block, Broad Street, Gadsden, Ala.

KOCA—Oil Capital Broadcasting Assn. (James G. Ulmer, Pres.).—Construction permit to make changes in equipment, increase power from 100 watts to 100 watts night, 250 watts day.
WMFJ—W. Wright Esch, Daytona Beach, Fla.—Modification of construction permit (B3-P-1518) for new transmitter and antenna, requesting authority to change frequency from 1420 kc. to 1240 kc., make further changes in equipment and antenna, increase power from 100 watts to 1 KW, and move transmitter from 126½ Magnolia Avenue, Daytona Beach, Fla., to N. Ridgewood Avenue, Port Orange, Fla.

KTAT—Tarrant Broadcasting Co., Fort Worth, Tex.—License to cover construction permit (B3-P-1472) for a new transmitter and antenna.

WAIR—C. G. Hill, George D. Walker and Susan H. Walker, 1250 Winston-Salem, N. C.—Construction permit to make changes in transmitting equipment and increase power from 250 watts to 1 KW.

WDAH—Tri-State Broadcasting Co., Inc., El Paso, Tex.—Modification of license to use the transmitter now licensed to KTSM located at corner Texas and Stanton Streets, El Paso, Tex. Amended to change power from 100 watts to 100 watts night, 250 watts day.

KTSM—Tri-State Broadcasting Co., Inc., El Paso, Tex.—Modification of license to change frequency from 1310 kc. to 1250 kc., and change power from 100 watts night, 250 watts day, to 250 watts day and night.

KMAC—W. W. McAllister, San Antonio, Tex.—Voluntary assignment of license from W. W. McAllister to W. W. McAllister and Howard W. Davis, d/b/a Walmac Company.

NEW—National Life & Accident Insurance Co., Inc., Nashville, Tenn.—Construction permit for a new station to be operated on 1370 kc. Amended to change frequency from 1310 kc., 100 watts to 1310 kc., 1 KW, and install directional antenna.

KTVL—Voice of Longview, Longview, Tex.—Reinstatement and modification of construction permit for 1310 kc., 100 watts, unlimited time.

WTAG—C. G. Hill, George D. Walker and Susan H. Walker, 1250 Winston-Salem, N. C.—License to cover construction permit (B3-P-1472) for a new transmitter and antenna.

WAIU—C. G. Hill, George D. Walker and Susan H. Walker, 1250 Winston-Salem, N. C.—Amended: To give transmitter owner authority to install new automatic frequency control equipment.

WAAU—C. G. Hill, George D. Walker and Susan H. Walker, 1250 Winston-Salem, N. C.—Amended: To give transmitter owner authority to install new automatic frequency control equipment.

Fourth Zone

KOAM—A. Staneart Graham, E. V. Baxter and Norman Baxter, 790 d/b as Pittsburg Broadcasting Co., Pittsburg, Kans.—Modification of construction permit (B4-P-459) for a new station requesting changes in authorized equipment, approval of vertical antenna, approval of transmitter site near Pittsburg, Kansas and studio site at 404 Commerce Bldg., Pittsburg, Kansas.

WDZ—WDZ Broadcasting Co., Decatur, Ill.—Construction permit to move transmitter from 1½ miles north on U. S. Highway No. 45, Tuscola, Illinois, to site to be determined. Decatur, Illinois and studio from Star Store Bldg., Tuscola, Illinois to site to be determined, Decatur, Illinois.

WISN—Hearst Radio, Inc., Milwaukee, Wisc.—License to cover 1120 kc. construction permit (B4-P-1566) as modified, for a new transmitter and antenna and move of transmitter.

KGCU—Mandan Radio Assn., Inc., Mandan, N. Dak.—Modification of license to change hours of operation from specified hours to unlimited time. Contingent upon the granting of KLPM’s application for a new frequency. Amended: To install a new vertical antenna.

KWOS—Tribune Printing Co., Jefferson City, Mo.—Construction permit to make changes in equipment, increase power from 100 watts to 100 watts night, 250 watts day and change hours of operation from day time to unlimited time. Also change frequency from 1310 kc. to 1210 kc. Amended: To omit request for change in frequency.

NEW—Sherman V. Coultas, Milton Edge & Hobart Stephenson, 1310 Jacksonville, Ill.—Construction permit for a new station to be operated on 1310 kc., 100 watts, unlimited time.

WGES—Oak Leaves Broadcasting Station, Inc., Chicago, Ill.—1360 Voluntary assignment of license and construction permit (B4-P-1599) from Oak Leaves Broadcasting Station, Inc., to WSBC, Incorporated.

WIRE—Indianapolis Broadcasting, Inc., Indianapolis, Ind.—Authority to install automatic frequency control equipment.

KOV—KOV, Inc., Valley City, N. Dak.—Construction permit to 1500 make changes in equipment and increase power from 100 watts to 150 watts night, 250 watts day.

KSAL—R. J. Lebold, Salina, Kans.—License to cover construction permit (B4-P-1004) as modified, for a new station.

W9XJL—Head of the Lakes Broadcasting Co., Superior, Wisc.—Modification of license to delete frequencies 31600, 35600, 36000, 41000 kc. and request 25850 kc. only.

W9XPU—WDZ Broadcasting Co., Mobile—License to cover construction permit (B4-PRE-24) for a new relay broadcast station.

WAAC—WDZ Broadcasting Co., Mobile—Modification of construction permit (B4-PRY-9) to extend commencement and completion dates.

WAIE—WDZ Broadcasting Co., Mobile—Modification of construction permit (B4-PRY-10) to extend commencement and completion dates.

W9XWP—WDZ Broadcasting Co., Mobile—Reinstatement of construction permit (B4-PRE-26) for a new relay broadcast station, requesting increase in power from 2 watts to 30 watts and changes in equipment.

Fifth Zone

NEW—Scripps-Howard Radio, Inc., Denver, Colo.—Construction permit for a new station to be operated on 630 kc., 1 KW night, 5 KW day, unlimited time. Amended: To change name from Continental Radio Co. to Scripps-Howard Radio, Inc.

KFVD—Standard Broadcasting Co., Inc., Los Angeles, Calif.—1090 License to cover construction permit (B5-P-1210) for changes in equipment, new vertical antenna and increase in power.

KFXM—J. C. & E. W. Lee (Lee Brothers Broadcasting Co.), San Bernardino, Calif.—Construction permit to make changes in equipment.

KTMK—News Press Publishing Co., Santa Barbara, Calif.—Modification of construction permit (B5-P-982) for a new station, reusing changes in authorized equipment, approval of vertical antenna and approval of transmitter site near Goleta, California.

KUU—Anna Atkinson as Executrix of the last will of F. W. Atkinson, deceased, Watsonville, Calif.—Involuntary assignment of license from F. W. Atkinson to Anna Atkinson as Executrix of the last will of F. W. Atkinson, deceased.

KGCG—The Golden Gate Broadcasting Co. (Robert J. Craig), San Francisco, Calif.—Construction permit to make changes in equipment, increase power from 100 watts to 100 watts night, 250 watts day and change frequency from 1420 kc. to 1370 kc. Contingent upon the granting of KRE’s application for change in frequency.

KOH—Salt River Valley Broadcasting Co., Phoenix, Arizona.—1390 Authority to install automatic frequency control equipment.

KLO—Interstate Broadcasting Corp., Odgen, Utah.—Construction permit to make changes in equipment, increase power from 500 watts to 1 KW night, 5 KW day, move transmitter and install directional antenna. Amended: To give transmitter site as 5½ Mile South of Kanesville Church, Kanesville Township, Utah, and make changes in directional antenna.

Puerto Rican Zone

WAAG—Julio M. Conesa, Mobile, Puerto Rico—License to cover construction permit for a new relay broadcast station.
FCC GRANTS FOUR NEW STATIONS

The Federal Communications Commission this week granted construction permits for four new broadcasting stations as follows:

To the Owensboro Broadcasting Company, at Owensboro, Ky., to use 1500 kilocycles, 100 watts, unlimited time, effective July 13.

To Harold M. Finley and Mrs. Eloise Finley, at La Grande, Ore., to use 1420 kilocycles, 100 watts night and 250 watts day, and unlimited time, effective July 13.

To Edwin A. Kraft, at Petersburg, Alaska, to use 1420 kilocycles, 100 watts, unlimited time, effective August 10.

To the Okmulgee Broadcasting Corporation, at Okmulgee, Okla., to use 1210 kilocycles, 100 watts and daytime operation, effective July 20.

NEW RELAY STATION PROVISIONS

The Federal Communications Commission this week made the following official statement in connection with relay broadcast stations:

The Broadcast Division on June 15 deleted the provisions in the rules and regulations pertaining to the requirement of two-day notice and approval from the Commission for operation of relay broadcast stations. The following changes were made in the rules governing relay broadcast stations:

Rule 1002 was deleted in its entirety;
Rule 1001 (f) was amended by striking out in the sixth and seventh lines "and the information specified in Rule 1002 (b), 1, 2, 3, 4"; and
Rule 1004 was amended by striking out in the second and third lines "and have been authorized to operate under Rule 1002 (b)".

In the future, the operation of relay broadcast stations that may cause interference to other relay stations shall be governed by the provisions of Rule 1004. All the licenses of existing relay broadcast stations will be corrected in accordance with these amendments when the next renewals are issued.

SOCIAL SECURITY TAX RESPONSIBILITY

"Statement of custom with respect to employment of musicians, orchestration writers and orchestra leaders on sponsored radio programs:

"A sponsor may or may not engage an advertising agency to make arrangements for the program. The sponsor, or the agency, engages an orchestra leader specifying the number of musicians needed. The orchestra leader then deals with the musicians through a 'contractor', as required by union rules. This 'contractor' is usually a musician and union member, and in most cases he plays in the orchestra receiving double pay, one salary as a musician and another as a 'contractor'. The musicians can be discharged for unsatisfactory services by the 'contractor', orchestra leader, advertising agency or the sponsor. Ordinarily, musicians are engaged for several different programs during the same period of time. When an orchestration is needed the orchestra leader hires an orchestration writer, also a union member. These orchestration writers 'free lance'; they are hired only for one orchestration at a time, but they may work for many employers during the same period. The money for salaries is paid to the orchestra leader who in turn pays the musicians, 'contractor' and orchestration writers.

"Ruling: The orchestra leader, 'contractor', orchestration writers and musicians are all employees of the sponsor. They are employees as distinguished from independent contracts because they are members of a voluntary union, which requires a specified amount of compensation and regulates the conditions of employment, and because they perform services subject to the direction of the
spons or its agents. They are employees of the sponsor because the advertising agency, orchestra leader and ‘contractor’ act as agents or sub-agents of the sponsor in producing the program. (Digest Treasury Department letter, dated 3-13-37.)"

—Prentice-Hall, Inc.-Unemployment Insurance Service, 6-4-37.

CAIRO CONFERENCE COMMITTEE APPOINTED

A report to the Department of Commerce from American Commercial Attache, James T. Scott, at Cairo, regarding the International Telecommunication Conference to be held beginning February 1, states that an organizing committee has been formed in the Egyptian capital under the chairmanship of the Minister of Communications.

The organizing committee has nominated an executive committee under the chairmanship of the general manager of the Egyptian state railways, telegraphs and telephones, to take charge of the general arrangement for the conference, according to the report.

DENIAL RECOMMENDED

The Valley Broadcasting Company applied to the Federal Communications Commission for a construction permit for the erection of a new broadcasting station at Youngstown, Ohio, to use 1350 kilocycles, 1,000 watts, and unlimited time on the air.

Examiner Melvin H. Dalberg in Report No. I-437 recommended that the application be denied. The Examiner contended that the applicant did not demonstrate at the hearing “a very definite need in the area to be served for the type of service proposed to be rendered, nor that such proposed service is not duplicated by broadcasts received from other stations.” He found also that the proposed station would receive severe interference from other existing stations at night.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

No. 3148. Alleging unfair competition in the sale of pipes and smokers' supplies, a complaint has been issued against Wally Frank, Ltd., 10 East 45th St., New York.

The respondent company is alleged to have advertised in periodicals, on labels and in its publication, “Pipe Lore Monthly,” in a manner implying that it is a British concern or has an office and a business in London, dealing exclusively in goods imported from foreign countries; that some of its pipes are prepared in accordance with certain famous processes, and that it sells established brands of pipes at prices greatly reduced from the customary and standard prices. The respondent is also charged with indicating in its advertising that it is a manufacturer.

No. 3149. A complaint has been issued against Les Parfums d’Isaby, Inc., 312 East 32nd St., New York, alleging unfair methods of competition in connection with the sale of perfumes in interstate commerce.

Appearing in price lists and on containers, it is alleged, are representations and descriptions in the French language which serve to lead purchasers into the erroneous belief that the respondent company's perfumes are manufactured in France and imported into the United States. According to the complaint, the perfumes so described are made in the United States.

No. 3150. A complaint has been issued against Schenley Distillers Corporation, 20 West 40th St., New York, a holding company controlling 13 subsidiary liquor companies in various parts of the country. The complaint charges the respondent company with violation of Section 7 of the Clayton Act, through purchase of the capital stock of the Bernheim Distilling Co., Louisville, Ky., a competitor.

This acquisition by Schenley is alleged to have the effect of (1) substantially lessening competition between Bernheim Distilling Co. and the Schenley subsidiaries, (2) restraining interstate commerce in the sale of whiskey in certain sections of the United States, and (3) tending to create a monopoly in Schenley Distillers Corporation and its subsidiaries in the sale and distribution of whiskey.

Schenley Distillers Corporation, according to the complaint, organized the Bernheim Distilling Co., a Delaware corporation with headquarters in New York, on or about March 2, 1937, and on or about March 11, acquired all outstanding capital stock of Bernheim Distilling Co., the Kentucky corporation, with headquarters in Louisville, and thereupon transferred the Kentucky corporation's capital stock to the newly organized Delaware corporation in exchange for the latter's outstanding capital stock. According to the complaint, it also caused the Kentucky corporation to transfer and assign all of its assets and business as a going concern, including trade marks, goodwill, accounts receivable, machinery, equipment, and stocks of whiskey in bonded warehouses, to the Delaware corporation. Since on or about March 11, 1937, the Delaware corporation allegedly has operated the business theretofore conducted by the Kentucky corporation, and Schenley Distillers Corporation owning all outstanding capital stock of the Bernheim Distilling Co., the Delaware corporation, controls operations of that subsidiary.

Stipulations and Orders

The Commission has issued the following cease and desist orders and stipulations:

No. 01673. The Grove Laboratories, Inc., Pine and Beaumont Sts., St. Louis, has entered into a stipulation to discontinue certain misleading advertising representations in the sale of Grove's Emulsified Nose Drops.

This product, according to the stipulation, will not be advertised as affording relief in cases of asthma and sinusitis and as relieving nasal pains and irritations or congestion of the nasal mucosa, unless the latter representation is worded so as to indicate clearly that it refers to pains, irritation or congestion due to or usually associated with the progress of head colds.

No. 01678. William A. and Myndall Cain Wickland, trading as The Myndall Cain House of Beauty, 808 LaSalle Ave., Minneapolis, will cease representing that either Myndall Cain Cleansing Cream or Myndall Cain Nourishing Cream are penetrating oils, or that they will serve as a diet for the skin, revitalize or rebuild the skin, banish wrinkles, or restore those youthful secretions that have been taken from the skin by time and exposure.

No. 01680. G. Bernardi, 1015 Euclid Ave., Cleveland, agreed that in the sale of Bernaris, a medicinal preparation, he will cease advertising that the product is a competent treatment or effective remedy for colds, catarrh, bronchitis, sinus ailments or throat irri-
tations, or that it will afford a cure or prevent any disorder or disease of the body.

No. 01681. Eimer C. Rice, trading as Plymouth Rock Squab Co., Melrose, Mass., has entered into a stipulation to discontinue false and misleading advertising representations in the sale of pigeons or products.

Rice agrees to stop representing that more than 100,000,000 or any other number of squabs are produced by his customers, unless he possesses reliable information showing this to be true. When in fact a price therefor is included in the purchase price of the products ordered.

No. 01682. Charles C. Merriam, trading as Caswell Agney, New York City, will stop representing that his Hollywood Nights Perfume is a new sensation in perfume, that it originated in Paris, has been endorsed by Hollywood's most discriminating stars, and that a $1 introductory bottle is sent postpaid for 25 cents and the return of a coupon. The respondent admitted that the introductory bottle does not have a value of $1.

No. 01683. Collins Laboratories, 523 Franklin Ave., St. Louis, agreed that in the sale of Nuro-Sheen Dandruff Eliminator Shampoo it will cease advertising that the product is guaranteed to give relief from dandruff, will maintain a healthy condition of the scalp, remedy dandruff, and revive dead and lifeless hair. The respondent company also will cease using the word "eliminator" as a part of the trade name for the preparation, or from otherwise representing that the product eliminates dandruff.

No. 01684. Frank H. Jones, trading as Britelle Co., Greenfield, Mass., will discontinue representing that his polish, designated "Brite-Lite", restores antiques, brass and pewter ware, and other articles to their original luster or brightness, and "makes old things new". The respondent also will cease representing that his sales agents are assured of repeat orders, or that any territory is open to them.

No. 01685. Mary C. Hogle Foundation, Scott Building, Salt Lake City, agreed to cease advertising that a booklet entitled "Build Up With Foods That Alkalinize and Heal" tells the things one may do to keep well when in health and to regain health when ill; that foods and other articles to their original luster or brightness, and "makes old things new". The respondent also will cease representing that the carrot juice and celery juice offer the body the essential food materials for good blood and healthy cells.

No. 01686. Scott-Phillips, Inc., 211 West Waeter Drive, Chicago, selling Eye-Gene, will discontinue advertising that the preparation is an essential of eye hygiene and relieves strained eyes regardless of the cause; that it is a competent treatment for inflamed eyes and lids, unless this representation is limited to relief of inflamed eyes and lids when due to a minor local condition, and that it is not a substitute for medicines that contain food regimes for digestive disorders, cancer, arthritis and other ailments.

No. 01687. H. W. Eakins, trading as Long-Eakins Co., 1123 South High St., Springfield, Ohio, selling a potato chip fryer, agreed to cease advertising that he will help finance prospective operators with anything from $1 to $25,000, so as to imply that certain furniture products are manufactured in England or by the holder of a British or other Royal warrant, when such is not a fact.

No. 01688. The Compagnie Parisienne, Inc., trading as "Build Up With Foods That Alkalinize and Heal" tells the things one may do to keep well when in health and to regain health when ill; that foods and other articles to their original luster or brightness, and "makes old things new". The respondent also will cease representing that the carrot juice and celery juice offer the body the essential food materials for good blood and healthy cells.

No. 01689. Arwell, Inc., 1119 Glen Rock Ave., Waukegan, Ill., agreed that in the sale of insecticides known as Arwell, Arwellex and Arwellmist, it will not represent that any of these products will "free the camp of insects" or banish odors, or that if these preparations are used, one will not be bothered by flies or mosquitoes.

No. 01690. Zerbst Pharmaceul Co., Zerbst Building, St. Joseph, Mo., stipulated that it will not advertise that its Ulypto Cough Drops stop coughs and colds quickly, or that Zerbst Capsules stop colds before they get started, and keep colds from becoming dangerous.

No. 01691. Loehkart Drug Store, Inc., Loehkart, S. C., will stop representing that Red Star Liquid and Red Star Ointment are competent treatments for the various forms of eczema, ringworm, athlete's foot and itch, unless such representations are limited to palliative relief from itching and burning.

No. 01692. The Howdy Co., 4545 Olive St., St. Louis, Mo., will discontinue representations that its preparation, known as Z-7-Up, settles the stomach, dispels the ill effects caused by excessive use of alcoholic drinks, banishes distress after eating, speeds digestion, and slanders.

No. 01701. Selling premium merchandise and punch boards, Jay Zelle and S. Fischman, 329 Loeb Arcade Building, Minneapolis, trading as Variety Sales Co., have entered into a stipulation to discontinue certain false and misleading advertising representations.

The respondents agree to stop advertising that a person can make "big money" giving away the respondents' motion picture cameras, admitting in their stipulation that only in connection with the sale of the respondents' motion picture cameras are any representations made by the respondents which are not true.

The respondents also will cease asserting that every body wins in their punch board deals and that such deals are legal in every State or that there is no gambling in connection with the deals. Another representation to be abandoned is that the respondents' merchandise is a sensational new business stimulator.

No. 0147. Owens Staple-Tied Brush Co., 901 Buckingham St., Toledo, Ohio, manufacturing tooth brushes, hair brushes, clothes brushes and finger nail brushes, agrees to stop representing, through the medium of labeling or stamping on the handles of tooth brushes, that the respondent company has been notified by the United States, when in fact the handles have been imported from a foreign country, the name of which has been obliterated and obscured. This company agrees to stop representing, by imprinting upon the brushes or the cartons or other packages in which they are placed for sale, that "These brushes are made in the United States" and that "Made in the United States", importing meaning that the brushes are manufactured in the United States, when, in fact, the handles have been imported from a foreign country.

No. 0149. Maisen Blanche Co., Canal & Dauphin Sts., New Orleans, La., a department store, will cease employing in advertising matter or on labels the words "Solid Mahogany" or "Mahogany", or any abbreviation or imitation of the word mahogany so as to imply that certain furniture products are manufactured of wood derived from trees of the mahogany family, when such is not a fact.

No. 0150. Levy Bros. & Adler-Rochester, Inc., Hand St., Rochester, N. Y., maker of men's and boys' ready-made suits, agrees to stop using or furnishing others for their use, labels or advertising matter bearing the words "Royal Warrant", alone or in connection with a typically English script, pictures or simulations of the British Coat-of-Arms or Crown, or in any other way implying that the respondent company's suits or the fabrics of which they are composed are manufactured in England or by the holder of a British or other Royal warrant, when such is not the fact.

The respondents agree to stop advertising that a person can make "big money" giving away the respondents' motion picture cameras, admitting in their stipulation that only in connection with the sale of the respondents' motion picture cameras are any representations made by the respondents which are not true.

The respondents also will cease asserting that every body wins in their punch board deals and that such deals are legal in every State or that there is no gambling in connection with the deals. Another representation to be abandoned is that the respondents' merchandise is a sensational new business stimulator.

No. 0148 and 0149. Rainier Brewing Co., Inc., 1550 Bryant St., San Francisco, manufacturing beer, ale and stout, and Seminole Bottling Co., 102 Hamilton St., LaGrange, Ga., selling carbonated beverages, have entered into stipulations to discontinue certain unfair methods of competition in connection with the sale of their products.

The respondents agree to stop advertising that a person can make "big money" giving away the respondents' motion picture cameras, admitting in their stipulation that only in connection with the sale of the respondents' motion picture cameras are any representations made by the respondents which are not true.

The respondents also will cease asserting that every body wins in their punch board deals and that such deals are legal in every State or that there is no gambling in connection with the deals. Another representation to be abandoned is that the respondents' merchandise is a sensational new business stimulator.
the manufacture of paper boxes and kindred items, will discontinue the use in circulars or in other advertising matter of representations which, in effect, may tend to cause purchasers to believe that the method of protecting garments against moth damage as used in its Pro Tex Wardrobe has been endorsed or approved by the United States Government or any of its departments, when such is not a fact.

No. 1954. Ajax Tire & Rubber Corporation, 601 West 234th St., New York, engaged in the sale of tires and tubes, stipulated that it would stop using the expression "Moir-A" in any form or manner implying that it was founded in 1904 or has been in business for more than 30 years, and that it is now engaged in either the manufacture or sale of its fiftieth million series of tires and tubes. The company also agreed to cease using the word "factory," or any other words or representations, to create the impression that it manufactures the products it sells.

Other representations to be discontinued are that the company formerly had factory branches in the United States or in foreign countries or that it has spent up to $1,000,000 annually for advertising, when such are not the facts.

According to the stipulation, Ajax Tire & Rubber Corporation was organized in 1934, fills orders with products manufactured in factories which it neither owns nor operates, and is merely a distributor.

No. 1955. Webster Co., North Attleboro, Mass., manufacturing tableware, toilet ware and novelties, agrees to cease using the expressions "Mir-A," "Mir-A-Gold," or any word or words implying that products are composed of gold, and from use of the word "gold" in connection with the letters "Mir-A" or in any way in advertisements to imply that the products are composed of gold, when such is not a fact. The Webster Co. also stipulates that it will stop using as a trade brand for its advertising relating to its product the word "Syl-van-ite," or other words simulating the expression "Mir-A-Gold" as a brand name for its products and not composed of gold, and from use of the word "gold" in connection with the letters "Mir-A" or in any way in advertisements to imply that the products are composed of gold, when such is not a fact. The Webster Co. also stipulates that it will stop using as a trade brand for its advertising relating to its product the word "Syl-van-ite," or other words simulating the expression "Mir-A-Gold" as a brand name for its products and not composed of gold, and from use of the word "gold" in connection with the letters "Mir-A" or in any way in advertisements to imply that the products are composed of gold, when such is not a fact.

No. 2167. L. Musil Distilling Co., 1228 Buchanan St., Racine, Wis., has been ordered to cease and desist from representing that it is a distiller of alcoholic beverages, when such is not a fact. The respondent company is ordered to discontinue representing, through use of the word "Distilleries" in its corporate name, in advertising, on labels, or otherwise, that it distills whiskies, gins or other spirituous beverages, that it manufactures such products through the process of distillation, or that it owns or operates a distillery, until it does own or operate such a place.

No. 2530. Prohibiting certain price fixing agreements in the sale of uniform caps, an order to cease and desist has been issued against the Cap Association of the United States, Inc., and the Uniform Cap Manufacturers Institute, Inc., both of New York City, certain of their officers, eleven manufacturers of uniform caps, and four manufacturers of visors and trimmings. These respondents are directed to cease entering into agreements or understandings among and between themselves for fixing prices at which they sell uniform caps. They are also ordered to stop maintaining by concerted action, coercion and persuasion, a boycott against, and refusing to purchase visors and trimmings from any visor manufacturer failing to abide by their program of withholding supplies from non-participants in their uniform price fixing agreement.

The order further bans publication of lists containing names of only the authorized retailers or recognized members of the two associations entitled to procure visors and trimmings used in uniform manufacture.

No. 2550. Six Middle Western manufacturers selling more than 90 per cent of the total volume of new butter tubs produced in the United States, and their trade association, the Butter Tub Manufacturers' Council, Cleveland, Ohio, have been ordered to discontinue concerted efforts to maintain uniform prices, terms or discounts, resulting in restraint of trade in violation of Section 5 of the Federal Trade Commission Act.

Orders to cease and desist from these practices have been served on the following manufacturers: Menasha Wooden Ware Corporation, Menasha, Wis., said to be the largest manufacturer and distributor of butter tubs in the United States; The Creamery Package Mfg. Co., 1243 West Washington Blvd., Chicago, Ill.; Butter Tub Co., Elgin, Ill.; Wisconsin Butter Tub Co., Marshfield, Wis.; Bousfield Wooden Ware Co., 2524 Marshall Ave., N. E., Minneapolis, and Storey City Butter Tub Co., Storey City, Iowa.

The respondent manufacturers are directed to cease and desist from the following combinations, conspiracies or agreements or practices, express or implied, with each other and by and through their trade association, to restrict, restrain and suppress competition in the interstate sale of butter tubs by any one or more of six specific methods detailed as follows:

No. 2900. Under an order to cease and desist, National Kream Co., Inc., and National Foods, Inc., 360 Furman St., Brooklyn, are directed to discontinue certain unfair methods of competition in the sale of preserves and jams or imitations thereof.

The order prohibits representation, directly or by implication, that use of the respondent company's preparation will take the place of the wearing of glasses, relieve astigmatism and general weakness of the eyes, and overcome irritating and painful conditions.

No. 3070. Mills Sales Company of New York, Inc., 901 Broadway, New York, have been ordered to discontinue fictitious price marking and certain other unfair methods of competition in connection with the sale of peddlers' and retail dealers' supplies, including tooth brushes, dental creams, razor blades, perfumes and other drug sundries and notions.

The order to cease and desist directs the respondents to discontinue marking cartons and containers, in which their merchandise is offered for sale, with retail prices in excess of the actual and usual selling prices at which such merchandise is sold by retailers to the consuming public; and to stop representing in advertisements, catalogues, radio broadcasts, or in any other manner, that the prices marked on their products are the regular or customary retail prices when they are fictitious and greatly in excess of the customerry prices at which such products are retailad.

FTC DISPOSES OF TWO CASES

No. 2868. The Federal Trade Commission has dismissed without prejudice its complaint against Associated Rubber Corporation, 517 West 57th St., New York, charged with unfair representations in the sale of rubber tires.

Dismissal was ordered following receipt of information that the corporation had been dissolved.

No. 3126. The Commission has also issued an order closing its case against M. J. Levinson, trading as J. Lewis, Francine Laboratories and Superior Products Co., 539 State St., Hammond, Ind., charged with unfair competition in the sale of the "Circe Line" of cosmetics, and of packaged drugs, chemical
specialties and feminine hygiene products, in violation of Section 5 of the Federal Trade Commission Act.

The closing order was issued following receipt of information that Levinson had been convicted and sentenced for violation of the postal laws upon charges similar to the allegations of the Commission’s complaint. It was also reported that the respondent’s place of business had been closed.

FEDERAL COMMUNICATIONS
COMMISSION ACTION

Hearing Calendar

The following broadcast hearings are scheduled at the Commission for the week beginning Monday, June 21:

Monday, June 21
FURTHER HEARING BEFORE AN EXAMINER
(Broadcast)

WLB—University of Minnesota, Minneapolis, Minn.—C. P., 760 ke., 5 KW LS, S-WCAL (2/3 daytime). Present assignment: 1250 ke., 1 KW, specified hours.

Tuesday, June 22
HEARING BEFORE AN EXAMINER
(Broadcast)

NEW—Roberts-MacNab Co., Bozeman, Mont.—C. P., 1420 ke., 100 watts, 250 watts LS, unlimited time.

NEW—Gallatin Radio Forum, Bozeman, Mont.—C. P., 1420 ke., 250 watts, daytime.

Wednesday, June 23
HEARING BEFORE AN EXAMINER
(Broadcast)

NEW—Associated Arkansas Newspapers, Inc., Hot Springs, Ark.—C. P., 1310 ke., 100 watts, daytime.

Thursday, June 24
ORAL ARGUMENT BEFORE THE BROADCAST DIVISION

Examiner’s Report No. 1-382:

Examiner’s Report No. 1-392:
WMEX—The Northern Corp., Boston, Mass.—C. P., 1470 ke., 5 KW, unlimited time.

Examiner’s Report No. 1-393:

Examiner’s Report No. 1-394:
NEW—Arthur H. Croghan, Minneapolis, Minn.—C. P., 1310 ke., 100 watts, unlimited time.

HEARING BEFORE AN EXAMINER
(Broadcast)

NEW—Leon M. Eisfeld, Burlington, Ia.—C. P., 1310 ke., 100 watts, unlimited time.

Friday, June 25
HEARING BEFORE AN EXAMINER
(Broadcast)

KIUL—Garden City Broadcasting Co. (Homer A. Ellison & Frank D. Conard), Garden City, Kans.—Voluntary assignment of license to KIUL, Inc., 1210 ke., 100 watts, unlimited time.

NEW—John W. Haigis, Greenfield, Mass.—C. P., 1210 ke., 250 watts, daytime.

APPLICATIONS GRANTED

KOBH—Black Hills Broadcast Co. (Robert Lee Dean), Rapid City, S. Dak.—Granted C. P. to install new equipment and increase day power to 250 watts; 1370 ke., 100 watts night.

KFXM—J. C. & E. W. Lee (Lee Bros. Broadcasting Co.), San Bernardino, Cal.—Granted C. P. to make changes in equipment.

KDLR—KDLR, Inc., Devils Lake, N. Dak.—Granted C. P. to move transmitter and install vertical antenna.

KSOO—Sioux Falls Broadcast Assn., Inc., Sioux Falls, S. Dak.—Granted C. P. to erect new vertical antenna at NE½ of NE¼ Sec. 24, Township 101, Range 50 West, 3 miles west of Sioux Falls.

KTAT—Tarrant Broadcasting Co., Fort Worth, Tex.—Granted license to cover C. P. as modified; 1240 ke., 1 KW, unlimited time.

WNOX—Continental Radio Co., Knoxville, Tenn.—Granted license to cover C. P. as modified; 1010 ke., 1 KW night, 5 KW day, unlimited time.

WISN—Heard Radio, Inc., Milwaukee, Wis.—Granted license to cover C. P. as modified; 1120 ke., 250 watts night, 1 KW day, unlimited time.

KFVD—Standard Broadcasting Co., Los Angeles, Cal.—Granted license to cover C. P.; 1000 ke., 1 KW night and day, unlimited time.

WBBZ—Adelaide L. Carrell, Representative of estate of Chas. L. Carrell, Deceased, Ponca City, Okla.—Granted license to cover C. P.; 1200 ke., 100 watts night, 250 watts day, unlimited time.

KLRA—Arkansas Broadcasting Co., Little Rock, Ark.—Granted license to cover C. P.; 1390 ke., 1 KW night, 5 KW day, unlimited time.

KSAL—R. J. Laubengayer, Salina, Kans.—Granted license to cover C. P.; 1500 ke., 100 watts night, 250 watts day, unlimited time.

KWNO—Winona Radio Service, Winona, Minn.—Granted modification of C. P. approving transmitter and studio at 110 Main Street, installation of new equipment and vertical radiator.

WDAF—The Kansas City Star Co., Kansas City, Mo.—Granted modification of C. P. for changes in equipment.

WNOX—Continental Radio Co., Knoxville, Tenn.—Granted modification of license to change name to Scripps-Howard Radio, Inc.; 1200 ke., 100 watts night, 250 watts day, unlimited time.

WCPB—Continental Radio Co., Cincinnati, Ohio.—Granted modification of license to change name to Scripps-Howard Radio, Inc.; 1200 ke., 100 watts night, 250 watts day, unlimited time.

WTAQ—WHBY, Inc., Green Bay, Wis.—Granted modification of license for changes in directional antenna.

KFXR—Exchange Avenue Baptist Church of Oklahoma City, Oklahoma, City, Okla.—Granted authority to install automatic frequency control, on condition that this authority shall not be construed as a finding upon the application for renewal of license and assignment of license, nor upon any issues involved therein.

WIRE—Indianapolis Broadcasting, Inc., Indianapolis, Ind.—Granted authority to install new automatic frequency control equipment.

KOY—Salt River Valley Broadcasting Co., Phoenix, Ariz.—Granted authority to install new automatic frequency control equipment.

WKBW—WKBN Broadcasting Corp., Youngstown, Ohio.—Granted modification of C. P. to extend completion date to 12-13-37.

W8XKH—The Crosley Radio Corp., Mobile (Cincinnati, Ohio).—Granted modification of C. P. to extend completion date to 12-7-37.

W3XEX—WTAR Radio Corp., Norfolk, Va.—Granted C. P. to make equipment changes (new antenna) and move transmitter of high frequency broadcast station.

2161
WATA—Ashland Broadcasting Co., Mobile (Ashland, Ky.).—Granted license to cover C. P. for new relay broadcast station, frequencies 1622, 2058, 2150 and 2790 kc., 40 watts.

W9XPU—WDZ Broadcasting Co., Mobile (Tuscola, Ill.).—Granted license to cover C. P. for new relay broadcast station, frequencies 31100, 34600, 37600 and 40600 kc., experimentally, 10 watts.

W9XBS—National Broadcasting Co., Inc., Chicago, Ill.—Granted license to cover C. P. for experimental high frequency broadcast station, frequencies 31600, 35600, 38600, 41000 kc., 50 watts.

W8XKD—The Fort Industry Co., Toledo, Ohio (Mobile).—Granted license to cover C. P. for new relay broadcast station, frequencies 1622, 2058, 2150 and 2790 kc., 40 watts.

KTVL—Voice of Longview, Mobile (Longview, Tex.).—Granted license to cover C. P. for new relay broadcast station, frequencies 31900, 35900, 39100, 41300 kc., 50 watts.

NEW—Capitol Broadcasting Co., Inc., Raleigh, N. C.—C. P., already in hearing docket, amended to request operation on 1240 kc., 500 watts night, 1 kw day, unlimited time, using directional antenna system for day and night-time operation.

SPECIAL AUTHORIZATIONS

WTCN—Minnesota Broadcasting Corp., Minneapolis, Minn.—Granted special temporary authority to operate from 7 to 7:30 p.m., CST, on Fridays only, from July 16 to August 13, 1937, to observe regular period at university.

WLB—University of Minnesota, Minneapolis, Minn.—Same as above except to operate from 2 p. m. to 8:30 p. m., CST, granted license to cover C. P. for new relay broadcast station, frequencies 1622, 2058, 2150 and 2790 kc., 40 watts.

WBV—Roy L. Albertson, Buffalo, N. Y.—Granted special temporary authority to operate unlimited time for the period June 26 to July 1, 1937 (provided WSVS remains silent).

WBV—Roy L. Albertson, Buffalo, N. Y.—Granted special temporary authority to operate from 2 to 3 p. m. EST, the following Saturdays from June 19 and 26, in order to broadcast various religious services, and also from 2 to 3 p. m., EST, Sundays, June 20 and 27, in order to broadcast local safety program; to operate from 8:30 to 10 a. m., EST, Sundays, June 20 and 27, in order to broadcast program of the Catholic Evidence Guild (provided WSVS remains silent).

KTMS—The News Press Publishing Co., Santa Barbara, Cal.—Granted special temporary authority to operate a 50 watt portable crystal controlled transmitter between the hours of 12 midnight and 6 a. m., PST, for period not to exceed 30 days, in order to make tests for transmitter site located on the ocean, 1 mile east of Coleta, Cal.

WSVS—Seneca Vocational High School, Buffalo, N. Y.—Granted special temporary authority to remain silent on the following dates: July 1 to Sept. 15, 1937, summer vacation; Oct. 12, Columbus Day; Oct. 29 and 30, Teachers' Convention, WSVS节日; Nov. 11, Armistice Day; Dec. 25, 26, 27, Thanksgiving holidays, and from Dec. 24 to Jan. 1, 1938, for Christmas holidays.

WSUI—State University of Iowa, Iowa City, Ia.—Granted special temporary authority to operate a minimum of 6 hours daily, instead of unlimited time, for the period July 1 to July 31, 1937, inclusive, in order to observe summer vacation period at university.

WBPS—Benson Polytech. School, Portland, Ore.—Granted extension of special temporary authority to remain silent for the period July 1 to Sept. 8, 1937, in order to observe regular school vacation period.

WMFO—James R. Doss, Jr., Decatur, Ala.—Granted special temporary authority to operate from local sunset (June evening) to 7:30 a. m., EST, Saturday, June 26, until midnight, Sunday, June 27, in order to celebrate second anniversary of radio station WMFO.

WNBX—The WNBX Broadcasting Corp., Springfield, Vt.—Granted special temporary authority to operate a 100 watt portable test transmitter between hours of 12 midnight and 6 a. m., EST, for a period not to exceed 30 days, in order to conduct transmitter site survey for station WNBX.

WBOV—Banks of Wabash, Inc., Terre Haute, Ind.—Granted special temporary authority to rebroadcast over station WBOV the conversation carried on between experimental radio stations W5XAR and W5XAS of the Western Radio Telegraph Co., for a period of 1 hour between June 12 and June 17, 1937, flying weather permitting.

WGBF—Evansville on the Air, Inc., Evansville, Ind.—Granted special temporary authority to rebroadcast over station WGBF the conversation carried on between experimental radio stations W5XAS and W5XAS of the Western Radio Telegraph Co., for a period of 1 hour between June 12 and June 17, 1937, flying weather permitting.

WLB—Donald A. Burton, Muncie, Ind.—Same as above except between June 14 to 19, 1937.

W3XDS—RCA Mfg. Co., Inc., Camden, N. J.—Granted extension of special temporary authority to operate with power of 5 kw on 590 kc., during broadcast experimental hours from 1 to 6 a. m., EST; for period June 11 to July 10, in order to...
to make certain measurements of radio frequency harmonic radiation provided schedule is arranged so as to cause no interference to stations maintaining regular programs.

WNLC—Thames Broadcasting Corp., New London, Conn.—Granted special temporary authority to operate from local sunset (June sunset, 7:30 p.m. to 11 p.m., EST, June 15, in order to broadcast Democratic Town Committee banquet.

APPLICATIONS DISMISSED

The following applications, heretofore set for hearing, were dismissed at request of applicants:

WMIN—Edward Hoffman, St. Paul, Minn.—1400 kc., 250 watts, unlimited time.
KFBB—Buttery Broadcast, Inc., Great Falls, Mont.—950 kc., 5 kw, unlimited time.

EXAMINERS' REPORTS RELEASED SINCE JUNE 8, 1937

ACTION ON EXAMINERS' REPORTS

WJAR—Ex. Rep. 1-404—The Outlet Co., Providence, R. I.—Granted C. P. to make changes in equipment and increase power from 1 kw to 1 kw night, 5 kw daytime, on 890 kc., unlimited time (directional antenna day and night). Examiner R. L. Walker sustained. Order effective July 30, 1937.

WAPO—Ex. Rep. 1-419: W. A. Patterson, Chattanooga, Tenn.—Granted C. P. to install new transmitter; increase power from 100 watts to 100 watts night, 250 watts day and change hours of operation from daytime to unlimited; 1420 kc. Examiner John P. Bramhall sustained. Order effective July 27, 1937.

ORAL ARGUMENTS GRANTED

DATE OF ORAL ARGUMENTS CHANGED

EFFECTIVE DATES EXTENDED

WSBT—Ex. Rep. 1-315: The South Bend Tribune, South Bend, Ind.—Effective date of order extended to July 6, 1937.
WEMP—Milwaukee Broadcasting Co., Milwaukee, Wis.—Effective date of order extended to July 6, 1937.

MISCELLANEOUS

KFOR—Cornbelt Broadcasting Corp., Lincoln, Neb.—Granted petition for continuance of hearing upon application for modification of license to use 1450 kc., 1 kw night, 5 kw LS (Docket 4604), and petitions of L. L. Coryell & Son and of KCMO Broadcasting Company in opposition to the continuance were dismissed.

T. E. Kirksey, Waco, Tex.—Denied motion to reopen case for the purpose of adding additional evidence in connection with application for C. P. to use frequency 930 kc., 250 watts night, 500 watts LS, unlimited time, heard May 10 and 11, and dismissed motion in opposition filed on behalf of KTSA Broadcasting Co. (WACO), Intervenor, and dismissed motions filed on behalf of Birmingham Broadcasting Co., Inc. (WRBC), Times-World Corp. (WDBJ), and Educational Broadcasting Corp. (KROW), respondents. Southwest Broadcasting Co., Prescott, Ariz.—Granted petition for a change of place of hearing upon application of W. P. Stuart, for new station at Prescott, to use 1500 kc., 100 watts, unlimited. Docket 3905, and of the Southwest Broadcasting Co., Prescott, for new station to use 1500 kc., 100 watts night, 250 watts LS, unlimited (Docket 3979), to Prescott, Ariz., and continued hearing date to July 27; also vacated orders to take depositions in Prescott on June 21 and 24, heretofore issued, and authorized an examiner and an attorney to proceed to Prescott to conduct the hearing.
WMIN—Edward Hoffman, Minneapolis, Minn.—Granted authority to make the following station announcement: “This is Station WMIN from studios in St. Paul and Minneapolis.”
NEW—Radio Enterprises, Inc., Hot Springs, Ark.—Granted motion in part authorizing new hearing date after September 1, 1937, to be fixed by Dockets (Docket 4004), and denied request for indefinite continuance.
WTPI—Liberty Broadcasting Co., Athens, Ga.—Granted extension of Rule 132 until August 1, 1937.
WCOP—Massachusetts Broadcasting Corp., Boston, Mass.—Granted continuance of oral argument now scheduled for September 9, 1937, to a new date to be fixed by the Broadcast Division.
NEW—Havens & Martin, Petersburg, Va.—Granted petition to accept amendment of May 28, 1937, to its application (Docket 4562), without changing the hearing date or status of said application.
NEW—W. W. Luce, Fort Lauderdale, Fla.—Granted continuance of hearing, now scheduled for June 30, for a period of at least 30 days, new hearing date to be fixed by Dockets (Docket 4455).
NEW—Eugene P. O’Fallen, Denver, Colo.—Granted petition to intervene in the hearing on application of Colorado Radio Corp. (Docket 4527), now scheduled for June 24, to July 1, 1937.
KFNF—KFNF, Inc., Shenandoah, Ia.—Granted petition to advance oral argument on the application of KARK (Docket 4263), now scheduled for June 24 to July 1, 1937.
WFLA—WSUN—Clearwater Chamber of Commerce, Clearwater, Fla.—Denied petition asking authority under Rule 175 to announce location as: “This is Station WFLA with studios in Clearwater and Tampa, Fla.” Permitted to make this
announced: "This is station WLWA, Clearwater, with
studios in Clearwater and Tampa."

WEB C—Head of the Lakes Company, Duluth, Minn.—Denied
petition asking authority to announce location under Rule
175, as "This is station WEB C with studios in Duluth and
Superior." Permitted to make this announcement: "This
is Station WEB C, Duluth, Minn., with studios in Duluth
and Superior."

RATIFICATIONS

The Division ratified the following acts authorized on the dates
shown:

KOB—Albuquerque Broadcasting Co., Albuquerque, N. M.—
Granted extension equipment test period for period of 10
days from June 9.

WAAU—Columbia Broadcasting System, Inc., New York City—
Granted authority to operate as licensed period 30 days from
June 14 relay broadcast from SS Potomac program dance
music.

WxXK—Wesley Radio Corp., Cincinnati, Ohio—Granted author-
ity to operate as licensed June 16, 23, 30 relay broadcast pro-
gram "playtime from different local playgrounds."

WPAY—Vee Bee Corp., Portsmouth, Ohio—Granted special tem-
porary authority to suspend operation until June 15, pend-
ing compliance Rule 132.

WQDM—Regan and Bostwick, St. Albans, Vt.—Granted special
authority to take depositions in Docket No. 4501, issued by the Commission
directed that said oral argument be continued until September 30,
1937.

WAAU—Columbia Broadcasting System, Inc., New York City—
Granted authority to operate as licensed period 30 days from
June 14 relay broadcast from SS Potomac program dance
music.

WxXK—Wesley Radio Corp., Cincinnati, Ohio—Granted author-
ity to operate as licensed June 16, 23, 30 relay broadcast pro-
gram "playtime from different local playgrounds."

porary authority to suspend operation until June 15, pend-
ing compliance Rule 132.

WQDM—Regan and Bostwick, St. Albans, Vt.—Granted special
authority to operate as licensed period 30 days from
June 14 relay broadcast from SS Potomac program dance
music.
NEW—Savannah Broadcasting Co., Savannah, Ga.—Construction permit for a new relay broadcast station to be operated on 1622, 2058, 2150, 2790 kc., 10 watts.

NEW—Florida Capitol Broadcasters, Inc., Tallahassee, Fla.—Construction permit for a new relay broadcast station to be operated on 1622, 2058, 2150, 2790 kc., 40 watts.

Fourth Zone

WDAF—The Kansas City Star Co., Kansas City, Mo.—Modification of construction permit (B4-P-1418) for new transmitter and antenna and move of transmitter, requesting extension of completion date from 7-10-37 to 8-10-37.

KFAB—KFAB Broadcasting Co., Lincoln, Nebr.—Extension of special experimental authorization to operate synchronously with WBBM from local sunset at Lincoln, Nebr., to midnight, CST, from 8-1-37 to 2-1-38.

WBBM—Columbia Broadcasting System, Inc., Chicago, Ill.—Extension of special experimental authorization to operate synchronously with KFAB from local sunset (KFAB local sunset) to midnight, for period 8-1-37 to 2-1-38.

NEW—Four Lakes Broadcasting Co., Madison, Wis.—Construction permit for a new station to be operated on 830 kc., 100 watts, daytime.

NEW—Martin R. O’Brien, Aurora, Ill.—Construction permit for 1250 a new station to be operated on 1240 kc., 250 watts, daytime. Amended to change frequency from 1240 kc. to 1250 kc.

KJBS—Julius Brunton & Sons Co., San Francisco, Cal.—Authority to install new automatic frequency control equipment.

KGGM—New Mexico Broadcasting Co., Albuquerque, N. Mex.—Authority to install new automatic frequency control equipment.

WATB—Indianapolis Broadcasting, Inc., Indianapolis, Ind.—License to cover construction permit (B4-P-883) as modified, for a new station, requesting changes in authorized equipment, approval of vertical antenna, and approval of transmitter and studio sites at 330 South Broadway, Albert Lea, Minn.

NEW—WDAY, Inc., Fargo, N. Dak.—Construction permit for a new relay broadcast station to be operated on 31100, 34600, 37600, 40600 kc., 2 watts.

Puerto Rican Zone

WNEL—Juan Piza, San Juan, Puerto Rico.—Modification of construction permit (B5-P-1115) for a new transmitter and vertical antenna, change in frequency, increase in power and move of transmitter, requesting approval of transmitter site at Yakima County, Washington.

NEW—Roberts-MacNab So. (Arthur L. Roberts, R. B. MacNab & A. J. Breitbach, General Manager), Livingston, Mont.—Construction permit for a new station to be operated on 1310 kc., 100 watts night, 250 watts day, unlimited time.

NEW—Gila Broadcasting Co., Safford, Ariz.—Construction permit for a new station to be operated on 1420 kc., 100 watts night, 250 watts day, unlimited time.

W7XAC—Symons Broadcasting Co., Spokane, Wash.—License to cover construction permit (B5-PRE-70) for a new relay broadcast station.

NEW—Intermountain Broadcasting Corp., Salt Lake City, Utah.—Construction permit for a new relay broadcast station to be operated on 31100, 34600, 37600, 40600 kc., 40 watts.
STATUS OF RADIO COURT DOCKET

The following radio cases are now pending on the docket of the United States Court of Appeals for the District of Columbia:

Case No. 6762—Paul R. Heitmeyer, Cheyenne, vs. FCC.
No. 6772—Eastland Company vs. FCC.
No. 6773—Congress Square Hotel Company vs. FCC.
No. 6852—Great Western Broadcasting Assn., Inc., Logan, Utah, vs. FCC.
No. 6853—Great Western Broadcasting Assn., Inc., Provo, Utah, vs. FCC.
No. 6854—Intermountain Broadcasting Corporation vs. FCC.
No. 6866—Pulitzer Publishing Company vs. FCC.
No. 6869—Missouri Broadcasting Company vs. FCC.
No. 6906—Red River Broadcasting Company, Inc., vs. FCC.
No. 6911—Continental Radio Company vs. FCC.
No. 6931—Tri-State Broadcasting Company, Inc., vs. FCC.
In the District Court of the United States for the District of Columbia:
Case No. 64232—Black River Valley Broadcasters, Inc., vs. Anning S. Prall et al.

NEW STATION RECOMMENDED

Chase S. Osborn, Jr., applied to the Federal Communications Commission for a construction permit for the erection of a new station at Fresno, Cal., to use 1440 kilocycles, 500 watts and unlimited time on the air.

Examiner John P. Bramhall in Report No. 1-439 recommended that the application be granted “on condition that an antenna site be selected which meets with the approval of the Commission.” He found that “need for additional service in the area proposed to be served has been established.” The Examiner found that the granting of the application would not cause any interference with any existing station.

DENIAL RECOMMENDED FOR NEW STATION

The Waterloo Times-Tribune Publishing Company applied to the Federal Communications Commission for a construction permit for the erection of a new station at Waterloo, Iowa, to use 1370 kilocycles, 100 watts and daytime operation.

Examiner George H. Hill in Report No. I-441 recommended that the application be denied. He found, among other things, that “the financial showing of the applicant is unsatisfactory.” The Examiner found also that “it does not appear that there is any substantial need for the proposed station.”

RECOMMENDS NEW STATION

Elmira Star-Gazette, Inc., applied to the Federal Communications Commission for a construction permit for the erection of a new broadcasting station at Elmira, N. Y., to use 1200 kilocycles, 250 watts and daytime operation.

Examiner Robert L. Irwin in Report No. I-438 recommended that the application be granted. The Examiner states that “there is need for the daytime service proposed to be rendered in the area by the applicant.” He states also that the operation of the proposed station would not result in objectionable interference “to the recognized good service area of any existing station.”

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them:

No. 3151. Allegedly engaged in a conspiracy to represent falsely the quality and value of certain pianos sold in interstate commerce, W. W. Kimball Co., 306 South Wabash Ave., Chicago, and Victor G. Williams, trading as Williams Music Store, 30 East Broad St., Columbus, Ohio, are respondents in a complaint. The Kimball company manufactures pianos, and Williams is a retailer and sales agent for Kimball products in the Columbus area.
The Kimball company's sales manager, Ben F. Duvall, and one of its employees, George H. Kranz, also are named in the complaint, which charges use of unfair methods of competition in violation of Section 5 of the Federal Trade Commission Act.

In newspaper advertisements, the respondents allegedly represent that they have for sale repossessed pianos on which purchasers had been unable to finish payment; that to return the pianos to the factory would be very expensive, and that they will sell them at sacrifice prices for the unpaid balances due.

In small letters printed on the back of the piano, the respondents, according to the complaint, advertise that the pianos were purchased by the Kimball company at sacrifice prices for the unpaid balances due.

The complaint also is directed against all other members of the distributors' association, numbering about 150, who are alleged to constitute a group so large and influential as to be able, by themselves and in cooperation with manufacturers, to control and influence the window glass industry in the country as a whole, as well as to employ or influence the court in curtailing competition on the part of other competitors, and to constitute a group so large and influential as to be able, by them jointly, to dominate the window glass industry in the United States.

The Commission has issued the following cease and desist orders and stipulations:

**No. 01693.** Raymond Stotter, trading as The Raymond Press, 313 Madison Ave., New York, in selling a book designated "Beauty Unmasked," agreed to cease representing that the book contains secrets that have brought astounding beauty to many men and women, and that the information contained will enable a person to learn how to change his facial features and to remove scars, signs of age and skin blemishes.

**No. 01694.** B. C. Burden, trading as Lincoln Engineering School, Lincoln, Neb., will stop advertising that his correspondence courses of instruction in radio and electrical engineering are more than equivalent to any other courses now being offered and are sold for only a fraction of the cost of comparable courses; that graduates of his school are so trained as to be able to obtain hundreds of thousands of positions paying $125 to $350 a month; that the courses cover the complete electrical field, and graduates are equipped to compete successfully with college-trained men; misleading No. 01695. The Filbertone Co., Inc., 608 Hoyt St., Saginaw, Mich., agreed to cease representing that Filbertone Powder or Filbertone Pills, when used separately or in combination, will constitute an effective remedy for rheumatic aches and pains, nervousness, neuritis, indigestion, skin eruptions, and bladder or stomach troubles.

**Stipulations and Orders**

The Commission has issued the following cease and desist orders and stipulations:

**No. 01693.** Raymond Stotter, trading as The Raymond Press, 313 Madison Ave., New York, in selling a book designated "Beauty Unmasked," agreed to cease representing that the book contains secrets that have brought astounding beauty to many men and women, and that the information contained will enable a person to learn how to change his facial features and to remove scars, signs of age and skin blemishes.

**No. 01694.** B. C. Burden, trading as Lincoln Engineering School, Lincoln, Neb., will stop advertising that his correspondence courses of instruction in radio and electrical engineering are more than equivalent to any other courses now being offered and are sold for only a fraction of the cost of comparable courses; that graduates of his school are so trained as to be able to obtain hundreds of thousands of positions paying $125 to $350 a month; that the courses cover the complete electrical field, and graduates are equipped to compete successfully with college-trained men; misleading No. 01695. The Filbertone Co., Inc., 608 Hoyt St., Saginaw, Mich., agreed to cease representing that Filbertone Powder or Filbertone Pills, when used separately or in combination, will constitute an effective remedy for rheumatic aches and pains, nervousness, neuritis, indigestion, skin eruptions, and bladder or stomach troubles.
immediate relief in all cases. The respondent further stipulated that he will not use the words “chemical company” in his trade name until he operates a chemical company, or the word “manufacturer” unless he manufactures the products he sells.

No. 01698. Donald S. Kenyon, 2608 Nicollet Ave., Minneapolis, trading as Kondon Manufacturing Co., will cease representing that Kondon’s Noseal Jelly will stop a head cold, or is other than a palliative treatment for the pains and discomfitures of head colds, or that it will protect against chest colds, and bring immediate relief in all cases.

No. 01699. Use of certain false and misleading representations in advertising that Phillips’ Milk of Magnesia Texture Cream helps to correct certain ugly skin blemishes and that this preparation and Phillips’ Milk of Magnesia Cleansing Cream help to neutralize the fatty acid accumulations on the skin, unless, in this latter representation, the language is changed to a representation that Phillips’ Milk of Magnesia will enrich the skin.

No. 01700. Bristol-Myers Co., International Building, Rockefeller Center, New York, agreed to stop representing that its hair tonic, Vitalis, retards falling hair, unless limited to indicate the assertion is specifically limited to temporary, palliative relief of certain other ailments of different degrees of seriousness, unless it will reduce the size of the pores and prevent dryness of the skin or prevent wrinkles; that Forty-second Street Tissue Cream is deeply penetrative, will refine skin texture, and is an effective treatment for helping banish signs of age, and that Forty-second Street Hand Cream penetrates the pores almost instantly and will enrich the skin.

No. 01703. R. S. Agnew, trading as The Genuaid Co., Clarion, Pa., will discontinue advertising that Genuaids will move the cause of minor aches and pains and rheumatism, and high blood pressure.

No. 01704. Cosmos Chemical Corporation, 81 Washington St., Boston, selling Sanovan, a deodorant, stipulates that it will stop advertising that this product will permanently rid any place of any odor.

No. 01705. Atkins Chemical Co., Inc., 44 East 63rd St., New York, engaged in the sale of Bonnox, stipulated that it will cease representing that Bonnox will restore to the gums the stimulation they need to prevent one from becoming a “dental cripple”.

No. 01706. Laura Phillips, 4532 Murdock Ave., New York, in the sale of Laura’s Rapid Tonic and Hair Formula, agrees to desist from the representation that 18 treatments will grow new hair; that the use of the preparations will stir dormant roots and stop falling hair, unless, in connection with the latter assertion, the representation is limited to the stopping of excessive loss of hair. The respondent will cease asserting that Laura’s Realization Face Cream will eliminate wrinkles, make the skin firm, smooth and white, or do away with sallow complexion.

No. 01707. John F. Coleman, trading as Typists’ Information Service, Smithboro, N. Y., selling a folio of instruction designed “Typing Tips for Typists”, will discontinue asserting in advertising that all details explaining how typists may earn $15 to $30 a week are furnished by him upon receipt of a stamp. Coleman admitted that upon receipt of a stamp he merely furnishes information concerning the booklet he sells. He also agreed to cease representing by publication of advertisements in “Help Wanted” columns or otherwise that he has employment to offer, and to stop making unmodified claims of earnings in excess of the actual earnings of any of his typists of whom he has knowledge.

No. 1708. Dr. J. F. True & Co., Inc., Auburn, Me., agrees to quit advertising that Dr. True’s Elixir is useful in treating the ordinary ailments of children, and that it safeguards health, gives children double protection and contains no harmful ingredients.

No. 01709. Chas. H. Phillips Chemical Co., 170 Varick St., New York, agrees to stop representing by publication of advertisements in “Help Wanted” columns or otherwise that he has employment to offer, and to stop making unmodified claims of earnings in excess of the actual earnings of any of his typists of whom he has knowledge.

No. 01710. A. Carolus Becker, 22 Hale Ave., Brooklyn, engaged in the sale of pamphlets, variously designated, containing information relative to astrology and numerology. He stipulated that he will cease representing that any booklet sold by him will enable the purchaser to become a medium, or to construct his own horoscope or arrive at his own astrological predictions; that any of his booklets covers the subjects of astrology thoroughly, or contains information on astrology or forecasts and enables the purchaser to determine his vocation, financial prospects and psychic powers.

No. 01711. J. M. Simmons, trading as J. M. Simmons & Co., 19 West Jackson Boulevard, Chicago, also dealing in pamphlets on the subjects of astrology and numerology, entered into a stipulation substantially the same as that signed by A. Carolus Becker.

No. 01712. The Methusa Co., 10437 St. Clair Ave., Cleveland, agrees to cease stating that its preparation Methusa will enable the user to get rid of nervousness, rheumatism, arthritis and certain other ailments of different degrees of seriousness, unless the assertion is specifically limited to temporary, palliative relief from symptoms. Other representations to be discontinued are that through the use of Methusa the weight of years and age are removed, and that this product will completely recondition the human system. The term “Manufacturing Chemists” or any other term implying that the respondent company manufactures Methusa or any other preparation, will no longer be used, according to the stipulation.

No. 01713. W. J. Latimer, trading as The Midwest Art Co., 514 North Prior Ave., St. Paul, Minn., selling pictures of motion picture stars, in connection with which a missing word contest is conducted, will cease representing that it is possible for a person supplying the missing word to win $1000 without expenditure of “one red cent”, and that in event of a tie for any one prize, there will be as many prizes reserved as there are participants in the contest.

No. 01714. Bristol-Myers Co., International Building, Rockefeller Center, New York, in the sale of Ipana tooth paste, will cease advertising that this preparation and massaging will correct any unhealthy gum condition; that Ipana and the use of a tooth brush will restore to the gums the stimulation they need to retain firm and healthy: that modern dental science or the country’s dentists urge or approve the use of Ipana and massaging in the care of teeth and gums, and that Ipana and massaging will prevent one from becoming a “dental cripple”. The respondent company stipulates that it will not advertise Phillips’ Milk of Magnesia Tooth Paste as providing the best way yet discovered or as science’s latest discovery for cleaning teeth. The respondent company will also cease asserting that its tooth paste contains more milk of magnesia than any other tooth paste, unless such a statement is immediately followed by the words “unless, in connection with the latter assertion, the language is changed to a representation that Phillips’ Milk of Magnesia Tooth Paste contains more milk of magnesia than any other tooth paste.”
No. 01716. Alfred J. Paul, and Arthur Smith, trading as Johnson Smith & Co., 6615 E. Jefferson Ave., Detroit, entered into a stipulation to cease the following representations: That their book of instruction in piano playing, entitled "The Vamping Tutor", will enable one to play the piano without lessons or personal instruction, and without any knowledge of music, and to play by ear the accompaniment to any song; and that their book on hypnotism enables one to strengthen his will power, banish fear and worry, and overcome bad habits. The respondents also will stop advertising that Japanese rose bushes grown from seed they sell will bloom "all the year round" or every 10 weeks, winter or summer.

No. 01717. H. M. Cheney, 1218 Adams St., Toledo, trading as Cheney Medicine Co., and as F. J. Cheney Co., stipulates that, in the sale of Hall's Nasal Catarrh Medicine, he will stop asserting that its use will have an immediate curative effect and alleviate the symptoms of sinus trouble, unless this latter assertion is limited to relief of headaches occurring in cases where an excessive amount of nasal congestion prevents the proper drainage of the sinus cavities.

No. 01718. Herman Nagel, 633 Plymouth Court, Chicago, engaged in selling Formula B, a so-called vitality restorer, will quit asserting that use of its tablets will restore vitality and bring back one's youth, and that this preparation consists mainly of extracts of tropical herbs which have been used for centuries for their vivifying effects.

No. 01719. The Cream of Wheat Corporation, 730 Stimson Building, Minneapolis, agrees to stop representing that by eating Cream of Wheat a person may increase resistance to disease, unless this assertion is limited to the cereal's value as a nourishing food.

No. 01720. Bristol-Myers Co., International Building, Rockefeller Center, New York, will cease representing that its preparation, Sal Hepatica, is used in cases of constipation to prevent many serious physical conditions or trouble, and that it is a competent treatment for headaches, indigestion, and certain other ailments, unless this claim is limited to such conditions when due to hyperacidity or constipation. The respondent company agrees to cease asserting that Sal Hepatica will cleanse the system thoroughly, unless this is limited or qualified to indicate cleansing of the intestinal tract, and that Sal Hepatica will correct or counteract acid conditions, unless this is qualified or limited to indicate gastric hyperacidity. In its stipulation, the respondent company admitted that, according to scientific opinion furnished the Commission, Sal Hepatica is an effervescent salt which, when taken in small doses, will act as a laxative, and in larger doses as a diuretic, and that it is a competent treatment for colds, headaches, indigestion, upset stomach, or natural fatigue, nor as a preventive of more serious physical conditions in cases of constipation.

No. 01721. Louis J. Schuck, 155-65 One Hundred Sixteenth Drive, Chicago, who is a dealer in designated medical preparations, stipulates that he will cease representing, inferentially or otherwise, that any of his preparations or any of the ingredients thereof, are imported from Indo-China or any other country, unless this is true. He will also cease asserting that Kandu Tabs will be of benefit to one in need of "pep" or that either Kandu Tabs or a specified tonic or a combination of both will stir up, wake up or strengthen weak or tired glands.

No. 01722. B. W. Rucker, trading as DeSala Enterprises and Vincent DeSala, Buechel, Ky., in the sale of a book entitled "This Power Called Hypnotism", will stop representing that persons studying this book will gain dynamic power and become master minded, powerful, successful and happy, and that its price formerly was $10 or any other price different from that at which it was regularly sold.

No. 01723. C. E. Richards, 404 Morase St., Lewistown, Mont., selling Nu Way Method, agrees to desist from the representations that his prescription, called a system cleaner, will clean the system, break up a case of typhoid, remove gall-stones and has other accomplishments, and that the price of the book except as a laxative and that there is no danger of spreading tuberculosis when the respondent's treatment is used. The respondent will also cease asserting that Indian Root Treatment treats the body by means of medicated air, or that he, through the use of his preparations, can do more for a person than can a Doctor of Medicine.

No. 01724. Spear Brand Mills, Inc., Kansas City, Mo., selling Spear Brand Chick Feed, will discontinue advertising that this product is capable of producing healthier, sturdier chicks quicker and at less cost than any other feed on the market and that it contains all the vitamins and minerals necessary for rapid, healthy and sustained growth.

No. 01727. E. L. Morris, trading as Nuway Products, Frankford, Del.; "Vim Tabs", a stimulant for glands or nerves.

No. 01729. Spear Brand Mills, Inc., 15 Fifth Ave., New York, agrees to stop representing that Chemm is a balanced food drink. Other allegations to be discontinued are that Chemm develops healthful beauty, causes children to drink more milk and supplies all required amounts of Vitamins A, B and D. Nos. 01730-01735. A dealer in machines to stamp impressions on coins and a distributor of book matches and other printed material have entered into stipulations to discontinue certain false and misleading advertising practices in the sale of their products.

The respondents are H. W. Boetticher, 124 East Larned St., Detroit, trading as Blue Dot Stamp Co., and Bannen Printing Co., Evansville, Ind. Both respondents agree to stop making representations that opportunitites exist for prospective salesmen to earn amounts in excess of those actually earned by their regular salespersons under normal conditions.

No. 01732. Omar Baking Co., Omaha, Nebr., a subsidiary of National Baking Co., Omaha, also named as a respondent, will quit advertising that Omar Bread is balanced as a diet is balanced, is capable of furnishing tremendous over-generation of calcium and is a daring contribution to the science of bread-making. The respondent company will also stop asserting that calcium is the sole requisite for strong, hard bones and sound, white teeth, and that lack of it is the cause of malnutrition.

No. 01733. Northwestern Yeast Co., 1750 N. Ashland Ave., Chicago, stipulates that it will desist from representing that the typical every-day diet is sadly deficient in Vitamin B, and that the use of the respondent company's yeast foam tablets will restore a person's digestive and eliminative system to normal, healthy function, provided the latter claim is limited to such conditions when due to a deficiency of Vitamin B complex. The respondent company will no longer advertise that its yeast preparation is capable of correcting skin blemishes, and that its Animal-Poultry Yeast Foam when fed to dogs, has a capacity to help a dog get all the nourishment available from his food, or when fed to chickens, can cause coccidiosis or other intestinal diseases to disappear.

No. 01734. Charles Keller, trading as Keller Co., Mechanicsville, Ohio; "Bukorts", for weakness and irritation of the bladder.

No. 01735. Margaret Vorhees Doyle, trading as the Estate of C. A. Vorhees M. D., 420-130 N. Wabash, Chicago, as a selling proposition under the caption "Humbed's Worm Spy Worm", for worms in either children or adults. This respondent also will discontinue representing that the manufacturer of this preparation is a practicing physician or that the originator of the formula is now alive.

No. 01736. Trading as United States Marble & Granite Co., Asa L. Wotten, Oneida Pla., Altoona, Pa.; "Alstroemeria", a plant for flower arrangements, has entered into a stipulation to discontinue representations in advertising matter implying that he manufactures the tombstones and monuments he sells in interstate commerce.

According to the stipulation, the products sold by Wooten are manufactured at plants which he does not own or operate, although his advertising matter contained assertions such as "Sold Direct From Factory To You" and "From Stone Quarry To Monument Factory Direct To You."

No. 01737. Wayne County Produce Co., Grover Point, Long Island, N. Y., agrees to stop using a so-called gift offer of a skillet having a so-called "built-in" value of $1 as an inducement to purchase, with the further representation that in fact such designated value is greatly in excess of the price at which the article is regularly sold. The respondent company manufactures bottled, canned and packed food products, including cider, vinegar, jelly, preserves and apple sauce.

2170
No. 1995. Fragrant Perfumers, Inc., 40 East 19th St.,
New York, engaged in assembling perfumes and in the sale
thereof as well as of other toilet articles, stipulates that it will
stop the use on labels of exaggerated or misleading representations
concerning the value of a perfume or the price at which it is
sold or on labels so as to imply that it is made in France,
which fact is not a fact.

No. 1186. The Federal Trade Commission has issued an order
vacating and setting aside an order to cease and desist issued in
September, 1933, against Magneoil Co., Inc., Salt Lake City,
manufacturer of blankets and other appliances with electrical
connections, for use in treating certain diseases.

No. 1856. The Commission has also closed its case against
J. V. Linehan and C. A. Welsh, trading as Lion Manufacturing
Co., Chicago, for the reason that the respondents have discon-
tinued the unfair methods of competition alleged in the complaint.

No. 1856. The Commission has also closed its case against
J. V. Linehan and C. A. Welsh, trading as Lion Manufacturing
Co., Chicago, for the reason that the respondents have discon-
tinued the unfair methods of competition alleged in the complaint.

The order also prohibits the respondents from packing in the same assortment pieces of candy of uniform size and shape having centers of a different color, together with larger pieces of candy or small packages of candy, to be given as prizes to purchasers procuring pieces of candy with centers of a particular color.

No. 2706. J. G. McDonald Chocolates Co., Salt Lake City,
Utah, has been ordered to cease and desist from representing
that it is a distiller of alcoholic beverages, when such is not a
fact. The order also prohibits the respondents from packing in the same assortment pieces of candy of uniform size and shape having centers of a different color, together with larger pieces of candy or small packages of candy, to be given as prizes to purchasers procuring pieces of candy with centers of a particular color.

Nos. 2704-2697-2699-2705. Under orders to cease and desist, four candy companies are required to discontinue selling and distributing to dealers candy so packed and assembled that sales to the public may be made by means of a lottery, gaming device or gift enterprise.

The respondent companies are Shupe-Williams Candy Co.,
2605 Wall Ave., Ogden, Utah; Ostler Candy Co., 143 South
State St., and Glade Candy Co., 232 South Fifth East St., both
of Salt Lake City.

The orders also prohibit the Shupe-Williams and Ostler com-
panies from packing in the same assortment pieces of candy of uniform size and shape having centers of a different color, together with larger pieces of candy or small packages of candy or other merchandise to be given as prizes to purchasers procuring pieces of candy with centers of centers of a particular color.

Nos. 2706. J. G. McDonald Chocolates Co., Salt Lake City,
Utah, has been ordered to cease and desist from representing
that it is a distiller of alcoholic beverages, when such is not a
fact. The order also prohibits the respondents from packing in the same assortment pieces of candy of uniform size and shape having centers of a different color, together with larger pieces of candy or small packages of candy, to be given as prizes to purchasers procuring pieces of candy with centers of a particular color.

The orders also prohibit the Shupe-Williams and Ostler com-
panies from packing in the same assortment pieces of candy of uniform size and shape having centers of a different color, together with larger pieces of candy or small packages of candy or other merchandise to be given as prizes to purchasers procuring pieces of candy with centers of centers of a particular color.

Nos. 2704-2697-2699-2705. Under orders to cease and desist, four candy companies are required to discontinue selling and distributing to dealers candy so packed and assembled that sales to the public may be made by means of a lottery, gaming device or gift enterprise.

The respondent companies are Shupe-Williams Candy Co.,
2605 Wall Ave., Ogden, Utah; Ostler Candy Co., 143 South
State St., and Glade Candy Co., 232 South Fifth East St., both
of Salt Lake City.

The orders also prohibit the Shupe-Williams and Ostler com-
panies from packing in the same assortment pieces of candy of uniform size and shape having centers of a different color, together with larger pieces of candy or small packages of candy or other merchandise to be given as prizes to purchasers procuring pieces of candy with centers of centers of a particular color.

Nos. 2706. J. G. McDonald Chocolates Co., Salt Lake City,
Utah, has been ordered to cease and desist from representing
that it is a distiller of alcoholic beverages, when such is not a
fact. The order also prohibits the respondents from packing in the same assortment pieces of candy of uniform size and shape having centers of a different color, together with larger pieces of candy or small packages of candy, to be given as prizes to purchasers procuring pieces of candy with centers of a particular color.

The orders also prohibit the Shupe-Williams and Ostler com-
panies from packing in the same assortment pieces of candy of uniform size and shape having centers of a different color, together with larger pieces of candy or small packages of candy or other merchandise to be given as prizes to purchasers procuring pieces of candy with centers of centers of a particular color.

FIFTEENTH ANNUAL MEMBERSHIP MEETING NOW HISTORY

The Fifteenth Annual Convention of the NAB held at Chicago, Illinois, June 20-23, witnessed the largest number of registrations in the history of the Association. There were 568 registrations this year as compared with 549 last year.

PROCEDINGS WILL BE PRINTED

The proceedings of the Fifteenth Annual Convention of the NAB will be published in NAB Reports as soon as the official transcript is available.

Officers and Directors for Ensuing Year

The following constitute the Officers and Directors of the Association for the current year:

President—John Elmer, WCBM, Baltimore, Maryland.  
First Vice President—John J. Gillin, Jr., WOW, Omaha, Nebr.  
Second Vice President—William J. Scripps, WWJ, Detroit, Mich.  
Treasurer—Harold Hough, WBAP, Fort Worth, Texas.  
Managing Director—James W. Baldwin, Washington, D. C.

Directors

Edward A. Allen, WLVA, Lynchburg, Va.  
Ralph R. Brunton, KJBS, San Francisco, Calif.  
*Harry C. Butcher, WJSV, Washington, D. C.  
Arthur B. Church, KMBC, Kansas City, Mo.  
Edwin W. Craig, WSM, Nashville, Tenn.  
*Gene T. Dyer, WGES, Chicago, Ill.  
*Herbert Hollister, KANS, Wichita, Kans.  
J. O. Maland, WHO, Des Moines, Iowa  
*C. W. Myers, KOIN, Portland, Ore.  
Eugene P. O'Fallon, KFEL, Denver, Colo.  
John F. Patt, WGAR, Cleveland, Ohio  
*Frank M. Russell, WRC-WMAL, Washington, D. C.  
*Theodore C. Streibert, WOR, New York, N. Y.  
T. W. Symons, Jr., KFPY, Spokane, Wash.  
L. B. Wilson, WCKY, Cincinnati, Ohio

*Elected this year.

PRESIDENT ELMER WILL SPEND ONE DAY EACH WEEK AT HEADQUARTERS

The new President of NAB, John Elmer, announced this week that he will spend one day each week at NAB headquarters. Mr. Elmer plans to be available to members between the hours of 10 and 4 each Thursday at 960 National Press Bldg., Washington, D. C. The President extends a cordial invitation to all members to visit their headquarters office.

SYKES SAYS SILENCE CRITICS WITH SERVICE

"The best answer to make to those who are not satisfied with our American system of broadcasting is to render such a wonderful public service that these critics may, in the course of time, be silenced," said Judge Eugene Sykes.

A WORD OF APPRECIATION

I want every member to know of the deep, warm gratitude which I feel for the confidence expressed in my election to the presidency of NAB. I assume the duties of the office with every intention to serve fully the best interests of our organization—and with a consciousness of the responsibility. No motive of mine in any action shall ever be selfish. To our whole membership I address my thanks and this promise.—John Elmer.
O. Sykes, Chairman of the Broadcast Division of the Federal Communications Commission, in an address before the Fifteenth Annual Convention of the NAB held in Chicago, June 20-23.

The full text of Judge Sykes’ address is printed in this Report. Every member who heard it will want to read it and every member who did not attend the Convention owes it to the industry as well as himself to read it.

RESOLUTIONS ADOPTED AT NAB CONVENTION

The following resolutions were adopted by the Convention:

Resolution No. 1

RESOLVED, That the National Association of Broadcasters sincerely thanks Hon. Judge Eugene Octave Sykes, Chairman of the Broadcast Division, Federal Communications Commission, for the helpful address delivered by him at its fifteenth annual convention, and that the membership is confident that his message will aid greatly in enabling broadcasting stations to carry out the responsibilities placed upon them by the Federal Communications Commission.

Resolution No. 2

RESOLVED, That the National Association of Broadcasters hereby extends its appreciation to Mr. Glenn Snyder, Mr. H. Leslie Atlass, Mr. Ralph L. Atlass, Mr. H. C. Crowell, Mr. Gene T. Dyer, Mr. W. E. Hutchinson, Mr. Quin A. Ryan, Mr. F. A. Stanford, Mr. Niles Trammel and Mr. Clinton R. White of the Local Convention Committee for their services in helping to make the fifteenth annual convention of the National Association of Broadcasters a success.

Resolution No. 3

RESOLVED, That the National Association of Broadcasters hereby extends its hearty thanks to the management of the Sherman Hotel, and to Mr. Wm. P. Hennessy, Director of Conventions, Chicago Association of Commerce, for their splendid service in making the fifteenth annual convention of this Association an outstanding success; also to the management of the Sherman Hotel and other hotels for their courtesies in accommodating so many of our guests.

Resolution No. 4

RESOLVED, That the official acts of the Managing Director since the fourteenth annual convention be and the same are hereby approved.

Resolution No. 5

RESOLVED, That the National Association of Broadcasters thank Mr. Arthur Pryor, Jr., of Batton, Barton, Durstine & Osborn, Inc., of New York City, and Mr. Marvin Oreck of Oreck’s, Inc., Duluth, Minnesota, for their helpful participation in this fifteenth annual convention of the National Association of Broadcasters.

Resolution No. 6

WHEREAS, the Federal Radio Education Committee, acting through a select committee, has agreed that certain specific projects should be carefully studied,

WHEREAS, at a cost aggregating approximately $250,000.00, certain foundations have agreed to contribute approximately $167,000.00, it is resolved that all broadcasting stations should be invited to contribute a total of approximately $83,000.00 over a period of two years as the broadcasters’ share of the expense of these investigations. Resolved further that the Board of Directors devise a formula whereby the contributions of each broadcaster will be on an equitable basis.

Resolution No. 7

RESOLVED, That the National Association of Broadcasters encourage the prosecution of the United States suit against the American Society of Composers, Authors, and Publishers.

Resolution No. 8

RESOLVED, That the National Association of Broadcasters, as an organization, use all legitimate means to further the passage of the Duffy Copyright Bill, and urge its membership to encourage members of the Congress from their districts to support this bill.

Resolution No. 9

RESOLVED, That the NAB reiterate its position as favoring the issuance of radio station licenses for a term of at least three years.

Resolution No. 10

RESOLVED, That the Board of Directors of the NAB be directed and are instructed to carry on negotiations with copyright owners to the end that a per-piece or measured service plan be obtained.

Resolution No. 11

RESOLVED, That the NAB approves of the action taken by the Board of Directors in respect to the organization of the NAB BUREAU OF COPYRIGHTS, INC., and the transferring of the property and activities of the Bureau of Copyrights to the new organization and urges the wholehearted support to that organization of all our members.

Resolution No. 12

WHEREAS, there has been introduced into the Congress of the United States a bill known as the Celler Bill, which
would authorize the construction, maintenance, and operation of a government broadcasting station,

WHEREAS, the existing system of broadcasting in the United States makes available to the various departments of the government ample time for broadcasting either domestic or foreign programs,

WHEREAS, the existing system of broadcasting in the United States affords to the departments of the government the greatest possible radio audiences,

WHEREAS, the operation of a broadcasting station by the Office of Education is opposed by all existing Federal and State laws respecting education,

WHEREAS, due to its official status, there would be great danger of utterances over such a station giving offense to friendly nations, and creating unnecessary international incidents,

WHEREAS, the enactment of the bill would result in a useless and extravagant expenditure of public funds,

NOW, THEREFORE, BE IT RESOLVED, That the National Association of Broadcasters express its opposition to the passage of this bill, and instruct its Board of Directors to use all legitimate means to cause its defeat, and urge the members of the National Association of Broadcasters to encourage their members in Congress to oppose the passage of this bill.

RESOLUTIONS REFERRED TO NAB BOARD OF DIRECTORS

The following resolutions were referred to the Board of Directors:

A. WHEREAS, we believe it is for the best interests of the National Association of Broadcasters, as a trade organization, to promote the broadcasting industry of the United States at all times in the best possible manner,

THEREFORE, BE IT RESOLVED, that a Director of the Advertising Bureau of NAB be employed by the National Association of Broadcasters, to work under the supervision and direction of the managing director, to advance the art of radio broadcasting in the minds of the people and to portray a true picture of the value of the radio industry, in its present form, to the United States.

B. WHEREAS, the Copyright Act of 1909 was enacted at a time when Radio Broadcasting was unknown and in the application of such act to Radio Broadcasting as it exists today, numerous injustices have been complained of by both user and owner of copyrighted material, and

WHEREAS, the diversity of state legislation affecting copyrights and other problems of the broadcasting industry makes it advisable to coordinate information on these subjects for the benefit of all,

THEREFORE, BE IT RESOLVED, That a committee composed of one member of the National Association of Broadcasters from each state be appointed and that each such member be pledged to respond to committee call, each such committee member to serve without compensation but with traveling and hotel expenses to be set and paid by the National Association of Broadcasters when such committee members are traveling pursuant to official call, and it shall be the duty of each such committee member to gather and furnish information on questions of copyrights and other problems of broadcasters, and that the activities of this committee shall be coordinated by suitable counsel engaged for that purpose.

C. WHEREAS, at the 1936 meeting of the National Association of Broadcasters, the following recommendation was adopted:

"WHEREAS, as the radio broadcasting industry continues to grow in size, it becomes more and more apparent that if broadcasters are to handle their state, regional and national programs intelligently, they must be organized in state, regional and national units, as such organizations will serve to keep the rank and file better informed and give the numerous broadcasters more of a voice in the affairs of the industry.

"NOW THEREFORE BE IT RESOLVED, the Board of Directors of the NAB be and are hereby instructed to expend every effort during the year 1936-1937 to foster such organizations as chapters of the NAB."

AND WHEREAS, one year has elapsed since that date and no effective action has been taken to carry out the purposes of that resolution, and

WHEREAS, the problems of radio are greater and more numerous than ever before, and

WHEREAS, the Radio Broadcasting Industry is threatened with unjust legislation, racketeering, taxes and program difficulties both locally and nationally, and

WHEREAS, the need for the Radio Broadcasting Industry to reorganize in keeping with the suggestions contained in the resolution adopted unanimously at the convention one year ago is greater today than ever,

NOW THEREFORE BE IT RESOLVED, that it is the sense of this Convention that the National Association of Broadcasters be recognized in such a manner and to such an extent as to encourage the growth and functioning of local and state-wide chapters.

BE IT FURTHER RESOLVED, that to expedite such reorganization, it is hereby ordered that a reorganization committee consisting of seven members be and is hereby appointed in the following manner:

The delegates present at this convention from each of the five radio regions as set up under the old Radio Act shall elect one of their number to represent their region on this Committee. These five to in turn elect two additional members from among the delegates present, one of whom must be the President of the National Association of Broadcasters and the other when elected shall serve as Chairman of this Committee.

2177
Be it further resolved, that to finance this work a fund of $5000 be set aside to defray the actual expenses of this Committee and its work, and the Committee is hereby instructed to proceed at the earliest possible moment to work out the details of a reorganization plan in keeping with the following suggestions:

1. Local chapters are to be organized or chartered wherever a sufficient number of radio stations are grouped geographically in such a manner as to make a local chapter feasible. Example, northern California, southern California, Oregon, western Washington and eastern Washington.

2. Local chapters to be chartered only by the National Association of Broadcasters and each local chapter to be allowed one director in the National Association for each five stations or major fraction thereof plus one delegate for each station member, which delegate shall have all the rights and powers of a director save the right to vote and introduce motions.

3. The National organization to be divided into five or more regional organizations, which organizations shall be made up of the regular directors and delegates to the national organization from chapters in that particular region. These directors and delegates to have the same rights and powers in the regional organization as in the National Association.

4. Each Regional Organization to be presided over by a Regional Director, who shall be elected from and by the directors from that particular region present at the Annual Meeting of the National Association each year.

5. The Executive Committee of the National Association shall have charge of the affairs of the National Association in the same manner and to the same extent as does the present board of directors, and shall consist of the Regional Directors plus the President-elect and the Past President of the National Association.

Be it further resolved, that as soon as the committee has prepared such a plan in sufficient detail the committee shall submit it to the membership by mail and when a majority have approved it by mail, then the committee is hereby empowered to put said plan into operation to and introduce motions.

3. The National organization to be divided into five or more regional organizations, which organizations shall be made up of the regular directors and delegates to the national organization from chapters in that particular region. These directors and delegates to have the same rights and powers in the regional organization as in the National Association.

4. Each Regional Organization to be presided over by a Regional Director, who shall be elected from and by the directors from that particular region present at the Annual Meeting of the National Association each year.

5. The Executive Committee of the National Association shall have charge of the affairs of the National Association in the same manner and to the same extent as does the present board of directors, and shall consist of the Regional Directors plus the President-elect and the Past President of the National Association.

Be it further resolved, that as soon as the committee has prepared such a plan in sufficient detail the committee shall submit it to the membership by mail and when a majority have approved it by mail, then the committee is hereby empowered to put said plan into operation to and introduce motions.

3. The National organization to be divided into five or more regional organizations, which organizations shall be made up of the regular directors and delegates to the national organization from chapters in that particular region. These directors and delegates to have the same rights and powers in the regional organization as in the National Association.

4. Each Regional Organization to be presided over by a Regional Director, who shall be elected from and by the directors from that particular region present at the Annual Meeting of the National Association each year.

5. The Executive Committee of the National Association shall have charge of the affairs of the National Association in the same manner and to the same extent as does the present board of directors, and shall consist of the Regional Directors plus the President-elect and the Past President of the National Association.

We endorse the nationwide celebration to be conducted during the remainder of this year and the first part of 1938, as a tribute to these two great Americans.

E. Whereas, considerable progress has been made during the last few years by the radio engineering profession, and a great deal of data has been obtained concerning the laws governing radio propagation, interference, receiver selectivity, and the operating characteristics and efficiency of radiators, and

Whereas, the Federal Communications Commission through its engineering department has demonstrated its progressiveness and aided the broadcast industry greatly by its actions in holding hearings, and otherwise, in accumulating advanced engineering information and correlating the same, and

Whereas, the National Association of Broadcasters approves this report because it is based on sound and basic engineering principles, and

Whereas, there is a definite need in the broadcast industry for such improvements as will be possible by the adoption of these principles in the Commission's regulations,

Now, be it therefore resolved by the National Association of Broadcasters:

The Federal Communications Commission is hereby petitioned by the National Association of Broadcasters to accept the report and to incorporate into its regulations the basic principles of said report.

(Referred to the Board of Directors with instructions that this resolution be given consideration before the Havana Conference.)

F. Whereas, the present broadcast frequency band, 550-1500 kilocycles, is now occupied by an almost maximum number of stations, and

Whereas, there is at present no satisfactory allocation agreement between the United States and other North American countries, and

Whereas, in the present situation interference exists on some broadcast channels,

Now, therefore, be it resolved by the National Association of Broadcasters:

That the Federal Communications Commission be requested to use caution in granting applications or in making changes in allocations in the frequency band 1510-1600 kilocycles, or in other new bands that may be used for broadcasting, in order to prevent action which would interfere with a satisfactory solution of the problem of North American allocation pending the Pan American Conference called for November, 1937.
G. The Sales Managers Division of the Commercial Committee in meeting in Chicago, January 18 and 19, 1937, respectfully direct to the attention of the Commercial Section of the NAB that considerable confusion exists in the broadcasting industry with respect to whether announcements or spots should be combined with program units of time of five minutes or longer in the matter of figuring discounts.

It is our recommendation that announcements or spots of less than five minutes’ duration should not be combined with units of five minutes or longer in the matter of figuring discounts.

We propose that announcements or spots of less than five minutes’ duration should be combined in figuring discounts and that units of time of five minutes or longer should be combined in figuring discounts.

H. The Sales Managers Division of the Commercial Committee of NAB registered its approval of the purpose of the resolution passed by the NAB in convention at Cincinnati in 1934, which proposed a standardized sale of units of time for sale and quantity discounts.

Since that time considerable progress has been made by the broadcasting industry and there is now a definite attitude on the part of the broadcasters, as well as an expressed desire by many advertising agencies, to standardize even more definitely the matter of units for sale and quantity discounts.

Therefore, the Sales Managers Division in meeting in Chicago, January 18 and 19, 1937, respectfully submits to the Commercial Section of NAB for early consideration the following units of time for sale and quantity discounts:

- Units of time for sale
  - 1 hr.
  - ½ hr.
  - ¼ hr.
  - 5 min.

- Quantity discounts
  - 13 times—5%
  - 26 times—10%
  - 52 times—15%
  - 100 times—20%
  - 300 times—25%

Regarding announcements, we believe that further consideration should be given toward standardization. We further believe that all rate cards should be printed to show the actual rate or cost after application of the above quantity discounts.

RECENT DEVELOPMENTS ON COPYRIGHT LEGISLATION

Since the May 20 issue of the NAB Reports listing developments on state copyright legislation the Tennessee music copyright bill became law upon its approval by the Governor May 21, and the states of Florida, Michigan and Wisconsin have enacted laws affecting music copyright pools. These states, together with Montana, Washington, and Nebraska, make a total of seven states which have enacted music copyright legislation during the present year. The Florida bill, which is similar to the Nebraska law, was approved by the Governor, June 9. The Michigan bill, patterned after the Montana law, has passed the House and Senate and is awaiting approval by the Governor. In Wisconsin the Governor, on June 16, signed a bill imposing a 25% gross receipts tax on music brokers and requiring all investigators of public renditions of music to register with the Secretary of State and pay a $20.00 license fee. A joint resolution of the Wisconsin State Senate and House memorializing the Federal Congress to enact legislation prohibiting racketeering on copyrighted music received the Governor’s approval June 2.

Only five state legislatures, namely Illinois, Michigan, New Hampshire, New Jersey and Wisconsin, are still in regular session, and the Minnesota and Ohio legislatures are presently convened for special sessions.

In Washington, D. C., due to extended hearings on patent bills, the Senate Patents Committee does not expect to reach the copyright bills of Senators Duffy, Sheppard and Guffey before the latter part of July.

MORE POWER RECOMMENDED FOR WABY

Broadcasting station WABY, Albany, N. Y., operating on 1370 kilocycles, unlimited time, applied to the Federal Communications Commission to increase its power from 100 watts to 100 watts night and 250 watts day.

Examiner Robert L. Irwin in Report No. I-446 recommended that the application be granted. He found that “there is a need for the additional daytime service proposed to be rendered in the area by the applicant.” The Examiner found also that the granting of the application would not cause any interference with other stations and it would be in the public interest.

RECOMMENDS NEW STATION

The Schuykill Broadcasting Company and the Pottsville News and Radio Corporation both applied to the Federal Communications Commission for a construction permit for a new station at Pottsville, Pa. Both applied for 580 kilocycles, 250 watts power and daytime operation. The question was whether a station should be erected at Pottsville and if so to whom the permit should be granted.

Examiner Melvin H. Dalberg in Report No. I-442 recommended that the application be granted to the Schuykill Company and therefore that the other application be denied. The Examiner found that there is a need for additional service at Pottsville. He says: “It is believed, however, that the applicant Schuykill Broadcasting Company is, on the whole, better qualified to hold this construction permit than the applicant
Pottsville News and Radio Corporation in view of the fact that the individuals constituting this proposed per-
mittee are more closely allied with and are more familiar
with the broadcasting needs of the people in the area
sought to be served. It is also felt that by comparison this
applicant is better qualified financially to continue the
operation of the station over a substantial period of time,
should the same not result in an economic success in the
early period of its operation."

DISMISSAL WITH PREJUDICE
RECOMMENDED

Phillip Jackson applied to the Federal Communications
Commission for a construction permit for the erection of a
new station at Brunswick, Ga., to use 1420 kilocycles, 100
watts, daytime operation.

Examiner John P. Bramhall in Report No. I-445 recom-
mended that the application be dismissed with prejudice.
When the hearing was called no one appeared represent-
ing the applicant.

RECOMMENDS NEW STATION DENIAL

William M. Ottaway applied to the Federal Communi-
cations Commission for a construction permit for a new
station at Port Huron, Mich., to use 1370 kilocycles, 250
watts and daytime operation.

Examiner John P. Bramhall in Report No. I-444 recom-
mended that the application be denied. It is stated
that the Port Huron Broadcasting Company has an appli-
cation pending before the Commission for a construction
permit requesting the same facilities as requested in this
application. The Port Huron Company's application has
been heard and the Examiner submitted a report recom-
mending that it be granted.

NEW WASHINGTON STATION
RECOMMENDED

The Twin City Broadcasting Corporation applied to
the Federal Communications Commission for a construc-
tion permit for the erection of a new broadcast station
at Longview, Wash., to use 780 kilocycles, 250 watts and
daytime operation.

Examiner R. H. Hyde in Report No. I-443 recom-
mended that the application be granted "subject to the
condition that the site for construction of the trans-
mitter be approved by the Commission before construc-
tion is begun." The Examiner states that "while the
evidence discloses that there is program reception service
available in the applicant's area from stations located in
other cities, there appears to be a need for reception and
transmission service adapted to the requirements of local
interests."

RECOMMENDS NEW STATION

W. E. Whitmore applied to the Federal Communications
Commission for a construction permit for the erection of a
new station at Hobbs, N. M., to use 1500 kilocycles, 100
watts and daytime operation.

Examiner Melvin H. Dalberg in Report No. I-449 recom-
mended that the application be granted. He found
that there is need for the local service proposed to be
rendered by the new station and the operation of the
station would not cause any objectionable interference
with any existing stations and that the proposed station
would serve public interest.

DISMISSAL RECOMMENDED

C. S. Gooch operating as the Amarillo Broadcasting
Company applied to the Federal Communications Com-
mision for a construction permit for a new station at
Amarillo, Texas, to use 1500 kilocycles, 100 watts, un-
limited time on the air.

Examiner Melvin H. Dalberg in Report No. I-447 recom-
mended that the application be dismissed without prej-
dice. When the hearing was called counsel for the
applicant appeared requesting that he be allowed to with-
draw the application without prejudice.

RECOMMENDS APPLICATION DISMISSAL

John D. Fields, Inc., applied to the Federal Communi-
cations Commission for a construction permit for the
erection of a new broadcasting station at Las Vegas,
Nevada, to use 1370 kilocycles, 100 watts and daytime
operation.

Examiner P. W. Seward in Report No. I-450 recom-
mended that the application be dismissed with prejudice.
Following the hearing the applicant filed a motion asking
for a dismissal of his application.

NEW STATION RECOMMENDED

The Columbia Radio Company, Inc., applied to the
Federal Communications Commission for a construc-
tion permit for a new station at Columbia, S. C., to use 1200
kilocycles, 100 watts, unlimited time. Also the Carolina
Advertising Corporation applied for a construction permit
at the same place to use 1370 kilocycles, 100 watts and
250 watts LS, and unlimited time on the air.

Examiner George H. Hill in Report No. I-448 recom-
mended that the application of the Advertising Company
be granted and that of Columbia Radio be denied. There
is a definite need for additional radio service at Colum-
bia, the Examiner found. Granting of the application of
the Columbia Radio Company, said the Examiner, would
result in objectionable interference while no substantial
interference would result from the granting of the ad-
vertising company's application.
RECOMMENDS DENYING KROY CHANGES

Broadcasting station KROY, Sacramento, Cal., applied to the Federal Communications Commission to change its frequency from 1210 to 1340 kilocycles, to increase its power from 100 watts to 250 watts and 1,000 watts LS, and to increase its time from daytime operation to unlimited time on the air.

Examiner Tyler Berry in Report No. I-451 recommended that the application for changes be denied. In suggesting the denial of the application the Examiner stated that:

"The operation of the station on the proposed assignment would provide an increased useful service for daytime operation and furnish a new and useful service at night, to the area to be served; however, such operation would cause objectionable interference to and a curtailment of the service of an existing station in an area now free of interference and which area does not enjoy equal radio broadcasting facilities with the area proposed to be served; and the increased service proposed would not exceed in importance to the Sacramento area the value of the service curtailed to the Butte area, and the applicant presents no special circumstances which would require that his application be granted to the detriment of an existing station. A grant would, therefore, result in an unfair distribution of radio facilities as contemplated by the Communications Act of 1934."

WSMB POWER INCREASE RECOMMENDED

Broadcasting station WSMB, New Orleans, La., operating on 1320 kilocycles, unlimited time, applied to the Federal Communications Commission to increase its power from 1,000 watts to 1,000 watts night and 5,000 watts LS.

Examiner P. W. Seward in Report No. I-455 recommended that the power increase be granted "subject to the final approval by the Engineering Department of the Commission of the proposed transmitter site." The Examiner found that a need exists for additional daytime radio service in the area proposed to be served.

RECOMMENDS TIME CHANGES FOR KFUO

Broadcasting station KSD, St. Louis, Mo., operating 1,000 watts and 5,000 watts LS sharing time with KFUO applied to the Federal Communications Commission for unlimited time on the air. Also KFUO, Clayton, Mo., operating on 550 kilocycles, now sharing time with KSD, applied for a license renewal and one half time.

Examiner P. W. Seward, in Report No. I-452, made the following recommendations:

"1. That the application of Station KSD for unlimited time operation on the frequency of 550 kilocycles be denied; "2. That the application of Station KSD for renewal of license be granted, subject to the hours hereinafter designated for the use of Station KFUO; "3. That the application of Station KFUO for one-half time operation on the frequency 550 kilocycles be granted; and "4. That the application of Station KFUO for renewal of license be granted authorizing the use of the following hours: Monday to Saturday, inclusive, 7:00 a.m. to 10:30 a.m.; 12:30 p.m. to 2:00 p.m.; 3:00 p.m. to 5:45 p.m.; and 8:00 p.m. to 9:00 p.m. Sunday, 8:30 a.m. to 12:30 p.m.; 3:00 p.m. to 5:00 p.m.; and 8:00 p.m. to 9:30 p.m."

DENIAL RECOMMENDED FOR OWNERSHIP CHANGE

Broadcasting station KOOS, Marshfield, Ore., owned by the Pacific Radio Corporation, applied to the Federal Communications Commission for a voluntary assignment of its license to KOOS, Inc. The station operates on 1,200 kilocycles, 250 watts, daytime.

Examiner P. W. Seward, in Report No. I-453, recommended that the application be denied. He states that the granting of the application "would be in violation of Sections 301 and 310 of the Communications Act of 1934" and it would not be in the public interest.

DENIAL RECOMMENDED FOR NEW STATION

T. E. Kirksey applied to the Federal Communications Commission for a construction permit for the erection of a new station at Waco, Texas, to use 930 kilocycles, 250 watts and 500 watts, LS, unlimited time.

Examiner Tyler Berry, in Report No. I-454, recommended that the application be denied. He states that "there is no satisfactory evidence in the record which would indicate that the applicant has any well defined plans for the construction and operation of the proposed station or that he may reasonably expect any local commercial support for the station." Also the Examiner states that the operation of the proposed new station would cause objectionable interference.

ADDRESS OF JUDGE EUGENE O. SYKES, CHAIRMAN BROADCAST DIVISION OF THE FEDERAL COMMUNICATIONS COMMISSION, BEFORE THE FIFTEENTH NAB CONVENTION

Mr. President, Members of the Association, Ladies and Gentlemen:

I deem it an honor and a privilege to address you upon this occasion. I congratulate and rejoice with you upon the successful work your Association has done during the
past year. I also am happy over the prosperous year you have enjoyed as broadcasters.

I wish to talk to you this morning about the duty and responsibility of the broadcaster. In legislating upon this subject, our Government, contrary to that of most of the countries of the world, decided to license persons to render this service rather than for governmental ownership and operation.

The entire theory of the Radio Act and its successor, the Communications Act, is that broadcasting licensees are made trustees of the Federal Government to render a public service to the communities their stations serve; that this license is a privilege granted by the Government for just such time as this service is rendered and in no way constitutes a vested right to the use of a frequency. For instance, quoting a part of Section 301 of the Act:

"It is the purpose of the Act * * * to maintain the control of the United States over all the channels of interstate and foreign radio transmission; and to provide for the use of such channels, but not the ownership thereof, by persons for limited periods of time, under licenses granted by Federal authority, and no such license shall be construed to create any right, beyond the terms, conditions, and periods of the license."

And in this connection may I also call to your attention Section 304 of this Act which reads as follows:

"No station license shall be granted by the Commission until the applicant therefor shall have signed a waiver of any claim to the use of any particular frequency or of the ether as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise."

Section 307(a) provides that:

"The Commission, if public convenience, interest or necessity will be served thereby, subject to the limitations of this Act, shall grant to any applicant therefor a station license provided for by this Act."

Section 309 is an important section and I quote it in full:

"If upon examination of any application for a station license or for the renewal or modification of a station license the Commission shall determine that public interest, convenience, or necessity would be served by the granting thereof, it shall authorize the issuance, renewal, or modification thereof in accordance with said finding. In the event the Commission upon examination of any such application does not reach such decision with respect thereto, it shall notify the applicant thereof, shall fix and give notice of a time and place for hearing thereon, and shall afford such applicant an opportunity to be heard under such rules and regulations as it may prescribe."

"(b) Such station licenses as the Commission may grant shall be in such general form as it may prescribe, but each license shall contain, in addition to other provisions, a statement of the following conditions to which such license shall be subject."

"(1) The station license shall not vest in the licensee any right to operate the station or any right in the use of the frequencies designated in the license beyond the term thereof or in any other manner than authorized therein.

"(2) Neither the license nor the right granted thereunder shall be assigned or otherwise transferred in violation of this Act.

"(3) Every license issued under this Act shall be subject in terms to the right of use or control conferred by section 606 hereof."

Section 606 of the Act, referred to in the last paragraph, is the War Emergency section providing for the taking over of these facilities by the President if he deems wise during the period of war.

The criterion set up in this law for the issuance and for renewal of licenses, is "if public convenience, interest or necessity will be served thereby," or as stated in another section of the Act if "the Commission shall determine that public interest, convenience or necessity would be served by the granting thereof." In the one phrase, the word "convenience" is placed first, while in the other the word "interest." However, they mean the same thing.

While another section of the Act expressly states that a broadcasting station is not a common carrier yet, by the terms of the Act above quoted, and by its very nature, it is a business clothed with a public interest.

The Commission, having determined that you are a proper party to serve the public of your community and having granted you this gracious privilege in the form of a license, this duty then devolves upon you to render the best public service to your community that you can. You assume, by the acceptance of this license, a great responsibility of public service. How then is the best way in which you can fulfill this duty and responsibility? You are thereby accorded a wonderful opportunity to service which necessarily carries with it a grave responsibility. You are invited to enter the homes and firesides of your listening public for practically sixteen hours a day. These programs reach the men, women and children of the entire nation. They reach those who are now steering the destinies of our communities, state and nation, and those who are being trained to assume these reigns of government when the present actors pass from the stage. These thoughts should ever be present with you and your programs should be so built that our younger generations who have the privilege of listening to the radio should be improved and be better equipped for their responsibility to be so soon assumed by them.

While under our plan of broadcasting the stations must be self-supporting by their sale of time, yet you must bear in mind that this is but an incident and that your main object and purpose is one of public service. In fact, the better service you render the more popular becomes your station and the larger becomes your listening audience, hence the easier for you to obtain the necessary advertisement.

You are still a young industry and Federal regulation thereof is still young, yet within this period of a little over ten years we have seen a wonderful growth in the industry and have had wonderful improvements not only from a technical nature but also in the programs and the character of public service being rendered. Yet, like all young industries, there is room for greater improvement not only in our regulation of this art and industry but in the nature and character of the programs of the stations. The best answer to make to those who are not satisfied with our American system of broadcasting is to render such a wonderful public service that these critics may, in the course of time, be silenced. The needs of our various communities differ. Therefore, what will be a public
service in one community might not be in another. You should carefully familiarize yourself with your communities and see what local service you may render them and since your programs are going into these homes you must consider good taste. Certainly when broadcasting a dinner program it should not be interspersed with advertising announcements which would tend to destroy the appetites of this audience. You must be just and fair to everyone in your community and your editorial policy should be one to bring about closer cooperation and not to stir up strife therein. You should build up and not tear down.

I now desire to congratulate you upon the great and unique public service you rendered during the flood on the Ohio and Mississippi Rivers last February. The broadcast stations were a source of inestimable assistance in preventing loss of life and property and by keeping the public posted on the exact stage of the flood. Broadcast stations offer a very excellent means of acquainting the public almost instantly with any message the relief authorities may desire to disseminate. Many stations coordinated emergency units, procured supplies, directed relief activities, and raised many thousands of dollars through appeals to the public for the Red Cross. While broadcast stations were not alone in rendering this valuable service, they did their share and must be complimented highly for the efficient manner in which this service was rendered. Our engineers are now studying plans for the better cooperation of all radio facilities and relief organizations in times of emergencies. I feel sure we can always count on the broadcasters cooperating fully and to do their share. Service of this character is indeed public service of the highest order and which service I am sure was appreciated by our entire citizens.

Another public service in which progress is being made is that of the Committee on Federal Radio Education headed by Dr. J. W. Studebaker, Commissioner of Education, and composed of an equal number of broadcasters and educators. I shall not go into the details of the work of this committee and its numerous sub-committees, as I imagine Mr. Baldwin, your very able Managing-Director will make some report of it to you at some of your meetings. I understand, however, that two of the large foundations are very much interested and are willing to materially help in financing the work of this committee. I believe a successful conclusion of the labors of this committee will be of the greatest benefits to both radio and education.

At this point I should like to briefly refer to some of the matters in which we are all interested which have developed since your last meeting a year ago.

Last October we had the informal engineering hearing in which the industry cooperated very fully with the Commission and gave us a complete picture of the engineering, social, and economic phases of broadcasting. The testimony taken at this hearing covered some 1741 pages and in addition there were numerous exhibits. The presentations were indeed interesting although some of the more technical phases will have to be analyzed by our engineers. I wish to take this opportunity to extend further our appreciation to the industry for its splendid cooperation in giving the Commission such a comprehensive picture which will enable it to determine if any changes in the existing policies or rules of the Commission should be made in order that broadcast stations may improve their service to the listening public.

Our engineers have made a preliminary report on the hearing to which we are giving careful consideration. There are certain other data we have asked the engineers to supply before we make any changes in the existing policies. The general feeling is that our engineers have done an excellent job on reporting the testimony of this hearing and their conclusions appear to be very favorably received in the industry. I can assure you also that we are not contemplating any drastic reallocation of broadcast facilities, but we will make whatever changes in policies and regulations that are deemed advisable step by step so that all interested parties may be given full opportunity to be heard on any changes that may adversely affect their interests.

Last September 15th, the Broadcast Division promulgated regulations governing all classes of broadcast stations except the regular stations with which we are all familiar. It may surprise you to learn that of the 1108 broadcast stations licensed by the Broadcast Division, 408 are other than regular broadcast stations. Of this number, by far the greatest number are relay stations used in transmitting programs from points where wire facilities are not available. On June 15th, the Broadcast Division repealed the rule requiring 2-day notice for the operation of relay stations. This requirement had been imposed so that the Commission could authorize operation that would not cause interference on the then very limited number of frequencies, but now more frequencies are available and this provision is not considered necessary. It is believed that the repeal of this rule will be to the advantage of broadcasters in building special-event programs.

Two other classes of stations governed by these regulations are television and facsimile stations. The new regulations made available three frequencies exclusively for facsimile stations and carry a provision that such stations may be licensed on any of the several experimental frequencies. The new rules also provide that facsimile broadcasting can be carried on after midnight on regular broadcast stations, under the condition that a program of development of facsimile broadcasting is presented to warrant such operation. The Broadcast Division is very interested to know whether the general public
wants a facsimile broadcast service and if such a service can be supplied at this time.

International broadcast stations, of which there are only a few—12 in number—occupy a unique position in the broadcast structure in that the signals from these stations are transmitted throughout the world. By selecting proper frequencies and employing directional antennas, it is possible to render service in practically any foreign country. While the government has authorized the operation of this class of stations since 1925, in the last several years there has not been a general expansion either in technical advancements or international program service by the licensees of these stations. In the past two years other countries of the world have developed this service which has resulted in stations in European countries rendering better service in South America countries than is received from the United States stations.

The Commission recently authorized the Engineering Department to investigate the international station problem with the view of making a report to the Commission on means of improving our stations so that their service will compare favorably with that of other countries of the world. We shall be pleased to have the report from our engineers and I feel sure that the broadcasters will accept their responsibility in rendering an international service comparable with the national service now rendered by regular broadcast stations.

Next November there is to be held at Havana, Cuba, an Inter-American radio conference for the purpose of discussing allocation of radio facilities between countries of North and South America. We have several very important problems as respects allocation of regular broadcast stations as well as international stations. Between the North American countries, as you know, we have a very unsatisfactory arrangement at this time resulting in mutual interference, as well as unsatisfactory exchange of program service. It is expected at this conference that these pressing problems will be discussed at length looking to an agreeable solution. The frequency assignment of international stations will also be a problem because certain countries have crowded so many stations rendering a national service on frequencies available that the international service is being materially impaired. It is hoped that an arrangement can be made for a better allocation of these frequencies to provide for an exchange of programs to promote better understanding among the republics of the American Continents.

At the international Conference at Cairo, Egypt, which is to be held next February, will be taken up the matter of international broadcast stations since their service and interference is world-wide in range. We have always taken the attitude that these frequencies offer an opportunity to contribute materially to the development of closer acquaintance among the countries of the world, and they should be used exclusively to render an international service.

In conclusion, Mr. President, may I say that your Association deserves our congratulation upon the efficient and splendid way it has met and cared for problems that confront it and its members and I wish for you and it a continuation of this splendid work.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

No. 3158. Trading as Rightway Institute, Joseph Rosenfeld, 313 South Hill St., Los Angeles, is charged in a complaint with using certain unfair methods of competition in the sale of books and pamphlets, which he allegedly advertises as describing an effective and competent method of curing or relieving indigestion, heart-burn, excess gas in the stomach, and other intestinal and stomach conditions.

According to the complaint, the method the respondent recommends consists principally of a series of body movements, which allegedly will not have any effect in overcoming the factors causing gas either in the stomach or in the intestines. Use of such method, it is alleged, will not afford permanent aid and is not in all cases a reliable procedure for the relief of the ailments and conditions mentioned in the respondent’s health literature.

No. 3159-3160. Two New York department store companies have been served with complaints charging false and misleading representations in the sale of certain merchandise. The respondent companies allegedly used advertising designs containing the word “silk” as descriptive of products not made of silk.

The respondent companies are Abraham & Straus, Inc., Fulton and Hoyt Sts., Brooklyn, and Oppenheim, Collins & Co., Inc., 33 West 34th St., New York.

The Brooklyn store is said to have advertised certain pillows as silk or as heavy silk, and certain items of wearing apparel for women as “Seraceta Tafteta,” “Pure Dye, Pure Silk Prints,” “Imported Silks,” “Washable Crepes,” “Mufler Silks” and “Silk Jerseys.” The pillows and apparel so advertised were not composed of silk, but of other materials, according to the complaint.

Oppenheim, Collins & Co., Inc., allegedly advertised evening wraps as “Silk Crepe,” and other wearing apparel for women as “Made of Quality Silks,” “Tafteta,” “Crepe,” “Luxurious Silks” and “Dark Satins Sprinkled with White Dots.” The complaint charges that these products were not composed of silk, but of other materials.

No. 3161. Alleging monopolistic practices in the golf ball industry through a uniform price fixing policy on the part of leading manufacturers in concert with large and influential retailers, a complaint has been issued against the Golf Ball Manufacturers’ Association, the Professional Golfers’ Association of America, their officers, and various members of each group.

Violation of both the Federal Trade Commission and Robinson-Patman acts is alleged.

Principal members of the manufacturers’ association named respondents are A. G. Spalding & Bros., New York; John Wanamaker, Inc., Philadelphia; L. A. Young Golf Co., Detroit; Worthington Ball Co., Elyria, Ohio; Wilson Sporting Goods Co., Chicago; U. S. Rubber Products Co. and Dunlop Tire & Rubber Co., both of New York, and Acushnet Process Corporation, New Bedford, Mass. These manufacturers are said to own and control practically all factories producing golf balls in the United States.

No. 3162. Alleging use of certain unfair methods of competition, a complaint has been issued against National Silver Co., 61 West 23rd St., New York, engaged in the sale of silver-plated ware under brand names such as “King Edward”, “Devotion”, “Condor” and “Martha Washington”. Samuel E. Bernstein and Philip J.
Bernstein, president and vice-president, respectively, of the company, also are named respondents.

By means of price lists, newspaper and magazine advertisements and radio broadcasts, the respondents allegedly announce retail prices which are greatly in excess of the normal or reasonable retail prices or values of their products, and are in excess of the prices at which such products are regularly and actually sold at retail.

Prior to or concurrently with the publication of these advertisements showing high and fictitious retail values, the respondents, the company, or persons conducting the business of retail dealers in the sale of their wares to the public at prices greatly reduced from those advertised. Typical of the representations allegedly made by the respondents to retail dealers was the assertion that “Millions who have seen ‘King Edward’ nationally advertised at $5 will come in throngs to buy at 35 cents."

**Stipulations and Orders**

The Commission has issued the following cease and desist orders and stipulations:

No. 01732. Frank Cremona, trading as Valley Soap & Chemical Co., Turtle Creek, Pa., agreed to stop representing that Valox Bleacher cleans and disinfects in the same operation, is effective as a treatment for achy feet and is ‘‘giving Killer Disease’’.

No. 01781. J. W. Eiss, 509 Fifth Ave., New York, selling “Crucifix Wondrous Luck Ring”, agrees to stop asserting that this article is a jewel or set with a jewel, and to cease representing, by inference or otherwise, that the ring will bring to the wearer good luck or happiness.

No. 01792. Eugene and Max Sonkin, Chicago, engaged in the sale of Formula 120 and Formula 120 Special Tablets, will cease advertising that these preparations are safe or harmless, that they are an effective remedy or competent treatment for weakness, debility and nervousness, and will help restore the normal functions of the nerves, blood or various glands.

No. 01783. James C. Bailey, trading as James C. Bailey & Co., 806 Blue Island Ave., Chicago, stipulated that in advertising Herb-Lax Tea he will stop representing it as a competent remedy in the treatment of stomach, bladder, liver and kidney troubles, sick headache and constipation, and that it reaches the very root of practically all human ailments.

No. 01784. Isabelle Rothsheld, operating as The Belle Co., Santa Monica, Calif., stipulates that no longer will she advertise that motion picture actresses use her Bella Foundation Cream, the respondent admitting in her stipulation that this article is not used by such actresses to any appreciable extent.

Other representations to be discontinued are that the product’s regular retail price is greater than that at which it is actually sold or that the current price is a special offer for a short time only. The respondent agrees not to represent to prospective salesmen that there is a possibility of earning amounts in excess of those actually earned by her regular salespersons under normal conditions.

No. 01785. Tom Boom, 3923 West 6th St., Los Angeles, trading as National Press Syndicate, in the sale of his “press clipping and picture manual,” agrees to stop advertising that purchasers of the clipping and picture manual, is the “Open Sesame” for gaining admission to places otherwise closed to the general public.

No. 01787. Bradley's Laboratory, Inc., Mataoka, W. Va., in the sale of Hy-Phen Tablets, will cease representing that they relieve all types of pain and headache, are safe in all instances, and constitute a competent treatment for colds. The respondent also agrees to desist from the use of the word “Laboratory” in its trade name and the word “Manufacturers” on its letterheads, or from otherwise representing that it owns or operates a laboratory or manufactures Hy-Phen Tablets.

No. 0197. Trossell Laboratories, 87 Pine St., Maplewood, N. J., in selling Trossell shampoo, agrees to stop using on labels, cartons or in advertising matter, representations that the product contains no soap, when in fact it does have ingredients which, in combination, are recognized to be soap; that shampoos which contain alcohol are drying to the hair, scalp and hair roots, when, according to the stipulation, such shampoos, necessarily being diluted with sufficient water, do not have any drying effect that the respondent's preparation is a blend of oils or contains oil, when this is not true, and that use of the product as a hair shampoo will promote the growth of hair, when such is not a fact.

Nos. 1999-2000-2002. Under stipulations entered into, an individual, a partnership and a corporation selling their products in interstate commerce will discontinue certain unfair representations in such sale.

The respondents are Louis J. Orlando, trading as American Bank Equipment Co., 5757 Vine St., Philadelphia; Ezra, David and Menno Neuhauser, trading as Neuhauser Chick Hatcheries and Equipment Co., 721 Neuhauser St., Philadelphia, and Buschs Kredit Jewelers, 55 West 14th St., New York City.

The respondent engaged in repairing check cancelling machines, and in their sale, agrees to cease selling his products as new, without disclosing the fact that they are second-hand, repaired or reconditioned machines. He also stipulates that he will desist from using any device such as a “connection” and that a “press card” issued to purchasers of the clipping and picture manual, is the “Open Sesame” for gaining admission to places otherwise closed to the general public.

No. 2091. A. Jonaire, Inc., 145 South St., Boston, agrees to discontinue use in its advertising matter of the phrase “Blended in the making” and as such product, one cannot distinguish what ingredients are “mixed” or “submerged” with other ingredients, implying that its perfumes are compounded in France and imported as finished products into the United States, when such is not a fact.

The respondent corporation also agrees to desist from representing that it is the American representative or distributor of a perfumer in France, when it is not in fact, and from using on its stationery or in any other way the purported address “338 Rue St. Honoré, Paris,” when in fact the company has no such Paris ad-
dress. The word “Importers” will no longer be used on the corporation's stationery or otherwise, according to the stipulation.

Nos. 1998-2003-2006-2007. Three companies in New York City and one in St. Louis have entered into stipulations to stop certain false and misleading representations concerning the composition of wearing apparel which they sell in interstate commerce.

The New York companies signing the stipulations are Van Raalte Co., Inc., 295 Fifth Ave., manufacturer of women’s wearing apparel; and two department stores, Best & Co., Inc., 5th Ave. at 35th St., and Franklin Simon & Co., 5th Ave. at 38th St.

These three companies agree to cease using one or more of such words as “crepe,” “silk” or “satin,” either alone or in connection with any other words, so as to imply that the wearing apparel so designated is composed of silk, when such is not a fact.

According to the stipulations, Van Raalte Co., Inc., labeled certain garments for women as “satin riche;” Best & Co., Inc., represented garments as being made of, compounded with the name of the simulated fur, as, for example, “Seal-dyed Muskmol”; or “Seal-dyed Rabbit.”

No. 2003. American Memorial Co., 2135 Piedmont Road, Atlanta, has entered into a stipulation to discontinue certain representations in the sale of marble monuments.

The respondent company agrees to cease representing in its advertising that its monuments are everlasting, or of the highest or finest quality; that they are the world’s best genuine marble, or that, because such marble is allegedly pure, hard and solid, it will never fade, crack or disintegrate, when such are not the facts.

Nos. 2008-2014, Inc. Seven companies manufacturing automobiles have entered into stipulations to cease using certain false and misleading representations in connection with the sale of passenger cars to the purchasing public.

The stipulations were signed by Hudson Motor Car Co., Graham-Palge Motors Corporation, The Studebaker Corporation and the Studebaker Sales Corporation of America, Chrysler Corporation, Nash-Kelvinator Corporation, Packard Motor Car Co., and Auburn Automobile Co. The Chrysler stipulation was also signed by its subsidiaries, Chrysler Sales Corporation and DeSoto, Dodge Brothers and Plymouth corporations.

Certain advertisements of the companies, according to the stipulations, contained the picture of a car equipped with accessories, and featured in large, conspicuous type a purported selling price which actually was less than the price of the car complete with accessories as pictorially represented. Elsewhere in the advertisements, and appearing in much smaller type, were such words as “and up,” “all prices list at factory,” “f.a.b. Detroit,” and “equipment extra.”

According to the stipulations, the companies stated that they have already discontinued the use of such advertising.

Nos. 2440-2520. Orders closing its cases against Apex Distilling Co., Inc., East St. Louis, Ill., and California Vineyards Co., Chicago, have been entered by the Federal Trade Commission.

The stipulations against the Apex company charged that, in using the unfair use of the word “Distilling” in its corporate name, was closed for the reason that the record in the case contains no evidence that the company engaged in interstate commerce in connection with the sale of alcoholic beverages.

In the hearing proceeding, the subject matter of the complaint against California Vineyards Co. was found to be covered by Federal Alcohol Administration regulations relating to labeling and advertising of wine. The respondent company was charged with advertising artificially carbonated fermented apple juice as champagne, and with representing that it owned and operated a vineyard, which were not the facts.

No. 2411. James Clark Distilling Corporation and D. and B. Products Corporation, 26 Exchange Place, Jersey City, N. J., have been ordered to cease and desist from representing that they are distillers of alcoholic beverages, when such is not a fact. Both companies are affiliates of Distillers and Brewers Corporation of America, a holding company. The Clark company sells its products through the agency of the D. and B. company.

The respondent companies are ordered to discontinue representing, through use of the word “Distilling” in the corporate name of the Clark company, on labels, or otherwise, that the Clark company distills whiskies, gins or other spirituous beverages, that it manufactures such products through the process of distillation, or that it owns or operates a distillery, until it does own or operate such a place.

Nos. 3108-3109. Orders have been entered directing Unique Novelty Co., Inc., a dealer in candy and chewing gum, and Whithrop Novelty Co., Inc., a candy dealer, both of 35-37 Claver Place, Brooklyn, to cease and desist from selling to dealers candy or chewing gum so packed and assembled that sales to the general public may be made by means of a lottery.

The Unique company also is ordered to discontinue furnishing dealers with display cards, either separately or with assortments of candy or chewing gum, bearing legends informing purchasers that such products are being sold to the public by lot or chance.

FTC DISMISSES CASE

No. 2792. The Federal Trade Commission has dismissed a complaint charging Dr. Robert G. Jackson, of Buffalo, N. Y., trading under the name Jackson Publishing Co., with unfair competition in the sale of a book allegedly used in promoting the sale of health foods. Dismissal was ordered after the Commission had heard argument by counsel for the Commission and the respondent.

FEDERAL COMMUNICATIONS COMMISSION ACTION

Hearing Calendar

The following broadcast hearings are scheduled at the Commission for the week beginning, Monday, July 5:

Tuesday, July 6

HEARING BEFORE AN EXAMINER

(Broadcast)

NEW—Arthur Lucas, Savannah, Ga.—C. P., 1310 kc., 100 watts, unlimited time.
WBNS—WBNS, Inc., Columbus, Ohio.—C. P., 1430 kc., 1 WW, 5 kW LS, unlimited time. Present assignment: 1430 kc., 500 watts, 1 WW LS, unlimited time.

Wednesday, July 7

HEARING BEFORE AN EXAMINER

(Broadcast)

NEW—E. B. McChristy, Brownwood, Tex.—C. P., 630 kc., 250 watts, daytime.
NEW—Galesburg Broadcasting Co., Galesburg, Ill.—C. P., 1500 kc., 250 watts, daytime.

Thursday, July 8

HEARING BEFORE AN EXAMINER

(Broadcast)

WBAX—John H. Stenger, Jr., Wilkes-Barre, Pa.—Modification of license, 1210 kc., 100 watts, unlimited time. Present assignment: 1210 kc., 100 watts, specified hours.
WKOK—Sunbury Broadcasting Corp., Sunbury, Pa.—Modification of license, 1210 kc., 100 watts, unlimited time. Present assignment: 1210 kc., 100 watts, specified hours.

Friday, July 9

HEARING BEFORE AN EXAMINER

(Broadcast)

NEW—Great Lakes Broadcasting Corp., Cleveland, Ohio (Brooklin Twp.)—C. P., 1270 kc., 1 WW, 5 kW LS, unlimited time.
NEW—Athens Times, Inc., Athens, Ga.—C. P., 1310 kc., 100 watts, 250 watts LS, unlimited.
The Commission, sitting en banc, Commissioner Stewart dissenting on June 29, entered its final order as indicated herein in the following cases:

Docket No. 1780—United States Broadcasting Corporation, Brooklyn, New York. WARD, 1400 kc., 500 watts, sharing time with WVFW, WLTH, and WBBC. Construction permit to move transmitter. Application denied.

Docket No. 1882—Brooklyn Broadcasting Corporation, Brooklyn, New York. WBBB, 1400 kc., 500 watts, sharing time with WARD, WLTH, and WVFW. Modification of license (requests facilities of WARD and WLTH). Application for modification of license granted in part, in so far as it requests facilities of WARD and WLTH, and denied in so far as it requests facilities of station WVFW.

Docket No. 2343—Debs Memorial Radio Fund, Inc., New York City, WEVD, 1300 kc., 1 kw, sharing time with WBBR, WFAB, and WHAZ. Modification of license (requests facilities of WBBC, WLTH, WARD, and WVFW). Application denied.

The order as herein entered shall be effective at 3:00 a. m., Eastern Standard Time, September 15, 1937.

The Commission will issue and publish at a subsequent date an opinion setting forth a statement of the facts appearing of record and the grounds for the decision herein reached.

BY ORDER OF THE COMMISSION:

The licensee herein shall file specifications of the antenna and ground system within two months after the effective date of this order, and after approval of such data, an additional two months will be allowed within which to complete installation.

If, for any reason, such information cannot be submitted within the time allowed, an informal request for extension of time must be submitted stating the necessity therefor.

APPLICATIONS GRANTED

KOCY—KOCY, Capital Broadcasting Assn., Kilgore, Tex. Granted C. P. for changes in equipment and increase in power day power from 100 to 250 watts.

WJRD—James R. Doss, Jr., Tuscaloosa, Ala. Granted C. P. to install new equipment and increase day power to 250 watts.

KOVC—KOVC, Inc., Valley City, N. Dak. Granted C. P. for changes in equipment and increase in power for daytime use from 100 to 250 watts.

KOB—Albuquerque Broadcasting Co., Albuquerque, N. Mex. Granted license to cover C. P. as modified: 1180 kc., 10 KW night and day, simultaneous day KEX, share night KEX. Also granted authority to determine operating power by direct measurement of antenna input.

WJNO—Hazelwood, Inc., West Palm Beach, Fla. Granted license to cover C. P., 1200 kc., 100 watts night, 250 watts day, unlimited time.

WHIP—Hammond-Calumet Broadcasting Corp., Hammond, Ind. Granted modification of C. P. for approval of transmitter at 137th and Pochman Ave.; authority to install new equipment, and make changes in directional antenna system.

WCC—Mississippi Broadcasting Co., Inc., Meridian, Miss. Granted modification of C. P. to move station locally, install new antenna system and increase nighttime power to 1 KW.

WDAF—Kansas City Star Co., Kansas City, Mo. Granted modification of C. P. extending completion date to 8-10-37.

KHO—Louis Wasmir, Inc., Spokane, Wash. Granted license to cover C. P. as modified; 590 kc., 1 KW night, 5 KW day, unlimited time, as modified, 250 watts. Planned changes in antenna system.

KEHE—Hearst Radio, Inc., Los Angeles, Calif. Granted license to cover C. P. for auxiliary transmitter, 780 kc., 1 KW, for emergency purposes only.

WBAA—Voice of Radio Co., Inc., El Paso, Tex. Granted modification of license to move transmitter to location of KTSF's transmitter at Mills and Ogden Sts., El Paso; increase day power to 250 watts and use KTSF's transmitter.

KJBS—Julius Burton & Sons Co., San Francisco. Granted authority to install new automatic frequency control equipment.

KCC—New Mexico Broadcasting Co., Albuquerque, N. Mex. Granted authority to install new automatic frequency control equipment.

WHDF—Upper Michigan Broadcasting Co., Calumet, Mich. Granted renewal of license for the period 7-1-37 to 1-1-38; 1370 kc., 100 watts night, 250 watts day, shares equally with KONO.

KGBK—Hillard Company, Inc., Scottsbluff, Neb. Granted 1 month's extension of present license, 1300 kc., 100 watts night, 250 watts day, unlimited time.

WGRC—Northside Broadcasting Corp., New Albany, Ind. Granted 2 months' extension of present license, 1370 kc., 250 watts, 6 a.m. to LS.

WWRD—WDDO, Inc., Augusta, Maine. Granted 2 months' extension of present license, 1370 kc., 100 watts night-day, unlimited time.

WKBV—Knox Radio Corp., Richmond, Ind. Granted renewal of license on a temporary basis and designated renewal application for hearing.

WMS—Military Shocks Broadcasting Corp., Sheffield, Ala. Granted renewal of license for the regular period, 1429 kc., 100 watts night-day, unlimited time.

WWSW—Walker & Downing Radio Corp., Pittsburg, Pa. Granted 1 month's extension of present license, 1500 kc., 100 watts night, 250 watts day, unlimited time.

KHUD—Anna Atkinson, executrix of the last will of F. W. Atkinson, deceased, Watsonville, Calif. Granted involuntary assignment of license of KHUD to Anna Atkinson, executrix.

KFJM—University of North Dakota, Grand Forks, N. Dak. Granted authority to install new automatic frequency control equipment.

KGWW—Leonard E. Wilson, La Junta, Colo. Granted 2 months' extension of present license.

* Subject to compliance with Rule 131.
NEW—City Broadcasting Corp., Mobile, New Haven, Conn.—

WAHB—The Journal Company (The Milwaukee Journal), Mobile,
WAAG—Julio M. Conesa, Mobile, Ponce, P. R.—Granted license
 Granted license to
W8XNC—Allen T. Simmons, Mobile (Akron, Ohio.).—Granted C. P. for
new experimental relay station, frequencies 31100, 34600, 37600 and 40600 kc., 2 watts.
NEW—City Broadcasting Corp., Mobile, New Haven, Conn.—
Granted C. P. for new experimental relay station, frequen¬
cies 31100, 34600, 37600 and 40600 kc., 10 watts.
NEW—The Armoreite Publishing Co., Inc., Mobile, Armore,
Okla.—Granted C. P. for relay experimental station, frequen¬
cies 31100, 34600, 37600 and 40600 kc., 2 watts.
NEW—WCAU Broadcasting Co., Philadelphia, Pa.—Granted C. P. for
high frequency experimental station, frequencies 31600,
35600, 38600 and 41000 kc., 100 watts.
NEW—Allen T. Simmons, Tallmadge, Ohio.—Granted C. P. for
new high frequency experimental station, frequencies 31600,
35600, 38600 and 41000 kc., 100 watts.
W2XAF—General Electric Co., Schenectady, N. Y.—Granted C. P. to
make changes in equipment, increase power to 100 KW, install
directional array for beam transmissions to South America and Europe.
W8XNC—Allen T. Simmons, Mobile (Akron, Ohio.).—Granted
license to cover C. P. for relay broadcast station, frequen¬
cies 31100, 34600, 37600 and 40600 kc., 100 watts.
W9XSF—WAVE Inc., Mobile, Louisville, Ky.—Granted license to
cover C. P. for new relay broadcast station, frequen¬
cies 31100, 34600, 37600 and 40600 kc., 2 watts.
WAAG—Julio M. Conesa, Mobile, Ponce, P. R.—Granted license
to cover C. P., frequencies 1622, 2058, 2150 and 2790 kc.,
75 watts.
WAHB—The Journal Company (The Milwaukee Journal), Mobile,
Milwaukee, Wis.—Granted modification of C. P. and license
covering same, authorizing changes in equipment.
W8XXI—The Crosley Radio Corp., Mobile, Cincinnati, Ohio.—
Granted modification of C. P. extending completion date to
12-7-37.
KALO—Intermountain Broadcasting Corp., Mobile, Salt Lake City.
—Granted modification of C. P. extending completion date to
6-29-37.
W3XL—National Broadcasting Co., Inc., Bound Brook, N. J.—
Granted modification of license to add A1 and A2 emission,
and frequencies 31100, 31600, 34600, 35600, 37600, 38600,
40600, 41000, 86000-490000, 401000 kc. and above.
NEW—A. H. Belo Corp., Mobile (Dallas, Tex.)—Granted C. P. for
new relay station, frequencies 1622, 2058, 2150 and 2790 kc.,
75 watts.
NEW—Savannah Broadcasting Co., Mobile, Savannah, Ga.—
Granted C. P. for new relay station, frequencies 1622,
2058, 2150 and 2790 kc., 10 watts.
NEW—Intermountain Broadcasting Corp., Mobile, Salt Lake City.
—Granted C. P. for new experimental relay station, frequen¬
cies 33100, 34600, 37600 and 40600 kc., 40 watts.
NEW—Radio Station KFH Co., Mobile, Wichita, Kans.—Granted
C. P. for new experimental relay station, frequencies 38900,
39100, 39300 and 39500 kc., 2 watts.
W2XDG—National Broadcasting Co., Inc., New York City.—
Granted C. P. and license authorizing move of transmitter
locally to 30 Rockefeller Plaza; make changes in equipment
and decrease power to 150 watts.
WMFL—National Broadcasting Co., Inc., Bound Brook, N. J.—
Granted C. P. and license authorizing changes in equipment,
reduction of power to 500 watts, and addition of A1 and A2
emission.

SET FOR HEARING

NEW—WDSU, Inc., New Orleans, La.—C. P., already in hearing
docket, amended to request 1500 kc., 100 watts night, 250
watts day, unlimited time, exact transmitter and studio sites
and type of antenna to be determined with Commission’s approval.

NEW—N. B. Egeland, Roland, Iowa.—C. P. for new station
amended to read: 1500 kc., 100 watts night, 250 watts day,
specified hours: Daily except Sundays: 7:30 to 9:30 a. m.
11 a. m. to 2 p. m., 6 to 8 p. m.; Sundays, 11 a. m. to 12:30
p. m., 2 to 4 and 7 to 9 p. m.

NEW—Colonial Broadcasting Co., Morristown, N. J.—C. P. for
new station, 620 kc., 1 KW, unlimited time, using directional
antenna for day and night use.

NEW—Burlington Broadcasting Co., Burlington, Iowa.—C. P. for
new station, 1310 kc., 100 watts, unlimited time, the exact
transmitter and studio sites to be determined with Commis¬
sion's approval.

NEW—Sam Klaver and Nathan Belzer, d/b as The Great Western
Broadcasting Co., Omaha, Nebr.—C. P. amended 5-1-37
for change in name; 1420 kc., 100 watts, unlimited time, exact
transmitter site to be determined with Commission's approval.

NEW—Southern Minnesota Broadcasting Co., Rochester, Minn.—
C. P. for new station to operate on 950 kc., 1 KW night,
5 KW day, unlimited time, and install directional antenna
system for nighttime operation.

NEW—Evening News Press, Inc., Port Angeles, Wash.—C. P. for
new station to operate on 1400 kc., 250 watts, unlimited,
exact transmitter and studio sites and type of antenna to be
determined with Commission's approval.

NEW—Keystone Broadcasting Co., New Castle, Pa.—C. P. for
new station to operate on 1250 kc., 250 watts, daytime only,
exact transmitter and studio sites to be determined subject
to Commission approval.

1210 kc., 100 watts night, 250 watts day, unlimited time,
extact transmitter and studio sites to be determined with
Commission's approval.

NEW—Sherman V. Coultas, Milton Edge and Hobart Stephenson,
Jacksonville, Ill.—C. P. for new station, 1310 kc., 100 watts,
unlimited time, exact transmitter and studio sites and type of
antenna to be determined with Commission’s approval.

WHEF—Attalla Broadcasting Corp., Kosciusko, Miss.—C. P. to
move station to Jackson, Miss., transmitter at Terry Road,
and studio at corner Griffin and Lamar Sts.; install vertical
radiator; 1500 kc., 100 watts night, 250 watts day, unlimited
time.

KWOS—Tribune Printing Co., Jefferson City, Mo.—C. P. for
changes in equipment; increase power and time of operation
from 100 watts, daytime only, to 100 watts night, 250 watts
day, unlimited time; 1310 kc.
WDZ—WDZ Broadcasting Co., Tuscola, Ill.—C. P. to move station
to site to be determined in Du Quoin, Ill.
WXVZ—King-Trendle Broadcasting Corp., Detroit, Mich.—C. P.
to install new equipment, increase power to 5 KW; 1240 kc.,
unlimited time (to be heard before the Broadcast Division).

WGRC—Northside Broadcasting Corp., New Albany, Ind.—C. P. to
install directional antenna system for nighttime use;
change frequency from 1570 kc., 880 kc.; increase time of
operation from daytime to unlimited.

WAVS—C. G. Hill, Geo. D. Walker and Susan H. Walker, Winston-
Pike and Ironworks Pike, near Lexington; install new equip-
ment and directional antenna system for day and night op¬
eration; increase power to 5 KW (to be heard before the
Broadcast Division).

WKAR—Michigan State College, E. Lansing, Mich.—C. P. to move
transmitter site to College Farms (locally); install new equip-
ment and vertical radiator; increase day power to 5 KW.

WLAN—American Broadcasting Co. of Kentucky, Lexington, Ky.—
C. P. to move transmitter to intersection Russell Cave Pike
and Ironworks Pike, near Lexington; install new equip-
ment and directional antenna system for daytime operation;
increase power to 5 KW (to be heard before the
Broadcast Division).
ment and vertical radiator; change frequency from 1120 kc. to 610 kc.; increase power to 500 watts night, 1 KW day.

WRBL—WRBL Radio Station, Inc., Columbus, Ga.—Amended modification of C. P. (already in hearing docket) to request move of transmitter to site to be determined with Commission's approval (locally); install new equipment; change frequency to 1530 kc.; increase power to 1 KW, unlimited time.

KPOF—Pillar of Fire, near Denver, Colo.—Modification of license to increase power from 500 watts to 1 KW.

David G. Adams, d/b/a Adams Recording Studio, San Diego, Calif. Authority to supply electrical transmissions to Stations XEGB and XEMO, Tia Juana, Mexico, to be delivered by private carrier.

WFS—Westchester Broadcasting Corp., White Plains, N. Y.—Special experimental authority amended to request simultaneous operation day-WBBR and share WGNY and WGBB, share evenings with WBBR, WGNY and WGBB for the period ending 12-1-37.

RENEWAL OF LICENSES

The following stations were granted renewal of licenses for the regular period:

The following stations were granted renewal of licenses for the period ending Dec. 1, 1937:

KPDD, Pampa, Tex.; WTJN, Jamestown, N. Y.; KPMC, Bakersfield, Cal.; KVSO, Ardmore, Okla.; WCPQ, Cincinnati, Ohio; WSAJ, Grove City, Pa.; WTAL, Tallahassee, Fla.; WDAB, El Paso, Tex.

KDAL—Red River Broadcasting Co., Inc, Duluth, Minn.—Granted renewal of license on a temporary basis subject to whatever action may be taken by the Commission upon the pending application for renewal.

WMBQ—Metropolitan Broadcasting Corp., Brooklyn, N. Y.—Granted renewal of license on a temporary basis subject to whatever action may be taken by the Commission upon the pending application for renewal.

The following stations were granted renewal of licenses on a temporary basis only, pending receipt and/or action on applications for renewal:

KGFI, Corpus Christi, Tex.; KMET, Palestine, Tex.; KRMC, Jamestown, N. D.; WJBK, Detroit; WMFY, Daytona Beach, Fla.; WPRP, Ponce, P. R.

KGBC—Alaska Radio & Service Co., Inc., Ketchikan, Alaska—Present license extended on a temporary basis for the period July 1 to August 1, 1937, pending receipt and/or action on renewal application.

WSXWJ—The Evening News Assn., Detroit, Mich.—Granted renewal of high frequency broadcast experimental station license, for the period ending April 1, 1938, on an experimental basis only, subject to change without prior notice or hearing.

SPECIAL AUTHORIZATIONS

WBZ—Westinghouse Electric and Manufacturing Co., Boston, Mass.—Granted special temporary authority to operate a 1000 KW transmitting station at Dedham, Mass. Balancing of cycles on 1020 kc., in vicinity of Millis, Mass., during daytime hours, for period July 1 to 31, 1937, in order to make tests for a possible new transmitter site.

KLPM—John B. Cooley, Minot, N. Dak.—Granted special temporary authority to operate from 3:20 to 5 p. m. EST, Sunday, July 4, 1937, pending filing of and action on license application to cover (c) for this station.

WHDF—Upper Michigan Broadcasting Co., Calumet, Mich.—Granted special temporary authority to operate from 9:45 to 10:20 a.m. July 1, 1937, and from 6, 8, 10, 12, and 13, in order to conduct cooking school of the air.

KQV—KQV Broadcasting Co., Pittsburgh, Pa.—Granted special temporary authority to operate simultaneously with WSMK from 10 p.m. to 12 midnight, EST, Wed, June 30, for the period July 1 to 31, in compliance with Rule 131 on modification of license.

WMBG—Havens & Martin Inc., Richmond, Va.—Granted extension of special temporary authority to operate from 5:30 to 7 p. m., EST, on Sundays, from July 1, to 31, Included, provided WBBL remains silent, in order to broadcast special program.

WFIL—WFIL Broadcasting Co., Philadelphia, Pa.—Granted extension of special temporary authority to operate on 560 kc. with 1 KW at night for the period July 1 to 31, inclusive, pending filing of and action on license application to cover (c) for this station.

WJEJ—Hagerstown Broadcasting Co., Hagerstown, Md.—Granted extension of special temporary authority to operate with power of 50 watts from local sunset (July, 7:45 p. m.) to 11 p.m., EST, Tuesdays, Thursdays, Saturdays and Sundays for period, July 1 to 31, in compliance with Rule 131 on modification of license.

KGDF—Powell and Platz, Coffeyville, Kans.—Granted special temporary authority to operate from 7:15 to 9:15 p. m., CST, July 1, 6, 13, 15, 20, 22, 27, 29, 1937, and from 8:15 to 9:15 p. m., CST, July 7, 14, 21, 28, 1937, in order that WEDD may remain silent during University summer vacation.

WNAD—Univ. of Okla., Norman, Okla.—To remain silent on above dates in order to observe summer vacation.

WBNY—Roy L. Alberson, Buffalo, N. Y.—Granted special temporary authority to operate from 8:30 to 9 a. m., EST, Morning News Roundup; 9 to 9:30 a. m., EST, Morning Musical; 9:30 to 9:45 a. m., EST, Band Music; 9:45 to 10 a. m., EST, Organ program; 2 to 2:15 p. m., EST, Transradio newscast; 2:15 to 3:30 p. m., EST, Organ recital; 3:30 to 4:30 p. m., EST, Five Famous Tunes; 2:45 to 3 p. m., EST, Symms of the Pioneers musical program, for period July 1 to 30, 1937, incl. (provided WSVS remains silent)

WMBQ—Joseph Husid, Receiver for Metropolitan Broadcasting Corp., Brooklyn, N. Y.— Granted extension of special temporary authority for Joseph Husid, Receiver, for Metropolitan Broadcasting Corp., to operate station for the period July 1 to 31, 1937, pending action on any applications affecting WMBQ.

WCAX—Burlington Daily News, Inc., Burlington, Vt.—Granted extension of special temporary authority to operate daily except Sunday, 2 to 4:30 p. m., EST, and daily except Friday, Saturday, Sunday, 7 to 9 p. m., EST, for the period July 1 to 31, 1937, in order to broadcast sponsored northern league baseball games.

WCBD—WCBD, Inc., Chicago, Ill.—Granted extension of special temporary authority to use the transmitter of station WMBI for the period July 2 to 31, pending repair to WCBD's transmitter which was destroyed by fire.

WMFR—Radio Station WMFR, Inc., High Point, N. C.—Granted special temporary authority to operate from 9:30 to 10 p. m., EST, Friday, July 2, in order to broadcast a program for the N. C. Dept. of Conservation and Development, featuring the Masters of Golf for the Professional Golfers Association.

WXAB—Alford J. Williams, c/o Gulf Oil Corp., Pittsburgh, Pa.—Granted extension of special temporary authority to operate RCA Type H aircraft transmitter, 5 watts, on board plane NC-1050 owned by A. J. Williams, and RCA Type AVT-3 transmitter, portable on ground, on frequencies 1646, 2090, 2150, 2830 kc., as relay broadcast stations for period July 3 to August 1, 1937, for testing and transmission of
program communication service between plane and portable transmitter on ground in connection with flight demonstrations and junior aviator activities at various locations over U. S.

WWJ—The Evening News Assn., Detroit, Mich.—Granted extension of special temporary authority to operate for the period beginning July 3 and ending August 1, 1937, with an increase in night power to 5 KW, to overcome interference.

KOAC—Oregon State College, Corvallis, Ore.—Granted special temporary authority to remain silent on July 5, in order to observe National Holiday and holiday in Oregon Inst. of Higher Education.

WKAR—Mich., State College, E., Lansing, Mich.—Granted extension of special temporary authority to operate from July 13 to August 1, 1937, over WKAR, provided station complies with requirements of Naval Observatory station, for serving National Holiday and holiday in Oregon Inst. of Higher Education.

KHUB—Mrs. Anna Atkinson, Executrix of estate of F. W. Atkinson, deceased, Watsonville, Calif.—Granted extension of special temporary authority to Mrs. Anna Atkinson, executrix of estate of F. W. Atkinson, deceased, to operate station KHUB for period July 5 to August 5, 1937, pending action on formal application for involuntary transfer of license.

WSAY—Brown Radio Service & Lab., Rochester, N. Y.—Granted special temporary authority to operate from local sunset (August sunset, 7:15 p. m.) to 7:30 p. m., EST, August 6, 13, 20, 27; and from local sunset (September, 6:15 p. m.) to 7:30 p. m., EST, September 3, 1937, in order to broadcast Anti-Communism talk.

WHIO—Miami Valley Broadcasting Corp., Dayton, Ohio.—Granted special temporary authority to operate with currents in the antenna towers different from those specified in license for period not to exceed 30 days, provided the unattenuated transmitter at one mile in the direction of KOIL shall not be in excess of 99 millivolts per mile.

WIBC—Seaboard Radio Broadcasting Corp., Glenside, Pa.—Granted special temporary authority to operate with currents in the antenna towers different from those specified in license for period not to exceed 30 days, in order to determine additional field strength measurements and transmitter locations. However, such operation not permitted during those hours prescribed for Commission monitoring schedule.

EFFECTIVE DATE EXTENDED

MISCELLANEOUS

WLRL—Radio Station WLRL, Stevens Point, Wis.—Granted 30-day authority to operate station at new location, pending filing and action on formal application for approval of new location.

WBRC—Birmingham Broadcasting Co., Inc., Birmingham, Ala.—The application for authority to operate on 930 kc., 1 KW, 5 KW LS, unlimited time, was granted without a hearing on February 16, 1937; the Commission reconsidered its action of February 16 and designated the application for hearing on protest of the Birmingham News Co. On June 24, the Birmingham News Co. filed a request to withdraw said protest, and the protest is accordingly dismissed.

KLZ—KLZ Broadcasting Co., Denver, Colo.—Granted petition to intervene upon the application of Eugene P. F’allon, Inc., station KFEL, Docket No. 4578, for a C. P. to use 892 kc., 1 KW, unlimited time. Dismissed opposition of the applicant.

NEW—Harry Schwartz, Tulsa, Okla.—Granted petition of Harry Schwartz to waive provisions of Rule 104.5 (b) and accept his appearance in Docket No. 4586, application for new station at Tulsa, on 1310 kc., 250 watts, daytime.

NEW—Wm. E. Walker and Merrill F. Chapin, d/b as Walker & Chapin, Oshkosh, Wis.—Granted petition of Walker & Chapin to accept their appearance in Docket No. 4588, application for new station at Oshkosh, on 1210 kc., 250 watts, unlimited time.

NEW—John Stewart Bryan, Petersburg, Va.—Granted petition for continuance of the consolidated hearing upon the applications of Havens & Martin, Inc. (Docket No. 4562), Petersburg Newspaper Corp. (Docket No. 4487), and John Stewart Bryan (Docket No. 4560), for construction permit to erect new broadcast station in Petersburg to operate on 1210 kc., 100 watts night, 250 watts LS. Hearing now, scheduled for July 12, 1937, to be postponed until Fall.

KLS—Warner Brothers, Oakland, Calif.—Granted petition to intervene and hearing on application of Richard Field Lewis for a new station at Oakland, Calif., using 1160 kc., 1 KW, daytime (Docket No. 4584).

KJBS—Julius Brunton & Sons Co., San Francisco, Calif.— Granted petition to intervene at hearing of application of Richard Field Lewis for new station at Oakland, Calif., using 1160 kc., 1 KW, daytime (Docket No. 4584).

KRE—Central California Broadcasters, Inc., Berkeley, Calif.—Granted petition to intervene at hearing of application of Richard Field Lewis for new station at Oakland, Calif., using 1160 kc., 1 KW, daytime (Docket No. 4584).

NEW—Genesse Radio Co., Inc.—Granted petition to accept the notice of appearance and statements of facts to be proved in connection with its application for a C. P. for new station on 1500 kc., 100 watts, 250 watts LS, specified hours (Docket No. 4587).

NEW—Capitol Broadcasting Co., Inc., Raleigh, N. C.—Granted petition for postponement of hearing on application of Radio Station WFNC (partnership of C. Frank Walker and Waldo W. Primm) for construction permit for new station in Fayetteville, N. C., to operate on 1210 kc., 250 watts, daytime (Docket No. 4583). Hearing now scheduled for July 17, 1937, to be postponed until the application upon the application of Radio Station WFNC and the Capitol Broadcasting Co., Inc. (Docket No. 4529).

WBR—Louis G. Baltimore, Wilkes-Barre, Pa.—Granted petition for continuance of hearing on application for modification of construction permit to increase daytime power from 100 watts to 250 watts, not to exceed 30 days, for July 15, 1937, to be continued for a reasonable time subsequent to completion of construction (Docket No. 4592).

NEW—L. L. Correll, Sr., et al., Lincoln, Nebr.—Denied petition for further hearing and intervention on application of Central States Broadcasting Co., Council Blufis, Iowa, for C. P. for new station on 1300 kc., 100 watts, unlimited time (Docket No. 4179). Petitioner has application before Commission for C. P. for new station at Lincoln, Nebr., to operate on 1450 kc., 250 watts day, 1 KW LS, unlimited time.

WFB—a—Baltimore Radio Show, Inc., Baltimore, Md.—Denied petition for partial or grant of application to authorize the use of 1100 kc., 5 KW LS, and for consideration of the application under Rule 104.7.

NEW—A. L. Chilton, Dallas, Tex.—Granted petition to intervene in the hearing of the application of Centennial Broadcasting Corp. for new station at Dallas, Tex., to use 1300 kc., 100 watts, daytime (Docket No. 4531).

National Broadcasting Co., Inc., New York, N. Y.—Denied petition praying that the Commission reconsider and grant application for authority to operate by remote control the experimental relay broadcast stations, W2XF, W2XX, and W8XB.

KROW—Educational Broadcasting Corp., Oakland, Calif.—Granted petition to intervene in the hearing on the application of Richard Field Lewis for new station at Oakland to use 1150 kc., 1 KW, daytime (Docket No. 4584).

NEW—Voice of Detroit, Inc., Detroit, Mich.—Granted motion for continuance of hearing on application for new station to operate on 1120 kc., 500 watts night, 1 KW LS, unlimited time (Docket No. 3998). Hearing now scheduled for September 9, 1937, postponed to new date subsequent to October 15, 1937, to be fixed at convenience of the Docket.

NEW—Saginaw Broadcasting Co., Saginaw, Mich.—Granted petition to intervene in the hearing of the application of Genesee Broadcasting Co. for new station at Flint, Mich., to operate on 1290 kc., 500 watts night, 250 watts day, specified hours (Docket No. 4587).

KTUL—Tulsa Broadcasting Co., Tulsa, Okla.—Granted petition to intervene in the hearing on the application of United Broadcasting Co., Tulsa, Okla., for new station on 1350 kc., 1 KW, unlimited time (Docket No. 4606).

WKBN—WKBN Broadcasting Co., Youngstown, Ohio.—Granted petition for continuance of hearing on application of WKBN for modification of construction permit to use 570 kc., 500 watts, unlimited time (Docket No. 4593). Hearing scheduled for July 15, 1937, postponed to new date to be fixed at convenience of the Docket.

KFRU—KFRU, Ft. Smith, Ark.—Granted petition to deny as in case of default application of T. B. McChrisry for new station at Brownwood, Tex., to use 630 kc., 250 watts, day-
time (Docket No. 4565). Denied petition of T. B. Mc
Christy to waive provisions of Rule 105.25 and accept his
appearance. Also his petition to withdraw his application
without prejudice.
WDGY—Dr. Geo. W. Young, Minneapolis, Minn.—Granted peti
tion for authority to make this announcement: “This is Sta
tion WDGY with studios in Minneapolis and St. Paul.”

KJBS—Julius Brunton & Sons Co., San Francisco, Calif.—Denied
petition for reconsideration and grant of application for modific
ation of C. P. to use 1370 kc., 100 watts, 250 watts LS, and
change in time of operation from limited to specified hours.

KOBI—Black Hills Broadcasting Co., Rapid City, S. D.—Denied
petition asking Commission to reconsider and grant without
hearing application for assignment of license of KOBI (B4-
62).

WCOC—Mississippi Broadcasting Co., Inc., Meridian, Miss.—
Granted request to extend the working of Rule 132 for
sixty days from June 5, 1937. Also granted authority to
move station locally and install new antenna. Designated
for hearing application for increase in night power.

WNRI—S. George Webb, Newport, R. I.—Denied motion to re
open the record in Dockets Nos. 3857, 3836 and 3971, for
purpose of taking additional testimony. Docket No. 3857
is application of S. George Webb for modification of C. P.
to extend completion of construction for new station at
Newport, R. I., on 1200 kc., 100 watts night, 250 watts LS,
unlimited time. (Docket No. 3971), The Hartford Times,
Inc., for modification of C. P. to change hours of operation
of WTHT, Hartford, Conn., from daytime to unlimited,
and (Docket No. 3836), E. Anthony & Sons, Inc., for C. P.
to use 1260 kc., 250 watts night, 500 watts day, 1 KW
LS, heard by an Examiner November 10, 1936, and the
application granted April 2, 1937, is retired to
June 15, 1937. Applicant has requested relinquishment of this
authority, and the application granted April 2, is retired to
June 15, 1937.

NEW—United Theaters, Inc., San Juan, P. R.—Granted peti
tion for oral argument upon its exceptions to Examiners Report No. 1-407, concerning the application of Juan Piza,
San Juan, P. R., for C. P. for new station on 1500 kc., 100
watts night, 250 watts LS, unlimited time, (Docket No. 4309). Accepted brief submitted by United Theaters, Inc., in
support of its exceptions to Examiner’s Report.

KHSJ—Golden Empire Broadcasting Co., Chico, Calif.—Inasmuch as
as Rule 132 has not been served, the Commissioner di
rected that a modification of license be issued to change frequency and time to 1260 kc., unlimited time, using 250
watts power.

KVI—Puget Sound Broadcasting Co., Tacoma, Wash.—Retired to
closed files application for C. P. covering authority to
use Old Western Elec. transmitter as auxiliary, moving same to
Tacoma and using 1 KW power, which was granted April 2,
1937. Applicant has requested relinquishment of this au
thority, and the application granted April 2, is retired to
closed files.

NEW—State Capital Broadcasting Assn., Austin, Texas.—Denied
petition to rehear and consolidate in final hearing the appli
cation of State Capital Broadcasting Assn., to establish a
station to operate on 1150 kc., 500 watts night, 1 KW
LS, heard by an Examiner November 10, 1936, and the
application of Baton Rouge Broadcasting Co., Inc., Ex.

NEW—Isadore Goldwasser, Anniston, Ala.—Denied petition re
questing Commission to grant a rehearing on his application
for C. P. to erect a new station to operate on 1120 kc.,
100 watts, daytime. This application was denied by the
Commission on April 2, 1937.

EXAMINERS’ REPORTS RELEASED SINCE
JUNE 15, 1937

aminer Robert L. Irwin recommended grant of C. P.
for a new station to operate on 1260 kc., 250 watts day,
unlimited time.

NEW—Ex. Rep. 1-439: Chase S. Osborn, Jr., Fresno, Calif.—Ex
aminer John P. Bramhall recommended grant of C. P.
for new station to operate on 1140 kc., 500 watts, unlimited
power.

delphia, Pa.; and WRAX: WRAX Broadcasting Co., Phila
delphia, Pa.—Examiner Tyler Berry recommended that application for authority to transfer control of Wn. Penn
Broadcasting Co. and WRAX Broadcasting Co., from Clarence H. Taubel to John Iraci; that the application of WPEN for
modification of license to increase power from 250 watts night, 500 watts day, to 1 KW day
and night, employing directional antenna be granted; that the application of WPEN for modification of license to change time of operation from sharing with WRAX on 920 kc., 250 watts night, 500 watts day, to unlimited time on said frequency, and requesting facilities of WRAX, be granted; contingent upon the Commission granting application
for transfer of control of WPEN-WRAX from Clarence H. Taubel to John Iraci; that if these recommenda
tions be concurred in, that the application of WPEN to increase power to 1 KW, using directional antenna and sharing with WRAX, be granted; and that the application of WPEN for modification of license to increase power to 1 KW, employing directional antenna, sharing with WPEN, be granted.

Waterloo, Ia.—Examiner George H. Hill recommended de
nial of C. P. for new station to operate on 1370 kc., 100
watts, daytime.

NEW—Ex. Rep. 1-442: Schuykillkill Broadcasting Co., Pottsville,
Pa.; and NEW: Pottsville News and Radio Corporation,
Pottsville, Pa.— Examiner Melvin H. Dalberg recommended
grant of application of Schuykillkill Broadcasting Co. for C. P.
to operate on 580 kc., 250 watts, daytime hours, and denial
of application of Pottsville News & Radio Corp. for these
facilities.

NEW—Ex. Rep. 1-443—Twin City Broadcasting Corp., Longview,
Wash.—Examiner R. H. Hyde recommended denial of appli
cation for C. P. for new station to operate on 780 kc., 250 watts, daytime hours.

aminer John P. Bramhall recommended denial of application for C. P. for new station to operate on 1370 kc.,
250 watts, daytime.

NEW—Ex. Rep. 1-445: Phillip Jackson, Brunswick, Ga.—Ex
aminer J. P. Bramhall recommended dismissal with preju
dice, of application for C. P. for new station to operate on
1420 kc., 100 watts, daytime.

bany, N. Y.—Examiner Robert L. Irwin recommended grant
of C. P. to use 1200 kc., 100 watts, unlimited time;

NEW—Ex. Rep. 1-448: Columbia Radio Co., Inc., Columbia,
S. C.— Examiner Geo. H. Hill recommended denial of appli
cation for C. P. to use 1300 kc., 100 watts, unlimited time;
and

NEW—California Advertising Corp., Columbia, S. C.—Rec
ommended grant of application of California Advertising Corp., to use 1370 kc., 100 watts, 250 watts LS, unlimited time.

aminer M. H. Dalberg recommended grant of C. P. for
new station to operate on 1500 kc., 100 watts, daytime.

NEW—Ex. Rep. 1-451: Royal Miller, Sacramento, Cal.—Ex
aminer Tyler Berry recommended denial of application for modifi
cation of C. P. to change frequency from 1210 kc.
to 1010 kc.; powers from 100 watts to 250 watts night, 1
KW LS, and hours of operation from daytime to unlimited

—Examiner P. W. Seward recommended grant of renewal of license subject to specified hours, and denial of application
for renewal of license subject to specified hours.

KFW—Evangelical Lutheran Synod of Missouri, etc., Clayton, Mo.
—Examiner P. W. Seward recommended grant of renewal of license subject to specified hours.

RATIFICATIONS

WMO—WMO—WMO, Inc., Auburn, N. Y. Granted extension of pro
gram test period for 30 days from June 12.

WXES—Midland Broadcasting Co., Inc., Kansas City, Mo.—Granted authority to operate as licensed for period of 30
days beginning June 19 and ending no later than July 18,
to relay broadcast on Saturday mornings series of question and answer broadcasts.

WQPM—WDZ Broadcasting Co., Tuscola, Ill.—Granted authority to operate as licensed for 30 days beginning June 22, to relay various programs originating from Paterson Springs Park.

WINI—Johnson-Kennedy Radio Corp., Gary, Ind.—Granted special temporary authority to operate with two 350-foot towers spaced 5/8 of a wave for the period June 21 and ending no later than July 20, while the 250 ft. tower is taken down and moved to the proper location in the new three-element array as authorized by C. P.

KDB—Santa Barbara Broadcasters, Ltd., Santa Barbara, Calif.—Granted extension of special temporary authority to operate a 100 watt portable test transmitter between hours of 12 midnight and 6 a.m. PST, for period June 17 and ending no later than July 16, in order to make field intensity surveys test.

WHIO—Miami Valley Broadcasting Corp., Dayton, Ohio—Granted special temporary authority to operate from 12 midnight to 6 a.m. EST, for period not to exceed 30 days, in order to determine proper operating constants for the most efficient operation of directional antenna; provided unattended field intensity at one mile in the direction of KOIL shall not exceed 99 millivolts per meter.

KPCR—Houston Printing Corp., Houston, Tex.—Granted extension of special temporary authority to operate with power 5 KW night, for period June 23 to July 22, 1937.

WEST—Associated Broadcasters, Inc., Los Angeles, Calif.—Granted extension of special temporary authority to operate simultaneously with WKBO from 10 to 11 a.m. and from 5 to 6 p.m. EST, for the period beginning June 23 and ending no later than July 22, incl., due to the adoption of Daylight Saving Time in Easton.

W9XPN—WDZ Broadcasting Co., Tuscola, Ill.—Granted special temporary authority to operate relay broadcast transmitter of station W9XPW on the frequencies 31100, 34600, 37600 and 40600 kc., using 30 watts, for period of 30 days from June 22 and ending no later than July 21, 1937.

WJAR—The Outlet Company, Providence, R. I.—Granted special temporary authority to operate 100-watt site test transmitter from June 21 to July 20, 1937.

WHBF—Rock Island Broadcasting Co., Rock Island, Ill.—Granted extension of special temporary authority to operate a 50-watt site test transmitter in Pekin, Rock Island-Steuben area during daytime operating hours on frequency 1520 kc., and during experimental period at night on frequency 1210 kc., for period not to exceed 30 days.

WDAD—The Kansas City Star Co., Kansas City, Mo.—Granted special temporary authority to conduct equipment tests of a 100 watt exciter unit for period June 21 to July 20, 1937.

WKBB—Rock Island Broadcasting Co., Rock Island, Ill.—Granted special temporary authority to operate with power from 5 KW to 1 KW for period beginning June 21 and ending June 30, 1937.

KGFI—Eagle Broadcasting Co., Inc., Corpus Christi, Texas—Granted extension of special temporary authority to remain silent for the period June 26 to July 25, 1937, preparatory to removal to Brownsville as authorized in modification of C. P.

WQDM—Regan and Bostwick, St. Albans, W. Va.—Granted special temporary authority to rebroadcast over station W9XPN a conversation carried on between exp. stations W5XAR and W5XAS of Western Radio Telg. Co., for period not to exceed 1 hour between June 25 and June 30, flying weather permitting.

W9XAR— Western Radio Telg. Co., Sacramento, Calif.—Granted authority to broadcast over station W9XAS of the Western Radio Telg. Co., for a period of not more than 1 hour, between June 28 and July 3, 1937, flying weather permitting.

W9XAS—Western Radio Telg. Co., Sacramento, Calif.—Granted modification of C. P. for approval of transmitter site near Goleta, Calif., changes in authorized equipment and installation of directional antenna system for day and nighttime operation.

NEW—Donald B. MacMillan, Mobile—Granted C. P. for exp. broadcast station.

Grant petition of Doughty & Welch Electric Co., Inc. (WSAR), to intervene in the proceedings on the application for the renewal of the license to WQPM for a new station at Lima, Ohio, Docket 4575.

Grant petition of St. Petersburg Chamber of Commerce (WSUN) to intervene in the proceedings on the application of The Tribune Co. for C. P. for a new station at Tampa, Fla., Docket No. 3932, and dismissed the opposition of The Tribune Company to said petition.

Grant petition of the Monocacy Broadcasting Co., to accept petitioner’s appearance in the proceedings upon its application for C. P. for a new station at Rockville, Md., Docket 3193.

Grant request of the St. Petersburg Chamber of Commerce for the issuance of a subpoena directing W. W. McEachern of St. Petersburg, to appear at the further hearing upon the application of Earl Weir for C. P. for new station at St. Petersburg, Fla., Docket 3868, and approved the issuance of such subpoena.

The Broadcast Division, upon its own motion, extended the effective date of its decision on the application of Ventura County Star, Inc., et al., Docket 3469, from June 22 to June 29, 1937.

Grant petition of Wacoast Broadcasting Co. (KQPO), to waive Rule 106.22 and to grant an order to take depositions in support of its application for C. P., Docket 4576.

Grant petition of the Broadcast Service, Inc. (WCAY), to intervene in the proceedings upon the application of Leon M. Eisfeld for C. P., for new station at Burlington, Iowa, Docket 4502.

Grant petition of WKBG Broadcasting Corp., to intervene in the proceedings on the application of Wm. F. Maag, Jr., for C. P. for new station at Youngstown, Ohio, Docket 4561.

Grant petition of Red River Valley Broadcasting Corp. (KRRV), to intervene in the proceedings on the application of KCMA Broadcasting Co. (KCMO), Kansas City, Mo., for C. P., Docket 4485.

Grant petition of Red River Valley Broadcasting Corp. (KRRV), to intervene in the proceedings on the application of L. L. Coryell, et al., Lincoln, Nebr., for C. P., Docket 4509.

Grant petition of The Edison Electric Illuminating Co., of Boston, to intervene in the proceedings on the application of the Birmingham News Co., for C. P. for new station at Birmingham, Ala., Docket 3975.

Denied the petition of E. E. Krebsbach, to accept his appearance, statement and affidavit and that he be allowed to participate in the hearing upon the application of KCMA Broadcasting Co., for C. P., Docket 4485.

Grant petition of Leon M. Eisfeld requesting continuance of hearing on his application for C. P. for a new station at Burlington, Iowa, Docket 4502, and directed that the new hearing date be fixed at the convenience of the docket.

Grant petition of Harry Schwartz for orders to take depositions at Tulsa, Sapulpa, and Sand Springs, Okla., in support of his application for a new station at Tulsa, Okla., Docket 4586.

Grant request of Utica WUTK, Inc., for continuance of hearing date upon its application for C. P. for a new station at Utica, N. Y., Docket 4566, and directed that a new hearing date be fixed at the convenience of the docket.

Grant petition of Central Radio Broadcasting Corp., to intervene in the proceedings on the application of Great Lakes Broadcasting Corp. for construction permits for new station at Cleveland, Docket 4591.

Grant motion of Herbert Lee Bliey requesting that hearing date on his application for C. P. for new station at Lima, Ohio, Docket 4575, be postponed, and directed that the new date for hearing be fixed at the convenience of the docket.

Grant motion of Jules J. Rubens requesting that date for hearing on his application for C. P. at Aurora, Ill., Docket 4579, be continued, and directed that the new date for hearing be fixed at convenience of the docket.

Grant petition of R. B. Broyles Furniture Co. (WSGN), Birmingham, Ala., to intervene in the proceedings on the application of the Birmingham News Co. for C. P. for a new station at Birmingham, Ala., Docket 3975.

Grant petition of Earl Weir, St. Petersburg, Fla., requesting that hearing upon his application for C. P. for a new station at St. Petersburg, Docket 3868, be continued, and directed that the
new hearing date be fixed at a date in September, 1937, at the convenience of the dockets.

Granted motion of the Centennial Broadcasting Corp., requesting that the hearing on its application for C. P. for a new station at Dallas, Texas, Docket 4551 be continued from July 2 to 15, 1937.

Granted petition of Southern Broadcasting Corp., Bogolusa, La., to intervene, in the proceedings on the application of WSBM, Inc., New Orleans, La., for C. P., Docket 4530.

Granted the petition of the Tribune Building Co. (KXL), to intervene in the proceedings on the application of Richard Field Lewis for C. P. for a new station at Talihina, Okla., Docket 4551.

Denied petition of WLAC, Nashville, and the Yankee Network, Inc. (WNAC and WABA), Boston, Mass., requesting that oral argument on the application of The Northern Corp. (WMEX) for C. P., Docket 4171, now scheduled for July 1, be postponed until such time as oral argument is had on the application of the Mass. Broadcasting Corp. (WOC) for C. P., Docket 3332. The Broadcast Division dismissed the opposition of the Mass. Broadcasting Corp. to said petition.

Denied petition of L. L. Coryell and Son in so far as it requests the reinstatement of the applications of L. L. Coryell and Son, Docket 4509, and Cornbelt Broadcasting Corp., Docket 4604, upon the hearing calendar for June 28, and dismissed the petition in so far as it requests that the hearing date on the application of KCMB Broadcasting Corp., Docket 4455, be continued.

 Denied the petition of KCMB Broadcasting Co. in so far as it requests the reinstatement of the applications of L. L. Coryell and Son, Docket 4509, and Cornbelt Broadcasting Corp., Docket 4604, upon the hearing calendar for June 28, the 1937, and dismissed the petition in so far as it opposes a continuance of the hearing date on its application, Docket 4455.

Dismissed application of KIJU, Garden City Broadcasting Co., Garden City, Kans., for Voluntary Assignment of License to KIJU, Inc., and directed that an order be entered accordingly and forwarded to all interested parties.

Denied the motion of Power City Broadcasting Corporation to postpone the effective date of the order of the Broadcast Division entered on February 9, 1937, denying the application of Power City Broadcasting Corp., for C. P. to erect a new station at Niagara Falls, N. Y. Docket 3839.

APPLICATIONS RECEIVED

First Zone

WORL—Broadcasting Service Organization, Inc., Boston, Mass.—920 License to cover construction permit (B1-P-1751) for changes in equipment.

WQDM—E. J. Regan and F. Arthur Bostwick, d/b as Regan & 1390 Bostwick, St. Albans, Vt.—Modification of license to change hours of operation from specified hours to daytime to local sunset at Cleveland, Ohio. Amended to request daytime only hours of operation.

WXQ—Broadcasting Service Organization, Inc., Boston, Mass.—License to cover construction permit for high frequency relay broadcast station (B1-PRE-54).

Second Zone

WICA—C. A. Rowley, Ashtabula, Ohio.—Modification of construction permit (B2-P-756) for new station, requesting approval of vertical antenna, changes in transmitting equipment, and approval of transmitter site at 3 miles south of Ashtabula including a person road farm, Ashtabula, and studio at 221 Center Street, Ashtabula, Ohio.

WJAC—WJAC, Inc., Johnstown, Pa.—Authority to install auto- 1310 matic frequency control apparatus.

WBGB—Havens & Martin, Inc., Richmond, Va.—License to cover 1350 construction permit (B2-P-338) as modified for changes in frequency, power, time, install new transmitter, and directional antenna for day and night, and move of transmitter.

WQAR—The WQAR Broadcasting Co., Cleveland, Ohio.—Construction permit for installation of new transmitter and increase in power from 500 watts, 1 KW day, to 5 KW day and night. Amended to give transmitter site as 1.1 miles south of the city of Cleveland, Ariz.

WJFK—James F. Hopkins, Inc., Detroit, Mich.—Construction permit to change frequency from 1500 kc. to 1510 kc.; increase power from 100 watts night, 250 watts day, to 1 KW day and night; install new equipment; move transmitter from 12897 Woodward Avenue, Highland Park, Mich., to site for new antenna system in vicinity of 13100, 34600, 37600, 40900 kc., power 10 watts.

WIXQG—Reading Broadcasting Co., Reading, Pa.—License to cover construction permit (B2-MPRE-2) for high frequency relay broadcast station.

Third Zone

WGCM—WGCM, Inc., Mississippi City, Miss.—License to cover 1210 construction permit (B3-P-1445) for a new transmitter.

NEW—Ward Optical Co., Dr. T. B. Ward, Owner, Fayetteville, 1310 Ark.—Construction permit for a new station to be operated on 1310 kc., 100 watts, unlimited time. Amended to make changes in antenna.

KCMC—KCMC, Inc., Texarkana, Tex.—Authority to determine 1420 operating power by direct measurement of antenna.

NEW—W. C. Irvin, Amarillo, Tex.—Construction permit to erect 1500 a new broadcast station to be operated on 1500 kc., 100 watts night power and 250 watts day power, unlimited time.

WKAT—A Frank Katzenline, Miami Beach, Fla.—Modification of 1500 1190 kc. to 1500 kc.; increase in power from 100 watts to 250 watts, and in hours of operation from unlimited time to daytime.

KENL—G. L. Burns, Brady, Tex.—License to cover construction 1500 permit (B3-P-1551) to make changes in equipment and increase power.

NEW—Sam Houston Broadcasting Assn., H. G. Webster, President, 1500 Huntsville, Texas.—Construction permit for a new station on 1500 kc., 100 watts, daytime.

Fourth Zone

NEW—John P. Harris, Hutchinson, Kansas.—Construction permit 710 for a new station to be operated on 1200 kc., 100 watts night, 250 watts day, unlimited time. Amended to make changes in requested equipment; change frequency from 1200 kc. to 710 kc., power from 100 watts night, 250 watts day, to 1 KW, and hours of operation from unlimited time to daytime.

KGLO—Mason City Globe Gazette Co., Mason City, Iowa.— 1210 Modification of construction permit (B4-P-1599) for changes in equipment and increase in power, further requesting changes in equipment.

WGES—Oak Leaves Broadcasting Station, Inc., Chicago, Ill.— 1360 Modification of construction permit (B4-P-1199) to extend commencement date from June 10 to July 17.

NEW—Carl Latenser, Atchison, Kansas.—Construction permit for 1420 new station to be operated on 1420 kc., 100 watts power, daytime operation.

WIXQY—Rockford Broadcasters, Inc., Rockford, Ill.—Modification of construction permit (B4-PRE-77) for changes in equipment.

WAAR—Rockford Broadcasters, Inc., Rockford, Ill.—Modification of construction permit (B4-P-PRY-25) for changes in equipment, reduce power from 50 to 40 watts.

Fifth Zone

KSER—Radio Service Corp., Pocatello, Idaho.—Modification of 900 license to change power from 250 watts night, 1 KW day, to 500 watts night and 1 KW day.

KTKC—Tulare-Kings Counties Radio Associates, Chas. A. Whitmore, President, Visalia, Calif.—Modification of construction permit (B5-P-816) as modified for a new station, requesting changes in authorized equipment and antenna.

NEW—Sims Broadcasting Co., Bartley T. Sims, Manager, Globe, 1210 Ariz.—Construction permit to erect a new broadcast station to be operated on 1210 kc., 100 watts night and 250 watts day power, unlimited hours of operation. Amended to give transmitter site as 1.1 miles south of the city of Globe, Ariz.
KFOX—Nichols & Warinner, Inc., Long Beach, Calif.—Modification of construction permit (B5-P-650) for new equipment, increase in power, requesting changes in equipment, approval of antenna and approval of transmitter site at 5 1/2 miles northeast of Long Beach, Calif. Amended to make changes in requested equipment, change requested transmitter site from 5 1/2 miles northeast Long Beach, Calif., to South St. and Bellflower Blvd., near Long Beach, Calif., and change studio site from 220 E. Anaheim St., Long Beach, Calif., to Carson St. and Lakewood Blvd., near Long Beach, Calif.

KIT—Carl E. Haymond, Yakima, Wash.—Modification of construction permit (B5-P-1115) for a new transmitter and vertical antenna; change in frequency; increase in power; and move of transmitter, requesting approval of transmitter site at Yakima County, Washington. Amended to give transmitter site as intersection Washington Avenue and Northern Pacific Right of Way, 1 mile south of city limits, Yakima, Wash.

KGIR—KGIR, Inc., Butte, Mont.—Authority to determine operating power by direct measurement.

KOKO—The Southwest Broadcasting Co., La Junta, Colo.—License to cover construction permit (B5-P-1120) for a new station.

KFBK—McClatchy Broadcasting Co., Sacramento, Calif.—Construction permit to install a new transmitter and increase power from 5 KW to 10 KW.

NEW—The KLZ Broadcasting Company, Denver, Colo.—Construction permit for new high frequency broadcast station on 31600, 35600, 38600, 41000 kc., power 100 watts, unlimited time.
NAB PRESIDENT INVITES MEMBERS TO VISIT HIM AT HEADQUARTERS

John Elmer, new NAB President, as announced last week, will spend one day (Thursday) each week at NAB headquarters; and invites members to visit him there between the hours of 10 a.m. and 4 p.m.

FCC GRANTS ELEVEN NEW STATIONS

The Federal Communications Commission has granted construction permits for eleven new broadcasting stations as follows:

To the Community Broadcasting Company, Toledo, Ohio, new station to operate on 1200 kilocycles, 100 watts, daytime, effective August 3.

To the Telegraph Herald, Dubuque, Iowa, new station to operate on 1340 kilocycles, 500 watts, daytime, effective July 27.

To the Times Publishing Company, St. Cloud, Minn., new station to operate on 1420 kilocycles, 100 watts, unlimited time, effective August 3.

To George Harm, Fresno, Cal., new station to operate on 1310 kilocycles, 100 watts, unlimited time, effective August 10.

To Hildreth & Rogers Company, Lawrence, Mass., new station to operate on 680 kilocycles, 1000 watts, daytime, effective August 10.

To Harold Thomas, Pittsfield, Mass., new station to operate on 1310 kilocycles, 100 watts night, 250 watts day, unlimited time, effective July 20.

To the Central Broadcasting Corporation, Centralia, Wash., new station to operate on 1440 kilocycles, 500 watts, unlimited time, effective July 20.

To Frank M. Stearns, Salisbury, Md., new station to operate on 1200 kilocycles, 250 watts, daytime, effective July 27.

To the Sioux City Broadcasting Company, Sioux City, Ia., new station to operate on 1420 kilocycles, 100 watts night and 250 watts LS unlimited time, effective August 17.

To State Capitol Broadcasting Association, Austin, Texas, new station to operate on 1120 kilocycles, 1000 watts daytime, specified hours, effective August 17.

To the Red Lands Broadcasting Association, Lufkin, Texas, new station to operate on 1310 kilocycles, 100 watts, daytime, effective September 21.

ADDITIONAL TIME RECOMMENDED FOR WBLK

Broadcasting station WBLK, Clarksburg, W. Va., operating on 1370 kilocycles, with 100 watts power, daytime, applied to the Federal Communications Commission for unlimited time.

Examiner P. W. Seward in Report No. I-456 recommended that the additional time be granted. He found that the evidence showed a need for additional nighttime service in the area proposed to be served and that granting of the application would be in the public interest.

RECOMMENDS DENIAL TRANSFER OF LICENSE

Frank P. Doherty, of Radio Broadcasters, Inc., licensee of broadcasting station KRKD, Los Angeles, Cal., applied to the Federal Communications Commission to transfer the control of the corporation to J. F. Burke, Sr., and Loyal K. King. The station operates on 1120 kilocycles, 500 watts and 2,500 watts LS, sharing time with KFSG.

Examiner P. W. Seward in Report No. I-457 recommended that the application be denied. He found that "the granting of this application would be in violation of Sections 301 and 310 of the Communications Act of 1934, and would not be in the public interest."

WHITE INTRODUCES RADIO INVESTIGATION RESOLUTION

Senator White of Maine on Tuesday introduced a resolution (S. Res. 149) calling for an investigation of the broadcasting industry by the Senate Committee on Interstate Commerce. The resolution, which has been referred to the Senate Committee on Interstate Commerce, is as follows:

Whereas the Communications Act of 1934 declared it to be the purpose of Congress—

IN THIS ISSUE

| NAB President Invites Members to Visit Him at Headquarters | 2195 |
| FCC Grants Eleven New Stations | 2195 |
| Additional Time Recommended for WBLK | 2195 |
| Recommends Denial Transfer of License | 2195 |
| White Introduces Radio Investigation Resolution | 2195 |
| Court of Appeals Decides Radio Case | 2198 |
| Federal Trade Commission Action | 2203 |
| FTC Closes Cases | 2205 |
| Federal Communications Commission Action | 2205 |
(a) To maintain the control of the United States over all the channels of interstate and foreign radio transmission; to provide for the use of such channels, but not the ownership thereof, by persons for limited periods of time under licenses granted by Federal authority, and that no such licenses should be construed to create any right beyond the terms, conditions, and periods thereof;

(b) That no station license should be granted until the applicant therefor had signed a waiver of any claim to the use of any particular frequency or of the ether as against the regulatory power of the United States because of the previous use of such frequency;

(c) That there should be no transfer or assignment of a station license or the frequency authorized to be used without the consent in writing of the licensing authority, to the end that technical considerations, citizenship, character, the financial, and other qualifications of a transferee or assignee should be taken into account in determining whether a transferee or assignee possessed the statutory qualifications of a license holder and that his use of a frequency would be in the public interest;

(d) That the people of the different States and the communities thereof should have efficient and equitable radio service;

(e) That broadcasting licenses should not be for a longer term than 3 years, but with the right of the Commission to grant a renewal from time to time upon the same considerations which justified the original license;

(f) That the Commission should include in the license granted to a licensee engaged in foreign communication such of the terms, conditions, or restrictions which the President might impose with respect to cable licenses under the act relating to the landing and operating of submarine cables in the United States, approved May 27, 1921, as would make certain just and reasonable rates and service and that a licensee should not enjoy exclusive rights of operation;

(g) That all laws of the United States relating to unlawful restraints and monopolies and to combinations, contracts, and agreements in restraint of trade should be applicable to the manufacture and sale of and trade in radio apparatus and devices entering into or affecting interstate or foreign radio communication, and that should any licensee be guilty of any violation of such laws his license should be revoked;

(h) That a station license should be refused any person unlawfully monopolizing or attempting unlawfully to monopolize radio communication through control of the manufacture or sale of radio apparatus through exclusive traffic arrangements, or by any other means, or to any person having used unfair methods of competition;

(i) That there should be no combination between wire companies and radio companies if the purpose or effect thereof was to lessen competition in interstate or foreign communication; and

 Whereas it has been charged among other things and is believed by many persons that rights in frequencies beyond the terms of licenses are being asserted by the holders thereof and recognized by the Federal Communications Commission; that licenses, though in form limited in time as provided by law, and the frequencies therein granted, are being treated by the holders and the users thereof and by the Commission as though granted for much longer terms than designated in the licenses; that the licensing authority has in effect recognized vested property rights of great value in licenses and in frequencies contrary to the letter and spirit of the law; that by various devices and means control of licenses and of frequencies have passed to others than the original licensee without the written approval of the Commission or with Commission approval given in disregard of congressional purpose; that persons and companies have been engaged in the acquisition and sale of broadcasting stations, licenses, and frequencies; that the licensing authority has permitted concentration of stations in some parts of the country and has failed to give equitable radio service to the people of the several States and the communities thereof; that with the approval of the Commission there has come about a monopolistic concentration of ownership or control of stations in the chain companies of the United States that through exclusive traffic arrangements and otherwise monopolistic control of the facilities of foreign communication by radio is being accomplished, and that the acts and attitude of the Commission are aiding and encouraging such monopoly; that the Commission in its decision of causes disregards its own rules and standards; that in the determination of matters before it the Commission has been affected and controlled by political and other influences not contemplated by statute and not entitled to consideration by a regulatory and quasi-judicial body; and that it has failed to observe and effectuate the purposes of the Congress and the laws enacted by it in the foregoing and other respects: Therefore be it

Resolved, That the Committee on Interstate Commerce is authorized and directed to make a thorough and complete investigation of the broadcasting industry in the United States and of broadcasting, and of the acts, rules, regulations, and policies of the Federal Communications Commission with respect to broadcasting and to report to the Senate the results thereof.

In particular, but not to the exclusion of other matters, the said committee is authorized and directed to make and to report to the Senate the results of an investigation and study of—

(1) The cases, if any, in which the Commission has departed from or has modified the application of its regulations and the engineering and other standards generally observed by it, together with the reasons for each such departure or modification;
(2) All acts by the Commission which recognize or seem to recognize the right of a licensee to a license or a frequency other than as specified in the terms, conditions, and time of the license;

(3) Whether the acts and decisions of the Commission in broadcasting cases have been influenced by matters not apparent in the public records;

(4) The geographical distribution of broadcasting facilities and whether there is an equitable distribution of broadcast service to all parts of the country; and if not, what steps should be taken to provide fair and equitable service throughout the United States;

(5) The extent to which broadcast stations have been concentrated in the larger communities of the country by transfer of stations from smaller communities to such centers or otherwise;

(6) The extent to which and the circumstances under which the ownership, control, management, or interest in more than a single broadcast station has passed into the hands of any person or group of persons;

(7) The circumstances surrounding and the considerations for the voluntary transfer of station licenses or construction permits;

(8) Instances of the transfer of minority interests in broadcasting-station licensees, and all transactions directly or indirectly affecting the control of such licensees, and whether said transfers have or have not been submitted to the Commission for approval and have received Commission approval or acquiescence;

(9) The sale price of any broadcasting station in any manner sold and transferred, together with a statement of the fair value of the physical assets and of other property, rights, contracts, and licenses involved in said sales, and in particular the value placed by the parties to the transaction upon the frequency licensed to be used;

(10) The sale of stock or other securities of any broadcasting stations, of any licensees, or of any person or persons directly or indirectly controlling such licensees, and the valuation put by the person transferring the same upon the station license or the frequency, the power or the hours of operation fixed in the station license, and the circumstances surrounding and the consideration for such sales and transfers and as to the participation in the negotiations for such sales and transfers by any person other than the seller and purchaser, the transferor and the transferee;

(11) The licensing of broadcast stations to persons other than the owners of the physical equipment, and in particular all cases involving the leasing of transmitting equipment;

(12) The surrender of control of facilities by licensees including all agreements to accept proffered programs with or without supervision by the licensee;

(13) All acts or assertions by broadcast station licensees which involve the claim to any right or interest beyond the terms, conditions, and periods of the license;

(14) Whether considerations have been paid or promised to any licensee or permittee for not interposing objection to an application for all or a part of his facilities or for other facilities which could not be granted without disregard for the Commission’s rules or its standards except with the consent of such licensee or permittee;

(15) All cases in which persons whose applications for the renewal of a broadcasting license have been refused by the Commission, have received from persons licensed to use the facilities for which renewal of license has been refused, money or other consideration in excess of the value of the physical equipment taken off the air and sold to the new licensee;

(16) Cases in which the real parties in interest in any application for broadcast facilities have not been disclosed to the Commission;

(17) The extent to which holding or other intermediate companies or persons have been employed in the ownership or control of broadcast stations and the effect of such intermediate ownership or control upon the effective regulation of broadcasting;

(18) The investments by licensees in the stations authorized to be operated by them, including the investment in equipment and in other items of cost;

(19) The charges for the use of station facilities and the profit or loss resulting therefrom;

(20) The extent to which broadcast stations are used to build up other businesses or enterprises in which the station licensees or persons financially interested in the licensees are engaged; the extent to which the facilities of broadcast stations are refused or are granted conditionally to competitors of such other businesses or enterprises, and the effect of the ownership and use of such radio facilities upon the businesses of those in competition with the businesses of those having the radio facilities;

(21) The extent to which broadcast stations are owned or controlled by or are affiliated with newspapers or other media of information or entertainment, and the effect of such ownership, control, or affiliation upon competing newspapers not possessing such facilities and upon the public interest;

(22) The development and present facts concerning broadcasting networks or chains, including the effects of chain association upon the licensee's control over his station;

(23) The effect of chain operations upon the financial results and status of chain-affiliated stations and independent stations, the ability of the chain-owned or affiliated station to render a local service, both sustaining and commercial and the duplication of broadcast programs; and the desirability of special regulations governing chains and stations engaged in chain broadcasting;

(24) The extent to which licensees of broadcast sta-
tions censor or refuse programs offered to them for transmission and the reasons for and the effects of such censorship or refusal;

(25) The extent to which, the basis upon which, and the times at which broadcast stations carry programs relating to public affairs, education, religion, labor, agriculture, charity, and public service generally;

(26) The extent to which and basis upon which broadcast stations carry programs offered by or on behalf of candidates for public office or programs relating to controversial subjects in the field of National, State, or local politics; and

(27) The extent to which, the basis upon which, the manner in which, and the times at which broadcast stations are used for commercial programs, including programs advertising products claimed to have medicinal or therapeutic value and programs relating to products or services, the sale or use of which may be illegal in any State in which the programs of the station carrying such programs may be received, the time given by the several classes of stations to commercial advertising or sales talk in the programs broadcast, and whether there should be control or regulation of advertising by radio and the character and extent thereof;

Said committee is further authorized and directed to make and report to the Senate the facts with respect to:

(1) Competition between wire companies in communication between the United States and foreign countries, between radio companies in such foreign communication, and between wire and radio companies in this field of foreign communication.

(2) Instances in which the Commission has granted licenses for transmission in foreign communication or has refused or withheld action upon applications for licenses and frequencies in this field of communication, and whether such action by the Commission or its nonaction, has been with the purpose or has had the effect of aiding one company in this branch of communications or of destroying or lessening competition between American companies in foreign communication.

(3) The extent to which companies engaged in radio communication between the United States and any foreign country have entered into exclusive traffic arrangements or other agreements with the purpose or effect of securing a monopoly in such communication or of lessening competition therein and the effect of such arrangements or agreements upon competing American companies.

Said committee is further authorized and directed to make a study of the policies and principles which should be declared and made effective in legislation providing for the regulation and control of the radio industry, of broadcasting, and of interstate and foreign communication by radio.

For the purposes of this resolution the committee, or any duly authorized subcommittee thereof, is authorized to hold such hearings, to sit and act at such times and places, either in the District of Columbia or elsewhere, during the sessions, recesses, and adjourned periods of the Senate in the Seventy-fifth Congress, to employ such experts, and clerical, stenographic, and other assistants, to require by subpoena or otherwise the attendance of such witnesses and the production and impounding of such books, papers, and documents, to administer such oaths and to take such testimony and to make such expenditures as it deems advisable. The cost of stenographic services to report such hearings shall not be in excess of 25 cents per 100 words. The expenses of the committee, which shall not exceed , shall be paid from the contingent fund of the Senate upon vouchers approved by the chairman.

COURT OF APPEALS DECIDES RADIO CASE

The United States Court of Appeals for the District of Columbia handed down decisions in two radio cases. Mr. Justice Stephens dissented. The opinions are as follows:

UNITED STATES COURT OF APPEALS FOR THE DISTRICT OF COLUMBIA.

Nos. 6772 and 6773.

Appeal from the Federal Communications Commission.

Decided June 28, 1937.

Paul M. Segal and George S. Smith, both of Washington, D. C., for appellants.

Arthur W. Scharjeld and Philip G. Loucks, both of Washington, D. C., for intervener.

Hampson Gary, George B. Porter, Fanney Neyman, and F. W. Fletcher, all of Washington, D. C., for appellees.

Before Martin, Chief Justice, and Robb, Van Orsdel, Groner, and Stephens, Associate Justices.

MARTIN, Chief Justice: These appeals are brought under sections 402 (b) and (c) of the Communications Act of 1934, 48 Stat. 1064, relating to the granting by the Federal Communications Commission of licenses for
the construction and operation of radio broadcasting stations. The authority of this court in such cases is defined by subsection (e) of the Act, as follows:

"* * * that the review by the court shall be limited to questions of law, and that findings of fact by the commission, if supported by substantial evidence shall be conclusive unless it shall clearly appear that the findings of the commission are arbitrary or capricious. * * *"\n
The decision of the Commission in the cases now upon appeal relates to certain applications of the Portland Broadcasting System, Inc., hereinafter called the Portland System, the Eastland Company, and the Congress Square Hotel Company, as intervener, for licenses permitting the use of broadcasting frequency 640 kc, for limited time of operation.

In addition to these applications, ten others involving numerous requests and proposals relating to broadcasting frequency 640 kc., were heard and denied by the Commission concurrently with those herein appealed. No appeal, however, was taken in any of the other ten applications. The present hearing therefore is confined to the appeals wherein the Eastland Company and the Congress Square Hotel Company, respectively, are appellants, in both of which the Portland System is appellee.

On April 5, 1934, the Portland System, a Maine corporation, applied to the Commission for authorization to construct a new radio station at the city of Portland, Maine, for unlimited daytime operation upon frequency 640 kc., with 500 watts power, "call letters new".

On August 3, 1934, the Eastland Company, also a Maine corporation, applied to the Commission for authorization to construct a new radio station at the city of Portland, Maine, for unlimited daytime operation upon frequency 640 kc., power 100 watts, "call letters new".

At the time in question the Congress Square Hotel Company was the owner and licensee of an existing radio broadcasting station at Portland, Maine, known by the call letters WCSH, it being the only broadcasting station in Portland at that time. It operated upon frequency 940 kc., with power of 1 kw. nighttime, 2½ kw. daytime, and unlimited hours of operation. This station, which was owned by the Eastland Company, opposed the granting of the application of the Portland System for authority to construct a new broadcasting station at Portland, and it has appealed from the Commission's order granting such application. The appeal of station WCSH is based chiefly upon the ground that such a station would unjustly prejudice the broadcasting patronage of that station.

It may be noted that the contestants both apply for authorization to use frequency 640 kc. in the stations proposed by them. This is a clear channel under the Commission's Rule 72, that is a channel upon which only a single station is permitted to operate during night hours. During daylight hours, however, it is possible to allow duplication on such a frequency, inasmuch as (according to the theories of those learned in the art) the so-called sky-wave or ray, which is reflected in the upper atmosphere during the night hours, does not return to earth with sufficient intensity to cause interference. Such stations are designated by Rule 77 of the Commission as "limited time" stations. The frequency 640 kc. was regularly assigned by the Commission to broadcasting station KFI, located at Los Angeles, California, and accordingly the applications herein in question were for daytime operation only.

The Commission after hearing the present applications, granted that of the Portland System, denied that of the Eastland Company, and concurrently overruled the objection of the Congress Square Hotel Company. The present appeals were then taken.

The Brief of the appellants sets out four contentions in support of their appeals. The first of these reads as follows:

"1. The order and decision of the Broadcasting Division are invalid as having been made by a division of the Commission, the majority of which neither heard the evidence nor passed upon a report thereof."

Upon an examination of the record we are convinced that this contention must be overruled.

Under section 4 (a) of the Communications Act, supra, it is provided that the Federal Communications Commission shall be composed of seven commissioners. Under section 5 (a) it is provided that the Commission is authorized by its order to divide the members thereof into not more than three divisions each to consist of not less than three members, and that any commissioner may be assigned to and may serve upon such division as the Commission may direct; and in case of a vacancy in any division the chairman of the Commission may temporarily serve. By section 5 (b) it is provided that the Commission may assign or refer any of its work or functions to any of such divisions for action thereon. By section 5 (c) it is provided that each division so constituted shall have power and authority by a majority thereof to hear and determine as to any of the work or functions assigned to it for action by the Commission, and shall have all the jurisdiction and power conferred by law upon the Commission and be subject to the same duties and obligations, and that any decision made by such division in respect of any matter so assigned to it shall have the same force and effect as if made by the Commission.

Under Commission Order No. 1, passed July 17, 1934, Commissioners Gary, Brown, and Sykes were assigned for duty on the Broadcasting Division, and served as such when the applications involved in this case came on for hearing, to wit, from October 22 to November 2, 1934. On January 1, 1935, Commissioner Gary resigned,
and was succeeded by Commissioner Prall. On March 9, 1935, Commissioner Brown was assigned to the Telegraph Division, and was succeeded as a member of the Broadcasting Division by Commissioner Case. The applications involved in this case were decided on May 1, 1936, by the Broadcasting Division composed of Commissioners Sykes, Case, and Prall.

The record discloses that oral testimony was introduced in the case beginning October 22, 1934 and that afterwards various depositions and publications were introduced as evidence in the case. Accordingly on May 1, 1936 the Division which entered the decision in the case was composed of commissioners who had not heard the oral testimony but nevertheless had been members of the Division for more than a year prior to the date of the decision, and during that time the stenographic reports of the oral testimony and copies of the written evidence were all in their possession and under consideration by them.

No question is raised by the appellants as to lack of notice, or opportunity to present evidence and file briefs or as to the manner in which the hearing itself was conducted. The appellants were accorded ample and timely notice and a full opportunity to be heard. The commissioners who entered the decision report that they had fully considered the evidence and the entire record of the case.

The contention of appellants is that they were entitled to have their case passed upon by the identical members of the Broadcasting Division who sat at the presentation of all of the evidence in the case, and that the procedure followed amounted to a denial of a lawful hearing and trial of the case, inasmuch as two members who joined in the decision did not hear the oral evidence when delivered by the witnesses in person.

In our opinion the partial change in the personnel of the Division which decided the case did not invalidate its decision, for it was nevertheless the decision of the Division which acted upon the evidence.

In section 4, subsection (j), of the Act, supra, it is provided that:

"The Commission may conduct its proceedings in such manner as will best conduce to the proper dispatch of business and to the ends of justice. No commissioner shall participate in any hearing or proceeding in which he has a pecuniary interest. Any party may appear before the Commission and be heard in person or by attorney. Every vote and official act of the Commission shall be entered of record, and its proceedings shall be public upon the request of any party interested. The Commission is authorized to withhold publication of records or proceedings containing secret information affecting the national defense."

Rule 106.8 of the Commission, provides as follows:

"106.8 Except as otherwise provided herein, the rules of evidence governing civil proceedings in the courts of the United States shall govern formal hearings before the Commission; Provided, however, That the Commission reserves the right to relax such rules in any case where in its judgment the ends of justice will be better served by so doing."

It is provided by sections 409 (a) and (e) of the Act, supra, as follows:

"Sec. 409 (a) Any member or examiner of the Commission, or the director of any division, when duly designated by the Commission for such purpose, may hold hearings, sign and issue subpenas, administer oaths, examine witnesses, and receive evidence at any place in the United States designated by the Commission; except that in the administration of Title III [relating to broadcasting] an examiner may not be authorized to exercise such powers with respect to a matter involving (1) a change of policy by the Commission, * * * *

"(e) The testimony of any witness may be taken, at the instance of a party, in any proceeding or investigation pending before the Commission, by deposition, at any time after a cause or proceeding is at issue on petition and answer, * * *"

The testimony in the present case according to statute would have been taken by an examiner and reported to the Commission but this course was not followed inasmuch as the questions raised by the ten application not involved in this appeal concerned a "change of policy" of the Commission. It is plain that much of the testimony in such cases must be received by the Commission in stenographic reports, inasmuch as the Commission's jurisdiction extends throughout the entire country and it would often be very expensive for witnesses to come to Washington to testify orally and impossible for the Commission personally to go to various different parts of the country to hear oral evidence. See: Garden City Feeder Co. v. Commissioner of Int. Rev., 75 F. (2d) 804; Van Buren Water Works v. Van Buren, 152 Ark. 83; State ex rel American Telechronometer Co. v. Baker, 164 Wash. 483; Union Public Service v. Corporation Commission, 140 Kan. 722.

In the Telechronometer case, supra, the court said:

"The members of the department who made the order * * * were the lawfully constituted department of public works, they had before them the entire record, and it was their duty to enter such order thereon as in their opinion was proper * * * the fact that changes took place in the personnel of the department during the course of the hearing avails respondent nothing in its attack upon the order which is the basis for this proceeding."

Moreover, it is provided by section 409 (e) of the act that the Commission may grant a rehearing of any deci-
We think the testimony is sufficient to support the Commission's decision.

No motion, however, was made by appellants for a re-hearing before the Division, nor before the Commission. It seems therefore that no injustice has resulted to appellants because of the circumstances attending the hearing of the case.
